Chapter 3. TRADE REMEDIES

Article 3.1. Subsidies and Countervailing Measures

1. The rights and obligations of the Parties relating to subsidies and countervailing measures shall be governed by Articles VI and XVI of the GATT 1994 and the WTO SCM Agreement, except as provided for in paragraphs 2 and 3.

2. Before initiating a countervailing investigation, a Party shall afford another Party concerned adequate opportunity for consultations with the aim of seeking a mutually acceptable solution. The consultations shall be held as soon as possible, but no less than 7 days from the receipt of the invitation. The invitation shall be communicated through channels that allow a record of the communication, including registered post, courier, or electronic transmission. A Party may continue an investigation if no mutually acceptable solution is reached within 21 days from the receipt of the invitation, unless the Parties concerned agree to continue the consultations.

3. If a Party takes a decision to impose a countervailing measure, that Party shall apply the "lesser duty" rule by imposing a duty which is less than the subsidy margin, when such lesser duty would be adequate to remove the injury to the domestic industry.

4. No Party shall have recourse to Chapter 12 (Dispute Settlement) for any matter arising under this Article.

Article 3.2. Anti-dumping

1. Subject to paragraphs 2 to 12, the rights and obligations of the Parties in respect of the application of anti-dumping measures shall be governed by Article VI of the GATT 1994 and the WTO Anti-dumping Agreement.

2. The Parties agree not to take such measures in an arbitrary or protectionist manner. When a Party has accepted a properly documented application and before initiating an investigation under the WTO Anti-dumping Agreement, that Party shall notify in writing another Party whose goods are allegedly being dumped 10 days in advance of initiating the investigation and provide it with the full text of such application. As soon as possible and no later than 10 days from receipt of the notification of the receipt of the application, the exporting Party may request pre-initiation consultations with the importing Party, with the aim to clarify all possible concerns regarding the matters referred to in the application and arriving at a mutually acceptable solution. (2)

3. The existence of margin of dumping in an original investigation or in a review may normally be established on the basis of a comparison of a weighted average normal value with a weighted average of prices of all comparable export transactions for the good as a whole.

4. When anti-dumping margins are established, assessed or reviewed under Articles 2, 9.3, 9.5, and 11 of the WTO Anti-dumping Agreement, regardless of the comparison basis under Article 2.4.2 of the WTO Anti-dumping Agreement, all individual margins, whether positive or negative, shall be counted toward the average.
5. Where originating goods are subject to an anti-dumping investigation, the export price of such goods before adjustment for fair comparison, in accordance with Article 2.4 of the WTO Anti-dumping Agreement, shall be based on the value which appears in relevant documents, including the certificate of origin for the goods.
6. If the investigating authority of the importing Party determines that the value referred to in paragraph 5 is unreliable because of association or a compensatory arrangement between the exporter and the importer or a third party, the export price may be constructed in accordance with Article 2.3 of the WTO Anti-dumping Agreement.
7. An individual margin of dumping for an exporter or producer shall be determined with respect to all export transactions during a certain time-period, subject to Article 2.4.2 of the WTO Anti-dumping Agreement, which in no case shall be less than six consecutive months.
8. If a Party takes a decision to impose an anti-dumping duty pursuant to paragraph 1, that Party shall apply the "lesser duty" rule by imposing a duty which is less than the dumping margin, when such lesser duty would be adequate to remove the injury to the domestic industry.
9. Where an anti-dumping investigation of an importing Party with respect to goods from another Party is terminated with negative final determination, that importing Party shall not initiate an investigation on the same goods within one year from the termination of the previous investigation.
10. Notwithstanding paragraph 9, the investigating authority of the importing Party may initiate an investigation in an exceptional circumstance. If an investigation is initiated in such a case, the authorities shall explain the exceptional circumstance which warrants initiation in the notice of initiation.
11. 5 years from the entry into force of this Agreement, the Parties shall review the provisions of this Article in the Joint Committee. The Parties shall thereafter conduct biennial reviews of the provisions in the Joint Committee.
12. No Party shall have recourse to Chapter 12 (Dispute Settlement) for any matter arising under this Article.

(2) It is understood that investigations may be undertaken in parallel with ongoing consultations and that in the absence of a mutually acceptable solution each Party retains its rights and obligations under Article VI of the GATT 1994 and the WTO Anti-dumping Agreement, subject to paragraphs 3 to 12.

Article 3.3. Global Safeguard Measures

1. This Agreement shall not confer any additional rights or impose any additional obligations on the Parties with regard to actions taken pursuant to Article XIX of the GATT 1994 and the WTO Safeguards Agreement, except that a Party taking a safeguard measure under Article XIX of the GATT 1994 and the WTO Safeguards Agreement may, to the extent consistent with its obligations under the WTO Agreements, exclude imports of an originating good from another Party if such imports are not a substantial cause of serious injury or threat thereof.
2. No Party shall have recourse to Chapter 12 (Dispute Settlement) for any matter arising under this Article.

Article 3.4. Bilateral Safeguard Measure

1. Where, as a result of the reduction or elimination of a customs duty under this Agreement, any goods originating in a Party is being imported into the territory of another Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute a substantial cause of serious injury or threat thereof to the domestic industry of like or directly competitive goods in the territory of the importing Party, the importing Party may take bilateral safeguard measures to the extent necessary to remedy or prevent the injury, subject to paragraphs 2 to 14.
2. Bilateral safeguard measures shall only be taken upon clear evidence that increased imports have caused or are threatening to cause serious injury pursuant to an investigation.
3. A Party may apply a bilateral safeguard measure only following an investigation by its investigating authority pursuant to the following:
 - (a) the investigation shall include reasonable public notice to all interested parties and public hearings or other appropriate

means in which importers, exporters and other interested parties could present evidence and their views, including the opportunity to respond to the presentations of other interested parties and to submit their views, inter alia, as to whether or not the application of a bilateral safeguard measure would be in the public interest. The investigating authority shall publish a report setting forth its findings and reasoned conclusions reached on all pertinent issues of fact and law including a detailed analysis of the case under investigation as well as a demonstration of the relevance of factors examined;

(b) in the investigation to determine whether increased imports have caused or are threatening to cause serious injury to a domestic industry under the terms of this Agreement, the investigating authority shall evaluate all relevant factors of an objective and quantifiable nature, having a bearing on the situation of the domestic industry, in particular, the rate and amount of the increase in imports of the originating good concerned in absolute and relative terms, the share of the domestic market taken by increased imports, and changes in the level of sales, production, productivity, capacity utilisation, profits and losses, and employment;

(c) the determination of serious injury, or threat thereof shall not be made unless the investigation demonstrates, on the basis of objective evidence, the existence of a causal link between increased imports of the goods concerned and serious injury or threat thereof. When factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports; and

(d) any information which is by nature confidential, or which is provided on a confidential basis shall, upon cause being shown, be treated as such by the investigating authority. Such information shall not be disclosed without permission of the Party submitting it. A Party providing confidential information may be requested to furnish non-confidential summaries thereof or, if it indicates that such information cannot be summarised, the reasons why a summary cannot be provided. However, if the investigating authority finds that a request for confidentiality is not warranted and if the Party concerned is either unwilling to make the information public or to authorise its disclosure in generalised or summary form, the investigating authority may disregard such information unless it can be demonstrated to their satisfaction from appropriate sources that the information is correct.

4. A Party intending to take a bilateral safeguard measure shall immediately, and in any case before taking a measure, notify the exporting Party. The notification shall contain all pertinent information, which shall include evidence of serious injury or threat thereof caused by increased imports, a precise description of the goods involved, and the proposed measure, as well as the expected duration and timetable for the progressive removal of the measure. As soon as available, the estimated date of introduction or time-period for implementing the decision shall also be notified.

5. If the conditions in paragraph 1 are met, the importing Party may take a bilateral safeguard measure consisting in:

(a) suspending the further reduction of any rate of customs duty provided for under this Agreement for the goods; or

(b) increasing the rate of customs duty for the goods to a level not to exceed the lesser of:

(i) the most-favoured-nation rate of duty applied at the time the action is taken; or

(ii) the most-favoured-nation rate of duty applied on the day immediately preceding the entry into force of this Agreement.

6. Bilateral safeguard measures shall be taken for a period not exceeding 2 years. In very exceptional circumstances, measures may be taken up to a total maximum period of 3 years. The Party intending to extend the period beyond 2 years shall make a notification to the exporting Party containing the elements listed in paragraph 3 before taking a measure.

7. The Parties concerned shall allow for consultations. Within 30 days from the notification, the Parties concerned shall examine the information provided under paragraphs 3 and 5 in the Joint Committee in order to facilitate a mutually acceptable solution of the matter.

8. In critical circumstances, where delay would cause damage which would be difficult to repair, a Party may take a provisional bilateral safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry. The Party intending to take such a measure shall immediately notify the exporting Party thereof. Within 30 days from the notification, the pertinent procedures set out in paragraphs 3 to 7 shall be initiated.

9. Any provisional bilateral safeguard measures shall be terminated within 200 days from its imposition. The period of application of any such provisional measure shall be counted as part of the duration of the measure and any extension thereof, set out in paragraph 5. Any tariff increases shall be promptly refunded if the investigation described in paragraph 2 does not result in a finding that the conditions of paragraph 1 are met.

10. A Party that may be affected by a bilateral safeguard measure, or a provisional bilateral safeguard measure, shall be offered, by the Party proposing to apply the measure, adequate means of trade liberalising compensation in the form of

concessions having substantially equivalent trade effects. Compensation shall be based on the total period of application of the bilateral safeguard measure.

11. If, within the 30-day period set out in paragraph 6, the Parties concerned are unable to agree on compensation offered by the Party proposing to apply the bilateral safeguard measure, in accordance with paragraph 9, the Party against which the bilateral safeguard measure is applied may take compensatory action having trade effects equivalent to the bilateral safeguard measure for the minimum period necessary to achieve the equivalent trade effects. The compensatory action shall be immediately notified to the Party applying the bilateral safeguard measure. Such compensation described in paragraph 9 shall not be provided if the measure described in paragraph 4 is applied for up to 2 years.

12. Upon the termination of the measure, the rate of customs duty shall be the rate which would have been in effect but for the measure.

13. No bilateral safeguard measure shall be applied against a particular good while a safeguard measure referred to in Article 3.3 or under the WTO Agreement on Agriculture is being applied to that good. If such a global safeguard measure is applied against a particular good, any existing bilateral safeguard measure which is applied against that good shall be terminated.

14. 5 years from the entry into force of this Agreement, and thereafter biennially, the Parties shall review in the Joint Committee whether there is a need to maintain the possibility to apply bilateral safeguard measures among them. In these reviews, the Parties may decide to terminate the application of this Article.

Chapter 4. SANITARY AND PHYTOSANITARY MEASURES

Article 4.1. Objectives

The objective of this Chapter is to protect human, animal and plant life and health in the territory of the Parties while facilitating trade between them, by:

- (e) establishing mechanisms and procedures for trade facilitation; and improving communication, consultation and cooperation between the Parties on SPS measures.

Article 4.2. Affirmation of WTO SPS Agreement

Each Party affirms its rights and obligations with respect to the other Parties under the WTO SPS Agreement. Nothing in this Agreement shall affect the rights and obligations that each Party has under the WTO SPS Agreement.

Article 4.3. Scope

This Chapter shall apply to all SPS measures of a Party that may, directly or indirectly, affect trade between the Parties.

Article 4.4. Internal Harmonisation

Each Party shall ensure that animals, animal products, plants and plant products lawfully put on the market can move freely within its territory provided that they comply with the relevant SPS requirements of the market at the point of entry.

Article 4.5. Competent Authorities

1. The Parties shall exchange names, addresses and competences of their competent authorities responsible for the implementation of this Chapter.
2. In accordance with Article 4.16, the Parties shall inform each other about any significant changes in such information.

Article 4.6. Recognition of Pest and Disease Area Status

The Parties recognise the concepts of zoning, compartmentalisation and regional conditions, including pest- or disease-free areas and areas of low pest or disease prevalence. The Parties shall take into account the relevant decisions of the WTO SPS Committee and international standards, guidelines and recommendations.

Article 4.7. Determination of Equivalence

1. Equivalence may be determined for an individual measure, groups of measures, or systems related to a certain commodity or categories of commodities.
2. The consideration of equivalence by the importing Party upon request of the exporting Party for recognition of its measures shall not be a reason to disrupt trade or suspend ongoing imports from the exporting Party.
3. Within a reasonable period of time after conclusion of its assessment, the importing Party shall notify the exporting Party in writing about the equivalence determination. The importing Party shall implement the measure within a reasonable period of time. If an equivalence determination does not result in recognition by the importing Party, the importing Party shall provide the exporting Party with the rationale for its decision.
4. The decision of recognition, non-recognition, withdrawal or suspension of equivalence rests solely with the importing Party acting in accordance with its administrative and legislative framework taking into account the guidelines, standards, and recommendations of the WOH, IPPC and the Codex Alimentarius.
5. If the importing Party formally recognises equivalence, it shall promptly adopt measures to give effect to the equivalence and enable trade between the Parties.

Article 4.8. Verifications

1. In order to obtain or maintain confidence in the effective implementation of this Chapter, each Party, within the scope of this Chapter, shall have the right to carry out audits and verifications of the competent authorities' control programs or procedures of any other Party.
2. The process shall be carried out in accordance with the relevant international standards, guidelines and recommendations of the Codex Alimentarius, WOH and IPPC. In particular, verification activities shall concentrate primarily on evaluating the effectiveness of the official inspection and certification systems rather than on specific commodities or establishments in order to determine the ability of the exporting Party's competent authority to control and deliver the required assurances to the importing Party.
3. The frequency of verifications shall depend on the results of previous verifications.
4. If the importing Party decides to carry out a verification visit in the exporting Party, the importing Party shall notify the exporting Party of the verification visit at least two months prior to such visit, except in emergency cases or if the Parties agree otherwise. Any modification concerning the verification visit shall be agreed by the Parties concerned.

Article 4.9. Import Checks and Certification Procedures

1. Each Party shall ensure that its control, inspection and approval procedures, including, inter alia, procedures for sampling, testing and certification are in accordance with Annex C of the WTO SPS Agreement and this Article.
2. Each Party shall ensure that animals and animal products, plants and plant products, or other related goods - exported to another Party comply with the SPS requirements set out in the certificates of the importing Party.
3. The importing Party shall ensure that its import conditions for products imported from another Party are applied in a non-discriminatory manner and proportional to the risk associated with such products.
4. Import checks applied to imported products shall be carried out without undue delay and in the least trade-restrictive manner.

5. Information about the frequencies of import checks on such importations shall be made available upon request.
6. If goods are rejected at a port of entry due to a verified sanitary or phytosanitary issue, the importing Party shall inform the exporting Party's competent authority as soon as possible.
7. If the importing Party finds that certain goods are not in compliance with its requirements, it may put such goods under official detention and, in consultation with the exporter or its representative, decide to subject such goods to appropriate measures as defined in its domestic law. In taking these decisions, the importing Party shall take into account any information available to it or information submitted to it in a timely manner depending upon the risk, including submissions from the exporter or its representative. The persons responsible for the consignment shall be liable for the costs incurred by the importing Party for these activities.
8. Each Party shall ensure that the exporter or its representative shall have the right of appeal against decisions, and that he or she is provided with information about his or her rights of appeal, the applicable procedure and time limits.
9. This Article shall be without prejudice to the right of the competent authorities to promptly take an appropriate decision concerning emergency measures for the protection of human, animal or plant life or health taken to address serious risks for human, animal or plant life or health. The circumstances leading to the decision shall be explained to the exporter or its representative.
10. Inspection fees shall be equitable in relation to fees charged for the inspection of like domestic products.
11. Without prejudice to each Party's right to import controls, the importing Party shall accept certificates issued by the relevant competent authority in the exporting Party in compliance with the regulatory requirements of the importing Party.

Article 4.10. Risk Assessment

1. The Parties shall strengthen cooperation on risk assessment in accordance with the WTO SPS Agreement while taking into account the relevant decisions of the WTO SPS Committee and international standards, guidelines and recommendations.
2. When conducting a risk assessment, the importing Party shall ensure that the risk assessment is documented and that it provides the concerned exporting Party or Parties with an opportunity to comment, in a manner to be determined by the importing Party.
3. Upon request by the exporting Party, the importing Party shall inform the exporting Party about the progress of the specific risk assessment request and any delay that may occur during the process.
4. Without prejudice to emergency measures, no Party shall stop the importation of a good of another Party solely for the reason that the importing Party is undertaking a review of an existing SPS measure.

Article 4.11. Emergency Measures

1. If a Party adopts an emergency measure which is necessary for the protection of human, animal, plant life or health and that may have an effect on trade, it shall immediately notify the exporting Parties concerned in writing through the contact points established under Article 4.16 or already established communication channels of the Parties.
2. The exporting Parties concerned may request discussions with the Party adopting an emergency measure according to paragraph 1. Such discussions shall be held as soon as practicable. Each Party shall endeavour, as part of these discussions, to provide relevant information. Each Party involved in the discussions shall take due account of any information provided through the discussions.
3. If a Party adopts an emergency measure, it shall review that measure within a reasonable period of time or upon request of the exporting Party. The importing Party may, if necessary, request relevant information and the exporting Party shall endeavour to provide the relevant information to assist the importing Party in the review of the adopted emergency measure. The importing Party shall provide the result of the review to the exporting Party upon request. If the emergency measure is maintained after the review, the importing Party shall review the measure periodically based on the most recent available information and, upon request of the exporting Party, shall explain the reason for the continuation of the emergency measure.

Article 4.12. Transparency

Where appropriate, this exchange of information may include exchange visits of officials. Upon request, notifications not covered by the WTO SPS Agreement shall be made to the contact points established under Article 4.16 in English. However, in case a Party wishes to notify in any other WTO language, an English translation shall be made available to the Parties.
2. Without prejudice to the WTO SPS Agreement, as regards notification of measures, the Parties may also exchange information on other relevant topics, including:
 - (a) any serious or significant human, animal or plant life or health risk, including any food emergencies; and
 - (b) sanitary and phytosanitary import requirements and their amendments, including the models for the official certificates or attestations, as prescribed by the importing Party.

Such consultations shall be initiated as early as possible and conducted by the competent authorities of the Parties concerned in a mutually agreed manner. The outcome of the consultations shall be reported to the Sub-Committee on SPS.

(a) improve the implementation of the Agreement on Technical Barriers to Trade, as set out in Annex 1A to the WTO Agreement (hereinafter referred to as the "WTO TBT Agreement");

(e) promote convergence and alignment of technical regulations and standards towards relevant international technical regulations and standards, whenever applicable; and

Article 5.2. Affirmation of the WTO TBT Agreement

1. The Parties affirm their rights and obligations with respect to each other under the WTO TBT Agreement which is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

2. No Party shall have recourse to dispute settlement under Chapter 12 (Dispute Settlement) for a matter that exclusively alleges a violation of the provisions of the WTO TBT Agreement.

Article 5.3. Scope

1. This Chapter shall apply to the preparation, adoption and application of all technical regulations, standards and conformity assessment procedures of central level of government bodies which may affect trade in goods between the Parties.

2. Each Party shall take such reasonable measures as may be available to it to ensure compliance with this Chapter by regional level government bodies on the level directly below that of the central level of government within its territory, which are responsible for the preparation, adoption and application of technical regulations, standards and conformity assessment procedures.

3. Notwithstanding paragraph 1, this Chapter shall not apply to:

(a) purchasing specifications prepared by governmental bodies for production or consumption requirements of such bodies; and

Article 5.4. Cooperation

1. The Parties shall strengthen their cooperation with a view to increase the mutual understanding of their respective systems and facilitate access to their respective markets. To this end, they may establish regulatory dialogues at both the horizontal and sectoral levels.

2. In their cooperation, the Parties shall work to identify, develop and promote trade facilitating measures which may include:

(a) reinforcing regulatory cooperation through, for example, training, exchange of information, experience and data whenever available, and scientific and technical cooperation with a view to create technical regulations that are not more trade restrictive than necessary and make efficient use of regulatory resources;

(b) where appropriate, considering the simplification of technical regulations, standards and conformity assessment procedures;

(c) working towards the possibility of converging or aligning technical regulations, standards and conformity assessment procedures, in particular where no international standards exist;

(d) promoting and encouraging cooperation between their respective organisations, public or private, responsible for technical regulations, standardisation, conformity assessment procedures and metrology, both bilaterally and in international fora;

(i) promoting the development of the necessary technical infrastructure in the field of standardisation, conformity assessment and metrology.

Article 5.5. Technical Regulations

1. The Parties recognise the importance of the use of international standards and agree:

(a) to use relevant international standards or relevant parts of them as a basis for technical regulations, except when such international standards would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued in accordance with Article 2.4 of the WTO TBT Agreement;

(b) where international standards have not been used as a basis for technical regulations, upon request of a Party, to explain to that Party in writing the reasons why such standards have been judged inappropriate or ineffective for the aim pursued and, whenever possible, to identify the parts which in substance deviate from relevant international standards;

(c) to each publish, free of charge, technical regulations on an official website;

(d) to ensure that interested persons of another Party are allowed to participate in any consultation open to the general public concerning the preparation of technical regulations;

(e) when making notifications in accordance with Article 2.9 of the WTO TBT Agreement, to allow for the Party receiving the notification, normally 60 days from the notification, to provide comments in writing on the proposal unless in exceptional cases where urgent problems explicitly stated, of safety, health, environmental protection or national security arise or threaten to arise; and where practicable to give appropriate consideration to reasonable requests for extending the comment period;

(f) except in urgent circumstances referred to in Article 2.10 of the WTO TBT Agreement, to allow a reasonable interval between the publication of technical regulations and their entry into force in order to allow time for the economic operators of the exporting Party to adapt their products or methods of production to the requirements of the importing Party; and

(g) to consider the possibility of recognising the equivalence of technical regulations of another Party. For that purpose, a Party which has prepared a technical regulation that it considers to be equivalent to a technical regulation of another Party, having essentially the same objective, scope and level of protection to be achieved may request in writing that another Party recognises it as equivalent. Such written request shall set out the reasons why the technical regulations are considered to be equivalent.

2. To facilitate an appropriate explanation under subparagraph 1 (a), the requesting Party shall ensure that its request for an explanation:

(a) identifies the relevant international standard, guide or recommendation that the requested Party has not used as the basis for its technical regulation; and

(b) describes how the technical regulation which is not based on the international standard, guide or recommendation is a restriction, or has the potential to restrict trade between the Parties.

3. The Parties shall ensure that products lawfully put on the market can move freely within their respective territories provided that they comply with the relevant requirements on technical barriers to trade of the market at the point of entry.

Article 5.6. Standards

The Parties shall, upon request, exchange information on:

(a) their use of standards related to technical regulations;

(b) their standardisation processes and the use of international standards as a basis for their national standards; and

(c) cooperation agreements or arrangements on standardisation with third parties or international organisations, subject to the confidentiality obligations of those agreements or arrangements.

2. Where standards are made mandatory in a technical regulation, the transparency obligations set out in Article 5.12 shall be fulfilled.

3. Each Party shall encourage its recognised standardisation bodies to cooperate with the relevant recognised standardisation bodies of the other Parties in international standardisation activities. Such cooperation may take place through the Parties' activities in regional and international standardisation bodies of which the recognised standardisation bodies of all the Parties are members.

Article 5.7. Conformity Assessment

1. The Parties recognise that a broad range of mechanisms exist to facilitate the acceptance of the results of conformity assessment procedures conducted in another Party, which may contribute to increased efficiency, avoidance of duplication and cost effectiveness. These mechanisms include:

- (a) the importing Party's acceptance of a supplier's declaration of conformity;
- (b) agreements on mutual acceptance of the results of conformity assessment procedures with respect to specific technical regulations conducted by bodies located in another Party;
- (c) use of accreditation procedures for qualifying conformity assessment bodies located in the territory of another Party;
- (d) governmental designation of conformity assessment bodies located in another Party;

- (b) exchange information on conformity assessment procedures, including on the selection of appropriate conformity assessment procedures;
- (c) exchange information on accreditation policy and promote the use of accreditation to facilitate acceptance of conformity assessment results and consider how to make best use of international standards for accreditation and international agreements involving the Parties' accreditation bodies, for example, through the International Laboratory Accreditation Cooperation (ILAC) Mutual Recognition Arrangement (MRA), or the International Accreditation Forum's (IAF) Multilateral Arrangement (MLA);
- (d) if the Parties accept results of conformity assessment procedures conducted in another Party's territory, it shall be on terms no less favourable than conformity assessment procedures conducted in its own territory; and
- (e) encourage accreditation bodies and conformity assessment bodies, to participate in cooperative voluntary arrangements, as a basis for acceptance of conformity assessment results.

Article 5.8. Joint Cooperation on Technical Regulations, Standards and Conformity Assessment Procedures

1. For the purpose of applying Article 5.1.2 of the WTO TBT Agreement, where a Party requires positive assurance of conformity with its applicable technical regulations for accepting a product on its market, the Party shall ensure that the required level of assurance of conformity takes into account the risk that non-compliance would entail with regard to the legitimate objective pursued.

2. A Party may, in order to fulfil a legitimate objective, decide to introduce pre-registration, registration, authorisation or mandatory third-party conformity assessment to allow access of a product to its market. Before introducing such measures, it shall notify such draft measure in accordance with Article 2.9.2 of the WTO TBT Agreement. Upon request of another Party, it shall provide the reasons with explanation for such proposed change.

3. For sectors where mandatory third-party assurance of conformity or pre-registration, registration or authorisation is required, the Parties agree to encourage their conformity assessment bodies to join any existing arrangements for

international harmonisation of technical regulations and mutual recognition of conformity assessment results at multilateral level, or to cooperate towards the creation of new ones as appropriate.

Article 5.9. Market Surveillance

The Parties undertake, inter alia, to:

- (a) exchange views on market surveillance and enforcement mechanisms and related activities; and
- (b) ensure that there are no conflicts of interest between the market surveillance bodies and the manufacturers or producers subject to control or supervision.

With regard to the processing times and fees charged for assessing the conformity of products, the Parties reaffirm their obligations under Article 5.2 of the WTO TBT Agreement.

Article 5.11. Marking and Labelling

The Parties agree that where their technical regulations contain mandatory marking or labelling requirements, each Party will observe the principles of Article 2.2 of the WTO TBT Agreement and:

- (a) each Party shall endeavour to minimise labelling and marking requirements to those which are relevant to consumers or users of the products or to indicate the products conformity with mandatory technical requirements;
- (b) each Party may specify the content of labels and markings, but shall not require prior approval, registration, or certification of the labels or markings of products as a precondition for placing on their respective markets, for sale or free of charge, products that otherwise comply with its mandatory technical requirements, unless it is not more trade restrictive than necessary to fulfil legitimate objectives;
- (c) if that Party mandates the use of a unique identification number by economic operators, it shall issue such a number to the other Parties' economic operators without undue delay;
- (d) if that Party requires the information on the labels to be in a specified language, it shall also accept other languages in addition to the mandatory language, unless the information would be misleading, contradictory or confusing in relation to the information that the importing Party requires with respect to the goods; and
- (e) each Party shall, except in cases where they consider that legitimate objectives under the WTO TBT Agreement would be compromised thereby, endeavour to accept non-permanent or detachable labels or labelling in the accompanying documentation rather than physically attached to the product.

Article 5.12. Transparency

1. The Parties recognise the importance of the provisions relating to transparency in the WTO TBT Agreement. To this end, the Parties shall take into account relevant Decisions and Recommendations adopted by WTO Committee on Technical Barriers to Trade since 01 January 1995 (G/TBT/1/Rev.15) as may be revised.

4. Each Party shall take the comments of another Party into account and shall, upon request of that other Party, endeavour to provide responses to these comments.
5. If a Party detains at the point of entry an imported consignment, due to non-compliance with a technical regulation or a conformity assessment procedure, it shall notify the importer or its representative, as soon as possible, the reasons for the detention.
6. Unless otherwise provided for in this Chapter, any information or explanation requested by a Party pursuant to this

Chapter shall be provided by the requested Party, in print or electronically, within a reasonable period of time agreed between the requesting and requested Parties and, if possible, within 60 days. Upon request of the requesting Party, the requested Party shall provide such information in English.

Article 5.13. Contact Points

1. Each Party shall designate a contact point responsible for coordinating the implementation of this Chapter.
2. Each Party shall provide the other Parties with the contact details of its contact point and shall promptly notify the other Parties of any change in those.

 - (g) any other matter referred to it by the Joint Committee.
3. The Sub-Committee on TBT shall act by consensus.
4. Unless otherwise agreed by the Parties, the Sub-Committee on TBT shall normally meet every two years. Such meetings may be conducted in any agreed manner on a case-by-case basis. The meetings of the Sub-Committee on TBT shall be chaired jointly by an EFTA State and India.

Article 5.15. Exchange of Information and Consultations

1. A Party shall give prompt and positive consideration to any request from another Party for information, clarification and consultations on issues relating to the implementation of this Chapter. The Sub-Committee on TBT may discuss and decide on timeframes and other modalities on information, clarification and consultations.
2. A Party may request consultations with another Party if that other Party has taken a measure which is likely to create or has created an obstacle to trade between the Parties. Such consultations shall be initiated as soon as possible and may be conducted by the competent authorities of the Parties concerned in a mutually agreed manner. The outcome of the consultations shall be reported to the Sub-Committee on TBT.
3. The Parties agree to enhance their communication and exchange of information on issues within the scope of this Chapter, in particular on ways to facilitate compliance with their technical regulations, standards and conformity assessment procedures and to eliminate unnecessary obstacles to trade in goods between them.

Article 5.16. Review Clause

Upon request of a Party, the Parties shall without undue delay negotiate an arrangement extending to each other equivalent treatment related to technical regulations, standards and conformity assessment procedures which all Parties have agreed with a non-Party.

(4) The Parties understand that with respect to provisions of the GATS that are incorporated into and made part of this Chapter mutatis mutandis, reference to Article II of the GATS shall be understood as referring to Article 6.3 of this Chapter.

Article 6.3. Most-Favoured Nation Treatment (5)

1. Without prejudice to measures taken in accordance with Article VII and Article IL.3 of the GATS, and except as provided for in its list of most-favoured- nation exemptions contained in Annex 6.G, each Party shall accord immediately and unconditionally in respect of all measures affecting the supply of services, to services and service suppliers of another Party, treatment no less favourable than the treatment it accords to like services and services suppliers of any non- Party.
2. Treatment granted under other existing or future agreements concluded by a Party and notified under Article V or Article Vbis of the GATS shall not be subject to paragraph 1.
3. If a Party concludes or amends an agreement of the type referred to in paragraph 2, it shall, upon request of another Party give consideration for negotiating the incorporation into this Agreement of a treatment no less favourable than that provided under the former agreement. Such incorporation, if agreed, should maintain the mutual balance of commitments undertaken by each Party under this Agreement.

1. The specific commitments each Party undertakes in line with Part III of the GATS are set out in Annex 6.F.
2. With respect to sectors where such commitments are undertaken, each schedule shall specify:

(5) This Article shall not apply to Financial Services.

Article 6.5. Natural Persons of a Party

For the purposes of this Chapter, "natural person of another Party" means a natural person who resides in the territory of that other Party or any other Party and who, under the domestic law of that other Party, is:

- (a) a national or citizen of that other Party; or
- (b) a permanent resident of that other Party provided that the Party accords substantially the same treatment to its permanent residents as it does to its nationals in respect of measures affecting trade in services, provided further that no Party is obligated to accord to such permanent residents treatment more favourable than would be accorded by that other Party to such permanent residents.

Article 6.6. Payments and Transfers

1. Except under the circumstances envisaged in Article XII of the GATS, no Party shall apply restrictions on international transfers and payments for current transactions relating to its specific commitments.
2. Nothing in this Chapter shall affect the rights and obligations of the Parties under the Articles of Agreement of the International Monetary Fund adopted at Bretton Woods on 22 July 1944 (hereinafter referred to as "IMF Articles of Agreement"), including the use of exchange actions which are in conformity with the IMF Articles of Agreement, provided that no Party shall impose restrictions on capital transactions inconsistently with its specific commitments regarding such transactions, except under Article XII of the GATS or at the request of the International Monetary Fund.

Article 6.7. Denial of Benefits

In addition to Article XXVII of the GATS, a Party may, subject to prior notification and consultation, deny the benefits of this Chapter to the supply of a service from or in the territory of another Party, if the Party establishes that the service is supplied by a service supplier that is owned or controlled by a person of a non-Party and the denying Party adopts or maintains measures with respect to the non-Party that prohibit transactions with the service supplier or that would be violated or circumvented, if the benefits of this Chapter were accorded to the service supplier.

Chapter 7. INVESTMENT PROMOTION AND COOPERATION

Article 7.1. Objectives

1. The Parties recognise the importance of promoting and facilitating foreign direct investment as a means for fostering economic growth, innovation and green transition.
2. The Parties acknowledge the role of skilled workforce development to advance job opportunities, including through cooperation in basic, higher and technical-vocational education and skill training, capacity building and exchange programs.
3. The Parties share the objectives that:

(a) the EFTA States shall aim to increase foreign direct investment from investors of the EFTA States into India by 50 billion (US dollars) within 10 years from the entry into force of this Agreement and an additional 50 billion (US dollars) in the succeeding 5 years (6) (7); and

(b) the EFTA States shall aim to facilitate the generation of 1 million jobs (8) within 15 years in India from the entry into force of this Agreement, resulting from inflows of foreign direct investment from investors of the EFTA States into India.

(6) Investments routed from outside EFTA States shall be taken into account if shown that the investments are made by investors of an EFTA State. Investments routed through EFTA States by investors of non-Parties either not established in an EFTA State, or established in an EFTA State but without substantial business activities in an EFTA State, shall not be considered as EFTA investments.

(7) The Parties recognise that India's rapid economic development over the last two decades, a time period during which the country's annual nominal GDP growth rate of around 9.5% in US dollars terms, was accompanied by a sustained increase of nominal foreign direct investment stocks from the EFTA States into India (around 13% annual increase over the same time period), resulting in an foreign direct investment stock of the EFTA States in India of 10.7 billion US dollars in 2022. Based on these observations and on future economic growth foreseen by India, the EFTA States aim to contribute to sustaining, and strengthening their, investment footprint in India. This shared objective is based on an estimated nominal GDP growth rate of India in US dollars terms over the next 15 years in line with past growth rates as referred to above, and the anticipated benefits of a full implementation of this Agreement by the Parties, from which the Parties anticipate an outperformance margin on investment of 3 percentage points per year, in addition to estimated annual foreign direct investment increases from the EFTA States based on past growth rates as referred to above.

(8) For greater certainty, "jobs" shall mean direct employment in India which are clearly attributable to the foreign direct investment.

Article 7.2. Investment Promotion

1. To achieve the shared objectives in paragraph 3 of Article 7.1, the EFTA States shall promote foreign direct investments (9) from investors of the EFTA States into India and generation of jobs in India as a result of such investments.

2. In view of promotion activities for investments into India, India shall endeavour to ensure a favourable climate for foreign direct investment, while taking into account the need to identify, assess and mitigate potential risks for security or public order.

(9) For greater certainty, Parties recognise that sovereign wealth funds are excluded from the promotion obligations undertaken by the EFTA States.

Article 7.3. Cooperation Activities

1. The Parties shall cooperate in areas of mutual interest with a view to benefitting from the complementarities of their economies and the opportunities created under this Agreement in terms of the envisaged job creation in accordance with Article 7.1.

2. Areas of cooperation may include:

(a) appropriate means of identifying investment opportunities and information channels on investment regulations, with the aim of facilitating foreign direct investment;

(b) elaboration of strategies and programs to identify key obstacles to and opportunities for investment in the Parties, with a focus on high value- added sectors with linkages to regional and global value chains and potential measures to remove obstacles;

(c) furthering of an environment conducive to increased investment flows; and technology collaboration (10),

(d) development of mechanisms for joint investments and ventures between enterprises including micro, small and medium sized enterprises;

(e) development and execution of public-private strategies for the identification of investment opportunities in, and matchmaking of investors between, the Parties;

- (f) facilitation of continued skill development, vocational and professional education, and training;
- (g) encouragement of technical cooperation and facilitation of technological collaboration in sectors of mutual interest for the development and enhancement of infrastructure and industrial capabilities; and
- (h) facilitation of partnerships among centres of excellence, government agencies and expert institutes in fields of mutual interest. Such fields may include earth science, telemedicine, STEM, healthcare, biotechnology, digital technology, renewable energy, clean technology and sustainable metal making.

3. The Parties may cooperate pursuant to paragraph 2 through activities such as:

- (a) regular economic and scientific missions with high-ranking delegations;
- (b) annual high-level meetings between individual EFTA States and India with the participation of the private sector;
- (c) regular investment promotion events, such as, at the World Economic Forum with participation of the private sector;
- (d) sector-specific business roundtables;
- (e) roadshows in India and in the different EFTA States;
- (f) thematic expert exchanges;
- (g) support for Invest India in setting up representations in some EFTA States;
- (h) exchanges within the framework of existing town twinning programmes;
- (i) support for vocational education and training projects; and
- (j) other activities as mutually agreed by the Parties.

(10) For greater certainty, technology collaboration does not require technology transfer. Technology collaboration may include collaboration for facilitating and promoting cooperation between centres of excellence, dialogue and exchange of information between the Parties, sharing best practices on industrial competitiveness, innovation and technological enhancements, facilitation of MoUs among stakeholders in the respective fields, and discussions on reducing barriers to such effective collaboration.

Article 7.4. Sub-Committee on Investment Promotion and Cooperation

1. The Parties hereby establish a Sub-Committee on Investment Promotion and Cooperation (hereinafter referred to as "Investment Sub-Committee"), consisting of government representatives of the Parties.

2. The mandate of the Investment Sub-Committee is set out in Annex 7.A (Mandate of the Sub-Committee on Investment Promotion and Cooperation).

In no case should it do so later than five months from this date. A party to the dispute may submit written comments to the arbitration panel on its initial report within 14 days from the receipt of the report. The arbitration panel shall take due regard of these comments and present to the parties to the dispute a final report within 30 days from their receipt of the initial report.
2. In cases of urgency, including those involving perishable goods, the arbitration panel shall make every effort to notify its ruling within 60 days from its establishment. Under no circumstances should it take longer than 75 days from its establishment.
3. The final report, as well as any report under Articles 12.9 and 12.10, shall be communicated to the Parties. The reports shall be made public, unless the parties to the dispute decide otherwise.
4. Any decision or ruling of the arbitration panel under any provision of this Chapter shall be final and binding upon the parties to the dispute.

Article 12.8. Suspension or Termination of Arbitration Panel Proceedings

1. Where the parties to the dispute agree, the arbitration panel may suspend its work at any time for a period not exceeding 12 months from the date of such agreement. If the work of the arbitration panel has been suspended for more than 12 months, the authority of the arbitration panel shall lapse unless the parties to the dispute agree otherwise.
2. The parties to the dispute may agree to terminate the proceedings of an arbitration panel established under this Agreement, in the event that a mutually satisfactory solution to the dispute has been found by jointly notifying the chair of that arbitration panel.
3. Before the arbitration panel submits its final report, it may at any stage of the proceedings propose to the parties to the dispute that the dispute be settled amicably.
4. A complaining Party may withdraw its complaint at any time before the final report is issued. Such withdrawal is without prejudice to its right to introduce a new complaint regarding the same issue at a later point in time.

Article 12.9. Implementation of Final Panel Report

1. The Party concerned shall promptly comply with the ruling in the final report. If it is impracticable to comply immediately, the parties to the dispute shall endeavour to agree on a reasonable period of time to do so. In the absence of such agreement within 45 days from the issuance of the final report, either party to the dispute may request the original arbitration panel to determine the length of the reasonable period of time, in light of the particular circumstances of the case. (12) The ruling of the arbitration panel should be given within 30 days from that request.
2. The Party concerned shall notify the other party to the dispute of the measure adopted in order to comply with the ruling in the final report, as well as provide a detailed description of how the measure ensures compliance sufficient to allow the other party to the dispute to assess the measure.
3. In case of disagreement as to the existence of a measure complying with the ruling in the final report or to the consistency of that measure with the ruling, such dispute shall be decided by the arbitration panel before compensation can be sought or suspension of benefits can be applied in accordance with Article 12.10. The ruling of the arbitration panel shall

normally be rendered within 60 days.

(12) A guideline for the arbitration panel should be that the reasonable period of time to comply with its ruling should not exceed 15 months from the date of notification of the ruling.

Article 12.10. Compensation and Suspension of Benefits

1. If the Party complained against does not comply with either of the rulings of the arbitration panel referred to in Article 12.9, or notifies the complaining Party that it does not intend to comply with the final report, that Party shall, upon request by the complaining Party, enter into consultations with a view to agreeing on mutually acceptable compensation. If no such agreement has been reached within 20 days from the date of the request, the complaining Party shall be entitled to suspend the application of benefits granted under this Agreement but only equivalent to those affected by the measure that the arbitration panel has found to be inconsistent with this Agreement.
2. In considering what benefits to suspend, the complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure that the arbitration panel has found to be inconsistent with this Agreement. The complaining Party that considers it is not practicable or effective to suspend benefits in the same sector or sectors may suspend benefits in other sectors.
3. The complaining Party shall notify the other party to the dispute of the benefits which it intends to suspend, the grounds for such suspension and when suspension will commence, no later than 30 days before the date on which the suspension is due to take effect. Within 15 days from that notification, the Party complained against may request the original arbitration panel to rule on whether the benefits which the complaining Party intends to suspend are equivalent to those affected by the measure found to be inconsistent with this Agreement, and whether the proposed suspension is in accordance with paragraphs 1 and 2. The ruling of the arbitration panel shall be given within 45 days from that request. Benefits shall not be suspended until the arbitration panel has issued its ruling.
4. Compensation and suspension of benefits shall be temporary measures and shall only be applied by the complaining Party until the measure found to be inconsistent with this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or until the parties to the dispute have resolved the dispute otherwise.
5. Upon request of a party to the dispute, the original arbitration panel shall rule on the conformity with the final report of any implementing measures adopted after the suspension of benefits and, in light of such ruling, whether the suspension of benefits should be terminated or modified. The ruling of the arbitration panel shall be given within 30 days from that request.
6. Unless otherwise specified in this Agreement, the dispute settlement chapter may be invoked in respect of measures affecting the observance of this Agreement taken by the regional and local governments or authorities of the Parties. When the arbitration panel has ruled that a provision of this Agreement has not been observed, the responsible Party shall take such reasonable measures as may be available to it to ensure its observance. The provisions relating to compensation and suspension of benefits apply in cases where it has not been possible to secure such observance.

Article 12.11. Other Provisions

1. Whenever possible, the arbitration panel referred to in Articles 12.9 and 12.10 shall comprise the same arbitrators who issued the final report. If a member of the original arbitration panel is unavailable, the appointment of a replacement arbitrator shall be conducted in accordance with the selection procedure for the original arbitrators.
2. Each party to the dispute shall bear the costs of its appointed arbitrator and its own expenses and legal costs. The costs of the chair of the arbitration panel and other expenses associated with the conduct of its proceedings shall be borne in equal parts by the parties to the dispute.
