(5) Investments by investors of either Contracting State shall not be subjected to sequestration, confiscation or any similar measures except under due process of law.

Article 4. Treatment of Investments

(1) Each Contracting State shall accord investments and associated activities in connection with these investments, made in its territory by investors of the other Contracting State, fair and equitable treatment. Such treatment shall not be less favourable than that which it accords in like situations to investments and associated activities of its own investors or to investors of any third state, whichever is more favourable to the investor.

(2) Each Contracting State shall accord investors of the other Contracting State, as regards compensation, transfers, returns, management, maintenance, use, enjoyment, acquisition or disposal of their investments, or any other associated activity, treatment not less favourable than that which it accords to its own investors or to investors of any third state, whichever is the more favourable to the investor.

(3) However, the provisions of this Article relating to the granting of treatment not less favourable than that accorded by one Contracting State to its own investors or the investors of any third state shall not be construed so as to oblige that Contracting State to extend to the investors of the other Contracting State the benefit of any treatment, preference or privilege resulting from:

(a) Any customs union, economic union, free trade area, monetary union or similar international agreement or other form of regional cooperative arrangement, to which either of the Contracting States is a party; or

(b) Any international or regional agreement or other similar arrangement relating wholly or mainly to taxation or any domestic legislation relating wholly or mainly to taxation.

(4) Each Contracting State shall not impose on the investor of the other Contracting State mandatory measures, which require or restrict the purchase of materials, energy, fuel or of means of production, transport or operation of any kind or restrict the marketing of products, or any other measures having the effect of discrimination against investments by investors of the other Contracting State in favour of investments by its own investors, unless such measures are deemed vital for reasons of public order or public health.

Article 5. Compensation for Damage or Loss

(1) When investments made by investors of either Contracting State suffer damage or loss owing to war, other armed conflict, a state of national emergency, revolt, insurrection, riot or other similar events in the territory of the other Contracting State, they shall be accorded by the latter Contracting State, treatment, as regards restitution, indemnification, compensation or other settlement, which this Contracting State accords to investments of its own investors or investors of any third state, whichever is more favourable for the investor.

(2) Without prejudice to paragraph (1), investors of one Contracting State who in any of the events referred to in that paragraph suffer damage or loss in the territory of the other Contracting State resulting from:

(a) Requisitioning of their property by its forces or authorities; or

(b) Destruction of their property by its forces or authorities which was not caused in combat action or was not required by the necessity of the situation.

Resulting payments shall be made in a convertible currency and be freely transferable without delay. (3) The condition "without delay" within the meaning of this Article and Articles 6 and 7 is deemed to be fulfilled if a repatriation or transfer is made within such period as is required for the completion of normal bank transfers. The said period shall commence on the day on which the request has been submitted and may on

no account exceed one month.

Article 6. Nationalisation or Expropriation

(1)

(a) Investments by investors of either Contracting State shall not be nationalised, expropriated or subjected to measures having effect equivalent to nationalisation or expropriation (hereinafter collectively referred to as "expropriation") by the other Contracting State except for the public interest related to the internal needs of that Contracting State and against prompt, adequate and effective compensation and on condition that such measures are taken on a non-discriminatory basis under due process of law and in accordance with domestic laws of general application.

(b) Such compensation shall amount to the fair market value of the expropriated investment immediately prior to or at the time when the decision of expropriation was announced or became publicly known, whichever is the earlier. Where the fair market value cannot be readily ascertained, the compensation shall be determined on equitable principles taking into account, inter alia, the capital invested, replacement value, appreciation, current returns, goodwill and other relevant factors. In the event that the payment of compensation is delayed, such compensation shall include interest at the prevailing commercial rate, which in any event shall not be less than the applicable LIBOR-rate of interest, from the date of expropriation until the date of payment. The amount of compensation finally determined shall be promptly paid to the investor in a convertible currency and allowed to be freely transferred without delay.

(c) Where a Contracting State expropriates the investment of a juridical person which is established or licensed under the law in force in its territory and in which investors of the other Contracting State own shares, stocks, debentures or other rights or interest, it shall ensure that prompt, adequate and effective compensation is received by such investors. Such compensation shall be determined and paid in accordance with the provisions of sub-paragraph (b) above.

(2) The investor affected shall, without prejudice to his rights under Article 9 of this Agreement, have a right to prompt review, under the law of the Contracting State making the expropriation, by a competent authority of that Contracting State, of its case, of the valuation of its investment, and of the payment of compensation, in accordance with the principles set out in paragraph (1).

(3) The provisions of this Article shall also apply to any direct or indirect measure of expropriation, nationalisation or other similar measures such as freezing or blocking of assets, levying of arbitrary taxes, the compulsory sale of all or a part of the investment, any state intervention, impairment, deprivation of management or control of any kind with respect to, or a measure resulting in loss of or damage to the economic value of, such an investment, if the effect of such measure or measures, would be tantamount to expropriation.

(4) A claim to compensation in accordance with the principles and provisions of this Agreement shall also exist when, as a result of an intervention by a Contracting State in any company in which investment is made by investors of the other Contracting State, the investment is impaired in substance.

Article 7. Transfer of Payments

(1) Each Contracting State affirms that its legislation concerning foreign currencies is based on the principle of free movement of capital and that the transfer of payments in connection with an investment is free. Transfers shall include in particular, though not exclusively:

(a) The principal and additional amounts to maintain or increase the investment;

(b) The returns;

(c) Repayment of loans;

(d) Royalties and fees for the rights referred to in paragraph (1)(d) of Article 1;

(e) The proceeds from the liquidation or the sale of the whole or any part of the investment;

(f) Unspent earnings and other remuneration of nationals of the other Contracting State or any third state engaged from abroad in connection with an investment;

(g) Amounts spent for the management and maintenance of the investment;

(h) Compensations referred to in Articles 5 and 6;

(i) Payments referred to in Article 8;

(j) Payments arising out of the settlement of a dispute.

(2) Transfers of payments under paragraph (1) shall be effected without delay in a convertible currency at the applicable rate of exchange.

(3) Transfers shall be made at the prevailing market rate of exchange on the date of transfer with respect to spot transactions in the currency to be transferred. In the absence of a market for foreign exchange, the rate to be applied will be the most recent exchange rate for conversion of currencies into Special Drawing Rights or United States Dollars, whichever is more favourable to the investor.

Article 8. Subrogation

(1) If a Contracting State or its designated agency or a company or enterprise incorporated in a Contracting State other than an investor (the "Indemnifying Party") makes a payment under an indemnity or a guarantee it has assumed in respect of an investment or returns in the territory of the other Contracting State (the "Host State"), or otherwise acquires any of the rights and claims of such an investment as a result of the complete or partial default of the investor, the Host State shall recognize:

(a) The assignment to the Indemnifying Party by law or by legal transaction of all the rights and claims resulting from such an investment; and

(b) That the Indemnifying Party is entitled to exercise such rights and enforce such claims by virtue of subrogation, to the same extent as its predecessor in title or the original investor.

(2) The Indemnifying Party shall be entitled in all circumstances to:

(a) The same treatment in respect of the rights and claims acquired by it by virtue of the assignment referred to in paragraph (1) above, and

(b) Any payments received in pursuance of those rights and claims,

As the original investor was entitled to receive by virtue of this Agreement in respect of the investment concerned and its related returns.

Article 9. Settlement of Disputes between a Contracting State and an Investor

(1) Any dispute between a Contracting State and an investor of the other Contracting State with respect to an investment of the latter in the territory of the former shall, unless the parties to the dispute otherwise agree in writing, be settled in accordance with the following provisions of this Article.

(2) The dispute shall as far as possible be settled amicably between the parties to the dispute.

(3)

(a) If the dispute cannot thus be settled within six months, from the date at which either party to the dispute requested amicable settlement, it shall be referred to the International Centre for the Settlement of Investment Disputes ("the Centre") for settlement by conciliation or arbitration under the Washington Convention of 18 March 1965 on the Settlement of Investment Disputes Between States and Nationals of Other States ("the Washington Convention"), and the Regulations and Rules of the Centre.

(b) Either party to the dispute may institute proceedings before the Centre by addressing a request to that effect to the Secretary-General of the Centre as provided in Articles 28 and 36 of the Washington Convention; in the event of disagreement between the parties as to whether conciliation or arbitration is the more appropriate procedure, the investor concerned shall have the right to choose.

(c) Each party to the dispute hereby consents to the submission of disputes to the Centre for settlement by conciliation or arbitration.

(d) For the purpose of any proceedings initiated before the Centre in accordance with this Article, any company which is constituted in accordance with the legislation of one Contracting State, and which, immediately before the dispute arises, is controlled by investors of the other Contracting State, shall, for the purpose of Article 25(2)(b) of the Washington Convention be treated, as an investor of that other Contracting State.

(e) Neither Contracting State shall give diplomatic protection or bring an international claim in respect of any dispute referred to the Centre unless the other Contracting State has failed to abide by or to comply with the award rendered in such dispute.

However, diplomatic protection for the purposes of this sub-paragraph shall not include informal diplomatic exchanges for the sole purpose of facilitating the settlement of a dispute. (4) In case the Washington Convention is not applicable, then the dispute shall at the request of either party to the dispute be submitted for settlement by an arbitral tribunal established under the Arbitration Rules of the United Nations Commission on International Trade Law (UNCITRAL), as those Rules may be modified by the parties to the dispute (the Appointing Authority referred to is the Secretary General of the Centre).

(5) In any proceedings, juridical, arbitral or otherwise, concerning a dispute between it and an investor of the other Contracting State, a Contracting State shall not assert, as a defense, its sovereign immunity. Any counter-claim or right of set-off may not be based on the fact that the investor concerned has received or will receive, pursuant to an insurance contract, indemnification or other compensation for all or part of its alleged damages from any third party whomsoever, whether public or private, including such other Contracting State and its subdivisions, agencies or instrumentalities.

Article 10. Settlement of Disputes between Contracting States

(1) Any dispute between the Contracting States concerning the interpretation or application of this Agreement shall be settled as far as possible through amicable negotiations between the Governments of the two Contracting States.

(2) If a dispute cannot thus be settled within six months following the date on which such negotiations were requested by either Contracting State, it shall, upon the written request of either Contracting State, be submitted to an ad hoc arbitral tribunal in accordance with the following provisions of this Article.

(3) The arbitral tribunal shall be constituted as follows: each Contracting State shall appoint one member, and these two members shall agree upon a national of a third state as their Chairman to be appointed by the Governments of the two Contracting States. Such members shall be appointed within two months, and such Chairman within three months from the date on which either Contracting State has informed the other Contracting State that it intends to submit the dispute to an arbitral tribunal.

(4) If the periods specified in paragraph (3) above have not been observed, either Contracting State may, in the absence of any other arrangement, invite the President of the International Court of Justice to make the necessary appointments. If the President is a national of either Contracting State or if he is otherwise prevented from discharging the said function, the Vice-President shall be invited to make the necessary appointments. If the Vice-President is a national of either Contracting State or if he, too, is prevented from discharging the said function, the member of the Court next in seniority who is not a national of either Contracting State shall be invited to make the necessary appointments.

(5) The arbitral tribunal shall take its decision by a majority of votes. Such decision shall be made in accordance with applicable rules of international law and shall be final and binding on both Contracting States. Each Contracting State shall bear the cost of its member and of its representatives in the arbitral proceedings. The cost of the Chairman as well as any other costs shall be borne in equal parts by the Contracting States, unless the arbitral tribunal makes a different ruling. In all other respects, the arbitral tribunal shall determine its own procedure.

Article 11. Relations between Contracting States

The provisions of this Agreement shall apply irrespectively of the existence of diplomatic or consular relations between the Contracting States.

Article 12. Other Rules

If the legislation of either Contracting State or obligations under international law existing at present or established hereafter between the Contracting States in addition to this Agreement contains a regulation, whether general or specific, entitling investments or associated activities by investors of the other Contracting State to a treatment more favourable than is provided for by this Agreement, such regulation shall to the extent that it is more favourable prevail over this Agreement.

Article 13. Application

This Agreement shall apply to all investments including those made prior to its entry into force by investors of either Contracting State in the territory of the other Contracting State, but not to any investment dispute which arose, or any claim

concerning an investment which was settled, before its entry into force.

Article 14. Entry Into Force

(1) Each of the Contracting States shall notify the other that its constitutional requirements for the entry into force of this Agreement have been complied with.

(2) This Agreement shall enter into force on the thirtieth day after the date of receipt of the last notification.

Article 15. Duration and Termination

(1) This Agreement shall remain in force for a period of thirty (30) years and shall continue in force thereafter for similar period or periods unless, one year before the expiry of the initial or any subsequent period, either Contracting State notifies the other Contracting State in writing of its intention to terminate the Agreement.

(2) In respect of investments made prior to the date when the notice of termination of this Agreement becomes effective, the provisions of this Agreement shall continue to be effective for a period of twenty (20) years from the date of termination of this Agreement.

In witness whereof the respective representatives of both Contracting States, duly authorized thereto, have signed this Agreement.
