1. For products in respect of which China establishes a Country Specific Tariff Quota ("CSTQ") in its Schedule to Annex I (Schedules in Relation to Article 2.4 (Elimination of Customs Duties)), China shall grant duty-free treatment to imports of such products of Australian origin up to the quantity for each year as specified in Annex 2-A after entry into force of this Agreement.

2. Imports of such products of Australian origin in excess of the specified quantity in Annex 2-A in any given calendar year shall be subject to the most-favoured-nation ("MEN") applied rate.

3. The quantities of the CSTQ beyond the last stage specified in Annex 2-A shall remain at the same level as the last stage.

Article 2.14. Special Agricultural Safeguard Measures

1. China may apply a special agricultural safeguard measure to agricultural products specified in Annex 2-B in accordance with this Article.

2. If, during any given calendar year, the volume of imports by China from Australia of the originating products listed in Annex 2-B exceeds the trigger level for the products in that calendar year as set out in Annex 2-B, China may apply a special agricultural safeguard measure to the products in the form of an additional customs duty.

3. The sum of the additional customs duty applied under paragraph 2 and any other customs duties applied to the products in question shall not exceed the lesser of the MEN applied rate of customs duty in effect on the date on which the special agricultural safeguard measure is applied, or the base rate.

4. China may maintain a special agricultural safeguard measure applied under paragraph 2 only until the end of the calendar year in which China applies the measure.

5. Supplies of the products in question which were en route to China on the basis of a contract settled before the special agricultural safeguard measure is applied under paragraph 2 shall be exempted from such additional customs duty, provided that they shall be counted in the volume of imports of the products in question during the following calendar year for the purposes of a determination under paragraph 2 in that calendar year.

6. Any special agricultural safeguard measure shall be applied in a transparent manner. China shall ensure that the volume of imports is published regularly in a manner which is readily accessible to Australia, and shall give notice in writing, including relevant data, to Australia as far in advance as may be practicable, and in any event within 10 days of the implementation of such measure.

7. China may not apply or maintain, with respect to the same products, a special agricultural safeguard measure and, at the same time, apply or maintain a measure under Article XIX of GATT 1994, the Agreement on Safeguards or Chapter 7 (Trade Remedies) of this Agreement.

8. In the last stage of the application of a trigger level for the respective products as set out in Annex 2-B, the Committee on Trade in Goods will conduct a review of the special agricultural safeguard measure. If the review concludes that imports from Australia of the products covered by the special agricultural safeguard measure have not caused serious injury to the corresponding Chinese domestic industry, then the special agricultural safeguard measure for the products will no longer apply. If the Committee determines that serious injury has occurred, then a further review, as specified above, will take place six years later, and every six years thereafter as required.

Article 2.15. Committee on Trade In Goods

1. The Parties hereby establish a Committee on Trade in Goods (hereinafter referred to in this Article as the "Committee") comprising representatives of each Party.

2. The Committee shall meet on request of a Party or the FTA Joint Commission to consider the operation and implementation of this Chapter, Chapter 7 (Trade Remedies), Chapter 3 (Rules of Origin and Implementation Procedures) or Chapter 4 (Customs Procedures and Trade Facilitation).

3. The Committee's functions shall include:

(a) promoting trade in goods between the Parties, including through consultations on accelerating tariff elimination under this Agreement and other issues as appropriate; and

(b) addressing tariff and non-tariff barriers to trade in goods between the Parties and, if appropriate, referring such matters to the FTA Joint Commission for its consideration.

4. The Committee shall submit to the FTA Joint Commission an initial progress report on its work relating to non-tariff measures under Article 2.7, including any recommendations, within one year of the date of entry into force of this Agreement.

5. The Committee shall review the implications of each periodic Harmonized System amendment and promptly recommend to the FTA Joint Commission any necessary amendments to Annex I (Schedules in relation to Article 2.4 (Elimination of Customs Duties)) and Annex II (Product Specific Rules of Origin) to reflect the Harmonized System amendment.

Article 2.16. Dispute Settlement

In that case China shall have three full calendar months from the date of entry into force to prepare for opening the quantity for application. In the year of entry into force of this Agreement, where there will remain less than nine calendar months, the Stage 1 quantity shall not apply until the start of the first complete calendar year after entry into force of this Agreement, and the quantities in subsequent years shall be the full quantities for subsequent stages specified in Table 2.

3. China shall operate the CSTQ in a transparent manner and, on request of Australia, provide information on the quantity of the CSTQ issued. (a) the good is wholly obtained or produced in the territory of a Party in accordance with Article 3.3;

(b) the good is produced entirely in the territory of one or both Parties, exclusively from originating materials; or

(c) the good is produced in the territory of one or both of the Parties, using non-originating materials, complies with the applicable product specific rule contained in Annex II (Product Specific Rules of Origin), and meets the other applicable provisions of this Chapter.

For the purposes of Article 3.2(a), the following goods shall be considered as wholly obtained or produced in the territory of a Party:

Article 3.5. Regional Value Content

1, Where the Regional Value Content (RVC) is referred to in Annex I (Product Specific Rules of Origin), the RVC shall be calculated as follows:

$$RVC = \frac{V - VNM}{V} \times 100$$

V

where:

"RVC" is the regional value content, expressed as a percentage;

"V" is the value of the good, as determined in accordance with the provisions of the Customs Valuation Agreement, adjusted on an FOB basis; and

"VNM" is the value of the non-originating materials, including materials of undetermined origin, as determined in accordance with paragraph 2.

2. The value of the non-originating materials shall be:

Article 3.6. Cumulation

Originating material from the territory of a Party used in the production of a good in the territory of the other Party shall be considered to originate in the territory of the other Party.

Article 3.7. De Minimis

1. A good that does not satisfy a change in tariff classification requirement in accordance with Annex II (Product Specific Rules of Origin) will nonetheless be an originating good if:

(a) the value of all non-originating materials used in the production of the good that does not undergo the required change in tariff classification does not exceed 10 percent of the value of the good as determined in accordance with Article 3.5; and

(b) the good meets all other applicable provisions of this Chapter.

Article 3.8. Accessories, Spare Parts and Tools

1. Accessories, spare parts or tools presented and classified with an originating good that form part of the standard accessories, spare parts, or tools for that good shall be treated as originating goods and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification, provided that:

(a) the accessories, spare parts, or tools are classified and invoiced with the goods and are included in the price of the goods;

(b) the quantities and value of the accessories, spare parts, or tools are customary for the originating goods; and

(c) if the good is subject to a regional value content requirement, the value of the accessories, spare parts, or tools shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the good.

2. Paragraph 1 does not apply where the accessories, spare parts or tools have been added solely for the purpose of artificially raising the regional value content of the goods.

Article 3.9. Fungible Materials

1. The determination of whether fungible materials are originating materials shall be made either by physical separation of each of the materials or by the use of an inventory management method recognised in the generally accepted accounting principles of the exporting Party.

2. Fungible materials means materials which are interchangeable for commercial purposes, whose properties are essentially identical, and between which it is impractical to differentiate by a mere visual examination.

Article 3.10. Packing, Packages and Containers

1. Containers and packing materials used for the transport of a good shall not be taken into account in determining the origin of the good.

2. Where a good is subject to a change in tariff classification requirement in Annex II (Product Specific Rules of Origin), the origin of the packaging materials and containers in which the good is packaged for retail sale shall be disregarded in determining the origin of the good, provided that the packaging materials and containers are classified with the good.

3. Where a good is subject to a regional value content requirement, the value of the packaging materials and containers used for retail sale shall be taken into account as originating materials or non-originating materials, as the case may be, when determining the origin of the good.

Article 3.11. Neutral Elements

1. In determining whether a good is an originating good, any neutral elements as defined in paragraph 2 shall be treated as originating.

(h) — any other goods that are not incorporated into the good but whose use in the production of the good can reasonably be demonstrated to be a part of that production.

Article 3.12. Minimal Operations or Processes

1. A good shall not be considered to be originating only by reason of having undergone one or more of the following operations or processes:

- (a) operations or processes to ensure preservation of goods in good condition for the purposes of transport or storage;
- (b) packaging and repackaging;
- (c) sifting, screening, sorting, classifying, grading, matching (including the making-up of sets of articles);
- (d) placing in bottles, cans, flasks, bags, cases or boxes, fixing on cards or boards, and other simple packaging operations;
- (e) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging; or
- (f) disassembly of goods.

2. Paragraph 1 shall prevail over the product specific rules set out in Annex II (Product Specific Rules of Origin).

Article 3. Direct Consignment

1. An originating good shall retain its originating status provided that the good is directly transported to the importing Party without passing through the territory of a non-party.

2. Notwithstanding paragraph 1, an originating good transported through one or more non-parties, with or without trans-shipment or temporary storage in such non- parties, shall retain its originating status, provided that:

- (a) the good remains under customs control in those non-parties;
- (b) the good does not undergo any operation there other than unloading and reloading, repacking, re-labelling for the purpose of satisfying the requirements of the importing Party, temporary storage or any operation required to keep them in good condition; and
- (c) in cases where the good is temporarily stored in the territory of a non- party, as provided in paragraph 2 of this Article, stay of the good in that non-party shall not exceed 12 months from the date of its entry.

3. Consignments of originating goods may be split up in non-parties for further transport, subject to the fulfilment of the conditions listed in paragraph 2.

4. The customs administration of the importing Party may require the importer to submit documentary evidence to confirm compliance with the conditions listed in paragraph 2.

Section B. Implementation Procedures

Article 3.14. Certificate of Origin

1. For the purposes of obtaining preferential tariff treatment in the other Party, a Certificate of Origin shall be issued by an authorised body of the exporting Party.

2. Each Party shall inform the customs administration of the other Party of the names and addresses of the authorised bodies issuing the Certificates of Origin and shall provide specimen impressions of official seals used by such authorised bodies. Any change in names, addresses or official seals shall be promptly notified to the customs administration of the other Party.

3. A Certificate of Origin shall be issued before or at the time of exportation when the goods have been determined to be originating in the exporting Party in accordance with the provisions of this Chapter. The exporter or producer shall submit an application for the Certificate of Origin together with appropriate supporting documents proving that the goods qualify as originating.

4. The Certificate of Origin, based on the template in Annex 3-A, shall be completed in the English language and shall be duly signed and stamped. A Certificate of Origin shall be applicable to one or more goods under one consignment unless the

Parties otherwise agree and shall remain valid for 12 months from the date of issue.

5. Notwithstanding paragraph 3, in exceptional cases where a Certificate of Origin has not been issued before or at the time of exportation due to force majeure, or involuntary errors, omissions or other valid reasons, a Certificate of Origin may be issued within 12 months from the date of shipment, bearing the remark "ISSUED RETROSPECTIVELY", and remain valid for 12 months from the date of shipment.

6. In cases of theft, loss or accidental destruction of a Certificate of Origin, the exporter or producer may, within the term of validity of the original Certificate of Origin, make a written request to the authorised body that issued the original certificate for a certified copy, provided that the original Certificate of Origin had not been used. The certified copy shall bear the words "CERTIFIED TRUE COPY of the original Certificate of Origin number __ dated __". The certified copy shall have the same term of validity as the original Certificate of Origin.

Article 3.15. Declaration of Origin

1. A Declaration of Origin shall be accepted in place of a Certificate of Origin for any consignment of goods covered by an advance ruling issued by the importing Party in accordance with Article 4.9 (Advance Rulings) of Chapter 4 (Customs Procedures and Trade Facilitation) that deems the good to qualify as originating, so long as the facts and circumstances on which the ruling was based remain unchanged and the ruling remains valid.

2. A Declaration of Origin shall be completed in the English language and duly signed by the exporter or producer in a format based on the template in Annex 3-B. The Declaration shall cover the goods presented under a single import customs declaration and shall remain valid for 12 months from the date of issue.

Article 3.16. Claims for Preferential Tariff Treatment

1. Except as otherwise provided in Article 3.22, each Party shall grant preferential tariff treatment to a good that qualifies as an originating good of the exporting Party provided that the importer:

(a) makes a claim for preferential tariff treatment, either by written or electronic means before or at the time of importation, or otherwise in accordance with the importing Party's laws and regulations, on the grounds that the good qualifies as an originating good;

(b) possesses a valid Certificate or Declaration of Origin for the imported good;

(c) submits, if required by the importing customs administration, the original or copy of the Certificate or Declaration of Origin and such other documentation relating to the importation of the good; and

(d) submits, if required by the importing customs administration, evidence to prove that the consignment criteria specified in Article 3.13 have been met.

2. Where a Certificate or Declaration of Origin is not provided at the time of importation of a good, the importing customs administration may impose the non-preferential import customs duty or payment of a deposit equivalent to the non-preferential duty on that good. In such a case the importer may apply for a refund of any excess import customs duty or deposit paid within one year from the date of importation, or any longer period if provided for by the importing Party in its laws and regulations, provided that the requirements in paragraph 1 are fulfilled.

Article 3.17. Minor Errors or Discrepancies

Where the origin of an imported good is not in doubt, minor transcription errors in a Certificate of Origin or discrepancies in documentation, or the absence of overleaf instructions in a Certificate of Origin, will not of themselves render the Certificate of Origin invalid if it does in fact correspond to the good. However, this does not prevent the customs administration of the importing Party from initiating a verification process in accordance with Article 3.21.

Article 3.18. Waiver of Certificate of Origin or Declaration of Origin

1. For the purpose of granting preferential tariff treatment under this Chapter, a Party shall waive the requirements for the presentation of a Certificate of Origin or Declaration of Origin and grant preferential tariff treatment to:

(a) any consignment of originating goods of a customs value not exceeding 1,000 Australian dollars for Australia or 6,000 RMB for China, or such higher amount as each Party may establish; or

(b) other originating goods as provided under its laws and regulations.

2. Waivers provided for in paragraph 1 shall not be applicable when it is established by the customs administration of the importing Party that the importation forms part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the submission of a Certificate of Origin or Declaration of Origin.

Article 3.19. Amendments to Certificates or Declarations of Origin

1. Neither erasures nor superimpositions shall be permitted on any Certificate or Declaration of Origin. Any amendment to a Certificate of Origin or Declaration of Origin shall be made by striking out the erroneous information and making any addition which might be required. Any such alterations shall be endorsed by the person who made them and, for a Certificate of Origin, certified by the authorised body which issued the Certificate of Origin.

2. Any empty space on a Certificate of Origin or Declaration of Origin shall be crossed out or otherwise marked to prevent subsequent additions.

Article 3.20. Retention of Origin Documents

1. Each Party shall require its producers, exporters, and importers to retain the Certificate of Origin, Declaration of Origin and any other documentary evidence sufficient to substantiate the origin of the goods as defined in this Chapter for 3 years or such longer period in accordance with that Party's laws and regulations.

2. Each Party shall ensure that its authorised bodies retain copies of Certificates of Origin and any other documentary evidence sufficient to substantiate the origin of the goods.

Article 3.21. Verification of Origin

1. For the purposes of determining whether goods imported into the territory of a Party from the territory of the other Party qualify as originating goods, the importing customs administration may conduct a verification process in sequence by means of:

(a) requesting the assistance of the customs administration of the exporting Party;

(b) written requests for information from the exporter or producer in the territory of the exporting Party;

(c) written requests to the authorised body of the exporting Party that issued the Certificate of Origin to verify the validity of the Certificate; or

(d) such other procedures as the customs administrations of the Parties may jointly decide.

2. A verification action under paragraph 1 shall only be initiated when there are reasonable grounds to doubt the accuracy or authenticity of a Certificate of Origin or Declaration of Origin, the origin status of the goods concerned or the fulfilment of any other requirements under this Chapter.

3. In taking verification action pursuant to paragraph 1(a), the customs administration of the importing Party shall:

(a) specify the reasons for the verification action and provide any relevant documents and information obtained to the customs administration of the exporting Party;

(b) limit such requests using a risk management approach; and

(c) endeavour to complete any verification action within six months of the commencement of such action and promptly provide written advice of its decision to all relevant parties.

4. In taking verification action pursuant to paragraph 1(a), the customs administration of the exporting Party shall:

(a) subject to paragraph 4(b), respond promptly to the request and reply not later than three months after its receipt; and

(b) endeavour to provide assistance to the extent permitted by its laws, regulations and policies, but may nevertheless deny or limit assistance on the basis of resource availability.

5. If all verification actions under paragraph 1 have been exhausted and have failed to resolve the concern of the customs administration of the importing Party, a verification visit may be conducted of the premises of the exporter or producer with the prior consent and assistance of the customs administration of the exporting Party, according to procedures jointly

decided by the customs administrations of the Parties.

6. This Article shall not affect the rights of customs administrations of the Parties to undertake verification or compliance activities within their territories in accordance with their laws and regulations.

Article 3.22. Denial of Preferential Tariff Treatment

1. A Party may deny preferential tariff treatment to a good where:

(a) the importer fails to make a claim for preferential tariff treatment before or at the time of importation in accordance with the importing Party's laws and regulations;

(b) the name of the relevant authorised body or the specimen impressions of official seals used by such authorised body, or advice of any change in the above information, have not been provided to the customs administration of the importing Party;

(c) action taken under Article 3.21 failed to verify the eligibility of the good for preferential tariff treatment, including where:

(i) the customs administration of the exporting Party is unable for any reason to respond to the request to the satisfaction of the customs administration of the importing Party; or

(ii) the exporter or producer, as appropriate, fails to provide information which the importing Party has requested within three months of the date of request.

(d) notwithstanding Article 3.18.1, an importation forms part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purposes of circumventing the requirements of this Chapter; or

(e) the good does not or did not comply with the other requirements of this Chapter, including where:

(i) the Certificate or Declaration of Origin has not been duly completed and signed;

(ii) the good does not qualify as an originating good; or

(iii) the data provided under the Certificate or Declaration of Origin does not correspond to those of the supporting documents submitted.

2. In the event that preferential tariff treatment is denied, the customs administration of the importing Party shall provide to the exporter, importer or producer, as the case may be, the reasons for that decision in writing.

Article 3.23. Goods Transported En Route after Exportation

1. The customs administration of the importing Party shall grant preferential treatment for an originating good of the exporting Party which is in the process of being transported from the exporting Party to the importing Party on the date of entry into force of this Agreement.

2. The importer shall make a claim for preferential tariff treatment under paragraph 1 within six months from the date of entry into force of this Agreement and comply with the requirements of Article 3.16.

Article 3.24. Review

The Parties shall commence a joint review of origin documentary requirements within 3 years following entry into force of this Agreement. The review will consider the development of an electronic origin data exchange system to ensure the effective and efficient implementation of this Chapter, as well as the introduction of additional trade facilitative measures including broadening the use of Declarations of Origin.

Article 4.2. Definitions

For the purposes of this Chapter:

(a) customs administration means:

(i) in relation to Australia, the Australian Customs and Border Protection Service or its successor; and

(ii) in relation to China, the General Administration of Customs;

(b) customs laws means the statutory, regulatory and administrative provisions relating to the importation, exportation, movement or storage of goods, the administration or enforcement of which are specifically charged to the customs

administration, and any regulations made by the customs administration under its statutory powers; and

(c) customs procedures means the treatment applied by the customs administration of each Party.

Article 4.3. Customs Procedures and Facilitation

1. Each Party shall ensure that its customs procedures conform, where possible and to the extent permitted by its laws, regulations, and, where applicable, administrative rules or procedures, to international standards and recommended practices established by the World Customs Organization.

2. Each Party shall ensure that its customs procedures:

(a) are administered in an impartial, uniform and reasonable manner; and

(b) avoid arbitrary and unwarranted procedural obstacles.

3. The customs administration of each Party shall periodically review its customs procedures with a view to exploring options for their simplification and the enhancement of mutually beneficial arrangements to facilitate international trade.

4. Each Party shall ensure that goods are released within a time period no longer than that required to ensure compliance with its customs laws.

Article 4.4. Cooperation

1. To the extent permitted by their laws and regulations, the customs administrations of both Parties shall endeavour to assist each other, in relation to:

(a) the implementation and operation of this Chapter; and

(b) such other issues as the Parties mutually determine.

2. Each Party shall endeavour to provide the other Party with timely notice of any significant modification of its customs laws or customs procedures that are likely to substantially affect the operation of this Agreement.

Article 4.5. Risk Management

Each Party shall work to further enhance the use of risk management techniques in the administration of its customs procedures so as to facilitate the clearance of low-risk goods and allow resources to focus on high-risk goods.

Article 4.6. Application of Information Technology

1. Each Party shall apply information technology to support customs operations, where it is cost-effective and efficient, particularly in the paperless trading context, taking into account developments in this area within relevant international organisations, including the World Customs Organization.

2. The customs administration of each Party shall endeavour to establish as soon as practicable an electronic means for communication of relevant information required by it and other relevant, trade-related agencies to facilitate the international movement of goods and means of transport.

3. The introduction and enhancement of information technology shall, to the greatest extent possible, be carried out in consultation with relevant parties, including businesses directly affected.

Article 4.7. Transparency

1. Each Party shall promptly publish, including on the internet, its laws, regulations and, where applicable, administrative rules or procedures of general application relevant to trade in goods between the Parties.

2. Each Party shall designate one or more enquiry points to address enquiries from interested persons on customs matters, and shall make available on the internet information concerning procedures for making such enquiries.

3. To the extent practicable and in a manner consistent with its laws and regulations, each Party shall publish, in advance on the internet, draft laws and regulations of general application relevant to trade between the Parties, with a view to affording the public, especially interested persons, an opportunity to provide comment.

4. Each Party shall ensure, to the extent possible, that a reasonable interval is provided between the publication of new or amended laws and regulations of general application relevant to trade between the Parties and their entry into force.

5. Each Party shall administer, in a uniform, impartial and reasonable manner, its laws and regulations of general application relevant to trade between the Parties.

Article 4.8. Review and Appeal

Each Party shall ensure the availability of processes for administrative and judicial review of decisions taken by its customs administration. Such review shall be independent from the official or office that made the decision.

Article 4.9. Advance Rulings

1. Each Party shall provide for written advance rulings to be issued to a person described in paragraph 2(a) concerning tariff classification, whether a good is originating under this Agreement, and other matters the Parties may agree.

2. Each Party shall adopt or maintain procedures for issuing written advance rulings, which shall:

(a) provide that an exporter, importer or any person with a justifiable cause, or a representative thereof, may apply for an advance ruling. A Party may require that an applicant have legal representation or registration in its territory;

(b) include a detailed description of the information required to process a request for an advance ruling;

(c) allow its customs administration, at any time during the course of an evaluation of an application for an advance ruling, to request that the applicant provide additional information necessary to evaluate the request;

(d) ensure that an advance ruling be based on the facts and circumstances presented by the applicant and any other relevant information in the possession of the decision-maker; and

(e) provide that the ruling be issued, in the national language of the issuing customs administration, to the applicant expeditiously within 60 days on receipt of all necessary information.

3. A Party that declines to issue an advance ruling shall promptly notify the applicant in writing, setting forth the basis for its decision to decline to issue the advance ruling.

4. A Party may reject requests for an advance ruling where the additional information requested by it in accordance with paragraph 2(c) is not provided within the specified period.

5. Each Party shall endeavour to make information on advance rulings which it considers to be of significant interest to other traders publicly available, taking into account the need to protect confidential information.

6. Subject to paragraph 7, each Party shall apply an advance ruling to importations into its territory through any port of entry for three years or such longer period as a Party may decide, beginning on the date it issues the ruling or on any other date specified in the ruling. The Party shall ensure the same treatment of all importations of a good subject to the ruling during the validity period regardless of the importer or exporter involved, where the facts and circumstances are identical in all material respects.

7. A Party may modify or revoke an advance ruling, consistent with this Agreement, where:

(a) there is a change in its laws or regulations;

(b) incorrect information is provided or relevant information is withheld;

(c) there is a change in a material fact; or

(d) there is a change in the circumstances on which the ruling was based.

Article 4.10. Release of Goods

2. In accordance with paragraph 1, each Party shall adopt or maintain procedures that:

(a) provide for the release of goods as rapidly as possible after arrival, provided all other regulatory requirements have been met; and

(b) as appropriate, provide for advance electronic submission and processing of information before the physical arrival of goods with a view to expediting the release of goods.

3. Each Party shall endeavour to adopt and maintain a system under which goods in need of urgent clearance can obtain prompt customs clearance.

2. Each Party shall give appropriate priority to perishable goods when scheduling any examinations that may be required.

3. Each Party shall either arrange, or allow an importer to arrange, for the proper storage of perishable goods pending their release. Each Party may require that any storage facilities arranged by the importer have been approved or designated by its relevant authorities. The movement of the goods to those storage facilities, including authorisations for the operator moving the goods, may be subject to the approval, where required, of the relevant authorities. Each Party shall, where practicable and consistent with its laws, on request of the importer, provide for any procedures necessary for release to take place at those storage facilities.

Article 4.12. Temporary Admission of Goods

1. Each Party shall allow, as provided for in its laws and regulations, goods to be brought into its territory conditionally relieved, totally or partially, from payment of import duties and taxes if such goods:

(a) are brought into its territory for a specific purpose;

(b) are intended for re-exportation within a specific period; and

(c) have not undergone any change except normal depreciation and wastage due to the use made of them.

2. A Party shall not apply any import duties or taxes on containers, pallets or packing material used in the transportation of goods.

Article 4.13. Acceptance of Copies

1. Each Party shall, where appropriate, endeavour to accept paper or electronic copies of supporting documents required for imported goods.

2. A Party shall not require an original or copy of export declarations submitted to the customs administration of the exporting Party as a requirement for importation.

Article 4.14. Consultation

1. The customs administration of a Party may at any time request consultations with the customs administration of the other Party on any matter arising from the implementation or operation of this Chapter. Such consultations shall be conducted through the relevant contact points, and shall take place within 30 days of the request, unless the customs administrations of the Parties mutually determine otherwise.

2. The customs administration of each Party shall designate one or more contact points for the purposes of this Chapter and provide details of such contact points to the other Party. The customs administrations of the Parties shall notify each other promptly of any amendments to the details of their contact points.

3. The customs administrations of the Parties may consult each other on any trade facilitation issues arising from procedures to secure trade and the movement of means of transport between the Parties.

2. Each Party shall provide notification, consistent with the notification requirements under the SPS Agreement, to the enquiry point of the other Party of new or revised sanitary and phytosanitary measures, including measures imposed in response to an urgent threat to human, animal or plant life or health.
3. Upon request by a Party, the notifying Party shall provide the full text of the notified sanitary and phytosanitary measures to the enquiry point of the other Party within 7 days.
4. Whenever an international standard, guideline or recommendation does not exist, or the content of a proposed sanitary or phytosanitary measure is not substantially the same as the content of an international standard, guideline or recommendation, and if the measure may have a significant effect on trade of the other Party, the Party should normally allow at least 60 days for the other Party to make comments in writing, shall discuss these comments upon request, and shall take the comments and the results of the discussions into account.
5. Where urgent problems of health protection arise, or threaten to arise, for a Party, the Party is not required to provide an opportunity for the other Party to make comments in writing prior to the entry into force of the measure. However, the Party shall observe the provisions of paragraphs 3 and 4, shall allow the other Party to make comments in writing, shall discuss these comments upon request, and shall take the comments and the results of the discussions into account.
6. Where there is non-compliance of an imported consignment with sanitary and phytosanitary measures, the relevant government agency of the importing Party shall notify the relevant government agency of the exporting Party of the non-

compliance without undue delay.

Article 5.6. Cooperation

Article 5.9. Technical Assistance and Capacity Building

1. The Parties recognise that cooperation, information sharing, capacity building and technical assistance are important elements in promoting the objectives of this Chapter.

Chapter 7. Trade Remedies

Article 7.1. Definitions

For the purposes of Articles 7.2 through 7.7:

(a) **domestic industry** means, with respect to an imported product, the producers as a whole of the like or directly competitive product operating within the territory of a Party, or those whose collective output of the like or directly competitive product constitutes a major proportion of the total domestic production of those products;

(b) **bilateral safeguard measure** means a measure described in Article 7.2.2;

(c) **Safeguards Agreement** means the Agreement on Safeguards contained in Annex 1A to the WTO Agreement;

(d) **serious injury** means a significant overall impairment in the position of a domestic industry;

(e) **threat of serious injury** means serious injury that, on the basis of facts and not merely on allegation, conjecture, or remote possibility, is clearly imminent; and

(f) **transition period** means, in relation to a particular product, the three year period from the date of entry into force of this Agreement, except that for any product for which the date on which the customs duty on that product is to be eliminated in accordance with Annex I (Schedules in Relation to Article 2.4 (Elimination of Customs Duties)) is more than three years, transition period shall mean the tariff elimination period for that product.

Article 7.2. Application of a Bilateral Safeguard Measure

1. If during the transition period, as a result of the reduction or elimination of a customs duty in accordance with this Agreement, an originating product is being imported into a Party's territory in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to the domestic industry that produces a like or directly competitive product, the importing Party may apply a bilateral safeguard measure described in paragraph 2.

2. If the conditions in paragraph 1 are met, a Party may, only to the extent necessary to prevent or remedy serious injury and facilitate adjustment:

(a) suspend the further reduction of any rate of duty provided for under this Agreement on the product; or

(b) increase the rate of duty on the good to a level not to exceed the lesser of:

(i) the most-favoured-nation (hereinafter referred to as "MFN") applied rate of duty on the product in effect at the time the measure is applied; and

(ii) the MFN applied rate of duty on the product in effect on the day immediately preceding the date of entry into force of this Agreement. (1)

(1) The Parties understand that neither tariff rate quotas nor quantitative restrictions would be permissible forms of bilateral safeguard measures.

Article 7.3. Scope and Duration of Bilateral Safeguard Measures

1. Neither Party shall apply or maintain a bilateral safeguard measure:

(a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment; or

(b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the applying Party determine, in conformity with the procedures set out in this Chapter, that the bilateral safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting. Regardless of its duration, any such measure shall terminate at the end of the transition period.

2. In order to facilitate adjustment in a situation where the expected duration of a bilateral safeguard measure is over one year, the Party applying the measure shall progressively liberalise it at regular intervals during the period of application.

3. A Party shall not apply a bilateral safeguard measure again on a product which has been subject to a bilateral safeguard measure for a period of time equal to that during which the previous bilateral safeguard measure had been applied, provided that the period of non-application is at least two years. However, no bilateral safeguard measure may be applied more than twice on the same product.

4. Neither Party shall apply a bilateral safeguard measure on a product that is subject to a measure that the Party has applied in accordance with Article XIX of GATT 1994 and the Safeguards Agreement, and neither Party shall maintain a bilateral safeguard measure on a product that becomes subject to a measure that the Party imposed pursuant to Article XIX of GATT 1994 and the Safeguards Agreement.

5. On the termination of a bilateral safeguard measure, the Party that applied the bilateral safeguard measure shall apply the rate of customs duty set out in its schedule to Annex I (Schedules in Relation to Article 2.4 (Elimination of Customs Duties)) on the date of termination as if the bilateral safeguard measure had never been applied.

Article 7.4. Investigation Procedures and Transparency Requirements

1. A Party shall apply a bilateral safeguard measure only following an investigation by the Party's competent authorities in accordance with the same procedures as those provided for in Articles 3 and 4.2 of the Safeguards Agreement; to this end, Articles 3 and 4.2 of the Safeguards Agreement are incorporated into and made part of this Agreement, mutatis mutandis.

2. Each Party shall ensure that its competent authorities complete any such investigation within one year of its initiation.

Article 7.5. Provisional Bilateral Safeguard Measures

1. In critical circumstances where delay would cause damage which would be difficult to repair, a Party may apply a provisional bilateral safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports have caused or are threatening to cause serious injury to a domestic industry.
2. Before applying a provisional bilateral safeguard measure the applying Party shall notify the other Party and shall, on request of the other Party, initiate consultations after applying such a measure.
3. The duration of a provisional bilateral safeguard measure shall not exceed 200 days, during which period the pertinent requirements of Articles 7.2 through 7.4 shall be met. Such a provisional bilateral safeguard measure should take the form of a suspension of the further reduction of any rate of duty provided for under this Agreement on the product or an increase in the customs duties to a rate not exceeding the lesser of the rates in Article 7.2.2(b). Any additional customs duties or guarantees collected shall be promptly refunded if the subsequent investigation referred to in Article 7.4.1 determines that increased imports have not caused, or threatened to cause, serious injury to a domestic industry.
4. The duration of any such provisional bilateral safeguard measure shall be counted as part of the period described in Article 7.3.1.

Article 7.6. Notification and Consultation

1. A Party shall immediately notify the other Party in writing on:

 - (b) making a finding of serious injury or threat thereof caused by increased imports;
 - (c) taking a decision to apply or extend a bilateral safeguard measure; and
 - (d) taking a decision to liberalise a bilateral safeguard measure previously applied in accordance with Article 7.3.2.
2. In making the notifications referred to in paragraph 1(b) and paragraph 1(c), the Party applying a bilateral safeguard measure shall provide the other Party with all pertinent information, which shall include evidence of serious injury or threat thereof caused by increased imports, a precise description of the product involved, the proposed bilateral safeguard measure, the grounds for introducing the bilateral safeguard measure, the proposed date of introduction and its expected duration and timetable for progressive liberalisation. In the case of an extension of a bilateral safeguard measure, the written results of the determination required by Article 7.4, including evidence that the continued application of the measure is necessary to prevent or remedy serious injury and that the industry is adjusting, shall also be provided.
3. A Party proposing to apply or extend a bilateral safeguard measure shall provide adequate opportunity for prior consultations with the other Party, with a view to, inter alia, reviewing the information provided in accordance with paragraph 2, exchanging views on the bilateral safeguard measure and reaching an agreement on compensation in accordance with Article 7.7.1.
4. A Party shall provide to the other Party a copy of the public version of the report of its competent authorities required under Article 7.4 as soon as it is available.

Article 7.7. Compensation

1. A Party applying a bilateral safeguard measure shall, in consultation with the other Party, provide to the other Party mutually agreed trade liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. Such consultations shall begin within 30 days of the application of the bilateral safeguard measure.
2. If the Parties are unable to reach an agreement on compensation within 30 days of the consultations commencing, the exporting Party shall be free to suspend the application of substantially equivalent concessions to the trade of the Party applying the bilateral safeguard measure.
3. A Party shall notify the other Party in writing at least 30 days before suspending concessions in accordance with paragraph 2.
4. The obligation to provide compensation under paragraph 1 and the right to suspend concessions in accordance with paragraph 2 shall terminate on the date of the termination of the safeguard measure.

2. The Parties agree to enhance dialogue in matters of anti-dumping to afford each other fair and transparent treatment. The Parties will afford adequate opportunity for consultations to exchange information on issues raised by the other Party with respect to such matters, including through the regular holding of a High Level Dialogue on Trade Remedies.

1. Except as otherwise provided for in this Article, each Party retains its rights and obligations under the Agreement on Subsidies and Countervailing Measures contained in Annex 1A to the WTO Agreement. (2)
2. The Parties shall ensure transparency of subsidy measures by exchanging their notifications to the WTO pursuant to Article XVI:1 of the GATT 1994 and Article 25 of the Agreement on Subsidies and Countervailing Measures.
3. As soon as possible after a Party's receipt of a properly documented application for the initiation of a countervailing investigation against the imports from the other Party, the Party shall notify the other Party in writing. Such notification shall include the non-confidential version of the application and its supporting evidence. The investigating authority and the Party being notified shall avoid publicising the existence of the application unless a decision has been made to initiate an investigation.
4. As soon as possible after a properly documented application is accepted, and in any event before the initiation of any investigation, the importing Party shall afford to the other Party reasonable opportunities for consultations with the aim of clarifying the situation on matters raised in the application and arriving at a mutually agreed solution. Investigations into newly-alleged subsidy programs shall be undertaken in a transparent manner with the other Party afforded reasonable opportunities for consultations to defend its interests.
5. The investigating authorities shall carefully review the accuracy and adequacy of the evidence provided in the application to determine whether the evidence is sufficient to justify the initiation of an investigation.
6. Throughout the investigation, the other Party shall be afforded a reasonable opportunity to continue consultations, with a view to clarifying the factual situation and to arriving at a mutually agreed solution.

(2) For greater certainty, nothing in this Article affects the Parties' rights and obligations under Article 13.3 of the Agreement on Subsidies and Countervailing Measures.

Each Party shall make commitments on National Treatment, Market Access and Most-Favoured-Nation Treatment in accordance with either Section A or Section B.

Section A. Positive Listing Approach

Article 8.4. Schedule of Specific Commitments

1. Where a Party schedules commitments in accordance with this Section, it shall set out in a schedule, called its Schedule of Specific Commitments, the specific commitments it undertakes in accordance with Articles 8.5, 8.6 and 8.8. With respect to sectors where such commitments are undertaken, its Schedule of Specific Commitments shall specify:

(a) terms, limitations and conditions on market access; (b) conditions and qualifications on national treatment; (c) undertakings relating to additional commitments; and

(d) where appropriate, the time-frame for implementation of such commitments.

2. Measures inconsistent with both Articles 8.5 and 8.6 shall be inscribed in the column relating to Article 8.6. In this case the inscription will be considered to provide a condition or qualification to Article 8.5 as well.

3. Schedules of Specific Commitments are annexed to this Agreement as Annex III and shall form an integral part thereof.

Article 8.5. National Treatment

1. Where a Party schedules commitments in accordance with this Section, in the sectors inscribed in its Schedule of Specific Commitments in Annex III, and subject to any conditions and qualifications set out therein, it shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers. (2)

2. A Party may meet the requirement in paragraph 1 by according to services and service suppliers of the other Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment by a Party shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of that Party compared to the like service or service suppliers of the other Party.

(2) Specific commitments assumed under this Article shall not be construed to require the Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

Article 8.6. Market Access

1. Where a Party schedules commitments in accordance with this Section, with respect to market access through the modes of supply identified in Article 8.2(x), it shall accord services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule of Specific Commitments in Annex III (3).

2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt, either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule of Specific Commitments in Annex III, are defined as:

(a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

(b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

(c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test; (4)

(d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

(e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

(f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

(3) If a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph (x)(i) of Article 8.2, and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph (x)(iii) of Article 8.2, it is thereby committed to allow related transfers of capital into its territory.

(4) Paragraph 2(c) does not cover measures of a Party which limit inputs for the supply of services.

Article 8.7. Most-favoured-nation Treatment

1. Where a Party schedules commitments in accordance with this Section, in respect of the services sectors listed in Annex 8-A, and subject to any conditions and qualifications set out therein, the Party shall accord to services and service suppliers of the other Party treatment no less favourable than that it accords to like services and service suppliers of any non-party.(5)

2. Notwithstanding paragraph 1, a Party may adopt or maintain any measure that accords differential treatment to any non-party in accordance with any free trade agreement or multilateral international agreement in force or signed prior to the date of entry into force of this Agreement.

3. For greater certainty, paragraph 2 includes, in respect of agreements on the liberalisation of trade in goods or services or investment, any measures taken as part of a wider process of economic integration or trade liberalisation.

4. For sectors not covered by paragraph 1, if, after the date of entry into force of this Agreement, a Party subsequently enters into any agreement with a non-party in which it provides treatment to services or service suppliers of that non-party more favourable than it accords to like services or service suppliers of the other Party, the other Party may request consultations to discuss the possibility of extending, under this Agreement, treatment no less favourable than that provided under the agreement with the non-party. In such circumstances, the Parties shall enter into consultations bearing in mind the overall balance of benefits.

5. The provisions of this Agreement shall not be construed as to prevent a Party from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

(5) For the purposes of this Article, the term "non-party" shall not include the following WTO members within the meaning of the WTO Agreement: (1) Hong Kong, China; (2) Macao, China; and (3) Separate Customs Territory of Taiwan, Penghu, Kinmen and Matsu (Chinese Taipei).

Article 8.8. Additional Commitments

A Party making commitments in accordance with this Section may also negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 8.5 and 8.6, including but not limited to those regarding qualification, standards or licensing matters. Such commitments shall be inscribed in that Party's Schedule of Specific Commitments in Annex I.

Section B. Negative Listing Approach

Article 8.9. Schedule of Non-conforming Measures

1. For a Party making commitments in accordance with this Section, Articles 8.10 through 8.12 shall not apply to:

(a) any non-conforming measure that is maintained by the following on the date of entry into force of this Agreement, as set out in Section A of a Party's Schedule of Non-Conforming Measures in Annex III:

(i) the central government of a Party; or

(ii) a regional level of government;

(b) any non-conforming measure that is maintained by a local level of government other than a regional level of government referred to in subparagraph (a)(ii) on the date of entry into force of this Agreement; or

(c) the continuation or prompt renewal of any non-conforming measure referred to in subparagraphs (a) and (b).

2. Articles 8.10 through 8.12 shall not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors or activities set out in Section B of its Schedule of Non-Conforming Measures in Annex III.

3. Schedules of Non-Conforming Measures are annexed to this Agreement as Annex III and shall form an integral part thereof.

Article 8.10. National Treatment

1. For a Party making commitments in accordance with this Section, it shall accord to services and service suppliers of the other Party treatment no less favourable than that it accords to its own like services and service suppliers. (6)

2. A Party may meet the requirement in paragraph 1 by according to services and service suppliers of the other Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment by a Party shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of that Party compared to the like service or service suppliers of the other Party.

(6) Nothing in this Article shall be construed to require the Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

Article 8.11. Market Access

For a Party making commitments in accordance with this Section, (7) with respect to market access through the modes of supply identified in Article 8.2(x), it shall not adopt or maintain, either on the basis of a regional subdivision or on the basis of its entire territory, measures that are defined as:

(a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

(b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirements of an economic needs test;

(c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirements of an economic needs test;

(d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirements of an economic needs test; (8)

(e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

ff) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

(7) Where a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph (x)(i) of Article 8.2, and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in subparagraph (x)(iii) of Article 8.2, it is thereby committed to allow related transfers of capital into its territory.

(8) This subparagraph shall not apply to measures of a Party which limit inputs for the supply of services.

Article 8.12. Most-favoured-nation Treatment

1. For a Party making commitments in accordance with this Section, it shall, unless otherwise indicated in its Schedule of Non-Conforming Measures in Annex III, accord to services and service suppliers of the other Party treatment no less favourable than it accords to like services and service suppliers of any non-party.

2. Notwithstanding paragraph 1, a Party may adopt or maintain any measure that accords differential treatment to any non-party in accordance with any free trade agreement or multilateral international agreement in force or signed prior to the date of entry into force of this Agreement.

3. For greater certainty, paragraph 2 includes, in respect of agreements on the liberalisation of trade in goods or services or investment, any measures taken as part of a wider process of economic integration or trade liberalisation.

4. For those sectors exempted from the operation of paragraph 1 by a Party's Schedule of Non-Conforming Measures in Annex III and where, after this Agreement enters into force, that Party subsequently enters into any agreement with a non-party in which it provides treatment to services or service suppliers of that non-party more favourable than it accords to like services or service suppliers of the other Party, the other Party may request consultations to discuss the possibility of extending, under this Agreement, treatment no less favourable than that provided under the agreement with the non-party. In such circumstances, the Parties shall enter into consultations bearing in mind the overall balance of benefits.

5. The provisions of this Agreement shall not be construed as to prevent a Party from conferring or according advantages to adjacent countries in order to facilitate exchanges limited to contiguous frontier zones of services that are both locally produced and consumed.

Section III. Other Provisions

Article 8.13. Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2.

(a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, on request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures

where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where authorisation is required for the supply of a service on which a specific commitment under this Agreement has been made, the competent authorities of each Party shall:

- (a) in the case of an incomplete application, on request of the applicant, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;
- (b) on request of the applicant, provide without undue delay information concerning the status of the application; and
- (c) if an application is terminated or denied, to the maximum extent possible, inform the applicant in writing and without delay the reasons for such action. The applicant will have the possibility of resubmitting, at its discretion, a new application.

4. To ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, the Parties shall jointly review the results of the negotiations on disciplines on these measures pursuant to paragraph 4 of Article VI of GATS, with a view to their incorporation into this Agreement. The Parties note that such disciplines aim to ensure that such requirements are, inter alia:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5.

(a) In sectors in which a Party has undertaken specific commitments, pending the incorporation of the disciplines referred to in paragraph 4, that Party shall not apply licensing and qualification requirements and technical standards that nullify or impair its obligation under this Agreement in a manner which:

- (i) does not comply with the criteria outlined in subparagraphs 4(a), (b) or (c); and
- (ii) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

(b) In determining whether a Party is in conformity with the obligation under subparagraph 5(a), account shall be taken of international standards of relevant international organisations applied by that Party (9)

6. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

7. A Party shall, in accordance with its laws and regulations, permit services suppliers of the other Party to use enterprise names under which they trade in the territory of the other Party.

(9) The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of the Parties to this Agreement.

Article 8.14. Recognition

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorisation, licensing or certification of service suppliers, and subject to the requirements of paragraph 4, a Party may recognise, or encourage its relevant competent bodies to recognise, the education or experience obtained, requirements met, or licences or certifications granted in the other Party. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement between the Parties or their relevant competent bodies, or may be accorded autonomously.

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted in the territory of a non-party, nothing in Articles 8.7 or 8.12 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licences or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 2, whether existing or in the future, shall afford adequate opportunity for the other Party, on request, to negotiate its accession to such an agreement or

arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, experience, licences or certifications obtained or requirements met in that other Party's territory should also be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the other Party and non-parties in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

Article 8.15. Qualifications Recognition Cooperation

1. The Parties agree to encourage, where possible, the relevant bodies in their respective territories responsible for issuance and recognition of professional and vocational qualifications to strengthen cooperation and to explore possibilities for mutual recognition of respective professional and vocational qualifications.

2. Each Party, where possible, will encourage the relevant bodies in its territory to

develop, where possible, mutually acceptable standards and criteria for licensing and certification, and to provide recommendations to the Committee on Trade in Services on mutual recognition with respect to service sectors mutually agreed by the Parties, including engineering and Traditional Chinese Medicine.

3. The Parties may discuss, as appropriate, relevant bilateral, plurilateral and multilateral agreements relating to professional and vocational services.

Article 8.16. Payments and Transfers

1. Except in the circumstances envisaged in Article 16.6 (Measures to Safeguard the Balance-of-Payments) of Chapter 16 (General Provisions and Exceptions), a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.

2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the International Monetary Fund in accordance with the Articles of Agreement of the International Monetary Fund, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 16.6 (Measures to Safeguard the Balance of Payments) of Chapter 16 (General Provisions and Exceptions), or at the request of the International Monetary Fund.

Article 8.17. Denial of Benefits

Subject to prior notification and consultation, a Party may deny the benefits of this Chapter to a service supplier of the other Party if the service supplier is a juridical person:

- (a) owned or controlled by persons of a non-party or of the denying Party; and
- (b) has no substantive business operations in the territory of the other Party.

Article 8.18. Transparency

1. Each Party shall ensure that:

- (a) regulatory decisions, including the basis for such decisions, are promptly published or otherwise made available to all interested persons; and
- (b) its measures relating to public networks or services are made publicly available, including the requirements, if any, for permits.

2. Each Party shall ensure that, where a licence is required, all measures relating to the licensing of suppliers of public networks or services are made publicly available, including:

- (a) the circumstances in which a licence is required; (b) all applicable licencing procedures;
- (c) the period of time normally required to reach a decision concerning a licence application;
- (d) the cost of, or fees for applying for, or obtaining, a licence; and (e) the period of validity of a licence.

3. Each Party shall, in accordance with its laws and regulations, ensure that, on request, an applicant receives reasons for the denial of, revocation of, refusal to renew, or the imposition or modification of conditions on, a licence. Each Party shall endeavour to provide, to the extent possible, such information in writing.

Article 8.19. Telecommunication Services

1. The Annex on Telecommunications of GATS and Reference Paper on Telecommunications shall be incorporated, *mutatis mutandis*, into and form an integral part of this Agreement.

2. Each Party shall ensure that licensing requirements for suppliers of telecommunications networks or services of the other Party are applied in the least trade restrictive manner and are not more burdensome than necessary.

3. Each Party shall facilitate consultation with suppliers of public telecommunications networks or services of the other Party operating in its territory in the development of telecommunications policy, regulations and standards.

4. In accordance with its laws and regulations, each Party shall ensure that suppliers of public telecommunications networks or services of the other Party operating in its territory are provided with adequate advance notice (10) of, and the opportunity to comment on, regulatory decisions of general application that its telecommunications regulatory body proposes.

5. The Parties shall encourage their respective telecommunications service suppliers to cooperate to reduce the wholesale rates for international mobile roaming between the two Parties, with a view to reducing international mobile roaming rates.

(10) For greater clarity, the practice of soliciting public opinions before promulgation of regulatory decisions shall be deemed "adequate advance notice".

Article 8.20. Committee on Trade In Services

1. The Parties hereby establish a Committee on Trade in Services (the "Committee") that shall meet within two years of the date of entry into force of this Agreement, or as agreed by the Parties, or on the request of the FTA Joint Commission, to consider any matter arising under this Chapter.

2. The Committee's functions shall include: (a) reviewing the implementation and operation of this Chapter;

(b) identifying and recommending measures to promote increased services trade between the Parties; and

(c) considering other trade in services issues of interest to a Party.

3. With the agreement of both Parties, representatives from relevant agencies or sectors may be invited to attend the Committee meetings.

Article 8.21. Contact Points

Each Party shall designate one or more contact points to facilitate communications between the Parties on any matter covered by this Chapter, and shall provide details of such contact points to the other Party. The Parties shall notify each other promptly of any amendments to the details of their contact points.

Article 8.22. Modification of Schedules

1. A Party (referred to in this Article as the "modifying Party") may modify or withdraw any commitment in its Schedule in Annex III at any time after three years have elapsed from the date on which that commitment entered into force, provided that:

(a) it notifies the other Party (referred to in this Article as the "affected Party") of its intention to modify or withdraw a commitment no later than three months before the intended date of implementation of the modification or withdrawal; and

(b) upon notification of a Party's intent to make such modification, the Parties shall consult and attempt to reach agreement on the appropriate compensatory adjustment.

2. In achieving a compensatory adjustment, the Parties shall endeavour to maintain a general level of mutually advantageous commitment that is not less favourable to trade than provided for in the Schedules prior to such negotiations.

3. If agreement under paragraph 1(b) is not reached between the modifying Party and the affected Party within three months, the affected Party may refer the matter to an arbitral tribunal in accordance with the procedures set out in Chapter 15 (Dispute Settlement) or, where agreed between the Parties, to an alternative arbitration procedure.
4. The modifying Party may not modify or withdraw its commitment until it has made the compensatory adjustments in conformity with the findings of the arbitral tribunal in accordance with paragraph 3.
5. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitral tribunal, the affected Party may modify or withdraw substantially equivalent benefits in conformity with the findings of the arbitral tribunal.

Article 8.23. Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under its Schedule in Annex I.
2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments in its Schedule in Annex III, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.
3. If a Party has reason to believe that a monopoly supplier of a service of the other Party is acting in a manner inconsistent with paragraph 1 or 2, that Party may request the other Party establishing, maintaining or authorising such supplier to provide specific information concerning the relevant operations.
4. If, after the date of entry into force of this Agreement, a Party grants monopoly rights regarding the supply of a service covered by its specific commitments in its Schedule in Annex III, that Party shall notify the other Party no later than three months before the intended implementation of the grant of monopoly rights, and paragraphs 1(b) and 2 of Article 8.22 shall apply.
5. This Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect,
 - (a) authorises or establishes a small number of service suppliers; and
 - (b) substantially prevents competition among those suppliers in its territory.

Article 8.24. Review

1. The Parties shall consult within two years of the date of entry into force of this Agreement and every two years thereafter, or as otherwise agreed, to review the implementation of this Chapter and consider other trade in services issues of mutual interest, with a view to the progressive liberalisation of the trade in services between them on a mutually advantageous basis.
2. Where a Party unilaterally liberalises a measure affecting market access of a service supplier or suppliers of the other Party, the other Party may request consultations to discuss the measure. Following such consultations, if the Parties agree to incorporate the liberalised measure into the Agreement as a new commitment, the relevant Schedule in Annex III shall be amended.
3. After the entry into force of this agreement, at a time to be mutually agreed by the Parties, the Parties shall initiate next round of the negotiation on trade in services in the form of negative listing approach, and conclude such negotiation as soon as they could.

Article 8.25. Cooperation

Bilateral Taxation Arrangements

1. The Parties shall review their bilateral taxation arrangements, (11) having regard to mutual economic objectives and international taxation standards.

Traditional Chinese Medicine Services ("TCM")

2. Within the relevant committees to be established in accordance with this Agreement, and subject to available resources, Australia and China shall cooperate on matters relating to trade in TCM services.

3. Cooperation identified in paragraph 2 shall:

(a) include exchanging information, where appropriate, and discussing policies, regulations and actions related to TCM services; and

(b) encourage future collaboration between regulators, registration authorities and relevant professional bodies of the Parties to facilitate trade in TCM and complementary medicines, in a manner consistent with all relevant regulatory frameworks. Such collaboration, involving the competent authorities of both Parties — for Australia, notably the Department of Health, and for China the State Administration of Traditional Chinese Medicine — will foster concrete cooperation and exchanges relating to TCM.

(11) These arrangements include the Agreement between the Government of the People's Republic of China and the Government of Australia for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with respect to Taxes on Income, done at Canberra on 17 November 1988.

Such measures shall not constitute a disguised restriction on trade in services and shall not discriminate against financial services or financial service suppliers of the other Party in comparison to the Party's own like financial services or like financial service suppliers.

3. Nothing in this Chapter shall be construed to require a Party to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

Article 4. Recognition

1. A Party may recognise prudential measures of the other Party, or a non-party, in determining how the Party's measures relating to financial services shall be applied. Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with an international standard-setting body, the other Party, or a non-

party concerned, or may be accorded autonomously.

2. A Party that is a party to such an agreement or arrangement referred to in paragraph 1, whether future or existing, shall afford adequate opportunity for the other Party to negotiate its accession to such agreements or arrangements, or to negotiate comparable ones with it, under circumstances in which there would be equivalent regulation, oversight, implementation of such regulation, and, if appropriate, procedures concerning the sharing of information between the parties to the agreement or arrangement.

3. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that such circumstances as referred to in paragraph 2 exist.

Article 5. Regulatory Transparency

1. The Parties recognise that transparent measures governing the activities of financial institutions and cross-border financial service suppliers are important in facilitating their ability to gain access to and operate in each other's market.

2. Each Party shall ensure that measures of general application adopted or maintained by a Party are promptly published or otherwise made publicly available.

3. Each Party shall take such reasonable measures as may be available to it to ensure that the rules of general application adopted or maintained by self-regulatory organisations (1) of the Party are promptly published or otherwise made publicly available.

4. Each Party shall maintain or establish appropriate mechanisms for responding to inquiries from interested persons (2) of the other Party regarding measures of general application to which this Annex applies.

6. Each Party's regulatory authorities shall make administrative decisions on a completed application of a financial service supplier of the other Party seeking to supply a financial service in that Party's territory within 180 days and shall notify the applicant of the decision where possible in writing, without undue delay:

(a) an application shall not be considered complete until all relevant proceedings are conducted and the regulatory authorities consider all necessary information has been received; and

(b) where it is not practicable for a decision to be made within 180 days, the regulatory authority shall notify the applicant without delay and shall endeavour to make the decision within a reasonable time thereafter.

7. On the written request of an unsuccessful applicant, a regulatory authority that has denied an application shall endeavour to inform the applicant of the reasons for denial of the application in writing.

(1) In the case of Australia, "self-regulatory organisation" means any non-governmental body, including any securities or futures exchange or market, clearing or payment settlement agency, or other organisation or association that exercises its own or delegated regulatory or supervisory authority over financial service suppliers or financial institutions; and in the case of China, means an organisation recognised as a self-regulatory body by the central government according to China's laws and regulations.

(2) The Parties confirm their shared understanding that "interested persons" in this Article should only be persons whose direct financial interest could potentially be affected by the adoption of the regulations of general application.

Article 6. Dispute Settlement

(1) For greater certainty, the concept of 'expansion' in Article 3 means the expansion of an existing investment and does not include the establishment or acquisition of a new, separate investment.

Article 9.4. Most-favoured-nation Treatment (2)

1. Each Party shall accord to investors of the other Party, and covered investments, in relation to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory, treatment no less favourable than that it accords, in like circumstances, to investors and investments in its territory of investors of any non-Party.

2. For greater certainty, the treatment referred to in this Article does not encompass Investor-State Dispute Settlement

procedures or mechanisms.

3. Notwithstanding paragraph 1, each Party reserves the right to adopt or maintain any measure that accords more favourable treatment to investors of non-parties in accordance with any bilateral or multilateral international agreement in force prior to the date of entry into force of this Agreement. (3)

4. Notwithstanding paragraph 1, each Party reserves the right to adopt or maintain any measure that accords more favourable treatment to investors of non-parties in accordance with any bilateral or multilateral international agreement in force on, or signed after, the date of entry into force of this Agreement involving:

1. For Australia, Article 9.3 and Article 9.4 shall not apply to:

3. Article 9.3 and Article 9.4 shall not apply to any measure that Australia adopts or maintains with respect to sectors, sub-sectors, or activities, as set out in Section B of its Schedule of Non-Conforming Measures in Annex II.

4. The Parties shall endeavour to progressively remove the non-conforming measures.

(4) Until the entry into force of China's investment commitments in the comprehensive Investment Chapter negotiated pursuant to Article 9.9, China's commitments under Article 9.4 shall apply subject to any non-conforming measures scheduled by China against the most-favoured-nation (MFN) obligation in any negative list investment agreement with a non-party, mutatis mutandis. Until the entry into force of the comprehensive Investment Chapter negotiated pursuant to Article 9.9, and subject to the scope of this Chapter, if China concludes more than one such agreement with a non-party, the schedule of non-conforming measures against MFN most favourable to Australian investors and

investments shall apply mutatis mutandis.

Article 9.6. Denial of Benefits

1. A Party may deny the benefits of this Chapter to an investor of the other Party and to investments of that investor if the investor is an enterprise:

- (c) may propose amendments to Section B in the light of experience of its operation.

Article 9.8. General Exceptions

1. For the purposes of this Chapter and subject to the requirement that such measures are not applied in a manner which would constitute arbitrary or unjustifiable discrimination between investments or between investors, or a disguised restriction on international trade or investment, nothing in this Agreement shall be construed to prevent a Party from adopting or enforcing measures:

- (a) necessary to protect human, animal or plant life or health;
- (b) necessary to ensure compliance with laws and regulations that are not inconsistent with this Agreement;

5. The respondent may, within 30 days of the date on which it receives a request for consultations (as provided for in paragraph 1), state that it considers that a measure alleged to be in breach of an obligation under Section A is of the kind described in paragraph 4, by delivering to the claimant and to the non-disputing Party a notice specifying the basis for its position (a 'public welfare notice').

6. The issuance of a public welfare notice shall trigger a 90 day period during which the respondent and the non-disputing Party shall consult. The dispute resolution procedure contemplated by this Section shall be automatically suspended for this 90 day period.

7. The issuance of a public welfare notice is without prejudice to the respondent's right to invoke the procedures described in Article 9.16.5 or Article 9.16.6. The respondent shall promptly inform the claimant, and make available to the public, the outcome of any consultations.

8. In any proceeding brought pursuant to this Section, the tribunal shall not draw any adverse inference from the non-issuance of a public welfare notice by the respondent, or from the absence of any decision between the respondent and the non-disputing Party as to whether a measure is of a kind described in paragraph 4.

Article 9.12. Submission of a Claim to Arbitration

1. This Section applies where there is a dispute between a Party and an investor of the other Party relating to a covered investment made in accordance with the Party's laws, regulations and investment policies. (5)

4. A claimant may submit a claim referred to in paragraph 2:

(a) under the ICSID Convention and the ICSID Rules of Procedure for Arbitration Proceedings, provided that both the respondent and the non-disputing Party are parties to the ICSID Convention;

5. Where a claim is submitted to arbitration under paragraph 4(b), (c) and (d) (except where a claim is submitted to any other arbitration institution under paragraph 4(d)), the disputing parties and the tribunal constituted thereunder shall request ICSID to provide administrative services for the arbitration proceedings. Both Parties shall endeavour to make proper institutional arrangements with ICSID to accommodate such requests following the entry into force of this Agreement.

6. A claim shall be deemed submitted to arbitration under this Section when the claimant's notice of or request for arbitration ("notice of arbitration"):

9. The arbitration rules applicable under paragraph 4, and in effect on the date the claim or claims were submitted to arbitration under this Section, shall govern the arbitration except to the extent modified by this Agreement and the Side Letter on Transparency Rules Applicable to ISDS.

5 For greater certainty, the State to State Dispute Settlement mechanism in Chapter 15 (Dispute Settlement) of this Agreement applies to this Chapter including pre-establishment obligations under Article 9.3.

(6) For greater certainty, the loss or damage incurred by the claimant that forms the subject matter of a claim under sub-paragraph (a) shall not include loss or damage suffered by the claimant which is a result of loss or damage caused to an enterprise of the respondent that is a juridical person that the claimant owns or controls directly or indirectly by reason of, or arising out of, the alleged breach by the respondent.

Article 9.13. Consent of Each Party to Arbitration

1. Each Party consents to the submission of a claim to arbitration under this Section in accordance with this Agreement. Failure to meet any of the conditions and limitations provided for in Article 9.12.4 shall nullify that consent.

2. The consent under paragraph 1 and the submission of a claim to arbitration under this Section shall satisfy the requirements of Chapter II of the ICSID Convention (Jurisdiction of the Centre) and the ICSID Additional Facility Rules for written consent of the parties to the dispute.

Article 9.14. Conditions and Limitations on Consent of Each Party

1. No claim may be submitted to arbitration under this Section if more than three years have elapsed from the date on which the claimant first acquired, or should have first acquired, knowledge of the breach alleged under Article 9.12.2 and knowledge that the claimant (for claims brought under Article 9.12.2(a)) or the enterprise (for claims brought under Article 9.12.2(b)) has incurred loss or damage. In no event may a claim be submitted to arbitration under this Section after four years since the occurrence of the measures and/or events giving rise to the breach alleged under Article 9.12.2.

2. No claim may be submitted to arbitration under this Section unless:

(a) the claimant has complied with the rules and procedures set forth in Articles 9.12.1 and 9.12.2;

(b) the claim has been explicitly included in the request for consultations submitted by the claimant in accordance with Article 9.11.1;

(c) the claimant consents in writing to arbitration in accordance with the procedures set out in this Agreement; and,

(d) the notice of arbitration is accompanied,

(i) for claims submitted to arbitration under Article 9.12.2(a), by the claimant's written waiver, and

(ii) for claims submitted to arbitration under Article 9.12.2(b), by the claimant's and the enterprise's written waivers, and written waiver by all persons through which the claimant owns or controls the enterprise,

of any right to initiate or continue before any administrative tribunal or court under the law of either Party, or other dispute settlement procedures, any proceeding with respect to any measure or event alleged to constitute a breach referred to in Article 9.12.2.

3. Notwithstanding paragraph 2(d)(ii), a waiver from the enterprise shall not be required only if the respondent has deprived the claimant of its control of the enterprise and the claimant is unable to provide such a waiver as a result.

4. Notwithstanding paragraph 2(d), the claimant (for claims brought under Article 9.12.2(a)) and the claimant or the enterprise (for claims brought under Article 9.12.2(b)) may, in accordance with the laws of the respondent, initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant's or the enterprise's rights and interests during the pendency of the arbitration.

Article 9.15. Constitution of the Tribunal

1. Unless the disputing parties have agreed to appoint a sole arbitrator, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the chairperson, appointed by agreement of the disputing parties.

2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.

3. If the disputing parties agree to appoint a sole arbitrator, the disputing parties shall seek to agree on the sole arbitrator. If they fail to do so within 90 days of the day on which the respondent gave its agreement to submit the dispute to a sole arbitrator, the sole arbitrator shall be drawn by the appointing authority on the request of a disputing party from the list of chairpersons established pursuant to paragraph 5 below.

4. If a tribunal has not been constituted within 90 days from the date that a claim is submitted to arbitration under this Section, the appointing authority, on the request of a disputing party, shall appoint, in his or her discretion, the remaining arbitrators from the list established pursuant to paragraph 5 below.

5. The Committee on Investment shall, no later than 2 years after the entry into force of this Agreement, establish a list of individuals who are willing and able to serve as arbitrators. The Committee on Investment shall ensure that at all times the list includes at least 20 individuals.

6. For purpose of the list referred to in paragraph 5, each Party shall select at least five individuals to serve as arbitrators. The Parties shall also jointly select at least 10 individuals who are not nationals of either Party to act as chairperson of the

tribunals.

7. In the event that the Secretary-General is required to appoint an arbitrator or arbitrators under paragraph 3 or 4, and the list referred to in paragraph 5 has not been established, the Secretary-General shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed. The Secretary-General shall not appoint a national of either Party as the presiding arbitrator unless the disputing parties otherwise agree.

8. All arbitrators appointed pursuant to this Section shall have expertise or experience in public international law, international trade or international investment treaties, or the resolution of disputes arising under international trade or international investment agreements. They shall be independent, serve in their individual capacities and not take instructions from any organisation or government with regard to matters related to the dispute, or be affiliated with the government of either Party or any disputing party, and shall comply with Annex 9-A. Arbitrators who serve on the list established pursuant to paragraph 5 shall not, for that reason alone, be deemed to be affiliated with the government of either Party.

9. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

(a) the respondent agrees to the appointment of each individual member of a tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;

(b) a claimant referred to in Article 9.12.2(a) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and

(c) a claimant referred to in Article 9.12.2(b) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant and the enterprise agree in writing to the appointment of each individual member of the tribunal.

Article 9.16. Conduct of the Arbitration

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 9.12.4. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules.

2. The non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Chapter.

3. With the written agreement of the disputing parties, the tribunal may allow a party or entity that is not a disputing party to file a written amicus curiae submission with the tribunal regarding a matter within the scope of the dispute. In determining whether to allow such a filing, the tribunal shall consider, among other things, the extent to which:

(a) the amicus curiae submission would assist the tribunal in the determination of a factual or legal issue related to the proceeding by bringing a perspective, particular knowledge, or insight that is different from that of the disputing parties;

(b) the amicus curiae submission would address a matter within the scope of the dispute; and

(c) the amicus curiae has a significant interest in the proceeding.

4. Each submission in accordance with paragraph 3 of this Article shall identify the author, disclose any affiliation, direct or indirect, with any disputing party, and identify any person, government, or other entity that has provided, or will provide, any financial or other assistance in preparing the submission. Each submission shall be in a language of the arbitration, and comply with any page limits and deadlines set by the tribunal. The tribunal shall ensure that the amicus curiae submission does not disrupt the proceeding or unduly burden or unfairly prejudice either disputing party, and that the disputing parties are given an opportunity to present their observations on the amicus curiae submission.

5. Without prejudice to a tribunal's authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favour of the claimant may be made under Article 9.12.

(a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial.

(b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a

schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.

(c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant's factual allegations in support of any claim in the notice of arbitration and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 20 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.

(d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 6.

6. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 5 and any objection that the dispute is not within the tribunal's competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

7. When it decides a respondent's objection under paragraph 5 or 6, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

8. A respondent may not assert as a defence, counterclaim, right of set-off, or for any other reason that the claimant or the enterprise referred to in Article 9.12.2(b) has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an indemnity, guarantee or insurance contract.

Article 9.17. Transparency of Arbitral Proceedings

(c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 9.21;

(d) minutes or transcripts of hearings of the tribunal, where available; and (e) orders, awards, and decisions of the tribunal.

2. Subject to paragraphs 3, 4 and 5, the respondent:

(a) shall make the documents referred to in paragraph 1 (a), (b) and (e) available to the public;

(b) may make the documents referred to in paragraph 1(c) and (d) available to the public;

(c) may make any written submissions submitted pursuant to Article 9.16.2 available to the public provided that prior consent is obtained from the non-disputing Party.

3. With the agreement of the respondent, the tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.

4. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 16.1 (Disclosure and Confidentiality of Information) or Article 16.3 (Security Exceptions) of Chapter 16 (General Provisions and Exceptions).

5. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

(a) Neither the disputing parties nor the tribunal shall disclose to the non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph

(b);

(b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal;

(c) A disputing party shall, within 7 days after it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version may be provided to the non-disputing Party and made public in accordance with paragraphs 1 and 2.

Article 9.18. Governing Law

1. Subject to paragraphs 2 and 3, when a claim is submitted under Article 9.12, the tribunal shall decide the issues in dispute in accordance with this Agreement as interpreted in accordance with customary rules of treaty interpretation of public international law, as codified in the Vienna Convention on the Law of Treaties done at Vienna on 23 May 1969. Where relevant and appropriate, the tribunal shall also take into consideration the law of the respondent.

2. A joint decision of the Parties, acting through the Committee on Investment, declaring their interpretation of a provision of this Agreement shall be binding on a tribunal of any ongoing or subsequent dispute, and any decision or award issued by such a tribunal must be consistent with that joint decision.

3. A decision between the respondent and the non-disputing Party that a measure is of the kind described in Article 9.11.4 shall be binding on a tribunal and any decision or award issued by a tribunal must be consistent with that decision.

Article 9.19. Interpretation of Annexes

1. Where a respondent asserts as a defence that the measure alleged to be a breach is within the scope of an entry set out in Section A or B of its Schedule of Non-Conforming Measures in Annex IH, the tribunal shall, on request of the respondent, request the interpretation of the Parties on the issue. The Parties shall submit in writing any joint decision declaring their interpretation to the tribunal within 90 days of delivery of the tribunal's request.

2. A joint decision issued under paragraph 1 by the Parties, acting through the Committee on Investment, shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that joint decision. If the Parties fail to issue such a decision within 90 days, the tribunal shall decide the issue. In such a case, the tribunal shall draw no inference from the fact that the Parties fail to issue such a decision.

3. A joint decision issued under paragraph 1 by the Parties shall also be binding on the tribunal of any dispute subsequent to the date of the joint decision to the extent applicable and not modified by another joint decision issued pursuant to paragraph 1 subsequent to the first said joint decision.

Article 9.20. Expert Reports

Without prejudice to the appointment of other kinds of experts where authorised by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

Article 9.21. Consolidation

1. Where two or more claims have been submitted separately to arbitration under Article 9.12.2 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 11.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

(a) the names and addresses of all the disputing parties sought to be covered by the order;

(b) the nature of the order sought; and (c) the grounds on which the order is sought.

In the event that the Secretary-General is required to appoint an arbitrator or arbitrators under paragraph 4 or 5, and the list referred to in Article 9.15.5 has not been established, the Secretary-General shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed. The Secretary-General shall not appoint a national of either Party as the presiding arbitrator unless the disputing parties otherwise agree.

7. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 9.12.2 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

(a) assume jurisdiction over, and hear and determine together, all or part of the claims;

(b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or

(c) instruct a tribunal previously established under Article 9.15 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that

(i) that tribunal, at the request of any claimant not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the claimants shall be appointed pursuant to paragraphs 4(a), 5 and 6; and

(b) an award of monetary damages and any applicable interest shall provide that the sum be paid to the enterprise; and

(c) the award shall provide that it is made without prejudice to any right that any person may have in the relief under applicable laws and regulations provided that such relief does not grant or result in duplicated remedies to any person in light of the award rendered.

4. A tribunal may not award punitive damages.

5. An award made by a tribunal shall have no binding force except between the disputing parties and in respect of the particular case.

6. Subject to paragraph 7, a disputing party shall abide by and comply with an award without delay.

3. Nothing contained in this Agreement shall prevent a Party from applying measures to regulate the entry or temporary stay of natural persons of the other Party in its territory, including measures necessary to protect the integrity of its territory and to ensure the orderly movement of natural persons across its borders, provided such measures are not applied in such a manner as to nullify or impair the benefits accruing to the other Party under this Chapter. (1)

(1) The sole fact that a Party requires natural persons of the other Party to obtain an immigration formality shall not be regarded as nullifying or impairing the benefits accruing to that other Party under this Chapter.

(a) receipt of the application;

(b) the status of the application; and

(c) where a decision has been made, the decision concerning the application, including:

(i) if approved, the period of stay and other conditions; or

(ii) if refused, the reasons for refusal.

3. The Parties affirm their voluntary commitments established in the APEC Business Travel Card Operating Framework.

5. Each Party shall endeavour, to the extent possible, to provide facilities for online lodgement and processing of immigration formalities.

Article 10.4. Grant of Temporary Entry

1. Each Party shall set out in Annex 10-A the specific commitments it undertakes for each of the categories of natural persons specified therein. The Parties may make commitments in respect of the temporary employment entry of natural persons.

Article 10.8. Relation to other Chapters

1. Except for this Chapter, Chapters 1 (Initial Provisions and Definitions), 13 (Transparency), 14 (Institutional Provisions), 15 (Dispute Settlement), 16 (General Provisions and Exceptions), and 17 (Final Provisions), no provision of this Agreement shall impose any obligation on a Party regarding its immigration measures within the scope of this Chapter.

2. The Parties may agree to terminate the proceedings of the arbitral tribunal in the event that a mutually satisfactory solution to the dispute has been found. In such event the Parties shall jointly notify the Chair of the arbitral tribunal.
3. Before the arbitral tribunal presents its final report, it may at any stage of the proceedings propose to the Parties that the dispute be settled amicably.

Article 15. Report of the Arbitral Tribunal

1. In order to enable the Parties to have an opportunity for review and comment, the arbitral tribunal shall present the Parties with its initial report within 90 days of appointment of the final arbitrator setting out its findings of facts, its reasoning, and its determination as to whether:
 - (a) the measure at issue is inconsistent with the obligations of this Agreement;
 - (b) a Party has otherwise failed to carry out its obligations under this Agreement.
2. The arbitral tribunal shall base its report on the relevant provisions of this Agreement, the submissions and arguments of the Parties and any information or technical advice it has obtained in accordance with its rules of procedure. The arbitral tribunal may also, on the joint request of the Parties, suggest ways in which the Party complained against could implement the recommendations.
3. In exceptional cases, if the arbitral tribunal considers it cannot present its initial report within 90 days, it shall inform the Parties in writing of the reasons for the delay, together with an estimate of the period within which it will issue its report. Any delay shall not exceed a further period of 30 days, unless the Parties otherwise agree.
4. Each Party may submit written comments to the arbitral tribunal within 10 days of the presentation of the initial report. After considering these written comments by the Parties and making any further examination it considers appropriate, the arbitral tribunal shall present the Parties its final report within 30 days of presentation of the initial report, unless the Parties otherwise agree.
5. The final report of the arbitral tribunal shall be made available to the public within 10 days from the date of its presentation to the Parties.

Article 15.13. Implementation of the Final Report

1. Where the arbitral tribunal makes a finding that a measure is inconsistent with this Agreement, or that a Party has otherwise failed to carry out its obligations under this Agreement, the Party complained against shall bring the measure into conformity with this Agreement.

2. Within 30 days of the presentation of the final report of the arbitral tribunal to the Parties, the Party complained against shall inform the complaining Party of its intentions with respect to implementation of the findings of the arbitral tribunal. If it is impracticable to comply immediately with the findings, the Party complained against shall have a reasonable period of time in which to do so.

Article 15.14. Reasonable Period of Time

1. The reasonable period of time shall be mutually determined by the Parties. Where the Parties fail to agree on the reasonable period of time within 45 days of the presentation of the arbitral tribunal's final report, either Party may refer the matter to the original arbitral tribunal, to the extent this is possible, which shall determine the reasonable period of time.

2. The arbitral tribunal shall provide its determination to the Parties within 30 days after the date of the referral of the matter to it. Prior to making its determination, the arbitral tribunal shall seek written submissions from the Parties and, if requested by either Party, hold a meeting with the Parties where each will be given an opportunity to present its submission. As a guideline, the reasonable period of time should not exceed 15 months from the date of the issuance of the arbitral tribunal's final report. However, that time may be shorter or longer depending upon the particular circumstances.

3. When the arbitral tribunal considers that it cannot provide its determination within this timeframe, it shall inform the Parties in writing of the reasons for the delay together with an estimate of the period within which it will provide its determination. Any delay shall not exceed a further period of 15 days, unless the Parties otherwise agree.

Article 15.15. Compliance Review

1. Where the Parties disagree on the existence or consistency with this Agreement of measures taken to comply with the obligations in Article 15.13.1, such dispute shall be referred to an arbitral tribunal under this Chapter, including wherever possible by resort to the original arbitral tribunal.

2. Such request may only be made after:

(a) the expiry of the reasonable period of time; or

(b) the Party complained against has given written notification to the complaining Party that it has complied with the obligations in Article 15.13.1.

3. The arbitral tribunal convened under this Article shall reconvene as soon as possible after the delivery of the request and shall issue its final report on the matter within 60 days of the date of delivery of the written notification.

4. The arbitral tribunal shall make an objective assessment of the matter before it, including an objective assessment of:

(a) the facts of any implementation action taken by the Party complained against to comply with the obligations in Article 15.13.1; and

(b) whether the Party complained against has complied with the obligations in Article 15.13.1,

and set out its findings on both elements in its report.

Article 15.16. Compensation and Suspension of Concessions and Obligations

1. If the Party complained against:

(a) fails to comply with the findings of the arbitral tribunal within the reasonable period of time;

(b) expresses in writing that it will not comply with the findings of the arbitral tribunal, or

(c) has been found through the compliance review process set out in Article 15.15 to have not complied with the obligations in Article 15.13.1,

that Party shall, if so requested, enter into negotiations with the complaining Party with a view to reaching a mutually satisfactory agreement on any necessary compensation.

2. If the Parties do not reach agreement on compensation in accordance with paragraph 1 within 20 days, the complaining Party may provide written notification to the Party complained against that it intends to suspend the application to the Party complained against of concessions and obligations under this Agreement of equivalent effect to the level of non-conformity that the arbitral tribunal has found. The notification shall specify the level of concessions or other obligations that the

complaining Party proposes to suspend.

3. The complaining Party may begin suspending concessions and obligations 30 days after it provides notification of its intention to suspend, or after an arbitral tribunal issues its determination under paragraph 6.

4. Any suspension of concessions and obligations shall be restricted to benefits accruing to the other Party under this Agreement.

5. In considering what concessions and obligations to suspend in accordance with paragraph 2, the complaining Party shall apply the following principles:

(a) the complaining Party should first seek to suspend concessions and obligations in the same sector(s) as that affected by the measure that the arbitral tribunal has found to be inconsistent with the obligations of this Agreement; and

(b) if the complaining Party considers that it is not practicable or effective to suspend concessions and obligations in the same sector(s), it may suspend concessions and obligations in other sectors. The communication in which it announces such a decision shall indicate the reasons on which it is based.

6. If the Party complained against objects to the level of suspension proposed, or considers that the principles set out in paragraph 5 have not been applied, it may make a written request to reconvene the original arbitral tribunal to examine the matter. The arbitral tribunal shall determine whether the level of concessions and obligations to be suspended by the complaining Party in accordance with paragraph 2 is equivalent to the level of non-conformity. If the arbitral tribunal cannot be established with its original arbitrators, the proceeding set out in Article 15.7 shall be applied.

7. The arbitral tribunal shall present its determination within 60 days of the request made in accordance with paragraph 6 or, if an arbitral tribunal cannot be established with its original arbitrators, from the date on which the last arbitrator is designated. The determination of the arbitral tribunal shall be final and binding and shall be made publicly available.

8. The suspension of concessions and obligations shall be temporary and shall only be applied until such time as the measure found to be inconsistent with this Agreement has been removed, or a mutually satisfactory solution is reached.

Article 15.17. Post Suspension Review

1. Where the right to suspend concessions and obligations has been exercised in accordance with Article 15.16, if the Party complained against considers that it has complied with its obligations in Article 15.13.1, it may provide written notice to the complaining Party with a description of how it has complied. If the complaining Party disagrees, it may refer the matter to the original arbitral tribunal within 30 days after receipt of such written notice. If the arbitral tribunal cannot be established with its original arbitrators, the proceeding set out in Article 15.7 shall be applied. Otherwise, the complaining Party shall promptly stop the suspension of concessions and obligations.

2. The arbitral tribunal shall release its report within 60 days after the referral of the matter. If the arbitral tribunal concludes that the Party complained against has eliminated the non-conformity, the complaining Party shall promptly stop the suspension of concessions and obligations.

Section B.

Introductory Notes

1. Section B of the Schedule of Australia sets out, pursuant to Article 8.9 (Schedule of Non-Conforming Measures) of Chapter 8 (Trade in Services) and Article 9.5 (Non-Conforming Measures) of Chapter 9 (Investment), the specific sectors, sub-sectors or activities for which Australia may maintain existing, or adopt new or more restrictive, measures that do not conform with obligations imposed by:

(a) Article 8.11 (Market Access) of Chapter 8 (Trade in Services);

(b) Article 8.10 (National Treatment) of Chapter 8 (Trade in Services) or Article 9.3 (National Treatment) of Chapter 9 (Investment); or

(c) Article 8.12 (Most-Favoured-Nation Treatment) of Chapter 8 (Trade in Services) or Article 9.4 (Most-Favoured-Nation Treatment) of Chapter 9 (Investment).

Note 1: Commitments on financial services are undertaken subject to the limitations and conditions set forth in Chapter 8 (Trade in Services), Annex 8-B (Financial Services) and Chapter 9 (Investment), these Introductory Notes and the Schedule below.

Note 2: To clarify Australia's commitment with respect to Article 8.11 (Market Access) of Chapter 8 (Trade in Services), enterprises supplying financial services and constituted under the laws of Australia are subject to non-discriminatory limitations on juridical form. (20)

20 For example, partnerships and sole proprietorships are generally not acceptable juridical forms for authorised depository institutions in Australia. This note is not itself intended to affect, or otherwise limit, a choice by a financial service supplier of the other Party between branches or subsidiaries.

Note 3: Without prejudice to other means of prudential regulation of cross-border trade in financial services, Australia reserves the right to require the non-discriminatory licensing or registration of cross-border financial service suppliers of China and of financial instruments in accordance with Article 3 (Domestic Regulation) of Annex 8-B (Financial Services).

Note 4: Australia reserves the right to adopt or maintain non-discriminatory limitations concerning admission to the market of new financial services where such measures are required to achieve prudential objectives. Australia may determine the institutional and juridical form through which a new financial service may be supplied and may require authorisation for the supply of the service. Where authorisation to supply a new financial service is required, the authorisation may only be refused for prudential reasons.

(a) "Sector" refers to the sector for which the entry is made;

ATTACHMENT 1. Reference paper scope

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

Definitions

Users mean service consumers and service suppliers.

Essential facilities mean facilities of a public telecommunications transport network or service that: (a) are exclusively or predominantly provided by a single or limited number of suppliers; and (b) cannot feasibly be economically or technically substituted in order to provide a service.

A major supplier is a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

(a) control over essential facilities; or (b) use of its position in the market.

1. Competitive safeguards

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

(a) engaging in anti-competitive cross-subsidisation;

(b) using information obtained from competitors with anti-competitive results; and

(c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

2. Interconnection

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges

that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

(a) at any time; or (b) after a reasonable period of time which has been made publicly known to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

3. Universal service

China has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by China.

4. Public availability of licensing criteria

Where a licence is required, the following will be made publicly available: (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and (b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

5. Independent regulators

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

6. Allocation and use of scarce resources

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

ATTACHMENT 2. Distribution services

Distribution trade services are comprised of four main sub-sectors:

☞ commission agents services;

☞ wholesaling;

☞ retailing; and

☞ franchising.

The principal services rendered in each subsector can be characterised as reselling merchandise, accompanied by a variety of related subordinated services, including inventory management; assembly, sorting and grading of bulk lots; breaking bulk lots and redistributing into smaller lots; delivery services; refrigeration, storage, warehousing and garage services; sales promotion, marketing and advertising, installation and after sales services including maintenance and repair and training services. Distribution services are generally covered by CPC 61, 62, 63 and 8929.

Commission Agents' Services consist of sales on a fee or contract basis by an agent, broker or auctioneer or other wholesalers of goods/merchandise and related subordinated services.

Wholesaling consist of the sale of goods/merchandise to retailers to industrial, commercial, institutional, or other professional business users, or to other wholesalers and related subordinated services.

Retailing services consist of the sale of goods/merchandise for personal or household consumption either from a fixed location (e.g., store, kiosk, etc.) or away from a fixed location and related subordinated services.

Franchising services consist of the sale of the use of a product, trade name or particular business format system in exchange for fees or royalties. Product and trade name franchising involves the use of a trade name in exchange for fees or royalties and may include an obligation for exclusive sale of trade name products. Business format franchising involves the use of an entire business concept in exchange for fees and royalties, and may include the use of a trade name, business plan, and training materials and related subordinated services.

ATTACHMENT 3. Insurance: definition of "master policy"

Master policy is the policy that provides blanket coverage for the same legal person's property and liabilities located in different places. Master policy may only be issued by the business department of an insurer's head office or that of its authorised province-level branch offices. Other branches are not allowed to issue Master policy.

Master policy business with the state key construction projects as its subject-matter insured. If investors on state key construction projects (i.e., projects that are so listed and annually announced by the National Development and Reform Commission) meet either of the following requirements, they may purchase Master policy from insurers that are located in the same place as the investors' legal persons do.

The investment on the subject-matter insured is all from China (including the reinvestment from the foreign-invested enterprises in China), and the sum of investment of the investor accounts for over 15 percent of the total investment.

The investment is partially from abroad, and partially from China (including the reinvestment from the Foreign-invested enterprises in China), and the sum of investment of the Chinese investor accounts for over 15 percent for the total domestic investment.

For those projects that draw investment all from abroad, every insurer may provide coverage in the form of Master policies.

Master policy covering different subject-matter insured of the same legal person. For those subject-matter insured located in different places and owned by the same legal person (excluding financial, railway, and post and telecommunications industries and enterprises), Master policy may be issued on the basis of either of the following conditions.

For the sake of payment of premium tax, insurance companies incorporated where the legal person or accounting unit of the insurance applicant is located are allowed to issue Master policy.

If over 50 per cent of insurance amount of the subject-matter insured is from a larger or medium sized city, then insurers in that city are allowed to issue Master policy, no matter whether the insurance applicant's legal person or accounting unit is located in the city.

Motor insurance, credit insurance, employer liabilities insurance, statutory insurance, and other insurance business excluded by the China Insurance Regulatory Committee cannot be underwritten or co-insured by insurers located other than where the subject-insured are located, or covered under a Master policy.

Establishment of IFA

2. The project company will be eligible to establish an IFA where:

(a) a single Chinese enterprise (2) owns 50% or more of the project company; or, where no single enterprise owns 50% or more of the project company, a Chinese enterprise holds a substantial interest (3) in the project company;

(b) there is a proposed infrastructure development project ("the project") by the project company with an expected capital expenditure (4) of A\$150 million over the term of the project;

(1) A project company means either an Australian enterprise responsible for all the day to day oversight of the project, management of the vendors, or that initiates, finances and tenders for a major project; or a prime contractor that is an Australian enterprise and is responsible for the day-to-day oversight of the project and management of vendors and tradespeople.

(2) "Enterprise" means any entity constituted or organised under applicable law, whether or not for profit, and whether privately or governmentally owned or controlled, including a corporation, trust, partnership, sole proprietorship, joint venture, association, or similar organisation; and a branch of an enterprise.

3 "Substantial interest" is as defined in Australia's Foreign Investment Policy, available at www.firb.gov.au, namely, 'A substantial interest occurs when a single foreign person (and any associates — see section 6 of the Foreign Acquisitions and Takeovers Act 1975 for the list of 'associates') — has 15 per cent or more, or several foreign persons (and any associates) have 40 per cent or more, of the issued shares, issued shares if all rights were converted, voting power, or potential voting power, of a corporation.

4 "Capital expenditure" means funds used by a Project Company to acquire or upgrade physical assets such as property.

(c) the project is related to infrastructure development within the food and agribusiness; resources and energy; transport; telecommunications; power supply and generation; environment; or tourism sectors;

(d) the project company is registered as a business in Australia;

(e) the project company agrees to comply with all Australian laws and regulations, including applicable Australian workplace law, work safety law and relevant Australian licensing, regulation and certification standards; and

(f) the China International Contractors Association (CHINCA) and the Department of Foreign Affairs and Trade of Australia (DFAT) have recommended the project and the project company meet the criteria in paragraphs 2(a) through 2(e).

3. In order to meet the requirement of paragraph 2(f), CHINCA will write to DFAT advising of a project company wishing to enter into an IFA for a project and will provide its recommendation that the requirements of paragraphs 2(a) through 2(e) have been met. DFAT will assess CHINCA's recommendation in a timely manner and, once satisfied the eligibility criteria have been met, within 20 days will notify DIBP in writing of its recommendation that the proposed project constitutes an eligible project ("eligible project") under the terms of this MOU and provide a copy of that notification to CHINCA. DFAT may request further information if necessary from CHINCA in respect of demonstrating the eligibility criteria have been met.

4. The areas which will be subject to negotiation between DIBP and the project company in respect of the eligible project will include:

(a) the occupations covered by the IFA project agreement (5);

(b) English language proficiency requirements;

(c) qualifications and experience requirements; and

(d) calculation of the terms and conditions of the Temporary Skilled Migration Income Threshold (TSMIT).

(5) Occupations eligible for coverage by the IFA project agreement will include occupations listed as skills levels 1-4 in the Australian and New Zealand Standard Classification of Occupations.

5. The project company may be asked to provide additional information by DIBP in respect of its requests for concessions in the above areas. Other than the areas referred to in paragraphs 4(a) through 4(d), the grant of visas will be subject to meeting all other Australian nomination and visa requirements.

6. Following agreement between DIBP and the project company on the areas referred to in paragraph 4, an IFA will be executed in a timely manner in the form of a deed of agreement between DIBP and the project company. The IFA will set out guaranteed occupations and the terms and conditions against which overseas workers can be nominated for a temporary skilled visa for the purposes of the eligible project. The IFA will also record any requirements and conditions that the project company must comply with. There will be no requirement for labour market testing to enter into an IFA.

7. The IFA will be valid for four years from date of execution with the possibility of extension.

Issue of Visas under IFAs

8. Once the IFA is executed, direct employers (including, where applicable, the project company) on the eligible project can seek the endorsement of the project company to enter into a labour agreement under the IFA with DIBP to sponsor and nominate temporary skilled workers to be engaged on the project. A labour agreement will be entered into in a timely manner and will set out the number, occupations and terms and conditions under which temporary skilled workers can be nominated, consistent with the terms of the IFA, and the sponsorship obligations associated with the labour agreement, including any requirements for labour market testing. (6)

9. Employers will provide information as required by DIBP to meet the requirements for a labour agreement under the IFA.

10. Complete nomination and visa applications submitted under an approved IFA labour agreement will be processed in a timely manner.

11. All direct employers under an IFA and workers granted visas under an approved IFA labour agreement will be required to comply with applicable Australian laws, including workplace law, work safety law and relevant Australian licensing, regulation and certification standards.

(6) Where labour market testing is required, employers may satisfy this requirement by demonstrating that they have first tested the Australian labour market and not found sufficient suitable workers. DIBP will make publicly available information on how any labour market testing requirements could be met.
