Article 8. Fees and other Charges

Fees and other charges referred to in Article 6(1)(c) shall be limited in amount to the approximate cost of services rendered and shall not represent an indirect protection for domestic products or a taxation of imports for fiscal purposes. Trade-related fees and charges shall not be imposed for consular services.

Article 9. Rules of Origin

1. For the purposes of this Part, the term "originating" means qualifying as "originating" under the applicable law of the importing Party (1) (2).

2. The EPA Council established under Article 104 (hereinafter referred to as "the EPA Council") shall, by decision, adopt a protocol governing the rules of origin at the latest five (5) years after the date of entry into force of this Agreement. Paragraph 1 of this Article shall cease to apply from the moment that such protocol becomes applicable.

3. If at the end of the five-year period referred to in paragraph 2 the Parties have not adopted such protocol, the EPA Council shall assess the application of paragraph 1 and may decide to extend that five-year period.

(1) For greater certainty, in determining the consistency of a measure with this Agreement under Title II of Part VII an arbitration panel may consider, as appropriate, the law of a Party as a matter of fact. In doing so, the arbitration panel shall follow the prevailing interpretation given to the law by the courts or authorities of that Party and any meaning given to law by the arbitration panel shall not be binding upon the courts or the authorities of that Party.

(2) Products originating in the EAC Partner State when imported into Ceuta or Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the EU under Protocol No 2 of the Act concerning the conditions of accession of the Kingdom of Spain and the Portuguese Republic and the adjustments to the Treaties (OJ EU L 302, 15.11.1985, p. 23). 2. In order to preserve the prospect of wider African regional integration processes, the Parties may decide in the EPA Council to modify the level of customs duties stipulated in Annexes II(a), II(b) and II(c) to this Agreement, which may be applied to a product originating in the EU upon its importation into the EAC Partner State(s). The Parties shall ensure that any such modification does not result in an incompatibility of this Agreement with the requirements of Article XXIV of GATT 1994.

Article 13. Movement of Goods

1. Customs duties shall be imposed once for goods originating in one Party and imported into the territory of the other Party.

2. Any duty paid upon importation into an EAC Partner State shall be refunded fully for the goods that leave the EAC Partner State of first importation to another EAC Partner State. The duty shall be paid in the EAC Partner State of consumption of the goods.

3. The Parties agree on cooperation to facilitate the movement of goods and simplify customs procedures.

Article 14. Export Duties and Taxes

1. A Party shall not institute any new duties or taxes in connection with the exportation of goods to the other Party that are in excess of those imposed on like products destined for internal sale.

2. Notwithstanding paragraph 1, the EAC Partner State(s) can impose, after notifying the EU, a temporary duty or tax in connection with the exportation of goods under the following circumstances:

(a) to foster the development of domestic industry;

(b) to maintain currency stability, when the increase in the world price of an export commodity creates the risk of a currency overvaluation; or

(c) to protect revenue, food security and the environment.

3. Such taxes should be enforced on a limited number of products for a limited period and shall be reviewed by the EPA Council for renewal after forty-eight (48) months.

4. Any more favourable treatment consisting in or in relation to taxes applied by the EAC Partner State(s) to exports of any products destined for any major trading economy shall, from the date of entry into force of this Agreement, be accorded to the like product destined for the territory of the EU.

5. For the purposes of this Article and Article 15, "major trading economy" means any developed country, or any country accounting for a share of world merchandise exports above 1 percent in the year before the entry into force of the free trade agreement referred to in Article 15, or any group of countries acting individually, collectively or through a free trade agreement accounting collectively for a share of world merchandise exports above 1,5 percent in the year before the entry into force of the free trade agreement referred to in Article 15 (1).

(1) This calculation shall be based on the WTO official data on leading exporters on world merchandise trade (excluding intra-EU trade).

Article 15. More Favourable Treatment Resulting from a Free Trade Agreement

1. With respect to the goods covered by this Part, the EU shall accord to the EAC Partner State(s) any more favourable treatment applicable as a result of the EU becoming party to a free trade agreement with a third party after the signature of this Agreement.

2. With respect to the goods covered by this Part, the EAC Partner State(s) shall accord to the EU any more favourable

treatment applicable as a result of the EAC Partner State(s) becoming party to a free trade agreement with any major trading economy after the signature of this Agreement. Provided that the EU can demonstrate that it has been given less favourable treatment than that offered by the EAC Partner State(s) to any other major trading economy, the Parties shall to the extent possible, consult and jointly decide on how best to implement this paragraph on a case-by-case basis.

3. The provisions of this Part shall not be so construed as to oblige the Parties to extend reciprocally any preferential treatment applicable as a result of one of them being party to a free trade agreement with a third party on the date of signature of this Agreement.

4. Paragraph 2 shall not apply in respect of trade agreements between the EAC Partner State(s) with countries of the African, Caribbean and Pacific Groups, or other African countries and regions.

5. For the purposes of this Article, "free trade agreement" means an agreement substantially liberalising trade and substantially eliminating discriminatory measures and/or prohibiting new or more discriminatory measures among Parties at the entry into force of that agreement or within a reasonable time frame.

Article 16. Special Provisions on Administrative Cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and control of the preferential treatment granted under this Part and underline their commitment to combat irregularities and fraud in customs and related matters.

2. Where a Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purposes of this Article, a failure to provide administrative cooperation shall mean, inter alia:

(a) a repeated failure to respect the obligation to verify the originating status of the product(s) concerned;

(b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin of the product(s) concerned;

(c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

4. A finding of irregularities or fraud may be made, inter alia, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

5. The application of a temporary suspension shall be subject to the following conditions:

(a) the Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Committee of Senior Officials established under Article 106 (hereinafter referred to as "the Committee of Senior Officials") of its finding together with the objective information and enter into consultations within the Committee of Senior Officials, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties;

(b) where the Parties have entered into consultations within the Committee of Senior Officials as referred to in point (a) and have failed to agree on an acceptable solution within three (3) months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned, and such temporary suspension shall be notified to the EPA Council without undue delay;

(c) temporary suspensions under this Article shall be limited to those necessary to protect the financial interests of the Party concerned, shall not exceed a period of six (6) months and may be renewed, and they shall be subject to periodic consultations within the Committee of Senior Officials in particular with a view to their termination as soon as the conditions for their application no longer exist.

6. At the same time as the notification to the Committee of Senior Officials under paragraph 5(a), the Party making such notification should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 17. Management of Administrative Errors

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the rules of origin applicable for the purposes of this Agreement concerning the definition of the concept of "originating products" and methods of administrative cooperation, and that error leads to consequences in terms of import duties, the Party facing such consequences may request the Committee of Senior Officials to examine the possibility of adopting all appropriate measures with a view to resolving the situation.

Article 18. Customs Valuation

1. Article VII of GATT 1994 and the Agreement on the implementation of Article VII of GATT 1994 shall govern customs valuation rules applied to trade between the Parties.

2. The Parties shall cooperate with a view to reaching a common approach to issues relating to customs valuation.

Title II. NON-TARIFF MEASURES

All prohibitions or restrictions on the importation, exportation or sale for export between the Parties, other than customs duties, taxes, fees and other charges provided for under Article 6, whether made effective through quotas, import or export licenses or other measures, shall be eliminated upon the date of entry into force of this Agreement. No new such measures shall be introduced in trade between the Parties. This Article shall be without prejudice to the provisions of Title VI of this Part.

1. Imported products originating in one Party shall not be subject, either directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products of the other Party. Moreover, the Parties shall not otherwise apply internal taxes or other internal charges so as to afford protection to their respective production.

2. Imported products originating in one Party shall be accorded treatment no less favourable than that accorded to like domestic products of the other Party in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. This paragraph shall not prevent the application of differential internal transportation charges, which are based exclusively on the economic operation of the means of transport and not on the origin of the product.

3. Neither Party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. Moreover, neither Party shall apply internal quantitative regulations so as to afford protection to their respective production.

4. This Article shall not prevent the payment of subsidies exclusively to national producers, including payments to national producers derived from the proceeds of internal taxes or charges applied consistently with this Article and subsidies effected through governmental purchases of national products.

5. This Article shall not apply to laws, regulations, procedures or practices governing public procurement.

Article 25. Facilitation of Transit Movements

1. The Parties shall ensure freedom of transit through their territories via the most convenient routes. Any restriction, control or requirement shall be non-discriminatory, proportionate and applied uniformly.

2. A Party may require that traffic in transit through its territory be entered at the proper customs house through designated routes. Should a Party require the use of such routes, it shall do it in full compliance with Article V(3) of GATT 1994.

1. The Committee of Senior Officials shall, not later than six (6) months from the date of entry into force of this Agreement, establish a list of at least fifteen (15) individuals who are willing and able to serve as arbitrators. The list shall be composed of three sub-lists: one sub-list for each Party to serve as arbitrators; and one sub-list of individuals that are not nationals of either Party and who shall be available to act as Chairperson of the arbitration panel. Each sub-list shall include at least five (5) individuals. The Committee of Senior Officials shall ensure that the list is always maintained at this level, in accordance with the rules of procedure adopted under Article 120.
2. Should any of the sub-lists not be established or not contain sufficient names of individuals at the time a notice is made pursuant to Article 113(2), the arbitrators shall be drawn by lot from the individuals who have been formally proposed for the respective sub-list by one or both of the Parties. If only one Party has proposed names, the three arbitrators shall be drawn by lot from among those names.
3. In case there is no list of arbitrators established under paragraph 1, or names of arbitrators proposed under paragraph 2, the Party initiating the process of arbitration shall request the Secretary-General of the Permanent Court of Arbitration to act as the appointing authority.
4. Arbitrators must have specialised knowledge of, and experience in, law and international trade. They shall be independent, serve in their individual capacities and not take instructions from any organisation or government, or be affiliated with the government of any of the Parties, and shall comply with the code of conduct annexed to the rules of procedure adopted under Article 120.

Article 126. Relation to WTO Dispute Settlement

1. Arbitration panels established under this Agreement shall not adjudicate disputes on either Party's rights or obligations under the WTO agreements.
2. Recourse to the dispute settlement provisions of this Agreement shall be without prejudice to any action within the WTO framework, including dispute settlement action. However, where a Party has, with regard to a particular measure, initiated a dispute settlement proceeding, either under this Title or under the WTO Agreement, it shall not institute a dispute settlement proceeding regarding the same measure in the other forum until the first proceeding has ended. In addition, a Party shall not seek redress for the breach of an obligation which is identical under this Agreement and under the WTO Agreement in both fora. In such case, once a dispute settlement proceeding has been initiated, a Party shall not bring a claim seeking redress for the breach of the identical obligation under the other agreement to the other forum, unless the forum selected fails for procedural or jurisdictional reasons to make findings on the claim seeking redress of that obligation.
3. A Party may, with regard to a particular measure, institute a dispute settlement proceeding either under this Part or under the WTO Agreement, as follows:
 - (a) dispute settlement proceedings under this Part shall be deemed to be initiated by a Party's request for the establishment of an arbitration panel under Article 112, and shall be deemed to be ended when the arbitration panel notifies its ruling to the Parties and to the Committee of Senior Officials under Article 115, or where a mutually agreed solution has been reached under Article 119;
 - (b) dispute settlement proceedings under the WTO Agreement shall be deemed to be initiated by a Party's request for the establishment of a panel under Article 6 of the DSU, and shall be deemed to be ended when the WTO Dispute Settlement Body adopts the report of the WTO panel or the Appellate Body, as the case may be, under Articles 16 and 17(14) of the DSU.
4. Nothing in this Agreement shall preclude a Party from implementing the suspension of obligations authorised by the WTO Dispute Settlement Body. The WTO Agreement shall not preclude a Party from suspending obligations under this Agreement.

Article 127. Time Limits

1. Any time limits laid down in this Part, including the limits for the arbitration panels to notify their rulings, shall be counted in calendar days from the day following the act or fact to which they refer.
2. Any time limit referred to in this Part may be extended by mutual agreement of the Parties.

Part VIII. GENERAL EXCEPTIONS

Article 128. General Exception Clause

1. Subject to the requirement that such measures not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent the adoption or enforcement by the EU or the EAC Partner State(s) of measures:

(a) necessary to protect public security and morals or to maintain public order;

(b) necessary to protect human, animal or plant life or health;

(c) relating to the importation or exportation of gold or silver;

(d) necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Agreement, including those relating to customs enforcement, the enforcement of monopolies operated under Article II(4) and Article XVII of GATT, the protection of patents, trade marks and copyrights, and the prevention of deceptive practices;

(e) relating to the products of prison labour;

(f) imposed for the protection of national treasures of artistic, historic or archaeological value;

(g) relating to the conservation of exhaustible natural resources, if such measures are made effective in conjunction with restrictions on domestic production or consumption;

(h) undertaken in pursuance of obligations under any intergovernmental commodity agreement which conforms to criteria submitted to the GATT Contracting Parties and not disapproved by them or which is itself so submitted and not so disapproved (1);

(i) involving restrictions on exports of domestic materials necessary to ensure essential quantities of such materials to a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilisation plan; such measures shall, however, not operate to increase the exports of or the protection afforded to such domestic industry, and shall not depart from the provisions of this Agreement relating to non-discrimination;

(j) essential to the acquisition or distribution of products in general or local short supply, provided that any such measures shall be consistent with the principle that the EU or the EAC Partner State(s) are entitled to an equitable share of the international supply of such products, and that any such measures, which are inconsistent with the other provisions of this Agreement, shall be eliminated as soon as the conditions giving rise to them have ceased to exist.

(1) The exception provided for in this point extends to any commodity agreement which conforms to the principles approved by the GATT Economic and Social Council in its Resolution 30 (IV) of 28 March 1947.

Article 129. Security Exceptions

1. Nothing in this Agreement shall be construed:

(a) to require the EU or the EAC Partner State(s) to furnish any information the disclosure of which it considers contrary to its essential security interests; or

(b) to prevent the EU or the EAC Partner State(s) from taking any action which it considers necessary for the protection of its essential security interests:

(i) relating to fissionable materials or the materials from which they are derived;

(ii) relating to the traffic in arms, ammunition and implements of war and to such traffic in other goods and materials as is carried on directly or indirectly for the purpose of supplying a military establishment;

(iii) relating to government procurement indispensable for national security or for national defence purposes;

(iv) taken in time of war or other emergency in international relations; or

(c) to prevent the EU or the EAC Partner State(s) from taking any action in pursuance of their obligations under the United Nations Charter signed in San Francisco on 26 June 1945 for the maintenance of international peace and security.

2. The Committee of Senior Officials shall be informed to the fullest extent possible of measures taken under paragraphs 1(b) and (c) and of their termination.

Article 130. Taxation

1. Nothing in this Agreement, or in any arrangement adopted under this Agreement, shall be construed to prevent a Party from distinguishing, in the application of the relevant provisions of its fiscal legislation, between taxpayers who are not in the same situation, in particular with regard to their place of residence or with regard to the place where their capital is invested.

2. Nothing in this Agreement, or in any arrangement adopted under this Agreement, shall be construed to prevent the adoption or enforcement of any measure aimed at preventing the avoidance or evasion of taxes pursuant to the tax provisions of agreements to avoid double taxation or other tax arrangements or domestic fiscal legislation.

3. Nothing in this Agreement shall affect the rights and obligations of the Parties under any tax convention. In the event of any inconsistency between this Agreement and any such convention, that convention shall prevail to the extent of the inconsistency.

Part IX. GENERAL AND FINAL PROVISIONS

Article 131. Balance of Payments Difficulties

1. Where a Party is in serious balance of payments and external financial difficulties, or under threat thereof, it may adopt or maintain restrictive measures with regard to trade in goods.

2. The Parties shall endeavour to avoid the application of the restrictive measures referred to in paragraph 1.

3. Any restrictive measure adopted or maintained under this Article shall be non-discriminatory and of limited duration and shall not go beyond what is necessary to remedy the balance of payments and external financial situation. It shall be in accordance with the conditions established in the WTO agreements and consistent with the Articles of Agreement of the International Monetary Fund (IMF), as applicable.

4. A Party maintaining or having adopted restrictive measures, or any changes thereto, shall promptly notify them to the other Party and to the EPA Council and present as soon as possible, a time schedule for their removal.

5. Consultations shall be held promptly within the EPA Council, and such consultations shall assess the balance of payments situation of the concerned Party and the restrictions adopted or maintained under this Article, taking into account, inter alia, such factors as:

(a) the nature and extent of the balance of payments and the external financial difficulties;

(b) the external economic and trading environment;

(c) alternative corrective measures which may be available.

6. The consultations shall address the compliance of any restrictive measures with paragraphs 3 and 4. All findings of statistical and other facts presented by the IMF relating to foreign exchange, monetary reserves and balance of payments shall be accepted, and conclusions shall be based on the assessment by the IMF of the balance of payments and the external financial situation of the concerned Party adopting or maintaining the measure.

Article 132. Definition of the Parties and Fulfilment of Obligations

1. The Contracting Parties to this Agreement are the Republic of Kenya and any other Contracting Parties to the Treaty for the Establishment of the East African Community that accede to this Agreement in accordance with Article 144 of this Agreement, herein referred to as the "EAC Partner State(s)", on the one part, and the European Union, herein referred to as the "EU", on the other part.

Each Party shall ensure that any laws, regulations, procedures and administrative rulings of general application as well as any international commitments relating to any trade matter covered by this Agreement are promptly published or made publicly available and brought to the attention of the other Party.

2. Without prejudice to specific transparency provisions in this Agreement, the information referred to under this Article shall be considered to have been provided when the information has been made available to the governments of the EAC Partner State(s) and the European Commission or to the WTO or on the official websites of the Parties that shall be publicly accessible without a fee.

3. Nothing in this Agreement shall require a Party to provide confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private, except to the extent that it may be necessary to be disclosed in the context of a dispute settlement proceeding under Part VII. Where such disclosure is considered necessary by a panel established under Article 113 the panel shall ensure that confidentiality is fully protected.

Article 135. Outermost Regions of the European Union

1. Taking account of the geographical proximity of certain outermost regions of the EU and the EAC Partner State(s) and in order to reinforce economic and social links between those regions and the EAC Partner State(s), the Parties shall endeavour to facilitate cooperation in all areas covered by this Agreement between those outermost regions of the EU and the EAC Partner State(s).

With the exception of development cooperation provisions contained in Title II of Part 3 of the Cotonou Agreement or the corresponding provisions of its successor agreement, in case of any inconsistency between the provisions of this Agreement and the provisions of Title II of Part 3 of the Cotonou Agreement or the corresponding provisions of its successor agreement, the provisions of this Agreement shall prevail.

2. In case of any inconsistency between the provisions of Part V of this Agreement and the Cotonou Agreement or its successor agreement, the provisions of the Cotonou Agreement or the corresponding provisions of its successor agreement shall prevail.
