If an investor had submitted claims regarding the measure at issue in the Joint Committee to local courts or an arbitration tribunal of the Host State, the arbitration to examine damages can only be initiated after the withdrawal of such claims by the investor in local courts or an arbitration tribunal of the Host State. If after the establishment of the arbitration, the existence of claims in local courts or arbitral tribunals over the contested measure is made known to the arbitrators or the Parties, the arbitration will be suspended.

c) If the arbitration award provides monetary compensation, the Party receiving such compensation shall transfer to the holders of the rights of the investment in question, after deducting the costs of the dispute in accordance with the internal procedures of each Party. The Party to whom restitution was granted may request the Arbitral Tribunal to order the transfer of the compensation directly to the holders of rights of the affected investment and the payment of costs to whoever has assumed them.

d) For the purpose of determining compensation, punitive or indirect damages, excessive earnings within market conditions, moral damage or good name of the investment or the investor should not be considered.

e) The compensation must be made in a freely convertible and freely transferable currency.

f) The Parties may agree, when the amount of compensation is significantly onerous, the mechanism and the terms through which will improve the payment of the agreed amount.
