trade.

(b) In that event, a Party shall notify the other Party of such a measure and promptly provide, on request of the other Party, supplementary information or clarification thereon, and the Parties shall hold consultations, on request of either Party, in relation to the effects of the measure on this Agreement, and seek a mutually acceptable solution.

As a result of this evaluation, the Parties shall enter into consultations to consider broadening the scope of existing commitments or undertaking additional commitments of mutual interest on non-tariff measures on goods, including on cooperation. On the basis of those consultations, the Parties may agree to enter into negotiations of mutual interest. In implementing this paragraph, the Parties shall take into account the experience gained during the preceding period of implementation of this Agreement.

Article 2.20. Restrictions to Safeguard the Balance of Payments

1. Nothing in this Agreement shall be construed as preventing a Party from taking any measures for balance-of-payments purposes. A Party taking such measures shall do so in accordance with the conditions established in Article XII of GATT 1994 and the Understanding on the Balance-of-Payments Provisions of the General Agreement on Tariffs and Trade 1994 in Annex 1A to the WTO Agreement. 2. 1. For the purpose of monitoring the functioning of this Agreement and for the period of 10 years after the entry into force of this Agreement, or for such period of time as may be decided by the Committee on Trade in Goods established pursuant to Article 23.3, the Parties shall annually exchange import statistics for the period covering the most recent calendar year available.

2. The exchange of import statistics referred to in paragraph 1 shall cover, to the extent possible, data pertaining to the period covering the most recent calendar year available, including value and volume, or such data as may be decided by the Committee on Trade in Goods, based on the nomenclature of the Party, of imports of goods of the other Party benefitting from preferential tariff treatment under this Agreement and those that do not receive preferential tariff treatment.

Article 2.32. Special Measures Concerning the Management of Preferential Tariff Treatment

1. The Parties recognise that breaches of their customs legislation relating to the preferential tariff treatment under this Agreement could adversely affect the domestic industry and agree to cooperate on preventing, detecting and combating such breaches in accordance with the relevant provisions of Chapter 3 and an agreement on cooperation and mutual administrative assistance in customs matters to be concluded between the Governments of the Parties (hereinafter referred to as "CMAA").

2. A Party may, in accordance with the procedure laid down in paragraphs 4 to 7, temporarily suspend the preferential tariff treatment under this Agreement for the goods concerned which are related to the systematic breaches referred to in subparagraph (a), if the Party has made a finding, on the basis of objective, compelling and verifiable information, that:

(a) systematic breaches in its customs legislation related to the preferential tariff treatment under this Agreement for a certain good have been committed; and

(b) the other Party has systematically and unjustifiably refused or has otherwise failed to conduct the cooperation referred to in paragraph 1 in relation to the systematic breaches referred to in subparagraph (a).

3. Notwithstanding paragraph 2, the temporary suspension shall not be applied to traders who fulfil the compliance criteria agreed by the Parties through the consultations referred to in paragraph 4.

4. The Party which has made the finding referred to in paragraph 2 shall, without undue delay, notify the other Party of that finding with sufficient information to justify the initiation of consultations, including a summary of essential facts related to subparagraphs 2(a) and (b), and enter into consultations with the other Party in the Committee on Trade in Goods with a view to reaching a solution acceptable to both Parties and agreeing on the compliance criteria with regard to the requirements of this Agreement and the relevant customs legislation.

5. The Party which has made the finding referred to in paragraph 2 shall, before a final decision is made, inform all interested parties of its intention to apply a temporary suspension, and shall ensure that they have a full opportunity for defending their interests. A temporary suspension shall not be applied to interested parties, provided that they objectively and satisfactorily demonstrate to the Party which has made the finding that they are not involved in the systematic breaches referred to in subparagraph 2(a).

6. Following the processes referred to in paragraphs 4 and 5, if the Parties have failed to agree on an acceptable solution within six months of the notification, the Party which has made the finding may decide to suspend temporarily the preferential tariff treatment under this Agreement for the goods concerned, duly taking into account the exception provided for in paragraph 3. A temporary suspension shall be notified to the other Party without undue delay.

7. A temporary suspension shall be applied only for the period necessary to counteract the breaches and no longer than six months. If a Party has made a finding that the conditions that gave rise to the initial suspension persist at the expiry of the temporary suspension, that Party may decide to renew the temporary suspension, after notifying the other Party of such a finding with sufficient information to justify the renewal. Any temporary suspension shall be terminated on a date no later than two years from the initial suspension unless it has been demonstrated to the Committee on Trade in Goods that the conditions that gave rise to the initial suspension still persist at the expiry of the period of each renewal.

8. The applied temporary suspensions shall be subject to periodic consultations in the Committee on Trade in Goods.

9. The Party which has made the finding referred to in paragraph 2 or 7 shall publish, in accordance with its internal procedures, notices to importers about any notification and decision concerning temporary suspensions referred to in paragraphs 4 to 7.

10. A temporary suspension shall not apply to traders other than the traders referred to in paragraph 3 and the interested parties referred to in paragraph 5, provided that they objectively and satisfactorily demonstrate to the Party which has made the finding referred to in paragraph 2 or 7 that they are not involved in the systematic breaches referred to in subparagraph 2(a).

11. For greater certainty, nothing in this Article shall be construed as preventing traders or interested parties from claiming

compensation for damage illegally incurred by the measures referred to in paragraph 6, against the Party which has made the finding referred to in paragraph 2 or 7, in accordance with its laws and regulations.

2. For the purposes of this Article, "fungible materials" means materials that are of the same kind and commercial quality, with the same technical and physical characteristics, and which cannot be distinguished from one another once they are incorporated into the finished product.
3. Notwithstanding paragraph 1, originating and non-originating fungible materials may be used in the production of a product without being physically segregated during storage provided that an accounting segregation method is used.
4. The accounting segregation method referred to in paragraph 3 shall be applied in conformity with an inventory management method under accounting principles which are generally accepted in the Party.
5. A Party may require, under conditions set out in its laws and regulations, that the use of an accounting segregation method is subject to prior authorisation by the customs authority of that Party. The customs authority of the Party shall monitor the use of the authorisation and may withdraw the authorisation if the holder makes improper use of the accounting segregation method or fails to fulfil any of the other conditions laid down in this Chapter.

1. An originating product declared for home use in the importing Party shall not have, after exportation and prior to being declared for home use, been altered, transformed in any way or subjected to operations other than to preserve them in good condition or than adding or affixing marks, labels, seals or any other documentation to ensure compliance with specific domestic requirements of the importing Party.
2. Storage or exhibition of a product may take place in a third country provided that it remains under customs supervision in that third country.

Article 3.11. Returning Products

If an originating product of a Party exported from that Party to a third country returns to that Party, it shall be considered as non-originating unless it can be demonstrated to the satisfaction of the customs authority of that Party that the returning product:

- (a) is the same as that exported; and
- (b) has not undergone any operation other than that necessary to preserve it in good condition while in that third country or while being exported.

Article 3.12. Accessories, Spare Parts, Tools and Instructional or other Information Materials

1. For the purposes of this Article, accessories, spare parts, tools and instructional or other information materials are covered if:

not invoiced separately from, the product; and

(b) the types, quantities and value of the accessories, spare parts, tools and instructional or other information materials are customary for that product.

2. In determining whether a product is wholly obtained, or satisfies a production process or change in tariff classification requirement as set out in Annex 3-B, accessories, spare parts, tools and instructional or other information materials shall be disregarded.

3. In determining whether a product meets a value requirement set out in Annex 3-B, the value of accessories, spare parts, tools and instructional or other information materials shall be taken into account as originating or non-originating materials, as the case may be, in the calculation for the purpose of the application of the value requirement to the product.

4. A product's accessories, spare parts, tools and instructional or other information materials shall have the originating status of the product with which they are delivered.

(c) gloves, glasses, footwear, clothing, safety equipment and supplies;

(d) machines, tools, dies and moulds;

Packing materials and containers for shipment that are used to protect a product during transportation shall be disregarded in determining the originating status of a product.

Article 3.15. Packaging Materials and Containers for Retail Sale

1. Packaging materials and containers in which a product is packaged for retail sale, if classified with the product, shall be disregarded in determining whether all the non-originating materials used in the production of the product have undergone the applicable change in tariff classification or a production process set out in Annex 3-B or whether the product is wholly obtained.

2. If a product is subject to a value requirement set out in Annex 3-B, the value of the packaging materials and containers in which the product is packaged for retail sale, if classified with the product, shall be taken into account as originating or non-originating, as the case may be, in the calculation for the purpose of the application of the value requirement to the product.

Section B. Origin Procedures

Article 3.16. Claim for Preferential Tariff Treatment

1. The importing Party shall, on importation, grant preferential tariff treatment to a product originating in the other Party on the basis of a claim by the importer for preferential tariff treatment. The importer shall be responsible for the correctness of the claim for preferential tariff treatment and compliance with the requirements provided for in this Chapter.

(a) a statement on origin that the product is originating made out by the exporter; or

4. The importer making a claim for preferential tariff treatment based on a statement on origin referred to in subparagraph 2(a) shall keep the statement on origin and, when required by the customs authority of the importing Party, provide a copy thereof to that customs authority.

The exporter is responsible for the correctness of the statement on origin and of the information provided.

2. A statement on origin shall be made out using either of the linguistic versions of the text set out in Annex 3-E on an invoice or on any other commercial document that describes the originating product in sufficient detail to enable its identification. The importing Party shall not require the importer to submit a translation of the statement on origin.

3. The customs authority of the importing Party shall not reject a claim for preferential tariff treatment due to minor errors or discrepancies in the statement on origin or for the sole reason that an invoice was issued in a third country.

4. A statement on origin shall be valid for:

(a) 12 months from the date on which it was made out or such longer period of time as provided by the importing Party, for a single shipment referred to in subparagraph 5(a); or

2. Provided that the importation does not form part of importations that may reasonably be considered to have been made separately for the purpose of avoiding the requirement for a statement on origin, the total value of the products referred to in paragraph 1 shall not exceed such value limits as the importing Party may set out in its laws and regulations and which have been notified to the other Party.

3. Each Party may provide that the basis for the claim as referred to in paragraph 2 of Article 3.16 shall not be required for an importation of a product for which the importing Party has waived the requirements.

(1) The imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.

Article 3.21. Verification

1. For the purposes of verifying whether a product imported into a Party is originating in the other Party or whether the other requirements of this Chapter are satisfied, the customs authority of the importing Party may conduct a verification based on risk assessment methods, which may include random selection, by means of a request for information from the importer who made the claim referred to in Article 3.16. The customs authority of the importing Party may conduct a verification either at the time of the customs import declaration, before the release of products, or after the release of the products.

2. The information requested pursuant to paragraph 1 shall cover no more than the following elements:

(h) if the origin criterion was based on weight, the weight of the product as well as the weight of the relevant non-originating or, as appropriate to establish compliance with the weight requirement, originating materials used in the product;

(i) if the origin criterion was based on a change in tariff classification, a list of all the non-originating materials including their tariff classification number under the Harmonized System (in two-, four- or six-digit format depending on the origin criteria); or

(j) the information relating to the compliance with the provision on non-alteration referred to in Article 3.10.

3. When providing the requested information, the importer may add any other information that it considers relevant for the purpose of verification.

4. If the claim for preferential tariff treatment was based on a statement on origin referred to in subparagraph 2(a) of Article 3.16, the importer shall inform the customs authority of the importing Party when the requested information may be provided in full or in relation to one or more data elements by the exporter directly.

5. If the claim for preferential tariff treatment was based on the importer's knowledge referred to in subparagraph 2(b) of Article 3.16, after having first requested information in accordance with paragraph 1, the customs authority of the importing Party conducting the verification may request information from the importer if that customs authority considers that additional information is necessary in order to verify the originating status of the product. The customs authority of the importing Party may request the importer for specific documentation and information, if appropriate.

6. If the customs authority of the importing Party decides to suspend the granting of preferential tariff treatment to the product concerned while awaiting the results of the verification, release of the product shall be offered to the importer subject to appropriate precautionary measures including guarantees. Any suspension of preferential tariff treatment shall be terminated as soon as possible after the originating status of the product concerned or the fulfilment of the other requirements of this Chapter has been ascertained by the customs authority of the importing Party.

Article 3.22. Administrative Cooperation

1. In order to ensure the proper application of this Chapter, the Parties shall cooperate, through the customs authority of each Party, in verifying whether a product is originating and in compliance with the other requirements provided for in this Chapter.

2. If the claim for preferential tariff treatment was based on a statement on origin referred to in subparagraph 2(a) of Article 3.16, after having first requested information in accordance with paragraph 1 of Article 3.21, the customs authority of the importing Party conducting the verification may also request information from the customs authority of the exporting Party either by the end of two years after the date of importation of the products or by the end of 38 months after the date of the making out of that statement on origin, whichever is earlier, if the customs authority of the importing Party conducting the verification considers that additional information is necessary in order to verify the originating status of the product. 2. The customs authority of the importing Party may deny preferential tariff treatment to a product for which an importer claims preferential tariff treatment where the importer fails to comply with requirements of this Chapter other than those relating to the originating status of the products.

3. If the customs authority of the importing Party has sufficient justification to deny preferential tariff treatment under paragraph 1, in cases where the customs authority of the exporting Party has provided an opinion pursuant to subparagraph 4(b) of Article 3.22 confirming the originating status of the products, the customs authority of the importing Party shall notify the customs authority of the exporting Party of its intention to deny the preferential tariff treatment within two months after the date of receipt of that opinion. If such notification is made, consultations shall be held on request of a Party, within three months after the date of the notification. The period for consultation may be extended on a case by case basis by mutual agreement between the Parties. The consultation may take place in accordance with the procedure set out by the Committee on Rules of Origin and Customs-Related Matters established pursuant to Article 23.3. Upon the expiry of the period for consultation, the customs authority of the importing Party may deny the preferential tariff treatment solely on the basis of sufficient justification and after having granted the importer the right to be heard.

1. If, as a result of the elimination or reduction of a customs duty in accordance with Article 2.8, an originating good from a Party is being imported into the other Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to a domestic industry, the other Party may adopt the measures provided for in paragraph 2 to the extent necessary to prevent or remedy the serious injury to the domestic industry of the other Party and to facilitate the adjustment of the domestic industry.

1. No bilateral safeguard measure shall be maintained except to the extent and for such period of time as may be necessary to prevent or remedy serious injury and to facilitate the adjustment of the domestic industry, provided that such period of time does not exceed a period of two years. However, a bilateral safeguard measure may be extended, provided that the total duration of the bilateral safeguard measure, including such extensions, does not exceed four years.

2. Bilateral safeguard measures may only be applied during the transition period.

3. In order to facilitate adjustment in a situation where the expected duration of a bilateral safeguard measure exceeds one year, the Party maintaining the bilateral safeguard measure shall progressively liberalise the bilateral safeguard measure at regular intervals during the period of application.

4. No bilateral safeguard measure shall be applied to the import of a particular originating good which has already been subject to such a bilateral safeguard measure for a period of time equal to the duration of the previous bilateral safeguard measure or one year, whichever is longer.

5. Upon the termination of a bilateral safeguard measure, the rate of customs duty for the originating good subject to the measure shall be the rate which would have been in effect but for the bilateral safeguard measure.

Article 5.4. Investigation

1. A Party may apply a bilateral safeguard measure only after an investigation has been carried out by its competent authority (1) in accordance with the same procedures as those provided for in Article 3 and subparagraph 2(c) of Article 4 of the Agreement on Safeguards.
2. The investigation shall in all cases be completed within one year following its date of initiation.
3. In the investigation to determine whether the increased imports of an originating good have caused or are threatening to cause serious injury to a domestic industry, the competent authority which carries out the investigation shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that domestic industry. Those factors include, in particular, the rate and amount of the increase in imports of the originating good in absolute and relative terms, the share of the domestic market taken by the increased imports of the originating good, and the changes in the level of sales, production, productivity, capacity utilisation, profits and losses, and employment.
4. The determination that increased imports of an originating good have caused or are threatening to cause serious injury to a domestic industry shall not be made unless the investigation demonstrates, on the basis of objective evidence, the existence of a causal link between the increased imports of the originating good and the serious injury or threat of serious injury to the domestic industry. In this determination, factors other than the increased imports of the originating good which are also causing injury to the domestic industry at the same time shall be taken into consideration.

(1) For the purposes of this Section, for Japan, competent authority includes its relevant authorities.

Article 5.5. Notification

1. A Party shall immediately notify the other Party in writing when it:
 - (a) initiates an investigation referred to in paragraph 1 of Article 5.4 relating to serious injury, or threat of serious injury, and the reasons for it;
 - (b) makes a finding of serious injury, or threat of serious injury, caused by increased imports; and
 - (c) takes a decision to apply or extend a bilateral safeguard measure.
2. The notifying Party referred to in paragraph 1 shall provide the other Party with all pertinent information, which shall include:
 - (a) in the case of a notification referred to in subparagraph 1(a), the reason for the initiation of the investigation, a precise description of the originating good subject to the investigation and its subheading under the Harmonized System, and the date of initiation and the expected duration of the investigation; and
 - (b) in the case of a notification referred to in subparagraphs 1(b) and (c), evidence of serious injury or threat of serious injury caused by the increased imports of the originating good, a precise description of the originating good subject to the proposed bilateral safeguard measure and its subheading under the Harmonized System, a precise description of the proposed bilateral safeguard measure, and the proposed date of the introduction and the expected duration of the proposed bilateral safeguard measure.

Article 5.6. Consultations and Compensations

1. A Party proposing to apply or extend a bilateral safeguard measure shall provide adequate opportunity for prior consultations with the other Party with a view to reviewing the information arising from the investigation referred to in paragraph 1 of Article 5.4, exchanging views on the bilateral safeguard measure and reaching an agreement on compensation as provided for in this Article.
2. A Party proposing to apply or extend a bilateral safeguard measure shall provide the other Party with mutually agreed adequate means of trade compensation in the form of concessions of customs duties, the value of which is substantially equivalent to that of the additional customs duties expected to result from the bilateral safeguard measure.
3. If the Parties are unable to agree on the compensation within 30 days after the commencement of the consultations, the Party to whose originating good the bilateral safeguard measure is applied shall be free to suspend the application of concessions of customs duties under this Agreement, the value of which is substantially equivalent to that of the additional

customs duties resulting from the bilateral safeguard measure. The Party exercising the right of suspension may suspend the application of concessions of customs duties only for the minimum period necessary to achieve the substantially equivalent effects and only while the bilateral safeguard measure is maintained.

4. Notwithstanding paragraph 3, the right of suspension referred to in that paragraph shall not be exercised for the first 24 months during which a bilateral safeguard measure is in effect, provided that the bilateral safeguard measure has been taken as a result of an absolute increase in imports and that such a bilateral safeguard measure conforms to the provisions of this Agreement.

Article 5.7. Provisional Bilateral Safeguard Measures

1. In critical circumstances, where delay would cause damage which would be difficult to repair, a Party may apply a provisional bilateral safeguard measure, which shall take the form of a measure set out in subparagraph 2(a) or (b) of Article 5.2, pursuant to a preliminary determination that there is clear evidence that increased imports of an originating good of the other Party have caused or are threatening to cause serious injury to a domestic industry of the Party proposing to apply the provisional bilateral safeguard measure.

2. A Party shall notify the other Party in writing of its proposed provisional bilateral safeguard measure no later than at the date of application thereof. Consultations between the Parties on the application of the provisional bilateral safeguard measure shall be initiated immediately after the provisional bilateral safeguard measure is applied. The notification shall contain evidence of the existence of critical circumstances, evidence of serious injury or threat of serious injury caused by the increased imports of the originating good, a precise description of the originating good subject to the proposed provisional bilateral safeguard measure and its subheading under the Harmonized System, and a precise description of the proposed provisional bilateral safeguard measure.

3. The duration of a provisional bilateral safeguard measure shall not exceed 200 days. During that period, the pertinent requirements of Article 5.4 shall be met. The duration of the provisional bilateral safeguard measure shall be counted as part of the period referred to in paragraph 1 of Article 5.3.

4. Paragraph 5 of Article 5.3 shall apply, mutatis mutandis, to a provisional bilateral safeguard measure. The customs duty imposed as a result of the provisional bilateral safeguard measure shall be refunded if the subsequent investigation referred to in paragraph 1 of Article 5.4 does not determine that the increased imports of the originating good subject to the provisional bilateral safeguard measure have caused or threatened to cause serious injury to a domestic industry.

Article 5.8. Miscellaneous

The notifications referred to in paragraph 1 of Article 5.5 and paragraph 2 of Article 5.7 and any other communication between the Parties under this Section shall be made in English.

Section C. Global Safeguard Measures

Article 5.9. General Provisions

1. Nothing in this Chapter shall prevent a Party from applying safeguard measures to an originating good of the other Party in accordance with Article XIX of GATT 1994 and the Agreement on Safeguards.

2. The provisions of this Section shall not be subject to dispute settlement under Chapter 22.

Article 5.10. Application of Safeguard Measures

A Party shall not apply or maintain, with respect to the same good, at the same time

3. Chapter 3 shall not apply to anti-dumping and countervailing measures under this Agreement.

Article 5.12. Transparency and Disclosure of Essential Facts

1. Each Party shall conduct anti-dumping and countervailing duty investigations in a fair and transparent manner, and based on the Agreement on Anti-Dumping and the SCM Agreement.
2. Each Party shall ensure, before or immediately after any imposition of provisional measures referred to in Article 7 of the Agreement on Anti-Dumping and Article 17 of the SCM Agreement, and in any case before a final determination is made, full disclosure of the essential facts under consideration which form the basis for the decision on whether to apply provisional and definitive measures. The full disclosure of essential facts is without prejudice to the requirements on confidentiality referred to in Article 6.5 of the Agreement on Anti-Dumping and Article 12.4 of the SCM Agreement. Such disclosure shall be made in writing, and should take place in sufficient time for interested parties to defend their interests.
3. The disclosure of the essential facts, which is made in accordance with paragraph 2, shall contain in particular:
 - (a) in the case of an anti-dumping investigation, the margins of dumping established, and a sufficiently detailed explanation of the basis and methodology upon which normal values and export prices were established, and of the methodology used in the comparison of the normal values and export prices including any adjustments;
 - (b) in the case of a countervailing duty investigation, the determination of countervailable subsidisation, including sufficient details on the calculation of the amount and methodology followed to determine the existence of subsidisation; and
 - (c) information relevant to the determination of injury, including information concerning the volume of the dumped imports and the effect of the dumped imports on prices in the domestic market for like goods, the detailed methodology used in the calculation of price undercutting, the consequent impact of the dumped imports on the domestic industry, and the demonstration of a causal relationship including the examination of factors other than the dumped imports as referred to in Article 3.5 of the Agreement on Anti-Dumping.
4. In cases in which an investigating authority (1) of a Party intends to make use of the facts available pursuant to Article 6.8 of the Agreement on Anti-Dumping, the investigating authority shall inform the interested party concerned of its intentions and give a clear indication of the reasons which may lead to the use of the facts available. If, after having been given the opportunity to provide further explanations within a reasonable time period, the explanations given by the interested party concerned are considered by the investigating authority as not being satisfactory, the disclosure of essential facts shall contain a clear indication of the facts available that the investigating authority has used instead.

(1) For the purposes of this Section, for Japan, an investigating authority includes its relevant investigating authorities.

Article 5.13. Consideration of Public Interest

When conducting anti-dumping and countervailing duty investigations on a good, the investigating authority of the importing Party shall, in accordance with its laws and regulations, provide opportunities for producers in the importing Party of the like good, for importers of the good, for industrial users of the good and for representative consumer organisations in cases where the good is commonly sold at the retail level, to submit their views in writing with regard to the anti-dumping and countervailing duty investigation, including concerning the potential impact of a duty on their situation.

Article 5.14. Anti-dumping Investigation

When the investigating authority of the importing Party has received a written application by or on behalf of its domestic industry for the initiation of an anti-dumping investigation in respect of a good from the exporting Party, the importing Party shall notify, at least 10 days in advance of the initiation of such investigation, the exporting Party of such application.

Article 5.15. Imposition of Anti-dumping and Countervailing Duties ("Lesser Duty Rule")

The investigating authority of the importing Party may consider whether the amount of the anti-dumping duty or the

countervailing duty to be imposed shall be the full margin of dumping or less or the full amount of the subsidy or less, respectively, in accordance with the importing Party's laws and regulations.

Chapter 6. SANITARY AND PHYTOSANITARY MEASURES

Article 6.1. Objectives

The objectives of this Chapter are to:

- (a) protect human, animal or plant life or health through the development, adoption and enforcement of sanitary and phytosanitary measures while minimising their negative effects on trade between the Parties;
- (b) promote cooperation between the Parties on the implementation of the SPS Agreement; and
- (c) provide means for improving communication and cooperation between the Parties, a framework for addressing matters related to the implementation of sanitary and phytosanitary measures, and means for achieving mutually acceptable solutions.

Article 6.2. Scope of Application

This Chapter applies to all sanitary and phytosanitary measures of the Parties under the SPS Agreement that may, directly or indirectly, affect trade between the Parties.

Article 6.3. Definitions

1. For the purposes of this Chapter,

- (a) the definitions set out in Annex A to the SPS Agreement apply; and
- (b) the relevant definitions adopted under the auspices of the Codex Alimentarius Commission (hereinafter referred to as "Codex Alimentarius"), the World Organisation for Animal Health (hereinafter referred to as "OIE") and the International Plant Protection Convention (hereinafter referred to as "IPPC") apply, unless otherwise agreed by the Committee on Sanitary and Phytosanitary Measures established pursuant to Article 23.3.

In the event of an inconsistency between the definitions set out in the SPS Agreement and the definitions adopted under the auspices of Codex Alimentarius, the OIE and the IPPC, the definitions set out in the SPS Agreement shall prevail.

2. For the purposes of this Chapter, "import conditions" means any sanitary or phytosanitary measures that are required to be fulfilled for the import of products.

Article 6.4. Relation to the WTO Agreement

The Parties affirm their rights and obligations relating to sanitary and phytosanitary measures under the SPS Agreement. Nothing in this Chapter shall affect the rights and obligations of each Party under the SPS Agreement.

Article 6.5. Competent Authorities and Contact Points

- 1. As of the date of entry into force of this Agreement, each Party shall provide the other Party with a description of the competent authorities for the implementation of this Chapter and a contact point for communication on all matters covered by this Chapter.
- 2. Each Party shall inform the other Party of any significant changes in the structure, organisation and division of responsibilities of their competent authorities and ensure that the information on contact points is kept up to date.

Article 6.6. Risk Assessment

The Parties shall ensure that their sanitary and phytosanitary measures are based on risk assessment in accordance with Article 5 and other relevant provisions of the SPS Agreement.

Article 6.7. Import Conditions, Import Procedures and Trade Facilitation

1. Import conditions shall be established by the importing Party in order to achieve the appropriate level of protection, subject to and taking into account consultations between the Parties when necessary.
2. Without prejudice to the rights and obligations of each Party under the SPS Agreement, the importing Party should, if requested by the exporting Party, apply the import conditions for products to the entire territory of the exporting Party in a consistent manner.
3. Paragraphs 1 and 2 shall not affect the import conditions existing between the Parties on the date of entry into force of this Agreement. The Parties shall give consideration to any request for a review of those import conditions.
4. Each Party shall ensure, with respect to any import procedures to check and ensure the fulfilment of sanitary or phytosanitary measures, including those for the approval and clearance, that:
 - (a) such procedures are simplified, expedited and completed without undue delay, in accordance with the SPS Agreement;
 - (b) such procedures are not applied in a manner which would constitute an arbitrary or unjustifiable discrimination against the other Party;
 - (c) the standard processing period of each procedure is published or that the anticipated processing period is communicated to the applicant upon request; and
 - (d) information requirements are limited to what is necessary for appropriate control, inspection and approval procedures, including for the approval of the use of additives or for the establishment of tolerances for contaminants in food, beverages or feedstuffs.
5. Taking into account the applicable standards developed under the IPPC, the Parties shall maintain adequate information on their pest status, including surveillance, eradication and containment programmes and their results, in order to support the categorisation of pests and to justify phytosanitary import conditions.
6. Each Party shall establish lists of regulated pests for commodities (1) where phytosanitary concerns exist. The lists shall contain, as appropriate:
 - (a) the quarantine pests not known to occur within any part of its territory;
 - (b) the quarantine pests which are known to occur within any part of its territory but are not widely distributed and under official control; and
 - (c) any other regulated pest for which phytosanitary measures may be taken.

For commodities for which phytosanitary concerns exist, import conditions shall be limited to measures ensuring the absence of regulated pests of the importing Party. The importing Party shall make available its list of regulated commodities and the phytosanitary import requirements for all regulated commodities. This information shall include, as appropriate, the specific quarantine pests and additional declarations on phytosanitary certificates as prescribed by the importing Party.
7. Where it is necessary to establish import conditions to respond to a request of the exporting Party:
 - (a) the importing Party shall take all necessary steps to allow the import of the products concerned without undue delay; and
 - (b) the exporting Party shall:
 - (i) provide all relevant information required by the importing Party; and
 - (ii) give reasonable access to the importing Party for audit and other relevant procedures.
8. Where a range of alternative sanitary or phytosanitary measures are available to attain the appropriate level of protection of the importing Party, the Parties shall, on request of the exporting Party, consider selecting a more practicable and less trade-restrictive solution.
9. Where a certificate issued by the exporting Party is required for sanitary or phytosanitary objectives, the format of the certificate and its contents shall be agreed by the Parties, taking into account international standards, guidelines or recommendations of the Codex Alimentarius, OIE or IPPC.
10. Each Party shall promote the implementation of electronic certification and other technologies to facilitate trade.
11. The purpose of the verifications by officials of the importing Party in the territory of the exporting Party should be to

facilitate new trade. Those verifications should not become a permanent measure. The importing Party shall replace an existing verification measure by an alternative measure which verifies compliance with the agreed requirements for phytosanitary measures by the exporting Party, if so requested by the exporting Party and accepted without undue delay by the importing Party.

12. Consignments of regulated commodities shall be accepted on the basis of adequate assurances by the exporting Party, without specific import authorisations in the form of a licence or permit, except where an official consent for import is necessary, based on the relevant standards, guidelines and recommendations of the IPPC.

13. Pest risk analysis shall begin as promptly as possible and shall be concluded without undue delay.

14. Any fees imposed for the procedures on imported products from the exporting Party shall be equitable in relation to any fees charged on like domestic products and should be no higher than the actual cost of the service, in accordance with subparagraph 1(f) of Annex C to the SPS Agreement.

(1) For greater certainty, for the purposes of this Chapter, "commodities" is understood in accordance with the Glossary of Phytosanitary Terms (International Standards for Phytosanitary Measures No.5) produced by the Secretariat of the IPPC.

Article 6.8. Audit

1. In order to attain and maintain confidence in the effective implementation of this Chapter, the Parties shall assist each other to carry out audits of:

(a) all or parts of the exporting Party's inspection and certification system; and

(b) the results of the controls carried out under the exporting Party's inspection and certification system.

The Parties shall carry out those audits in accordance with the SPS Agreement, taking into account the relevant international standards, guidelines and recommendations of the Codex Alimentarius, OIE or IPPC.

2. The importing Party may conduct audits by requesting information from the exporting Party or by audit visits to the exporting Party.

3. An audit visit shall be carried out under the conditions agreed in advance by the Parties.

4. The importing Party shall provide the exporting Party with the opportunity to comment in writing on the findings of the audit. The importing Party shall take any such comments into account before reaching its conclusions and taking any action thereon. The importing Party shall, without undue delay, provide the exporting Party with a written report setting out its conclusions.

5. The costs for an audit visit shall be borne by the importing Party unless otherwise agreed by the Parties.

Article 6.9. Procedure for Listing of Establishments or Facilities

1. When required by the importing Party, the competent authorities of the exporting Party shall ensure that lists of establishments and facilities which comply with the importing Party's import conditions are drawn up, kept updated and communicated to the importing Party.

2. The importing Party may request the exporting Party to provide information which is necessary to consider the lists referred to in paragraph 1. Unless additional information is required to verify the entries on the lists, the importing Party shall take the necessary measures to allow imports from the listed establishments and facilities without undue delay. Without prejudice to Article 6.13, such measures shall not include prior inspection unless such inspection is required by each Party's laws and regulations or otherwise agreed by the Parties.

3. The importing Party may conduct audits in accordance with Article 6.8.

4. The importing Party shall make the lists referred to in paragraph 1 publicly available as appropriate.

5. A Party shall notify the other Party of its intention to introduce new laws and regulations within the scope of this Article and allow the other Party to provide comments thereon.

Article 6.10. Adaptation to Regional Conditions

1. With regard to animals, animal products and animal by-products, the Parties recognise the concept of zone and compartment specified in the OIE Terrestrial Animal Health Code and the OIE Aquatic Animal Health Code.
2. When establishing or maintaining sanitary import conditions on the request of the exporting Party, the importing Party shall recognise the zones or compartments established by the exporting Party as a basis for consideration towards the determination of allowing or maintaining the import.
3. The exporting Party shall identify its zones or compartments referred to in paragraph 2 and, on request of the importing Party, provide a full explanation and supporting data based on the OIE Terrestrial Animal Health Code or the OIE Aquatic Animal Health Code, or in other ways as deemed appropriate by the Parties on the basis of the knowledge acquired through experience of the exporting Party's competent authorities.
4. Each Party shall ensure that the procedures and obligations established by paragraphs 2 and 3 are carried out without undue delay.
5. Unless the Parties agree otherwise, the Parties will, through the Committee on Sanitary and Phytosanitary Measures, exchange information on a way to establish and maintain mutual recognition of health status, based on the OIE Terrestrial Animal Health Code and recommendations adopted by the OIE.
6. Each Party may establish the zones or compartments referred to in paragraph 2 for diseases not covered by the OIE Terrestrial Animal Health Code or the OIE Aquatic Animal Health Code and agree with the other Party to apply such zones or compartments in the trade between the Parties.
7. With regard to plants and plant products, the Parties recognise the concepts of pest free areas, pest free places of production, pest free production sites and areas of low pest prevalence specified in the International Standards for Phytosanitary Measures developed under the IPPC.
8. When establishing or maintaining phytosanitary import conditions on request of the exporting Party, the importing Party shall recognise the pest free areas, pest free places of production, pest free production sites and areas of low pest prevalence established by the exporting Party as a basis for consideration towards the determination to allow or maintain the import.
9. The exporting Party shall identify its pest free areas, pest free places of production, pest free production sites and areas of low pest prevalence. If requested by the importing Party, the exporting Party shall provide a full explanation and supporting data based on the relevant International Standards for Phytosanitary Measures developed under the IPPC, or in other ways as deemed appropriate by the Parties, based on the knowledge acquired through experience of the exporting Party's relevant phytosanitary authorities.
10. In implementing paragraphs 7 to 9, technical consultations and audits may be carried out. Technical consultations shall take place in accordance with Article 6.12. The audits shall be carried out in accordance with Article 6.8, taking into account the biology of the pest and the commodity concerned.
11. Each Party shall ensure that the procedures and obligations set out in paragraphs 8 to 10 are carried out without undue delay.

Article 6.11. Transparency and Exchange of Information

1. Each Party shall, in accordance with Article 7 of the SPS Agreement and Annexes B and C to the SPS Agreement:
 - (a) ensure transparency as regards:
 - (i) sanitary and phytosanitary measures, including import conditions; and
 - (ii) control, inspection and approval procedures, including complete details about the mandatory administrative steps, expected timelines and the authorities in charge of receiving import applications and of processing them;
 - (b) enhance mutual understanding of each Party's sanitary and phytosanitary measures and their application; and
 - (c) on a reasonable request of the other Party and as soon as possible, provide information on its sanitary and phytosanitary measures and their application, including:
 - (i) import conditions that apply to the import of specific products;
 - (ii) the state of progress of applications for authorisation of specific products;

(iii) the frequency of import checks carried out on products from the other Party; and

(iv) matters related to the development and application of its sanitary and phytosanitary measures, including the progress concerning new available scientific evidence, that affect or may affect trade between the Parties with a view to minimising their negative effects.

2. When the information referred to in subparagraphs 1(a) and (c) has been made available by notification of a Party under the SPS Agreement, or when such information has been made available on an official, publicly accessible and free of charge website of that Party, the information referred to in subparagraphs 1(a) and (c) shall be considered to have been provided.

Article 6.12. Technical Consultations

1. Where a Party has significant concerns regarding human, animal or plant life or health, or measures proposed or implemented by the other Party, that Party may request technical consultations.

2. The other Party shall respond to such a request without undue delay and shall engage in the technical consultations to address those concerns.

3. Each Party shall endeavour to provide the information necessary to avoid a disruption in trade or to reach a mutually acceptable solution.

4. Where the Parties have already established other mechanisms than those referred to in this Article to address the concerns, they shall make use of them to the extent possible in order to avoid unnecessary duplication.

5. Each Party may terminate technical consultations by notifying the other Party in writing at any time no less than 90 days after the date of receipt of the response by the other Party referred to in paragraph 2, or any other time period as agreed by the Parties.

Article 6.13. Emergency Measures

1. A Party may adopt emergency measures that are necessary for the protection of human, animal or plant life or health. When adopting such emergency measures the competent authority of that Party shall:

(a) immediately notify the competent authorities of the other Party of such emergency measures;

(b) allow the other Party to submit comments in writing;

(c) engage, if necessary, in technical consultations as referred to in Article 6.12; and

(d) take into account the comments referred to in subparagraph (b) and the results of technical consultations referred to in subparagraph (c).

2. In order to avoid unnecessary disruptions to trade, the importing Party shall consider information provided in a timely manner by the exporting Party when making decisions with respect to consignments that, at the time of adoption of emergency measures, are being transported between the Parties.

3. The importing Party shall ensure that any emergency measure referred to in paragraph 1 is not maintained without scientific evidence. In cases where scientific evidence is insufficient, the importing Party may provisionally adopt emergency measures on the basis of available pertinent information, including that from the relevant international organisation. The importing Party shall review the emergency measure with a view to minimising its negative effect on trade by either repealing that measure or replacing it by a permanent measure.

Article 6.14. Equivalence

1. The importing Party shall accept sanitary and phytosanitary measures of the exporting Party as equivalent if the exporting Party objectively demonstrates to the importing Party that its measures achieve the importing Party's appropriate level of protection. For that purpose, reasonable access shall be given, upon request, to the importing Party for inspection, testing and other relevant procedures.

2. The Parties shall, on request of either Party, enter into consultations with the aim of achieving arrangements determining the equivalence of specified sanitary and phytosanitary measures.

3. In determining the equivalence of sanitary and phytosanitary measures, the Parties shall take into account the relevant

guidance of the WTO Committee on Sanitary and Phytosanitary Measures, in particular its Decision on the Implementation of Article 4 of the Agreement on the Application of Sanitary and Phytosanitary Measures (1) and international standards, guidelines and recommendations of the Codex Alimentarius, OIE or IPPC.

4. Where equivalence has been determined, the Parties may agree on alternative import conditions and simplified certificates, taking into account international standards, guidelines or recommendations of the Codex Alimentarius, OIE or IPPC.

(1) WTO Document G/SPS/19/Rev.2, dated 23 July 2004, as may be revised.

Article 6.15. Committee on Sanitary and Phytosanitary Measures

1. The Committee on Sanitary and Phytosanitary Measures established pursuant to Article 23.3 shall be responsible for the effective implementation and operation of this Chapter.

2. The objectives of the Committee on Sanitary and Phytosanitary Measures are to:

(b) shall provide a forum to enhance mutual understanding of each Party's sanitary and phytosanitary measures and the related regulatory processes;

(c) shall monitor, review and exchange information on the implementation and operation of this Chapter;

(d) shall serve as a forum to address the concerns referred to in paragraph 1 of Article 6.12 with a view to reaching mutually acceptable solutions provided that the Parties have first attempted to address them through the technical consultations pursuant to Article 6.12 and other topics agreed by the Parties;

(e) shall determine the appropriate means, which may include ad hoc working groups, to undertake specific tasks related to the functions of the Committee on Sanitary and Phytosanitary Measures;

6. The Committee on Sanitary and Phytosanitary Measures shall hold the first meeting within one year of the date of entry into force of this Agreement.

Article 6.16. Dispute Settlement

The provisions of this Chapter shall not be subject to dispute settlement under Chapter 22.

Chapter 7. TECHNICAL BARRIERS TO TRADE

Article 7.1. Objectives

The objectives of this Chapter are to facilitate and to increase trade in goods between the Parties by:

- (a) ensuring that technical regulations, standards and conformity assessment procedures do not create unnecessary obstacles to trade;
- (b) enhancing joint cooperation between the Parties, including on the implementation of the TBT Agreement; and
- (c) pursuing appropriate ways to reduce unnecessary negative effects on trade by measures within the scope of this Chapter.

Article 7.2. Scope

1. This Chapter applies to the preparation, adoption and application of technical regulations, standards and conformity assessment procedures of central government bodies, as defined in the TBT Agreement, that may affect trade in goods between the Parties.
2. Each Party shall take such reasonable measures as may be available to it to encourage the observance of the provisions of Articles 7.5 to 7.11 by local government bodies within its territory on the level directly below that of the central government!, which are responsible for the preparation, adoption and application of technical regulations, standards and conformity assessment procedures.
3. This Chapter does not apply to:
 - (a) purchasing specifications prepared by a governmental body for its production or consumption requirements; or
 - (b) sanitary and phytosanitary measures as defined in Annex A to the SPS Agreement.

Article 7.3. Incorporation of Certain Provisions of the TBT Agreement

Where a dispute arises regarding a particular measure of a Party which the other Party alleges to be exclusively in breach of the provisions of the TBT Agreement referred to in paragraph 2, that other Party shall, notwithstanding paragraph 1 of Article 22.27, select the dispute settlement mechanism under the WTO Agreement.

For the purposes of this Chapter, for the United Kingdom, "local government bodies within its territory on the level directly below that of the central government" includes local government bodies on the level directly below that of the Government of the United Kingdom and the Devolved Administrations.

Article 7.4. Definitions

For the purposes of this Chapter, the terms and definitions set out in Annex 1 to the TBT Agreement apply.

Article 7.5. Technical Regulations

1. The Parties recognise the importance of good regulatory practices with regard to the preparation, adoption and application of technical regulations, in particular of the work carried out by the WTO Committee on Technical Barriers to Trade on good regulatory practices. In this context, each Party undertakes to:
 - (a) when developing a technical regulation:
 - (i) assess, in accordance with its laws and regulations or administrative guidelines, the available regulatory or non-regulatory alternatives to the proposed technical regulation that may fulfil its legitimate objective, in order to ensure that the proposed technical regulation is not more trade-restrictive than necessary to fulfil its legitimate objective, in accordance with paragraph 2 of Article 2 of the TBT Agreement; nothing in this provision shall affect the rights of each Party to prepare, adopt and apply measures without delay where urgent problems including safety, health, environmental protection or national security arise or threaten to arise;
 - (ii) endeavour to systematically carry out impact assessments for technical regulations with significant effect on trade, including an assessment of their impact on trade; and

(iii) specify, wherever appropriate, technical regulations based on product requirements in terms of performance rather than design or descriptive characteristics; and

(b) review, without prejudice to paragraph 3 of Article 2 of the TBT Agreement, adopted technical regulations at appropriate intervals, preferably not exceeding five years, in particular with a view to increasing their convergence with relevant international standards. In undertaking this review, each Party shall, inter alia, take into account any new development in the relevant international standards and whether the circumstances giving rise to divergences of that Party's technical regulations from any relevant international standard continue to exist. The outcome of this review shall be communicated and explained to the other Party on its request.

2. When a Party considers that its technical regulation and a technical regulation of the other Party that have the same objectives and product coverage are equivalent, that Party may request in writing, providing detailed reasons, that the other Party recognise those technical regulations as equivalent. The requested Party shall give positive consideration to accepting those technical regulations as equivalent, even if they differ, provided that it is satisfied that the technical regulation of the requesting Party adequately fulfils the objectives of its own technical regulation. If the requested Party does not accept a technical regulation of the requesting Party as equivalent, the requested Party shall, on request of the requesting Party, explain the reasons for its decision.

3. On request of a Party that has an interest in developing a technical regulation similar to a technical regulation of the other Party, the requested Party shall, to the extent practicable, provide the requesting Party with relevant information, including studies or documents, except for confidential information, on which it has relied in developing its technical regulation.

4. Each Party shall uniformly and consistently apply requirements relating to the placement of products on the market which are established in technical regulations applicable to its whole territory. If a Party has substantiated reasons to believe that any of these requirements are not applied uniformly and consistently in the territory of the other Party, and that this situation leads to significant impact on bilateral trade, that Party may notify the other Party of those substantiated reasons with a view to clarifying the issue, and, if appropriate, addressing it in a timely manner by the contact point referred to in Article 7.15 or by other appropriate bodies established under this Agreement.

Article 7.6. International Standards

1. For the purposes of applying this Chapter and the TBT Agreement, standards issued by international organisations such as the International Organisation for Standardisation (ISO), the International Electrotechnical Commission (IEC), the International Telecommunication Union (ITU), the Codex Alimentarius Commission, the International Civil Aviation Organisation (ICAO), the World Forum for Harmonisation of Vehicle Regulations (WP.29) within the framework of the United Nations Economic Commission for Europe (UNECE), the United Nations Sub-Committee of Experts on the Globally Harmonized System of Classification and Labelling of Chemicals (UNSCEGHS), and the International Council for Harmonisation of Technical Requirements for Pharmaceuticals for Human Use (ICH) shall be considered as relevant international standards as referred to in this Chapter, Articles 2 and 5 of the TBT Agreement and Annex 3 to the TBT Agreement, provided that in their development, the principles and procedures set out in the Decision of the WTO Committee on Technical Barriers to Trade on Principles for the Development of International Standards, Guides and Recommendations with Relation to Articles 2 and 5 of the TBT Agreement and Annex 3 to the TBT Agreement (1) have been followed, except when such standards or relevant parts of them would be ineffective or inappropriate for the fulfilment of the legitimate objectives pursued.

2. With a view to harmonising standards on as wide a basis as possible, each Party shall encourage national standardising bodies within its territory to:

(a) play a full part, within the limits of their resources, in the preparation by relevant international standardising bodies of international standards;

(b) use relevant international standards as a basis for the standards they develop, except where such international standards would be ineffective or inappropriate, for instance because of an insufficient level of protection or fundamental climatic or geographical factors or fundamental technological problems;

(c) avoid duplication of, or overlap with, the work of international standardising bodies; and

(d) review their standards which are not based on relevant international standards at appropriate intervals, preferably not exceeding five years, with a view to increasing their convergence with relevant international standards.

3. When developing technical regulations or conformity assessment procedures:

(a) each Party shall use relevant international standards, guides or recommendations, or the relevant parts of them, to the

extent provided for in paragraph 4 of Article 2 and in paragraph 4 of Article 5 of the TBT Agreement, as a basis for its technical regulations and conformity assessment procedures and avoid deviations from the relevant international standards or additional requirements when compared to those standards, except when the Party developing the technical regulation or conformity assessment procedure can demonstrate, based on relevant information, including available scientific or technical evidence, that such international standards would be ineffective or inappropriate for the fulfilment of legitimate objectives pursued, as referred to in paragraph 2 of Article 2 and paragraph 4 of Article 5 of the TBT Agreement; and

(b) if a Party does not use relevant international standards, guides or recommendations, or the relevant parts of them, as referred to in paragraph 1, as a basis for its technical regulations or conformity assessment procedures, that Party shall, on request of the other Party, explain the reasons why it considers such international standards to be ineffective or inappropriate for the fulfilment of legitimate objectives pursued, as referred to in paragraph 2 of Article 2 and paragraph 4 of Article 5 of the TBT Agreement, and provide the relevant information, including available scientific or technical evidence on which this assessment is based, as well as identify the parts of the technical regulation or conformity assessment procedure concerned which in substance deviate from the relevant international standards, guides or recommendations.

4. Each Party shall encourage national standardising bodies within its territory to cooperate with the relevant standardising bodies of the other Party in international standardising activities. Such cooperation may take place in international standardising bodies of which both Parties or standardising bodies of both Parties are members. Such bilateral cooperation could aim, inter alia, at promoting the development of international standards, facilitating the development of common standards for both Parties in areas of shared interest where there are no international standards, in particular as regards new products or technologies, or further enhancing the exchange of information between the standardising bodies of the Parties.

(1) Annex 4 to WTO Document G/TBT/9, dated 13 November 2000, as may be revised.

Article 7.7. Standards

1. The Parties affirm their obligations under paragraph 1 of Article 4 of the TBT Agreement to ensure that national standardising bodies within their territories accept and comply with the Code of Good Practice for the Preparation, Adoption and Application of Standards in Annex 3 to the TBT Agreement.

2. The Parties recall that, pursuant to the definition of a standard in Annex 1 to the TBT Agreement, compliance with standards is not mandatory. Where compliance with a standard is required in a Party through incorporation of, or reference to, that standard in a technical regulation or conformity assessment procedure, the Party shall, in developing the draft technical regulation or conformity assessment procedure, comply with the transparency obligations set out in paragraph 9 of Article 2 or paragraph 6 of Article 5 of the TBT Agreement, and in Article 7.9.

3. Each Party shall encourage, subject to its laws and regulations, national standardising bodies within its territory to ensure adequate participation of interested persons within the territory of that Party in the standard development process and to allow persons of the other Party to participate in consultation procedures, which are available to the general public, on terms no less favourable than those accorded to its own persons.

4. The Parties undertake to exchange information on:

(a) each Party's use of standards in support of demonstrating or facilitating compliance with technical regulations;

(b) their standard setting processes, in particular the manner and extent to which international or regional standards are used as a basis for their national standards; and

(c) cooperation agreements or arrangements on standardisation with third parties or international organisations.

Article 7.8. Conformity Assessment Procedures

1. With respect to the preparation, adoption and application of technical regulations, subparagraphs 1(a)(i), 1(a)(ii) and 1(b) of Article 7.5 also apply, mutatis mutandis, to conformity assessment procedures.

2. In conformity with paragraph 1.2 of Article 5 of the TBT Agreement, each Party shall ensure that conformity assessment procedures are not stricter or are not applied more strictly than is necessary to give the importing Party adequate confidence that products conform with the applicable technical regulations or standards, taking into account the risks associated with products, including the risks that non-conformity would create.

3. The Parties recognise that a broad range of mechanisms exist to facilitate the acceptance of the results of conformity assessment procedures. Such mechanisms may include:

- (a) mutual recognition agreements for the results of conformity assessment procedures with respect to specific technical regulations conducted by bodies located in the territory of the other Party;
- (b) cooperative and voluntary arrangements between conformity assessment bodies located in the territories of the Parties;
- (c) plurilateral and multilateral recognition agreements or arrangements to which both Parties are participants;
- (d) the use of accreditation to qualify conformity assessment bodies;
- (e) government designation of conformity assessment bodies, including conformity assessment bodies located in the other Party;
- (f) recognition by a Party of results of conformity assessment procedures conducted in the territory of the other Party; and
- (g) manufacturer's or supplier's declaration of conformity.

4. The Parties shall exchange information regarding the mechanisms covered by paragraph 3. A Party shall, on request of the other Party, provide information on:

- (a) the mechanisms referred to in paragraph 3 and similar mechanisms with a view to facilitating the acceptance of the results of conformity assessment procedures;
- (b) factors, including assessment and management of risk, considered when selecting appropriate conformity assessment procedures for specific products; and
- (c) accreditation policy, including on international standards for accreditation, and international agreements and arrangements in the field of accreditation, including those of the International Laboratory Accreditation Cooperation (ILAC) and the International Accreditation Forum (IAF), to the extent possible and used by a Party in a specific area.

5. With regard to those mechanisms each Party shall:

- (a) use, whenever possible and in accordance with its laws and regulations, a supplier's declaration of conformity as assurance of conformity with the applicable technical regulations;
- (b) use accreditation with authority derived from government or performed by government, as appropriate, as a means to demonstrate technical competence to qualify conformity assessment bodies;
- (c) if accreditation is established by law as a necessary separate step to qualify conformity assessment bodies, ensure that accreditation activities are independent from conformity assessment activities and that there are no conflicts of interest between accreditation bodies and the conformity assessment bodies they accredit; the Parties may comply with this obligation by means of the separation of conformity assessment bodies from accreditation bodies; (1)
- (d) consider joining or, as applicable, not prohibit testing, inspection and certification bodies from joining, international agreements or arrangements for the facilitation of acceptance of conformity assessment results; and
- (e) if two or more conformity assessment bodies are authorised by a Party to carry out conformity assessment procedures required for placing a product on the market, not prohibit economic operators from choosing among conformity assessment bodies.

6. The Parties shall cooperate in the field of mutual recognition in accordance with the Protocol on Mutual Recognition. The Parties may also decide, in accordance with relevant provisions of the Protocol on Mutual Recognition, to extend the coverage as regards to the products, the applicable regulatory requirements and the recognised conformity assessment bodies.

(1) Subparagraph (c) does not apply to the conformity assessment activities performed by a Party itself where that Party retains the final decision-making authority regarding the conformity of a product.

Article 7.9. Transparency

1. When developing a technical regulation or conformity assessment procedure which may have a significant effect on trade, each Party shall:

- (a) carry out consultation procedures, subject to its laws and regulations, which are available to the general public and make the results of such consultation procedures and any existing impact assessments publicly available;
- (b) allow persons of the other Party to participate in consultation procedures which are available to the general public on terms no less favourable than those accorded to its own persons;
- (c) take into account the other Party's views when carrying out consultation procedures which are available to the general public and, on request of the other Party, provide written responses in a timely manner to the comments made by that Party;
- (d) in addition to subparagraph 1(a)(ii) of Article 7.5, make publicly available the results of the impact assessment on a proposed technical regulation or conformity assessment procedure, if carried out, including of the impact on trade; and
- (e) endeavour to provide, on request of the other Party, a summary in English of the impact assessment referred to in subparagraph (d).

2. Each Party shall, when making notifications in accordance with paragraph 9.2 of Article 2 or paragraph 6.2 of Article 5 of the TBT Agreement:

- (a) allow in principle at least 60 days from the date of notification for the other Party to provide written comments to the proposal, except where urgent problems of safety, health, environmental protection or national security arise or threaten to arise and, where practicable, give appropriate consideration to reasonable requests for extending the comment period;
- (b) provide the electronic version of the full notified text together with the notification;
- (c) provide, in case the notified text is not in one of the official WTO languages, a detailed and comprehensive description of the content of the measure in the notification format, as well as, if already available, a translation of the notified text in one of the official WTO languages;
- (d) reply in writing to written comments received from the other Party on the proposal, no later than the date of publication of the final technical regulation or conformity assessment procedure;
- (e) provide information on the adopted final text through an addendum to the original notification;
- (f) allow a reasonable interval! between the publication of technical regulations and their entry into force for economic operators of the other Party to adapt; and
- (g) ensure that the enquiry points established in accordance with Article 10 of the TBT Agreement provide information and answers in one of the official WTO languages to reasonable enquiries from the other Party or from interested persons of the other Party on adopted technical regulations and conformity assessment procedures.

3. Each Party shall, on request of the other Party, provide information regarding the objectives of, and rationale for, a technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.

4. Each Party shall ensure that all adopted technical regulations and conformity assessment procedures are publicly and freely available on official websites and, if already available, in English.

(1) For the purposes of this subparagraph, "reasonable interval" means normally a period of not less than six months, unless this would be ineffective for the fulfilment of the legitimate objectives pursued.

Article 7.10. Market Surveillance

1. For the purposes of this Article, "market surveillance" is a public authority function separate from and carried out after conformity assessment procedures, and means activities conducted and measures taken by public authorities on the basis of procedures of a Party to enable that Party to monitor or address compliance of products with the requirements set out in its laws and regulations.

2. Each Party shall, inter alia:

- (a) exchange information with the other Party on market surveillance and enforcement activities, for example on the authorities responsible for market surveillance and enforcement, or on measures taken against dangerous products;
- (b) ensure the independence of market surveillance functions from conformity assessment functions with a view to avoiding conflicts of interest; (1) and

(c) ensure that there are no conflicts of interest between market surveillance authorities and the persons concerned, subject to control or supervision, including the manufacturer, the importer and the distributor.

(1) For greater certainty, this subparagraph does not apply to authorisation functions performed by a Party itself when it retains the final decision-making authority regarding the conformity of a product. A Party may comply with this obligation by means of separation of market surveillance authorities from conformity assessment bodies.

Article 7.11. Marking and Labelling

1. The Parties note that a technical regulation may include or deal exclusively with marking or labelling requirements. Accordingly, if a Party develops marking or labelling requirements in the form of a technical regulation, that Party shall ensure that such requirements are not prepared, adopted or applied with a view to or with the effect of creating unnecessary obstacles to international trade and are not more trade restrictive than necessary to fulfil legitimate objectives as referred to in paragraph 2 of Article 2 of the TBT Agreement.
2. In particular, the Parties agree that, if a Party requires marking or labelling of product in the form of a technical regulation:
 - (a) information required for such marking or labelling of products shall be limited to what is relevant for persons concerned, including consumers, users of the product or authorities, for indicating the product's compliance with regulatory requirements;
 - (b) a Party shall not require any prior approval, registration or certification of markings or the labels of products as a precondition for placing on its market products that otherwise comply with its mandatory technical requirements, unless necessary to fulfil its legitimate objective;
 - (c) if that Party requires the use of a unique identification number for marking or labelling of products, it shall issue such number to the persons concerned, including the manufacturer, the importer and the distributor, without undue delay and on a non-discriminatory basis;
 - (d) provided that it is not misleading, contradictory or confusing, or that the Party's legitimate objectives are not compromised, the Party shall permit the following in relation to the information required in the country of destination of the goods:
 - (i) information in other languages in addition to the language required in the country of destination of the goods;
 - (ii) international nomenclatures, pictograms, symbols or graphics; and
 - (iii) information in addition to that required in the country of destination of the goods;
 - (e) the Party shall accept that labelling and corrections to labelling take place in customs warehouses at the point of import as an alternative to labelling in the exporting Party unless such labelling is required to be carried out by approved persons for reasons of public health or safety; and
 - (f) the Party shall, unless it considers that legitimate objectives under the TBT Agreement are compromised thereby, endeavour to accept non-permanent or detachable labels, or marking or labelling in the accompanying documentation rather than physically attached to the product.

Article 7.12. Lot Identification Codes

1. A Party may impose penalties or take other appropriate measures against the removal or deliberate defacement of any lot identification code for wines and spirits that is provided by the supplier and placed on the container, provided that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade or investment.
2. The Parties shall exchange information, experiences and best practices regarding the prevention of the removal or deliberate defacement of lot identification codes for the supply of wines and spirits.
3. The Parties shall carry out activities for the exchange of information, experience and best practices with representatives of their business sectors and business-related organisations with the necessary expertise in the field of lot identification. The Parties shall commence such activities no later than two years after the date of entry into force of this Agreement.

Article 7.13. Cooperation

1. Each Party shall endeavour, where appropriate, to reduce or eliminate the non-conforming measures set out in its respective Schedules in Annexes I to IV to Annex 8-B.

2. With a view to introducing possible improvements to the provisions of this Chapter, and consistent with their commitments under international agreements, the Parties shall review their legal framework relating to trade in services, investment liberalisation, electronic commerce and investment environment, including this Agreement, in accordance with Article 24.1.

3. If, after the date of entry into force of this Agreement, a Party signs an international agreement with an investment chapter that contains provisions for investment protection or provides for investor-to-state dispute settlement procedures, the other Party, after the date of entry into force of that agreement, may request that the Parties review this Section and Section B. (1) Such a review shall be conducted with a view to the possible inclusion within this Agreement of such provisions

that could provide for the improvement of the investment environment. Unless the Parties otherwise agree, any such review shall be commenced within two years from the date of the request and shall be concluded within a reasonable period of time.

(1) For the United Kingdom, this paragraph does not cover subsequent reviews, amendments or liberalisation under the framework of any international agreement in force for the United Kingdom on, or signed by the United Kingdom prior to, the date of entry into force of this Agreement, or any international agreement between the United Kingdom and a third country concluded with the aim of transitioning an existing international agreement to which the European Union was a party while the United Kingdom was a Member State of the European Union.

Section B. Investment Liberalisation

Article 8.6. Scope

1. This Section applies to measures by a Party with regard to the establishment or operation of economic activities by:

- (a) entrepreneurs of the other Party;
- (b) covered enterprises; and
- (c) for the purposes of Article 8.11, any enterprise in the territory of the Party adopting or maintaining the measure.

2. This Section does not apply to:

- (a) cabotage in maritime transport services (1);
- (b) air services or related services in support of air services (2), other than the following:
 - (i) aircraft repair and maintenance services during which an aircraft is withdrawn from service;
 - (ii) the selling and marketing of air transport services;
- (ii) computer reservation system (CRS) services; and
- (iv) ground handling services; and
- (c) audio-visual services.

(1) For the United Kingdom, cabotage in maritime transport services under this Section covers transportation of passengers or goods between a port or point located in the United Kingdom and another port or point located in the United Kingdom, including on its continental shelf, as provided for in the United Nations Convention on the Law of the Sea, and traffic originating and terminating in the same port or point located in the United Kingdom.

(2) For greater certainty, this Section does not apply to a service using an aircraft whose primary purpose is not the transportation of goods or passengers, such as aerial fire-fighting, flight training, sightseeing, spraying, surveying, mapping, photography, parachute jumping, glider towing, helicopter-lift for logging and construction, and other airborne agricultural, industrial and inspection services.

Article 8.7. Market Access

A Party shall not maintain or adopt, with regard to market access through establishment or operation by an entrepreneur of the other Party or by a covered enterprise, either on the basis of a territorial subdivision or on the basis of its entire territory, measures that:

- (a) impose limitations on (1):
 - (i) the number of enterprises, whether in the form of numerical quotas, monopolies, exclusive rights or the requirements of an economic needs test;
 - (ii) the total value of transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

(iii) the total number of operations or the total quantity of output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;

(iv) the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment; or

(v) the total number of natural persons that may be employed in a particular sector or that an enterprise may employ and who are necessary for, and directly related to, the performance of the economic activity in the form of numerical quotas or the requirement of an economic needs test; or

(b) restrict or require specific types of legal entity or joint venture through which an entrepreneur of the other Party may perform an economic activity.

(1) Subparagraphs (a)(i) to (iii) do not cover measures taken in order to limit the production of an agricultural good.

Article 8.8. National Treatment

1. Each Party shall accord to entrepreneurs of the other Party and to covered enterprises treatment no less favourable than that it accords, in like situations, to its own entrepreneurs and to their enterprises, with respect to establishment in its territory.

2. Each Party shall accord to entrepreneurs of the other Party and to covered enterprises treatment no less favourable than that it accords, in like situations, to its own entrepreneurs and to their enterprises, with respect to operation in its territory.

3. For greater certainty, paragraphs 1 and 2 shall not be construed as preventing a Party from prescribing statistical formalities or information requirements, in connection with the covered enterprises, provided that those formalities or requirements do not constitute a means to circumvent that Party's obligations pursuant to this Article.

Article 8.9. Most-favoured-nation Treatment

1. Each Party shall accord to entrepreneurs of the other Party and to covered enterprises treatment no less favourable than that it accords, in like situations, to entrepreneurs of a third country and to their enterprises, with respect to establishment in its territory.

2. Each Party shall accord to entrepreneurs of the other Party and to covered enterprises treatment no less favourable than that it accords, in like situations, to entrepreneurs of a third country and to their enterprises, with respect to operation in its territory.

3. Paragraphs 1 and 2 shall not be construed as obliging a Party to extend to entrepreneurs of the other Party and to covered enterprises the benefit of any treatment resulting from:

(a) an international agreement for the avoidance of double taxation or other international agreement or arrangement relating wholly or mainly to taxation; or (b) existing or future measures providing for recognition of qualifications, licences or prudential measures as referred to in Article VI of GATS or paragraph 3 of its Annex on Financial Services.

4. For greater certainty, the treatment referred to in paragraphs 1 and 2 does not include investor-to-state dispute settlement procedures provided for in other international agreements.

5. Substantive provisions in other international agreements concluded by a Party with a third country (1) do not in themselves constitute treatment under this Article. For greater certainty, actions or inactions of a Party in relation to those provisions can constitute treatment (2) and thus can give rise to a breach of this Article to the extent that the breach is not established solely based on the said provisions.

(1) For greater certainty, the mere transposition of those provisions into domestic legislation does not change their qualification as international law provisions and consequently their coverage under this paragraph.

(2) For greater certainty, the entrepreneurs of the other Party or their covered enterprises would be entitled to receive that treatment even in the absence of enterprises established by entrepreneurs of the third country at the time when the comparison is made.

Article 8.10. Senior Management and Boards of Directors

A Party shall not require a covered enterprise to appoint individuals of any particular nationality as executives, managers or members of boards of directors.

Article 8.11. Prohibition of Performance Requirements

1. A Party shall not impose or enforce any of the following requirements or enforce any commitment or undertaking, in connection with the establishment or operation of any enterprise in its territory: (3) (4)

(3) For greater certainty, a condition for the receipt or continued receipt of an advantage referred to in paragraph 2 does not constitute a requirement or a commitment or undertaking for the purposes of this paragraph.

(4) For greater certainty, nothing in this paragraph prevents the United Kingdom from enforcing an undertaking voluntarily given by a person in relation to a takeover or merger. An "undertaking voluntarily given" means that it is not imposed or required by the United Kingdom as a condition of approval of the takeover or merger.

- (a) to export a given level or percentage of goods or services;
- (b) to achieve a given level or percentage of domestic content;
- (c) to purchase, use or accord a preference to goods produced or services supplied in its territory, or to purchase goods or services from natural or juridical persons or any other entity in its territory;
- (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such enterprise;
- (e) to restrict sales of goods or services in its territory that such enterprise produces or supplies by relating those sales in any way to the volume or value of its exports or foreign exchange inflows;
- (f) to restrict exportation or sale for export;
- (g) to transfer technology, a production process or other proprietary knowledge to a natural or juridical person or any other entity in its territory;
- (h) to locate the headquarters of such enterprise for a specific region or the world market in its territory;
- (i) to hire a given number or percentage of its nationals;
- (j) to achieve a given level or value of research and development in its territory;
- (k) to supply one or more of the goods produced or services supplied by the enterprise to a specific region or to the world market exclusively from its own territory; or
- (l) to adopt:
 - (i) a rate or amount of royalty below a certain level; or
 - (ii) a given duration of the term of a licence contract (1);

with regard to any licence contract in existence at the time the requirement is imposed or enforced, or any commitment or undertaking is enforced, or with regard to any future licence contract freely entered into between the enterprise and a natural or juridical person or any other entity in its territory, if the requirement is imposed or enforced or the commitment or undertaking is enforced, in a manner that constitutes a direct interference with that licence contract by an exercise of non-judicial governmental authority of a Party. (2)

2. A Party shall not condition the receipt or continued receipt of an advantage, in connection with the establishment or operation of any enterprise in its territory, on compliance with any of the following requirements:

- (a) to achieve a given level or percentage of domestic content;
- (b) to purchase, use or accord a preference to goods produced in its territory, or to purchase goods from natural or juridical

persons or any other entity in its territory;

(c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such enterprise;

(d) to restrict sales of goods or services in its territory that such enterprise produces or supplies by relating those sales in any way to the volume or value of its exports or foreign exchange inflows; or

(e) to restrict exportation or sale for export.

(1) A "licence contract" referred to in this subparagraph means any contract concerning the licensing of technology, a production process, or other proprietary knowledge.

(2) For greater certainty, subparagraph (1) does not apply when the licence contract is concluded between the enterprise and a Party.

3. Nothing in paragraph 2 shall be construed as preventing a Party from conditioning the receipt or continued receipt of an advantage, in connection with the establishment or operation of any enterprise in its territory, on compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.

4. Subparagraphs 1(a) to (c), 2(a) and (b) do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programmes.

5. Subparagraphs 1(g) and (1) do not apply when:

(a) the requirement is imposed or enforced, or the commitment or undertaking is enforced, by a court, administrative tribunal or competition authority in order to remedy a violation of competition law; (1) or

(b) a Party authorises use of an intellectual property right in accordance with Article 31 or 31bis of the TRIPS Agreement, or measures requiring the disclosure of data or proprietary information that fall within the scope of, and are consistent with, paragraph 3 of Article 39 of the TRIPS Agreement.

(1) For greater certainty, this subparagraph includes measures adopted by the United Kingdom's competition authority in accordance with the United Kingdom's merger control or market investigation laws, to remedy situations that have an adverse effect on competition.

6. Subparagraph 1(1) does not apply if the requirement is imposed or enforced, or the commitment or undertaking is enforced, by a tribunal as equitable remuneration under the Party's copyright laws.

7. Subparagraphs 2(a) and (b) do not apply to requirements imposed or enforced by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

8. This Article is without prejudice to the obligations of a Party under the WTO Agreement.

Article 8.12. Non-conforming Measures and Exceptions

1. Articles 8.7 to 8.11 do not apply to:

(c) an amendment of, or modification to, any non-conforming measure referred to in subparagraphs (a) and (b), provided that the amendment or modification does not decrease the conformity of the measure with Articles 8.7 to 8.11 as it existed immediately before the amendment or modification.

2. Articles 8.7 to 8.11 do not apply to any measure by a Party with respect to sectors, sub-sectors or activities as set out in its Schedule in Annex I to Annex 8-B.

3. A Party shall not require, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule in Annex II to Annex 8-B, an entrepreneur of the other Party, by reason of its nationality, to sell or otherwise dispose of an enterprise that exists at the time the measure becomes effective.

4. Articles 8.8 and 8.9 do not apply to any measure that constitutes an exception to, or a derogation from, Article 3 or 4 of the TRIPS Agreement, as specifically provided in Articles 3 to 5 of the TRIPS Agreement.

5. Articles 8.7 to 8.11 do not apply to any measure by a Party with respect to government procurement.

6. Articles 8.7 to 8.10 do not apply to subsidies granted by the Parties.

Article 8.13. Denial of Benefits

A Party may deny the benefits of this Section to an entrepreneur of the other Party that is a juridical person of the other Party and to its covered enterprise if that juridical person is owned or controlled by a natural or juridical person of a third country and the denying Party adopts or maintains measures with respect to the third country that:

(a) are related to the maintenance of international peace and security, including the protection of human rights; and

(b) prohibit transactions with that juridical person or its covered enterprise, or would be violated or circumvented if the benefits of this Section were accorded to them.

(2) For greater certainty, this Section does not apply to a service using an aircraft whose primary purpose is not the transportation of goods or passengers, such as aerial fire-fighting, flight training, sightseeing, spraying, surveying, mapping, photography, parachute jumping, glider towing, helicopter-lift for logging and construction, and other airborne agricultural, industrial and inspection services.

Article 8.15. Market Access

A Party shall not maintain or adopt, either on the basis of a territorial subdivision or on the basis of its entire territory, measures that:

(a) impose limitations on:

(1) Subparagraph (a)(i) includes measures by a Party which require a service supplier of the other Party to establish or maintain any form of enterprise or to be resident in the territory of the Party as a condition for the cross-border supply of a service.

(ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test; or

(iii) the total number of service operations or the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test; (1) or

(1) Subparagraph (a)(iii) does not cover measures by a Party which limit inputs for the supply of services.

(b) restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service.

Article 8.16. National Treatment

1. Each Party shall accord to services and service suppliers of the other Party treatment no less favourable than that it accords to its own like services and service suppliers.

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Party compared to like services or service suppliers of the other Party.

4. Nothing in this Article shall be construed as requiring either Party to compensate for any inherent competitive disadvantage which results from the foreign character of the relevant services or service suppliers.

Article 8.17. Most-favoured-nation Treatment

1. Each Party shall accord to services and service suppliers of the other Party treatment no less favourable than that it accords to like services and service suppliers of a third country.

4. Notwithstanding the provisions of this Section, all requirements provided for in the laws and regulations of a Party regarding work and social security measures shall continue to apply, including regulations concerning minimum wages and

collective wage agreements.

5. Commitments on the entry and temporary stay of natural persons for business purposes do not apply in cases where the intent or effect of the entry and temporary stay is to interfere with or otherwise affect the outcome of any labour or management dispute or negotiation, or the employment of any natural person who is involved in that dispute.

Article 8.21. Definitions

A Party shall not adopt or maintain limitations on the total number of natural persons granted entry in accordance with paragraph 1, in a specific sector or sub-sector, in the form of numerical quotas or the requirement of an economic needs test either on the basis of a territorial subdivision or on the basis of its entire territory.

Article 8.26. Contractual Service Suppliers and Independent Professionals

1. Each Party shall grant entry and temporary stay to contractual service suppliers and independent professionals of the other Party in accordance with Annex IV to Annex 8-B.

2. Unless otherwise specified in Annex IV to Annex 8-B, a Party shall not adopt or maintain limitations on the total number of contractual service suppliers and independent professionals of the other Party granted entry, in the form of numerical quotas or the requirement of an economic needs test.

Article 8.27. Short-term Business Visitors

1. Each Party (1) shall grant entry and temporary stay to short-term business visitors of the other Party in accordance with Annex III to Annex 8-B, subject to the following conditions:

- (a) the short-term business visitors are not engaged in selling their goods or supplying services to the general public;
- (b) the short-term business visitors do not, on their own behalf, receive remuneration from within the Party where they are staying temporarily; and
- (c) the short-term business visitors are not engaged in the supply of a service in the framework of a contract concluded between a juridical person who has not established in the territory of the Party where they are staying temporarily, and a consumer there, except as provided for in Annex III to Annex 8-B.

2. Unless otherwise specified in Annex III to Annex 8-B, each Party shall grant entry of short-term business visitors without the requirement of a work permit, economic needs test or other prior approval procedures of similar intent.

(1) The United Kingdom does not take commitments in respect of short-term business visitors.

Article 8.28. Contact Points

Each Party shall, upon the entry into force of this Agreement, designate a contact point for the effective implementation and operation of this Section and notify the other Party of the contact details including information regarding the relevant officials. The Parties shall promptly notify each other of any change of those contact details.

Section E. Regulatory Framework

Subsection 1. Domestic Regulation

Article 8.29. Scope and Definitions

1. This Sub-Section applies to measures by a Party relating to licensing requirements and procedures, qualification requirements and procedures and technical standards (1) that affect:

- (a) cross-border trade in services as defined in subparagraph (d) of Article 8.2;
- (b) establishment as defined in subparagraph (i) of Article 8.2 or operation as defined in subparagraph (p) of Article 8.2; or
- (c) the supply of a service through the presence of a natural person of a Party in the territory of the other Party, in accordance with Article 8.24.

2. This Sub-Section does not apply to licensing requirements and procedures, qualification requirements and procedures and technical standards:

- (a) pursuant to a measure that does not conform with Article 8.7 or 8.8 and is referred to in subparagraphs 1(a) to (c) of Article 8.12 or with Article 8.15 or 8.16 and is referred to in subparagraphs 1(a) to (c) of Article 8.18; or
- (b) pursuant to a measure referred to in paragraph 2 of Article 8.12 or paragraph 2 of Article 8.18.

3. For the purposes of this Sub-Section, a "competent authority" is a central, regional or local government or authority, or a non-governmental body in the exercise of powers delegated by central, regional or local governments or authorities, which is entitled to take a decision concerning the authorisation to supply a service, including through establishment, or concerning the authorisation to establish an enterprise in order to engage in an economic activity other than a service.

(1) For greater certainty, as far as measures relating to technical standards are concerned, this Sub-Section applies only to such measures affecting trade in services.

Article 8.30. Conditions for Licensing and Qualification

1. Measures relating to licensing requirements and procedures, and qualification requirements and procedures of each Party shall be based on the following criteria:

- (a) clarity;
- (b) objectivity;
- (c) transparency;
- (d) advance public availability; and
- (e) accessibility.

2. If a Party adopts or maintains a measure relating to licensing requirements and procedures, and qualification requirements and procedures, it shall ensure that:

- (a) the licensing and qualification procedures are impartial and adequate for applicants to demonstrate that they meet the requirements, if such requirements exist;
- (b) the licensing and qualification procedures do not in themselves unjustifiably prevent the fulfilment of the requirements; and
- (c) such a measure does not discriminate between men and women (1).

(1) For the purposes of this subparagraph, differential treatment that is reasonable and objective, and aims to achieve a legitimate purpose, and adoption by a Party of temporary special measures aimed at accelerating de facto equality between men and women, shall not be considered as discrimination.

Article 8.31. Licensing and Qualification Procedures

1. Licensing and qualification procedures shall be clear, made public in advance and be such as to ensure that the applications are dealt with objectively and impartially. For greater certainty, where any licence or qualification is subject to renewal, the need to renew and the procedures for renewal shall be made public in advance.

2. Licensing and qualification procedures shall be as simple as possible and shall not in themselves be a restriction on the supply of a service or the pursuit of any other economic activity. Any authorisation fee (1) which the applicants may incur from their application should be reasonable and transparent, will be made publicly available prior to such applications to the extent possible, and shall not in itself restrict the supply of a service or the pursuit of any other economic activity. Having regard to the cost and administrative burden, each Party is encouraged to accept payment of authorisation fees by electronic means.

(1) Authorisation fees do not include fees for the use of natural resources, payments for auction, tendering or other non-discriminatory means of awarding concessions or mandated contributions to universal service provision.

3. A Party shall, to the extent practicable, avoid requiring an applicant to approach more than one competent authority for each application. However, if the application is within the jurisdiction of multiple competent authorities, multiple applications may be required.

4. The procedures used by, and the decisions of, the competent authority in the authorisation process shall be impartial with respect to all applicants. The competent authority should reach its decision in an independent manner and should not be accountable to any person supplying the services or carrying out the economic activities for which the authorisation is required.

5. If a Party requires authorisation, it shall, to the extent practicable, ensure that its competent authorities permit the submission of an application at any time throughout the year. If a specific period of time for applications exists, the competent authority shall allow an applicant a reasonable period of time for the submission of an application. The competent authority shall initiate the processing of an application without undue delay. If possible, the competent authority should accept an application in electronic format under the same conditions of authenticity as an application in paper format.

6. If a Party requires an examination for authorisation, that Party shall ensure that its competent authorities schedule such an examination at reasonably frequent intervals and provide a reasonable period of time to enable applicants to request to take the examination. Having regard to the cost, administrative burden and the integrity of the procedures involved, each Party is encouraged to accept requests in electronic format to take such examinations, and to consider, to the extent practicable, the use of electronic means in other aspects of examination processes.

7. In assessing whether the applicant has met the relevant requirements for authorisation, a Party shall, to the extent possible and if appropriate, encourage its competent authorities to give due consideration to the relevant professional experience of an applicant, where the competent authority considers such relevant professional experience to be indicative of the level of competence or experience of the applicant.

8. The competent authority shall complete the processing of an application, including reaching a final decision, within a reasonable period of time from the submission of a complete application, and inform the applicant of the decision concerning the application (1), to the extent possible in writing (2). Each Party shall endeavour to establish an indicative timeframe for the processing of an application and shall make publicly available that timeframe, when established. The competent authority of a Party shall, at the request of the applicant and without undue delay, provide information concerning the status of the application, and, to the extent practicable, ascertain the completeness of an application for processing under the domestic laws and regulations of the Party.

(1) Competent authorities may meet this requirement by informing an applicant in advance in writing that a lack of response from the competent authorities after a specified period of time from the date of submission of the application indicates acceptance of the application or rejection of the application.

(2) For the purposes of this Article, "in writing" may include in electronic format.

9. The competent authority shall, within a reasonable period of time after the receipt of an application which it considers incomplete:

(a) inform the applicant, and, to the extent feasible, identify the additional information required to complete the application, including through providing its rationale where appropriate; and

(b) provide the opportunity to correct deficiencies, including, where appropriate, providing guidance to assist the applicant in completing an application correctly.

10. The competent authority should, where possible, accept authenticated copies in place of original documents.

11. If the competent authority rejects an application by an applicant, it shall inform the applicant, in principle in writing, and without undue delay. It shall also, on request of the applicant, inform the applicant of the reasons for rejection of the application and the timeframe for an appeal against that decision. An applicant should not be prevented from submitting a new or revised application solely on the basis of a previously rejected application.

12. The competent authority shall grant an authorisation as soon as it is established, in the light of an appropriate examination, that the applicant meets the conditions for obtaining it.

13. The competent authority shall ensure that an authorisation, once granted, enters into effect without undue delay in accordance with the terms and conditions specified therein.

Article 8.32. Technical Standards

Each Party shall encourage its competent authorities, when adopting technical standards, to adopt technical standards developed through open and transparent processes, and shall encourage any body, including relevant international organisations (1), designated to develop technical standards to use open and transparent processes.

(1) For the purposes of this Article, "relevant international organisations" means international bodies whose membership is open to the relevant bodies of the Parties.

Subsection 2. Provisions of General Application

Article 8.33. Administration of Measures of General Application

1. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Paragraph 1 does not apply to:

(a) the aspects of a measure that do not conform with Article 8.7 or 8.8 and are referred to in subparagraphs 1(a) to (c) of Article 8.12 or with Article 8.15 or 8.16 and are referred to in subparagraphs 1(a) to (c) of Article 8.18; or

(b) a measure referred to in paragraph 2 of Article 8.12 or paragraph 2 of Article 8.18.

Article 8.34. Review Procedures for Administrative Decisions

1. Each Party shall maintain judicial, arbitral or administrative tribunals or procedures which provide, upon request of an affected entrepreneur or service supplier of the other Party, for a prompt review of, and where justified, appropriate remedies for, administrative decisions that affect:(a) cross-border trade in services as defined in subparagraph (d) of Article 8.2;

(b) establishment as defined in subparagraph (i) of Article 8.2 or operation as defined in subparagraph (p) of Article 8.2; or

(c) the supply of a service through the presence of a natural person of a Party in the territory of the other Party, in accordance with Article 8.24.

2. If the procedures referred to in paragraph 1 are not independent of the agency entrusted with the administrative decision concerned, each Party shall ensure that the procedures in fact provide for an objective and impartial review.

Article 8.35. Mutual Recognition

1. Nothing in this Section shall prevent a Party from requiring that natural persons must possess the necessary qualifications or professional experience specified in the territory where the service is supplied, for the sector of activity concerned.

2. Each Party shall encourage the relevant professional bodies in its territory to provide joint recommendations on mutual recognition to the Committee, for the purpose of the fulfilment, in whole or in part, by entrepreneurs and service suppliers of the criteria applied by that Party for the authorisation, licensing, operation and certification of entrepreneurs and service suppliers, and, in particular, in the sector of professional services. 3. On receipt of a joint recommendation referred to in

paragraph 2, the Committee shall, within a reasonable period of time, review that recommendation with a view to ensuring its consistency with this Agreement and, on the basis of the information contained therein, assess in particular:

(a) the extent to which the standards and criteria applied by each Party for the authorisation, licensing, operation and certification referred to in paragraph 2 are converging; and

(b) the potential economic value of a mutual recognition agreement for the authorisation, licensing, operation and certification referred to in paragraph 2.

4. Where those requirements are satisfied, the Committee shall establish the necessary steps to negotiate. Thereafter the Parties shall enter into negotiations, through their competent authorities, of a mutual recognition agreement for the authorisation, licensing, operation and certification referred to in paragraph 2.

5. Any mutual recognition agreement that the Parties may conclude shall be in conformity with the relevant provisions of the WTO Agreement and, in particular, Article VI of GATS.

Subsection 3. Postal and Courier Services

Article 8.36. Scope and Definitions

1. This Sub-Section sets out the principles of the regulatory framework for the supply of postal and courier services, and applies to measures by a Party affecting trade in postal and courier services. 2. For the purposes of this Sub-Section:

(a) "licence" means an authorisation that an independent regulatory authority of a Party may require of an individual supplier, in accordance with the laws and regulations of the Party, in order for that supplier to offer postal and courier services; and

(b) "universal service" means the permanent supply of a postal service of specified quality at all points in the territory of a Party at affordable prices for all users.

Article 8.37. Universal Service

1. Each Party has the right to define the kind of universal service obligation it wishes to maintain. That obligation will not be regarded per se as anticompetitive, provided that it is administered in a transparent, non-discriminatory and competitively neutral manner and is not more burdensome than necessary for the kind of universal service defined by the Party, with regard to all suppliers subject to the obligation.

2. Within the framework of its postal legislation or by other customary means, each Party shall set out the scope of the universal service obligation, fully taking into account the needs of the users and national conditions, including market forces, of that Party.

3. Each Party shall ensure that a supplier of postal and courier services in its territory which is subject to a universal service obligation under its laws and regulations does not engage in the following practices:

(a) excluding the business activities of other enterprises by cross-subsidising, with revenues derived from the supply of the universal service, the supply of express mail services (EMS) (1) or any non-universal service in a way which constitutes an abuse of a dominant market position in contravention of the competition law of the United Kingdom or a private monopolisation in contravention of Article 3 of the Law Concerning Prohibition of Private Monopoly and Maintenance of Fair Trade (Law No. 54 of 1947) of Japan respectively;(2) or

(b) unjustifiably differentiating among customers, such as large volume mailers or consolidators, where like conditions prevail with respect to charges and the provisions concerning acceptance, delivery, redirection, return and the number of days required for delivery for the supply of a service subject to a universal service obligation.

(1) For the purposes of this subparagraph, "express mail services (EMS)" means services referred to in subparagraph 1.3 of Article 1 of the Universal Postal Convention, done at Istanbul on 6 October 2016.(1)

(2) For greater certainty, the enforcement of each Party's competition law and the related decisions by competition authority shall be covered by the provisions of Chapter 11.

Article 8.38. Border Procedures

1. The border procedures for international postal services and international courier services (1) are enforced in accordance with related international agreements and the laws and regulations of each Party.
2. Without prejudice to paragraph 1, each Party shall not unduly accord less favourable treatment with respect to border procedures to international courier services than it accords to international postal services.

(1) For the purposes of this Article: (a) "international postal services" means services that designated operators referred to in subparagraph 1.12 of Article 1 of the Universal Postal Convention supply in accordance with the Acts of the Universal Postal Union; and (b) "international courier services" means services consisting of the collection, sorting, transport and delivery of documents, printed matter, parcels and goods for foreign destinations, not regulated by the Acts of the Universal Postal Union.

Article 8.39. Licences

1. Each Party may require a licence for the supply of a service covered by this Sub-Section.
2. If a Party requires a licence, it shall make publicly available:
 - (a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence; and
 - (b) the terms and conditions of licences.
3. If a licence application is rejected by the competent authority, it shall upon request inform the applicant of the reasons for the rejection of the licence. Each Party shall establish an appeal procedure through an independent body available to applicants whose licence has been rejected.

That procedure shall be transparent, non-discriminatory, and based on objective criteria.

Article 8.40. Independence of the Regulatory Body

Each Party shall ensure that:

- (a) its regulatory body for the services covered by this Sub-Section is legally separated from, and not accountable to, any supplier of those services; and
- (b) subject to the laws and regulations of each Party, decisions of, and procedures used by, its regulatory body are impartial.

The regulatory body referred to in this Article does not include customs authorities of each Party.

Subsection 4. Telecommunications Services

Article 8.41. Scope

1. This Sub-Section sets out the principles of the regulatory framework for all telecommunications services and applies to measures by a Party affecting trade in telecommunications services, which consist in the conveyance of signals including, inter alia, transmission of video and audio signals (irrespective of the types of protocols and technologies used) through public telecommunications transport networks.
2. This Sub-Section does not apply to measures affecting:
 - (a) broadcasting services as defined in the laws and regulations of each Party; and
 - (b) services providing, or exercising editorial control over, content transmitted using telecommunications transport networks and services.
3. Notwithstanding subparagraph 2(a), a supplier of broadcasting services shall be considered as a supplier of public telecommunications transport services and its networks as public telecommunications transport networks, when and to the extent that such networks are also used for providing public telecommunications transport services.
4. Nothing in this Sub-Section shall be construed as requiring a Party:

(a) to authorise a service supplier of the other Party to establish, construct, acquire, lease, operate or supply telecommunications transport networks or services other than as provided for in this Agreement; or

(b) to establish, construct, acquire, lease, operate or supply telecommunications transport networks or services not offered to the public generally, or to oblige a service supplier under its jurisdiction to do so.

Article 8.42. Definitions

For the purposes of this Sub-Section:

(a) "associated facilities" means services and infrastructures associated with public telecommunications transport networks or services which are necessary for the provision of services via those networks or services, such as buildings (including entries and wiring), ducts and cabinets as well as masts and antennae;

(b) "cost-oriented" means based on cost, and may include a reasonable profit, and may involve different cost methodologies for different facilities or services;

(c) "end user" means a final consumer of, or subscriber to, a public telecommunications transport network or service, including a service supplier other than a supplier of public telecommunications transport networks or services;

(d) "essential facilities" means facilities of a public telecommunications transport network or service that:

(i) are exclusively or predominantly provided by a single or limited number of suppliers; and

(ii) cannot feasibly be economically or technically substituted in order to provide a service;

(e) "interconnection" means linking (1) with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with the users of another supplier or to access services provided by any supplier who has access to the network;

(f) "international mobile roaming service" means a commercial mobile service provided pursuant to a commercial agreement between suppliers of public telecommunications transport services that enables an end user to use its home mobile handset or other device for voice, data or messaging services while outside the territory in which the end user's home public telecommunications transport network is located;

(g) "leased circuits" means telecommunications facilities between two or more designated points that are set aside for the dedicated use of, or availability to, a particular user, irrespective of the technology used;

(h) "major supplier" means a supplier which has the ability to materially affect the terms of participation, having regard to price and supply, in the relevant market for public telecommunications transport services as a result of:

(i) control over essential facilities; or

(ii) use of its position in the market;

(i) "non-discriminatory" means treatment no less favourable than that accorded, under like circumstances, to other service suppliers and users of like public telecommmunications transport networks or services;

(j) "number portability" means the ability of an end user of public telecommunications transport services who requests to retain, at the same location, the same telephone numbers without impairment of quality or reliability when switching between the same category of suppliers of like public telecommunications transport services;

(k) "public telecommunications transport network" means public telecommunications infrastructure which permits telecommunications between and among defined network termination points;

(l) "public telecommunications transport service" means any telecommunications transport service offered to the public generally that may include, inter alia, telegraph, telephone, telex and data transmission typically involving transmission of customer-supplied information between two or more points without any end-to-end change in the form or content of the customer's information;

(m) "regulatory authority" means the body or bodies of a Party responsible for the regulation of telecommunications;

(n) "telecommunications" means the transmission and reception of signals by wire, radio, optical or any other electromagnetic means; and

(o) "users" means end users, or suppliers of public telecommunications transport networks or services that are consumers of, or subscribers to, a public telecommunications transport network or service.

(1) For greater certainty, linking may include physical or logical linking, as appropriate.

Article 8.43. Approaches to Regulation

1. The Parties recognise the value of competitive markets to deliver a wide choice in the supply of telecommunications services and to enhance consumer welfare, and that economic regulation may not be needed if there is effective competition. Accordingly, the Parties recognise that regulatory needs and approaches differ market by market, and that a Party may determine how to implement its obligations under this Sub-Section.

2. In that respect, the Parties recognise that a Party may:

(a) engage in direct regulation either in anticipation of an issue that the Party expects may arise or to resolve an issue that has already arisen in the market; or

(b) rely on the role of market forces, particularly with respect to market segments that are competitive or that have low barriers to entry, such as services provided by suppliers of telecommunications services that do not own network facilities.

3. For greater certainty, a Party that refrains from engaging in regulation in accordance with subparagraph 2(b) remains subject to the obligations under this Sub-Section. Nothing in this Article shall prevent a Party from applying regulation to telecommunications services.

Article 8.44. Access and Use

1. Each Party shall ensure that any service supplier of the other Party is accorded access to, and use of, public telecommunications transport networks and services on terms and conditions which are reasonable, non-discriminatory and no less favourable than those which the supplier of those public telecommunications transport networks and services provides for its own like services under like circumstances. This obligation shall be applied, inter alia, through paragraphs 2 to 6.

2. Each Party shall ensure that service suppliers of the other Party are accorded access to, and use of, any public telecommunications transport network or service offered within or across the borders of the former Party, including private leased circuits, and shall to that end ensure, subject to paragraphs 5 and 6, that such service suppliers are permitted to:

(a) purchase or lease, and attach, terminal or other equipment which interfaces with the network and which is necessary to supply their services;

(b) interconnect private leased or owned circuits with public telecommunications transport networks and services or with circuits leased or owned by other service suppliers; and

(c) use operating protocols of their choice in the supply of any service, other than as necessary to ensure the availability of telecommunications transport networks and services to the public generally.

3. Each Party shall ensure that service suppliers of the other Party may use public telecommunications transport networks and services for the movement of information within and across the borders of the former Party, including for intra-corporate communications of such service suppliers, and for access to information contained in databases or otherwise stored in machine-readable form in either Party or in any other member of the WTO.

4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to ensure the security and confidentiality of messages subject to the requirement that those measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in services.

5. Each Party shall ensure that no condition is imposed on access to, and use of, public telecommunications transport networks and services other than as necessary to:

(a) safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally; or

(b) protect the technical integrity of public telecommunications transport networks or services.

6. Provided that they satisfy the criteria set out in paragraph 5, conditions for access to, and use of, public telecommunications transport networks and services may include:

(a) restrictions on resale or shared use of those services;

(b) a requirement to use specified technical interfaces, including interface protocols, for inter-connection with public telecommunications transport networks and services;

(c) requirements, if necessary, for the interoperability of public telecommunications transport services and to encourage the achievement of the goals set out in Article 8.55;

(d) type approval of terminal or other equipment which interfaces with public telecommunications transport networks and technical requirements relating to the attachment of that equipment to those networks;

(e) restrictions on inter-connection of private leased or owned circuits with public telecommunications transport networks or services, or with circuits leased or owned by other service suppliers; or

(f) notification, permit, registration and licensing.

Article 8.45. Number Portability

Each Party shall ensure that suppliers of public telecommunications transport services in its territory provide number portability for mobile services and any other services designated by that Party, on a timely basis and on reasonable terms and conditions.

Article 8.46. Resale

If a Party requires a supplier of public telecommunications transport services to offer its public telecommunications transport services for resale, that Party shall ensure that such supplier does not impose unreasonable or discriminatory conditions or limitations on the resale of its public telecommunications transport services.

Article 8.47. Enabling Use of Network Facilities and Interconnection

1. The Parties recognise that enabling use of network facilities (1) and interconnection should in principle be agreed on the basis of commercial negotiation between the suppliers of public telecommunications transport networks or services concerned.

2. Each Party shall ensure that any supplier of public telecommunications transport networks or services in its territory has a right and, if requested by a supplier of public telecommunications transport networks or services of the other Party, an obligation to negotiate interconnection for the purpose of providing public telecommunications transport networks or services. Each Party shall provide its regulatory authority with the power to require, where necessary, a supplier of public telecommunications transport networks or services to provide interconnection with suppliers of public telecommunications transport networks or services of the other Party.

3. A Party shall not adopt or maintain any measure which obliges suppliers of public telecommunications transport networks or services enabling use of network facilities or providing interconnection to offer different terms and conditions to different suppliers for like services or imposes obligations that are not related to the services provided.

(1) For the purposes of this Article, "enabling use of network facilities" means the making available of facilities or services to another supplier of public telecommunications transport networks or services under defined conditions, for the purpose of providing public telecommunications transport services. It may include the use of active or passive network elements, associated facilities, virtual network services, co-location or other forms of associated facilities sharing, the use of leased circuits and the use of specified network facilities or elements, including the local loop, on an unbundled basis.

Article 8.48. Obligations Relating to Major Suppliers

1. Each Party shall adopt or maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anticompetitive practices. These anticompetitive practices shall include in particular:

(a) engaging in anticompetitive cross-subsidisation;

(b) using information obtained from competitors with anticompetitive results; and

(c) not making available to other service suppliers on a timely basis technical information about essential facilities and commercially relevant information which is necessary for them in order to provide services.

2. Each Party shall provide its regulatory authority with the power to require, where appropriate, that major suppliers in its territory accord to suppliers of public telecommunications transport networks or services of the other Party treatment no less favourable than that which the major supplier concerned accords in like circumstances to its subsidiaries or its affiliates, regarding:

(a) the availability, provisioning, rates or quality of like telecommunications services; and

(b) the availability of technical interfaces necessary for interconnection.

3. Each Party shall ensure that major suppliers in its territory provide interconnection with suppliers of public telecommunications transport networks or services of the other Party at any technically feasible point in the network of the major supplier concerned and that the major supplier concerned provides such interconnection:

(a) under terms, conditions (including with respect to technical standards, specifications, quality and maintenance) and rates which are non-discriminatory and no less favourable than those provided for its own like services under like circumstances, and of a quality no less favourable than that provided for its own like services, for like services of non-affiliated service suppliers, or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including with respect to technical standards, specifications, quality and maintenance) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the suppliers need not pay for network components or facilities that they do not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

4. Each Party shall ensure that major suppliers in its territory provide suppliers of public telecommunications transport networks or services of the other Party with the opportunity to interconnect their facilities and equipment with those of a major supplier through:

(a) a reference interconnection offer or another standard interconnection offer containing the rates, terms and conditions that the major supplier offers generally to suppliers of public telecommunications transport networks or services; or

(b) the terms and conditions of an interconnection agreement in effect.

5. Each Party shall ensure that the procedures applicable for interconnection with major suppliers in its territory are made publicly available.

6. Each Party shall ensure that major suppliers in its territory make publicly available either their interconnection agreements or their reference interconnection offers.

7. Each Party shall ensure that major suppliers in its territory that acquire information from another supplier of public telecommunications transport networks or services in the process of negotiating arrangements on, and as a result of, the use of network facilities or interconnection, use that information solely for the purpose for which it was supplied and respect at all times the confidentiality of information transmitted or stored.

8. Each Party shall ensure that major suppliers in its territory enable the use of network facilities, which may include, inter alia, network elements and associated facilities, to suppliers of public telecommunications transport networks or services of the other Party on terms and conditions (including in relation to rates, technical standards, specifications, quality and maintenance) which are transparent, reasonable, non-discriminatory (including with respect to timeliness) and no less favourable than those provided for their own like services under like circumstances. (1)

(1) For greater certainty, nothing in this paragraph shall be construed as preventing a Party from allowing a major supplier in its territory to reject co-location if there is a reasonable ground for rejection, in particular with regard to technical feasibility.

Article 8.49. Regulatory Authority

1. Each Party shall ensure that its regulatory authority is legally distinct, and functionally independent (2) from any supplier of telecommunications services, telecommunications networks or telecommunications network equipment.
2. A Party that retains ownership or control of a supplier of public telecommunications transport networks or services shall ensure effective structural separation of the regulatory function of telecommunications from activities associated with the ownership or control.
3. Each Party shall provide its regulatory authority with the power to regulate the telecommunications sector, and to carry out the task assigned to it including enforcement of the measures relating to the obligations under this Sub-Section. The tasks to be undertaken by the regulatory authority shall be made publicly available in an easily accessible and clear form.
4. Each Party shall ensure that the decisions of, and the procedures used by, its regulatory authority are impartial with respect to all market participants.
5. Each Party shall ensure that its regulatory authority performs its tasks in a transparent manner and, to the extent practicable, without undue delay.
6. Each Party shall provide its regulatory authority with the power to request from suppliers of telecommunications networks and services all the information, including financial information, which is necessary to carry out its tasks in accordance with this Sub-Section. The regulatory authority shall not request more information than that which is necessary to perform its tasks and shall treat the information obtained from those suppliers in accordance with the laws and regulations of that Party relating to business confidentiality.

(2) For greater certainty, the regulatory authority of a Party shall not be regarded as not functionally independent solely based on the fact that an authority of that Party (other than the regulatory authority) holds shares or other equity interest in a supplier of telecommunications services, telecommunications networks or telecommunications network equipment.

Article 8.50. Universal Service

1. Each Party has the right to define the kind of universal service obligations it wishes to maintain. Those obligations are not to be regarded as anticompetitive per se, provided that they are administered in a transparent, objective, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Party.
2. All suppliers of telecommunications services should be eligible to provide universal service. Universal service suppliers shall be designated through a transparent, non-discriminatory and not unduly burdensome mechanism.
3. The regulatory authority of a Party may determine whether a mechanism is required in order to compensate the net cost of the suppliers designated to provide universal service, taking into account the market benefit, if any, accruing to those suppliers, or to share the net cost of the universal service obligations.

Article 8.51. Authorisation to Provide Telecommunications Networks and Services

1. Each Party shall authorise the provision of telecommunications networks or services, to the extent possible, upon simple notification or registration without requiring a prior explicit decision by its regulatory authority. The rights and obligations resulting from such authorisation shall be made publicly available in an easily accessible form.
2. If necessary, a Party may require a licence for the right of use for radio frequencies and numbers, in particular in order to:
 - (a) avoid harmful interference;
 - (b) ensure technical quality of service; and
 - (c) safeguard efficient use of spectrum.
3. If a Party requires a licence, that Party shall make publicly available:
 - (a) all the licensing criteria and a reasonable period of time normally required to reach a decision on a licence; and
 - (b) the terms and conditions of individual licences.
4. Each Party shall notify an applicant of the outcome of its application without undue delay after a decision on the licence has been taken. In case a decision is taken to deny an application for or revoke a licence, each Party shall make known to the

applicant, in principle in writing, upon request, the reasons for the denial or revocation. In that case, the applicant shall be able to have recourse to an appeal body as referred to in Article 8.54.

5. Each Party shall ensure that any administrative fees imposed on suppliers of telecommunications networks or services are objective, transparent and commensurate with the administrative costs of its regulatory authority. Those administrative fees do not include payments for rights to use scarce resources and mandated contributions to universal service provision.

Article 8.52. Allocation and Use of Scarce Resources

2. Each Party shall make publicly available the current state of allocated frequency bands, but shall not be required to provide detailed identification of frequencies allocated for specific government uses.

3. Measures by a Party allocating and assigning spectrum and managing frequency are not per se inconsistent with Articles 8.7 and 8.15. Accordingly, each Party retains the right to establish and apply spectrum and frequency management policies that have the effect of limiting the number of suppliers of public telecommunications transport services, provided that the Party does so in a manner consistent with the other provisions of this Agreement. That right includes the ability to allocate frequency bands, taking into account current and future needs and spectrum availability.

Article 8.53. Transparency

Each Party shall ensure that its measures relating to access to, and use of, public telecommunications transport networks and services are made publicly available, including measures relating to:

(a) tariffs and other terms and conditions of service;

(b) specifications of technical interfaces;

(c) bodies responsible for the preparation, amendment and adoption of standards affecting the access and use;

(e) notifications, permits, registrations or licensing requirements, if any.

Article 8.54. Resolution of Telecommunications Disputes

1. Each Party shall ensure, in accordance with its laws and regulations, that suppliers of public telecommunications transport networks or services of the other Party have timely recourse to the regulatory authority of the former Party to resolve disputes in relation to the rights and obligations of those suppliers arising from this Sub-Section. In such cases, the regulatory authority shall aim to issue a binding decision, as appropriate, in order to resolve the dispute without undue delay.

2. If the regulatory authority declines to initiate any action on a request to resolve a dispute, it shall, upon request and within a reasonable period of time, provide a written explanation for its decision.

3. The regulatory authority shall make the decision resolving the dispute available to the public in accordance with the laws and regulations of the Party, having regard to the requirements of business confidentiality.

4. Each Party shall ensure that a supplier of public telecommunications transport networks or services aggrieved by a determination or decision of its regulatory authority may obtain review of that determination or decision by either the regulatory authority or an independent appeal body which may or may not be a judicial authority.

5. Each Party shall ensure that a supplier of public telecommunications transport networks or services affected by a decision of its regulatory authority or independent appeal body, if the latter is not a judicial authority, may obtain further review of that decision by an independent judicial authority, except if the supplier has accepted a procedure where the regulatory authority or independent appeal body issues a final decision, in accordance with the laws and regulations of the Party.

6. A Party shall not permit an application for review by an appeal body or a judicial authority to constitute grounds for non-compliance with the determination or decision of the regulatory authority unless the relevant appeal body or judicial

authority withholds, suspends or repeals such determination or decision.

7. The procedure referred to in paragraphs 1 to 3 shall not preclude either party concerned from bringing an action before the judicial authorities.

Article 8.55. Relation to International Organisations

The Parties recognise the importance of international standards for global compatibility and interoperability of telecommunications transport networks and services, and undertake to promote those standards through the work of relevant international bodies, including the International Telecommunication Union and the International Organization for Standardization.

Article 8.56. Confidentiality of Information

Each Party shall ensure, in accordance with its laws and regulations, the confidentiality of telecommunications and related traffic data of users over public telecommunications transport networks and services without unduly restricting trade in services.

Article 8.57. International Mobile Roaming

1. Each Party shall endeavour to cooperate on promoting transparent and reasonable rates for international mobile roaming services with a view to promoting the growth of trade between the Parties and enhancing consumer welfare.

2. Each Party may choose to take steps to enhance transparency and competition with respect to international mobile roaming rates and technological alternatives to roaming services, such as:

(a) ensuring that information regarding retail rates is easily accessible to consumers; and

(b) minimising impediments to the use of technological alternatives to roaming, whereby consumers, when visiting the territory of a Party from the territory of the other Party, can access telecommunications services using the device of their choice.

3. Each Party shall encourage suppliers of public telecommunications transport services in its territory to make publicly available information on retail rates for international mobile roaming services for voice, data and text messages offered to their end users when visiting the territory of the other Party.

4. Nothing in this Article shall require a Party to regulate rates or conditions for international mobile roaming services.

This Article is subject to each Party's reservations as set out in Annexes I and I to Annex 8-B.

2. Notwithstanding subparagraph (b) of Article 8.7, a Party may determine the juridical form through which the new financial service may be supplied and may require authorisation for the supply of the service. If a Party requires a financial service supplier to obtain authorisation to supply a new financial service, the Party shall decide within a reasonable period of time whether to issue the authorisation and may refuse the authorisation only for prudential reasons.

(1) The Parties understand that nothing in this Article prevents a financial service supplier of a Party from applying to the other Party to request that it authorises the supply of a financial service that is not supplied in the territory of either Party. That application shall be subject to the law of the Party to which the application is made and, for greater certainty, shall not be subject to this Article.

Article 8.61. Payment and Clearing Systems

Under terms and conditions that accord national treatment, each Party shall grant to financial service suppliers of the other Party established in its territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. 2. Subject to paragraph 3, a Party shall not require, as a condition for conducting business in its territory, a financial service supplier of the other Party to use or locate financial service computing facilities in the former Party's territory. (1)

3. A Party has the right to require a financial service supplier of the other Party to use or locate financial service computing facilities in the former Party's territory, where it is not able to ensure access to information that is appropriate (2) for the purposes of effective financial regulation and supervision, provided that the following conditions are met:

(a) to the extent practicable, the Party provides a financial service supplier of the other Party with a reasonable opportunity to remediate any lack of access to information; and

(b) the Party or its financial regulatory authorities consults the other Party or its financial regulatory authorities before imposing any requirements to a financial service supplier of the other Party to use or locate financial service computing facilities in the former Party's territory.

4. Nothing in paragraph 3 shall be construed to grant a Party access to information or to require a financial service supplier of the other Party to use or locate financial service computing facilities in the former Party's territory, in a manner beyond what is appropriate for the purposes of effective financial regulation and supervision.

5. Nothing in this Article restricts the right of a Party to protect personal data, personal privacy and the confidentiality of individual records and accounts so long as that right is not used to circumvent Sections B to D and this Sub-Section.

(1) For greater certainty, circumstances to which this paragraph applies include those in which a financial service supplier of the other Party uses a service provided by a third party for the processing or storage of information.

4. If a Party rejects an application by an applicant, on request of the applicant, it shall, to the extent practicable, inform the applicant of the reasons for rejection of the application.

5. A Party shall ensure that the rules of general application adopted or maintained by self-regulatory organisations in the territory of that Party are promptly published or otherwise made available in such a manner as to enable interested persons to become acquainted with them.

(1) Such opportunity does not require a Party to extend application deadlines.

Article 8.65. Prudential Carve-out

1. Nothing in this Agreement shall prevent a Party from adopting or maintaining measures for prudential reasons, including for:

(a) the protection of investors, depositors, policy-holders or persons to whom a fiduciary duty is owed by a financial service supplier; or

The services covered by this Article do not include the supply of insurance services relating to the collection, transport and delivery of letters or packages by a Party's postal insurance entity.

2. A Party shall not adopt or maintain a measure that creates conditions of competition that are more favourable to a postal insurance entity with respect to the supply of insurance services referred to in paragraph 1 as compared to a private supplier of like insurance services in its market, including by:

(a) imposing more onerous conditions on a private supplier's licence to supply insurance services than the conditions the Party imposes on a postal insurance entity to supply like services; or

(b) making a distribution channel for the sale of insurance services available to a postal insurance entity under terms and conditions more favourable than those it applies to private suppliers of like services.

3. With respect to the supply of insurance services referred to in paragraph 1 by a postal insurance entity, a Party shall apply the same regulations and enforcement activities that it applies to the supply of like insurance services by private suppliers.

4. In implementing its obligations under paragraph 3, a Party shall require a postal insurance entity that supplies insurance services referred to in paragraph 1 to publish an annual financial statement with respect to the supply of those services. The statement shall provide the level of detail and meet the auditing standards required under generally accepted accounting and auditing principles, internationally accepted accounting and auditing standards or equivalent rules, applied in the Party's territory with respect to publicly traded private enterprises that supply like services.

5. Paragraphs 1 to 4 do not apply to a postal insurance entity in the territory of a Party:

(a) that the Party neither owns nor controls, directly or indirectly, as long as the Party does not maintain any advantage that modifies the conditions of competition in favour of the postal insurance entity in the supply of insurance services as compared to a private supplier of like insurance services in its market; or

(b) if sales of direct life and non-life insurance underwritten by the postal insurance entity each account for no more than 10 per cent, respectively, of total annual premium income from direct life and non-life insurance in the Party's market.

This provision does not apply to procurement within the scope of the Act on Promotion of Private Finance Initiative of Japan (Law No. 117 of 1999).

2. While a procuring entity of a Party may, in establishing the conditions for participation, require relevant prior experience where essential to meet the requirements of the procurement in accordance with subparagraph 2(b) of Article VIII of the GPA, that procuring entity shall not impose the condition that such prior experience must have been acquired within the territory of that Party.

Article 10.6. Qualification of Suppliers

1. If a Party maintains a supplier registration system under which interested suppliers are required to register and provide certain information, those suppliers may request their registration at any time. A procuring entity should inform those suppliers within a reasonably short period of time whether their registration has been granted.

If, in accordance with paragraphs 4 and 5 of Article IX of the GPA, a procuring entity limits the number of suppliers for a given procurement, the number of suppliers permitted to submit a tender shall be sufficient to ensure competition without affecting the operational efficiency of the procurement system.
2. For Japan, this Article applies only to central government entities.

Article 10.8. Technical Specifications

If a procuring entity applies environment-friendly technical specifications as set out for environmental labels or as defined by relevant laws and regulations in force within the United Kingdom or Japan, each Party shall ensure that those specifications are:

- (a) appropriate to define the characteristics of the goods or services that are the object of the contract;
- (b) based on objectively verifiable and non-discriminatory criteria; and
- (c) accessible to all interested suppliers.

Article 10.9. Test Reports

1. Each Party, including its procuring entities, may require that interested suppliers provide a test report issued by a conformity assessment body or a certificate issued by such a body as a means of proof of conformity with the requirements or the criteria set out in the technical specifications, the evaluation criteria or any other terms or conditions.
2. When requiring the submission of a test report or a certificate issued by a conformity assessment body, each Party, including its procuring entities, shall:
 - (a) accept the results of conformity assessment procedures that are conducted by the registered conformity assessment bodies of the other Party in accordance with paragraph 1 of Article 2 of the Protocol on Mutual Recognition; and

Article 10.10. Environmental Conditions

Procuring entities may lay down environmental conditions relating to the performance of a procurement, provided that those conditions are compatible with the rules established by this Chapter and are indicated in the notice of intended procurement or in another notice used as a notice of intended procurement or tender documentation.

Article 10.11. Treatment of Tenders and Awarding of Contracts

1. Further to paragraph 5 of Article XV of the GPA, and in accordance with the conditions set out in each Party's laws and regulations, each Party shall ensure that its procuring entities are entitled to choose between the two criteria referred to in subparagraphs (a) and (b) of paragraph 5 of Article XV of the GPA and that they are aware of the respective merits of those criteria.
2. Further to paragraph 6 of Article XV of the GPA, if procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may also verify with the supplier whether the price takes into account the grant of subsidies.

Article 10.12. Domestic Review Procedures

1. Where an impartial administrative authority is designated by a Party under paragraph 4 of Article XVIII of the GPA, that Party shall ensure that:

(a) the members of the designated authority are independent, impartial, and free from external influence during the term of appointment;

(b) the members of the designated authority are not dismissed against their will while they are in office, unless their dismissal is required by the provisions governing the designated authority; and

(c) with regard to the procuring entities covered under Annexes 1 and 3 of each Party to Appendix I to the GPA, as well as the central government entities and all other entities except the sub-central government entities covered under Part 2 of Annex 10, the President or at least one other member of the designated authority, has legal and professional qualifications equivalent to those necessary for judges, lawyers or other legal experts qualified under the laws and regulations of the Party.

2. Each Party shall adopt or maintain procedures that provide for rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures, provided for in subparagraph 7(a) of Article XVIII of the GPA, may result in suspension of the procurement process or, if a contract has been concluded by the procuring entity and if a Party has so provided, in suspension of performance of the contract. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing.

3. In case an interested or participating supplier has submitted a challenge with the designated authority referred to in paragraph 1, each Party shall, in principle, ensure that a procuring entity shall not conclude the contract until that authority has made a decision or recommendation on the challenge with regard to interim measures, corrective action or compensation for the loss or damages suffered as referred to in paragraphs 2, 5 and 6 in accordance with its rules, regulations and procedures. Each Party may provide that in unavoidable and duly justified circumstances, the contract can be nevertheless concluded.

4. Each Party may provide for:

(a) a standstill period between the contract award decision and the conclusion of a contract in order to give sufficient time to unsuccessful suppliers to assess whether it is appropriate to initiate a review procedure; or

(b) a sufficient period for an interested supplier to submit a challenge, which may constitute grounds for the suspension of the execution of a contract.

5. Corrective action under subparagraph 7(b) of Article XVII of the GPA may include one or more of the following:

(a) the removal of discriminatory technical, economic or financial specifications in the invitation to tender, the contract documents or any other document relating to the tendering procedure and conduct of new procurement procedures;

6. In accordance with subparagraph 7(b) of Article XVII of the GPA, each Party may provide for the award of compensation for the loss or damages suffered. In this regard, if the review body of the Party is not a court and a supplier believes that there has been a breach of the domestic laws and regulations implementing the obligations under this Chapter, the supplier may bring the matter before a court, including with a view to seeking compensation, in accordance with the judicial procedures of the Party.

7. Each Party shall adopt or maintain the necessary procedures by which the decisions or recommendations made by review bodies are effectively implemented, or the decisions by judicial review bodies are effectively enforced.

Article 10.13. Collection and Reporting of Statistics

Each Party shall communicate to the other Party available and comparable statistical data relevant to the procurement covered by Part 2 of Annex 10.

Article 10.14. Modifications and Rectifications to Coverage

1. A Party may modify or rectify its commitments under Part 2 of Annex 10.
2. If a modification or a rectification of a Party's annexes to Appendix I to the GPA becomes effective pursuant to Article XIX of the GPA, it shall automatically become effective for the purposes of this Agreement.
3. When a Party intends to modify its commitments under Part 2 of Annex 10, the Party shall:
 - (a) notify the other Party in writing; and
 - (b) include in the notification a proposal for appropriate compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification.
4. Notwithstanding subparagraph 3(b), a Party does not need to provide compensatory adjustments if the modification concerns a procuring entity over whose procurement the Party has effectively eliminated its control or influence.
5. In the event the Committee on Government Procurement established by Article XXI of the GPA adopts criteria pursuant to subparagraphs 8(b) and (c) of Article XIX of the GPA, those criteria shall be applicable also within the context of this Article.
6. If the other Party objects that:
 - (a) an adjustment proposed in accordance with subparagraph 3(b) is inadequate to maintain a comparable level of mutually agreed coverage; or
 - (b) the intended modification referred to in paragraph 4 concerns a procuring entity over whose procurement the Party has not effectively eliminated its control or influence,it shall submit an objection in writing to the Party intending to modify its commitments within 45 days from the date of receipt of the notification referred to in subparagraph 3(a) or be deemed to have accepted the adjustment or modification.
7. The following changes to a Party's commitments under Part 2 of Annex 10 shall be considered a rectification:
 - (a) a change in the name of a procuring entity;
 - (b) merger of two or more procuring entities listed in the same paragraph of Part 2 of Annex 10;
 - (c) the separation of a procuring entity listed in Part 2 of Annex 10 into two or more procuring entities that are added to the procuring entities listed in the same paragraph of that Part; and
 - (d) updates of indicative lists such as those set out in paragraph 2 of Section A of Part 2 of Annex 10, subparagraph 1(b) of Section B of Part 2 of Annex 10, or in Annexes 2 and 3 of the United Kingdom to Appendix I to the GPA.
8. In the case of intended rectifications, the Party shall notify the other Party in writing every two years, in line with the cycle of notifications provided for in the Decision of the Committee on Government Procurement on Notification Requirements under Articles XIX and XXII of the Agreement adopted on 30 March 2012 (GPA/113), following the entry into force of this Agreement.
9. The other Party may, within 45 days from the date of receipt of the notification pursuant to paragraph 8, submit an objection in writing to the Party intending to rectify its commitments. The Party submitting an objection shall set out the reasons why it believes the intended rectification is not a change provided for in paragraph 7, and describe the effect of the intended rectification on the mutually agreed coverage provided for in this Agreement. If no such objection is submitted in writing within 45 days from the date of receipt of the notification, the intended rectification shall be deemed to have been accepted.
10. If the Party objects to the intended modification or rectification, or to the proposed compensatory adjustment, the Parties shall seek to resolve the issue through consultations. If no agreement between the Parties is reached within 150 days from the date of receipt of the notification of the objection, the Party intending to modify or rectify its commitments may have recourse to dispute settlement under Chapter 22 to determine whether the objection is justified. An intended modification or rectification in respect of which an objection has been submitted shall be deemed to have been accepted only when so agreed through the consultations or so decided by the panel established pursuant to Article 22.7.

Article 10.15. Cooperation

The Parties shall endeavour to cooperate with a view to achieving enhanced understanding of their respective government procurement markets. The Parties also recognise that the involvement of related industries of the Parties, through means such as dialogues, is important for that purpose.

However, the first notification shall be made no later than three years after the date of entry into force of this Agreement.

2. If a Party makes publicly available on an official website the information specified in paragraph 1, the notification pursuant to paragraph 1 shall be deemed to have been made. Article 12.6. Consultations

1. In the event a Party considers that a subsidy of the other Party has or could have a significant negative effect on its trade or investment interests under this Chapter, the former Party may submit a request for consultation in writing. The Parties shall enter into consultations with a view to resolving the matter, provided that the request includes an explanation of how the subsidy has or could have a significant negative effect on trade or investment between the Parties.

2. During the consultations, the Party receiving the request for consultation shall consider to provide information about the subsidy, if requested by the other Party, such as:

(a) the legal basis and policy objective or purpose of the subsidy;

(b) the form of the subsidy such as a grant, loan, guarantee, repayable advance, equity injection or tax concession;

(c) dates and duration of the subsidy and any other time limits attached to it;

(d) eligibility requirements of the subsidy;

(e) the total amount or the annual amount budgeted for the subsidy and the possibility of limiting the subsidy;

4. In the event that any information referred to in paragraph 2 is not provided by the requested Party, that Party shall explain the absence of such information in its written response.

5. If the requesting Party, after the consultations, still considers that the subsidy has or could have a significant negative effect on its trade or investment interests under this Chapter, the requested Party shall accord sympathetic consideration to the concerns of the requesting Party. Any solution shall be considered feasible and acceptable by the requested Party.

Article 12.7. Prohibited Subsidies

The following subsidies of a Party that have or could have a significant negative effect on trade or investment between the Parties shall be prohibited:

(b) subsidies for restructuring an ailing or insolvent enterprise without the enterprise having prepared a credible restructuring plan. Such a restructuring plan shall be prepared within a reasonable time period after such enterprise having received temporary liquidity support. (1) The restructuring plan shall be based on realistic assumptions with a view to ensuring the return to long-term viability of the ailing or insolvent enterprise within a reasonable time period. The enterprise itself or its owners shall contribute significant funds or assets to the costs of restructuring.

(1) For greater certainty, nothing in this Article prevents a Party from providing subsidies by way of temporary liquidity support in the form of loan guarantees or loans limited to the amount needed to keep the enterprise in business for the time necessary to prepare a restructuring or liquidation plan.

(2) Each Party may adopt effective measures in order to ensure that the profit generated during the 20 years of protection beyond 50 years is shared fairly between the performers and producers of phonograms.

Article 14.14. Limitations and Exceptions

Each Party may provide for limitations or exceptions to the rights set out in Articles 14.8 to 14.12 only in certain special cases which neither conflict with a normal exploitation of the subject matter nor unreasonably prejudice the legitimate interests of the right holders, in accordance with the conventions and international agreements to which it is party.

Article 14.15. Artist's Resale Right In Works of Art

The Parties agree to exchange views and information on issues related to a right to an interest in the resale of an original work of art and the situation in this regard in the United Kingdom and in Japan.

Article 14.16. Collective Management

1. The Parties recognise the importance of fostering cooperation between their respective collective management organisations for the purposes of facilitating licensing of content between such collective management organisations, as well as encouraging (1) transfer of royalties for use of works or other copyright-protected subject matters of the nationals of the other Party.

2. Each Party shall ensure that its collective management organisations are encouraged to:

(a) operate to collect and distribute revenues to the right holders they represent in a manner that is fair, efficient, transparent and accountable; and

(b) adopt open and transparent record keeping of the collection and distribution of revenues.

3. The Parties endeavour to facilitate non-discriminating treatment by collective management organisations of right holders they represent either directly or via another collective management organisation.

(1) For greater certainty, "encouraging" does not require a Party to intercede in any contractual arrangements between collective management organisations.

Article 14.17. Protection of Existing Subject Matter

1. Each Party shall apply Article 18 of the Berne Convention and paragraph 6 of Article 14 of the TRIPS Agreement, *mutatis mutandis*, to works, performances and phonograms, and the rights in and protections afforded to those subject matters as required by this Sub-Section.

2. A Party shall not be required to restore protection to subject matter that, on the date of entry into force of this Agreement, has fallen into the public domain in its territory.

Article 14.18. Technological Protection Measures

Each Party shall provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that are used by authors, performers or producers of phonograms in connection with the exercise of their rights under the laws and regulations of the Party and that restrict acts, in respect of their works, performances or phonograms, which are not authorised by the authors, performers or producers of phonograms concerned or permitted by the laws and regulations of the Party.

Article 14.19. Rights Management Information

1. Each Party shall provide adequate and effective legal remedies against any person knowingly performing any of the following acts knowing, or with respect to civil remedies having reasonable grounds to know, that it will induce, enable, facilitate or conceal an infringement of copyright and related rights:

(a) to remove or alter any electronic rights management information without authority; and

(b) to distribute, import for distribution, broadcast, communicate or make available to the public, without authority, works, copies of works, performances, copies of fixed performances or phonograms knowing that electronic rights management information has been removed or altered without authority.

2. The term "rights management information" means information which identifies a work, performance or phonogram; the author of the work, the performer of the performance or the producer of the phonogram; the owner of any right in the work, performance or phonogram; or information about the terms and conditions of the use of the work, performance or phonogram; and any numbers or codes that represent such information, when any of these items of information is attached to a copy of a work, a fixed performance or a phonogram or appears in connection with the communication or making available of a work, a fixed performance or a phonogram to the public.

Subsection 2. Trademarks

Article 14.20. Rights Conferred by a Trademark

Each Party shall ensure that the owner of a registered trademark has the exclusive right to prevent all third parties not having the owner's consent from using (1) in the course of trade identical or similar signs for goods or services which are identical or similar to those in respect of which the trademark is registered, where such use would result in a likelihood of confusion. In the case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed. The rights described above shall not prejudice any existing prior rights nor shall they affect the possibility of a Party to make rights available on the basis of use.

(1) For the purposes of this Article, "using" such sign includes, at least, importing and exporting goods or packages of goods to which the sign is affixed.

Article 14.21. Exceptions

Each Party shall provide for limited exceptions to the rights conferred by a trademark such as the fair use of descriptive terms (2) and may provide for other limited exceptions, provided that those exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

(2) The fair use of descriptive terms includes the use of a sign to indicate the geographic origin of the goods or services in accordance with honest practices in industrial or commercial matters.

Article 14.22. Preparatory Acts Deemed as Infringement

With regard to labels and packaging, each Party shall provide that at least each of the following preparatory acts are deemed as an infringement of a registered trademark if the act has been performed without the consent of the registered trademark owner: (a) the manufacture;

(b) the importation; and

(c) the presentation (1)

of labels or packaging bearing (2) a sign which is identical or similar to the registered trademark, for the purpose of using such sign or causing it to be used in the course of trade for goods or services which are identical or similar to those in respect of which the trademark is registered.

(1) For the purposes of this Article, the United Kingdom considers "presentation" as offering or putting on the market and Japan considers "presentation" as assignment.

(2) For the purposes of this Article, for Japan, "bearing" means indicating.

Article 14.23. Well-known Trademarks

1. For the purpose of giving effect to the protection of well-known trademarks, as referred to in Article 6bis of the Paris Convention and paragraphs 2 and 3 of Article 16 of the TRIPS Agreement, the Parties affirm the importance of the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of the WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of the WIPO in 1999.

2. Neither Party shall require as a condition for determining that a trademark is well-known that the trademark has been registered in the Party or in another country, included on a list of well-known trademarks, or given prior recognition as a well-known trademark.

Article 14.24. Bad Faith Trademarks

Each Party shall provide that its competent authority has the authority to refuse an application or cancel a registration where the application to register the trademark was made in bad faith, in accordance with its laws and regulations. (1) (2)

(1) For the purposes of this Article, a Party may provide that the competent authority of a Party may take into consideration whether the trademark is identical or similar to a well-known trademark of another person.

(2) The Parties understand that an application to register a trademark, which is identical or similar to a trademark well-known in either Party or in a third country as indicating the goods or services of another person, may be considered as an application made in bad faith as determined in accordance with the applicable laws and regulations of each Party.

Article 14.25. Registration and Renewal Processes

To maintain a streamlined trademark registration system that can adapt to technological advances, the Parties recognise the importance of maintaining best practice for the efficient registration and renewal processes for trademarks.

Subsection 3. Geographical Indications

Article 14.26. Scope

1. This Sub-Section applies to the recognition and protection of geographical indications for wines, spirits and other alcoholic beverages (1) as well as agricultural products (2) which originate in the Parties.
2. For the purposes of this Chapter, "geographical indications" means indications which identify a good as originating in the territory of a Party, or a region or locality in that Party's territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin.
3. Geographical indications of a Party listed in Annex 14-B shall be protected by the other Party under this Agreement if they fall within the types of goods that the other Party protects in accordance with its laws and regulations as listed in Annex 14-A.

(1) For the purposes of this Sub-Section, with respect to the protection of geographical indications in Japan, "alcoholic beverages" means beverages containing one per cent of alcohol or more.

(2) For the purposes of this Sub-Section, with respect to the protection of geographical indications in Japan, "agricultural products" means agricultural, forestry and fishery products as well as foodstuffs excluding alcoholic beverages.

Article 14.27. System of Protection of Geographical Indications

1. Each Party shall establish or maintain a system for the registration (1) and protection of geographical indications in its territory.
2. The system referred to in paragraph 1 shall contain at least the following elements:
 - (a) an official means to make available to the public the list of registered geographical indications;
 - (b) an administrative process to verify that a geographical indication to be registered as referred to in subparagraph (a) identifies a good as originating in the territory of a Party, or a region or locality in that Party's territory, where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin;
 - (c) an opposition procedure that allows the legitimate interests of third parties to be taken into account; and
 - (d) a procedure for the cancellation² of the protection of a geographical indication, taking into account the legitimate interests of third parties and the users of the registered geographical indications in question (3)

(1) For the purposes of this Sub-Section, with respect to the protection of geographical indications in Japan, "registration" and "register" respectively may be deemed to be synonymous with "designation" or "confirmation of protection" and "designate" or "confirm protection" under its relevant laws and regulations.

(2) For the purposes of this Sub-Section, with respect to the protection of geographical indications in Japan, "cancellation" may be deemed to be synonymous with "exemption from protection" under its relevant laws and regulations.

(3) Without prejudice to its laws and regulations on the system referred to in paragraph 1, each Party shall provide for legal means for the invalidation of the registration of geographical indications.

Article 14.28. Lists of Geographical Indications

1. Following the completion of an opposition procedure and an examination of the geographical indications of the United Kingdom listed in Section A of Part 1 and Section A of Part 2 of Annex 14-B, Japan shall recognise that those indications are geographical indications within the meaning of paragraph 1 of Article 22 of the TRIPS Agreement and that they have been registered by the United Kingdom under the system referred to in Article 14.27. Japan shall protect those geographical indications in accordance with this Sub-Section.

2. Following the completion of an opposition procedure and an examination of the geographical indications of Japan listed in Section B of Part 1 and Section B of Part 2 of Annex 14-B, the United Kingdom shall recognise that those indications are geographical indications within the meaning of paragraph 1 of Article 22 of the TRIPS Agreement and that they have been registered by Japan under the system referred to in Article 14.27. The United Kingdom shall protect those geographical indications in accordance with this Sub-Section.

Article 14.29. Scope of Protection of Geographical Indications

1. Subject to Article 14.33 each Party shall, in respect of geographical indications of the other Party listed in Annex 14-B, provide the legal means for interested parties to prevent in its territory: (1)

(1) For the purposes of this paragraph, and notwithstanding Sub-Section 2 of Section C, each Party may provide for enforcement by administrative action.

(a) the use of a geographical indication identifying a good for a like good (1) not meeting the applicable requirement of specifications of the geographical indication even if:

(i) the true origin of the good is indicated;

(ii) the geographical indication is used (2) in translation or transliteration (3); or

(iii) the geographical indication is accompanied by expressions such as "kind", "type", "style", "imitation", or the like;

(1) For the purposes of this paragraph, paragraph 4 of Article 14.31 and paragraphs 1 and 2 of Article 14.33, "like good", in relation to a good for which a geographical indication has been protected in a Party's system as referred to in paragraph 2 of Article 14.27, means a good that would fall within the same category of good as the good for which a geographical indication has been registered in that Party.

(2) For greater certainty, it is understood that this is assessed on a case-by-case basis. This provision does not apply where evidence is provided that there is no link between the protected name and the translated or transliterated term.

(3) For the purposes of this Sub-Section, transliteration covers the conversion of characters following the phonetics of the original language or languages of the relevant geographical indication.

(b) the use of any means in the designation or presentation of a good that indicates or suggests that the good in question originates in a geographical area other than the true place of origin in a manner which misleads the public as to the geographical origin or nature of the good; and

(c) any other use which constitutes an act of unfair competition within the meaning of Article 10bis bis of the Paris Convention.

2. Each Party may determine the practical conditions under which the homonymous geographical indications will be differentiated from each other in its territory, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled.

3. If a Party intends to protect, pursuant to an international agreement, a geographical indication of a third country which is homonymous with a geographical indication of the other Party which is protected under this Agreement, the former Party shall inform no later than on the date of the publication for opposition, the other Party of the opportunity to comment, provided that such opposition procedure for the relevant geographical indication of the third country to be protected commences after the date of entry into force of this Agreement.

4. In the opposition procedure and examination referred to in Article 14.28, each Party may consider the following grounds

on which that Party shall not be required to protect a name as a geographical indication in Annex 14-B:

(a) that name conflicts with the name of a plant variety or an animal breed and as a result is likely to mislead the consumer as to the true origin of the good; and

(b) that name is the term customary in common language as the common name for the good concerned.

Article 14.30. Scope of the Use of Geographical Indications

1. Any person may use any geographical indication protected under this Sub-Section provided that such use is related to the goods as identified by that geographical indication and in compliance with the scope of protection under this Agreement.

2. Once a geographical indication of a Party is protected under this Agreement in the other Party, the legitimate use of such protected name shall not be subject to any user registration or further charges in the other Party.

Article 14.31. Relationship with Trademarks

1. If a geographical indication is protected under this Sub-Section, each Party shall refuse to register a trademark the use of which would be likely to mislead as to the quality of the good, provided that an application to register the trademark is submitted after the applicable date for protection of the geographical indication in the territory concerned (1) as referred to in paragraphs 2 and 3. Trademarks registered in breach of this paragraph shall be invalidated.

2. For geographical indications referred to in Article 14.28 and listed in Annex 14-B on the date of entry into force of this Agreement, the applicable date for protection shall be the date of entry into force of this Agreement.

3. For geographical indications referred to in Article 14.34 and not listed in Annex 14-B on the date of entry into force of this Agreement, the applicable date for protection shall be the date on which the amendment to Annex 14-B enters into force.

4. The Parties acknowledge that the existence of a prior conflicting trademark in a Party would not completely preclude the protection under this Agreement of a subsequent geographical indication for like goods in that Party. (2)

5. If a trademark has been applied for or registered in good faith, or if rights to a trademark have been acquired through use in good faith, in a Party, before a geographical indication is protected under this Agreement in that Party, measures adopted to implement this Sub-Section shall not prejudice the eligibility for or the validity of the registration of the trademark, or the right to use the trademark, on the basis that such a trademark is identical with, or similar to, the geographical indication.

(1) For the purposes of paragraph 1, the examination of the trademark application which is filed in a Party after 1 February 2019 or the date of publication for opposition of a geographical indication referred to in Article 14.28, whichever is later, shall take into account the publication for opposition of the geographical indication.

(2) The competent authorities may require certain conditions for the protection of a geographical indication which conflicts with a prior existing trademark.

Article 14.32. Enforcement of Protection

Each Party shall authorise its competent authorities to take appropriate measures ex officio or on request of an interested party in accordance with its laws and regulations to protect geographical indications listed in Annex 14-B.

Article 14.33. Exceptions

1. Notwithstanding paragraph 1 of Article 14.29, a Party shall prevent the continuation of a prior use in its territory, in connection with goods or services, of a particular geographical indication of the other Party listed in Annex 14-B, identifying an agricultural product for a like good, after a transitional period of a maximum of seven years from the date of the protection by the former Party of the said geographical indication. Goods produced in the former Party and concerned by such uses shall bear clear and visible indication of the true geographical origin.

2. Notwithstanding paragraph 1 of Article 14.29, except when paragraph 4 of Article 24 of the TRIPS Agreement is applicable, a Party shall prevent the continuation of a prior use in its territory, in connection with goods or services, of a particular geographical indication of the other Party listed in Annex 14-B, identifying wine, spirit or other alcoholic beverage for a like

good, after a transitional period of a maximum of five years from the date of the protection by the former Party of the said geographical indication (1). Goods produced in the former Party and concerned by such uses shall bear clear and visible indication of the true geographical origin.

3. Each Party may determine the practical conditions under which such use referred to in paragraphs 1 and 2 will be differentiated from the geographical indication in its territory, taking into account the need to ensure that consumers are not misled.

4. The transitional period referred to in paragraph 1 shall not apply if the use of the geographical indication for the good concerned which is produced in the territory of the other Party as referred to in paragraph 1 does not comply with the relevant laws and regulations as listed in Annex 14-A applicable in the territory of that Party.

5. Nothing in this Sub-Section shall prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead the public.

(1) Notwithstanding this paragraph, for geographical indications listed in Annex 14-B as of the date of entry into force of this Agreement identifying wine, spirits or other alcoholic beverages, the transitional period shall be a maximum of three years from the date of entry into force of this Agreement.

Article 14.34. Amendment of the Lists of Geographical Indications

1. The Parties agree on the possibility to amend the lists of geographical indications in Annex 14-B in accordance with paragraphs 3 and 4 of Article 14.61 after having completed the opposition procedure and after having examined the geographical indications as referred to in Article 14.28 to the satisfaction of both Parties.

2. Paragraph 4 of Article 14.29 applies as regards the addition of a name to be protected as a geographical indication in Annex 14-B.

3. Nothing in this Sub-Section shall oblige a Party to protect a geographical indication of the other Party which is not or ceases to be protected in accordance with the laws and regulations of the other Party. Each Party shall notify the other Party if a geographical indication ceases to be protected in the territory of the Party of origin.

4. On request of a Party, the Parties shall hold consultations for the amendment of Annex 14-B as regards any matter affecting the continuation of the protection of the geographical indications listed in that Annex with a view to reaching a mutually acceptable solution.

5. The Parties shall, as soon as practically possible after the entry into force of this Agreement, enter into consultations with a view to adding to the lists of geographical indications in Annex 14-B, existing geographical indications identifying a good as originating in the territory of a Party and protected in such territory in accordance with its laws and regulations, which are not yet listed in that Annex. Each Party shall provide to the other Party the list of geographical indications it seeks to add to Annex 14-B for protection in the territory of the other Party, as well as their specifications, and the transcriptions into Japanese (for geographical indications of the United Kingdom) or the Latin alphabet (for geographical indications of Japan) for both the geographical indications and their specifications. As soon as practically possible after receipt of such information and in accordance with its laws and regulations, each Party shall conduct an examination and opposition procedure for those geographical indications. As soon as practically possible after the completion of the examination and opposition procedure, the Committee on Intellectual Property shall make recommendations to the Joint Committee on amendments to Annex 14-B to add the names that are eligible for protection as geographical indications, in accordance with paragraph 3 of Article 14.61.

Subsection 4. Industrial Designs (1)

(1) For the purposes of this Sub-Section, for the United Kingdom, "industrial designs" refers to registered designs.

Article 14.35. Industrial Designs

1. Each Party shall provide for the protection of independently created industrial designs that are new and original (2), including designs of a part of a product (3), regardless of whether or not the part can be separated from the product. This protection shall be provided by registration and shall confer an exclusive right upon their holders in accordance with the provisions of this Article.

2. A design applied to or incorporated in a product which constitutes a component part of a complex product shall be considered to be new and original in the following circumstances (4):

(a) if the component part, once it has been incorporated into the complex product, remains visible during normal use (5) of the latter; and

(b) to the extent that those visible features of the component part fulfil in themselves the requirements as to novelty and originality.

3. Each Party may provide limited exceptions to the protection of industrial designs in a manner consistent with paragraph 2 of Article 26 of the TRIPS Agreement.

4. The provisions of this Article shall be without prejudice to any provisions of this Chapter or of the laws and regulations of each Party relating to other intellectual property including unregistered appearances of products, copyright, trademarks or other distinctive signs and patents.

5. Each Party shall ensure that an owner of a protected industrial design has at least the right to prevent third parties not having the owner's consent from making, offering for sale, selling, importing or exporting articles bearing or embodying a design which is identical or similar to the protected design, when such act is undertaken for commercial purposes.

6. Each Party shall provide that an applicant for an industrial design registration may request the competent authority to maintain the design unpublished for a period designated by the applicant not exceeding the period provided for in its laws and regulations.

7. Each Party shall ensure that the total term of protection available for industrial designs does not end before the expiration of a period of 25 years from the date on which the application was made or is treated as having been made.

(2) For the purposes of this Article, a Party may consider, in accordance with its laws and regulations, that a design "having individual character" is original.

(3) For the purposes of this paragraph and paragraph 2, for Japan, "product" shall be interpreted as "article".

(4) As an alternative to the circumstances provided for in subparagraphs (a) and (b), a Party may consider a design applied to or incorporated in a product which constitutes a component part of a complex product to be new and original in circumstances in accordance with its laws and regulations.

(5) For the purposes of this paragraph, "normal use" shall mean use by the end user, excluding maintenance, servicing or repair work.

Article 14.36. Multiple Design Applications (1)

Each Party shall provide a system for the registration of industrial designs which allows for two or more designs to be registered through the filing of one application.

(1) The Parties understand that Japan shall implement the obligations referred to in this Article only after the relevant laws and regulations of Japan have come into force and, in any event, within six months of the date of entry into force of this Agreement.

Subsection 5. Unregistered Appearance of Products

Article 14.37. Unregistered Appearance of Products

1. The Parties recognise that the appearance of products may be protected through industrial designs, copyright or unfair competition prevention legislation.

2. Each Party shall provide legal means to prevent the use of the unregistered appearance of a product, if such use results from copying the unregistered appearance of the product to the extent provided by its laws and regulations. Such use shall at least cover offering for sale, putting on the market, importing or exporting the product. (1)

3. The duration of protection available for the unregistered appearance of a product shall amount to at least three years according to the respective laws and regulations of the Parties.

(1) For the purposes of this Article, "copying", "appearances", "offering", and "putting on the market" may be deemed by a Party to be synonymous with "imitating", "configuration", "displaying" and "selling", respectively.

Subsection 6. Patents

Article 14.38. Patents

1. Each Party shall ensure that a patent confers on its owner exclusive rights:

(a) where the subject matter of a patent is a product, to prevent third parties not having the owner's consent from making, using, offering for sale, selling, importing for these purposes or exporting (1) that product; and

(b) where the subject matter of a patent is a process, to prevent third parties not having the owner's consent from using the process, and from using, offering for sale, selling, importing for these purposes or exporting at least the product obtained directly by that process.

(1) For the purposes of this paragraph, a Party may interpret "exporting" to fall within the scope of "offering for sale" and fulfil its obligation relating to "exporting" by complying with its obligation relating to "offering for sale".

2. Each Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

3. The Parties recognise the importance of providing a unitary patent protection system including a unitary judicial system in their respective territories.

4. The Parties shall continue to cooperate to enhance international substantive patent law harmonisation, inter alia on grace period, prior user rights and publication of pending patent applications.

5. The Parties shall give due consideration to the cooperation for enhancing mutual utilisation of search and examination results, such as that based upon the Patent Cooperation Treaty and any other utilisation (1), so as to allow applicants to obtain patents in an efficient and expeditious manner, without prejudice to their respective substantive patent examination.

(1) Such utilisation may include that based upon the Patent Prosecution Highway.

Article 14.39. Patents and Public Health

1. The Parties recognise the importance of the Doha Declaration on the TRIPS Agreement and Public Health, adopted at Doha on 14 November 2001 by the WTO Ministerial Conference. In interpreting and implementing the rights and obligations under this Chapter, the Parties shall ensure consistency with that Declaration.

2. Each Party shall respect Article 31bis of the TRIPS Agreement, as well as the Annex and Appendix to the Annex related thereto, which entered into force on 23 January 2017.

Article 14.40. Extension of the Period of Protection Conferred by a Patent on Pharmaceutical Products and Agricultural Chemical Products (1) (2)

With respect to the patents which are granted for inventions related to pharmaceutical products or agricultural chemical products, each Party shall, subject to the terms and conditions of its applicable laws and regulations, provide for a compensatory term of protection for a period during which a patented invention cannot be worked due to marketing approval process. As of the date of signing of this Agreement, the maximum compensatory term is stipulated as being five years (3) by the relevant laws and regulations of each Party.

(1) For the United Kingdom, "pharmaceutical products" refers in this Article to medicinal products as defined in Regulation (EC) No 469/2009 of the European Parliament and of the Council of 6 May 2009 concerning the supplementary protection certificate for medicinal products.

(2) For the United Kingdom, "agricultural chemical products" refers in this Article to plant protection products as defined in Regulation (EC) No 1610/96 of the European Parliament and of the Council of 23 July 1996 concerning the creation of a supplementary protection certificate for plant protection products.

(3) For the United Kingdom, a further six months extension is possible in the case of medicinal products for which paediatric studies have been carried out, and the results of those studies are reflected in the product information.

Subsection 7. Trade Secrets and Undisclosed Test or other Data

Article 14.41. Scope of Protection of Trade Secrets

1. Each Party shall ensure in its laws and regulations adequate and effective protection of trade secrets in accordance with paragraph 2 of Article 39 of the TRIPS Agreement.

2. For the purposes of this Article and Sub-Section 3 of Section C:

(a) "trade secret" means information that:

(i) is secret in the sense that it is not, as a body or in the precise configuration and assembly of its components, generally known among or readily accessible to persons within the circles that normally deal with the kind of information in question;

(ii) has commercial value because it is secret; and

(iii) has been subject to reasonable steps under the circumstances, by the person lawfully in control of the information, to keep it secret; and

(b) "trade secret holder" means any person lawfully in control of a trade secret.

3. For the purposes of this Article and Sub-Section 3 of Section C, each Party shall provide, in accordance with its laws and regulations, that at least the following conduct shall be considered contrary to honest commercial practices:

(a) the acquisition of a trade secret without the consent of the trade secret holder, whenever carried out by wrongful means, or, alternatively, unauthorised access to, appropriation of, or copying of any documents, objects, materials, substances or electronic files, lawfully under the control of the trade secret holder, containing the trade secret or from which the trade secret can be deduced;

(b) the use or disclosure of a trade secret whenever carried out, without the consent of the trade secret holder, by a person who is found to meet any of the following conditions:

(i) having acquired the trade secret in a manner referred to in subparagraph (a);

(ii) being in breach of a confidentiality agreement or any other duty not to disclose the trade secret, with an intention to gain unfair profit or to cause damage to the trade secret holder; or

(iii) being in breach of a contractual or any other duty to limit the use of the trade secret, with an intention to gain unfair profit or to cause damage to the trade secret holder; and

(c) the acquisition, use or disclosure of a trade secret whenever carried out by a person who, at the time of the acquisition, use or disclosure, knew or ought, under the circumstances, to have known (1) that the trade secret had been obtained directly or indirectly from another person who was disclosing the trade secret in a manner referred to in subparagraph (b), including when a person induced another person to carry out the actions referred to in subparagraph (b).

4. Nothing in this Sub-Section shall require a Party to consider any of the following conduct as contrary to honest commercial practices or subject those conducts to the measures, procedures, and remedies referred to in Sub-Section 3 of Section C:

(a) independent discovery or creation by a person of the relevant information;

(b) reverse engineering of a product by a person who is lawfully in possession of it and who is free from any legally valid duty to limit the acquisition of the relevant information;

- (c) acquisition, use or disclosure of information required or allowed by its relevant laws and regulations;
- (d) use by employees of their experience and skills honestly acquired in the normal course of their employment; or
- (e) disclosure of information in the exercise of the right to freedom of expression and information.

(1) For the purposes of this Article, a Party may interpret "ought to have known" as "was grossly negligent in failing to know".

Article 14.42. Treatment of Test Data In Marketing Approval Procedure

1. Each Party shall, in accordance with its relevant laws and regulations, prevent applicants for marketing approval for pharmaceutical products (1) which utilise new active pharmaceutical ingredients from relying on or referring to undisclosed test or other data submitted to its competent authority by the first applicant for a certain period of time counted from the date of approval of that application. As of the date of entry into force of this Agreement, such period of time is stipulated as being no less than six years by the relevant laws and regulations of each Party.

2. If a Party requires as a condition for approving the marketing of agricultural chemical products (2) which utilise new chemical entities, the submission of undisclosed test or other data, the origination of which involves a considerable effort, that Party shall ensure that, in accordance with its relevant laws and regulations, applicants for marketing approval are either:

- (a) prevented from relying on or referring to such data submitted to its competent authority by the first applicant for a period of at least 10 years counted from the date of approval of that application; or
- (b) generally required to submit a full set of test data, even in cases where there was a prior application for the same product, for a period of at least 10 years, counted from the date of approval of a prior application.

The measures, procedures and remedies shall be fair and equitable, and shall not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays.

2. The measures, procedures and remedies referred to in paragraph 1 shall be effective, proportionate and dissuasive (2) and shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse. 3. Each Party shall make all reasonable efforts to:

(a) encourage the establishment of public or private advisory groups to address issues of at least counterfeiting and piracy; and

(b) ensure internal coordination among, and facilitate joint actions by, its competent authorities concerned with enforcement of intellectual property rights, subject to their available resources.

(1) Without prejudice to the civil and administrative measures, procedures and remedies laid down in this Chapter, a Party may provide for other appropriate sanctions in cases where intellectual property rights have been infringed.

(2) For the purposes of this Article, "dissuasive" may be deemed by a Party to be synonymous with "deterrent" under Article 41 of the TRIPS Agreement.

Article 14.46. Entitled Applicants

Each Party shall recognise as persons entitled to seek application of the measures, procedures and remedies referred to in this Section:

(a) the holders of intellectual property rights in accordance with its laws and regulations;

Article 14.47. Measures for Preserving Evidence

1. The judicial authorities of each Party shall have the authority to order prompt and effective provisional measures to preserve relevant evidence in regard to the alleged infringement, in accordance with procedures which ensure the protection of confidential information as appropriate.
2. The judicial authorities of each Party shall have the authority to adopt provisional measures *inaudita altera parte* where appropriate, in particular if any delay is likely to cause irreparable harm to the right holder or if there is a demonstrable risk of evidence being destroyed.
3. In cases of intellectual property rights infringements, each Party shall provide that in civil judicial proceedings its judicial authorities have the authority to order the seizure or other taking into custody of suspect goods, materials and implements relevant to the act of infringement and of documentary evidence, either originals or copies thereof, relevant to the act of infringement.

Article 14.48. Right of Information

Without prejudice to its law governing privilege, the protection of confidentiality of information sources or the processing of personal data, each Party shall provide that in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities have the authority, upon a justified request of the right holder, to order the infringer or the alleged infringer to provide the right holder or the judicial authorities, at least for the purpose of collecting evidence with relevant information as provided for in its applicable laws and regulations that the infringer or alleged infringer possesses or controls. Such information may include information regarding any person involved in any aspect of the infringement or alleged infringement and regarding the means of production or the channels of distribution of the infringing or allegedly infringing goods or services, including the identification of third persons allegedly involved in the production and distribution of such goods or services and of their channels of distribution.

Article 14.49. Provisional and Precautionary Measures

1. Each Party shall ensure that its judicial authorities may, on request of the applicant, issue against the alleged infringer an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, or to forbid, on a provisional basis and subject, where appropriate, to a recurring penalty payment where provided for by its laws and regulations, the continuation of the alleged infringements of that right, or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder. An interlocutory injunction may also be issued, under the same conditions where appropriate, against a third party (1) over whom the relevant judicial authority exercises jurisdiction and whose services are used to infringe an intellectual property right.

(1) For the purposes of this Article, a Party may provide that a "third party" includes an intermediary.

2. An interlocutory injunction may also be issued to order the seizure or delivery up of goods suspected of infringing an intellectual property right, so as to prevent their entry into or movement within the channels of commerce.
3. In the case of an alleged infringement committed on a commercial scale, each Party shall ensure that if the applicant demonstrates circumstances likely to endanger the recovery of damages, its judicial authorities may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of the alleged infringer's bank accounts and other assets.

Article 14.50. Corrective Measures

1. Each Party shall ensure that its judicial authorities may order, on request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, at least the definitive removal from the channels of commerce, or the destruction, except in exceptional circumstances, of goods that they have found to be infringing an intellectual property right, without compensation of any sort. If appropriate, the judicial authorities may also order the destruction of materials and implements predominantly used in the creation or manufacture of those goods.
2. The judicial authorities of each Party shall have the authority to order that those measures shall be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.

Article 14.51. Injunctions

Each Party shall ensure that, if a judicial decision finds an infringement of an intellectual property right, its judicial

authorities may issue an injunction aimed at prohibiting the continuation of the infringement against the infringer as well as, where appropriate, against a third party (1) over whom the relevant judicial authority exercises jurisdiction and whose services are used to infringe an intellectual property right.

(1) For the purposes of this Article, a Party may provide that a "third party" includes an intermediary.

Article 14.52. Damages

1. Each Party shall provide that in civil judicial proceedings its judicial authorities have the authority to order an infringer who, knowingly or with reasonable grounds to know, engaged in activities infringing intellectual property rights to pay the right holder damages adequate to compensate for the injury the right holder has suffered as a result of the infringement.
2. In determining the amount of damages for infringements of intellectual property rights, the judicial authorities of each Party may consider, inter alia, any legitimate measure of value that may be submitted by the right holder, which may include lost profits.
3. A Party may provide in its laws and regulations presumptions (2) for determining the amount of damages referred to in paragraph 1.

(2) This may include a presumption that the amount of damage is: (a) at least the amount that the right holder would have been entitled to receive for the exercise of his or her intellectual property rights, which may include reasonable royalty, to compensate a right holder for the unauthorised use of his or her intellectual property; (b) the profits earned by the infringer from the act of infringement; or (c) the quantity of the goods infringing the right holder's intellectual property rights and actually transferred to third persons, multiplied by the amount of profit per unit of goods which would have been sold by the right holder if there had not been the act of infringement.

Article 14.53. Costs

Each Party shall provide that its judicial authorities, where appropriate, have the authority to order, at the conclusion of civil judicial proceedings concerning infringements of intellectual property rights, that the prevailing party be awarded payment by the losing party of court costs or fees and appropriate attorney's fees, or any other expenses as provided for under its laws and regulations.

Article 14.54. Presumption of Authorship or Ownership

1. Each Party shall ensure that it is sufficient for the name of an author of a literary or artistic work to appear on the work in the usual manner in order for that author to be regarded as such, unless there is a proof to the contrary, and consequently to be entitled to institute infringement proceedings.
2. A Party may apply paragraph 1 mutatis mutandis to the holders of rights related to copyright with regard to their protected subject matter.

Article 14.55. Access to Justice

The Parties recognise the importance of ensuring that right holders have access to justice and shall ensure that they have in place an effective judicial system and alternative dispute resolution mechanisms to allow right holders to enforce their rights without unwarranted delay and without unreasonable costs.

Subsection 3. Enforcement of Protection Against Misappropriation of Trade Secrets

Article 14.56. Civil Procedures and Remedies

1. Each Party shall provide for appropriate civil judicial procedures and remedies for a trade secret holder to prevent, and obtain redress for, the acquisition, use or disclosure of a trade secret whenever carried out in a manner contrary to honest commercial practices.
2. Each Party shall provide, in accordance with its laws and regulations, that its judicial authorities have the authority to order that the parties, their lawyers and other persons concerned in the relevant civil judicial proceedings, are not permitted to use or disclose any trade secret or alleged trade secret which the judicial authorities have identified as confidential (1), in

response to a duly reasoned application by an interested party and of which these parties, lawyers and other persons have become aware as a result of their participation in such civil judicial proceedings.

(1) For greater certainty, a Party may provide that its judicial authorities may identify a trade secret as confidential through a protective order.

3. In the relevant civil judicial proceedings each Party shall provide that its judicial authorities have at least the authority to:

(a) order injunctive relief to prevent the acquisition, use or disclosure of the trade secret in a manner contrary to honest commercial practices;

(B) order the person that knew or ought to have known (1) that he, she or it was acquiring, using or disclosing a trade secret in a manner contrary to honest commercial practices to pay the trade secret holder damages appropriate to the actual prejudice suffered as a result of such acquisition, use or disclosure of the trade secret;

(c) take specific measures to preserve the confidentiality of any trade secret or alleged trade secret produced in civil judicial proceedings relating to the alleged acquisition, use and disclosure of a trade secret in a manner contrary to honest commercial practices. Such specific measures may include, in accordance with its laws and regulations, the possibility of restricting access to certain documents in whole or in part; of restricting access to hearings and their corresponding records or transcript; and of making available a non-confidential version of a judicial decision in which the passages containing trade secrets have been removed or redacted; and

(d) impose sanctions on the parties, their lawyers and other persons concerned in the civil judicial proceedings for violation of judicial orders referred to in paragraph 2 concerning the protection of a trade secret or alleged trade secret produced in those proceedings.

4. A Party shall not be required to provide for the civil judicial procedures and remedies referred to in paragraph 1 when conduct contrary to honest commercial practices is carried out, in accordance with its relevant laws and regulations, to reveal misconduct, wrongdoing or illegal activity or to protect a legitimate interest recognised by law.

(1) For the purposes of this Article, a Party may interpret "ought to have known" as "was grossly negligent in failing to know".

Subsection 4. Enforcement - Border Measures

Article 14.57. Enforcement - Border Measures

1. With respect to goods imported or exported (1), each Party shall adopt or maintain procedures under which a right holder may submit applications requesting its customs authority to suspend the release of or detain goods suspected of infringing trademarks, copyright and related rights, geographical indications (2), patents, utility models, industrial designs, and plant variety rights (hereinafter referred to in this Article as "suspect goods") in its customs territory.

(1) For the purposes of this Article, "goods imported or exported" means, for the United Kingdom, goods under customs control, being brought into or taken out from its customs territory or being there in temporary storage, placed under a customs procedure or re-exported.

(2) With respect to geographical indications, Japan may comply with the obligations set out in this Article by providing for administrative measures to prevent the release into its domestic market of suspect goods by its appropriate competent authorities, in accordance with its laws and regulations.

2. Each Party shall have in place electronic systems for the management by its customs authority of the applications referred to in paragraph 1 once they have been granted or recorded.

3. The customs authority of each Party shall decide on granting or recording the applications referred to in paragraph 1 within a reasonable period of time from the submission of the applications.

4. Each Party shall provide for the applications referred to in paragraph 1 to apply to multiple shipments.

5. With respect to goods imported or exported, the customs authority of each Party shall have the authority to act upon its own initiative to suspend the release of or detain suspect goods in the customs territory of that Party. (1)

(1) For the purposes of this paragraph, Japan may provide for penalties to be applied in cases of customs transit or transshipment of infringing goods. For such purposes, (a) "customs transit" means the customs procedure under which goods are transported under customs control from one customs office to another; and (b) "transshipment" means the customs procedure under which goods are transferred under customs control from the importing means of transport to the exporting means of transport within the area of one customs office which is the office of both importation and exportation.

6. Article 4.9 covers detection of suspect goods referred to in this Article.

7. Without prejudice to its laws and regulations relating to the privacy or confidentiality of information, a Party may authorise its customs authority to provide a right holder with information about goods, including a description and the quantities thereof, and if known, the name and address of the consignor, importer, exporter or consignee, and the country of origin of the goods, whose release has been suspended, or which have been detained.

8. A Party may adopt or maintain procedures by which its competent authorities may determine, within a reasonable period after the initiation of the procedures described in paragraphs 1 and 5, whether the suspect goods are infringing. In such case, the competent authorities shall have the authority to order the destruction of goods following a determination that the goods are infringing. A Party may have in place procedures allowing for the destruction of suspect goods without there being any need for the formal determination on the infringement, where the persons concerned agree or do not oppose to destruction.

9. If a Party requests right holders to bear the costs actually incurred for the storage or destruction of the goods whose release has been suspended, or which have been detained in accordance with paragraphs 1 and 5, those costs shall correspond to the services rendered for the storage or destruction of the goods.

10. There shall be no obligations to apply this Article to the import of goods put on the market in another country by or with the consent of the right holder. A Party may exclude from the application of this Article small quantities of goods of a non-commercial nature contained in travellers' personal luggage.

11. Consultations referred to in paragraph 4 of Article 4.3 shall also deal with the border measures by the customs authority of each Party under this Article.

12. The customs authorities of the Parties may cooperate on border measures against infringements of intellectual property covered by this Sub-Section.

13. Without prejudice to the responsibilities of the Committee on Intellectual Property referred to in Article 14.61, the Committee on Rules of Origin and Customs-Related Matters referred to in Article 4.14 may consider the possibility of cooperation on the following:

- (a) exchanging general information regarding seizures of infringing goods or suspect goods; and
- (b) holding a dialogue on specific topics of common interest concerning:
 - (i) general information regarding the use of risk management systems in the detection of suspect goods; and
 - (ii) general information regarding risk analysis in the fight against infringing goods.

Subsection 5. Enforcement - Criminal Remedies

Article 14.58. Criminal Procedures and Penalties

1. Each Party shall provide for criminal procedures and penalties to be applied at least in cases of wilful trademark counterfeiting or copyright or related rights piracy on a commercial scale (1).

(1) For the purposes of this Sub-Section, acts carried out on a commercial scale include at least those carried out as commercial activities for commercial advantage or financial gain.

2. Each Party shall treat wilful importation or exportation of counterfeit trademark goods or pirated copyright goods carried out on a commercial scale as unlawful activities subject to criminal penalties. (2)

(2) The Parties understand that a Party may comply with its obligation under this paragraph by providing that distribution or sale of counterfeit trademark goods or pirated copyright goods carried out on a commercial scale is an unlawful activity subject to criminal penalties.

3. Each Party shall provide for criminal procedures and penalties to be applied in cases of wilful importation (3) and domestic use, in the course of trade and on a commercial scale, of a label or packaging: (4)

(a) to which a trademark has been applied without authorisation that is identical to, or cannot be distinguished from, a trademark registered in its territory; and

(b) that is intended to be used in the course of trade on goods that are identical to goods for which that trademark is registered.

(3) A Party may comply with its obligation relating to importation of labels or packaging through its measures concerning distribution.

(4) A Party may comply with its obligations under this paragraph by providing for criminal procedures and penalties to be applied to attempts to commit a trademark offence.

4. Recognising the need to address the unauthorised copying (1) of a cinematographic work from a performance in a movie theatre that causes significant harm to a right holder in the market for that work, and recognising the need to deter such harm, each Party shall adopt or maintain measures, which shall at a minimum include, but need not be limited to, appropriate criminal procedures and penalties.

(1) For the purposes of this Article, a Party may treat the term "copying" as synonymous with "reproduction".

5. With respect to the offences for which this Article requires a Party to provide for criminal procedures and penalties, each Party shall ensure that criminal liability for aiding and abetting is available under its law.

6. With respect to the offences described in paragraphs 1 to 5, each Party shall provide the following:

(a) Its judicial or other competent authorities have the authority to order the seizure of suspected counterfeit trademark goods or pirated copyright goods, any related materials and implements used in the commission of the alleged offence, documentary evidence relevant to the alleged offence and assets derived from, or obtained through the alleged infringing activity. If a Party requires identification of items subject to seizure as a prerequisite for issuing a judicial order referred to in this subparagraph, that Party shall not require the items to be described in greater detail than necessary to identify them for the purpose of seizure.

(b) The judicial authorities of a Party have the authority in accordance with the laws and regulations of such Party to order the forfeiture of any assets derived from or obtained through the infringing activity.

(c) The judicial authorities of a Party have the authority in accordance with the laws and regulations of such Party to order the forfeiture or destruction of:

(i) all counterfeit trademark goods or pirated copyright goods;

(ii) materials and implements that have been predominantly used in the creation of counterfeit trademark goods or pirated copyright goods; and

(iii) any other labels or packaging to which a counterfeit trademark has been applied and that have been used in the commission of the offence.

In cases in which counterfeit trademark goods and pirated copyright goods are not destroyed, the judicial or other competent authorities shall ensure that, except in exceptional circumstances, those goods are disposed of outside the channels of commerce in such a manner as to avoid causing any harm to the right holder. Each Party shall further provide that forfeiture or destruction under this subparagraph shall occur without compensation of any kind to the defendant.

(d) Its judicial or other competent authorities have the authority to release, or alternatively, provide access to, goods, material, implements and other evidence held by the relevant authority to a right holder for civil (1) infringement proceedings.

(1) A Party may also provide this authority in connection with administrative infringement proceedings.

7. With respect to the offences described in paragraphs 1 to 5, a Party may provide that its judicial authorities have the authority to order the seizure or forfeiture of assets, or alternatively, a fine, the value of which corresponds to the assets derived from, or obtained directly or indirectly through, the infringing activity.

8. Each Party shall adopt such measures as may be necessary, consistent with its legal principles, to establish the liability, which may be criminal, of legal persons for the offences specified in this Article for which the Party provides criminal procedures and penalties. Such liability shall be without prejudice to the criminal liability of the natural persons who have committed the criminal offences.

Subsection 6. Enforcement In the Digital Environment

Article 14.59. Enforcement In the Digital Environment

1. The Parties shall ensure that enforcement procedures, to the extent set forth in Sub-Sections 2 and 5, are available under its law so as to permit effective action against an act of infringement of intellectual property rights which takes place in the digital environment, including expeditious remedies to prevent infringement and remedies which constitute a deterrent to further infringements.

2. Each Party shall take appropriate measures to limit the liability of, or remedies available against, online service providers for intellectual property rights infringement by the users of their online services or facilities, where the online service providers take action to prevent access to the materials infringing intellectual property rights in accordance with the laws and regulations of the Party.

3. Further to paragraph 1, each Party's enforcement procedures shall apply to the infringement of copyright or related rights over digital networks, which may include the unlawful use of means of widespread distribution for infringing purposes, and to the infringement of trademarks, including through electronic commerce platforms and social media. These procedures shall be implemented in a manner that avoids the creation of barriers to legitimate activity, including electronic commerce, and, consistent with that Party's law, preserves fundamental principles such as freedom of expression, fair process and privacy.

4. Each Party shall endeavour to promote cooperative efforts within the business community to effectively address trademark and copyright or related rights infringement while preserving legitimate competition and, consistent with that Party's law, preserving fundamental principles such as freedom of expression, fair process and privacy.

5. A Party may provide, in accordance with its laws and regulations, its competent authorities (1) with the authority to order an online service provider to disclose expeditiously to a right holder information sufficient to identify a subscriber whose account was allegedly used for infringement, where that right holder has filed a legally sufficient claim of trademark or copyright or related rights infringement, and where such information is being sought for the purpose of protecting or enforcing those rights. These procedures shall be implemented in a manner that avoids the creation of barriers to legitimate activity, including electronic commerce, and, consistent with that Party's law, preserves fundamental principles such as freedom of expression, fair process and privacy.

6. The Parties shall, as appropriate, promote the adoption of measures to enhance public awareness of the importance of respecting intellectual property rights and the detrimental effect of intellectual property rights infringement. This may include cooperation with the business community, civil society organisations and right holder representatives.

(1) For the purposes of this Article, "competent authorities" may include the appropriate judicial, administrative or law enforcement authorities under the laws and regulations of a Party.

Chapter 15. CORPORATE GOVERNANCE

Article 15.1. Objectives

1. The Parties acknowledge the importance of an effective corporate governance framework to achieve economic growth through well-functioning markets and sound financial systems based on transparency, efficiency, trust and integrity.
2. Each Party shall take appropriate measures to develop an effective corporate governance framework within its territory, recognising that those measures will attract and encourage investment by enhancing investor confidence and improving competitiveness, thus enabling best advantage to be taken of the opportunities granted by its respective market access commitments.
3. Without limiting the ability of each Party to develop its own legal, institutional and regulatory framework in relation to the corporate governance of publicly listed companies, the Parties commit to respect the principles and adhere to the provisions of this Chapter to the extent that they facilitate access to each other's markets as provided for in this Agreement.
4. The Parties shall cooperate on matters relating to the development of an effective corporate governance framework which fall within the scope of this Chapter.

Article 15.2. Definitions

For the purposes of this Chapter:

- (a) "board" means the governing body of a publicly listed company with a decision-making authority on the oversight of the operations of the company, whose members (directors) are elected, normally by the shareholders of the company, to govern the company;
- (b) "corporate governance" means the set of relationships between a company's management, its board, its shareholders and other stakeholders; it also provides the structure through which a company is managed and controlled, notably by determining how the objectives of the company are set and the means of attaining those objectives, as well as by monitoring performance;

- (d) "publicly listed company" means a legal person whose shares are listed or quoted for public trading on a stock market or regulated market of a Party as defined in the legislation of that Party.

Article 15.3. General Principles

1. The Parties recognise the importance of the role of the corporate governance framework in providing timely and accurate disclosure on all material matters regarding publicly listed companies within their respective jurisdictions, including the financial situation, performance, ownership and governance of those companies.
2. The Parties also recognise the importance of the role of the corporate governance framework in providing appropriate accountability of the management and the board towards the shareholders, responsible board decision-making based on an independent and objective standpoint, and equal treatment of shareholders of the same class.
3. For greater certainty, the provisions of the corporate governance framework of a Party referred to in Articles 15.4 and 15.5 may be implemented either through legally binding mechanisms or through non-binding means such as on a comply or explain basis.
4. A Party may provide that some corporate governance principles or rules do not apply to certain companies in cases justified by objective and non-discriminatory criteria such as early phase of development or size of the company.

Article 15.4. Rights of Shareholders and Ownership Functions

1. The corporate governance framework of each Party shall include provisions aiming at protecting and facilitating the effective exercise of shareholders' rights in publicly listed companies. Those rights include, where applicable, participation and voting in the general meeting as well as election and removal of members of the board in accordance with the corporate governance structure of the company with a view to allowing shareholders to oversee board behaviour (1) and participate in important decision-making of the company.

2. The corporate governance framework of each Party shall include provisions aiming at encouraging disclosure of information regarding the control of a company which can be valuable and useful to investors. That information includes, for instance, the capital structure, with an indication of the different classes of shares where appropriate, direct and indirect shareholdings which are considered to be significant, and special control rights.

(1) For greater certainty, "to oversee board behaviour" does not require the daily oversight of the board's operation by the shareholders.

Article 15.5. Roles of the Board

The corporate governance framework of each Party shall include provisions aiming at the following, so that such framework will promote responsible board decision-making:

(a) the effective monitoring of management by the board from an independent and objective standpoint, which can be achieved, for instance, through the effective use of a sufficient number of independent directors (1);

(b) ensuring board accountability to the shareholders; and

(c) ensuring sufficient disclosure of information relevant to investors, for instance with respect to board composition, board committees and independence of directors.

(1) Each Party may determine in its jurisdiction what constitutes a "sufficient number of independent directors" in either qualitative or quantitative terms.

Article 15.6. Takeovers

Each Party Shall Provide Rules and Procedures Governing Takeovers In Publicly Listed Companies. Such rules and procedures shall aim at enabling those transactions to occur at transparent prices and under fair conditions.

2. The Parties recognise the contribution of this Agreement to the promotion of sustainable development, of which economic development, social development and environmental protection are mutually reinforcing components. The Parties further recognise that the purpose of this Chapter is to strengthen the trade relations and cooperation between the Parties in ways that promote sustainable development, and is not to harmonise the environment or labour standards of the Parties.

Article 16.2. Right to Regulate and Levels of Protection

1. Recognising the right of each Party to determine its sustainable development policies and priorities, to establish its own levels of domestic environmental and labour protection, and to adopt or modify accordingly its relevant laws and regulations, consistently with its commitments to the internationally recognised standards and international agreements to which the Party is party, each Party shall strive to ensure that its laws, regulations and related policies provide high levels of environmental and labour protection and shall strive to continue to improve those laws and regulations and their underlying levels of protection.

2. The Parties shall not encourage trade or investment by relaxing or lowering the level of protection provided by their respective environmental or labour laws and regulations. To that effect, the Parties shall not waive or otherwise derogate from those laws and regulations or fail to effectively enforce them through a sustained or recurring course of action or inaction in a manner affecting trade or investment between the Parties.

3. The Parties shall not use their respective environmental or labour laws and regulations in a manner which would constitute a means of arbitrary or unjustifiable discrimination against the other Party, or a disguised restriction on international trade.

Article 16.3. International Labour Standards and Conventions

1. The Parties recognise full and productive employment and decent work for all as key elements to respond to economic, labour and social challenges. The Parties further recognise the importance of promoting the development of international trade in a way that is conducive to full and productive employment and decent work for all. In that context, the Parties shall exchange views and information on trade-related labour issues of mutual interest in the meetings of the Committee on Trade and Sustainable Development established pursuant to Article 23.3, and as appropriate in other fora.

The Parties further reaffirm their respective commitments with regard to the ILO Declaration on Fundamental Principles and Rights at Work and its Follow-up. Accordingly, the Parties shall respect, promote and realise in their laws, regulations and practices the internationally recognised principles concerning the fundamental rights at work, which are:

(a) the freedom of association and the effective recognition of the right to collective bargaining;

(b) the elimination of all forms of forced or compulsory labour;

(c) the effective abolition of child labour; and

(d) the elimination of discrimination in respect of employment and occupation.

3. Each Party shall make continued and sustained efforts on its own initiative to pursue ratification of the fundamental ILO Conventions and other ILO Conventions which each Party considers appropriate to ratify.

Article 16.4. Multilateral Environmental Agreements

1. The Parties stress the importance of multilateral environmental agreements, in particular those to which both Parties are

party, as a means of multilateral environmental governance for the international community to address global or regional environmental challenges. The Parties shall cooperate to promote the positive contribution of trade to the transition to low greenhouse gas emissions and climate-resilient development. The Parties commit to working together to take actions to address climate change towards achieving the ultimate objective of the UNFCCC and the purpose of the Paris Agreement.

5. Nothing in this Agreement prevents a Party from adopting or maintaining measures to implement the multilateral environmental agreements to which it is party, provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination against the other Party or a disguised restriction on trade.

Article 16.5. Trade and Investment Favouring Sustainable Development

In this regard, the Parties recognise the importance of the relevant internationally recognised principles and guidelines, including the OECD Guidelines for Multinational Enterprises which are part of the OECD Declaration on International Investment and Multinational Enterprises adopted by the OECD on 21 June 1976 and the Tripartite Declaration of Principles concerning Multinational Enterprises and Social Policy adopted by the Governing Body of the International Labour Office in November 1977.

(c) adopt and implement their respective effective tools for combating illegal, unreported and unregulated (hereinafter referred to as "IUU") fishing, including through legal instruments, and, where appropriate, control, monitoring and enforcement, and capacity management measures, recognising that voluntary sharing of information on IUU fishing will enhance the effectiveness of these tools in the fight against IUU fishing, and underlining the crucial role of the members of RFMOs with major fisheries markets to leverage a sustainable use of fisheries resources; and

(d) promote the development of sustainable and responsible aquaculture, taking into account its economic, social and environmental aspects.

(e) The date of establishment of a panel shall be the date on which the chairperson is appointed.

5. The panel of experts shall issue an interim and a final report to the Parties setting out the findings of facts, the interpretation or the applicability of the relevant Articles and the basic rationale behind any findings and suggestions. No later than 45 days after the date of receipt of the interim report, which shall be issued no later than 90 days after the date of establishment of the panel, the Parties may submit written comments on that report. After considering any such written comments, the panel of experts may modify the report and make any further examination it considers appropriate. The final report shall be issued no later than 180 days after the date of establishment of the panel, unless the chairperson of the panel notifies the Parties in writing that the deadline cannot be met. In that case, the final report shall be issued no later than 200 days after the date of establishment of the panel, unless the Parties agree otherwise. The final report shall be made publicly available. The Parties shall ensure the protection of confidential information.

6. The Parties shall discuss actions or measures to resolve the matter in question, taking into account the panel's final report and its suggestions. Each Party shall inform the other Party and its own domestic advisory group or groups of any follow-up actions or measures no later than three months after the date of issuance of the final report. Under no circumstances shall the delay exceed 30 days after the deadline.
2. Each Party may submit to the panel written comments and a written request to review precise aspects of the interim

Article 22.20. Compliance with the Final Report

1. The Party complained against shall take any measure necessary to comply promptly and in good faith with the final report issued pursuant to Article 22.19.

2. The Party complained against shall, no later than 30 days after the date of issuance of the final report, notify the complaining Party of the length of the reasonable period of time for compliance with the final report and the Parties shall endeavour to agree on the reasonable period of time required for compliance. If there is disagreement between the Parties on the length of the reasonable period of time, the complaining Party may, no later than 20 days after the date of receipt of the notification made in accordance with this paragraph by the Party complained against, request in writing the original panel to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the Party complained against. The original panel shall notify its determination to the Parties no later than 30 days after the date of submission of the request.

3. The length of the reasonable period of time for compliance with the final report may be extended by mutual agreement of the Parties.

4. The Party complained against shall inform the complaining Party in writing of its progress to comply with the final report at least one month before the expiry of the reasonable period of time for compliance with the final report unless the Parties agree otherwise.

Article 22.21. Compliance Review

1. The Party complained against shall, no later than the date of expiry of the reasonable period of time for compliance with the final report, notify the complaining Party of any measures taken to comply with the final report.

2. Where there is disagreement on the existence of measures taken to comply with the final report, or their consistency with the covered provisions, the complaining Party may request in writing the original panel to examine the matter. That request shall be notified simultaneously to the Party complained against.

3. The request referred to in paragraph 2 shall provide the factual and legal basis for the complaint, including the specific measures at issue, in such a manner as to clearly present how such measures are inconsistent with the relevant covered

provisions.

4. The panel shall notify its decision to the Parties no later than 90 days after the date of referral of the matter.

Article 22.22. Temporary Remedies In Case of Non-compliance

1. The Party complained against shall, on request of the complaining Party, enter into consultations with a view to agreeing on a mutually satisfactory compensation or any alternative arrangement if:

(a) in accordance with Article 22.21 the original panel finds that the measures taken to comply with the final report as notified by the Party complained against are inconsistent with the relevant covered provisions;

(b) the Party complained against fails to notify any measure taken to comply with the final report before the expiry of the reasonable period of time determined in accordance with paragraph 2 of Article 22.20; or

(c) the Party complained against notifies the complaining Party that it is impracticable to comply with the final report within the reasonable period of time determined in accordance with paragraph 2 of Article 22.20.

2. If the complaining Party decides not to make a request in accordance with paragraph 1 in the case where any of the conditions in subparagraphs 1(a) to (c) are met or if a request is made and no mutually satisfactory compensation nor any alternative arrangement has been agreed within 20 days after the date of receipt of the request made in accordance with paragraph 1, the complaining Party may notify the Party complained against in writing that it intends to suspend the application to the Party complained against of concessions or other obligations under the covered provisions. The notification shall specify the level of intended suspension of concessions or other obligations.

3. The complaining Party shall have the right to implement the suspension of concessions or other obligations referred to in the preceding paragraph 15 days after the date of receipt of the notification by the Party complained against, unless the Party complained against has requested arbitration in accordance with paragraph 6.

4. The suspension of concessions or other obligations:

(a) shall be at a level equivalent to the nullification or impairment that is caused by the failure of the Party complained against to comply with the final report; and

(b) may be applied to sectors that are subject to dispute settlement in accordance with Article 22.2 other than the sector or sectors in which the panel has found nullification or impairment, in particular if the complaining Party is of the view that such suspension is effective in inducing compliance.

5. The suspension of concessions or other obligations or the compensation or any alternative arrangement referred to in this Article shall be temporary and shall only apply until the inconsistency of the measure with the relevant covered provisions which has been found in the final report has been removed, or until the Parties have agreed on a mutually satisfactory compensation or any alternative arrangement.

6. If the Party complained against considers that the suspension of concessions or other obligations does not comply with paragraph 4, that Party may request in writing the original panel to examine the matter no later than 15 days after the date of receipt of the notification referred to in paragraph 2. That request shall be notified simultaneously to the complaining Party. The original panel shall notify to the Parties its decision on the matter no later than 30 days after the date of submission of the request. Article 22.23. Compliance Review after the Adoption of Temporary Remedies

1. Upon the notification by the Party complained against to the complaining Party of the measure taken to comply with the final report:

(a) in a situation where the right to suspend concessions or other obligations has been exercised by the complaining Party in accordance with Article 22.22, the complaining Party shall terminate the suspension of concessions or other obligations no later than 30 days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2; or

(b) in a situation where mutually satisfactory compensation or an alternative arrangement has been agreed, the Party complained against may terminate the application of such compensation or arrangement no later than 30 days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2.

2. If the Parties do not reach an agreement on whether the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions within 30 days after the date of receipt of the notification, the complaining Party shall request in writing the original panel to examine the matter. That request shall be notified simultaneously to the Party complained against. The decision of the panel shall be notified to the Parties no later than 45 days after the date of submission of the request. If the panel decides that the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions, the suspension of concessions or other obligations, or the application of the compensation or alternative arrangement, shall be terminated no later than 15 days after the date of the decision. Where relevant, the level of suspension of concessions or other obligations, or of the compensation or alternative arrangement, shall be adapted in light of the decision of the panel.

Article 22.24. Suspension and Termination of Proceedings

On the joint request of the Parties, the panel shall suspend at any time the proceedings for a period agreed by the Parties not exceeding 12 consecutive months. In the event of such suspension, the relevant time periods shall be extended by the period of time for which the proceedings of the panel were suspended. The panel shall resume the proceedings at any time upon the joint request of the Parties or at the end of the agreed suspension period on the written request of a Party. The request shall be notified to the chairperson of the panel, as well as to the other Party, where applicable. If the proceedings of the panel have been suspended for more than 12 consecutive months, the authority for establishment of the panel shall lapse and the proceedings of the panel shall be terminated. The Parties may agree at any time to terminate the proceedings of the panel. The Parties shall jointly notify such agreement to the chairperson of the panel.

Once a Party has selected the forum and initiated dispute settlement proceedings under this Chapter or under the other international agreement with respect to the particular measure referred to in paragraph 1, that Party shall not initiate dispute settlement proceedings in another forum with respect to that particular measure unless the forum selected first
