Treatment arising from commitments of the Union on the supply of services by contractual services suppliers and independent professionals shall be excluded from this provision. Treatment deriving from agreements concluded by the Union or its Members States providing for mutual recognition in accordance with Article VII of the GATS, shall also be excluded from this provision.

2. From the entry into force of this Agreement, and subject to paragraph 3, the Iraq shall grant to services, service suppliers, establishments and investors of the Union in the services and non-services sector, treatment no less favourable than that granted to like services, services suppliers, establishments and investors 1 of Iraq or to like services, service suppliers, establishments and investors of any third country, whichever is the better.

3. (b) Iraq shall notify such intention to the Commission of the European Union (hereinafter referred to as "the Commission") 1 four months before the intended date of implementation of such conditions. For greater certainty, the notification should be addressed to the Director General of the Directorate General for Trade, or its successor.

Such enquiry points are listed in ANNEX 3. Enquiry points need not be depositories of laws and regulations.

Article 29. Exceptions

1. The provisions of this Section are subject to the exceptions contained in this Article. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on trade in services, nothing in this Section shall be

5. Nothing in this Section applies to activities conducted by a central bank or monetary authority or by any other public entity in pursuit of monetary or exchange rate policies.

6. Nothing in this Section shall be construed to prevent a Party, including its public entities, from exclusively conducting or providing in its territory activities or services for the account or with the guarantee or using the financial resources of the Party, or its public entities.

7. The provisions of this Section shall not prejudice the application by each Party of any measures necessary to prevent the circumvention of its measures concerning third country access to its market, through the provisions of this Agreement.

The sole fact of requiring a visa shall not be regarded as nullifying or impairing those benefits.

Article 30. Security Exceptions

Nothing in this Section shall be construed:

(a) to require any Party to furnish any information, the disclosure of which it considers contrary to its essential security interests; or

(b) to prevent any Party from taking any action which it considers necessary for the protection of its essential security interests:

(i) relating to economic activities carried out directly or indirectly for the purpose of provisioning a military establishment;

(ii) relating to fissionable and fusionable materials or the materials from which they are derived;

domestic goods, services and suppliers.

2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

(a) treat a locally established supplier less favourably than another locally established supplier on the basis of degree of foreign affiliation or ownership; nor

(b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party. 3

3. With respect to any laws, regulations, procedures and practices regarding government procurement, as well as in respect of specific procurements by public authorities at all levels, opened to goods, services and suppliers of third countries, Iraq shall provide to the goods, services and suppliers of the Union treatment no less favourable than that accorded to goods, services and suppliers of any third country.

Use of electronic means

4. When conducting covered procurement by electronic means, a procuring entity shall:

(a) ensure that the procurement is conducted using information technology systems and software, including those related to authentication and encryption of information, that are generally available and interoperable with other generally available information technology systems and software; and

(b) maintain mechanisms that ensure the integrity of requests for participation and tenders, including establishment of the time and receipt and the prevention of inappropriate access.

Conduct of procurement

5. A procuring entity shall conduct covered procurement in a transparent and impartial manner that avoids conflicts of interest and prevents corruptive practices and that is consistent with this Chapter.

Rules of origin

6. For purposes of covered procurement, no Party may apply rules of origin to goods or services imported from or supplied by the other Party that are different from the rules of origin the Party applies at the same time in the normal course of trade to imports or supplies of the same goods or services from the same Party.

Article 44. Publication of Procurement Information

1. Each Party shall:

(a) promptly publish any law, regulation, judicial decision, administrative ruling of general application, standard contract clauses that is mandated by a law or regulation and is incorporated by reference in notices and tender documentation and procedure regarding covered procurement, and any modifications thereof, in officially designated electronic or paper medium that is widely disseminated and remains readily accessible to the public;

(b) provide an explanation thereof to any Party, on request;

(c) list in Appendix II of ANNEX 1 to this Agreement, the electronic or paper media in which the Party publishes the information described in point (a);

(d) list in Appendix III of ANNEX 1 to this Agreement, the electronic media in which the Party publishes the notices required by Articles 45, 47(4) and 55(2). 2

2. Each Party shall promptly notify the other Party of any modification to the Party's information listed in Appendix II or III of ANNEX 1 to this Agreement.

Article 45. Publication of Notices

Notice of Intended Procurement

1. For each covered procurement, except in the circumstances described in Article 52, a procuring entity shall publish a notice of intended procurement in the appropriate media listed in Appendix III of ANNEX 1 to this Agreement. Each such notice shall include the information set out in Appendix IV of ANNEX 1 to this Agreement. These notices shall be accessible by electronic means free of charge through a single point of access.

Summary Notice

2. For each case of intended procurement, a procuring entity shall publish a summary notice that is readily accessible, at the same time as the publication of the notice of intended procurement, in one of the WTO languages. The summary notice shall contain at least the following information:

(a) the subject-matter of the procurement;

(b) the final date for the submission of tenders or, where applicable, any final date for the submission of requests for participation in the procurement or for inclusion on a multi-use list; and

(c) the address from which documents relating to the procurement may be requested.

Notice of Planned Procurement

3. Procuring entities are encouraged to publish as early as possible in each fiscal year a notice regarding their future procurement plans (hereinafter referred to as a "notice of planned procurement"). The notice should include the subject-matter of the procurement and the planned date of the publication of the notice of intended procurement.

4. A procuring entity listed in Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement may use a notice of planned procurement as a notice of intended procurement provided that it includes as much of the information in Appendix IV of ANNEX 1 to this Agreement as is available and a statement that interested suppliers should express their interest in the procurement to the procuring entity.

Article 46. Conditions for Participation

1. A procuring entity shall limit the conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal and financial capacities and the commercial and technical abilities to undertake the relevant procurement.

2. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

(a) shall evaluate the financial, commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity;

(b) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of a given Party or that the supplier has prior work experience in the territory of a given Party; and

(c) may require relevant prior experience where essential to meet the requirements of the procurement.

3. In making this assessment, the procuring entity shall base its evaluation on the conditions that it has specified in advance in notices or tender documentation.

4. A procuring entity must exclude a supplier on grounds such as bankruptcy, false declarations, significant deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts, judgments in respect of serious crimes or other judgments in respect of serious public offences, professional misconduct or failure to pay taxes.

Article 47. Qualification of Suppliers

Selective tendering

1. Where a procuring entity intends to use selective tendering, the entity shall:

(a) include in the notice of intended procurement at least the information specified in Points 1, 2, 6, 7, 10, and 11 of Appendix IV of ANNEX 1 to this Agreement and invite suppliers to submit a request for participation; and

(b) provide by the commencement of the time-period for tendering, at least the information in points 3, 4, 5, 8 and 9 of Appendix IV of ANNEX 1 to this Agreement to the qualified suppliers that it notifies as specified in paragraph 2, point (b) of Appendix VI of ANNEX 1 to this Agreement.

2. A procuring entity shall recognise as qualified suppliers any domestic suppliers and any suppliers of the other Party that meets the conditions for participation in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for

selecting the limited number of suppliers.

3. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 1, a procuring entity shall ensure that those documents are made available at the same time to all qualified suppliers selected in accordance with paragraph 2.

Sub-Annex 2 entities

4. A procuring entity covered under Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement may maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion in the list is published annually, and where published by electronic means, made available continuously in the appropriate medium listed in Appendix III of ANNEX 1 to this Agreement. Such a notice shall include the information set out in Appendix V of ANNEX 1 to this Agreement.

5. Notwithstanding paragraph 4, where a multi-use list will be valid for three years or less, a procuring entity covered under Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement may publish a notice referred to in that paragraph only once, at the beginning of the period of validity of the list, provided that the notice states the period of validity and that further notices will not be published.

6. A procuring entity covered under Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonable short time.

A procuring entity covered under Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement may use a notice inviting suppliers to apply for inclusion in a multi-use list as a notice of intended procurement, provided that:

(a) the notice is published in accordance with paragraph 4 and includes the information required by Appendix V of ANNEX 1 to this Agreement and as much of the information required by Appendix IV of ANNEX 1 to this Agreement as is available and contains a statement that it constitutes a notice of intended procurement;

(b) the entity promptly provides to suppliers that have expressed an interest to the entity in a given procurement, sufficient information to permit them to assess their interest in the procurement, including all remaining information required by Appendix IV of ANNEX 1 to this Agreement, to the extent that such information is available.

7. A procuring entity covered under Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 6 to tender in a given procurement, where there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

8. A procuring entity covered under Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement shall promptly inform any supplier that submits a request for participation or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request.

9. Where a procuring entity covered under Sub-Annex 2 of Appendix I of ANNEX 1 to this Agreement rejects a supplier's request to qualify or application for inclusion on a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

Article 48. Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to international trade.

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

(a) set out the technical specifications in terms of performance and functional requirements, rather than design or descriptive characteristics; and

(b) base the technical specifications on international or European standards, where these exist; otherwise, on national technical regulations, recognised national standards or building codes.

3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity shall indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including such words as "or equivalent" in the tender documentation.

4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade

name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation of adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

6. Each Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

Article 49. Tender Documentation

1. A procuring entity shall provide to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of the issues set out in Appendix VIII of ANNEX 1 to this Agreement.

2. A procuring entity shall promptly provide, on request, the tender documentation to any supplier participating in the procurement and shall reply to any reasonable request for relevant information by a supplier participating in the procurement, provided that such information does not give that supplier an advantage over its competitors in the procurement.

3. Where, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

(a) to all suppliers that are participating at the time the information is amended, if known, and in all other cases, in the same manner as the original information; and

(b) in adequate time to allow such suppliers to modify and re-submit amended tenders, as appropriate.

Article 50. Time Periods

A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account such factors as the nature and complexity of the procurement, the extent of subcontracting anticipated, and the time for transmitting tenders from foreign as well as domestic points where electronic means are not used. Such time-periods, including any extension of the time-periods, shall be the same for all interested or participating suppliers. The applicable time periods are set out in Appendix VI of ANNEX 1 to this Agreement.

Article 51. Negotiations

1. A Party may provide for its procuring entities to conduct negotiations:

(a) in the context of procurements in which they have indicated such intent in the notice of intended procurement; or

(b) where it appears from the evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notices or tender documentation.

2. A procuring entity shall:

(a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notices or tender documentation; and

(b) where negotiations are concluded, provide a common deadline for the remaining suppliers to submit any new or revised tenders.

Article 52. Limited Tendering

A procuring entity may use limited tendering and may choose not to apply Articles 45 to 47, 49 to 51, 53 and 54 only under the following conditions:

(a) where

(i) no tenders were submitted, or no suppliers requested participation;

(ii) no tenders that conform to the essential requirements of the tender documentation were submitted;

(iii) no suppliers satisfied the conditions for participation; or

(iv) the tenders submitted have been collusive, provided that the requirements of the tender documentation are not substantially modified;

(b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist because the requirement is a work of art; due to the protection of patents, copyrights or other exclusive rights; or due to the absence of competition for technical reasons;

(c) for additional deliveries by the original supplier of goods and services that were not included in the initial procurement where a change of supplier for such additional goods or services:

(i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and

(ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;

(d) in so far as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;

(e) for goods purchased on a commodity market;

(f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development;

(g) for purchases made under exceptionally advantageous conditions which only arise in the very short term in the case of unusual disposals such as arising from liquidation, receivership or bankruptcy and not for routine purchases from regular suppliers; and

(h) where a contract is awarded to a winner of a design contest provided that the contest has been organised in a manner that is consistent with the principles of this Chapter, and the participants are judged by an independent jury with a view to a design contract being awarded to a winner.

Article 53. Electronic Auctions

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

(a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;

(b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender and

(c) any other relevant information relating to the conduct of the auction.

Article 54. Treatment of Tenders and Award of Contracts

7. A procuring entity shall not use options, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations under this Agreement.

Article 55. Transparency of Procurement Information

1. A procuring entity shall promptly inform participating suppliers of the entity's contract award decisions and, on request, shall do so in writing. Subject to paragraphs 2 and 3 of Article 56, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

2. Not later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Appendix III. Where only an electronic medium is used, the information shall remain readily available for a reasonable period of time. The notice shall include at least the information set out in Appendix VII of ANNEX 1 to this Agreement.

Article 56. Disclosure of Information

1. On request of the other Party, the Party shall provide promptly any information necessary to determine whether the procurement was conducted fairly, impartially and in accordance with the Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of this information would prejudice competition in future tenders, the Party that receives that information shall not disclose it to any supplier, except after consultation with, and agreement of, the Party that provided the information.

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any supplier information that might prejudice fair competition between suppliers.

3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure would impede law enforcement; might prejudice fair competition between suppliers; would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or would otherwise be contrary to the public interest.

Article 57. Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:

(a) a breach of this Chapter; or

(b) where the supplier does not have a right to challenge directly a breach of the Chapter under the domestic law of the Party, a failure to comply with a Party's measures implementing this Chapter, arising in the context of a covered procurement, in which the supplier has, or has had, an interest. The procedural rules for all challenges shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or has had, an interest, that there has been a breach or a failure as set out in paragraph 1, the Party concerned shall encourage its procuring entity and the supplier to seek resolution of the complaint through consultation. The procuring entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or right to seek corrective measures under the administrative or judicial review procedure.

3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case be less than ten days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

4. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of a covered procurement.

5. Where a body other than an authority referred to in paragraph 4 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge. A review body that is not a court shall either be subject to judicial review or have procedural guarantees that provide for:

(a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;

(b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;

(c) the participants shall have the right to be represented and accompanied;

(d) the participants shall have access to all proceedings;

(e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be present; and

(f) decisions or recommendations relating to challenges by suppliers shall be provided, in a timely fashion, in writing, with an explanation of the basis for each decision or recommendation.

6. Each Party shall adopt or maintain procedures that provide for:

(a) prompt interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process.

The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. The case for not acting shall be provided in writing; and

(b) where a review body had determined that there has been a breach or a failure as set out in paragraph 1, corrective action or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

Article 58. Further Negotiations

1. The Parties will review annually the effective operation of this Chapter and the mutual opening of procurement markets. In no later than one year from the entry into force of this Agreement the Parties will enter into negotiations for the extension of the list(s) of covered entities in Sub-Annex 1 and Sub-Annex 2 of Appendix 1 of ANNEX 1 to this Agreement.

2. Iraq will in the context of the WTO accession negotiations acknowledge its commitment for accession to the plurilateral Agreement on Government Procurement (hereinafter referred to as the "GPA").

Article 59. Asymmetrical Regime and Transitional Measures

Taking into account the development, financial and trade needs, Iraq will benefit from the following transitional measure:

(a) Iraq may provide for a temporary price preference programme consisting of a price differential of 5 % for goods and services and 10 % for works, applicable to supplies and services from purely Iraqis suppliers.

(b) The price preference programme will be phased-out within ten years from the entry into force of this Agreement.

Chapter III. Intellectual Property Protection

Article 60. Nature and Scope of Obligations

1. Pursuant to the provisions of this Article and of ANNEX 2 to this Agreement, Iraq shall adopt, within five years of the entry into force of the Agreement, legislation in order to ensure adequate and effective protection of intellectual, industrial and commercial property rights according to the highest international standards including the rules set by the Agreement on Trade-Related Aspects of Intellectual Property Rights, contained in Annex 1C to the WTO Agreement (hereinafter referred to as the "TRIPS Agreement"), as well as effective means of enforcing such rights.

2. Within three years of the entry into force of the Agreement, Iraq shall accede to the multilateral conventions on intellectual, industrial and commercial property rights referred to in paragraph 2 of ANNEX 2 to this Agreement to which Member States are parties or which are de facto applied by Member States according to the relevant provisions contained in these conventions.

For the purpose of this Agreement, intellectual property rights includes copyright, including copyright in computer programs and in databases, sui generis rights for non original databases, and rights related to copyright, rights related to patents, trademarks, trade names in so far as these are protected as exclusive property rights in the domestic law concerned, designs, layout-designs (topographies) of integrated circuits, geographical indications, including designations of origin, indications of source, plant varieties, protection of undisclosed information and the protection against unfair competition as referred to in Article 10bis of the Paris Convention for the Protection of Industrial Property (Stockholm Act 1967).

3. Within three years of the entry into force of the Agreement, Iraq shall comply with the multilateral conventions on intellectual, industrial and commercial property rights referred to in paragraph 3 of ANNEX 2 to this Agreement to which one or several Member States are parties or which are de facto applied by one or several Member States according to the relevant provisions contained in these conventions.

4. The implementation of this Article and of ANNEX 2 to this Agreement shall be regularly reviewed by the Parties. In

preparing its legislation or if problems in the area of intellectual, industrial and commercial property affecting trading conditions were to occur, urgent consultations will be undertaken, at the request of either Party, with a view to reaching mutually satisfactory solutions.
