Part I. Trade Partnership for Sustainable Development

Chapter 1. General Provisions

Article 1. Objectives

The objectives of this Agreement are to:

- (a) contribute to the reduction and eventual eradication of poverty through the establishment of a trade partnership consistent with the objective of sustainable development, the Millennium Development Goals and the Cotonou Agreement;
- (b) promote regional integration, economic cooperation and good governance thus establishing and implementing an effective, predictable and transparent regional regulatory framework for trade and investment between the Parties and among the SADC EPA States;
- (c) promote the gradual integration of the SADC EPA States into the world economy, in conformity with their political choices and development priorities;
- (d) improve the SADC EPA States' capacity in trade policy and trade related issues;
- (e) support the conditions for increasing investment and private sector initiative, and enhance supply capacity, competitiveness and economic growth in the SADC EPA States;
- (f) strengthen the existing relations between the Parties on the basis of solidarity and mutual interest. To this end, consistent with WTO obligations, the Agreement shall enhance commercial and economic relations, consolidate the implementation of the SADC Protocol on Trade and support a new trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between them and reinforce, broaden and deepen cooperation in all areas relevant to trade.

Article 2. Principles

1. This Agreement is based on the Fundamental Principles as well as the Essential and Fundamental Elements of the Cotonou Agreement, as set out in Articles 2 and 9 of that Agreement. This Agreement shall build on the achievements of Cotonou and the previous ACP-EC Partnership Agreements in regional cooperation and integration as well as economic and trade cooperation.
2. The Cotonou Agreement and this Agreement shall be implemented in a complementary and Mutually reinforcing manner.
3. The Parties agree to cooperate to implement this Agreement in a manner that is consistent with the development policies and regional integration programmes in which the SADC EPA States are or may be involved.
4. The Parties agree to cooperate in order to fulfil their commitments and obligations and to facilitate the capacity of SADC EPA States to implement this Agreement.

Article 3. Sustainable Development

1. The Parties reaffirm that the objective of sustainable development is to be applied and integrated at every level of their economic partnership, in fulfilment of the overriding commitments set out in Articles 1, 2 and 9 of the Cotonou Agreement, and especially the general commitment to reduce and eventually eradicate poverty in a way that is consistent with the objectives of sustainable development.

2. The Parties understand this objective to apply in the case of this Agreement as a commitment that:

(a) the application of this Agreement shall fully take into account the human, cultural, economic, social, health and environmental best interests of their respective populations and of future generations;

(b) decision-taking methods embrace the fundamental principles of ownership, participation and dialogue.

3. As a result, the Parties agree to work cooperatively towards the realisation of people-centred sustainable development.

Article 4. Regional Integration

1. The Parties recognise that regional integration is an integral element of their partnership and a powerful instrument to achieve the objectives of this Agreement.

2. The Parties reaffirm the importance of regional and sub-regional integration amongst the SADC EPA States to achieve greater economic opportunities, enhanced political stability and to foster the effective integration of developing countries into the world economy. Without prejudice to the commitments undertaken in this Agreement, the pace and content of their regional integration is determined exclusively by the SADC EPA States in the exercise of their sovereignty.

3. The Parties support in particular the integration processes and related development policies and political agendas, based on the Southern African Customs Union Agreement signed on

21 October 2002, the Southern African Development Community Treaty signed on 17 August 1992 and the Constitutive Act of the African Union adopted on 11 July 2000. They aim at building and deepening their partnership on the basis of those processes and at implementing this Agreement in a mutually supportive manner with those instruments, taking into account the respective levels of development, needs, geographical realities and sustainable development strategies.

Article 5. Monitoring

1. The Parties undertake to continuously monitor the operation and impact of this Agreement through appropriate mechanisms and timing within their respective participative processes and institutions, as well as those set up under this Agreement, in order to ensure that the objectives of this Agreement are realised, that it is properly implemented and that the benefits for their people deriving from it, in particular the most vulnerable groups, are maximised.

2. The Parties also undertake to consult each other promptly over any issue concerning the implementation of this Agreement.

Article 6. Cooperation In International Fora

The Parties shall endeavour to cooperate in all international fora where issues relevant to this Agreement are discussed.

Chapter 2. Development Cooperation

Article 7. Development Cooperation Framework

The Parties commit themselves to cooperating in order to implement this Agreement and to support the SADC EPA States' trade and development strategies within the overall SADC regional integration process. The cooperation can take financial and non-financial forms.

Article 8. Development Finance Cooperation

1. The Parties recognise that development cooperation is a crucial element of their partnership and an essential factor for the realisation of the objectives of this Agreement as laid down in Article 1. Development finance cooperation for regional economic cooperation and integration, as provided for in the Cotonou Agreement, shall be carried out so as to support and promote the efforts of the SADC EPA States to achieve the objectives and to maximise the expected benefits of this

Agreement. Areas of cooperation and technical assistance are set out, as appropriate, in Chapter 3 and in the other Chapters of this Agreement. Cooperation shall be implemented according to the modalities provided for in this Article, shall be kept under ongoing review and shall be revised as necessary according to the provisions of Article 108 of this Agreement.

2. The European Community (1) financing pertaining to development cooperation between the SADC EPA States and the European Community supporting the implementation of this Agreement shall be carried out within the framework of the rules and relevant procedures provided for by the Cotonou Agreement, in particular the programming procedures of the European Development Fund and within the framework of the relevant instruments financed by the General Budget of the European Union. In this context, supporting the implementation of this Interim Agreement with a view to an EPA, shall be a priority.

3. The Member States of the European Union collectively undertake to support, by means of their respective development policies and instruments, development cooperation activities for regional economic cooperation and integration and for the implementation of this Agreement in the SADC EPA States and at the regional level, in conformity with the complementarity and aid effectiveness principles.

4. The Parties recognise that adequate resources will be required for the implementation of this Agreement and the fullest realisation of its benefits. In this respect the Parties shall cooperate to enable SADC EPA States to access other financial instruments as well as to facilitate other donors willing to further support the efforts of the SADC EPA States in achieving the objectives of this Agreement.

5. The Parties agree that a regional development financing mechanism such as an EPA fund would provide a useful instrument for efficiently channelling development financial resources and for implementing EPA accompanying measures. The EC Party agrees to support the efforts of the region to set up such a mechanism. The EC Party will contribute to the fund following a satisfactory audit.

(1) Not including Member States.

Chapter 3. Areas of Cooperation

2. The FTA shall respect the principle of asymmetry, commensurate to the specific needs and capacity constraints of the SADC EPA States, in terms of levels and timing for commitments under this Agreement.
3. The FTA will apply to trade between, of the one part, the European Community and, of the other part, the SADC EPA States.

Article 20. Scope

This Chapter shall apply to products:

1. falling within Chapters 01 to 97, with the exception of Chapter 93, set out in each Party's respective tariff nomenclature in conformity with the rules of classification applicable to the Harmonised Commodity Description and Coding System (HS); and
2. originating in the European Community or in the SADC EPA States.

Article 21. Rules of Origin

1. For the purposes of this Chapter, "originating" means qualifying under the rules of origin set out in Protocol 1.
2. Within the first three years of the entry into force of this Agreement, the Parties shall review the provisions of Protocol 1, with a view to further simplifying the concepts and methods used for the purpose of determining origin. In such review the Parties shall take into account the development of technologies, production processes and all other factors, including on-going reforms of rules of origin, which may require modifications to the provisions of this Protocol. Any such modifications shall be effected by a decision of the Joint Council as defined in Article 93.
3. Particular attention shall be given to these provisions within the framework of the review foreseen in paragraph 2.

Article 22. Customs Duties

1. A customs duty includes any duty or charge of any kind imposed on, or in connection with, the importation of goods, including any form of surtax or surcharge, but does not include:
 - (a) internal taxes or other internal charges imposed consistently with Article III of GATT 1994;
 - (b) any antidumping, countervailing or safeguard measure imposed consistently with Title II;
 - (c) fees and charges for consular services imposed consistently with paragraph 2; and
 - (d) fees or other charges imposed consistently with paragraph 2.
2. Fees and charges referred to in paragraph 1(c) and (d) shall be limited in amount to the approximate cost of services rendered and shall not represent indirect protection for domestic products or a taxation of imports for fiscal purposes. They shall be based on specific rates that correspond to the real value of the service rendered.
3. For each product the basic duty, to which the successive reductions set out in the Agreement are to be applied, shall be the most-favoured-nation (hereinafter referred to as "MFN") rate of duty effectively applied at the day of entry into force of this Agreement.
4. In cases where the process of tariff dismantlement does not start at the entry into force of this Agreement the duty to which the successive reductions are to be applied shall be either the basic duty referred to in paragraph 3 of this Article, or the duty applied on an erga omnes basis on the starting day of the relevant tariff dismantlement schedule, whichever is the lower.
5. The reduced duties calculated in accordance with the reduction schedules contained in this Agreement shall be applied rounded to the first decimal place or, in case of specific duties, to the second decimal place.

Article 23. Standstill

No new customs duties shall be introduced, nor shall those already applied be increased in trade between the Parties as from the entry into force of this Agreement for all products subject to liberalisation.

Article 24. Duties, Taxes or other Fees and Charges on Exports

1. No new customs duties on exports or charges having equivalent effect shall be introduced, nor shall those already applied be increased, in the trade between the European Community and the SADC EPA countries from the date of entry into force of this Agreement.
2. In exceptional circumstances where the SADC EPA States can justify specific revenue needs, protection of infant industries, or protection of the environment, these SADC EPA States may introduce, after consultation with the EC Party, temporary export taxes or charges having equivalent effect on a limited number of additional products.
3. The Parties agree to review the provisions of this Article in the Joint Council no later than three years after the entry into force of this Agreement, taking fully into account their impact on development and diversification of the SADC EPA States' economies.

Article 25. Customs Duties on Products Originating In the Sadc Epa States

1. The EC Party shall provide duty free, quota free (DFQF) treatment for all products, except those referred to in paragraph 3, falling within the scope of this Agreement and originating in Botswana, Lesotho, Mozambique, Namibia and Swaziland.

3. Imports of products as defined in the Annex 2 will be subject to the transitional regime set out therein.

Article 26. Customs Duties on Products Originating In the Ec

1. Products originating in the EC Party shall be imported into Botswana, Lesotho, Namibia and Swaziland in accordance with the treatment described in Annex 3.
2. Imports of products originating in the EC Party shall be imported into Mozambique in accordance with the treatment described in Annex 4.

2. Any duty paid upon importation into an SADC EPA State shall be refunded fully when the goods are re-exported from the customs territory of the SADC EPA State of first importation. Such products shall then be subject to the duty in the country of consumption.
3. The Parties agree to cooperate with a view to facilitating the circulation of goods and simplifying customs procedures.

Article 28. More Favourable Treatment Resulting from Free Trade Agreements

1. With respect to the subject matter covered by this Chapter, the EC Party shall accord to SADC EPA States any more favourable treatment applicable as a result of the EC Party becoming party to a free trade agreement with third parties after the signature of this Agreement.
2. With respect to the subject matter covered by this Chapter, the SADC EPA States shall accord to the EC Party any more favourable treatment applicable as a result of the SADC EPA States or any Signatory SADC EPA State becoming party to a free trade agreement with any major trading economy after the signature of this Agreement.
3. Where an SADC EPA State can demonstrate that it has been given by a third Party substantially more favourable treatment than that offered by the EC Party, the Parties will consult and jointly decide how best to implement the provisions

of paragraph 2.

4. The provisions of this Chapter shall not be so construed as to oblige the EC Party or any SADC EPA State to extend reciprocally any preferential treatment applicable as a result of the EC Party or any SADC EPA State being party to a free trade agreement with third parties on the date of signature of this Agreement.

5. For the purposes of this Article, "major trading economy" means any developed country, or any country accounting for a share of world merchandise exports above 1 percent in the year before the entry into force of the economic integration agreement referred to in paragraph 2, or any group of countries acting individually, collectively or through an economic integration agreement accounting collectively for a share of world merchandise exports above 1,5 percent in the year before the entry into force of the economic integration agreement referred to in paragraph 2.

Article 29. Special Provisions on Administrative Cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.

2. The Parties also agree to cooperate in ensuring that the necessary institutional structures enable the responsible authorities to effectively respond to requests for assistance in a timely manner.

3. For the purpose of this Article and without prejudice to Article 9 of Protocol 2, a failure to provide administrative cooperation shall mean, inter alia:

(a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned as provided for in Article 34 of Protocol 1;

(b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin as provided for in Article 34 of Protocol 1;

(c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question as provided for in Article 7 of Protocol 2.

4. For the purpose of this Article a finding of irregularities or fraud may be made, inter alia, where there is a rapid increase, without legitimate explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

5. Where a Party or an SADC EPA State, as the case may be, has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party concerned may, in exceptional circumstances, temporarily suspend the relevant preferential treatment of the product(s) concerned, and of their specific origin concerned in accordance with this Article. For the purposes of this Article, exceptional circumstances mean those circumstances which have or might have a significant negative effect on a Party or an SADC EPA State, as the case may be, if a relevant preferential treatment of the product(s) concerned is to be continued.

6. The application of a temporary suspension shall be subject to the following conditions:

(a) The Party or SADC EPA State, as the case may be, which has made a finding, on the basis of

Objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Trade and Development Committee of its finding together with the objective information and enter into consultations within the Trade and Development Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.

(b) Where the Parties have entered into consultations within the Trade and Development Committee as provided for above and have failed to agree on an acceptable solution within three months following the notification, the Party or SADC EPA State concerned, as the case may be, may temporarily suspend the relevant preferential treatment of the product(s) concerned, and of the specific origin concerned. A temporary suspension shall be notified to the Trade and Development Committee without undue delay.

(c) Temporary suspensions under this Article shall be limited to those necessary to protect the financial interests of the Party or SADC EPA State concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the Trade and Development Committee. They shall be

subject to periodic consultations within the Trade and Development Committee in particular with a view to their termination as soon as the conditions for their application are no longer given.

Article 30. Management of Administrative Errors

The Parties recognise each other's right to correct administrative errors during the implementation of this Agreement. Where errors are identified either Party may request the Trade and Development Committee to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Article 31. Customs Unions and Free-trade Areas

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free-trade areas or other arrangements between either of the Parties and third countries, except in so far as they alter the rights and obligations provided for in this Agreement.

2. Consultation between the EC Party and the SADC EPA States shall take place within the Joint Council concerning agreements establishing or adjusting customs unions or free-trade areas and, where required, on other major issues related to their respective trade policy with third countries.

Chapter 5.

Article 32. Anti-dumping and Countervailing Measures

The rights and obligations of the EC Party or the SADC EPA States in respect of the application of antidumping or countervailing measures shall be governed by the relevant WTO Agreements. Any disputes related to these measures can only be settled through WTO Dispute Settlement procedures.

Article 33. Multilateral Safeguards

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the SADC EPA States and the EC Party from adopting measures in accordance with Article XIX of GATT 1994, the WTO Agreement on Safeguards, Article 5 of the Agreement on Agriculture annexed to the Marrakech Agreement Establishing the World Trade Organisation and any other relevant WTO Agreements.

2. Notwithstanding paragraph 1, the EC Party shall, in the light of the overall development objectives of this Agreement and the small size of the economies of the SADC EPA States, exclude imports from any SADC EPA State from any measures taken pursuant to Article XIX of GATT 1994, the WTO Agreement on Safeguards and Article 5 of the Agreement on Agriculture.

3. The provisions of paragraph 2 shall apply for a period of five years, beginning from the date of entry into force of the Agreement. Not later than 120 days before the end of this period, the Joint SADC EPA States-EC Council shall review the operation of those provisions in the light of the development needs of the SADC EPA States, with a view to determining whether to extend their application for a further period.

4. The provisions of paragraph 1 shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 34. Bilateral Safeguard

1. Notwithstanding Article 33, after having examined alternative solutions, a Party may apply safeguard measures of limited duration which derogate from the provisions of Articles 25 and 26, under the conditions and in accordance with the procedures laid down in this Article.

2. Safeguard measures referred to in paragraph 1 of this Article may be taken where a product originating in one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

(a) serious injury to the domestic industry producing like or directly competitive products in the territory of the importing Party, or

(b) disturbances in a sector of the economy producing like or directly competitive products, particularly where these disturbances produce major social problems, or difficulties which could bring about serious deterioration in the economic situation of the importing Party, or

(c) disturbances in the markets of like or directly competitive agricultural products (1) or mechanisms regulating those markets.

3. Safeguard measures referred to in this Article shall not exceed what is necessary to remedy or prevent serious injury or disturbances, as defined in paragraph 2 of this Article.

For the purpose of this Article agricultural products are those covered by Annex I of the WTO Agreement on Agriculture.

4. Those safeguard measures which may be taken by the importing Party may only consist of one or more of the following:

(a) suspension of the further reduction of the rate of import duty for the product concerned, as provided for under this Agreement; or

(b) increase in the customs duty on the product concerned up to a level which does not exceed the WTO bound rate of duty; or

(c) introduction of tariff quotas on the product concerned.

5. Without prejudice to paragraphs 1, 2 and 3 of this Article, where any product originating in one or more SADC EPA States is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under 2(a), (b) and (c) of this Article to a like or directly competitive production sector of one or several of the EC Party's outermost regions, the EC Party may take surveillance or safeguard measures limited to the region or regions concerned in accordance with the procedures laid down in paragraphs 6 to 9.

6. (a) Without prejudice to paragraphs 1, 2 and 3 of this Article, where any product originating in the EC Party is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under paragraph 2(a), (b) and (c) of this Article to an SADC EPA State, the SADC EPA State concerned may take surveillance or safeguard measures limited to its territory in accordance with the procedures laid down in paragraphs 7 to 10 of this Article.

(b) An SADC EPA State may take safeguard measures as provided for in paragraph 2 of this Article, where a product originating in the EC Party as a result of the reduction of duties is being imported into its territory in such increased quantities and under such conditions as to cause or threaten to cause disturbances to an infant industry producing like or directly competitive products. Such provision is applicable for a period of 12 years for Botswana, Namibia and Swaziland or 15 years for LDCs from the date of entry into force of this Agreement. This application period can be further extended on review by the Joint Council, in view of the overall level of development achieved by the SADC EPA States. Measures must be taken in accordance with the procedures laid down in paragraphs 6 to 9 of this Article.

7. (a) Safeguard measures referred to in this Article shall only be maintained for such a time

As may be necessary to prevent or remedy serious injury or disturbances as defined in paragraphs 2, 5 and 6 of this Article.

(b) Safeguard measures referred to in this Article shall not be applied for a period exceeding two years. Where the circumstances warranting imposition of safeguard measures continue to exist, such measures may be extended for a further period of no more than two years. Where one or more SADC EPA States apply a safeguard measure, or where the EC Party applies a measure limited to the territory of one or more of its outermost regions, they may however apply that measure for a period not exceeding four years and, where the circumstances warranting the imposition of safeguard measures continue to exist, extend it for a further period of four years.

(c) Safeguard measures referred to in this Article that exceed one year shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest.

(d) No safeguard measure referred to in this Article shall be applied to the import of a product that has previously been subject to such a measure, within a period of at least one year from the expiry of the measure.

8. For the implementation of the above paragraphs, the following provisions shall apply:

(a) Where a Party takes the view that one of the circumstances set out in paragraphs 2, 5 and/or 6 exists, it shall immediately refer the matter to the Trade and Development Committee for examination.

(b) The Trade and Development Committee may make any recommendation needed to remedy the circumstances which have arisen. If no recommendation has been made by the Trade and Development Committee aimed at remedying the circumstances, or no other satisfactory solution has been reached within 30 days of the matter being referred to the Trade and Development Committee, the importing Party may adopt the appropriate measures to remedy the circumstances in accordance with this Article.

(c) Before taking any measure provided for in this Article or, in the case to which paragraph 9 of this Article applies, as soon as possible, the Party or the SADC EPA State concerned shall supply the Trade and Development Committee with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the parties concerned.

(d) In the selection of safeguard measures pursuant to this Article, priority must be given to those which least disturb the operation of this Agreement.

(e) Any safeguard measure taken pursuant to this Article shall be notified immediately to the Trade and Development Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for its abolition as soon as circumstances permit.

9. In critical circumstances where delay would cause damage which would be difficult to repair, the importing Party concerned, whether the EC Party, or one or more SADC EPA States as the case may be, may take the measures provided for in paragraphs 3, 5 and/or 6 on a provisional basis without complying with the requirements of paragraph 8. Such action may be taken for a maximum period of 180 days where measures are taken by the EC Party and 200 days where measures are taken by one or more SADC EPA States as the case may be, or where measures taken by the EC Party are limited to the territory of one or more of its outermost region(s). The duration of any such provisional measure shall be counted as a part of the initial period and any extension referred to in paragraph 6. 3. Either Party may request the arbitration panel to provide a recommendation as to how the Party complained against, or as the case may be, the relevant SADC EPA State, could bring itself into compliance.

Article 76. Compliance with the Arbitration Panel Ruling

The Party complained against, or as the case may be, the relevant SADC EPA State, shall take any measure necessary to comply with the arbitration panel ruling and the Parties shall seek to agree on the period of time to comply with the ruling.

Article 77. The Reasonable Period of Time for Compliance

1. No later than 30 days after the notification of the arbitration panel ruling to the Parties, the Party complained against shall notify the complaining Party and the Trade and Development Committee of the reasonable period of time it will require to bring itself into compliance with the ruling of the arbitration panel.

2. Upon notification by the Party complained against, the Parties shall seek to agree on such a reasonable period of time. If there is disagreement between the Parties on the reasonable period of time to comply with the arbitration panel ruling, the complaining Party shall, within 30 days of the notification made under paragraph 1 of this Article, request the arbitration panel in writing to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the other Party and to the Trade and Development Committee. The arbitration panel shall notify its ruling to the Parties and to the Trade and Development Committee within 30 days from the date of the receipt of the request.

3. The arbitration panel will, in determining the length of the reasonable period of time, take into consideration the length of time that it will normally take the Party complained against, or as the case may be, the relevant SADC EPA State, to adopt comparable legislative or administrative measures to those identified by the Party complained against, or as the case may be, the relevant SADC EPA State, as being necessary to ensure compliance. The arbitration panel shall also take into consideration capacity constraints and the different level of development which may affect the adoption of the necessary measures.

4. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 73 of this Agreement shall apply. The time limit for notifying the ruling shall be 45 days from the date of the receipt of the request referred to in paragraph 2 of this Article.

5. The reasonable period of time may be extended by agreement of the parties to the dispute.

Article 78. Review of Any Measure Taken to Comply with the Arbitration Panel Ruling

1. The Party complained against shall notify the other Party and the Trade and Development Committee, before the end of the reasonable period of time, of any measure that it has taken to comply with the arbitration panel ruling.

2. In the event that there is disagreement between the Parties concerning the compatibility of any measure notified under paragraph 1 of this Article with the provisions of this Agreement, the complaining Party may request in writing the arbitration panel to rule on the matter. Such request shall identify the specific measure at issue and it shall explain how such measure is incompatible with the provisions of this Agreement. The arbitration panel shall notify its ruling within 90 days of the date of the receipt of the request. In cases of urgency, including those involving perishable and seasonal goods, the arbitration panel shall notify its ruling within 45 days of the date of the receipt of the request.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures set out in Article 73 of this Agreement shall apply. The time limit for notifying the ruling shall be 105 days from the date of the receipt of the request referred to in paragraph 2 of this Article.

Article 79. Temporary Remedies In Case of Non-compliance

1. If the Party complained against fails to notify any measure taken to comply with the arbitration panel ruling before the expiry of the reasonable period of time, or if the arbitration panel rules that the measure notified under Article 78 paragraph 1 is not compatible with the provisions of this Agreement, the Party complained against or, as the case may be, the relevant SADC EPA State shall, if so requested by the complaining Party, present an offer for compensation. Such compensation may include or consist of financial compensation although nothing in this Agreement shall oblige the Party complained against, or as the case may be, the relevant SADC EPA State, to offer such financial compensation.

2. If no agreement on compensation is reached within 30 days of the end of the reasonable period of time or of the arbitration panel's ruling under Article 78 that a measure taken to comply is not compatible with this Agreement, the complaining Party shall be entitled, upon notification to the other Party, to adopt appropriate measures. Such measures may be adopted either by the complaining Party, or as the case may be, the relevant SADC EPA State.

3. In adopting such measures the complaining Party or, as the case may be, the relevant SADC EPA State, shall seek to select measures proportionate to the violation which least affect the attainment of the objectives of this Agreement and shall take into consideration their impact on the economy of the Party complained against and on the individual SADC EPA States.

4. In the event that the EC Party fails to notify any measure taken to comply with the arbitration panel ruling by the expiry of the reasonable period of time at the latest, or if the arbitration panel rules that the measure notified under Article 78 paragraph 1 is not compatible with that Party's obligations under this Agreement, and the complaining Party asserts that adopting appropriate measures would result in significant damage to its economy, the EC Party shall consider providing financial compensation.

5. The EC Party shall exercise due restraint in asking for compensation or adopting appropriate measures pursuant to paragraph 1 or 2 of this Article.

6. Compensation or appropriate measures shall be temporary and shall be applied only until any measure found to violate the provisions of this Agreement has been withdrawn or amended so as to bring it into conformity with those provisions or until the Parties have agreed to settle the dispute.

Article 80. Review of Any Measure Taken to Comply after the Adoption of Appropriate Measures

1. The Party complained against shall notify the other Party and the Trade and Development Committee of any measure it has taken to comply with the ruling of the arbitration panel and of its request for an end to application of appropriate measures by the complaining Party or the relevant SADC EPA State, as the case may be.

2. If the Parties do not reach an agreement on the compatibility of the notified measure with the provisions of this Agreement within 30 days of the date of notification, the complaining Party shall request in writing the arbitration panel to

rule on the matter. Such request shall be notified to the other Party and to the Committee. The arbitration panel ruling shall be notified to the Parties and to the Committee within 45 days of the date of the receipt of the request. If the arbitration panel rules that any measure taken to comply is not in conformity with the provisions of this Agreement, the arbitration panel will determine whether the complaining Party or, as the case may be, the relevant SADC EPA State, can continue to apply appropriate measures. If the arbitration panel rules that any measure taken to comply is in conformity with the provisions of this Agreement, the appropriate measures shall be terminated.

3. In the event of the original arbitration panel, or some of its members, being unable to reconvene, the procedures laid down in Article 73 of this Agreement shall apply. The period for notifying the ruling shall be 60 days from the date of the receipt of the request referred to in paragraph 2 of this Article.

Article 81. Mutually Agreed Solution

The Parties may reach a mutually agreed solution to a dispute under this Chapter at any time. They shall notify the Trade and Development Committee of any such solution. Upon adoption of the mutually agreed solution, the dispute settlement procedure shall be terminated.

Article 82. Rules of Procedure and Code of Conduct

1. The Parties shall agree on Rules of Procedure and a Code of Conduct by 1 July 2008 which shall be adopted by the Joint Council. The Rules of Procedure shall address the issue of opening arbitration panel hearings to the public.

2. Any meeting of the arbitration panel shall be open to the public in accordance with the Rules of Procedure, unless the arbitration panel decides otherwise on its own motion or at the request of the Parties. The arbitration panel shall meet in closed session when the submissions or arguments of a Party contain confidential information.

Article 83. Information and Technical Advice

At the request of a Party, or upon its own initiative, the arbitration panel may obtain information from any source, including the Parties involved in the dispute, it deems appropriate for the arbitration proceeding. The arbitration panel shall also have the right to seek the opinion of relevant experts as it deems appropriate. Interested entities are authorised to submit amicus curiae briefs to the arbitration panel in accordance with the Rules of Procedure. Any information obtained in this manner must be disclosed to the Parties to the dispute and submitted for their comments.

Article 84. Languages of the Submissions

1. The written and oral submissions of the Parties shall be made in any official language of the Parties.

2. The Parties shall endeavour to agree on a common working language for any specific proceedings under this Part. If the Parties are unable to agree on a common working language, each Party shall arrange for and bear the costs of the translation of its written submissions and interpretation at the hearings into the language chosen by the Party complained against, unless such language is an official language of that Party. The EC Party shall, when seeking to agree on a common working language, take into account the potential impact of such costs on SADC EPA States.

Article 85. Rules of Interpretation

An arbitration panel shall settle a dispute in accordance with the provisions of this Agreement and the customary rules of interpretation of public international law, including those set out in the Vienna Convention on the Law of Treaties. The rulings of the arbitration panel cannot add to or diminish the rights and obligations provided for in this Agreement.

Article 86. Arbitration Panel Rulings

1. The arbitration panel shall make every effort to take any decision by consensus. Where, nevertheless, a decision cannot be arrived at by consensus, the matter at issue shall be decided by majority vote.

2. The ruling shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the reasoning behind any findings and conclusions that it makes. The Trade and Development Committee shall make the arbitration panel rulings publicly available unless it decides not to do so.

Article 87. List of Arbitrators

1. The Trade and Development Committee shall, no later than three months after the provisional application of this Agreement, establish a list of 21 individuals who are willing and able to serve as arbitrators. Each of the Parties shall select eight individuals to serve as arbitrators. The Parties shall also agree on five individuals who are not nationals of either Party and who shall act as chairperson of the arbitration panel. The Committee will ensure that the list is always maintained in accordance with this Article.

2. Arbitrators shall have specialised knowledge of or experience in law and international trade. They shall be independent, serve in their individual capacities and not take instructions from any organisation or government, or be affiliated with the governments of any of the Parties, and shall comply with the Code of Conduct annexed to the Rules of Procedures.

3. The Committee may establish an additional list of 15 individuals having a sectoral expertise in specific matters covered by this Agreement. When recourse is made to the selection procedure of Article 73 of this Agreement, the chairperson of the Committee may use such a sectoral list upon agreement of both Parties.

Article 88. Relation with Wto Obligations

1. Arbitration bodies set up under this Agreement shall not arbitrate disputes on a Party's, or as the case may be, the relevant SADC EPA State's, rights and obligations under the Agreement establishing the WTO.

2. Recourse to the dispute settlement provisions of this Agreement shall be without prejudice to any action in the WTO framework, including dispute settlement action. However, where a Party or the relevant SADC EPA State, as the case may be, has, with regard to a particular measure, initiated a dispute settlement proceeding under this Agreement or under the WTO Agreement, it may not initiate a dispute settlement proceeding regarding the same measure until the first proceeding has ended. For the purposes of this paragraph, dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party's or the relevant SADC EPA State's request, as the case may be, for the establishment of a panel under Article 6 of the Understanding on Rules and Procedures Governing the Settlement of Disputes of the WTO.

3. Nothing in this Agreement shall preclude a Party or SADC EPA State from implementing the suspension of obligations authorised by the Dispute Settlement Body of the WTO.

Article 89. Time Limits

1. All time limits laid down in Part III of this Agreement, including the limits for the arbitration panels to notify their rulings, shall be counted in calendar days from the day following the act or fact to which they refer.

2. Any time limit referred to in this Part may be extended by mutual agreement of the Parties.

Part IV.

Chapter 13. General Exceptions

Article 90. General Exception Clause

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on trade in goods, services or establishment, nothing in this Agreement shall be construed to prevent the adoption or enforcement by the EC Party or the SADC EPA States of measures which:

Article 91. Security Exceptions

1. Nothing in this Agreement shall be construed:

(a) to require the EC Party or the SADC EPA States to furnish any information the disclosure of which it considers contrary to its essential security interests;

(i) relating to fissionable and fusionable materials or the materials from which they are derived;

Article 92. Taxation

1. Nothing in this Agreement, or in any arrangement adopted under this Agreement, shall be construed to prevent the EC Party or the SADC EPA States from distinguishing, in the application of the relevant provisions of their fiscal legislation, between taxpayers who are not in the same situation, in particular with regard to their place of residence or with regard to the place where their capital is invested.

2. Nothing in this Agreement, or in any arrangement adopted under this Agreement, shall be construed to prevent the adoption or enforcement of any measure aimed at preventing the avoidance or evasion of taxes pursuant to the tax provisions of agreements to avoid double taxation or other tax arrangements or domestic fiscal legislation.

(b) on the official, fee-free and publicly accessible website; or

(c) to a focal point of the other Party.

However, where the EC Party has provided such information and it has not been notified to the WTO through an official, fee-free and publicly accessible website, an SADC EPA State, which, because of capacity constraints, has difficulties accessing such a website, may request the EC Party to provide such information to the relevant focal point.

3. Nothing in this Agreement shall require any Party to provide confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private, except to the extent that it may be necessary to be disclosed in the context of a dispute settlement proceeding under this Agreement. Where such disclosure is considered necessary by a panel established under this Agreement, the panel shall ensure that confidentiality is fully protected.

The SADC EPA States shall be notified by the EC Party of any accession to the European Union (EU).
2. Any new Member State of the EU shall accede to this Agreement from the date of its accession to the EU by means of a clause to that effect in the act of accession. If the act of accession to the EU does not provide for such automatic accession of the EU Member State to this Agreement, the EU Member State concerned shall accede by depositing an act of accession with the General Secretariat of the Council of the European Union, which shall send certified copies to the SADC EPA States.
3. The Parties shall review the effects of the accession of new EU Member States on this Agreement. The Joint Council may decide on any transitional or amending measures that might be necessary.
