3. Each Party shall establish or designate at least one impartial administrative or judicial authority, independent of its procuring entities, to receive and review a challenge filed by a supplier in a covered procurement, and to issue appropriate determinations and recommendations.

4. Where a body other than the authority referred to in paragraph 3 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

5. Each Party shall adopt or maintain procedures that establish:

- (a) rapid interim measures to preserve the supplier's ability to participate in the procurement, which are applied by the

procuring entity or the impartial authority referred to in paragraph 3. The procedures may provide that the prevailing adverse consequences for the interests concerned, including the public interest, may be taken into account in deciding whether such measures should be applied. The reason for not taking such measures shall be stated in writing; and

(b) where a review body has determined the existence of a breach referred to in paragraph 2, corrective measures or compensation for loss or damage suffered, in accordance with the national legislation of each Party.

Article 10.16. Modifications and Amendments to Coverage

1. When a Party modifies its procurement coverage under this Chapter, the Party:

(a) shall notify the other Party in writing; and

(b) shall include in the notification a proposal for appropriate compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification.

2. Notwithstanding subparagraph 1(b), a Party need not grant compensatory adjustments where:

(a) the modification in question is a minor amendment or a rectification of a purely formal nature; or

(b) the proposed modification covers an entity over which the Party has effectively eliminated control or influence.

3. If the other Party does not agree that:

(a) a proposed adjustment under the scope of subparagraph 1(b) is adequate to maintain a comparable level of mutually agreed coverage;

(b) the proposed modification is a minor amendment or rectification within the scope of subparagraph 2 (a); or

(c) the proposed modification covers a contracting entity over which the Party has effectively eliminated its control or influence under the scope of subparagraph 2(b),

must object in writing within thirty (30) days of receipt of the notice referred to in paragraph 1 or agreement on the proposed change or modification shall be deemed to have been reached even for the purposes of Chapter 15 (Dispute Settlement).

4. When the Parties agree on the proposed modification, rectification or amendment, including when a Party has not objected within thirty (30) days under the scope of paragraph 3, the Parties shall give effect to the agreement by immediately modifying Annex 10.1 (Annex on Coverage) through the Commission.

Article 10.17. Integrity In Procurement Practices

Each Party shall establish or maintain procedures for declaring the ineligibility to participate in the Party's procurement, either indefinitely or for a prescribed period, of suppliers that the Party determines to have engaged in illegal or fraudulent activities relating to government procurement. Upon request of the other Party, the Party receiving the request shall identify the suppliers determined to be ineligible under these procedures and, where appropriate, exchange information with respect to these suppliers or the fraudulent or illegal activity.

Article 10.18. Additional Negotiations

At the request of a Party, the other Party may consider conducting additional negotiations for the purpose of expanding the scope and coverage of this Chapter. If as a result of such negotiations the Parties agree to modify the Annexes to this Chapter, the result shall be submitted to the Committee on Government Procurement established in Article 10.21 for implementation.

Article 10.19. Participation of Micro, Small and Medium-Sized Enterprises

1. The Parties recognize the importance of the participation of micro, small and medium-sized enterprises in public procurement.

2. The Parties also recognize the importance of business alliances between suppliers of each Party, and in particular micro, small and medium-sized enterprises, including joint participation in bidding procedures.

Article 10.20. Cooperation

1. The Parties recognize the importance of cooperation as a way to achieve a better understanding of their respective government procurement systems, as well as better access to their respective markets, particularly for micro, small and medium-sized enterprises.

2. The Parties shall make their best efforts to cooperate on issues such as:

- (a) exchange of experiences and information, including regulatory framework, best practices and statistics;
- (b) development and use of electronic means of information in public procurement systems;
- (c) training and technical assistance to suppliers on access to the public procurement market, and
- (d) institutional strengthening for compliance with this Chapter, including the training of public officials.

Article 10.21. Public Procurement Committee

1. The Parties establish a Government Procurement Committee (hereinafter the Committee), composed of representatives of each Party.

2. The functions of the Committee shall include:

- (a) monitor the implementation and administration of this Chapter, including its use, and recommend to the Commission the corresponding activities;
- (b) report to the Commission on the implementation and administration of this Chapter, as appropriate;
- (c) evaluate and follow up on cooperation activities;
- (d) consider conducting additional negotiations with the objective of expanding the coverage of this Chapter, and
- (e) to deal with any other matter related to this Chapter.

3. Unless otherwise agreed by the Parties, the Committee shall meet at least once (1) a year, on the date and according to the agenda previously agreed by the Parties. The Parties shall determine those cases in which extraordinary meetings may be held.

4. The meetings may be held by any means agreed upon by the Parties. When they are face-to-face, they shall be held alternately in the territory of each Party, and it shall be the responsibility of the host Party to organize the meeting. The first meeting of the Committee shall be held no later than one (1) year after the date of entry into force of this Agreement.

5. Unless otherwise agreed by the Parties, the Committee shall be of a permanent nature and shall develop its working rules.

6. All decisions of the Committee shall be made by mutual agreement. Article 10.22: Definitions For the purposes of this Chapter:

Article 11.1. Objectives

The purpose of this Chapter is to ensure that the benefits of trade liberalization under this Agreement are not undermined by anti-competitive practices, as well as to promote cooperation between the Parties in the application of their respective competition laws.

Article 11.2. Legislation and Competent Authorities

1. Each Party shall adopt or maintain national competition legislation that comprehensively and effectively addresses anticompetitive practices in order to promote economic efficiency and consumer welfare.
2. Each Party shall establish or maintain an authority responsible for the enforcement of its respective competition laws.
3. Each Party shall maintain its autonomy to develop and apply its respective competition legislation.
4. Each Party shall ensure that its respective national competition authorities act in accordance with the principles of transparency, non-discrimination and due process in the application of their respective competition laws.

Article 11.3. Cooperation

1. The Parties recognize the importance of cooperation and coordination between their respective national competition authorities to promote the effective enforcement of their respective competition laws.
2. Accordingly, the Parties shall cooperate in matters relating to the application of competition policy and law, including notification, exchange of information and consultations, in accordance with Articles 11.4, 11.5 and 11.6, respectively.

1. The competition authority of a Party shall notify the competition authority of the other Party of any activity in the application of its competition laws if it considers that such activity may affect important interests of the other Party.
2. Provided that it is not contrary to the domestic law of the Parties, nor does it affect any ongoing investigation, notification shall be made at an early stage of the administrative proceeding. The competition authority of the Party conducting the

enforcement activity of its competition law may take into consideration the comments received from the other Party in its determinations.

Article 11.5. Exchange of Information

The requesting Party shall indicate how the matter affects trade between the Parties. The requested Party shall give the utmost consideration to the concerns of the other Party.

Article 11.7. Settlement of Disputes

Neither Party may have recourse to the dispute settlement procedures set forth in Chapter 12 (Investment) and Chapter 15 (Dispute Settlement) with respect to any matter arising under this Chapter.

Chapter 12. Investment

Section A. Substantive Obligations

Article 12.1. Scope of Application and Coverage (1)

1. This Chapter shall apply to measures adopted or maintained by a Party relating to
 - (a) investors of the other Party,
 - (b) covered investments, and
 - (c) with respect to Articles 12.6 and 12.8, to all investments in the territory of the Party.
2. The obligations of a Party under this Section shall apply to a state enterprise or other person when it exercises regulatory, administrative or other governmental authority delegated to it by that Party, such as the authority to expropriate, grant licenses, approve commercial transactions or impose dues, fees or other charges.
3. For greater certainty, this Chapter does not bind a Party in relation to any act or fact that took place before the date of entry into force of this Agreement.
4. For greater certainty, nothing in this Chapter shall be construed to impose an obligation on a Party to privatize any investment that it owns or controls, or to prevent a Party from designating a monopoly.
5. Nothing in this Chapter shall require a Party to protect investments made with capital or assets derived from illegal activities, and shall not be construed to prevent a Party from adopting or maintaining measures aimed at the preservation of public order, the performance of its duties to maintain or restore international peace and security, or the protection of its own essential security interests.
6. In the event of any inconsistency between this Chapter and another Chapter of this Agreement, the other Chapter shall prevail to the extent of the inconsistency.
7. A Party's requirement that a service supplier of the other Party post a bond or other form of financial security as a condition for supplying a cross-border service does not, in itself, make this Chapter applicable to measures adopted or maintained by the Party with respect to the cross-border supply of the service. This Chapter applies to measures adopted or maintained by the Party with respect to the bond or financial security, to the extent that such bond or financial security constitutes a covered investment.
8. This Chapter does not apply to measures adopted or maintained by a Party with respect to investors of the other Party and investments of such investors in financial institutions in the territory of the Party.

(1) For greater certainty, this Chapter is subject to and shall be interpreted in accordance with Annexes 12.4, 12.10, 12.15 and 12.21.

Article 12.2. National Treatment

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.

Article 12.3. Most-Favored-Nation Treatment

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to investors of a non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments of investors of a non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
3. For greater certainty, the treatment with respect to the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of investments, referred to in paragraphs 1 and 2, does not include dispute settlement procedures, such as that provided for in Section B, that are set forth in international treaties, including trade or investment agreements.

Article 12.4. Minimum Standard of Treatment (2)

1. Each Party shall accord to covered investments treatment in accordance with customary international law, including fair and equitable treatment, as well as full protection and security.
2. For greater certainty, paragraph 1 prescribes that the minimum standard of treatment of aliens under customary international law is the minimum standard of treatment that may be afforded to covered investments. The concepts of "fair and equitable treatment" and "full protection and security" do not require treatment in addition to or beyond that required by that standard and do not create significant additional rights. The obligation in paragraph 1 to provide:
 - (a) The term "fair and equitable treatment" includes the obligation not to deny justice in criminal, civil or administrative proceedings, in accordance with the principle of due process incorporated in the main legal systems of the world; and
 - (b) "Full protection and security" requires each Party to provide the level of police protection that is required by customary international law.
3. A determination that another provision of this Agreement or of a separate international agreement has been violated does not establish that this Article has been violated.

(2) For greater certainty, Article 12.4 shall be interpreted in accordance with Annex 12.4.

Article 12.5. Senior Management and Boards of Directors

1. No Party may require an enterprise of that Party that is a covered investment to appoint natural persons of a particular nationality to senior management positions.
2. A Party may require that a majority of the members of the board of directors, or any committee thereof, of an enterprise of that Party that is a covered investment be of a particular nationality or resident in the territory of the Party, provided that the requirement does not significantly impair the ability of the investor to exercise control over its investment.

Article 12.6. Performance Requirements

1. No Party may, in connection with the establishment, acquisition, expansion, management, conduct, operation, sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, impose or enforce any requirement or enforce any obligation or commitment of (3):

(a) export a certain level or percentage of goods or services;

(b) to reach a certain degree or percentage of domestic content,

(c) to purchase, use or give preference to goods produced in its territory, or to purchase goods from persons in its territory;

(d) relate in any way the volume or value of imports to the volume or value of exports, or to the amount of foreign exchange inflows associated with such investment,

(e) restrict sales in its territory of the goods or services that such investment produces or provides, by relating such sales in any way to the volume or value of its exports or to the foreign exchange earnings it generates;

(f) transfer a particular technology, production process or other proprietary knowledge to a person in its territory, except where the requirement is imposed or the obligation or undertaking is enforced by a judicial or administrative tribunal or a competition authority, to remedy a practice that has been determined after judicial or administrative proceedings to be anticompetitive under the Party's competition laws (4); or

(g) to supply exclusively from the territory of a Party the goods produced by the investment or the services it provides to a specific regional market or to the world market.

2. A measure that requires an investment to use a technology to comply with general regulations applicable to health, safety or the environment shall not be considered inconsistent with subparagraph 1(f).

3. Subparagraph 1(f) does not apply where a Party authorizes the use of an intellectual property right in accordance with Article 31 of the WTO TRIPS Agreement or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the WTO TRIPS Agreement (5) of the WTO TRIPS Agreement or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the WTO TRIPS Agreement (6).

4. For greater certainty, nothing in paragraph 1 shall be construed to prevent a Party, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of a covered investment or an investment of an investor of a non-Party in its territory, from imposing or enforcing a requirement or enforcing an obligation or commitment to training workers in their territory.

5. No Party may condition the receipt of an advantage, or the continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, sale or other disposition of an investment in its territory by an investor of a Party or of a non-Party, on compliance with any of the following requirements:

(a) to achieve a certain degree or percentage of domestic content,

(b) to purchase, use or grant preferences to goods produced in its territory or to purchase goods from persons in its territory;

(c) relate, in any way, the volume or value of imports to the volume or value of exports, or to the amount of foreign exchange inflows associated with such investment, or

(d) restrict sales in its territory of the goods or services that such investment produces or provides by relating such sales in any way to the volume or value of its exports or to foreign exchange earnings.

6. Nothing in paragraph 5 shall be construed to prevent a Party from conditioning the receipt of an advantage, or the continued receipt of an advantage, in connection with an investment in its territory by an investor of a Party or of a non-Party on compliance with a requirement that it locate production, provide services, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.

7. Paragraphs 1 and 5 shall not apply to any requirement other than the commitment, obligation or requirements set forth in those paragraphs.

8. The provisions of the:

(a) subparagraphs 1 (a), (b) and (c), and 5 (a) and (b) shall not apply to the requirements for qualification of goods or services with respect to export promotion programs and foreign aid programs; and

(b) subparagraphs 5(a) and (b) shall not apply to requirements imposed by an importing Party with respect to the content of goods necessary to qualify for preferential duties or quotas.

9. Provided that such measures are not applied in an arbitrary or unjustified manner and provided that such measures do not constitute a disguised restriction on international trade or investment, nothing in subparagraphs 1(b), (c) and (f) and 5(a) and (b) shall be construed to prevent a Party from adopting or maintaining measures, including those of an environmental nature:

(a) necessary to ensure compliance with laws and regulations that are not inconsistent with the provisions of this Agreement,

(b) necessary to protect human, animal or plant life or health; or (c) related to the preservation of living or non-living non-renewable natural resources.

10. Subparagraphs 1 (b), (c), (f) and (g), and 5 (a) and (b) do not apply to public procurement.

11. This Article does not exclude the application of any commitment, obligation or requirement between private parties, where a Party did not impose or require the commitment, obligation or requirement.

(3) For greater certainty, a condition for the receipt or continued receipt of an advantage referred to in paragraph 5 does not constitute an "obligation or commitment" for the purposes of paragraph 1.

(4) The Parties recognize that a patent does not necessarily confer market power.

(5) The reference to Article 31 of the WTO TRIPS Agreement includes footnote 7 of that Article.

(6) For greater certainty, the reference to the WTO TRIPS Agreement in this paragraph includes the provisions of the Protocol amending the TRIPS Agreement, signed in Geneva on December 6, 2005.

Article 12.7. Nonconforming Measures

1. Articles 12.2, 12.3, 12.5 and 12.6 shall not apply to:

(a) any non-conforming measure existing or maintained by a Party in:

(i) the central or regional level of government, as specified by that Party in its Schedule to Annex I; or

(ii) a local level of government,

(b) the continuation or prompt renewal of any nonconforming measure referred to in subparagraph (a); or

(c) the modification of any nonconforming measure referred to in subparagraph (a) provided that such modification does not diminish the degree of conformity of the measure, as in effect immediately before the modification, with Articles 12.2, 12.3, 12.5, and 12.6.

2. Articles 12.2, 12.3, 12.5 and 12.6 shall not apply to any measure that a Party adopts or maintains, in relation to sectors, subsectors or activities, as indicated in its Schedule to Annex II.

3. Articles 12.2 and 12.3 do not apply to any measure adopted under the exceptions under Articles 3, 4 and 5 of the WTO TRIPS Agreement.

4. Neither Party may require, pursuant to any measure adopted after the date of entry into force of this Agreement and included in its Schedule to Annex II, an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

5. The provisions of Articles 12.2, 12.3 and 12.5 shall not apply to:

(a) subsidies or grants provided by a Party, including government-backed loans, guarantees and insurance; or

(b) public procurement.

Article 12.8. Environmental Measures

1. The Parties recognize that it is inappropriate to promote investment by weakening or reducing the protections afforded by their domestic environmental laws. Accordingly, each Party shall endeavor to ensure that it shall not waive or derogate from, or offer to waive or derogate from, such legislation in a manner that weakens or reduces the protection afforded by that legislation, as a means of encouraging the establishment, acquisition, expansion or retention of an investment in its territory.

2. Nothing in this Chapter shall be construed to prevent a Party from adopting, maintaining or enforcing any measure otherwise consistent with this Chapter that it considers appropriate to ensure that investments in its territory are made taking into account environmental concerns.

Article 12.9. Treatment In the Event of a Dispute

1. Without prejudice to Article 12.7.5(a), each Party shall accord investors of the other Party and covered investments non-discriminatory treatment with respect to any measures it adopts or maintains with respect to losses suffered by investments in its territory as a result of armed conflict or civil strife.

2. Paragraph 1 shall not apply to existing measures relating to grants or donations that would be inconsistent with the provisions of Article 12.2, with the exception of Article 12.7.5(a).

Article 12.10. Expropriation and Compensation (7)

1. Neither Party shall nationalize or expropriate a covered investment, either directly or indirectly, through measures tantamount to expropriation or nationalization ("expropriation"), unless it is:

(a) for a public purpose (8), in the case of Costa Rica; and

(b) for reasons of public necessity or national security, in the case of Peru,

in accordance with due process, in a non-discriminatory manner and through the payment of prompt, adequate and effective compensation.

2. The compensation shall be paid promptly and shall be fully liquidable and freely transferable. Such compensation shall be equal to the fair market value of the expropriated investment immediately before the expropriation took place ("expropriation date"), and shall not reflect any change in value because the intention to expropriate was known in advance of the expropriation date.

3. If the fair market value is denominated in a freely usable currency, the compensation referred to in paragraph 1 shall not be less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate for that currency, accrued from the date of expropriation to the date of payment.

4. If the fair market value is denominated in a currency that is not freely usable, the compensation referred to in paragraph 1 - converted into the currency of payment, at the market rate of exchange prevailing on the date of payment - shall not be less than:

(a) the fair market value at the date of expropriation, converted into a freely usable currency at the market exchange rate prevailing on that date, plus;

(b) interest at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation to the date of payment.

5. The affected investor shall be entitled, under the national law of the Party executing the expropriation, to a review of his case by a judicial or other independent authority of that Party, and to the valuation of his investment in accordance with the principles set forth in this Article.

6. The provisions of this Article shall not apply to the issuance of compulsory licenses granted in connection with intellectual property rights, or to the revocation, limitation or creation of intellectual property rights to the extent that such issuance, revocation, limitation or creation is consistent with Chapter 9 (Intellectual Property).

(7) For greater certainty, Article 12.10 shall be interpreted in accordance with Annex 12.10 on the explanation of indirect expropriation.

(8) For greater certainty, this term refers to a concept of customary international law.

Article 12.11. Transfers

1. Each Party shall permit all transfers related to a covered investment to be made freely and without delay into and within its territory. Such transfers include:

- (a) capital contributions;
- (b) earnings, dividends, interest, capital gains, royalty payments, management fees, technical assistance and other charges, returns in kind and other amounts derived from the investment,
- (c) proceeds from the sale or total or partial liquidation of the covered investment,
- (d) payments made pursuant to a contract entered into by the investor, or the covered investment, including a loan agreement,
- (e) payments made under paragraph 1 of Articles 12.9 and 12.10; and
- (f) payments arising from the application of Section B.

2. Each Party shall permit transfers related to a covered investment to be made in freely usable currency at the market rate of exchange prevailing on the date of the transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer in cash or in kind through the equitable, non-discriminatory and good faith application of its laws relating to:

- (a) bankruptcy, insolvency or protection of creditors' rights (9) ;
- (b) issuance, trading or operations of securities, futures, options or derivatives;
- (c) criminal offenses;
- (d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; and
- (e) guarantee compliance with awards or judgments issued in judicial or administrative proceedings.

(9) For greater certainty, creditors' rights include, inter alia, rights arising from social security, public pensions or compulsory savings programs.

Article 12.12. Denial of Benefits

A Party may deny the benefits of this Agreement to:

- (a) an investor of the other Party that is an enterprise of that other Party and the investments of such investor if a person of a non-Party owns or controls the enterprise and the enterprise does not engage in substantial business activities in the territory of the other Party; or
- (b) an investor of the other Party that is an enterprise of that other Party and to the investments of such investor if the enterprise does not carry on substantial business activities in the territory of any Party, other than the denying Party, and a person of the denying Party owns or controls the enterprise.

Article 12.13. Special Formalities and Information Requirements

1. Nothing in Article 12.2 shall be construed to prevent a Party from adopting or maintaining a measure prescribing special formalities in connection with a covered investment, such as a requirement that investors be residents of the Party or that covered investments be constituted in accordance with the Party's laws or regulations, provided that such formalities do not significantly impair the protection afforded by a Party to investors of the other Party and to covered investments under this Agreement.

2. Notwithstanding Articles 12.2 and 12.3, a Party may require an investor of the other Party or its covered investment to

provide information concerning that investment solely for informational or statistical purposes. A Party may request information of a confidential nature only if its domestic law so permits. In such a case, that Party shall protect the information that is confidential from any disclosure that could adversely affect the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from obtaining or disclosing information relating to the equitable and good faith application of its domestic law.

Article 12.14. Subrogation

1. If a Party or a designated agency of the Party makes a payment to any of its investors under a guarantee, insurance contract or any other form of compensation provided in respect of an investment of an investor of that Party, the other Party shall recognize the subrogation or transfer of any right or claim of such investment. The subrogated or transferred right or claim shall not be greater than the original right or claim of the investor.
2. Where a Party or a designated agency of the Party has made a payment to an investor of that Party and has assumed the rights and claims of the investor, that investor may not, unless it has been authorized to act on behalf of the Party or the designated agency of the Party that has made the payment, assert such rights and claims against the other Party.

Section B. Investor - State Dispute Settlement

Article 12.15. Consultations and Negotiation

1. In the event of an investment dispute, the disputing parties shall first seek to resolve the dispute through consultations and negotiation, which may include the use of non-binding third-party procedures. The consultation and negotiation procedure shall be initiated by the request sent to the address designated in Annex 12.15. Such a request shall be sent to the respondent prior to the notice of intention referred to in Article 12.16 and shall include the information set out in subparagraphs 12.16.2(a), (b) and (c).
2. Consultations shall be held for a minimum period of six (6) months and may include meetings in person at the respondent's capital city.

Article 12.16. Submission of a Claim to Arbitration

1. After the minimum period referred to in Article 12.15.2 has elapsed, if a disputing party considers that an investment dispute cannot be resolved through consultation and negotiation:
 - (a) the claimant, at its own expense, may submit to arbitration a claim alleging:
 - (i) that the Respondent has breached an obligation under Section A, other than an obligation under Article 12.8; and
 - (ii) that the claimant has suffered loss or damage by reason of or as a result of such breach.
 - (b) the claimant, on behalf of an enterprise of the respondent that is a legal person owned or controlled directly or indirectly by the claimant, may, in accordance with this Section, submit to arbitration a claim alleging:
 - (i) that the Respondent has breached an obligation under Section A, other than an obligation under Article 12.8; and
 - (ii) that the company has suffered loss or damage by reason of, or as a result of, such violation.
2. At least ninety (90) days before a claim is submitted to arbitration pursuant to this Section, the claimant shall deliver to the respondent a written notice of its intent to submit the claim to arbitration ("notice of intent"). The notice shall specify:
 - (a) the name and address of the claimant and, if the claim is submitted on behalf of a company, the name, address and place of incorporation of the company,
 - (b) for each claim, the provision of Section A alleged to have been violated and any other applicable provision;
 - (c) the legal and factual basis of each claim, including the measures at issue; and (d) the relief sought and the approximate amount of damages claimed.
3. The claimant must also submit, together with its notice of intent, evidence establishing that it is an investor of the other Party.
4. Provided that at least six (6) months have elapsed since the events giving rise to the claim took place, and provided that

the claimant has complied with the conditions set forth in Article 12.18, the claimant may submit the claim referred to in paragraph 1:

- (a) in accordance with the ICSID Convention and the ICSID Rules of Procedure for Arbitral Proceedings, provided that both the respondent and the Party of the claimant are parties to the ICSID Convention;

2. The tribunal shall have the authority to accept and consider *amicus curiae* written submissions from a person or entity that is a non-disputing party. Any non-disputing party that wishes to make written submissions to a tribunal (the applicant) may apply to the tribunal for permission in accordance with Annex 12.21.

3. Without prejudice to the tribunal's power to hear other objections as preliminary questions, such as an objection that the dispute is not within the tribunal's jurisdiction, a tribunal shall hear and decide as a preliminary question any objection by the respondent that, as a matter of law, the claim submitted is not a claim upon which an award in favor of the claimant may be made under Article 12.27.

(a) Such objection shall be submitted to the tribunal as soon as possible after the constitution of the tribunal, and in no event later than the date the tribunal fixes for the respondent to file its statement of defense (or in the case of an amendment to the notice of arbitration referred to in Article 12.16.5, the date the tribunal fixes for the respondent to file its response to the amendment).

(b) Upon receipt of an objection under this paragraph, the tribunal shall suspend any action on the merits of the dispute, establish a timetable for consideration of the objection that is consistent with any timetable that has been established for consideration of any other preliminary issue, and issue a decision or award on the objection, setting forth the grounds therefor.

(c) In deciding on an objection under this paragraph, the tribunal shall assume as true the factual allegations submitted by the claimant in support of any claim contained in the notice of arbitration (or any amendment thereto) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any other relevant facts not in dispute.

(d) The respondent does not waive any objection with respect to jurisdiction or any substantive argument, merely because it has or has not raised an objection under this paragraph, or avails itself of the expedited procedure set forth in paragraph 4.

4. If the respondent so requests, the tribunal shall, within forty-five (45) days after the date of the constitution of the

tribunal, decide, in an expeditious manner, an objection under paragraph 3 and any other objection that the dispute is not within the tribunal's jurisdiction. The tribunal shall suspend any action on the merits of the dispute and shall issue a decision or award on such objection, stating the basis therefor, not later than one hundred and fifty (150) days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional thirty (30) days to issue the decision or award. Regardless of whether a hearing has been requested, the tribunal may, upon a showing of extraordinary cause, delay issuing its decision or award for an additional brief period, which may not exceed thirty (30) days.

5. When the tribunal decides a respondent's objection under paragraph 3 or 4, it may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in raising or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether the claimant's claim or the respondent's objection was frivolous, and shall give the disputing parties a reasonable opportunity to comment.

6. The defendant shall not assert as a defense, counterclaim or right of set-off or for any other reason that the plaintiff has received or will receive indemnity or other compensation for all or any part of the alleged damages pursuant to an insurance or surety agreement.

7. The tribunal may recommend an interim measure of protection to preserve the rights of a disputing party, or for the purpose of ensuring the full exercise of the tribunal's jurisdiction, including an order to preserve evidence in the possession or under the control of a disputing party or to protect the tribunal's jurisdiction. The tribunal may not order the attachment or prevent the enforcement of a measure that is alleged to be a breach referred to in Article 12.16.

8. In any arbitration conducted pursuant to this Section, at the request of any disputing party, the tribunal shall, before rendering a decision or award on liability, communicate its proposed decision or award to the disputing parties and to the Party of the claimant. Within sixty (60) days after such proposed decision or award is communicated, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider such comments and render its decision or award not later than forty-five (45) days after the expiration of the sixty (60) day comment period. This paragraph shall not apply to any arbitration in which an appeal is available under paragraph 9.

9. If a separate multilateral treaty enters into force between the Parties establishing an appellate body for the purpose of reviewing awards rendered by tribunals constituted under international trade or investment agreements to hear investment disputes, the Parties shall endeavor to reach an agreement that would cause such an appellate body to review awards rendered pursuant to Article 12.27 in arbitrations commenced after the multilateral treaty enters into force between the Parties.

(c) a disputing party shall, at the same time it submits a document containing information claimed to be protected information, submit a redacted version of the document that does not contain the information. Only the redacted version shall be provided to non-disputing parties and shall be made public in accordance with paragraph 1; and

(d) the tribunal shall decide any objection to the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may:

Annex 12.10 . Expropriation

The Parties confirm their common understanding that:

- (a) a measure or series of measures of a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or with the essential attributes or powers of ownership of an investment,
- (b) Article 12.10 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through the formal transfer of title or right of ownership;
- (c) the second situation addressed by Article 12.10 is indirect expropriation, where a measure or series of measures by a Party has an effect equivalent to that of a direct expropriation without the formal transfer of title or right of ownership;
- (d) the determination of whether a measure or series of measures of a Party, in a specific factual situation, constitutes an indirect expropriation requires a factual, case-by-case inquiry that considers, among other factors:
 - (i) the economic impact of a Party's measure or series of measures, although the mere fact that a measure or series of measures of a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which a Party's measure or series of measures interferes with unambiguous and reasonable expectations of the investment, and
 - (iii) the nature of a Party's measure or series of measures;
- (e) except in exceptional circumstances, such as where a measure or series of measures are disproportionate in light of their objective such that they cannot reasonably be considered to have been adopted and applied in good faith, non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety and the environment, do not constitute an indirect expropriation (14).

7. (a) Article 12.10 (Expropriation and Compensation) and 12.16 (Submission of a Claim to Arbitration) shall apply to a taxation measure that is claimed to be expropriatory. However, no investor may invoke Article 12.10 (Expropriation and Compensation) as a basis for a claim where it has been determined pursuant to this paragraph that the measure does not constitute an expropriation (1). An investor seeking to invoke Article 12.10 (Expropriation and Compensation) with respect to a taxation measure shall first submit the matter to the competent authorities of the respondent and claimant Party, referred

to in subparagraph (b), at the time it delivers written notice of its intention to submit a claim to arbitration under Article 12.16 (Submission of a Claim to Arbitration), for those authorities to determine whether the taxation measure constitutes an expropriation. If the competent authorities do not agree to examine the matter or if, having agreed to examine the matter, they do not agree that the measure does not constitute an expropriation, within six (6) months after the matter has been submitted to them, the investor may submit its claim to arbitration, in accordance with Article 12.16 (Submission of a Claim to Arbitration).

(b) For the purposes of this paragraph, competent authorities means:

(i) in the case of Costa Rica, the Ministry of Finance; and

(ii) in the case of Peru, the Ministry of Economy and Finance, or its successors.

8. For the purposes of this Article:

tax convention means a convention for the avoidance of double taxation or other international tax convention or arrangement, and

taxes and tax measures do not include: (a) a customs duty as defined in Article 1.5 (Definitions of General Application); or

(b) the measures listed in exceptions (b) and (c) of the definition of customs duty in Article 1.5 (Definitions of General Application).

(1) With reference to Article 12.10 (Expropriation and Compensation) in assessing whether a taxation measure constitutes expropriation, the following considerations are relevant: (a) the imposition of taxes does not generally constitute expropriation. The mere introduction of new tax measures or the imposition of taxes in more than one jurisdiction in respect of an investment does not constitute, and is not in itself, expropriation; (b) tax measures consistent with internationally recognized tax policies, principles and practices do not constitute expropriation, and in particular, tax measures aimed at preventing tax avoidance or evasion should generally not be considered expropriatory; and (c) tax measures applied on a non-discriminatory basis, as opposed to being targeted at investors of a particular nationality or at specific individual taxpayers, are less likely to constitute expropriation. A tax measure should not constitute expropriation if, at the time the investment is made, it was already in effect, and information about the measure was made public or otherwise publicly available.

Article 18.4. Disclosure of Information

Nothing in this Agreement shall be construed to require a Party to furnish or give access to confidential information, the disclosure of which would impede the enforcement of its domestic law, or which would be contrary to the public interest, or which would prejudice the legitimate commercial interest of particular enterprises, whether public or private.

Article 18.5. Measures to Safeguard the Balance of Payments

In accordance with the WTO Agreement and consistent with the Articles of Agreement of the international Monetary Fund, a Party may adopt or maintain temporary, non-discriminatory safeguard measures with respect to payments and capital movements that it considers necessary:

(a) in the event of the existence or threat of serious external financial or balance of payments difficulties; or

(b) in cases where, under exceptional circumstances, payments and capital movements cause or threaten to cause serious difficulties for macroeconomic management, particularly in monetary and exchange rate policy.

Article 19.4. Reservations and Interpretative Statements

This Treaty shall not be subject to reservations or unilateral interpretative declarations.

This Agreement shall enter into force sixty (60) days after the date on which the Parties exchange written notifications confirming that they have complied with their respective legal procedures or on the date on which the Parties so agree.

Article 19.6. Denunciation

Either Party may denounce this Agreement. The denunciation shall take effect one hundred and eighty (180) days after written notification to the other Party, notwithstanding that the Parties may agree on a different period of time to give effect to the denunciation.

(c) Affected Obligations specifies the obligation(s) referred to in paragraph 1 that, in accordance with Article 12.7 (Non-Conforming Measures) and Article 13.7 (Non-Conforming Measures), do not apply to the non-conforming aspects of the measure(s) listed as provided for in paragraph 3;

(d) Level of Government indicates the level of government that maintains the measure(s) listed;

(e) Measures identifies the laws, regulations or other measures, for which the reservation has been made. A measure cited in the Measures element:

(a) the Measures element is qualified by a liberalization commitment of the Description element, the Measures element so qualified shall prevail over any other element; and

(b) the Measures element is not qualified, the Measures element shall prevail over any other element, except where any discrepancy between the Measures element and the other elements considered as a whole is so substantial and material that it would be unreasonable to conclude that the Measures element should prevail, in which case, the other elements shall prevail to the extent of the discrepancy.

4. Pursuant to Article 12.7 (Non-Conforming Measures) and Article 13.7 (Non-Conforming Measures), the Articles of this Agreement specified in the Affected Obligations element of a reservation do not apply to the non-conforming aspects of the measures identified in the Measures element of that reservation.

6. For greater certainty, Article 13.5 (Market Access) refers to non-discriminatory measures.

7. The Parties understand that the requirement to appoint proxies, representatives or agents, whether national, local or resident, is not incompatible with the obligations of Chapter 13 (Cross-Border Trade in Services).
