In the interests of greater certainty in deciding whether a measure is compatible with this Agreement, the tribunal shall take due account of the national law of the Disputing Contracting Party only as a matter of fact. In doing so, the tribunal is obliged to proceed according to the prevailing interpretation of the domestic law given by the courts or authorities of that Contracting Party and any significance of the national law used by the tribunal is not binding on the courts or authorities of that Contracting Party.

3. The joint interpretation of the Contracting Parties, which they shall interpret by diplomatic means by interpreting any provision of this Agreement, shall be binding on the Tribunal and any decision or judgment given by the Tribunal shall be in accordance with this Interpretation.

Article 19. Selection of Arbitrators

1. Where an action is brought under paragraph 1 (b), (c), (d) and (e) of Article 17 of this Agreement, the tribunal shall be established as soon as possible after the action has been brought.

2. Where an action is brought under paragraph 1 (b) and (c) of Article 17 of this Agreement, the tribunal shall be governed by the ICSID Convention.

3. Unless otherwise agreed by the parties to the dispute, the tribunal shall be composed of three arbitrators. One arbitrator shall designate the claimant, the second arbitrator shall designate the host State and the third arbitrator to be the presiding arbitrator shall be a third-country national established by agreement between the complainant and the host State.

4. The claimant shall be required, together with an action, to provide the name of the arbitrator appointed by the claimant.

5. The ICSID Secretary-General shall serve as the appointing authority for arbitration under this Part C.

6. If the tribunal is not constituted within 90 days of the date of filing of the arbitration proceedings under this Part C, the appointing authority shall at the request of the claimant or the host State appoint the missing arbitrator or arbitrators at the discretion of the arbitrator. The Claimant and the Host State do not lose the right to appoint arbitrators under paragraph 3

of this Article unless the Designating Authority so does.

7. The arbitrators of the provisions of this Part C must have professional qualifications or experience in the field of public international law, in particular international investment law. It is desirable for them to have professional qualifications or experience in the area of dispute settlement resulting from international investment treaties.

8. The arbitrators and their legal secretaries shall be independent of the applicant, the host State or the government of either Contracting Party, shall not be bound by them nor receive instructions from them concerning investment matters. They may not receive instructions from any organization, government, or party to the dispute in relation to matters concerning the dispute. They may not participate in the assessment of any disputes that would constitute a direct or indirect conflict of interest. In addition, they may not act as legal adviser or expert or witness appointed by any of the parties in any ongoing or new dispute concerning the protection of investments under this or any other agreement or under the domestic law of either Contracting Party.

Article 20. Place of Arbitration

The parties to the dispute may agree on the place of any arbitration proceedings under the relevant arbitration rules under paragraph 1 (b), (c), (d) and (e) of Article 17 . If the parties to the dispute can not agree, the tribunal shall determine the place to be in the territory of the State party to the United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards of 1958, provided both Contracting Parties are Parties to this Convention.

Article 21. Preliminary Objections

1. Any objection that a dispute or any subsidiary claim is not within the jurisdiction or jurisdiction of the Tribunal shall be taken as soon as possible. The party to the dispute has the obligation to lodge an objection with the Tribunal before the expiry of the time limit set for the counterclaim, or if the allegation concerns a counterpart claim, unless the facts on which the opposition is based were unknown to the party to the dispute at that time.

2. The Tribunal may, at any stage of the proceedings, on its own initiative, consider whether a dispute or any subsidiary claim which it has decided is within its jurisdiction and within its own jurisdiction.

3. After formally lodging an objection to the dispute, the tribunal shall decide to stay the proceedings on the merits of the dispute. The chairman of the tribunal, after consultation with its other members, shall set a time limit within which the parties to the dispute may lodge statements of objection.

4. If the parties to the dispute have not agreed on a further abridged procedure for making the preliminary objections, the participant may, within 30 days of the establishment of the tribunal and in any case before the first session of the tribunal, object that the action is manifestly lacking in law. The party to the dispute should specify the grounds for his objection as precisely as possible. The Tribunal, after giving the parties to the dispute the opportunity to present their observations on the objection at its first meeting, or immediately after it, will notify the parties to the dispute of its decision on the objection. The decision of the tribunal shall not affect the right of a party to the dispute to object under paragraph 1 of this Article or to object during proceedings that the action lacks the legal basis.

5. In order to rule out any doubt, the Tribunal shall dismiss the action brought by the claimant in the event that the host State objects pursuant to this Article if,

(a) The petitioner, in his application, raised an objection to a host State measure that had not yet been approved,

(b) The complainant raised an objection to the legislative procedure of the Host State measure,

(c) The petitioner's application concerns a measure which gave rise to the exercise of a claim under this Agreement that has already been resolved by other legal remedies; or

(d) The petitioner did not fulfill the condition pursuant to paragraph 5 (c) and (d) of Article 17 .

6. If the tribunal decides that the dispute is not within its jurisdiction or within its own jurisdiction or that all actions are manifestly lacking in law, it shall issue a judgment on that basis and dismiss the action.

Article 22. Awards

1. A judgment given by a tribunal shall be binding only between the parties to the dispute in relation to that particular case.

2. The judgment handed down by the Tribunal shall be published on the basis of the mutual agreement of both parties to

the dispute. The UNCITRAL Rules on Transparency in Settlement of Disputes between Investor and State under the Contract shall be applied in the case of a judgment pronounced in a host State of the Slovak Republic.

3. Where an action is brought under paragraph 1 (b) and (c) of Article 17 of this Agreement shall be any judgment given under Articles 48 to 55 of the ICSID Convention.

4. Any verdict on the award of damages must be determined in accordance with internationally recognized valuation principles, taking into account all other necessary aspects, such as a fair balance between the public interest and the interests of the persons concerned, the purpose of the measure in question, the history of its procurement, the amount of capital invested, continuous business as a healthy business entity, profit forecasts and parties, taking into account any action by an investor that does not seek to mitigate the damage.

5. The Tribunal shall not be entitled to rule on any criminal or non-pecuniary damage.

6. If the Tribunal issues a final judgment against the defendant or the claimant with respect to defense, counterproposal, right to compensation or other similar claim under Part C of this Agreement, the Tribunal may decide alone or in combination only on

(a) Monetary compensation or, where possible, the return of assets; and

(b) The payment of any costs of arbitration and the costs of legal representation in accordance with this Agreement and the relevant rules of arbitration.

7. In the case of a judgment concerning expropriation or nationalization, any delay in payment of the compensation shall be subject to interest pursuant to paragraph 5 of Article 7 of this Agreement.

8. The Tribunal orders that the costs of the arbitration proceedings be borne by the unsuccessful party to the dispute. In exceptional circumstances, the tribunal may divide the costs between the parties to the dispute if it decides that the allocation is appropriate to the circumstances of the case. Other reasonable expenses, including attorney's fees and assistance are to be borne by the unsuccessful party to the dispute, unless the Tribunal decides that such a division is unreasonable in the circumstances of the action. In cases where the lawsuit was successful only in part, costs should be adjusted proportionately.

9. The Court may order the payment of a security to cover the cost, if it considers that there is reasonable doubt that the applicant will not be able to satisfy a judgment on the costs, or if it considers it necessary for other reasons.

Article 23. Enforcement of Awards

1. In the light of any relevant review procedures, each of the parties to the dispute shall be bound to comply with the judgment of the Tribunal and to act promptly in accordance with it. The party to the dispute may request enforcement of the judgment handed down by the arbitral tribunal within the meaning of the ICSID Convention or the New York Convention.

2. The claimant or the host State may not plead the enforcement of the final judgment if:

(a) In the case of a final judgment given under the ICSID Convention

ii. Revision or cancellation proceedings have not been completed and

ii. The court has not appealed or allowed an application for revision, annulment or annulment of the decision, and there is no further remedy.

3. A judgment issued under the ICSID Convention or the Additional relevant ICSID rules shall be subject to the relevant provisions of the ICSID Convention. A judgment given under the UNCITRAL Rules on Arbitration shall be subject to the relevant provisions of the UNCITRAL Rules of Arbitration.

4. Enforcement of the judgment shall be governed by the law governing the enforcement of judgments in the State in which such enforcement is sought.

5. The late payment interest provided for in the judgment shall not apply for the duration of the proceedings for the annulment of the judgment.

Article 24. Transparency Rules

1. The UNCITRAL Rules on Transparency in Settlement of Disputes between Investor and State under the Agreement shall apply to all international arbitration proceedings initiated against the Slovak Republic under this Agreement. The United Arab Emirates, however, reserve the right not to apply the UNCITRAL Rules on Transparency in Settlement of Disputes Between the Investor and the State under a Contract on any International Arbitral Proceedings Appealed against the United Arab Emirates under this Agreement.

2. Nothing in this Agreement or in the relevant Rules of Arbitration shall prevent the exchange of information concerning the dispute between the European Union and the Slovak Republic and vice versa.

Part D. Settlement of Disputes between the Parties

Article 25. Settlement of Disputes between the Parties

1. Any dispute between the Contracting Parties concerning the interpretation or implementation of this Agreement which is not resolved by consultation or otherwise diplomatically within 180 days shall, at the request of either Contracting Party, be submitted to arbitration which shall give rise to a binding decision or tribunal judgment in accordance with with the relevant rules of international law. Unless the parties agree otherwise, the tribunal shall establish its own procedural rules.

2. Unless the parties agree otherwise, the tribunal shall be composed of three arbitrators, each Contracting Party designating one arbitrator and the third, who shall be the Chief Judge, shall be appointed by agreement of the Contracting Parties. If the tribunal is not constituted within 75 days of the date of filing a request for arbitration under this section, then each of the Contracting Parties may request its appointment as President of the International Court of Justice. If the President of the International Court of Justice is a national of one of the Contracting Parties or if other obstacles arise for which he will not be able to perform the said function, then the Vice-President will be asked to appoint the members of the Tribunal. If it happens that the Vice-President is a national of either Contracting Party or if there are other obstacles for which he will not be able to perform the said function, then the Member of the International Court of Justice next in seniority, who is not a national of either Contracting Party following shall be called upon to appoint the members of the tribunal.

3. The costs incurred by the arbitrator and the other costs of the proceedings shall be borne by the parties in an equal manner. However, the General Court may, at its discretion, order that one of the Contracting Parties is to pay a higher proportion of the costs.

Part E. Final Provisions
