Part 1. General Provisions

Title 1. Objectives, Principles and Actors

Chapter 1. Objectives and Principles

Article 1. Objectives of the Partnership

The Community and its Member States, of the one part, and the ACP States, of the other part, hereinafter referred to as the "Parties" hereby conclude this Agreement in order to promote and expedite the economic, cultural and social development of the ACP States, with a view to contributing to peace and security and to promoting a stable and democratic political environment.

The partnership shall be centred on the objective of reducing and eventually eradicating poverty consistent with the objectives of sustainable development and the gradual integration of the ACP countries into the world economy.

These objectives and the Parties' international commitments, including the Millennium Development Goals, shall inform all development strategies and shall be tackled through an integrated approach taking account at the same time of the political, economic, social, cultural and environmental aspects of development. The partnership shall provide a coherent support framework for the development strategies adopted by each ACP State.

Sustained economic growth, developing the private sector, increasing employment and improving access to productive resources shall all be part of this framework. Support shall be given to the respect of the rights of the individual and meeting basic needs, the promotion of social development and the conditions for an equitable distribution of the fruits of growth. Regional and sub-regional integration processes which foster the integration of the ACP countries into the world economy in terms of trade and private investment shall be encouraged and supported. Building the capacity of the actors in development and improving the institutional framework necessary for social cohesion, for the functioning of a democratic society and market economy, and for the emergence of an active and organised civil society shall be integral to the approach. Systematic account shall be taken of the situation of women and gender issues in all areas: political, economic and social. The principles of sustainable management of natural resources and the environment, including climate change, shall be applied and integrated at every level of the partnership.

Article 2. Fundamental Principles

ACP-EC cooperation, underpinned by a legally binding system and the existence of joint institutions, shall be guided by the internationally agreed aid effectiveness agenda regarding ownership, alignment, harmonisation, results-oriented aid management and mutual accountability, exercised on the basis of the following fundamental principles:

- equality of the partners and ownership of the development strategies: for the purposes of implementing the objectives of the partnership, the ACP States shall determine the development strategies for their economies and societies in all sovereignty and with due regard for the essential and fundamental elements described in Article 9; the partnership shall encourage ownership of the development strategies by the countries and populations concerned; EU development partners shall align their programmes with these strategies;
- participation: apart from central government as the main partner, the partnership shall be open to ACP parliaments, and local authorities in ACP States and different kinds of other actors in order to encourage the integration of all sections of society, including the private sector and civil society organisations, into the mainstream of political, economic and social life;
- the pivotal role of dialogue and the fulfilment of mutual obligations and accountability: the obligations assumed by the Parties in the framework of their dialogue shall be central to their partnership and cooperation relations; the Parties shall work closely together in determining and implementing the necessary processes of donor alignment and harmonisation, with a view to securing a key role for ACP States in these processes;
- differentiation and regionalisation: cooperation arrangements and priorities shall vary according to a partner's level of development, its needs, its performance and its long-term development strategy. Special treatment shall be given to the least developed countries. The vulnerability of landlocked and island countries shall be taken into account. Particular emphasis shall be put on regional integration, including at continental level.

Article 3. Achievement of this Agreement's Objectives

The Parties shall, each as far as it is concerned in the framework of this Agreement, take all appropriate measures, whether general or particular, to ensure the fulfilment of the obligations arising from this Agreement and to facilitate the attainment of the objectives thereof. They shall refrain from any measures liable to jeopardise these objectives.

Chapter 2. The Actors of the Partnership

Article 4. General Approach

The ACP States shall determine the development principles, strategies and models of their economies and societies in all sovereignty. They shall establish, with the Community, the cooperation programmes provided for under this Agreement. However, the parties recognise the complementary role of and potential for contributions by non-state actors, ACP national parliaments and local decentralised authorities to the development process, particularly at the national and regional levels. To this end, under the conditions laid down in this Agreement, non-state actors, ACP national parliaments and local decentralised authorities, shall, where appropriate:

- be informed and involved in consultation on cooperation policies and strategies, on priorities for cooperation especially in areas that concern or directly affect them, and on the political dialogue;
- be provided with capacity-building support in critical areas in order to reinforce the capabilities of these actors, particularly as regards organisation and representation, and the establishment of consultation mechanisms including channels of communication and dialogue, and to promote strategic alliances.

Non-state actors and local decentralised authorities shall, where appropriate:

- be provided with financial resources, under the conditions laid down in this Agreement in order to support local development processes;
- be involved in the implementation of cooperation projects and programmes in areas that concern them or where these actors have a comparative advantage;

Article 5. Information

Cooperation will support operation to provide more information and create greater awareness of the basic features of the ACP-EU Partnership.

Cooperation will also:

- encourage partnership and build links between ACP and EU actors;
- strengthen networking and exchange of expertise and experience among the actors.

Article 6. Definitions

1. The actors of cooperation will include:

(a) State (local, regional and national), including ACP national parliaments;

(b) ACP regional organisations and the African Union. For the purpose of this Agreement the notion of regional organisations or levels shall also include sub-regional organisations or levels;

(c) Non-state:

- private sector;
- economic and social partners, including trade union organisations;
- civil society in all its forms according to national characteristics.

2. Recognition by the parties of non-state actors shall depend on the extent to which they address the needs of the population, on their specific competencies and whether they are organised and managed democratically and transparently.

Article 7. Capacity Building

The contribution of civil society to development can be enhanced by strengthening community organisations and non-profit non-governmental organisations in all spheres of cooperation. This will require:

- encouraging and supporting the creation and development of such organisations;

- establishing arrangements for involving such organisations in the design, implementation and evaluation of development strategies and programmes.

Title II. The Political Dimension

Article 8. Political Dialogue

1. The Parties shall regularly engage in a comprehensive, balanced and deep political dialogue leading to commitments on both sides.
2. The objective of this dialogue shall be to exchange information, to foster mutual understanding, and to facilitate the establishment of agreed priorities and shared agendas, in particular by recognising existing links between the different aspects of the relations between the Parties and the various areas of cooperation as laid down in this Agreement. The dialogue shall facilitate consultations and strengthen cooperation between the Parties within international fora as well as promote and sustain a system of effective multilateralism. The objectives of the dialogue shall also include preventing situations arising in which one Party might deem it necessary to have recourse to the consultation procedures envisaged in Articles 96 and 97.
3. The dialogue shall cover all the aims and objectives laid down in this Agreement as well as all questions of common, general or regional interest, including issues pertaining to regional and continental integration. Through dialogue, the Parties shall contribute to peace, security and stability and promote a stable and democratic political environment. It shall encompass cooperation strategies, including the aid effectiveness agenda, as well as global and sectoral policies, including environment, climate change, gender, migration and questions related to the cultural heritage. It shall also address global and sectoral policies of both Parties that might affect the achievement of the objectives of development cooperation.
4. The dialogue shall focus, inter alia, on specific political issues of mutual concern or of general significance for the attainment of the objectives of this Agreement, such as the arms trade, excessive military expenditure, drugs, organised crime or child labour, or discrimination of any kind, such as race, colour, sex, language, religion, political or other opinion, national or social origin, property, birth or other status. The dialogue shall also encompass a regular assessment of the developments concerning the respect for human rights, democratic principles, the rule of law and good governance.
5. Broadly based policies to promote peace and to prevent, manage and resolve violent conflicts shall play a prominent role in this dialogue, as shall the need to take full account of the objective of peace and democratic stability in the definition of priority areas of cooperation. The dialogue in this context shall fully involve the relevant ACP regional organisations and the African Union, where appropriate.
6. The dialogue shall be conducted in a flexible manner. Dialogue shall be formal or informal according to the need, and conducted within and outside the institutional framework, including the ACP Group, the Joint parliamentary Assembly, in the appropriate format, and at the appropriate level including national, regional, continental or all-ACP level.
7. Regional organisations as well as representatives of civil society organisations shall be associated with this dialogue, as well as ACP national parliaments, where appropriate.
8. Where appropriate, and in order to prevent situations arising in which one Party might deem it necessary to have recourse to the consultation procedure foreseen in Article 96, dialogue covering the essential elements shall be systematic and formalised in accordance with the modalities set out in Annex VII.

Article 9. Essential Elements Regarding Human Rights, Democratic Principles and the Rule of Law, and Fundamental Element Regarding Good Governance

1. Cooperation shall be directed towards sustainable development centred on the human person, who is the main protagonist and beneficiary of development; this entails respect for and promotion of all human rights.

Respect for all human rights and fundamental freedoms, including respect for fundamental social rights, democracy based on the rule of law and transparent and accountable governance are an integral part of sustainable development.
2. The Parties refer to their international obligations and commitments concerning respect for human rights. They reiterate their deep attachment to human dignity and human rights, which are legitimate aspirations of individuals and peoples. Human rights are universal, indivisible and interrelated. The Parties undertake to promote and protect all fundamental freedoms and human rights, be they civil and political, or economic, social and cultural. In this context, the Parties reaffirm the equality of men and women.

The Parties reaffirm that democratisation, development and the protection of fundamental freedoms and human rights are interrelated and mutually reinforcing. Democratic principles are universally recognised principles underpinning the organisation of the state to ensure the legitimacy of its authority, the legality of its actions reflected in its constitutional, legislative and regulatory system, and the existence of participatory mechanisms. On the basis of universally recognised principles, each country develops its democratic culture.

The structure of government and the prerogatives of the different powers shall be founded on rule of law, which shall entail in particular effective and accessible means of legal redress, an independent legal system guaranteeing equality before the law and an executive that is fully subject to the law.

Respect for human rights, democratic principles and the rule of law, which underpin the ACP-EU Partnership, shall underpin the domestic and international policies of the Parties and constitute the essential elements of this Agreement.

3. In the context of a political and institutional environment that upholds human rights, democratic principles and the rule of law, good governance is the transparent and accountable management of human, natural, economic and financial resources for the purposes of equitable and sustainable development. It entails clear decision-making procedures at the level of public authorities, transparent and accountable institutions, the primacy of law in the management and distribution of resources and capacity building for elaborating and implementing measures aiming in particular at preventing and combating corruption.

Good governance, which underpins the ACP-EU Partnership, shall underpin the domestic and international policies of the Parties and constitute a fundamental element of this Agreement. The Parties agree that serious cases of corruption, including acts of bribery leading to such corruption, as referred to in Article 97 constitute a violation of that element.

4. The Partnership shall actively support the promotion of human rights, processes of democratisation, consolidation of the rule of law, and good governance.

These areas will be an important subject for the political dialogue. In the context of this dialogue, the Parties shall attach particular importance to the changes underway and to the continuity of the progress achieved. This regular assessment shall take into account each country's economic, social, cultural and historical context,

These areas will also be a focus of support for development strategies. The Community shall provide support for political, institutional and legal reforms and for building the capacity of public and private actors and civil society in the framework of strategies agreed jointly between the state concerned and the Community.

The principles underlying the essential and fundamental elements as defined in this Article shall apply equally to the ACP States on the one hand, and to the European Union and its Member States, on the other hand.

Article 10. Other Elements of the Political Environment

1. The Parties consider the following elements as contributing to the maintenance and consolidation of a stable and democratic political environment:

- sustainable and equitable development involving, inter alia, access to productive resources, essential services and justice;
- greater involvement of ACP national parliaments, local decentralised authorities, where appropriate, and of an active and organised civil society and the private sector.

2. The Parties recognise that the principles of the social market economy, supported by transparent competition rules and sound economic and social policies, contribute to achieving the objectives of the partnership.

Article 11. Peace Building Policies, Conflict Prevention and Resolution, Response to Situations of Fragility

1. The Parties acknowledge that without development and poverty reduction there will be no sustainable peace and security, and that without peace and security there can be no sustainable development. The Parties shall pursue an active, comprehensive and integrated policy of peace building and conflict prevention and resolution, and human security, and shall address situations of fragility within the framework of the Partnership. This policy shall be based on the principle of ownership and shall in particular focus on building national, regional and continental capacities, and on preventing violent conflicts at an early stage by addressing their root-causes, including poverty, in a targeted manner, and with an adequate combination of all available instruments.

The Parties acknowledge that new or expanding security threats need to be addressed, such as organised crime, piracy and

trafficking of, notably, people, drugs and weapons. The impacts of global challenges like international financial market shocks, climate change and pandemics also need to be taken into account.

The Parties emphasise the important role of regional organisations in peace building and conflict prevention and resolution and in tackling new or expanding security threats with, in Africa, a key responsibility for the African Union.

2. The interdependence between security and development shall inform the activities in the field of peace building, conflict prevention and resolution which shall combine short and long-term approaches, which encompass and go beyond crisis management. Activities to tackle new or expanding security threats shall, inter alia, support law enforcement, including cooperating on border controls, enhancing the security of the international supply chain, and improving air, maritime and road transport safeguards.

Activities in the field of peace building, conflict prevention and resolution shall in particular include support for balancing political, economic, social and cultural opportunities among all segments of society, for strengthening the democratic legitimacy and effectiveness of governance, for establishing effective mechanisms for the peaceful conciliation of group interests, for active involvement of women, for bridging dividing lines among different segments of society as well as support for an active and organised civil society. In this respect, particular attention shall be paid to developing early warning systems and peace-building mechanisms that would contribute to the prevention of conflicts.

3. Relevant activities shall also include, inter alia, support for mediation, negotiation and reconciliation efforts, for effective regional management of shared, scarce natural resources, for demobilisation and reintegration of former combatants into the society, for addressing the problems of child soldiers and of violence against women and children. Suitable action shall be taken to set responsible limits to military expenditure and arms trade, including through support for the promotion and application of agreed standards and codes of conduct, as well as to combat activities that fuel conflict.

3a. Particular emphasis shall be given to the fight against antipersonnel landmines and explosive remnants of war as well as to addressing the illicit manufacture, transfer, circulation and accumulation of small arms and light weapons and their ammunition, including inadequately secured and poorly managed stocks and stockpiles and their uncontrolled spread.

The Parties agree to coordinate, observe and fully implement their respective obligations under all relevant international conventions and instruments, and, to this end, they undertake to cooperate at the national, regional and continental levels.

3b. The Parties also undertake to cooperate in the prevention of mercenary activities in accordance with their obligations under all relevant international conventions and instruments, and their respective legislations and regulations.

These areas will be an important subject for the political dialogue. In the context of this dialogue, the Parties shall attach particular importance to the changes underway and to the continuity of the progress achieved. This regular assessment shall take into account each country's economic, social, cultural and historical context,

These areas will also be a focus of support for development strategies. The Community shall provide support for political, institutional and legal reforms and for building the capacity of public and private actors and civil society in the framework of strategies agreed jointly between the state concerned and the Community.

The principles underlying the essential and fundamental elements as defined in this Article shall apply equally to the ACP States on the one hand, and to the European Union and its Member States, on the other hand.

Article 10. Other Elements of the Political Environment

1. The Parties consider the following elements as contributing to the maintenance and consolidation of a stable and democratic political environment:

- sustainable and equitable development involving, inter alia, access to productive resources, essential services and justice;
- greater involvement of ACP national parliaments, local decentralised authorities, where appropriate, and of an active and organised civil society and the private sector.

2. The Parties recognise that the principles of the social market economy, supported by transparent competition rules and sound economic and social policies, contribute to achieving the objectives of the partnership.

Article 11. Peace Building Policies, Conflict Prevention and Resolution, Response to Situations of Fragility

1. The Parties acknowledge that without development and poverty reduction there will be no sustainable peace and

security, and that without peace and security there can be no sustainable development. The Parties shall pursue an active, comprehensive and integrated policy of peace building and conflict prevention and resolution, and human security, and shall address situations of fragility within the framework of the Partnership. This policy shall be based on the principle of ownership and shall in particular focus on building national, regional and continental capacities, and on preventing violent conflicts at an early stage by addressing their root-causes, including poverty, in a targeted manner, and with an adequate combination of all available instruments.

The Parties acknowledge that new or expanding security threats need to be addressed, such as organised crime, piracy and trafficking of, notably, people, drugs and weapons. The impacts of global challenges like international financial market shocks, climate change and pandemics also need to be taken into account.

The Parties emphasise the important role of regional organisations in peace building and conflict prevention and resolution and in tackling new or expanding security threats with, in Africa, a key responsibility for the African Union.

2. The interdependence between security and development shall inform the activities in the field of peace building, conflict prevention and resolution which shall combine short and long-term approaches, which encompass and go beyond crisis management. Activities to tackle new or expanding security threats shall, inter alia, support law enforcement, including cooperating on border controls, enhancing the security of the international supply chain, and improving air, maritime and road transport safeguards.

Activities in the field of peace building, conflict prevention and resolution shall in particular include support for balancing political, economic, social and cultural opportunities among all segments of society, for strengthening the democratic legitimacy and effectiveness of governance, for establishing effective mechanisms for the peaceful conciliation of group interests, for active involvement of women, for bridging dividing lines among different segments of society as well as support for an active and organised civil society. In this respect, particular attention shall be paid to developing early warning systems and peace-building mechanisms that would contribute to the prevention of conflicts.

3. Relevant activities shall also include, inter alia, support for mediation, negotiation and reconciliation efforts, for effective regional management of shared, scarce natural resources, for demobilisation and reintegration of former combatants into the society, for addressing the problems of child soldiers and of violence against women and children. Suitable action shall be taken to set responsible limits to military expenditure and arms trade, including through support for the promotion and application of agreed standards and codes of conduct, as well as to combat activities that fuel conflict.

The Parties therefore agree to cooperate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery through full compliance with and national implementation of their existing obligations under international disarmament and non-proliferation treaties and agreements and other relevant international obligations.

The Parties agree that this provision constitutes an essential element of this Agreement.

- taking steps to sign, ratify or accede to, as appropriate, and fully implement all other relevant international instruments;
- the establishment of an effective system of national export controls, controlling the export as well as transit of weapons of mass destruction related goods, including weapons of mass destruction end-use control on dual use technologies and containing effective sanctions for breaches of export controls.

Financial and technical assistance in the area of cooperation to counter the proliferation of weapons of mass destruction will be financed by specific instruments other than those intended for the financing of ACP-EC cooperation.

3. The Parties agree to establish a regular political dialogue that will accompany and consolidate their cooperation in this area.

4. If, after having conducted a strengthened political dialogue, a Party, informed in particular by reports by the International Atomic Energy Agency (IAEA), the Organisation for the Prohibition of Chemical Weapons (OPCW) and other relevant multilateral institutions, considers that the other Party has failed to fulfil an obligation stemming from paragraph 1, it shall, except in cases of special urgency, supply the other Party and both the ACP and the EC Councils of Ministers with the relevant information required for a thorough examination of the situation with a view to seeking a solution acceptable to the Parties. Article 12. Coherence of Community Policies and Their Impact on the Implementation of this Agreement

The Parties are committed to addressing policy coherence for development in a targeted, strategic and partnership-oriented way, including strengthening dialogue on issues of policy coherence for development. The Union acknowledges that Union

policies, other than development policy, can support the development priorities of ACP States in line with the objectives of this Agreement. On this basis the Union will enhance the coherence of those policies with a view to attaining the objectives of this Agreement.

Without prejudice to Article 96, where the Community intends, in the exercise of its powers, to take a measure which might affect the interests of the ACP States, as far as this Agreement's objectives are concerned, it shall inform in good time the ACP Group of its intentions. Towards this end, the Commission shall regularly inform the Secretariat of the ACP Group of planned proposals and communicate simultaneously its proposal for such measures. Where necessary, a request for information may also take place on the initiative of the ACP States.

At their request, consultations shall be held promptly so that account may be taken of their concerns as to the impact of those measures before any final decision is made.

The Community shall support, through national and regional Cooperation programmes, the training of ACP nationals in their country of origin, in another ACP country or in a Member State of the European Union. In this connection the authorities concerned shall extend to them the administrative facilities necessary for their return.

The Member States and the ACP States will provide their nationals with appropriate identity documents for such purposes.

In respect of the Member States of the European Union, the obligations in this paragraph apply only in respect of those persons who are to be considered their nationals for the Community purposes in accordance with Declaration No 2 to the Treaty establishing the European Community. In respect of ACP States, the obligations in this paragraph apply only in respect of those persons who are considered as their nationals in accordance with their respective legal system.

(ii) at the request of a Party, negotiations shall be initiated with ACP States aiming at concluding in good faith and with due regard for the relevant rules of international law, bilateral agreements governing specific obligations for the readmission and return of their nationals. These agreements shall also cover, if deemed necessary by any of the Parties, arrangements for the readmission of third country nationals and stateless persons. Such agreements will lay down the details about the categories of persons covered by these arrangements as well as the modalities of their readmission and return.

Adequate assistance to implement these agreements will be provided to the ACP States.

(iii) for the purposes of this point (c), the term "Parties" shall refer to the Community, any of its Member States and any ACP State.

Title II. ECONOMIC AND TRADE COOPERATION

Chapter 1. Objectives and Principles

Article 34. Objectives

1. Economic and trade cooperation shall aim at fostering the smooth and gradual integration of the ACP States into the world economy, with due regard for their political choices and development priorities, thereby promoting their sustainable development and contributing to poverty eradication in the ACP countries.

2. The ultimate objective of economic and trade cooperation is to enable the ACP States to play a full part in international trade. In this context, particular regard shall be had to the need for the ACP States to participate actively in multilateral trade negotiations. Given the current level of development of the ACP countries, economic and trade cooperation shall be directed at enabling the ACP States to manage the challenges of globalisation and to adapt progressively to new conditions of international trade thereby facilitating their transition to the liberalised global economy. In this context, close attention should be paid to many ACP countries' vulnerability resulting from their dependency on commodities or a few key products, including value-added agro-industry products, and the risk of preference erosion.

3. To this end, economic and trade cooperation shall aim, through national and regional development strategies as defined in Title I, at enhancing the production, supply and trading capacity of the ACP countries as well as their capacity to attract investment. It shall further aim at creating a new trading dynamic between the Parties, at strengthening the ACP countries trade and investment policies, at reducing their dependency on commodities, at promoting more diversified economies and at improving the ACP countries' capacity to handle all issues related to trade.

4. Economic and trade cooperation shall be implemented in full conformity with the provisions of the World Trade Organisation (WTO), including special and differential treatment, taking account of the Parties' mutual interests and their

respective levels of development. It shall also address the effects of preference erosion in full conformity with multilateral commitments.

Article 35. Principles

1, Economic and trade cooperation shall be based on a true, strengthened and strategic partnership. It shall further be based on a comprehensive approach which builds on the strengths and achievements of the previous ACP-EC Conventions.

2. Economic and trade cooperation shall build on regional integration initiatives of ACP States. Cooperation in support of regional cooperation and integration as defined in Title I and economic and trade cooperation shall be mutually reinforcing. Economic and trade cooperation shall address, in particular, supply and demand side constraints, notably interconnectivity of infrastructure, economic diversification and trade development measures as a means of enhancing ACP States' competitiveness. Appropriate weight shall therefore be given to the corresponding measures in the ACP States' and regions' development strategies, which the Community shall support, in particular through the provision of aid for trade.

3. Economic and trade cooperation shall take account of the different needs and levels of development of the ACP countries and regions. In this context, the Parties reaffirm their attachment to ensuring special and differential treatment for all ACP countries and to maintaining special treatment for ACP LDCs and to taking due account of the vulnerability of small, landlocked and island countries.

Chapter 2. New Trading Arrangements

Article 36. Modalities

1. In view of the objectives and principles set out above, the Parties agree to take all the necessary measures to ensure the conclusion of new WTO-compatible Economic Partnership Agreements, removing progressively barriers to trade between them and enhancing cooperation in all areas relevant to trade.

3. The Parties agree that these new trading arrangements shall be introduced gradually.

Article 37. Procedures

1, During the negotiations of the Economic Partnership Agreements, capacity building shall be provided in accordance with the provisions of Title I and Article 35 to the public and private sectors of ACP countries, including measures to enhance competitiveness, for strengthening of regional organisations and for support to regional trade integration initiatives, where appropriate with assistance to budgetary adjustment and fiscal reform, as well as for infrastructure upgrading and development, and for investment promotion.

On the Community side trade liberalisation shall build on the acquis and shall aim at improving current market access for the ACP countries through inter alia, a review of the rules of origin. Negotiations shall take account of the level of development and the so- Geoeconomic impact of trade measures on ACP countries, and their capacity to adapt and adjust their economies to the liberalisation process. Negotiations will therefore be as flexible as possible in establishing the duration of a sufficient transitional period, the final product coverage, taking into account sensitive sectors, and the degree of asymmetry in terms of timetable for tariff dismantlement, while remaining in conformity with WTO rules then prevailing.

5, The Parties shall closely cooperate and collaborate in the WTO with a view to explaining and justifying the arrangements reached, in particular with regard to the degree of flexibility available.

6, The Parties shall discuss further how to simplify and review the rules of origin, including cumulation provisions, that apply to their exports.

Article 37A. Other Trading Arrangements

1. In the context of the current trade policy trends aiming at greater liberalisation of trade the EU and the ACP States may take part in negotiations and implementation of agreements leading to further multilateral and bilateral trade liberalisation. Such liberalisation may lead to the erosion of the preferences granted to the ACP States and affect their competitive position in the EU market, as well as their development efforts, which the EU is concerned to support.

2. In accordance with the objectives of economic and trade cooperation, the EU shall endeavour to pursue measures to overcome possible negative impacts of liberalisation, with a view to maintaining significant preferential access within the multilateral trading system for ACP States for as long as is feasible and to ensure that any unavoidable reduction in preference is phased in over as long a period as possible.

4. With a view to finding a satisfactory solution, the Parties may also bring up within the Joint Ministerial Trade Committee any other problems relating to trade which might result from measures taken or envisaged by the Member States.

5. The Parties shall inform each other of such measures in order to ensure effective consultations.

6. The Parties agree that holding consultations within, and providing information through, the institutions of an Economic Partnership Agreement on matters within the scope of such agreements shall be deemed to also satisfy the provisions of this Article and of Article 12 of this Agreement, provided that the ACP States likely to be affected are all signatories to the Economic Partnership Agreement within which the consultations were held or information was provided.

Chapter 2. Scope and Nature of Financing

Article 59.

Within the framework of the priorities established by the ACP state or states concerned at both national and regional levels, support may be given to projects, programmes and other forms of operations contributing to the objectives set out in this agreement.

Article 60. Scope of Financing

The scope of financing may include, inter alia, depending on the needs and the types of operation considered most appropriate, support to:

(a) measures which contribute to attenuate the debt burden and balance of payments problems of the ACP countries;

(b) macroeconomic and structural reforms and policies;

(c) mitigation of adverse short-term effects of exogenous shocks, including instability in export earnings on socioeconomic reforms and policies;

Article 61. Nature of Financing

1. The nature of financing shall, inter alia, include:

- (c) public financial management is sufficiently transparent, accountable and effective.

The Community shall align on the systems and procedures specific to each ACP country, monitor its budget support with the partner country and support efforts of partner countries to strengthen domestic accountability, parliamentary oversight, audit capacities and public access to information.

3. Similar direct budgetary assistance shall be granted gradually to sectoral policies in substitution for individual projects.

4. The instruments of import programmes or budgetary support defined above can also be used to support eligible ACP States implementing reforms aimed at intra-regional economic liberalisation which generate net transitional costs.

5. In the framework of the Agreement, the funds earmarked under the multi-annual financial framework of cooperation under this Agreement, own resources of the European Investment Bank (hereinafter referred to as the Bank) and where appropriate other resources drawn from the European Community's budget, shall be used to finance projects, programmes and other forms of operations contributing to the achievement of the objectives of this Agreement.

6. The funds provided under the Agreement may be used to cover the total costs of both the local and foreign expenditure of projects and programmes, including recurrent cost financing.

Title II. FINANCIAL COOPERATION

Chapter 1. Financial Resources

Article 62. Overall Amount

1. For the purposes set out in this Agreement, the overall amount of the Community's financial assistance and the detailed terms and conditions of financing are provided for in the Annexes to this Agreement.

2. Should an ACP State fail to ratify this Agreement or denounce it, the Parties shall adjust the amounts of the resources provided for in the Financial Protocol set out in Annex I. Adjustment of the financial resources shall also apply upon:

- (a) the accession to the Agreement of new ACP States which did not take part in its negotiation; and
- (b) the enlargement of the Community.

Article 63. Methods of Financing

The methods of financing for each project or programme shall be determined jointly by the ACP State or States concerned and the Community by reference to:

- (a) the level of development, the geographical situation and economic and financial circumstances of these states;
- (b) the nature of the project or programme, its economic and financial return as well as its social and cultural impact; and
- (c) in the case of loans, factors guaranteeing their servicing.

Article 64. On Lending Operations

1, Financial assistance may be made available to or through the ACP States concerned or, subject to the provisions of this Agreement through eligible financial institutions or directly to any other eligible beneficiary. Where financial assistance is granted to the final recipient through an intermediary or directly to the final beneficiary in the private sector:

- (a) the terms and conditions on which the assistance may be made available by the intermediary to the final recipient or directly to the final beneficiary in the private sector shall be laid down in the financing agreement or loan contract; and
- (b) any financial benefit accruing to the intermediary from the on lending transaction or resulting from direct lending operations to the final beneficiary in the private sector, shall be used for development purposes on the conditions laid down in the financing agreement or the loan contract, after taking into account administrative costs, exchange and financial risks and the cost of technical assistance given to the final recipient.

2. Where the financing is undertaken through an on-lending body based and/or operating in the ACP States, it shall be the responsibility of that body to select and appraise individual projects and to administer the funds placed at its disposal under the conditions provided for in this Agreement and by mutual agreement between the Parties.

Article 65. Co-financing

1. The financial resources provided for in this Agreement may be applied, at the request of the ACP States, to co-financing undertaken in particular with development agencies and institutions, Community Member States, ACP States, third countries or international or private financial institutions, firms or export credit agencies.
2. Special consideration shall be given to the possibility of co-financing in cases where Community participation will encourage the participation of other sources of finance and where such financing may lead to an advantageous financial package for the ACP State concerned.
3. Co-financing may be in the form of joint or parallel financing. Preference shall be given in each case to the solution, which is more suitable from the point of view of cost effectiveness. In addition, measures shall be taken to coordinate and harmonise operations of the Community and those of other co-financing bodies in order to minimise the number of procedures to be undertaken by the ACP States and to render those procedures more flexible.
4. The process of consultation and coordination with other donors and co-financiers should be strengthened and developed, where possible, through the establishment of co-financing framework agreements and co-financing policies and procedures should be reviewed to ensure effectiveness and the best terms and conditions possible.

Chapter 2. Debt and Structural Adjustment Support

Article 66. Support for Debt Relief

1. In order to attenuate the debt burden of the ACP States and their balance-of-payment problems, the Parties agree to use the resources provided for under the multi-annual financial framework of cooperation under this Agreement to contribute to debt relief initiatives approved at international level for the benefit of ACP countries. The Community furthermore commits itself to examine how in the longer term other Community resources can be mobilised in support of internationally agreed debt relief initiatives.
2. At the request of an ACP State, the Community may grant:
 - (a) assistance in studying and finding practical solutions to indebtedness including domestic debt, debt-servicing difficulties and balance of payments problems;
 - (b) training in debt management and international financial negotiations as well as support for training workshops, courses and seminars in these fields; and
 - (c) assistance to develop flexible techniques and instruments of debt management.

3. In order to contribute to the servicing of the debt resulting from loans from the Bank's own resources, special loans and risk capital, the ACP States may, in accordance with arrangements to be made on a case by case basis with the Commission, use the available foreign currency referred to in this Agreement for such servicing, as and when debt repayment falls due and up to the amount required for payments in national currency.

4. Given the seriousness of the international debt problem and its impact on economic growth, the Parties declare their readiness to continue to exchange views, within the context of international discussions, on the general problem of debt, and without prejudice to specific discussions taking place in the relevant fora.

Article 67. Structural Adjustment Support

1. The multi-annual financial framework of cooperation under this Agreement shall provide support for macroeconomic and sectoral reforms implemented by the ACP States. In this framework, the Parties shall ensure that adjustment is economically viable and socially and politically bearable. Support shall be given in the context of a joint assessment between the Community and the ACP State concerned on the reform measures being undertaken or contemplated either at macroeconomic or sectoral level, and permit an overall evaluation of the reform efforts. To the extent possible the joint assessment shall be aligned on country specific arrangements and the support monitored on the basis of results achieved. Quick disbursement shall be an important feature of support programmes.

2. The ACP States and the Community recognise the necessity to encourage reform programmes at regional level ensuring that, in the preparation and execution of national programmes, due consideration is given to regional activities which have an influence on national development. To this end, support for structural adjustment shall also seek to:

(a) incorporate, from the beginning of the diagnosis, measures to encourage regional integration and take account of the consequences of trans border adjustment;

(b) support the harmonisation and coordination of macroeconomic and sectoral policies, including fiscal and customs areas, so as to fulfil the dual aim of regional integration and of structural reform at national level; and

(c) take account of the effects of net transitional costs of regional integration on budget revenue and balance of payments, either through general import programmes or budgetary support.

3. ACP States undertaking or contemplating reform at the macroeconomic or sectoral level shall be eligible for structural adjustment assistance, giving consideration to the regional context, their effectiveness and the likely impact on the economic, social and political dimension of development and on economic and social hardships being experienced.

4. The ACP States undertaking reform programmes that are acknowledged and supported at least by the principal multilateral donors, or that are agreed with such donors but not necessarily financially supported by them, shall be treated as having automatically satisfied the requirements for adjustment assistance.

5. Structural adjustment support shall be mobilised in a flexible manner and in the form of sectoral and general import programmes or budgetary support.

6. The preparation, appraisal and financing decision for structural adjustment programmes shall be carried out according to the provisions on implementation procedures of this Agreement with due regard to the quick disbursing feature of structural adjustment programmes. On a case-by-case basis, retroactive financing of a limited part of imports of ACP-EC origin may be permissible.

7. The implementation of each support programme shall ensure that the eligibility of ACP economic operators for access to the resources of the programme is as wide and transparent as possible and that the procurement procedures accord with the administrative and commercial practices in the state concerned, while ensuring the best possible price/quality ratio on imported goods and the necessary consistency with the progress achieved internationally for harmonising the procedures for supporting structural adjustment.

Chapter 3. Support In Case of Exogenous Shocks

Article 68.

1. The Parties recognise that macroeconomic instability resulting from exogenous shocks may adversely affect the development of the ACP States and jeopardise the attainment of their development requirements. A system of additional support in order to mitigate the short-term adverse effects resulting from exogenous shocks, including the effects on export earnings, is therefore set up within the multi-annual financial framework of cooperation under this Agreement.

2. The purpose of this support is to safeguard socioeconomic reforms and policies that could be affected negatively as a result of a drop in revenue and to remedy the short-term adverse effects of such shocks.
3. The extreme dependence of the ACP States' economies on exports, in particular from the agricultural and mining sectors, shall be taken into account in the allocation of resources. In this context, the least developed, landlocked and island, post-conflict and post-natural disaster ACP States shall receive more favourable treatment.
4. The additional resources shall be provided in accordance with the specific modalities of the support mechanism as set out in Annex II on Terms and Conditions of Financing.
5. The Community shall also provide support for market-based insurance schemes designed for ACP States seeking to protect themselves against short-term effects of exogenous shocks.

Chapter 4. Support for Sectoral Policies

Article 69.

1. Cooperation shall support, through the various instruments and modalities provided for in the Agreement:

- (a) social and economic sectoral policies and reforms;
- (b) measures to enhance productive sector activity and export competitiveness;
- (c) measures to expand social sector services; and
- (d) thematic and cross cutting issues.

2. This support shall be provided as appropriate through:

- (a) sectoral programmes;
- (b) budgetary support;
- (c) investments;
- (d) rehabilitation;
- (e) training;
- (f) technical assistance; and
- (g) institutional support.

Chapter 5. Microprojects and Decentralised Cooperation

Article 70.

In order to respond to the needs of local communities with regard to development, and to encourage all agents of decentralised cooperation which are in a position to contribute to the autonomous development of the ACP States to put forward and implement initiatives, cooperation shall support, within the framework laid down in the rules and national legislation of the ACP States concerned and the provisions of the indicative programme, such development operations. In this context, cooperation shall support:

- (a) micro projects at local level which have an economic and social impact on the life of the people, meet a demonstrated and observed priority need, and shall be undertaken at the initiative and with the active participation of the local community which shall benefit therefrom; and
- (b) decentralised cooperation, in particular where such operations combine efforts and resources of decentralised agents from the ACP States and their counterparts from the Community. This form of cooperation shall enable the mobilisation of capabilities, innovative operating methods and resources of decentralised agents for the development of the ACP State.

Article 71.

1. Microprojects and decentralised cooperation operations may be supported from the financial resources of the

Agreement. Projects or programmes under this form of cooperation may or may not be linked to programmes in the sectors of concentration of the indicative programmes, but may be a way of achieving the specific objectives of the indicative programme or the results of initiatives by local communities or decentralised agents.

2. Contributions for the financing of micro-projects and decentralised cooperation shall be made by the Fund, in which case the contribution shall not normally exceed three quarters of the total cost of each project and may not exceed the limit set in the indicative programme. The remaining balance shall be provided:

(a) by the local community concerned in case of micro-projects (either in kind or in the form of services or cash and adapted to its capacity to contribute);

(b) by the agents of decentralised cooperation, provided that the financial, technical, material and other resources brought in by such agents shall not normally be less than 25 % of the estimated cost of the project/programme; and

(c) exceptionally by the ACP State concerned, either in the form of a financial contribution or through the use of public equipment or the supply of services.

3. The procedures applicable to projects and programmes financed within the framework of microprojects or decentralised cooperation shall be those laid down in the Agreement, in particular those referred to in multi-annual programmes.

Chapter 6. Humanitarian, Emergency and Post-emergency Assistance

Article 72. General Principle

1. Humanitarian, emergency and post-emergency assistance shall be provided in situations of crisis. Humanitarian and emergency assistance shall aim to save and preserve life and to prevent and relieve human suffering wherever the needs arise. Post-emergency assistance shall aim at rehabilitation and linking the short-term relief with longer term development programmes,

2. Situations of crisis, including long-term structural instability or fragility are situations posing a threat to law and order or to the security and safety of individuals, threatening to escalate into armed conflict or to destabilise the country. Situations of crisis may also result from natural disasters, man-made crises such as wars and other conflicts or extraordinary circumstances having comparable effects related, inter alia, to climate change, environmental degradation, access to energy and natural resources, or extreme poverty.

3. The humanitarian, emergency and post-emergency assistance shall be maintained for as long as necessary to deal with the needs resulting from these situations for the victims, thereby linking relief, rehabilitation and development.

4. The humanitarian assistance shall be granted exclusively according to the needs and interests of the victims of the crisis situation and in line with the principles of international humanitarian law and with respect to humanity, neutrality, impartiality and independence. In particular, there shall be no discrimination between victims on grounds of race, ethnic origin, religion, gender, age, nationality or political affiliation and free access to and protection of victims shall be guaranteed as well as the security of humanitarian personnel and equipment.

5. The humanitarian, emergency and post-emergency assistance shall be financed under the multi-annual financial framework of cooperation under this Agreement, where such assistance cannot be financed from the Union's Budget. Humanitarian, emergency and post-emergency assistance shall be implemented in complementarity and coordination with the Member States' efforts and in accordance with best practice in aid effectiveness.

Article 72A. Objective

1. Humanitarian and emergency assistance shall aim to:

(a) safeguard human lives in crises and immediate post-crisis situations;

(b) contribute to the financing and delivery of humanitarian aid and to the direct access to it of its intended beneficiaries by all logistical means available;

(c) carry out short-term rehabilitation and reconstruction to enable the victims to benefit from a minimum of socioeconomic integration and, as soon as possible, create the conditions for a resumption of development on the basis of long-term objectives set by the ACP countries and regions concerned;

(d) address the needs arising from the displacement of people (refugees, displaced persons and returnees) following natural or man-made disasters so as to meet, for as long as necessary, all the needs of refugees and displaced persons (wherever they may be) and facilitate action for their voluntary repatriation and reintegration in their country of origin; and

(e) assist the ACP State or region in setting up short-term disaster prevention and preparedness mechanisms, including for prediction and early warning, with a view to reducing the consequences of disasters.

2. Assistance may be granted to ACP States or regions taking in refugees or returnees to meet acute needs not covered by emergency assistance.

3. Post-emergency action shall aim at physical and social rehabilitation consequent to the results of the crisis concerned and may be undertaken to link the short-term relief and rehabilitation with the relevant longer term development programmes funded from the national, regional indicative programmes or the intra-ACP programme. Such actions must be necessary for the transition from the emergency phase to the development phase, promoting the socioeconomic reintegration of the parts of the population affected, removing as far as possible the causes of the crisis and strengthening institutions and the ownership by local and national actors of their role in formulating a sustainable development policy for the ACP country concerned.

4. Where appropriate, short-term disaster prevention and preparedness mechanisms as referred to in paragraph 1(e) will be coordinated with other disaster prevention and preparedness mechanisms in place.

The development and strengthening of national, regional and all-ACP disaster risk reduction and management mechanisms shall assist ACP States to build their resilience to the impact of disasters. All related activities may be pursued in cooperation with regional and international organisations and programmes that have a proven track record in disaster risk reduction.

Article 73. Implementation

1. Assistance operations shall be undertaken either at the request of the ACP country or region affected by the crisis situation, or at the initiative of the Commission, or on the advice of international organisations or local or international non-state organisations.

2. The Community shall take adequate steps to facilitate speedy action, which is required to meet the immediate needs for which the assistance is needed. The assistance shall be administered and implemented under procedures permitting operations that are rapid, flexible and effective.

3. Underlining the developmental nature of the assistance granted in accordance with this Chapter, assistance may be used exceptionally together with the indicative programme at the request of the state or region concerned.

Chapter 7. Investment and Private Sector Development Support

Article 74.

Cooperation shall, through financial and technical assistance, support the policies and strategies for investment and private sector development as set out in this Agreement.

The ACP States, the Community and its Member States, within the scope of their respective competencies, recognising the importance of private investment in the promotion of their development cooperation and acknowledging the need to take steps to promote such investment, shall:

 - (i) to facilitate dialogue within the ACP/EU private sector and between the ACP/EU private sector and the bodies established under the Agreement;
 - (ii) to analyse and periodically provide the relevant bodies with information on the whole range of issues concerning relations between the ACP and EU private sectors in the context of the Agreement or, more generally, of economic relations between the Community and the ACP countries; and
 - (iii) to analyse and provide the relevant bodies with information on specific problems of a sectoral nature relating to, inter alia, branches of production or types of products at regional or sub-regional level.

Article 76. Investment Finance and Support

1. Cooperation shall provide long-term financial resources, including risk capital, to assist in promoting growth in the private sector and help to mobilise domestic and foreign capital for this purpose. To this end, cooperation shall provide, in particular:
 - (a) grants for financial and technical assistance to support policy reforms, human resource development, institutional capacity-building or other forms of institutional support related to a specific investment, measures to increase the competitiveness of enterprises and to strengthen the capacities of the private financial and non-financial intermediaries, investment facilitation and promotion and competitiveness enhancement activities;
 - (b) advisory and consultative services to assist in creating a responsive investment climate and information base to guide and encourage the flow of capital;
 - (c) risk capital for equity or quasi-equity investments, guarantees in support of domestic and foreign private investment and loans or lines of credit on the conditions laid down in Annex II "Terms and Conditions of Financing" to this Agreement; and
 - (d) loans from the Bank's own resources and the Investment Facility, the terms and conditions of which are set out in Annex II to this Agreement. Such loans may also be used to finance public investment in basic infrastructure.
2. Loans from the Bank's own resources shall be granted in accordance with its statute and with the terms and conditions laid down in Annex II to this Agreement.

Article 77. Investment Guarantees

1. Investment guarantees are an increasingly important tool for development finance as they contribute to reducing project risks and inducing private capital flows. Cooperation shall therefore ensure the increasing availability and use of risk insurance as a risk mitigating mechanism in order to boost investor confidence in the ACP States.
2. Cooperation shall offer guarantees and assist with guarantees funds covering risks for qualified investment. Specifically, cooperation shall provide support to:
 - (a) reinsurance schemes to cover foreign direct investment by eligible investors; against legal uncertainties and the major risks of expropriation, currency transfer restriction, war and civil disturbance, and breach of contract. Investors may insure projects for any combination of the four types of coverage;
 - (b) guarantee programmes to cover risk in the form of partial guarantees for debt financing. Both partial risk and partial credit guarantee shall be available; and
 - (c) national and regional guarantee funds, involving, in particular, domestic financial institutions or investors for encouraging

the development of the financial sector.

3. Cooperation shall also provide support to capacity-building, institutional support and participation in the core funding of national and/or regional initiatives to reduce the commercial risks for investors (inter alia guarantee funds, regulatory bodies, arbitration mechanisms and judiciary systems to enhance the protection of investments improving the export credit systems).

4. Cooperation shall provide such support on the basis of complementary and added value with respect to private and/or public initiatives and, whenever feasible, in partnership with private and other public organisations. The ACP and the EC will within the framework of the ACP-EC Development Finance Cooperation Committee undertake a joint study on the proposal to set up an ACP-EC Guarantee Agency to provide and manage investment guarantee programmes.

Article 78. Investment Protection

1. The ACP States and the Community and its Member States, within the scope of their respective competencies, affirm the need to promote and protect either Party's investments on their respective territories, and in this context affirm the importance of concluding, in their mutual interest, investment promotion and protection agreements which could also provide the basis for insurance and guarantee schemes.

2. In order to encourage European investment in development projects of special importance to, and promoted by the ACP States, the Community and the Member States, on the one hand and the ACP States on the other, may also conclude agreements relating to specific projects of mutual interest where the Community and European enterprises contribute towards their financing.

3. The Parties also agree to introduce, within the economic partnership agreements, and while respecting the respective competencies of the Community and its Member States, general principles on protection and promotion of investments, which will endorse the best results agreed in the competent international fora or bilaterally.

Title III. Technical Cooperation

Article 79.

Technical cooperation shall assist the ACP States in the development of national and regional manpower resources, the sustained development of the institutions critical for development success, including inter alia strengthening ACP consulting firms and organisations, as well as exchange arrangements involving consultants from both ACP and EU firms.

2. Furthermore, technical cooperation, shall be cost-effective and relevant to the need for which it is intended, and shall also favour the transfer of know-how and increase national and regional capabilities. Technical cooperation shall contribute to the achievement of project and programme goals, including efforts to strengthen management capacity of the National and Regional Authorising Officers. Technical assistance shall:

3. Technical assistance may be provided in all areas of cooperation and within the limits of the mandate of this Agreement. The activities covered would be diverse in scope and nature, and would be tailored to meet the needs of the ACP States.

4. Technical cooperation may be either of a specific or a general nature. The ACP- EC Development Finance Cooperation Committee shall establish the guidelines for the implementation of technical cooperation.

Article 80.

Title IV. Procedures and Management Systems

Article 81. Procedures

Management procedures shall be transparent, easy to apply and shall enable the decentralisation of tasks and responsibilities to the field. The implementation of ACP-EU development cooperation shall be open to non-State actors in areas that concern them. The Council of Ministers may review, revise and amend these provisions on the basis of a recommendation from the ACP-EC Development Finance Cooperation Committee.

- (a) a third state in a comparable situation accedes to this Agreement; and
- (b) the economic situation of an ACP State changes considerably and durably to the extent that it needs to be included in the least developed category or its inclusion in that category is no longer justified.

2. The list of island ACP states is given in Annex VI. It may be amended by decision of the Council of Ministers when a third state in a comparable situation accedes to the Agreement.

Article 90.

The provisions adopted in respect of the island ACP States are contained in the following Articles: 2, 32, 35, 56, 68, 84, 89.

Part 6. FINAL PROVISIONS

Article 91. Conflict between this Agreement and other Treaties

No treaty, convention, agreement or arrangement of any kind between one or more Member States of the Community and one or more ACP States may impede the implementation of this Agreement.

Article 92. Scope of Territorial Application

Subject to the special provisions regarding the relations between the ACP States and the French overseas departments provided for therein, this Agreement shall apply, on the one hand, to the territories in which the Treaty establishing the European Community is applied and under the conditions laid down in that Treaty and, on the other hand, to the territories of the ACP States.

Article 93. Ratification and Entry Into Force

1. This Agreement shall be ratified or approved by the signatory Parties in accordance with their respective constitutional rules and procedures.

2. The instruments of ratification or approval of this Agreement shall be deposited in the case of the ACP States, with the General Secretariat of the Council of the European Union and in the case of the Community and the Member States, with the General Secretariat of the ACP States. The Secretariats shall promptly notify the signatory states and the Community.

3. This Agreement shall enter into force on the first day of the second month following the date of deposit of the instruments of ratification of the Member States and of at least two thirds of the ACP States, and of the instrument of approval of this Agreement by the Community.

4. An ACP signatory state that has not completed the procedures set out in paragraphs 1 and 2 by the date on which this Agreement enters into force as provided for in paragraph 3 may do so only within the 12 months following that date, without prejudice to the provisions of paragraph 6.

For such states this Agreement shall become applicable on the first day of the second month following the completion of these procedures. These states shall recognise the validity of any measure taken to implement the Agreement after the date of its entry into force.

5. The rules of procedure of the joint institutions set up under this Agreement shall lay down the conditions under which the representatives of signatory states referred to in paragraph 4 may attend those institutions as observers.

6. The Council of Ministers may decide to accord special support to ACP States party to previous ACP-EC Conventions which,

in the absence of normally established government institutions, have not been able to sign or ratify this Agreement. This support may concern institution building and economic and social development activities, taking particular account of the needs of the most vulnerable sections of the population. In this context, such countries will be able to draw on the funds provided for in Part 4 of this Agreement for financial and technical cooperation.

By way of derogation from paragraph 4, the countries concerned which are signatories to the Agreement may complete the ratification procedures within twelve months of the restoration of government institutions.

The countries concerned which have neither signed nor ratified the Agreement may accede to it by means of the accession procedure provided for in Article 94.

Article 94. Accession

1. Any request for accession to this Agreement made by an independent state whose structural characteristics and economic and social situation are comparable to those of the ACP States shall be presented to the Council of Ministers.

If the request is approved by the Council of Ministers, the state concerned shall accede to this Agreement by depositing an act of accession with the General Secretariat of the Council of the European Union, which shall send a certified copy to the ACP Secretariat and notify the Member States. The Council of Ministers may lay down any amending measures that might be necessary.

The state concerned shall enjoy the same rights and be subject to the same obligations as the ACP States. Its accession may not infringe on the benefits enjoyed by the ACP States signatory to this Agreement under the provisions on development cooperation financing. The Council of Ministers may lay down the conditions and specific arrangements for the accession of an individual state in a special protocol that shall form an integral part of the Agreement.

2. The Council of Ministers shall be advised of any request made by a third state to become a member of an economic grouping of ACP States.

3. The Council of Ministers shall be advised of any request made by a third state to become a member of the European Union. The ACP Secretariat shall be notified by the Community of any accession to the European Union.

Any new Member State of the European Union shall become a Party to this Agreement from the date of its accession by means of a clause to that effect in the act of accession. If the act of accession to the Union does not provide for such automatic accession of the Member State to this Agreement, the Member State concerned shall accede by depositing an act of accession with the General Secretariat of the Council of the European Union, which shall send a certified copy to the ACP Secretariat and notify the Member States.

The Parties shall review the effects of the accession of new Member States on this Agreement. The Council of Ministers may decide on any transitional or amending measures that might be necessary.

2. Financial protocols are defined for each five-year period.

3. The Community and the Member States, on the one hand, and the ACP States, on the other, shall notify the other Party not later than 12 months before the expiry of each five-year period of any review of the provisions they desire to make with a view to a possible amendment of the Agreement. Notwithstanding this time limit, if one Party requests the review of any provisions of the Agreement, the other Party shall have a period of two months in which to request the extension of the review to other provisions related to those which were the subject of the initial request.

Ten months before the expiry of this five-year period, the Parties shall enter into negotiations with a view to examining any possible amendments to the provisions that were the subject of the notification.

Article 93 shall also apply to the amendments made.

The Council of Ministers shall adopt any transitional measures that may be required in respect of the amended provisions until they come into force.

4. Eighteen months before the end of the total period of the Agreement, the Parties shall enter into negotiations in order to examine what provisions shall subsequently govern their relations.

The Council of Ministers shall adopt any transitional measures that may be required until the new Agreement comes into force.

Article 96. Essential Elements: Consultation Procedure and Appropriate Measures as Regards Human Rights, Democratic Principles and the Rule of Law

1. Within the meaning of this Article, the term "Party" refers to the Community and the Member States of the European Union, of the one part, and each ACP State, of the other part.

1a) Both Parties agree to exhaust all possible options for dialogue under Article 8, except in cases of special urgency, prior to commencement of the consultations referred to in paragraph 2(a) of this Article.

2.(a) If, despite the political dialogue on the essential elements as provided for under Article 8 and paragraph 1a of this Article, a Party considers that the other Party fails to fulfil an obligation stemming from respect for human rights, democratic principles and the rule of law referred to in Article 9(2), it shall, except in cases of special urgency, supply the other Party and the Council of Ministers with the relevant information required for a thorough examination of the situation with a view to seeking a solution acceptable to the Parties. To this end, it shall invite the other Party to hold consultations that focus on the measures taken or to be taken by the Party concerned to remedy the situation in accordance with Annex VII.

The consultations shall be conducted at the level and in the form considered most appropriate for finding a solution.

The consultations shall begin no later than 30 days after the invitation and shall continue for a period established by mutual agreement, depending on the nature and gravity of the violation. In no case shall the dialogue under the consultations procedure last longer than 120 days.

If the consultations do not lead to a solution acceptable to both Parties, if consultation is refused or in cases of special urgency, appropriate measures may be taken. These measures shall be revoked as soon as the reasons for taking them no longer prevail.

(b) The term "cases of special urgency" shall refer to exceptional cases of particularly serious and flagrant violation of one of the essential elements referred to in paragraph 2 of Article 9, that require an immediate reaction.

(c) The Party resorting to the special urgency procedure shall inform the other Party and the Council of Ministers separately of the fact unless it does not have time to do so.

The "appropriate measures" referred to in this Article are measures taken in accordance with international law, and proportional to the violation. In the selection of these measures, priority must be given to those which least disrupt the application of this agreement.

It is understood that suspension would be a measure of last resort.

If measures are taken in cases of special urgency, they shall be immediately notified to the other Party and the Council of Ministers. At the request of the Party concerned, consultations may then be called in order to examine the situation thoroughly and, if possible, find solutions. These consultations shall be conducted according to the arrangements set out in the second and third subparagraphs of paragraph (a).

Article 97. Consultation Procedure and Appropriate Measures as Regards Corruption

1. The Parties consider that when the Community is a significant partner in terms of financial support to economic and sectoral policies and programmes, serious cases of corruption should give rise to consultations between the Parties.

2. In such cases either Party may invite the other to enter into consultations. Such consultations shall begin no later than 30 days after the invitation and dialogue under the consultation procedure shall last no longer than 120 days.

3. If the consultations do not lead to a solution acceptable to both Parties or if consultation is refused, the Parties shall take the appropriate measures. In all cases, it is above all incumbent on the Party where the serious cases of corruption have occurred to take the measures necessary to remedy the situation immediately. The measures taken by either Party must be proportional to the seriousness of the situation. In the selection of these measures, priority must be given to those which least disrupt the application of this agreement. It is understood that suspension would be a measure of last resort.

4. Within the meaning of this Article, the term "Party" refers to the Community and the Member States of the European Union, of the one part, and each ACP State, of the other part.

Article 98. Dispute Settlement

1. Any dispute arising from the interpretation or application of this Agreement between one or more Member States or the Community, on the one hand, and one or more ACP States on the other, shall be submitted to the Council of Ministers.

Between meetings of the Council of Ministers, such disputes shall be submitted to the Committee of Ambassadors.

2.(a) If the Council of Ministers does not succeed in settling the dispute, either Party may request settlement of the dispute by arbitration. To this end, each Party shall appoint an arbitrator within thirty days of the request for arbitration. In the event of failure to do so, either Party may ask the Secretary General of the Permanent Court of Arbitration to appoint the second arbitrator.

(b) The two arbitrators shall in turn appoint a third arbitrator within thirty days. In the event of failure to do so, either Party may ask the Secretary General of the Permanent Court of Arbitration to appoint the third arbitrator.

(c) Unless the arbitrators decide otherwise, the procedure applied shall be that laid down in the optional arbitration regulation of the Permanent Court of Arbitration for International Organisations and States. The arbitrators' decisions shall be taken by majority vote within three months.

(d) Each Party to the dispute shall be bound to take the measures necessary to carry out the decision of the arbitrators.

(e) For the application of this procedure, the Community and the Member States shall be deemed to be one Party to the dispute.

Article 99. Denunciation Clause

This Agreement may be denounced by the Community and its Member States in respect of each ACP State and by each ACP State in respect of the Community and its Member States, upon six months' notice.

Article 100. Status of the Texts

The Protocols and Annexes attached to this Agreement shall form an integral part thereof. Annexes Ia, Ib, II, III, IV and VI may be revised, reviewed and/or amended by the Council of Ministers on the basis of a recommendation from the ACP-EC Development Finance Cooperation Committee.

These resources shall be granted for the purposes set out in Annex II "Terms and conditions of financing" to this Agreement in accordance with the conditions provided for by its statutes and the relevant provisions of the terms and conditions for investment financing as laid down in the aforementioned Annex. The Bank may, from the resources it manages, contribute to the financing of regional projects and programmes.

5. Any balances remaining from previous EDFs on the date of entry into force of this Financial Protocol, as well as any amounts that shall be decommitted at a later date from ongoing projects under these Funds, shall be transferred to the 9th EDF and shall be used in accordance with the conditions laid down in this Agreement. Any resources thus transferred to the 9th EDF that previously had been allocated to the indicative programme of an ACP State or region shall remain allocated to that state or region. The overall amount of this Financial Protocol, supplemented by the transferred balances from previous EDFs, will cover the period of 2000-07.

6. The Bank shall administer the loans made from its own resources, as well as the operations financed under the Investment Facility. All other financial resources of this Agreement shall be administered by the Commission.

7. Before the expiry of this Financial Protocol, the Parties shall assess the degree of realisation of commitments and disbursements. This assessment shall constitute the basis for re-evaluating the overall amount of resources as well for evaluating the need for new resources to support financial cooperation under this Agreement.

8. In the event of the funds provided for in any of the instruments of the Agreement being exhausted before the expiry of this Financial Protocol, the joint ACP- EC Council of Ministers shall take the appropriate measures.

9. By derogation from Article 58 of this Agreement, an amount of EUR 90 million shall be transferred to the intra ACP envelope under the 9th EDF. This amount may be allocated to finance devolution for the period 2006-07, and shall be managed directly by the Commission.

Member States may also co-finance projects or programmes, for example in the framework of specific initiatives to be managed by the Commission or the EIB. 8. Any Member State may provide the Commission or the EIB with voluntary contributions to support the objectives of the ACP-EU Partnership Agreement. Member States may also co-finance projects or programmes, for example in the framework of specific initiatives to be managed by the Commission or the EIB. ANNEX II. TERMS AND CONDITIONS OF FINANCING

Chapter 1. Investment Financing

Article 1.

1. The terms and conditions of financing in relation to the operations of the Investment Facility (Facility), the loans from own resources of the European Investment Bank (Bank) and special operations shall be as laid down in this Chapter. These resources may be channelled to eligible enterprises, either directly or indirectly, through eligible investment funds and/or financial intermediaries.

2. Funds for interest rate subsidies, as provided for under this Annex, will be made available from the interest subsidy allocation specified in Annex Ib, paragraph 2(c), to this Agreement.

3. Interest subsidies may be capitalised or may be used in the form of grants. The amount of the interest rate subsidy, calculated in terms of its value at the times of disbursement of the loan, shall be charged against the interest subsidy allocation specified in Annex Ib, paragraph 2(c), and paid directly to the Bank. Up to 15 % of this allocation for interest rate subsidies may also be used to support project related technical assistance in ACP countries (3).

4. These terms and conditions are without prejudice to terms and conditions that may be imposed upon ACP countries subject to restrictive borrowing conditions under the Heavily Indebted Poor Countries ("HIP") or other internationally agreed debt sustainability frameworks. Accordingly, where such frameworks require a reduction in the interest rate of a loan by more than 3 %, as permitted under Articles 2 and 4 of this Chapter, the Bank shall seek to reduce the average cost of funds through appropriate co-financing with other donors. Should this not be deemed possible, the interest rate of the Bank loan may be reduced by such amount as required to comply with the level arising from the HIPC initiative or any internationally agreed debt sustainability framework.

Article 2. Resources of the Investment Facility

1. The resources of the Facility may be used, inter alia, to:

(a) provide risk capital in the form of:

(i) equity participation in ACP enterprises, including financial institutions;

(ii) quasi-capital assistance to ACP enterprises, including financial institutions; and

(iii) guarantees and other credit enhancements which may be used to cover political and other investment-related risks, both for foreign and local investors or lenders.

(b) provide ordinary loans.

2. Equity participation shall normally be for non-controlling minority holdings and shall be remunerated on the basis of the performance of the project concerned.

3. Quasi-capital assistance may consist of shareholders' advances, convertible bonds, conditional, subordinated and participating loans or any other similar form of assistance. Such assistance may consist in particular of:

(a) conditional loans, the servicing and/or the duration of which shall be linked to the fulfilment of certain conditions with regard to the performance of the project; in the specific case of conditional loans for pre-investment studies or other project-related technical assistance, servicing may be waived if the investment is not carried out;

(b) participating loans, the servicing and/or the duration of which shall be linked to the financial return of the project; and

(c) subordinated loans, which shall be repaid only after other claims have been settled.

4. The remuneration of each operation shall be specified when the loan is made. However:

(a) in the case of conditional or participating loans, the remuneration shall normally comprise a fixed interest rate of not more than 3 % and a variable component related to the performance of the project; and

(b) in the case of subordinated loans, the interest rate shall be market related.

5. Guarantees shall be priced so as to reflect the risks insured and the particular characteristics of the operation.

6. The interest rate of ordinary loans shall comprise a reference rate applied by the Bank for comparable loans with the same terms and conditions as to grace and repayment periods and a mark up determined by the Bank.

7. Ordinary loans in countries not subject to restrictive borrowing conditions under the HIPC or other internationally agreed

debt sustainability frameworks may be extended on concessional terms and conditions in the following cases:

(a) for infrastructure projects, that are a prerequisite for private sector development in the Least Developed Countries, in post-conflict countries and in post-natural disaster countries. In such cases, the interest rate of the loan will be reduced by up to 3%;

(d) seek to channel funds through ACP national and regional institutions and programmes that promote the development of small-and medium-sized enterprises (SMEs).

For the first two years after the entry into force of the second financial protocol, this remuneration shall be up to an amount of 2 % p.a. of the total initial endowment of the Investment Facility. Thereafter, the remuneration of the Bank shall include a fixed component of 0.5 % p.a. of the initial endowment and a variable component of an amount of up to 1.5 % p.a. of the portfolio of the Investment Facility that is invested in projects in ACP countries, The remuneration shall be financed out of the Investment Facility.

2. On expiry of the Financial Protocol, and in the absence of a specific decision by the Council of Ministers, the cumulative net reflows to the Investment Facility shall be carried over to the next Protocol.

Article 4. Bank Own Resource Loans

3. For investments financed by the Bank from its own resources in public sector companies, specific project-related guarantees or undertakings may be required from the ACP State concerned.

Article 5. Conditions for Foreign Exchange Rate Risk

(b) in the case of ordinary loans and risk capital financing for small- and medium-sized enterprises (SMEs), the exchange rate risk shall, as a general rule, be shared by the Community, on the one hand, and by the other Parties involved, on the other. Chapter 3. Financing for Short-term Fluctuations In Export Earnings (FLEX)

Article 8.

1. The Parties recognise that losses of export earnings as a result of short-term fluctuations may jeopardise the development financing requirements and the implementation of macroeconomic and sectoral policies. The degree of dependence of an ACP State's economy on the export of goods, and in particular from agricultural and mining products shall, therefore, be a criterion for determining the allocation of long-term development.

2. In order to mitigate the adverse effects of instability of export earnings and safeguard the development programme jeopardised by the drop in revenue, additional financial support may be mobilised from the programmable resources for the country's long-term development on the basis of Articles 9 and 10.

Article 9. Eligibility Criteria

1. Eligibility for additional resources shall be established by:

- 10 % (2 % in the case of least-developed, landlocked, island, post-conflict and post-natural disaster states) loss of export earnings from goods compared with the arithmetic mean of the earnings in the four years preceding the application year, excluding the most extreme value, or
- 10 % (2 % in the case of least-developed, landlocked, island, post-conflict and post-natural disaster states) loss of export earnings from the total of agricultural or mineral products compared with the arithmetic mean of the earnings in the four years preceding the application year, excluding the most extreme value for countries where the agricultural or mineral export earnings represent more than 40 % of total export earnings from goods, or
- 10 % (2 % in the case of least-developed, landlocked, island, post-conflict and post-natural disaster states) loss of export earnings from the total of agricultural or mineral products compared with the arithmetic mean of the earnings in the four years preceding the application year, excluding the most extreme value for countries where the agricultural or mineral export earnings represent between 20% and 40 % of total export earnings from goods, provided that total earnings do not increase more than proportionally with respect to the impact of the loss of export earnings from agricultural or mineral products as a proportion of total exports.

2. The loss of export earnings defined in paragraph 1 must be 0.5 % of gross domestic product (GDP) or more for there to be entitlement to additional support. Entitlement to additional support shall be limited to three successive years.

3. The additional resources shall be reflected in the public accounts of the country concerned, They shall be utilised in accordance with programming rules and methods including the specific provisions in Annex IV "Implementation and management procedures", on the basis of agreements drawn up in advance between the Community and the ACP State concerned in the year following the application. By agreement of both Parties the resources may be used to finance programmes included in national budget. However a part of the additional resources may be set aside for specific sectors, in

particular to develop market-based insurance schemes offering protection against the risk of fluctuations in export earnings.

Article 9A.

1. The amount of additional financial support shall be equal to the loss of export earnings multiplied by the arithmetic mean of the "government revenue/ gross domestic product" ratio of the four years preceding the application year, excluding the most extreme value and capping that ratio at 25 %.
2. The Commission shall analyse the data provided by the ACP States for the purpose of establishing eligibility and additional financial support as defined in Article 9 in the local currency corrected for inflation. The Commission will then convert the potential amount of additional financial support into euro in accordance with its procedures.
3. Each year, within the total financial allocation for national indicative programmes, the Commission shall establish an envelope covering all ACP countries to provide support in the event of short-term fluctuations in export earnings. If the amount of financial support calculated on the basis of the criteria defined in Article 9 exceeds the amount of that envelope, each ACP State's share will be established in proportion to the potential amount of its additional financial support expressed in euro.

Article 10. Advances

The system for allocating additional resources shall provide for advances to cover any delays in obtaining consolidated trade statistics and to ensure that the resources in question can be included in the budget of the second year following the application year at the latest. Advances shall be reserved for states where Flex financial support can be implemented by means of general budgetary support. They shall be mobilised on the basis of provisional export statistics drawn up by the government and submitted to the Commission. The maximum advance shall be 100 % of the amount of additional financial support for the application year. The amounts thus mobilised shall be adjusted in the light of the final consolidated export statistics. Those statistics shall be submitted no later than 31 December of the second year following the application year.

Article 11.

The provisions in this Chapter shall be subject to review at the latest after two years of operation and subsequently at the request of either Party.

Chapter 4. Other Provisions

Where one or more ACP State or one or more Member State of the Community is in serious balance of payments difficulties, or under threat thereof, the ACP State, the Member State or the Community may, in accordance with the conditions established under the GATT, GATS and Article VIII and XIV of the Articles of Agreement of the International Monetary Fund, adopt restrictions on current transactions which shall be of limited duration and may not go beyond what is necessary to remedy the balance of payments situation. The Party taking the measures shall inform the other Parties forthwith and shall submit to them as soon as possible a timetable for the elimination of the measures concerned.

Article 13. Qualification and Treatment of Business Entities

As regards arrangements that may be applied in matters of establishment and provision of services, the ACP States, on the one hand, and the Member States, on the other, shall treat nationals and companies or firms of the ACP States and nationals and companies or firms of the Member States respectively on a non-discriminatory basis. However, if, for a given activity, an ACP State or a Member State is unable to provide such treatment, the ACP State or the Member State, as the

case may be, shall not be bound to accord such treatment for that activity to the nationals and companies or firms of the state concerned.

Article 14. Definition of "companies and Firms"

1. For the purpose of this Agreement, "companies or firms of a Member State or an ACP State" mean companies or firms constituted under civil or commercial law, including corporations, whether public or otherwise, cooperative societies and other legal persons and partnerships governed by public or private law, save for those which are non-profit-making, formed in accordance with the law of a Member State or an ACP State and whose statutory office, central administration or principal place of business is a Member State or an ACP State.

Programming will be based on the principles of ownership, alignment, donor coordination and harmonisation, managing for development results and mutual accountability.

Programming for this purpose shall mean:

(a) the preparation and development of country, regional or intra-ACP strategy papers (SP) based on their own medium-term development objectives and strategies, and taking into account the principles of joint programming and division of labour among donors, which shall, to the extent possible, be a partner country or region-led process;

(a) new needs may result from exceptional circumstances such as crisis and post-crisis situations or from unforeseen needs as referred to in paragraph 2(b);

(b) exceptional performance is a situation in which, outside the mid-term and end-of-term reviews, a country's programmable allocation is totally committed and additional funding from the national indicative programme can be absorbed against a background of effective poverty-reduction policies and sound financial management.

Article 4. Preparation and Adoption of the Indicative Programme

1. Upon receipt of the information referred to above, each ACP State shall draw up and submit to the Community a draft indicative programme on the basis of and consistent with its development objectives and priorities as expressed in the CSP. The draft indicative programme shall contain:

5. When an ACP State faces a crisis situation as the result of a war or other conflict, or exceptional circumstances with a comparable effect, preventing the National Authorising Officer from carrying out his duty, the Commission may it- self manage the resources allocated to the State in question in accordance with Article 3 and use it for special support. Special support may concern peace building policies, conflict management and resolution, post-conflict support, including institution-building, economic and social development activities, taking particular account of the needs of the most vulnerable sections of the population. The Commission and the ACP State concerned shall revert to normal implementation and normal management procedures as soon as the authorities responsible for managing cooperation are able to do so once more.

(b) determine any causes of delay in implementation and propose suitable measures to remedy the situation.

4. The annual operational, mid-term and end-of-term reviews of the indicative programme shall consist of a joint assessment of the implementation of the programme and take into account the results of relevant activities of monitoring and evaluation. These reviews shall be conducted locally and shall be finalised between the National Authorising Officer and the Commission, in consultation with the appropriate stakeholders, including non-state actors, local authorities and, where relevant, ACP parliaments. They shall in particular cover an assessment of:

(a) the results achieved in the focal sector(s) measured against the identified targets and impact indicators and sectoral policy commitments;

5. The Commission shall submit once a year a synthesis report on the conclusion of the annual operational review to the ACP-EU Development Finance Cooperation Committee. The Committee shall examine the report in accordance with its responsibilities and powers under the Agreement.

6. In the light of the annual operational reviews, the National Authorising Officer and the Commission may at the mid-term and end-of-term reviews, review and adapt the CSP:

(a) where operational reviews indicate specific problems; and/or

(b) in the light of changed circumstances of an ACP State.

A change in the CSP may also be decided as a result of the ad hoc review process foreseen under paragraph 2.

The end-of-term review may also include adaptation for the new multi-annual financial framework of cooperation in terms of both resource allocation and preparation for the next programme.

7. Following the completion of the mid-term and end-of-term reviews, the Commission may, on behalf of the Community, increase or decrease the resource allocation of a country in the light of current needs and performance of the ACP State concerned.

Following an ad hoc review as foreseen under paragraph 2, the Commission may, on behalf of the Community, also increase the resource allocation in the light of new needs or exceptional performance of the ACP State concerned, as defined in Article 3(4).

Chapter 2. Programming and Preparation (Regional)

Article 6. Scope

1. Regional cooperation shall cover operations benefiting and involving:

(a) two or more or all ACP States as well as any non-ACP developing countries participating in these operations, and/or

(b) a regional body of which at least two ACP States are members, including those with members which are non-ACP countries.

2. Regional cooperation can also involve Overseas Countries and Territories and outermost regions. The funding to enable participation of these territories shall be additional to funds allocated to the ACP States under the Agreement.

3. Requests for financing of regional programmes shall be submitted by:

(a) a duly mandated regional body or organisation; or

(b) a duly mandated sub-regional body, organisation or an ACP State in the region concerned at the programming stage, provided that the operation has been identified in the regional indicative programme (RIP).

4. The participation of non-ACP developing countries to regional programmes shall be envisaged only to the extent that:

(a) the centre of gravity of the projects and programmes funded under the multi-annual financial framework of cooperation remains in an ACP country;

(b) equivalent provisions exist in the framework of the Community's financial instruments; and

(c) the principle of proportionality is respected.

Article 7. Regional Programmes

The ACP States concerned shall decide on the definition of geographical regions. To the maximum extent possible, regional integration programmes should correspond to programmes of existing regional organisations. In principle, in case the

membership of several relevant regional organisations overlaps, the regional integration programme should correspond to the combined membership of these organisations.

Article 8. Regional Programming

1. Programming shall take place at the level of each region. The programming shall be a result of an exchange of views between the Commission and the duly mandated regional organisation(s) concerned, and in the absence of such a mandate, the National Authorising Officers of the countries in that region. Where appropriate, programming may include a consultation with non-state actors represented at regional level and, where relevant, regional parliaments.

2. The regional strategy paper (RSP) shall be prepared by the Commission and the duly mandated regional organisation(s) in collaboration with the ACP States in the region concerned, on the basis of the principle of subsidiarity and complementarity, taking into account the programming of the CSP.

3. The RSP will be an instrument to prioritise activities and to build local ownership of supported programmes. The RSP shall include the following standard elements:

- (a) an analysis of the political, economic and social and environmental context of the region;
- (b) an assessment of the process and prospects of regional economic integration and integration into the world economy;
- (c) an outline of the regional strategies and priorities pursued and the expected financing requirements;
- (d) an outline of relevant activities of other external partners in regional cooperation;
- (e) an outline of the specific EU contribution towards achievement of the goals for regional integration, complementary insofar as possible to operations financed by the ACP States themselves and by other external partners, particularly the EU Member States; and
- (f) an indication of the most appropriate support and implementation mechanisms to be applied in implementing the above strategies.

Article 9. Resource Allocation

1. The indicative resource allocation among ACP regions shall be based on standard, objective and transparent estimates of needs and the progress and prospects in the process of regional cooperation and integration.

2. The allocated resources shall comprise:

- (a) a programmable allocation to cover support to regional integration, sector policies, programmes and projects in support of the focal or non-focal areas of Community assistance; and
- (b) an allocation for each ACP region to cover unforeseen needs such as those defined in Articles 72, 72a and 73 of this Agreement where, given the cross-border nature and/or scope of the unforeseen need, such support can more effectively be provided at regional level. These funds shall be accessible under the conditions set out in Articles 72, 72a and 73 of this Agreement, where such support cannot be financed from the Union's budget. Complementarity between interventions provided for under this allocation and possible interventions at country level shall be ensured.

3. The programmable allocation shall facilitate the long-term programming of Community aid for the region concerned. In order to achieve an adequate scale and to increase efficiency, regional and national funds may be mixed for financing regional operations with a distinct national component.

A regional allocation for unforeseen needs may be mobilised to the benefit of the region concerned and of ACP countries outside the region where the nature of the unforeseen need requires their involvement and the centre of gravity of the projects and programmes envisaged remains on the region.

4. Without prejudice to Article 11 concerning reviews, the Community may, in order to take account of new needs or exceptional performance, increase a region's programmable allocation or its allocation for unforeseen needs:

- (a) new needs are needs resulting from exceptional circumstances such as crisis and post-crisis situations or from unforeseen needs as referred to in paragraph 2(b);
- (b) exceptional performance is a situation in which, outside the mid-term and end-of-term reviews, a region's allocation is totally committed and additional funding from the regional indicative programme can be absorbed against a background of

effective regional integration and sound financial management.

Article 10. Regional Indicative Programme

1. On the basis of the resource allocation indicated above, the duly mandated regional organisation(s), and in the absence of such a mandate, the National Authorising Officers of the countries in the region, shall draw up a draft Regional Indicative Programme. In particular, the draft programme shall specify:

- (a) the focal sectors and themes of Community aid;
- (b) the most appropriate measures and operations to achieve the objectives set for those sectors and themes; and
- (c) the programmes and projects enabling those objectives to be attained, in-sofar as they have been clearly identified as well as an indication of the resources to be deployed for each of these elements and a timetable for their implementation

2. The Regional Indicative Programmes shall be adopted by common agreement between the Community and the duly mandated regional organisation(s) or, in the absence of such a mandate, the ACP States concerned.

Article 11. Review Process

1. Financial cooperation between each ACP region and the Community shall be sufficiently flexible to ensure that operations are kept constantly in line with the objectives of this Agreement and to take account of any changes occurring in the economic situation, priorities and objectives of the region concerned. A mid-term and end-of-term review of the regional indicative programmes shall be undertaken to adapt the indicative programme to evolving circumstances and to ensure that they are correctly implemented. Following the completion of mid-term and end-of-term reviews, the Community may revise the resource allocation in the light of current needs and performance.

2. In exceptional circumstances as referred to in Article 9(4), in order to take into account new needs or exceptional performance, the review can be carried out on the demand of either Party. As a result of an ad hoc review, a change in the RSP may be decided by both Parties and/or the resource allocation increased by the Commission on behalf of the Community.

The end-of-term review may also include adaptation for the new multi-annual financial framework of cooperation in terms of both resource allocation and preparation for the next regional indicative programme.

Article 12. Intra-ACP Cooperation

1. Intra-ACP cooperation shall, as an instrument of development, contribute to the objective of the ACP-EC Partnership. The Intra-ACP cooperation is a supra-regional cooperation. It aims to address the shared challenges facing ACP States through operations that transcend the concept of geographic location and benefit many or all ACP States.

2. In keeping with the principles of subsidiarity and complementarity, an intra-ACP intervention is envisaged when national and/or regional action proves impossible or less effective, so as to provide added value in comparison to the operations carried out with other cooperation instruments.

3. When the ACP Group decides to contribute to international or inter-regional initiatives from the intra-ACP fund, appropriate visibility shall be ensured.

Article 12. A Intra-ACP Strategy Paper

1. The programming of the Intra-ACP cooperation shall be the result of an exchange of views between the Commission and the ACP Committee of Ambassadors, and shall be jointly prepared by the Commission services and the ACP Secretariat, following consultations with relevant actors and stakeholders.

2. The Intra-ACP strategy paper defines the priority actions of the Intra-ACP cooperation and actions necessary to build ownership of supported programmes. It shall include the following standard elements:

- (a) an analysis of the political, economic, social and environmental context of the ACP Group of States;
- (b) an assessment of Intra-ACP cooperation as to its contribution to achieving the objectives of this Agreement and lessons learnt;

- (c) an outline of the Intra-ACP strategy and objectives pursued and the expected financing requirements;
- (d) an outline of relevant activities of other external partners in the cooperation; and
- (e) an indication of the EU contribution towards achievement of the objectives of the Intra-ACP cooperation and its complementarity to operations financed at the national and regional levels and by other external partners, particularly the EU Member States.

Article 12B. Requests for Financing

Requests for financing of intra-ACP programmes shall be submitted:

- (a) directly by the ACP Council of Ministers or the ACP Committee of Ambassadors; or
- (b) indirectly by:
 - (i) at least three duly mandated regional bodies or organisations belonging to different geographic regions, or at least two ACP States from each of the three regions;
 - (ii) international organisations, such as the African Union, carrying out operations that contribute to the objectives of regional cooperation and integration, subject to prior approval by the ACP Committee of Ambassadors; or
 - (iii) the Caribbean or Pacific regions, in view of their particular geographic situation, subject to prior approval by the ACP Council of Ministers or the ACP Committee of Ambassadors.

Article 12. Resource Allocation

The indicative resource allocation shall be based on the estimates of needs and the progress and prospects in the process of Intra-ACP cooperation. It shall comprise a reserve of non-programmed funds.

Article 13. Intra-acp Indicative Programme

1. The Intra-ACP indicative programme comprises the following main standard elements:

- (a) focal sectors and themes of Community aid;
- (b) the most appropriate measures and actions for achieving the objectives set for the focal sectors and themes; and
- (c) the programmes and projects necessary to achieve the objectives identified, insofar as they have been clearly identified, as well as an indication of the resources to be allocated to each of them and an implementation timetable.

2. The Commission and the ACP Secretariat shall identify and appraise the corresponding actions. On this basis, the intra-ACP indicative programme shall be jointly prepared by the services of the Commission and the ACP Secretariat and presented to the ACP-EC Committee of Ambassadors. It shall be adopted by the Commission, on behalf of the Community and by the ACP Committee of Ambassadors.

3. Without prejudice to point (iii) of Article 12b(b), the ACP Committee of Ambassadors shall present each year a consolidated list of requests for financing of the priority actions foreseen in the Intra-ACP indicative programme. The Commission shall identify and prepare the corresponding actions with the ACP Secretariat as well as an annual action programme. To the extent possible and in consideration of the allocated resources, requests for financing of actions not foreseen in the Intra-ACP indicative programme shall be included in the annual action programme. In exceptional cases, these requests are adopted through a special financing decision of the Commission.

Article 14. Review Process

1. Intra-ACP cooperation should be sufficiently flexible and reactive to ensure that its actions remain consistent with the objectives of this Agreement and to take account of any changes in the priorities and objectives of the ACP Group of States.

2. The ACP Committee of Ambassadors and the Commission shall undertake a mid-term and end-of-term review of the intra-ACP cooperation strategy and indicative programme to adapt it to current circumstances and ensure its correct implementation. If circumstances so require, ad hoc reviews may also be conducted to take account of new needs which may arise from exceptional or unforeseen circumstances, such as those arising from new challenges which are common to ACP countries.

3. The ACP Committee of Ambassadors and the Commission may, at the mid-term and end-of-term reviews, or after an ad hoc review, review and adapt the Intra-ACP cooperation strategy paper.
4. Following the mid-term and end-of-term review exercises, or ad hoc re-views, the ACP Committee of Ambassadors and the Commission may adjust the allocations within the intra-ACP indicative programme and mobilise the non-programmed Intra-ACP reserve.

Chapter 3. Appraisal and Financing

Article 15. Identification, Preparation and Appraisal of Programmes and Projects

1. Programmes and projects that have been presented by the ACP State concerned or the relevant organisation or body at regional or intra-ACP level shall be subject to joint appraisal. The ACP-EC Development Finance Cooperation Committee shall develop the general guidelines and criteria for appraisal of programmes and projects. These programmes and projects are generally multi-annual and may incorporate a whole range of actions of a limited size in a particular area.
2. Programme and project dossiers prepared and submitted for financing must contain all information necessary for the appraisal of the programmes and projects or, where programmes and projects have not been completely defined, provide the broad outlines necessary for their appraisal.
3. Programme and project appraisal shall take due account of national human resource constraints and ensure a strategy favourable to the promotion of such resources. It shall also take into account the specific characteristics and constraints of each ACP State or region.
4. Programmes and projects to be implemented by non-state actors which are eligible in accordance with this Agreement may be appraised by the Commission alone and give rise to the establishment, between the Commission and non-state actors, of grant contracts as defined in Article 19a. This appraisal shall comply with Article 4(1)(d) regarding the types of actors, their eligibility and the type of activity to be supported. The Commission, through the Head of Delegation, shall inform the relevant Authorising Officer of such allocated grants.

Article 16. Financing Proposal and Decision

1. The conclusions of the appraisal shall be summarised in a financing proposal, the final version of which shall be drawn up by the Commission in close collaboration with the ACP State concerned or the relevant organisation or body at regional or intra-ACP level.
2. [deleted]
3. [deleted]
4. The Commission, acting on behalf of the Community, shall communicate its financing decision to the ACP State concerned or the relevant organisation or body at regional or intra-ACP level within 90 days from the date on which the final version of the financial proposal is drawn up.
5. Where the financing proposal is not adopted by the Commission on behalf of the Community, the ACP State concerned or the relevant organisation or body at regional or intra-ACP level shall be informed immediately of the reasons for that decision. In such a case, the representatives of the ACP State concerned or the relevant organisation or body at regional or intra-ACP level may, within 60 days thereafter, request either:
 - (a) that the matter be referred to the ACP-EC Development Finance Cooperation Committee set up under this Agreement; or
 - (b) that they be given a hearing by the Community's representatives.
6. Following such a hearing, a definitive decision to adopt or reject the financing proposal shall be taken by the Commission on behalf of the Community. Before any decision is taken, the ACP State concerned or the relevant organisation or body at regional or intra-ACP level may forward to the Commission any facts which may appear necessary to supplement the information available to it.

Article 17. Financing Agreement

1. As a rule, programmes and projects financed by the multi-annual financial framework of cooperation are subject to a financing agreement drawn up by the Commission and the ACP State or the relevant organisation or body at regional or

intra-ACP level.

2. The financing agreement shall be drawn up within 60 days following the communication of the financing decision taken by the Commission. The financing agreement shall:

(a) specify, in particular, the details of the Community's financial contribution, the financing arrangements and terms and the general and specific provisions relating to the programme or project concerned, including expected outcomes and results; and

(b) make adequate provision for appropriations to cover cost increases, contingencies, audits and evaluations.

3. Any unexpended balance left upon closure of the accounts of programmes and projects within the timeframe for commitments of the multi-annual financial framework of cooperation from which the programmes and projects have been funded shall accrue to the ACP State or the relevant organisation or body at regional or intra-ACP level.

Article 18. Overrun

1. Once it appears that there is a risk of cost over-runs over and above the financing available under the financing agreement, the relevant Authorising Officer shall notify the Commission and request its prior approval on the measures which the relevant Authorising Officer intends to take in order to cover such cost overruns, either by reducing the scale of the programme or project or by calling on national or other non-Community resources.

2. If it is not possible to reduce the scale of the programme or project or to cover the overruns with other resources, the Commission, acting on behalf of the Community, may, on the basis of a reasoned request from the relevant Authorising Officer, take an additional financing decision on resources from the indicative programme.

Article 19. Retroactive Financing

1. In order to ensure early project start-up, avoid gaps between sequential projects and prevent delays, the ACP States or the relevant organisation or body at regional or intra-ACP level may, on completion of project appraisal and before the financing decision is taken, pre-finance activities linked to the start-up of programmes, preliminary and seasonal work, orders for equipment with long delivery lead times as well as some ongoing operations. Such expenditure shall satisfy the procedures provided for in this Agreement.

2. Any expenditure referred to in paragraph 1 shall be mentioned in the financing proposal and shall be without prejudice to the financing decision taken by the Commission on behalf of the Community.

3. Expenditure made by the ACP State or the relevant organisation or body at regional or intra-ACP level under this Article shall be retroactively financed under the programme or project, once the financing agreement is signed.

Chapter 4. Implementation

Article 19A. Implementation Measures

1. Implementation of programmes and projects financed from the multi-annual financial framework of cooperation under this Agreement shall consist chiefly of the following:

(a) awarding of procurement contracts;

(b) awarding of grants;

(c) performance by direct labour;

(d) direct payments as budgetary support, support for sectoral programmes, debt relief and support to mitigate the adverse effects resulting from short-term exogenous shocks including fluctuations of exports earnings.

2. In the context of this Annex, procurement contracts are contracts for pecuniary interest concluded in writing in order to obtain, against payment of a price, the supply of movable assets, the execution of works or the provision of services.

3. In the context of this Annex, grants are direct financial contributions awarded by way of a donation in order to finance:

(a) either an action designed to help achieve an objective of this Agreement or of a programme or project adopted in accordance with this Agreement, or

(b) the functioning of a body which pursues such an objective.

Grants shall be covered by a written contract.

Article 19B. Tender Procedure with Suspension Clause

In order to ensure early project start-up, the ACP States or the relevant organisation or body at regional or intra-ACP level may, in all duly substantiated cases and in agreement with the Commission, issue invitations to tender for all types of contracts with a suspension clause, once project appraisal is completed but before the financing decision is taken. Such a provision must be mentioned in the financing proposal.

Article 19C. Awarding Contracts, Awarding Grants and Performing Contracts

1. Except as provided for in Article 26, contracts and grants shall be attributed and implemented according to Community rules and, except in the specific cases provided for by these rules, according to the standard procedures and documentation set and published by the Commission for the purposes of implementing cooperation actions with third countries and in force at the time the procedure in question is launched.

2. In decentralised management, where a joint assessment shows that the procedures for awarding contracts and grants in the ACP State or the recipient region or the procedures approved by the fund providers are in accordance with the principles of transparency, proportionality, equal treatment and non-discrimination and preclude any kind of conflict of interest, the Commission shall use these procedures, in accordance with the Paris Declaration and without prejudice to Article 26, in full respect of the rules governing the exercise of its powers in this field.

3. The ACP State or the relevant organisation or body at regional or intra-ACP level shall undertake to check regularly that the operations financed from the multi-annual financial framework of cooperation under this Agreement have been properly implemented, to take appropriate measures to prevent irregularities and fraud, and, if necessary, to take legal action to recover unduly paid funds.

4. In decentralised management, contracts are negotiated, established, signed and performed by the ACP States or the relevant organisation or body at regional or intra-ACP level. These states or the relevant organisation or body at regional or intra-ACP level may, however, call upon the Commission to negotiate, establish, sign and perform contracts on their behalf.

5. Pursuant to the commitment referred to in Article 50 of this Agreement, contracts and grants financed from resources from the multi-annual financial framework of cooperation with the ACP shall be performed in accordance with internationally recognised basic standards in the field of labour law.

6. An expert group of representatives of the Secretariat of the ACP Group of States and the Commission shall be set up to identify, at the request of one or other of the parties, any appropriate alterations and to suggest amendments and improvements to the rules and procedures referred to in paragraphs 1 and 2.

This expert group shall also submit a periodic report to the ACP-EC Development Finance Cooperation Committee to assist it in its task of examining the problems surrounding the implementation of development cooperation activities and proposing appropriate measures.

Article 20. Eligibility

Save where a derogation is granted in accordance with Article 22, and without prejudice to Article 26:

1. Participation in procedures for the awarding of procurement contracts or grants financed from the multi-annual financial framework of cooperation under this Agreement shall be open to:

(a) all natural persons who are nationals of, or legal persons who are established in, an ACP State, a Member State of the European Community, an official candidate country of the European Community or a Member State of the European Economic Area;

(b) all natural persons who are nationals of, or legal persons who are established in, a Least Developed Country as defined by the United Nations.

1a. Participation in procedures for the awarding of procurement contracts or grants financed from the multi-annual financial framework of cooperation under this Agreement shall be open to all natural persons who are nationals of, or legal persons established in, any country other than those referred to in paragraph 1, where reciprocal access to external

assistance has been established. Reciprocal access in the Least Developed Countries as defined by the United Nations shall be automatically granted to the OECD/DAC members.

Reciprocal access shall be established by means of a specific Commission decision concerning a given country or a given regional group of countries. The decision shall be adopted by the Commission in agreement with the ACP States and shall be in force for a minimum period of one year.

2. Services under a contract financed from the multi-annual financial framework of cooperation under this Agreement may be provided by experts of any nationality, without prejudice to the qualitative and financial requirements set out in the Community's procurement rules.

3. Supplies and materials purchased under a contract financed from the multi-annual financial framework of cooperation under this Agreement must originate in a state that is eligible under paragraphs 1 or 1a. In this context, the definition of the concept of "originating products" shall be assessed by reference to the relevant international agreements, and supplies originating in the Community shall include supplies originating in the Overseas Countries and Territories.

4. Participation in procedures for the awarding of procurement contracts or grants financed from the multi-annual financial framework of cooperation under this Agreement shall be open to international organisations.

5. Whenever the multi-annual financial framework of cooperation under this Agreement finances an operation implemented through an international organisation, participation in procedures for the awarding of procurement contracts or grants shall be open to all natural and legal persons who are eligible under paragraphs 1 or 1a, and to all natural and legal persons who are eligible according to the rules of the organisation, care being taken to ensure equal treatment of all donors. The same rules apply for supplies and materials.

6. Whenever the multi-annual financial framework of cooperation under this Agreement finances an operation implemented as part of a regional initiative, participation in procedures for the awarding of procurement contracts or grants shall be open to all natural and legal persons who are eligible under paragraphs 1 or 1a, and to all natural and legal persons from a country participating in the relevant initiative. The same rules apply for supplies and materials,

7. Whenever the multi-annual financial framework of cooperation under this Agreement finances an operation co-financed with a third state, participation in procedures for the awarding of procurement contracts or grants shall be open to all natural and legal persons eligible under paragraphs 1 or 1a, and to all persons eligible under the rules of the above mentioned third state. The same rules apply for supplies and materials.

Article 22. Derogations

1. In exceptional duly substantiated circumstances, natural or legal persons from third countries not eligible under Article 20 may be authorised to participate in procedures for the awarding of procurement contracts or grants financed by the Community from the multi-annual financial framework of cooperation under this Agreement at the justified request of the ACP State or the relevant organisation or body at regional or intra-ACP level. The ACP State or the relevant organisation or body at regional or intra-ACP level shall, on each occasion, provide the Commission with the information needed to decide on such derogation, with particular attention being given to:

- (a) the geographical location of the ACP State or region concerned;
- (b) the competitiveness of contractors, suppliers and consultants from the Member States and the ACP States;
- (c) the need to avoid excessive increases in the cost of performance of the contract;
- (d) transport difficulties or delays due to delivery times or other similar problems;
- (e) technology that is the most appropriate and best suited to local conditions;
- (f) cases of extreme urgency; (g) the availability of products and services in the relevant markets.

2. In the case of projects financed from the Investment Facility, the procurement rules of the Bank shall apply.

Article 23. Competition

Article 24. Implementation by Direct Labour

1. In the case of direct labour operations, programmes and projects shall be implemented through public or semi-public agencies or departments of the ACP State or States concerned or by the legal person responsible for executing the operation.

2. The Community shall contribute to the costs of the department involved by providing the equipment and/or materials that it lacks and/or resources to allow it to acquire additional staff required in the form of experts from within the ACP States concerned or other ACP States. The Community's participation shall cover only costs incurred by supplementary measures and temporary expenditure relating to execution that are strictly confined to the requirements of the programmes and projects in question.

3. Programme estimates implementing direct-labour operations must comply with the Community rules, procedures and standard documents laid down by the Commission, as applicable at the time of approval of the programme estimates.

Article 25. Emergency Assistance Contracts

[Deleted]

Article 26. Preferences

1. Measures shall be taken to encourage the widest participation of the natural and legal persons of ACP States in the performance of contracts financed by the multi-annual financial framework of cooperation under this Agreement in order to permit the optimisation of the physical and human resources of those States. To this end:

(a) for works contracts of a value of less than EUR 5 000 000, tenderers of the ACP States, provided that at least one quarter of the capital stock and management staff originates from one or more ACP States, shall be accorded a 10 % price preference where tenders of an equivalent economic, technical and administrative quality are compared;

(b) for supply contracts, irrespective of the value of the supplies, tenderers of the ACP States who offer supplies of at least 50 % in contract value of ACP origin, shall be accorded a 15 % price preference where tenders of equivalent economic, technical and administrative quality are compared;

(c) in respect of service contracts, where tenders of equivalent economic and technical quality are compared, preference shall be given to:

(i) experts, institutions or consultancy companies or firms from ACP States with the required competence;

(ii) offers submitted by ACP firms, either individually or in a consortium with European partners; and

(iii) offers presented by European tenderers with ACP sub-contractors or experts;

(d) where subcontracting is envisaged, preference shall be given by the successful tenderer to natural persons, companies and firms of ACP States capable of performing the contract required on similar terms; and

(e) the ACP State may, in the invitation to tender, propose to the prospective tenderers the assistance of other ACP States' companies or firms or national experts or consultants selected by mutual agreement. This cooperation may take the form either of a joint venture, or of a subcontract or of on-the-job training of trainees.

2. Where two tenders are acknowledged to be equivalent on the basis of the criteria stated above, preference shall be given:

(a) to the tenderer of an ACP State; or

(b) if no such tender is forthcoming, to the tenderer who:

(i) allows for the best possible use of the physical and human resources of the ACP States;

(ii) offers the greatest subcontracting possibilities for ACP companies, firms or natural persons; or

(iii) is a consortium of natural persons, companies and firms from ACP States and the Community.

Article 30. Settlement of Disputes

Any dispute arising between the authorities of an ACP State or the relevant organisation or body at regional or intra-ACP level and a contractor, supplier or provider of services during the performance of a contract financed by the multi-annual financial framework of cooperation under this Agreement shall:

(a) in the case of a national contract, be settled in accordance with the national legislation of the ACP State concerned; and

(b) in the case of a transnational contract be settled either:

(i) if the Parties to the contract so agree, in accordance with the national legislation of the ACP State concerned or its established international practices; or

(ii) by arbitration in accordance with the procedural rules which will be adopted by decision of the Council of Ministers at the first meeting following the signing of this Agreement, upon the recommendation of the ACP-EC Development Finance Cooperation Committee.

Article 31. Tax and Customs Arrangements

1. The ACP States shall apply to contracts financed by the Community tax and customs arrangements no less favourable than those applied by them to the most favoured states or international development organisations with which they have relations. For the purpose of determining the most-favoured-nation (MFN) treatment, account shall not be taken of arrangements applied by the ACP State concerned to other ACP States, or to other developing countries.

2. Subject to the above provisions the following shall apply to contracts financed by the Community:

(a) the contract shall not be subject in the beneficiary ACP State to stamp or registration duties or to fiscal charges having equivalent effect, whether such charges already exist or are to be instituted in the future; however, such contracts shall be registered in accordance with the laws in force in the ACP State and a fee corresponding to the service rendered may be charged for it;

(b) profits and/or income arising from the performance of contracts shall be taxable according to the internal fiscal arrangements of the ACP State concerned, provided that the natural or legal persons who realise such profit and/or income have a permanent place of business in that state, or that the performance of the contract takes longer than six months;

(c) enterprises which must import professional equipment in order to carry out works contracts shall, if they so request, benefit from the system of temporary admission as laid down by the national legislation of the beneficiary ACP State in respect of the said equipment;

(d) professional equipment necessary for carrying out tasks defined in a service contract shall be temporarily admitted into the beneficiary ACP State or States in accordance with its national legislation free of fiscal, import and customs duties and of other charges having equivalent effect where these duties and charges do not constitute remuneration for services rendered;

(e) imports under supply contracts shall be admitted into the beneficiary ACP State without customs duties, import duties, taxes or fiscal charges having equivalent effect. The contract for supplies originating in the ACP State concerned shall be concluded on the basis of the ex-works price of the supplies to which may be added such internal fiscal charges as may be applicable to those supplies in the ACP State;

(f) fuels, lubricants and hydrocarbon binders and, in general, all materials used in the performance of works contracts shall

be deemed to have been purchased on the local market and shall be subject to fiscal rules applicable under the national legislation in force in the beneficiary ACP State; and

(g) personal and household effects imported for use by natural persons, other than those recruited locally, engaged in carrying out tasks defined in a service contract and members of their families, shall be exempt from customs or import duties, taxes and other fiscal charges having equivalent effect, within the limit of the national legislation in force in the beneficiary ACP State.

3. Any matter not covered by the above provisions on tax and customs arrangements shall remain subject to the national legislation of the ACP State concerned.

Chapter 5. Monitoring and Evaluation

Article 32. Objectives

The objective of monitoring and evaluation shall consist in the regular assessment of development operations (preparation, implementation and subsequent operation) with a view to improving the development effectiveness of ongoing and future operations.

Article 33. Modalities

1. Without prejudice to evaluations carried out by the ACP State or the relevant organisation or body at regional or intra-ACP level or the Commission, this work will be done jointly by the ACP State(s) or the relevant organisation or body at regional or intra-ACP level and the Community. The ACP-EC Development Finance Cooperation Committee shall ensure the joint character of the joint monitoring and evaluation operations. In order to assist the ACP-EC Development Finance Cooperation Committee, the Commission and the ACP General Secretariat shall prepare and implement the joint monitoring and evaluations and report to the Committee. The Committee shall, at its first meeting after the signature of the Agreement, fix the operational modalities aimed at ensuring the joint character of the operations and shall, on a yearly basis, approve the work programme.

2. Monitoring and evaluation activities shall notably:

(a) provide regular and independent assessments of the operations and activities funded from the multi-annual financial framework of cooperation under this agreement by comparing results with objectives; and thereby

(b) enable the ACP States or the relevant organisation or body at regional or intra-ACP level and the Commission and the joint institutions, to feed the lessons of experience back into the design and execution of future policies and operations.

Chapter 6. Fund-resource Management and Executing Agents

Article 34. The Commission

1. The Commission shall undertake the financial execution of operations carried out with resources from the multi-annual financial framework of cooperation under this Agreement, with the exception of the Investment Facility and interest-rate subsidies, using the following main methods of management:

(a) centralised management;

(b) decentralised management.

DECLARATION I Joint Declaration on the actors of the partnership (Article 6)

The Parties agree that the definition of civil society may differ significantly according to the socioeconomic and cultural conditions of each ACP country. However, they believe that this definition may include *inter alia* the following organisations: human rights groups and agencies, grassroots organisations, women's associations, youth organisations, child-protection organisations, environmental movements, farmers' organisations, consumers' associations, religious organisations,

development support structures (non-governmental organisations (NGOs)), teaching and research establishments), cultural associations and the media.

DECLARATION II Declaration of the Commission and the Council of the European Union on the clause concerning the return and readmission of illegal immigrants (Article 13(5))

Article 13(5) Shall Be without Prejudice to the Internal Division of Powers Between the Community and Its Member States for the Conclusion of Readmission Agreements.

DECLARATION III Joint Declaration on participation in the Joint Parliamentary Assembly (Article 17(1))

The Parties reaffirm the role of the Joint Parliamentary Assembly in promoting and defending democratic processes through dialogue between members of parliament, and agree that the participation of representatives who are not members of a parliament, as set out in Article 17, shall be allowed only in exceptional circumstances. Such participation shall be subject to the approval of the Joint Parliamentary Assembly before each session.

DECLARATION IV Community Declaration on the financing of the ACP Secretariat

The Community shall contribute to the cost of running the ACP Secretariat from intra ACP cooperation resources.

DECLARATION V Community Declaration on the financing of the joint institutions

The Community, being aware that expenditure in connection with interpreting at meetings and the translation of documents is expenditure incurred essentially for its own requirements, is prepared to continue past practice and meet this expenditure both for meetings of the institutions of the Agreement which take place in the territory of a Member State and those which take place in the territory of an ACP State.

DECLARATION VI Community Declaration relating to the Protocol on privileges and immunities

The Protocol on privileges and immunities is a multilateral act from the point of view of international law. However, any specific problems that may arise in the host state regarding the application of this Protocol should be settled by bilateral agreement with that state.

The Community has noted the ACP States' requests that certain provisions of Protocol 2 be modified, notably as regards the status of the staff of the ACP Secretariat, the Centre for the Development of Enterprise (CDE) and the Centre for the Development of Agriculture (CTA).

The Community is willing to seek jointly appropriate solutions in respect of the ACP States' requests with a view to establishing a separate legal instrument as referred to above.

In this context, the host country will, without derogating from the present benefits enjoyed by the ACP Secretariat, the CDE, the CTA and their staff:

- (1) Show understanding as regards the interpretation of the expression 'staff of senior rank', such an interpretation to be arrived at by mutual agreement;
- (2) Recognise the powers delegated by the President of the Council of ACP Ministers to the Chairman of the ACP EC Committee of Ambassadors, in order to simplify implementation of Article 9 of the Protocol;
- (3) Agree to grant certain facilities to the staff of the ACP Secretariat, the CDE and the CTA to facilitate initial installation in the host country;
- (4) Examine in an appropriate way tax related questions concerning the ACP Secretariat, the CDE and the CTA and their staff.

DECLARATION VII Declaration by the Member States relating to the Protocol on privileges and immunities

The Member States shall strive, in the context of their respective regulations, to facilitate throughout their respective territories, the movement in pursuit of their official duties of ACP diplomats accredited to the Community, members of the ACP Secretariat referred to in Article 7 of Protocol 2, whose names and positions shall be communicated in accordance with Article 9 of that Protocol, and the ACP executives of the CDE and the CTA.

DECLARATION VIII Joint Declaration relating to the Protocol on privileges and immunities

Within the context of their respective regulations, the ACP States shall grant Commission delegations privileges and immunities similar to those granted to diplomatic missions so that they are able to carry out the functions incumbent on

them under the Agreement in a satisfactory and effective manner.

DECLARATION IX Joint Declaration on Article 49(2) on trade and environment

Keenly aware of the specific risks attaching to radioactive waste, the Parties will refrain from any practice of discharging such waste which would encroach upon the sovereignty of states or threaten the environment or public health in other countries. They attach the greatest importance to developing international cooperation to protect the environment and public health against such risks. They accordingly affirm their determination to play an active part in the work being done in the IAEA to produce an internationally approved code of good practice.

Council Directive 92/3/Euratom of 3 February 1992 on the supervision and control of shipments of radioactive waste between Member States and into and out of the Community defines the term "radioactive waste" as any material, which contains or is contaminated by radio nuclides and for which no use is foreseen. The Directive is applicable to shipments of radioactive waste between Member States and into and out of the Community whenever the quantities and concentration exceed the levels laid down in Article 3(2)(a) and (b) of the Council Directive 96/29/Euratom of 13 May 1996. The defined levels ensure basic safety standards for the protection of health of workers and the general public against the dangers arising from ionising radiation.

Shipments of radioactive waste are subject to a system of prior authorisation as defined in Directive 92/3/Euratom of 3 February 1992 on the supervision and control of shipments of radioactive waste between Member States and into and out of the Community. Article 11(1)b of the Directive stipulates that the competent authorities of Member States shall not authorise shipments of radioactive waste to a state party to the Fourth ACP-EC Convention which is not a member of the Community, taking account, however, of Article 14. The Community ensures that Article 11 of Directive 92/3/Euratom will be revised to cover all Parties of this Agreement which are not members of the Community. Until then, the Community will act, as if the abovementioned parties would already be covered.

The Parties shall make every effort to sign and ratify as quickly as possible the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal, as well as the 1995 amendment to the Convention, as laid down in Decision III/1.

DECLARATION X ACP Declaration on trade and environment

The ACP States are seriously concerned about environmental problems in general and the transboundary movement of hazardous, nuclear and other radioactive wastes in particular.

In interpreting and implementing the provisions of Article 32(1)(d) of the Agreement, the ACP States have expressed their determination to be guided by the principles and the provisions of the OAU Resolution on the Control of Transboundary Movements of Hazardous Wastes and their Disposal in Africa as contained in AHG 182 (XXV).

DECLARATION XI Joint Declaration on the ACP cultural heritage

1, The Parties express their common will to promote the preservation and enhancement of the cultural heritage of each ACP country, at the international, bilateral and private level and in the context of this Agreement.

2. The Parties acknowledge the need to facilitate the access of ACP historians and researchers to archives with a view to promoting the development of exchange of information on the cultural heritage of ACP States.

3. They acknowledge the usefulness of providing assistance for the appropriate activities conducted especially in the area of training, for the preservation, protection and exhibition of cultural properties, monuments and objects, including the promulgation and implementation of appropriate legislation.

4, They underpin the importance of undertaking common cultural activities, facilitating the mobility of ACP and European artists, as well as the exchanges of cultural objects which are symbolic of their cultures and civilisations with a view to enhancing mutual understanding and solidarity between their respective populations.

DECLARATION XII Declaration by the ACP States on return or restitution of cultural property

The ACP States urge the Community and its Member States, insofar as they acknowledge the legitimate right of the ACP States to cultural identity, to promote the return or restitution of cultural property taken from ACP States and now to be found in Member States.

DECLARATION XIII Joint Declaration on copyright

The Parties acknowledge that promotion of copyright protection is an integral part of cultural cooperation, the aim of which is to enhance all forms of human expression, Furthermore, such protection is a prerequisite for nurturing and developing

production, dissemination and publishing activities.

Consequently, the two Parties shall, in the context of ACP EC cultural cooperation, seek to promote and foster respect for copyright and related rights.

In this context, and in accordance with the rules and procedures laid down by the Agreement, the Community may offer financial and technical support for disseminating copyright information, training economic operators in the protection of such rights and drafting national legislation for their better protection.

DECLARATION XIV Joint Declaration on regional cooperation and the outermost regions (Article 28)

The reference to the outermost regions concerns the Spanish autonomous community of the Canary Islands, the four French overseas departments, namely Guadeloupe, Guyana, Martinique and Réunion, and the Portuguese autonomous regions of the Azores and Madeira.

DECLARATION XV Joint Declaration on accession

Any accession of a third state to this Agreement shall be made in compliance with the provisions of Article 1 and the objectives of Article 2 laid down by the ACP Group in the Georgetown Agreement as amended in November 1992.

DECLARATION XVI Joint Declaration on accession of the overseas countries and territories referred to in Part Four of the EC Treaty

The Community and the ACP States are prepared to allow the overseas countries and territories referred to in Part Four of the Treaty which have become independent to accede to this Agreement, if they wish to continue their relations with the Community in this form.

DECLARATION XVII Joint Declaration on Article 66 (debt relief) of the Agreement

The Parties agree on the following principles: (a) In the longer term, the Parties will seek an improvement of the Heavily Indebted-

ed Poor Countries initiative and promote a deepening, broadening and speeding up debt relief to ACP Countries;

(b) The Parties will also seek the mobilisation and establishment of support mechanisms for debt reduction in favour of ACP countries who are not yet eligible for the HIPC initiative.

DECLARATION XVIII EU Declaration on the Financial Protocol

Within the overall amount of EUR 13 500 million of the 9th EDF, EUR 12 500 million shall be made available immediately upon the entry into force of the Financial Protocol. The remaining EUR 1 000 million shall be released on the basis of the performance review referred to in paragraph 7 of the Financial Protocol that shall be undertaken in 2004,

In evaluating the need for new resources, full account shall be taken of this performance review as well as of a date beyond which the funds of the 9th EDF will not be committed.

DECLARATION XIX Declaration by the Council and the Commission on the Programming Process

The Community and its Member States reaffirm their attachment to the agreement on a reform of the programming process for implementation of assistance financed from the 9th EDF.

In this context, the Community and its Member States regard a properly implemented review mechanism as the most important tool for successful programming. The review process that has been agreed for governing the implementation of the 9th EDF will ensure continuity in the programming process while allowing for regular adjustments of the Country Support Strategy to reflect developments in needs and performance of the ACP State concerned.

In order to reap the full benefits of the reform and ensure the efficiency of the programming process, the Community and its Member States reaffirm the political commitment to the following principles:

The reviews must as far as possible be carried out in the ACP State concerned. Localising the reviews shall not imply that the Member States or the Commission Headquarters shall be prevented from following and being involved in the programming process as appropriate.

The time frames that have been set for completion of the reviews shall be respected.

The reviews must not be an isolated event in the programming process. The reviews shall be regarded as management

tools, which synthesise the results of the regular (monthly) dialogue between the National Authorising Officer and the Commission's Head of Delegation.

The reviews must not increase the administrative burden of either of the Parties concerned, The procedures and reporting requirements surrounding the programming process must therefore be managed in a disciplined manner. To this end, the respective roles of the Member States and the Commission in the decision making process will be reviewed and adapted.

DECLARATION XX Joint Declaration on the Impact of Export Revenue Fluctuations on Vulnerable Small, Island and Landlocked ACP States

The Parties note the concern of ACP States that the modalities of the mechanism for additional support to countries suffering from fluctuation of export revenues may not provide sufficient support to vulnerable small, island and landlocked states subject to volatile export revenues,

From the second year of operation of the mechanism, and on request of one or more ACP States who have met with difficulties, the Parties agree to re-examine the modalities of the mechanism on the basis of a proposal from the Commission, with a view, where necessary, to remedy the effects of such fluctuations.

DECLARATION XXI Community Declaration on Article 3 of Annex IV

The notification of the indicative amount referred to in Article 3 of Annex IV, will not apply to the ACP States with whom the Community has suspended its cooperation.

The Parties call upon interested Parties to consult each other on the procedure for promoting such cooperation and, in this context, to take measures, in line with their respective policies and their specific situation in the region, which will permit initiatives in the economic field, including the development of trade, as well as in the social and cultural fields. Where there are trade agreements involving French overseas departments, such agreements may provide for specific measures in favour of products from those departments. 1. EPAs: EU Declaration

The Economic Partnership Agreements, as development instruments, aim to foster smooth and gradual integration of the ACP States into the world economy, especially by making full use of the potential of regional integration and South-South trade.

The Commission reconfirms the importance of further steps towards coherent regional integration and sectoral policy reforms, and that the gradually arising needs from the implementation of EPAs will be taken into account in the programming dialogue with the ACP on the end of term review of the 9th EDF and on the resources of the 10th EDF, covering the time period after the entry into force on 1 January 2008.

Moreover, the European Union recalls its commitments to substantially increase Aid for Trade by 2010 in addition to the EDF resources.

Ouagadougou, 22 June 2010 (OJ L 287, 4.11.2010)

DECLARATION I Joint declaration on support for market access in the ACP-EC partnership

The Parties recognise the significant value of preferential market access conditions to ACP economies, specifically for the commodity and other agro-industry sectors which are of critical importance to the economic and social development of the ACP States and constitute a major contribution to employment, export earnings and Government revenue.

The Parties acknowledge that some sectors have been undergoing, with EU support, a process of transformation aimed at

allowing ACP exporters concerned to compete in the EU and the international markets, including through the development of branded and other value added products.

They also recognise that additional support could be necessary where greater liberalisation of trade may lead to deeper alteration of market access conditions for ACP producers. To that end, they agree to examine all necessary measures in order to maintain the competitive position of the ACP States in the EU market. Such examination may include rules of origin, sanitary and phytosanitary measures and implementation of specific measures addressing supply side constraints in the ACP States. The objective will be to enable ACP States to exploit their existing and potential comparative advantage in the EU market.

When assistance programmes are developed and resources provided, the Parties agree to conduct periodic evaluations to assess progress and the results attained and decide on appropriate additional measures to be implemented.

The Joint Ministerial Trade Committee shall monitor the implementation of this Declaration and make appropriate reports and recommendations to the Council of Ministers.

DECLARATION II Joint declaration on migration and development (Article 13)

The Parties agree to strengthen and deepen their dialogue and cooperation in the area of migration, building on the following three pillars of a comprehensive and balanced approach to migration:

1. Migration and Development, including issues relating to diasporas, brain drain and remittances;
2. Legal migration including admission, mobility and movement of skills and services; and
3. Illegal migration, including smuggling and trafficking of human beings and border management, as well as readmission.

Without prejudice to the current Article 13, the Parties undertake to work out the details of this enhanced cooperation in the area of migration.

They further agree to work towards the timely completion of this dialogue and to report about the progress made to the next ACP-EC Council.

DECLARATION III European Union declaration on institutional changes resulting from the entry into force of the Treaty of Lisbon

As a consequence of the entry into force of the Treaty of Lisbon on 1 December 2009, the European Union has replaced and succeeded the European Community and from that date exercises all rights and assumes all obligations of the European Community. Therefore, references to 'the European Community' in the text of the Agreement are, where appropriate, to be read as 'the European Union'.

The European Union will propose to the ACP States an Exchange of Letters with the aim of bringing the Agreement into conformity with the institutional changes in the European Union resulting from the entry into force of the Treaty of Lisbon.
