The Parties confirm their shared understanding that:

- a) Indirect expropriation results from a measure or series of measures of a Party that have an effect equivalent to direct expropriation without formal transfer of title or outright seizure;
- b) The determination of whether a measure or series of measures of a Party constitute an indirect expropriation requires a case-by-case, fact-based inquiry that considers, among other factors:
 - i) the economic impact of the measure or series of measures, although the sole fact that a measure or series of measures of a Party has an adverse effect on the economic value of an investment does not establish that an indirect expropriation has occurred;
 - ii) the extent to which the measure or series of measures interfere with distinct, reasonable investment-backed expectations; and
 - iii) the character of the measure or series of measures;
- c) Except in rare circumstances, such as when a measure or series of measures are so severe in the light of their purpose

that they cannot be reasonably viewed as having been adopted and applied in good faith, non-discriminatory measures of a Party that are designed and applied to protect legitimate public welfare objectives, such as health, safety and the environment, do not constitute indirect expropriation.
