Article 2.7. Temporary Admission of Goods

1. Each Party shall allow, as provided for in its laws and regulations, goods to be brought into its customs territory conditionally relieved, totally or partially, from payment of import duties and taxes, if such goods:

5. Each Party shall permit a good temporarily admitted pursuant to this Article to be re-exported through a customs port other than that through which it was admitted in accordance with its laws and regulations.

6. Each Party shall relieve the importer of liability for failure to export a temporarily admitted good upon presentation of satisfactory proof to its customs authority that the good has been destroyed within the original time limit for temporary admission or any lawful extension. A Party may condition relief of liability under this paragraph by requiring the importer to receive prior approval from its customs authority before the good can be so destroyed.

7. Each Party, through its customs authority, shall adopt and maintain procedures providing for the expeditious release of goods admitted under this Article. To the extent possible, these procedures shall provide that when such goods accompany a national or resident of the other Party who is seeking temporary entry, the good shall be released simultaneously with the entry of that national or resident.

- (b) a Qualifying Value Content (hereinafter referred to as "QVC") of not less than 40% of the FOB value; or

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
- (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a bilateral safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or
- (c) beyond the expiration of the transition period.

9. No bilateral safeguard measure shall be applied to the import of a product which has been previously subject to such measure for a period of time equal to the period during which the previous measure was applied.

10. When the expected duration of the bilateral safeguard measure is greater than one year, the importing Party shall progressively liberalise it at regular intervals.

11. When a Party terminates a bilateral safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule in Annex 2A (Schedule of Tariff Commitments), would have been in effect but for the measure.

Provisional Measures

12. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports have caused serious injury, or threat thereof, to the domestic industry.

13. If a Party's competent authorities make a preliminary determination, the Party shall make such determination available to interested parties, and shall provide interested parties at least 15 days after such disclosure to comment and submit their

arguments with respect to such determinations. A Party may not apply a provisional measure until at least 45 days after the date its competent authorities initiate an investigation.

14. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of paragraphs 5 and 6.

Compensation

16. No later than 30 days after it applies a bilateral safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.

17. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure. The Party exercising the right of suspension may suspend the application of concessions only for the minimum period necessary to achieve the substantially equivalent effects.

18. A Party against whose originating good the bilateral safeguard measure is applied shall notify the Party applying the bilateral safeguard measure in writing at least 30 days before it suspends concessions in accordance with paragraph 17.

19. The right of suspension referred in paragraph 17 shall not be exercised for the first 24 months during which a bilateral safeguard measure is in effect, provided that the safeguard measure has been applied as a result of an absolute increase in imports and conforms to the provisions of this Agreement.

20. The applying Party's obligation to provide compensation under paragraph 16 and the other Party's right to suspend concessions under paragraph 17 shall terminate on the date the bilateral safeguard measure terminates.

In this case, the inscription will be considered to provide a condition or qualification to Article 8.5 (National Treatment) as well.

Article 8.8. Modification of Schedules

The Joint Committee shall be kept informed of the outcome of the negotiations.

3. If agreement is not reached between any affected Party and the modifying Party before the end of the period provided for negotiations, the affected Party may refer the matter to the procedures in Chapter 16 (Dispute Settlement).

Article 8.9. Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, on request of an affected service supplier, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. The provisions of paragraph 2 shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

4. Where authorisation is required for the supply of a service on which a specific commitment under this Chapter has been made, the competent authorities of each Party shall:

(a) in the case of an incomplete application, on request of the applicant, where practicable, identify all the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

(b) on request of the applicant, provide without undue delay information concerning the status of the application; and

(e) where they deem appropriate, accept copies of documents authenticated in accordance with domestic laws and regulations, in place of original documents.

5. In sectors in which a Party has undertaken specific commitments, with a view to ensuring that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services, the Parties agree that such requirements should be, inter alia:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

6. In sectors in which a Party has undertaken specific commitments, that Party shall not apply licensing and qualification

requirements and technical standards that nullify or impair its obligation under this Agreement in a manner which:

(a) does not comply with the criteria outlined in subparagraphs 5(a), (b) or (c); and

(b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

7. In determining whether a Party is in conformity with the obligation under paragraph 6, account shall be taken of international standards of relevant international organisations applied by that Party.⁽¹⁵⁾

8. In sectors where specific commitments regarding professional services are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

Such recognition, which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement between the Parties or may be accorded autonomously.

2. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, on request, to negotiate its accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, experience, licences or certifications obtained or requirements met in that other Party's territory should also be recognised.

3. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the countries in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

4. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted in the territory of a non-Party, nothing in this Chapter shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licences or certifications granted in the territory of the other Party.

5. The Parties agree to encourage, where possible, the relevant bodies in their respective territories responsible for issuance and recognition of professional and vocational qualifications to:

(a) establish dialogues with a view to recognizing professional and vocational qualifications, facilitating licensing or registration procedures, and working towards the development of mutually acceptable professional standards and criteria with respect to professional services in sectors of mutual importance to the Parties.

(b) take into account other relevant multilateral agreements, to which both countries are Parties, that relate to professional services in developing such arrangements on the recognition of professional qualifications, licensing and registration.

6. For purposes of transparency, on request of the other Party, a Party shall endeavour to, where practicable provide information concerning standards and criteria for the certification and licensing of professional service suppliers, or otherwise provide information concerning the appropriate regulatory or other body to consult regarding these standards and criteria.

Article 8.11. Payments and Transfers

1. Except under the circumstances envisaged in Article 8.12 (Restrictions to Safeguard the Balance-of-Payments), a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.

2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the International Monetary Fund under the Articles of Agreement of the Fund, including the use of exchange actions which are in conformity with the

Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 8.12 (Restrictions to Safeguard the Balance-of-Payments) or at the request of the International Monetary Fund.

Article 8.12. Restrictions to Safeguard the Balance-of-Payments

1. Where any of the Parties to this Agreement is in serious balance of payments difficulties, or under threat thereof, it may adopt or maintain restrictive measures with regard to trade in services, on which it has undertaken specific commitments, including on payments and transfers related to such commitments.

2. The rights and obligations of the Parties in respect of such restrictions shall be governed by paragraphs 1 to 3 of Article XII of the GATS. A Party adopting or maintaining such restrictions shall promptly notify the Joint Committee thereof.

Article 8.13. Denial of Benefits

A Party may deny the benefits of this Chapter:

(a) to the supply of a service, if it establishes that the service is supplied from or in the territory of a non-Party;

(b) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:

(i) by a vessel registered under the laws of a non-Party, and

(ii) by a person which operates and/or uses the vessel in whole or in part but which is of a non-Party;

(c) to a service supplier that is a juridical person, if it establishes that it is not a service supplier of the other Party.

Article 8.14. Review

1. With the objective of further liberalising trade in services between them, the Parties agree to jointly review their Schedules of Specific Commitments within the framework of the Joint Committee taking into account any services liberalization developments as a result of on-going work under the auspices of the WTO.

2. The first such review shall take place no later than five years after the entry into force of this Agreement.

Article 8.15. Committee on Trade In Services

7. If a supplier that is not included on a multi-use list submits a request for participation in a procurement based on the multi-use list and submits all required documents, within the time period provided for in Article 11.14 (Time Periods), a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement unless the procuring entity is not able to complete the examination of the request within the time period allowed for the submission of tenders.

Article 11.10. Limited Tendering

1. If a procuring entity uses limited tendering, it may choose, according to the nature of the procurement, not to apply Article 11.7 (Notices), Article 11.8 (Conditions for Participation), Article 11.9 (Qualification of Suppliers), Article 11.11 (Negotiations), Article 11.12 (Technical Specifications), Article 11.13 (Tender Documentation), Article 11.14 (Time Periods), or Article 11.15 (Treatment of Tenders and Awarding of Contracts). A procuring entity may use limited tendering only under the following circumstances:

(a) if, in response to a prior notice, invitation to participate, or invitation to tender:

(i) no tenders were submitted or no suppliers requested participation;

(ii) no tenders were submitted that conform to the essential requirements in the tender documentation;

(iii) no suppliers satisfied the conditions for participation; or

(iv) the tenders submitted were collusive,

provided that the procuring entity does not substantially modify the essential requirements set out in the notices or tender documentation;

(b) if the good or service can be supplied only by a particular supplier and no reasonable alternative or substitute good or service exists for any of the following reasons:

(i) the requirement is for a work of art;

(ii) the protection of patents, copyrights, or other exclusive rights; or

(iii) due to an absence of competition for technical reasons;

(c) for additional deliveries by the original supplier or its authorised agent, of good or service that were not included in the initial procurement if a change of supplier for such additional good or service:

(i) cannot be made for technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement, or due to conditions under original supplier warranties; and

(ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;

(d) for a good purchased on a commodity market or exchange;

(e) if a procuring entity procures a prototype or a first good or service that is intended for limited trial or that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the prototype or the first good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs. Subsequent procurements of these newly developed good or service, however, shall be subject to this Chapter;

(f) if additional service that were not included in the initial contract but that were within the objectives of the original tender documentation have, due to unforeseeable circumstances, become necessary to complete the construction services described therein. However, the total value of contracts awarded for additional service may not exceed 50 per cent of the value of the initial contract;

(g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded and for which the entity has indicated in the notice of intended procurement concerning the initial service that limited tendering procedures might be used in awarding contracts for such new services;

(h) for purchases made under exceptionally advantageous conditions that only arise in the very short term, such as from unusual disposals, liquidation, bankruptcy, or receivership, but not for routine purchases from regular suppliers;

(i) if a contract is awarded to the winner of a design contest, provided that:

(i) the contest has been organized in a manner that is consistent with this Chapter; and

(ii) the contest is judged by an independent jury with a view to award a design contract to the winner;

(j) in so far as is strictly necessary if, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time by means of open or selective tendering; or

(k) any other circumstances as provided in the respective Party's laws and regulations.

2. For each contract awarded in accordance with paragraph 2, a procuring entity shall prepare a report in writing, or maintain a record, that includes the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 2 that justified the use of limited tendering.

Article 11.11. Negotiations

1. A Party may provide for its procuring entities to conduct negotiations in the context of covered procurement if:

- (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under Article 11.7 (Notices);
- (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation;
- (c) there is a need to clarify the terms and conditions; or
- (d) all bids exceed the allocated prices provided for in the procuring entity's budget.

2. A procuring entity shall:

- (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
- (b) when negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 11.12. Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the sole purpose or effect of creating an unnecessary obstacle to participation of suppliers of the other Party.
2. In prescribing the technical specifications for the good or service being procured, a procuring entity shall, if appropriate:
 - (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specification on international standards, if these exist and are applicable. In the absence of international standards, it shall base the technical specification on national technical regulations, recognized national standards, or building codes.
3. If design or descriptive characteristics are used in the technical specification, a procuring entity should indicate, if appropriate, that it will consider tenders of equivalent good or service that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.
4. A procuring entity shall not prescribe technical specification that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in these cases, the procuring entity includes words such as "or equivalent" in the tender documentation.
5. For greater certainty, a procuring entity may conduct market research in developing specification for a particular procurement.
6. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specification to promote the conservation of natural resources or the protection of the environment. Such specification, where applicable, shall be based on relevant and mutually international standards.
7. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entity, from preparing, adopting, or applying technical specification required to protect sensitive government information, including specification that may affect or limit the storage, hosting, or processing of such information outside the territory of the Party.

Article 11.13. Tender Documentation

1. A procuring entity shall promptly make available or provide on request to any interested supplier tender documentation that includes all information necessary to permit the supplier to prepare and submit a responsive tender. Unless already provided in the notice of intended procurement, that tender documentation shall include a complete description of:
 - (a) the procurement, including the nature, scope, and, if known, the quantity of the good or service to be procured or, if the quantity is not known, the estimated quantity, and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings, or instructional materials;
 - (b) any conditions for participation of suppliers, including any financial guarantees, information, and documents that

suppliers are required to submit in connection with the conditions for participation;

(c) all evaluation criteria to be considered in the awarding of the contract and, unless price is the sole criterion, the relative importance of those criteria;

(d) if the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;

(e) if there will be a public opening of tenders, the date, time, and place for the opening, and, if appropriate, the persons authorised to be present;

(f) any other terms or conditions relevant to the evaluation of tenders; and

(g) any date for delivery of good or the supply of service.

2. Subject to any fees if applicable, an entity should make relevant tender documentation publicly available through electronic means or a computer-based telecommunications network openly accessible to all interested suppliers.

3. In establishing any date for the delivery of good or the supply of service being procured, a procuring entity shall take into account factors such as the complexity of the procurement, the extent of subcontracting anticipated, and the realistic time required for production, de-stocking, and transport of good from the point of supply or for supply of service.

4. A procuring entity shall promptly reply to any reasonable requests for relevant information by an interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

5. If, prior to the award of a contract, a procuring entity modifies the evaluation criteria or requirement set out in a notice of intended procurement or tender documentation provided to a participating supplier, or amends, or re-issues a notice or tender documentation, it shall publish or provide those modifications, or the amended or re- issued notice or tender documentation:

(a) to all suppliers that are participating in the procurement at the time of the modification, amendment, or re-issuance, if those suppliers are known to the procuring entity, and, in all other cases, in the same manner as the original information was made available; and

(b) in adequate time to allow those suppliers to modify and re- submit their initial tender, if appropriate.

Article 11.14. Time Periods

(a) the nature and complexity of the procurement;

(b) the extent of subcontracting anticipated; and

(c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points if electronic means are not used.

Article 11.15. Treatment of Tenders and Awarding of Contracts Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.

2. If the tender of a supplier is received after the time specified for receiving tenders, the procuring entity shall not penalize that supplier if the delay is due solely to the mishandling on the part of the procuring entity.

3. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirement set out in the notice and tender documentation and be submitted by a supplier who satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be fully capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notice and tender documentation, submits:

(a) the most advantageous tender; or

(b) if price is the sole criterion, the lowest price.

6. Consistent with the terms of this Chapter, a procuring entity may require a supplier to comply with general terms and conditions pursuant to the terms of the contract.

7. If a procuring entity received a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

Article 11.16. Post-Award Information

Information Provided to Suppliers

1. A procuring entity shall inform participating suppliers that have submitted a tender of the entity's contract award decision and shall do so in writing.

2. To the extent practicable and consistent with its laws and regulations, subject to Article 11.17 (Disclosure of Information), a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the procuring entity did not select the unsuccessful supplier's tender or an explanation of the relative advantages of the successful supplier's tender.

3. A procuring entity shall maintain the documentation, records and reports relating to tendering procedures and contract awards for covered procurement, including the records and reports provided for in Article 11.10 (Limited Tendering), for at least three years after the award of a contract.

Article 11.17. Disclosure of Information

Provision of Information to a Party

1. In the case that the supplier of a Party submitted a tender to a procuring entity of the other Party, on request of the former Party, the latter Party shall provide promptly information sufficient to demonstrate whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including, if applicable, information on the characteristics and relative advantages of the successful tender, without disclosing confidential information. The Party that receives the information shall not disclose it to any suppliers, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provisions of this Chapter, a Party, including its procuring entities, shall not, except to the extent required by law or with the written authorisation of the supplier that provided the information, disclose information that would prejudice legitimate commercial interests of a particular supplier or that might prejudice fair competition between suppliers.

3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities, and review bodies, to disclose confidential information if that disclosure:

(a) would impede law enforcement;

(b) might prejudice fair competition between suppliers;

(c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or

(d) would otherwise be contrary to the public interest.

Article 11.18. Conduct of Procurement

Each Party shall ensure that criminal or administrative measures exist to address corruption in its government procurement. These measures may include procedures to render ineligible for participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to government procurement in the Party's territory. Each Party shall also ensure that it has in place policies and procedures to eliminate to the extent possible or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.

Article 11.19. Facilitation of Participation by Small and Medium Enterprises

The Parties recognise the important contribution that Small and Medium Enterprises (SMEs) can make to economic growth and employment and the importance of facilitating the participation of SMEs in government procurement.

2. If a Party maintains a measure that provides preferential treatment for SMEs, the Party shall ensure that the measure, including the criteria for eligibility, is transparent.

3. To facilitate participation by SMEs in covered procurement, each Party shall, to the extent possible and if appropriate:

3. Each Party may derogate from paragraph 1 in relation to its judicial and administrative procedures, including requiring a national of the other Party to designate an address for service of process in its territory, or to appoint an agent in its territory, provided that such derogation is:
 - (a) necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter; and

3. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement for a Party.

Article 12.10. Exhaustion of Intellectual Property Rights

In the case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed.

Article 12.15. Well-Known Trademarks

1. No Party shall require as a condition for determining that a trademark is well-known that the trademark has been registered in the Party or in another jurisdiction, included on a list of well-known trademarks, or given prior recognition as a well-known trademark.

2. Article 6bis of the Paris Convention shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark, (24) whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark, and provided that the interests of the owner of the trademark are likely to be damaged by such use.

3. Each Party recognises the importance of the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks as adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of WIPO at the Thirty- Fourth Series of Meetings of the Assemblies of the Member States of WIPO from 20 to 29 September 1999.

Each Party shall provide for appropriate measures to refuse the application or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-known trademark (25), for identical or similar goods or services, if the use of that trademark is likely to cause confusion with the prior well-known trademark. A Party may also provide such measures including in cases in which the subsequent trademark is likely to deceive.

(24) In determining whether a trademark is well-known in a Party, that Party need not require that the reputation of the trademark extend beyond the sector of the public that normally deals with the relevant goods or services.

(25) The Parties understand that a well-known trademark is one that was already well-known before, as determined by a Party, the application for, registration of, or use of the first- mentioned trademark.

Article 12.16. Procedures and Classification of Trademarks

(a) was made by the patent applicant or by a person that obtained the information directly or indirectly from the patent applicant; and

(b) occurred within at least six months prior to the effective date stated in the law and regulation of each Party.

(26) No Party shall be required to disregard information contained in applications for, or registrations of, intellectual property rights made available to the public or published by a patent office, unless erroneously published or unless the application was filed without the consent of the inventor or their successor in title, by a third person who obtained the information directly or indirectly from the inventor

(27) For greater certainty, a Party may limit the application of this Article to disclosures made by, or obtained directly or indirectly from, the inventor or joint inventor. 3. The Parties shall take policy, legislative, and administrative measures in accordance with their international obligations, as appropriate, for the fulfilment of terms and conditions for access to genetic resources and associated traditional knowledge.

4. The Parties shall take legislative, administrative, or policy measures in accordance with their international obligations, as appropriate, with the aim of sharing in a fair and equitable way the benefits arising from commercial or other utilization of genetic resources and associated traditional knowledge. Such sharing shall be based upon mutually agreed terms established at the time of access.

5. The Parties may, by mutual agreement, review this Article in light of the results of multilateral negotiations.

2. Each Party shall provide to authors of literary and artistic works the exclusive right to authorise or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.(31)

(28) For greater certainty, the Parties understand that it is a matter for each Party's law to prescribe that works, performances or phonograms in general or any specified categories of works, performances and phonograms are not protected by copyright or related rights unless the work, performance or phonogram has been fixed in some material form.

(29) References to "authors, performers, and producers of phonograms" refer also to any of their successors in interest.

(30) The expressions "copies" and "original and copies", that are subject to the right of distribution in this Article, refer exclusively to fixed copies that can be put into circulation as tangible objects.

The Parties further understand that nothing in this Article precludes a Party from applying Article 11bis (2) of the Berne Convention.

Article 12.25. Related Rights

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms: to the performers and producers of phonograms that are nationals (32) of the other Party; and to performances or phonograms first published or first fixed (33) in the territory of the other Party. (34) A performance or phonogram shall be considered first published in the territory of a Party if it is published in the territory of that Party within 30 days of its first publication.

4. Notwithstanding paragraph 3 and Article 12.26 (Limitations and Exceptions), the application of the right referred to in paragraph 3 to analog transmissions and non-interactive free over-the-air broadcasts, and exceptions or limitations to this right for those activities, is a matter of each Party's law. (37)

(32) For the purposes of determining criteria for eligibility under this Article, with respect to performers, a Party may treat "nationals" as those who would meet the criteria for eligibility under Article 3 of the WIPO Performance and Phonograms Treaty (WPPT).

(33) For the purposes of this Article, fixation means the finalisation of the master tape or its equivalent.

(34) For greater certainty, in this paragraph with respect to performances or phonograms first published or first fixed in the territory of a Party, a Party may apply the criterion of publication, or alternatively, the criterion of fixation, or both. For greater certainty, consistent with Article 11.7 (National Treatment), each Party shall accord to performances and phonograms first published or first fixed in the territory of another Party treatment no less favourable than it accords to performances or phonograms first published or first fixed in its own territory.

(35) With respect to broadcasting and communication to the public, a Party may satisfy the obligation by applying Article 15(1) and Article 15(4) of the WPPT and may also apply Article 15(2) of the WPPT, provided that it is done in a manner consistent with that Party's obligations under Article 11.7 (National Treatment).

(36) For greater certainty, the obligation under this paragraph does not include broadcasting or communication to the public, by wire or wireless means, of the sounds or representations of sounds fixed in a phonogram that are incorporated in a cinematographic or other audio-visual work.

(37) For the purposes of this paragraph the Parties understand that a Party may provide for the retransmission of non-interactive, free over-the-air broadcasts, provided that these retransmissions are lawfully permitted by that Party's government communications authority; any entity engaging in these retransmissions complies with the relevant rules, orders or regulations of that authority; and these retransmissions do not include those delivered and accessed over the Internet. For greater certainty this footnote does not limit a Party's ability to avail itself of this paragraph.

Article 12.26. Limitations and Exceptions

3. The final report shall be made public within 15 days of its delivery to the Parties unless the Parties agree to publish the final report only in parts or not to publish the final report.

Article 16.20. Implementation of the Final Report

1. When the panel finds that the respondent Party has acted inconsistently with a covered provision, the respondent Party shall take any measures necessary to comply promptly and in good faith with the findings and conclusions in the final report.

2. The respondent Party shall, no later than 30 days after delivery of the final report, notify the complaining Party of the length of the reasonable period of time necessary for compliance with the final report, and the Parties shall endeavour to agree on the reasonable period of time required for compliance with the final report.

Article 16.21. Reasonable Period of Time for Compliance

1. If the Parties have not agreed on the length of the reasonable period of time, the complaining Party may, no later than 20 days after the date of receipt of the notification made by the respondent Party in accordance with paragraph 2 of Article 16.20 (Implementation of the Final Report), request in writing that the original panel determine the length of the reasonable period of time. Such request shall be notified simultaneously to the respondent Party. The 20-day period referred to in this paragraph may be extended by mutual agreement of the Parties.

2. The original panel shall deliver its decision to the Parties within 20 days of the date of submission of the request made under paragraph 1.

3. The length of the reasonable period of time for compliance with the final report may be extended by mutual agreement of the Parties.

Article 16.22. Compliance Review

1. The respondent Party shall deliver a written notification of its progress in complying with the final report to the complaining Party at least 30 days before the expiry of the reasonable period of time unless the Parties agree otherwise.

2. The respondent Party shall, no later than the date of expiry of the reasonable period of time, deliver a notification to the complaining Party of any measures that it has taken to comply with the final report.

3. When the Parties disagree on the existence of measures to comply with the final report, or their consistency with the covered provisions, the complaining Party may request in writing that the original panel decide on the matter. Such request shall be notified simultaneously to the respondent Party.

4. The request made under paragraph 3 shall provide the factual and legal basis for the complaint, including an identification of the specific measures at issue and an indication of why any measures taken by the respondent fail to comply with the final report or are otherwise inconsistent with the covered provisions.

5. The panel shall deliver its decision to the Parties within 60 days of the date of submission of the request.

Article 16.23. Temporary Remedies In Case of Non-Compliance

1. If the respondent Party:

(a) fails to notify any measures taken to comply with the final report before the expiry of the reasonable period of time;

(b) notifies the complaining party in writing that it is not possible to comply with the final report within the reasonable period of time; or

(c) the original panel finds that no measure taken to comply exists or that the measure taken to comply with the final report as notified by the party complained against is inconsistent with the covered provisions;

the respondent Party shall, on request of the complaining Party, enter into consultations with a view to reaching a mutually satisfactory agreement or any necessary compensation.

2. If the Parties fail to reach a mutual satisfactory agreement or to agree on compensation within 20 days of the date of receipt of the request made in accordance with paragraph 1, the complaining Party may deliver a written notification to the respondent Party that it intends to suspend the application to that Party of benefits or other obligations under this Agreement. The notification shall specify the level of intended suspension of benefits or other obligations.

3. The complaining Party may begin the suspension of benefits or other obligations referred to in the preceding paragraph 20 days after the date on which it served notice to the respondent Party, unless the respondent Party made a request under paragraph 7.

4. The suspension of benefits or other obligations:

(a) shall be at a level equivalent to the nullification or impairment that is caused by the failure of the respondent Party to comply with the final report; and

(b) shall be restricted to benefits accruing to the respondent Party under this Agreement.

5. In considering what benefits to suspend in accordance with paragraph 2, the complaining Party shall apply the following principles:

(a) the complaining Party should first seek to suspend benefits in the same sector or sectors affected by the measure that the panel has found to be inconsistent with this Agreement or have caused nullification or impairment; (38)

(b) the complaining Party may suspend benefits in other sectors if it considers that it is not practicable or effective to suspend benefits or other obligations in the same sector.

6. The suspension of benefits or other obligations shall be temporary and shall only apply until the inconsistency of the measure with the relevant covered provisions which has been found in the final report has been removed, or until the Parties have reached a mutually satisfactory agreement or any necessary compensation.

7. If the respondent Party considers that the suspension of benefits does not comply with paragraphs 4 and 5, that Party may request in writing to the original panel to examine the matter no later than 15 days after the date of receipt of the notification referred to in paragraph 2. That request shall be notified simultaneously to the complaining Party. The original panel shall notify to the Parties its decision on the matter no later than 30 days of the receipt of the request from the respondent Party. The complaining Party shall not suspend benefits or other obligations until the original panel has delivered its decision. The suspension of benefits or other obligations shall be consistent with this decision.

(38) For purposes of this paragraph, "sector" means: (i) with respect to goods, all goods; (ii) with respect to services, a principal sector as identified in the current "Services Sectoral Classification List" which identifies such sectors.

Article 16.24. Review of Any Measures Taken to Comply after the Adoption of Temporary Remedies

1. Upon the notification by the respondent Party to the complaining Party of the measure taken to comply with the final report:

(a) in a situation where the right to suspend benefits or other obligations has been exercised by the complaining Party in accordance with Article 16.23 (Temporary Remedies in Case of Non-Compliance), the complaining Party shall terminate the suspension of benefits or other obligations no later than 30 days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2; or

(b) in a situation where necessary compensation has been agreed, the respondent Party may terminate the provision of such compensation no later than 30 days after the date of receipt of the notification, with the exception of the cases referred to in paragraph 2.

2. If the Parties do not reach an agreement on whether the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions within 30 days of the date of receipt of the notification, the complaining Party shall request in writing that the original panel examine the matter. That request shall be notified simultaneously to the respondent Party. The decision of the panel shall be notified to the Parties no later than 45 days of the date of submission of the request. If the panel decides that the measure notified in accordance with paragraph 1 is consistent with the relevant covered provisions, the complaining Party shall terminate the suspension of benefits or other obligations, or the respondent Party shall terminate the provision of the compensation, no later than 15 days of the date of the decision. If the panel determines that the notified measure achieves only partial compliance with the covered provisions, the level of suspension

of benefits or other obligations, or of the compensation, shall be adapted in light of the decision of the panel.

Article 16.25. Suspension and Termination of Proceedings

If both Parties so request, the panel shall suspend its work for a period agreed by the Parties and not exceeding 12 consecutive months. In the event of a suspension of the work of the panel, the relevant time periods under this Section shall be extended by the same period of time for which the work of the panel was suspended. The panel shall resume its work before the end of the suspension period at the written request of both Parties. If the work of the panel has been suspended for more than 12 consecutive months, the authority of the panel shall lapse and the dispute settlement procedure shall be terminated.
