1. Except as provided in paragraph 2, where the applicable rule of origin in Annex 3.02 for the tariff provision under which a good is classified specifies a value test, the value test is satisfied provided the value of all non-originating material used in the production of the good does not exceed the percentage specified in Annex 3.02 of the transaction value of the good under the following formula:

Value of non-originating material used in the production of the good as a percentage of the transaction value of the good =
Value of Non-Originating Material x 100 / Transaction Value of the Good

2. For the purpose of a good of headings 87.01 through 87.08, at the choice of an exporter or a producer of that good, the value test is satisfied if the value of a non-originating material used in the production of the good does not exceed the percentage specified in Annex 3.02 of either the transaction value or the net cost of the good.

3. The value of all non-originating material used by the producer in the production of a good does not, for the purposes of satisfying the value test under either paragraph 1 or 2, include the value of all non-originating material used to produce originating material that is subsequently used in the production of the good.

4. For the purpose of paragraph 3, the value of a non-originating material in paragraphs 1 and 2 does not include:

- (a) the value of all non-originating material used by another producer to produce an originating material that is subsequently acquired and used in the production of the good by the producer of the good; or
- (b) the value of all non-originating material used by the producer to produce an originating intermediate material.

5. For the purpose of calculating the net cost of a good under paragraph 2, the producer of the good may:

- (a) calculate the total cost incurred with respect to all goods produced by that producer, subtract any sales promotion, marketing and after-sales service cost, royalty, shipping and packing cost, as well as a non-allowable interest cost that is included in the total cost of all those goods, and then reasonably allocate the resulting net cost of those goods to the good;

(b) calculate the total cost incurred with respect to all goods produced by that producer, reasonably allocate the total cost to the good, and then subtract any sales promotion, marketing and after-sales service cost, royalty, shipping and packing cost and non-allowable interest cost that is included in the portion of the total cost allocated to the good; or

(c) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service cost, royalty, shipping and packing cost, or non-allowable interest cost.

6. For the purpose of this Article, value of an intermediate material means:

(a) the total cost incurred with respect to all goods produced by the producer of the good that can be reasonably allocated to that intermediate material; or

(b) the sum of all costs that comprise the total cost incurred with respect to that intermediate material that can be reasonably allocated to that intermediate material.

Article 3.05. Accumulation

1. For the purpose of determining whether a good is an originating good, the production of the good in the territory of one or both of the Parties by one or more producer is, at the choice of the exporter or producer of the good, considered to have been performed in the territory of either of the Parties by that exporter or producer, if:

(a) all non-originating materials used in the production of the good satisfy the requirements set out in Annex 3.02, entirely in the territory of one or both of the Parties; and

(b) the good satisfies all other applicable requirements of this Chapter.

2. Subject to paragraph 3, where each Party has a trade agreement that establishes or leads to the establishment of a free trade area with the same non-Party, as contemplated by the WTO Agreement, the territory of that non-Party is deemed to form part of the territory of the free trade area established by this Agreement, for the purpose of determining whether a good is an originating good under this Agreement.

3. A Party shall give effect to paragraph 2 only once provisions with an effect equivalent to paragraph 2 are in force between each Party and the non-Party, and upon agreement by the Parties on whether to limit such provisions to specified goods or under specified conditions.

Article 3.06. De Minimis

1. Except as provided in paragraphs 2 through 4, a good is an originating good if the value of all non-originating material used in the production of the good that does not undergo an applicable change in tariff classification set out in Annex 3.02 does not exceed 10 per cent of the transaction value of the good, if:

(a) when the rule of origin of Annex 3.02 applicable to the good contains a percentage for the maximum value of non-originating materials, the value of that non-originating material is included in calculating the value of a non-originating material; and

(b) the good satisfies all other applicable requirements of this Chapter.

2. Except as provided in Annex 3.02, paragraph 1 does not apply to a non-originating material used in the production of a good of Chapters 1 through 22 of the Harmonized System unless the non-originating material is provided for in a different subheading from the good for which origin is being determined under this Article. However, paragraph 1 does apply when the good and the non-originating material are classified in the same subheading, provided that the material is different from the good.

3. A good of Chapters 50 through 60 of the Harmonized System that does not originate because certain non-originating yarns used in the production of the good do not fulfil the requirements set out in Annex 3.02 is nonetheless originating if the total weight of all those yarns does not exceed 10 per cent of the total weight of the good.

4. A good of Chapters 61 through 63 of the Harmonized System that does not originate because certain non-originating yarns used in the production of the component of the good that determines the tariff classification of that good do not fulfil the requirements set out in Annex 3.02, is nonetheless originating if the total weight of all those yarns in that component does not exceed 10 per cent of the total weight of that component.

Article 3.07. Fungible Materials and Goods

For the purpose of determining whether a good is an originating good, if:

- (a) originating and non-originating fungible material are used in the production of a good, the determination of whether the fungible material is originating may be made in accordance with an inventory management method recognized in, or otherwise accepted by, the Generally Accepted Accounting Principles of the Party in which the production takes place; and
- (b) originating and non-originating fungible goods are physically combined or mixed in inventory in a Party and exported in the same form to the other Party, the determination of whether the good is an originating good may be made in accordance with an inventory management method recognized in, or otherwise accepted by, the Generally Accepted Accounting Principles of the Party from which the good is exported.

Article 3.08. Sets or Assortments of Goods

1. Except as provided in Annex 3.02, a set, as referred to in Rule 3 of the General Rules for the Interpretation of the Harmonized System, or an assortment of goods is originating if:

- (a) all the component goods in the set or assortment, packaging materials and containers, are originating; or
- (b) the set or assortment contains a non-originating component good, packaging material or container, the value of all non-originating component goods, packaging materials and containers for the set or assortment, does not exceed 15 per cent of the transaction value of the set or assortment.

2. The value of a non-originating component good, packaging material or container is calculated in the same manner as the value of a non-originating material.

Article 3.09. Accessories, Spare Parts and Tools

An accessory, spare part or tool delivered with the good that forms part of the good's standard accessories, spare parts or tools, is originating if the good is originating. The accessory, spare part or tool is disregarded in determining whether all the non-originating materials used in the production of the good satisfy the requirements set out in Annex 3.02, if:

- (a) the accessory, spare part or tool is not invoiced separately from the good; and
- (b) the quantity and value of the accessory, spare part or tool are customary for the good.

Article 3.10. Indirect Materials

An indirect material is originating without regard to where it is produced.

Article 3.11. Intermediate Materials Used In Production

1. If an intermediate material is originating, no account is taken of non-originating material contained in that intermediate material when it is subsequently used in the production of another good.
2. For the purpose of determining the origin of a good, a producer of a good may designate an intermediate material as a material to be taken into account as an originating or non-originating material, as the case may be, in determining whether the good satisfies the applicable requirements of the rules of origin.

Article 3.12. Packaging Materials and Containers for Retail Sale

Except as provided in Article 3.08 and Annex 3.02, a packaging material or container in which a good is packaged for retail sale is disregarded in determining whether:

- (a) the non-originating material satisfies the applicable requirements set out in Annex 3.02; or
- (b) the good meets the requirements established in Article 3.02(a) or (c).

Article 3.13. Packing Materials and Containers for Shipment

A packing material, container, pallet or similar article, in which a good is packed for shipment is disregarded in determining whether that good is originating.

Article 3.14. Transit and Transshipment

1. An originating good that is exported from a Party maintains its originating status only if the good:

(a) does not undergo further production or any other operation outside the territories of the Parties, other than unloading, reloading or any other operation necessary to preserve it in good condition or to transport the good to the territory of a Party; and

(b) remains under customs control while outside the territories of the Parties.

2. The Parties recognize that a good qualifying as an originating good under a trade agreement between a Party and a non-Party, which establishes or leads to the establishment of a free trade area, does not lose its originating status under that agreement solely by reason of transiting or being transhipped through a Party's territory or by reason of the wholesale purchase or sale of that good in a Party's free trade zone, if all the conditions required under the applicable provisions of that agreement are met.

Article 3.15. Interpretation and Application

For the purpose of this Chapter:

(a) the basis for tariff classification in this Chapter is the Harmonized System;

(b) where applying Article 3.02(d), the determination of whether a heading or subheading under the Harmonized System provides for both a good and the material that is used in the production of the good is made on the basis of the nomenclature of the heading or subheading and the relevant Section or Chapter Notes, in accordance with the General Rules for the Interpretation of the Harmonized System; and

(c) costs referred to in this Chapter must be recorded and maintained in accordance with the Generally Accepted Accounting Principles applicable in the territory of the Party in which the good is produced.

Article 3.16. Consultation and Modifications

1. The Parties shall consult regularly to ensure that this Chapter is administered effectively, uniformly and consistently with the spirit and objectives of this Agreement, and shall cooperate in the administration of this Chapter in accordance with Chapter Four (Customs Procedures).

 - (b) have the Certificate of Origin in its possession at the time the declaration is made;

(c) provide, at the request of that Party's customs administration, a copy of the Certificate of Origin and, if required by the customs administration, a translation of the Certificate of Origin in a language required by its domestic law; and

(d) promptly make a corrected declaration in a manner required by the customs administration of the importing Party and pay any duties owing when the importer has reason to believe that a Certificate of Origin on which a declaration was based contains information that is incorrect.

2. For the purpose of paragraph 1(d), if the customs administration of the importing Party determines that the Certificate of Origin has not been completed in accordance with Article 4.02, the importing Party shall ensure that the importer is granted no less than 5 working days to provide the customs administration with a corrected Certificate of Origin.

3. When an importer claims preferential tariff treatment for a good imported into the territory of a Party from the territory of the other Party:

(a) the importing Party may deny preferential tariff treatment to the good if the importer fails to comply with a requirement under this Chapter; and

(b) the importing Party shall not subject the importer to penalties for making an incorrect declaration if the importer voluntarily corrects the declaration under paragraph 1(d).

4. Each Party, through its customs administration, may require an importer to demonstrate that a good for which the importer claims preferential tariff treatment was shipped in accordance with Article 3.14 (Rules of Origin - Transit and Transshipment) by providing:

(a) carrier documents, including bills of lading or waybills, indicating the shipping route and all points of shipment and transshipment prior to the importation of the good, and

(b) where the good is shipped through or transshipped outside the territories of the Parties, a copy of the customs control documents indicating to that customs administration that the good remained under customs control while outside the territories of the Parties.

5. Where a good would have qualified as an originating good when it was imported into the territory of a Party, but no claim for preferential tariff treatment was made at the time of importation, the importing Party shall permit the importer, within a period of no less than 1 year after the date of importation, to apply for a refund of any excess duties paid as a result of the good not having been granted preferential tariff treatment, on presentation to the customs administration of the importing Party of:

(a) a written declaration that the good qualified as originating at the time of importation;

(b) a copy of the Certificate of Origin; and

(c) other documentation relating to the importation of the good required by the importing Party.

Article 4.04. Exceptions

A Party shall not require a Certificate of Origin for:

(a) an importation of a good whose value does not exceed USD 1,000 or its equivalent amount in the Party's currency, or a higher amount that the Party establishes, except that it may require that the invoice accompanying the importation include a statement from the exporter certifying that the good qualifies as an originating good, or

(b) an importation of a good for which the importing Party has waived the requirement for a Certificate of Origin,

provided that the importation does not form part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the certification requirements of Articles 4.02 and 4.03.

Article 4.05. Obligations Regarding Exportations

1. Each Party shall provide that:

(a) on the request of its customs administration, an exporter in its territory, or a producer in its territory that has provided a copy of a Certificate of Origin to that exporter in accordance with Article 4.02(3)(b)(iii) must provide a copy of the Certificate of Origin to its customs administration;

(b) an exporter or a producer in its territory that has completed and signed a Certificate of Origin and has reason to believe that the Certificate of Origin contains information that is incorrect must promptly notify in writing every person to whom each has provided the Certificate of Origin of a change that could affect the accuracy or validity of the Certificate of Origin; and

(c) a false certification by an exporter or a producer in its territory that a good to be exported to the territory of the other Party qualifies as originating is subject to the same legal consequences, with appropriate modifications, as would apply to an importer in the territory of the exporting Party that makes a false statement or representation in connection with an importation.

2. Neither Party may impose penalties on an exporter or a producer in its territory that voluntarily provides written notification under paragraph 1(b) with respect to the making of an incorrect certification.

3. Each Party may apply a measure that the circumstances warrant if an exporter or a producer in its territory fails to comply with a requirement of this Chapter.

Section II. Administration and Enforcement

Article 4.06. Records

1. Each Party shall provide that:

(a) an exporter or a producer in its territory that completes and signs a Certificate of Origin must maintain in its territory, for 5 years after the date on which the Certificate of Origin was signed or for a longer period as specified by the Party, records relating to the origin of a good for which preferential tariff treatment was claimed in the territory of the other Party, including records associated with:

(i) the purchase of, cost of, shipping of, value of, and payment for, the exported good,

(ii) the purchase of, cost of, value of, and payment for all materials, including indirect materials, used in the production of the exported good, and

(iii) the production of the good in the form in which it was exported;

and

(b) an importer claiming preferential tariff treatment for a good imported into the Party's territory must maintain, in that territory documentation relating to the importation of the good, including a copy of the Certificate of Origin, for 5 years after the date of importation of the good or for a longer period as specified by the Party.

2. When a Party requires importers, exporters or producers in its territory to maintain documentation or records in relation to the origin of the good, in accordance with that Party's laws and regulations, it shall permit them to do so in any medium, provided that the documentation or records can be retrieved and printed.

3. A Party may deny preferential tariff treatment to a good that is the subject of an origin verification where the exporter, producer or importer of the good that is required to maintain records or documentation under this Article:

(a) fails to maintain records or documentation relevant to determining the origin of the good in accordance with the requirements of the Chapter; or

(b) denies access to the records or documentation.

Article 4.07. Origin Verifications

1. For purposes of determining whether a good imported into its territory from the territory of the other Party qualifies as an originating good, a Party may, through its customs administration, conduct a verification only by means of:

(a) verification letters requesting information from the exporter or producer of the good in the territory of the other Party;

(b) written questionnaires to an exporter or a producer in the territory of the other Party;

(c) visits to the premises of an exporter or a producer in the territory of the other Party to review the records referred to in Article 4.06(1)(a) and observe facilities used in the production of the good; or

(d) any other method that the Parties decide.

2. For purposes of verifying the origin of a good, the importing Party may request the importer of the good to voluntarily obtain and supply written information voluntarily provided by the exporter or producer of the good in the territory of the other Party. The importing Party shall not consider the failure or refusal of the importer to obtain and supply that information as a failure of the exporter or producer to supply the information or as a ground for denying preferential tariff treatment.

3. Each Party shall allow an exporter or producer who receives a verification letter under paragraph 1(a) or a questionnaire under paragraph 1(b) no less than 30 days from the date of receipt of that letter or questionnaire to provide the information and documentation required or the completed questionnaire. On written request by the exporter or producer made during that period, the importing Party may grant the exporter or producer a single extension of the deadline for a period of no more than 30 days.

4. If an exporter or producer fails to provide the information and documentation required by a verification letter or fails to return a duly completed questionnaire within the period or extension set out in paragraph 3, the importing Party may deny preferential tariff treatment to the good in question in accordance with the procedures set out in paragraphs 14, 15 and 16.

5. Prior to conducting a verification visit under paragraph 1(c), a Party, through its customs administration, shall:

(a) deliver a written notification of its intention to conduct the visit:

(i) to the exporter or producer whose premises are to be visited,

(ii) to the customs administration of the other Party, and

(iii) if requested by the other Party, to the embassy of that Party in the territory of the Party proposing to conduct the visit; and

(b) obtain the written consent of the exporter or producer whose premises are to be visited.

6. The notification referred to in paragraph 5 must include:

(a) the identity of the customs administration issuing the notification;

(b) the name of the exporter or producer whose premises are to be visited;

(c) the date and place of the proposed verification visit;

(d) the object and scope of the proposed verification visit, including specific reference to the good that is the subject of the verification;

(e) the names and titles of the officials performing the verification visit; and

(f) the legal authority for the verification visit.

7. If an exporter or producer has not given its written consent to a proposed verification visit within 30 days of receipt of a notification under paragraph 5, the notifying Party may deny preferential tariff treatment to the good that would have been the subject of the visit.

8. The Party whose customs administration receives notification under paragraph 5(a)(ii), within 15 days of receipt of the notification, may postpone in writing to the customs administration who sent the notice, the proposed verification visit for no more than 60 days from the date of that receipt or for a longer period that the Parties may decide.

9. Each Party shall allow, when the exporter or producer receives notification under paragraph 5(a)(i), the exporter or producer to, on a single occasion, within 15 days of receipt of the notification, request in writing the postponement of the proposed verification visit for no more than 60 days from the date of that receipt or for a longer period as accepted by the notifying Party.

10. A Party shall not deny preferential tariff treatment to a good based only on the postponement of a verification visit under paragraphs 8 or 9.

11. A Party shall permit an exporter or a producer whose good is the subject of a verification visit by the other Party to designate two observers to be present during the visit, provided that:

(a) the observers do not participate in a manner other than as observers; and

(b) the failure of the exporter or producer to designate observers does not result in the postponement of the visit.

12. When a Party conducts a verification of origin involving a value test, de minimis calculation or any other provision in Chapter Three (Rules of Origin) to which Generally Accepted Accounting Principles may be relevant, it shall apply those principles as they apply in the territory of the other Party from which the good was exported.

13. When the producer of a good calculates the net cost of the good as set out in Article 3.04 (Rules of Origin - Value Test), the importing Party will not verify, during the period over which the net cost is being calculated, whether the good satisfies the value test.

14. The Party conducting a verification shall provide the exporter or producer whose good is the subject of the verification with a written determination of whether the good qualifies as originating, including findings of fact and the legal basis for the determination.

15. If a Party determines as a result of an origin verification that the good that is the subject of the verification does not qualify as originating, the Party shall include in its written determination under paragraph 14 a written notice of intent to deny preferential tariff treatment of the good.

16. Each Party shall ensure that a written notice of intent to deny preferential tariff treatment under paragraph 15 provides for at least 30 days during which the exporter or producer of the good may provide, with regard to that determination, written comments or additional information that will be taken into account by the Party prior to completing the verification.

17. In accordance with each Party's laws and regulations, if verifications by a Party indicate a pattern of conduct by an exporter or a producer of false or unsupported representations that a good imported into its territory qualifies as originating, the Party may withhold preferential tariff treatment to identical goods exported or produced by that exporter or producer until that exporter or producer establishes compliance with Chapter Three (Rules of Origin).

18. If, in conducting a verification of origin of a good imported into its territory under this Article, a Party conducts a verification of the origin of a material that is used in the production of the good, the Party shall conduct the verification of origin of the material in accordance with the procedures in paragraphs 1 through 3, 5, 6, 8, 9 through 13 and 20.

19. When a Party conducts a verification under paragraph 18, the Party may consider the material to be non-originating in determining whether the good is an originating good if the producer or supplier of that material does not allow the Party access to information required to make a determination of whether the material is an originating material by the following or other means:

(a) denial of access to its records;

(b) failure to respond to a verification questionnaire or letter; or

(c) refusal to consent, within 30 days of receipt of a notification under paragraph 5, to a verification visit.

20. For purposes of this Article, the importing Party shall ensure that communication to the exporter or producer and to the other Party are sent by means that can produce a confirmation of receipt. The periods referred to in this Article begin from the date of that receipt.

Article 4.08. Confidentiality

1. Each Party shall maintain, in accordance with its domestic law, the confidentiality of the information collected under this Chapter and shall protect that information from disclosure that could prejudice the competitive position of a person providing the information. If the Party receiving or obtaining the information is required by its domestic law to disclose the information, that Party shall notify the person or Party who provided that information.

2. Each Party shall ensure that the confidential information collected under this Chapter is not used for purposes other than the administration and enforcement of determinations of origin and of customs matters, except with the authorization of the person or Party who provided the confidential information.

3. Notwithstanding paragraph 2, a Party may allow information collected under this Chapter to be used in any administrative, judicial or quasi-judicial proceedings instituted for failure to comply with customs related laws and regulations implementing Chapter Three (Rules of Origin) and this Chapter. A Party shall notify the person or Party who provided the information in advance of that use.

Article 4.09. Penalties

Each Party shall adopt or maintain measures for imposing criminal, civil or administrative penalties for violations of its laws and regulations relating to this Chapter.

Section II. Advance Rulings

Article 4.10. Advance Rulings

1. Each Party, through its customs administration, shall provide for the expeditious issuance of a written advance ruling, prior to the importation of a good into its territory, to an importer in its territory or an exporter or a producer in the territory of the other Party, on the basis of the facts and circumstances presented by that importer, exporter or producer of the good, concerning whether a good qualifies as an originating good in accordance with Chapter Three (Rules of Origin).
2. Each Party shall adopt or maintain procedures for the issuance of an advance ruling, including a detailed description of the information reasonably required to process an application for a ruling.
3. Each Party shall provide that its customs administration:
 - (a) during the course of an evaluation of an application for an advance ruling, may request supplemental information from the person requesting the ruling;
 - (b) after it has obtained necessary information from the person requesting an advance ruling, shall issue the ruling within 120 days; and
 - (c) shall provide to the person requesting the ruling a full explanation of the reasons for the ruling.
4. The customs administration may decline or postpone the issuance of an advance ruling if the ruling involves an issue that is the subject of:
 - (a) a verification of origin;
 - (b) a review by or appeal to the customs administration; or
 - (c) a judicial or quasi-judicial review in that Party's territory.
5. Subject to paragraph 8, each Party shall apply an advance ruling to importations into its territory of the good for which the ruling was requested, beginning on the date of its issuance or a later date specified in the ruling.
6. Each Party shall provide to a person requesting an advance ruling the same treatment, including the same interpretation and application of provisions of Chapter Three (Rules of Origin) regarding a determination of origin, as it provided to another person to whom it issued an advance ruling, provided that the facts and circumstances are identical in all material respects.
7. The issuing Party may modify or revoke an advance ruling:
 - (a) if the ruling is based on an error of fact;
 - (b) if there is a change in a material fact or circumstance on which the ruling is based;
 - (c) to conform with a modification of Chapter Two (National Treatment and Market Access for Goods), Chapter Three (Rules of Origin), this Chapter or any Uniform Regulations; or
 - (d) to conform with a judicial decision or a change in its domestic law.
8. Each Party shall provide that a modification or revocation of an advance ruling is effective on the date on which the modification or revocation is issued, or on a later date specified in that modification or revocation, and is not applied to importations of a good that have occurred prior to that date, unless the person to whom the advance ruling was issued has not acted in accordance with its terms and conditions.
9. Notwithstanding paragraph 8, the issuing Party shall postpone the effective date of that modification or revocation for no more than 90 days where the person to whom the advance ruling was issued demonstrates that it has relied in good faith to its detriment on that ruling.
10. Subject to paragraph 7, each Party shall provide that an advance ruling remains in effect and is honoured.

Section IV. Review and Appeal of Determinations of Origin and

Advance Rulings

Article 4.11. Review and Appeal

1. Each Party shall grant substantially the same rights of review and appeal of determinations of origin and advance rulings issued by its customs administration as it provides to an importer in its territory, to a person who:

(a) completes and signs a Certificate of Origin for a good that has been the subject of a determination of origin; or

(b) has received an advance ruling under Article 4.10(1). 2. Further to Articles 20.04 (Transparency - Administrative Proceedings) and 20.05 (Transparency - Review and Appeal), each Party shall provide that the rights of review and appeal referred to in paragraph 1 includes access to:

(a) at least one level of administrative review independent of the official or office responsible for the determination under review; and

(b) judicial or quasi-judicial review of the determination or decision taken at the final level of administrative review.

Section V. Uniform Regulations

Article 4.12. Uniform Regulations

1. The Parties may establish and implement, through their respective domestic law or administrative policy, by the date of entry into force of this Agreement, Uniform Regulations regarding the interpretation, application and administration of this Chapter.

2. Each Party shall implement a modification of or addition to the Uniform Regulations within a period that the Parties may decide.

Section VI. Cooperation

Article 4.13. Cooperation

1. The Parties shall cooperate, to the extent practicable, in jointly organizing training programs on customs-related issues, such as simulated audit environment exercises, for the officials and users who participate directly in customs procedures.

2. With respect to goods considered originating in accordance with Article 3.05 (Rules of Origin - Accumulation), the Parties may cooperate with a non-Party in developing customs procedures based on the principles of this Chapter.

Article 4.14. Customs Procedures Sub-Committee

1. The Parties hereby establish a Customs Procedures Sub-Committee comprising representatives of each Party. The Sub-Committee shall meet periodically at the request of a Party, and shall:

(a) endeavour to decide on:

(i) the uniform interpretation, application and administration of Articles 2.05 (National Treatment and Market Access for Goods - Temporary Admission of Goods), 2.06 (National Treatment and Market Access for Goods - Duty-Free Entry of Certain Commercial Samples and Printed Advertising Materials), and 2.07 (National Treatment and Market Access for Goods - Goods Re- Entered after Repair or Alteration), of Chapter Three (Rules of Origin), this Chapter and any Uniform Regulations,

(ii) tariff classification and valuation matters relating to determinations of origin,

(iii) equivalent procedures and criteria for the request, approval, modification, revocation and implementation of advance rulings,

(iv) revision of the Certificate of Origin,

(v) any other matter referred to it by a Party or the Committee on Trade in Goods and Rules of Origin established under Article 2.19 (National Treatment and Market Access for Goods - Consultations and Committee on Trade in Goods and Rules of Origin), and

(vi) any other customs-related matter arising under this Agreement;

(b) consider:

(i) the harmonization of customs-related automation requirements and documentation, and

(ii) proposed customs-related administrative or operational changes that may affect the flow of trade between the Parties' territories;

(c) report periodically to the Committee on Trade in Goods and Rules of Origin and notify it of any agreement reached under this paragraph; and

(d) refer to the Committee on Trade in Goods and Rules of Origin any matter on which it has been unable to reach a decision within 60 days of referral of the matter to it, under paragraph (a)(v).

2. Nothing in this Chapter prevents a Party from issuing a determination of origin or an advance ruling relating to a matter under consideration by the Customs Procedures Sub-Committee or the Committee on Trade in Goods and Rules of Origin or from taking other action that it considers necessary, pending a resolution of the matter under this Agreement.

Chapter Five. TRADE FACILITATION

Article 5.01. Objectives and Principles

1. With the objectives of facilitating trade under this Agreement and of cooperating to pursue trade facilitation initiatives on a multilateral basis, each Party shall administer its import and export procedures and measures for goods traded under this Agreement on the basis that, to the extent possible:

(a) procedures be efficient to reduce costs for importers and exporters and simplified where appropriate to achieve such efficiency;

(b) procedures be based on international trade instruments or international standards agreed upon by the Parties;

(c) entry procedures be transparent to ensure predictability for importers and exporters;

(d) measures to facilitate trade also support mechanisms to protect persons through effective enforcement of and compliance with national requirements;

(e) those procedures and the personnel involved in them comply with international standards of integrity;

(f) the development of significant modifications to procedures of a Party include, in advance of implementation, consultations with the representatives of the trading community of that Party; and

(g) procedures be based on risk management principles to focus compliance efforts on transactions that merit attention.

2. The Parties shall encourage cooperation, technical assistance and the exchange of information, including information on best practices, for the purpose of promoting the application of and compliance with the trade facilitation measures agreed upon under this Agreement and those agreed upon by the Parties under the auspices of the World Customs Organization or the World Trade Organization.

Article 5.02. Rights and Obligations

1. The Parties affirm their rights and obligations under Article VII (Fees and Formalities Connected with Importation and Exportation) and Article X (Publication and Administration of Trade Regulations) of the GATT 1994.

2. A Party shall promptly release an unrestricted, uncontrolled or non-regulated good. Subject to paragraph 3, each Party shall provide the option of releasing that good either:

(a) at the time of its presentation to the customs administration of the importing Party based on the submission of only the information required before the good arrives or at the time of arrival; for greater certainty, a Party, through its customs administration, may require the submission of more extensive information through post-entry accounting and verifications, as appropriate; or

(b) before or at the time of arrival of the good, based on the submission of all the information necessary to obtain a final accounting of the good.

3. The Parties recognize that, for certain goods, under certain circumstances, such as goods subject to a quota or to health-related or public safety requirements, a Party may require before releasing the goods the submission of more extensive information, before or at the time of arrival of the goods, to allow the competent authorities to examine the goods for release.

4. Each Party shall facilitate and simplify its procedures for the release of low-risk goods, and shall improve procedures on the release of high-risk goods. For these purposes, each Party shall base its examination and release procedures and its post-entry verification procedures on risk management principles, rather than examining every shipment offered for entry in a comprehensive manner for compliance with all import requirements. Nothing in this paragraph prevents a Party from conducting quality control and compliance reviews, which may require more extensive examinations.

5. Each Party shall ensure that the procedures of its competent authorities, whose requirements on the import or export of goods are maintained either by themselves or on their behalf by the Party's customs administration, are coordinated to facilitate trade. To this end, each Party shall take steps to harmonize the data requirements of its competent authorities, with the objective of allowing importers and exporters to present all required data to only one competent authority.

6. In its procedures for the clearance of express consignments, each Party shall apply, to the extent possible, the World Customs Organization's Guidelines for the Immediate Release of Consignments by Customs.

7. In accordance with its domestic law, each Party shall adopt or maintain simplified clearance procedures for the entry of a good that is low in value if the importing Party considers that the revenue associated with the import of that good is not significant.

8. The Parties shall endeavour to achieve common procedures and to simplify the information necessary for the release of goods, applying, when appropriate, existing international standards. With this objective, each Party shall set up a system for the electronic exchange of information between competent authorities and importers, exporters, their agents or their representatives, for the purpose of encouraging rapid release procedures. For the purpose of this Article, and without precluding the use of additional electronic data transmission standards, each Party shall, to the extent possible:

(a) use formats based on international standards for the electronic exchange of information; and

(b) take into account the World Customs Organization's Recommendations "Concerning the Use of UN/EDIFACT Rules for Electronic Data Interchange" and "Concerning the Use of Codes for the Representation of Data Elements".

9. Each Party shall establish means of consultation with its trade and business communities to promote greater cooperation and the exchange of electronic information.

10. Subject to Chapter Four (Customs Procedures), a Party, prior to importation, shall upon request issue a written ruling pertaining to tariff classification, applicable rate of customs duty or any other tax applicable upon importation except a surtax or surcharge.

That request may be made in writing by: (a) an importer in the Party's territory; (b) an exporter or producer in the territory of the other Party; or (c) a representative of a person in subparagraph (a) or (b).

11. Each Party shall adopt or maintain procedures for the issuance of rulings referred to in paragraph 10. A Party may, at any time, modify or revoke a ruling:

(a) without retroactive application after notification to the person that requested the ruling; or

(b) with retroactive application and without notification if inaccurate or false information was provided.

12. When a Party determines that a request for a ruling is incomplete, it may request additional information, including, if appropriate, a sample of the goods or materials in question from the person requesting the ruling. A Party shall issue a ruling within 120 days of receiving all the information it considers necessary to issue the ruling. A ruling shall be binding upon the competent authority that issued the ruling at the time the good is actually imported provided that the facts and circumstances that were the basis for the issuance of the ruling remain in effect.

13. Each Party shall ensure that:

(a) an administrative action or official decision taken in respect of the import or export of a good is reviewable promptly by a judicial, arbitral or administrative tribunal or through administrative procedures;

(b) the administrative tribunal or administrative procedures referred to in subparagraph (a) are:

(i) available before a person is required to seek redress before a judicial or arbitral tribunal, and

(ii) independent of the official or, where applicable, the office responsible for the original action or decision; and

(c) the tribunal or official acting under the administrative procedures referred to in subparagraph (a) is independent of the official or office issuing the decision and has the competence to maintain, modify or reverse the determination, in accordance with the domestic law of that Party.

14. Further to Article 20.02 (Transparency - Publication), each Party shall promptly publish or otherwise make available, including through electronic means, all its legislation, regulations, judicial decisions and administrative rulings or policies of general application relating to its requirements for imported or exported goods. Each Party shall also make available notices of an administrative nature, such as general agency requirements and entry procedures, hours of operation and contact for information enquiries.

15. Each Party shall, in accordance with its domestic law, treat as strictly confidential all business information obtained pursuant to this Chapter that is by its nature confidential or that is provided on a confidential basis.

Article 5.03. Cooperation

1. The Parties recognize that technical cooperation is fundamental to facilitating compliance with the obligations set forth in this Agreement and for reaching a better degree of trade facilitation.

2. The Parties agree to develop a technical cooperation program on customs-related matters on the basis of mutually decided terms relating to issues such as the scope, timing and cost of cooperative measures. Customs-related matters includes, among other matters:

(a) training;

(b) risk assessment;

(c) prevention and detection of contraband and illegal activities;

(d) implementation of the Customs Valuation Agreement;

(e) audit and verification frameworks;

(f) customs laboratories; and

(g) implementation of the World Customs Organization's Framework of Standards to Secure and Facilitate Global Trade, Pillar 1, Customs-to-Customs level.

3. The Parties shall cooperate:

(a) in the enforcement of their respective customs-related laws or

(b) regulations implementing this Agreement;

to the extent practicable and for purposes of facilitating the flow of trade between them, in such customs-related matters as the collection and exchange of statistics regarding the importation and exportation of goods, the harmonization of documentation used in trade and the standardization of data elements; and

(c) to the extent practicable, to exchange information to assist each other in the tariff classification of imported and exported goods.

Article 5.04. Future Work Program

1. With the objective of developing further steps to facilitate trade under this Agreement, the Parties establish the following work program:

(a) to develop the Cooperation Program referred to in Article 5.03 for the purpose of facilitating compliance with the obligations set forth in this Agreement; and

(b) as appropriate, to identify and submit for the consideration of the Commission new measures aimed at facilitating trade between the Parties, taking as a basis the objectives and principles set forth in Article 5.01 including, among other things:

(i) common processes,

- (ii) general measures to facilitate trade,
- (iii) official controls,
- (iv) transportation,
- (v) the promotion and use of standards,
- (vi) the use of automated systems and Electronic Data Interchange (EDI),
- (vii) the availability of information,
- (viii) customs and other official procedures concerning the means of transportation and transportation equipment, including containers,
- (ix) official requirements for imported goods,
- (x) simplification of the information necessary for the release of goods,
- (xi) customs clearance of exports,
- (xii) transshipment of goods,
- (xiii) goods in international transit,
- (xiv) commercial practices, and
- (xv) payment procedures.

2. The Parties may periodically review the work program referred to in paragraph 1 to decide on new cooperation actions and new measures that might be needed to promote application of the trade facilitation obligations and principles.

3. The Parties shall review relevant international initiatives on trade facilitation, including the Compendium of Trade Facilitation Recommendations, developed by the United Nations Conference on Trade and Development and the United Nations Economic Commission for Europe, to identify areas where further joint action would facilitate trade between the Parties and promote shared multilateral objectives.

Chapter Six. SANITARY AND PHYTOSANITARY MEASURES

Article 6.01. Relation to other Agreements

The SPS Agreement governs the rights and obligations of the Parties in respect of a sanitary or phytosanitary measure that may, directly or indirectly, affect trade between the Parties. The objective of this Chapter is to enhance the Parties' implementation of the SPS Agreement.

Article 6.02. SPS Issue Avoidance and Resolution

1. The Parties agree to work expeditiously to resolve a specific sanitary or phytosanitary trade-related issue. To that end, the Parties commit to undertake the necessary technical discussions, including an assessment of the scientific basis of the measures at issue.

2. At the request of either Party, the Parties shall meet in a timely manner to resolve a specific sanitary or phytosanitary trade-related matter. Unless the Parties decide otherwise, they shall meet within 45 days of the request, and if travel is required the Party requesting the meeting shall travel to the territory of the other Party.

Article 6.03. SPS Coordinators

1. Each Party shall designate a SPS Coordinator to facilitate communication on sanitary or phytosanitary trade-related matters and shall notify the other Party of its SPS Coordinator through the Coordinators.

2. The functions of the SPS Coordinators include:

(a) communications relating to sanitary and phytosanitary issue avoidance and resolution, including consultations related to the development and application of a sanitary or phytosanitary measure that affects or may affect trade between the

Parties;

(b) consultation, as required, in coordination with the Contact Points established under Chapter Nineteen (Trade-Related Cooperation), on technical and institutional co-operation activities to resolve a specific issue related to a sanitary or phytosanitary measure that affects or may affect trade between the Parties;

(c) the promotion of enhanced transparency of sanitary and phytosanitary measures; and

(d) the promotion, as desirable, of bilateral consultations on a sanitary or phytosanitary issue under discussion in a multilateral or international forum such as the WTO Committee on Sanitary and Phytosanitary Measures, the Committees of the Codex Alimentarius Commission, the International Plant Protection Convention (IPPC), the World Organisation for Animal Health (OIE), or other international and regional fora on food safety, human, animal and plant health.

3. In order to facilitate the resolution of a sanitary or phytosanitary trade-related issue or to facilitate the fulfillment of the functions of the SPS Coordinators, the Parties may convene an ad hoc technical working group comprising officials from governmental institutions with responsibility for sanitary and phytosanitary measures on that issue.

4. The Parties agree to carry out their work under this Chapter, to the extent possible, through the use of any technological means available, for example via teleconference or videoconference, and opportunities that may arise at international fora.

5. In the event that the Parties are unable to resolve an issue expeditiously under this Chapter, the SPS Coordinators, upon request of a Party, shall report promptly to the Commission on the matter, in accordance with Article 21.01(2) (Administration of the Agreement - Joint Commission).

Such initiatives may include:

(a) regulatory or technical cooperation programs directed at reaching effective and full compliance with the obligations of this Chapter and the TBT Agreement;

Where a consultation process for the development of technical regulations and conformity assessment procedures is open to the public, each Party shall permit a person of the other Party to participate on terms no less favourable than those accorded to its own persons.

3. Each Party shall recommend to standardization bodies in its territory that they observe paragraph 2 with respect to their consultation processes for the development of a standard or voluntary conformity assessment procedure.

4. Each Party shall allow a period of at least 60 days following its notification to the WTO's Central Registry of Notifications of proposed technical regulations and conformity assessment procedures for the public and the other Party to provide written comments, except where urgent problems arise, or threaten to arise, regarding safety, health, environmental protection or national security.

5. Each Party, at the request of the other Party, shall provide information regarding the objectives of, and rationale for, a technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.

6. Where a Party does not accept a technical regulation of the other Party as equivalent to its own, it shall explain its decision at the request of the other Party. The Parties recognize that it may be necessary to develop common views, methods and procedures to facilitate the use of equivalency.

7. Where a Party does not accept the results of a conformity assessment procedure conducted in the territory the other Party, it shall explain the reasons for its decision at the request of the other Party.

8. The Parties shall ensure that all adopted technical regulations and conformity assessment procedures are available on official websites that are publicly available without charge.

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the Agreement on Safeguards, which shall exclusively govern global safeguard actions, including the resolution of a dispute in respect thereof.

2. This Agreement does not confer additional rights or obligations on the Parties with regard to actions taken pursuant to Article XIX of the GATT 1994 and the Agreement on Safeguards, except that a Party taking a global safeguard measure may exclude imports of an originating good of the other Party if the competent investigating authority of that Party concludes that those imports are not a substantial cause of serious injury or threat thereof.

3. A Party may not adopt or maintain with respect to the same good at the same time:

(a) an emergency action; and

(b) a measure pursuant to Article XIX of the GATT 1994 and the Agreement on Safeguards.

2. If the conditions set out in paragraph 1 and Articles 8.04 and 8.05 are met, a Party may to the extent necessary to prevent or remedy serious injury, or threat thereof, and to facilitate adjustment:

(a) suspend the further reduction of a rate of duty provided for under this Agreement on the good; or

(b) increase the rate of duty on the good to a level not exceeding the lesser of:

(i) the most-favoured-nation (MFN) rate of duty in effect at the time the emergency action is taken, and

4. A Party may take an emergency action under Article 8.03 after the expiration of the transition period to deal with cases of serious injury, or threat thereof, to a domestic industry arising from the operation of this Agreement only with the consent of the other Party.

5. A Party taking an emergency action under Article 8.03 shall provide to the exporting Party mutually accepted trade liberalizing compensation in the form of concessions with substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the action. If the Parties are unable to decide on compensation, the Party whose goods are subject to the action may take tariff action with trade effects substantially equivalent to the emergency action taken under Article 8.03. The Party taking the tariff action shall apply the action only for the minimum period necessary to achieve the substantially equivalent effects and, in any event, only while the emergency action under Article 8.03 is in effect.

Article 8.06. Administration of Emergency Action Proceedings

1. Each Party shall ensure the consistent, impartial and reasonable administration of its laws, regulations, decisions and

rulings governing emergency action proceedings.

1. In the event of an inconsistency between this Chapter and another Chapter, the other Chapter prevails.

2. A requirement by a Party that a service provider of the other Party post a bond or other form of financial security as a condition of providing a service to its territory does not of itself make this Chapter applicable to that cross-border service. This Chapter applies to that Party's treatment of the posted bond or financial security if the bond or financial security is a covered investment.

3. This Chapter does not apply to a measure adopted or maintained by a Party to the extent that the measure is covered by Chapter Twelve (Financial Services).

3. The treatment accorded by a Party under paragraphs 1 and 2 means, with respect to a sub-national government, treatment no less favourable than the treatment accorded in like circumstances by that sub-national government to investors and to investments of investors of the Party of which it forms a part.

3. A breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

Article 9.07. Performance Requirements

5. Paragraph 1(f) does not apply if the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal or competition authority to remedy an alleged violation of domestic competition law.

6. Paragraphs 1 and 3 do not apply to a requirement other than the requirements set out in those paragraphs.

7. This Article does not preclude enforcement of a commitment, undertaking or requirement between private parties.

2. A Party may require that a majority of the board of directors, or a committee thereof, of an enterprise that is a covered investment be of a particular nationality or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

Article 9.09. Reservations and Exceptions

1. Articles 9.04, 9.05, 9.07 and 9.08 do not apply to:

(a) an existing non-conforming measure maintained by:

(ii) a sub-national government of a Party;

(b) the continuation or prompt renewal of a non-conforming measure referred to in subparagraph (a); or

(c) an amendment to a non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 9.04, 9.05, 9.07 and 9.08.

2. Articles 9.04, 9.05, 9.07 and 9.08 do not apply to a measure that a Party adopts or maintains with respect to sectors, subsectors or activities, as set out in its Schedule to Annex II.

3. Article 9.05 does not apply to treatment accorded by a Party under an agreement, or regarding a sector, set out in its Schedule to Annex II.

4. Regarding intellectual property rights, a Party may derogate from Articles 9.04, 9.05 and Article 9.07(1)(f) in a manner that is consistent with the TRIPS Agreement and waivers to the TRIPS Agreement adopted under Article IX of the WTO Agreement.

5. Articles 9.04, 9.05 and 9.08 do not apply to:

(a) procurement by a Party or a state enterprise; or

(a) contributions to capital;

(b) profits, dividends, interest, capital gains, royalty payments, management fees, technical assistance and other fees, returns in kind and other amounts derived from the investment;

2. Each Party shall permit transfers relating to a covered investment to be made in the convertible currency in which the capital was originally invested, or in another convertible currency agreed to by the investor and the Party concerned. Unless otherwise agreed by the investor, transfers shall be made at the market rate of exchange in effect on the date of transfer.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent a transfer through the equitable, non-discriminatory and good faith application of its domestic law relating to:

(a) bankruptcy, insolvency or the protection of the rights of a creditor;

(b) issuing, trading or dealing in securities, futures, options or derivatives;

(c) a criminal or penal offence;

(d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or

(e) ensuring compliance with an order or judgment in judicial or administrative proceedings.

4. A Party may not require one of its investors to transfer, or penalize one of its investors for failure to transfer, the income, earnings, profits or other amounts derived from, or attributable to, an investment in the territory of the other Party.

5. Paragraph 4 does not prevent a Party from imposing a measure through the equitable, non-discriminatory and good faith application of its domestic law relating to the matters in paragraphs 3(a) through (e).

6. Notwithstanding paragraph 1, a Party may restrict transfers of returns in kind in circumstances where it could otherwise restrict transfers under Article XI of the GATT 1994.

Article 9.11. Expropriation

1. A Party may not nationalize or expropriate a covered investment either directly or indirectly through a measure having an effect equivalent to nationalization or expropriation ("expropriation") except for a public purpose, in accordance with due process of law, in a non-discriminatory manner and on payment of prompt, adequate and effective compensation. For greater certainty, this paragraph shall be interpreted consistent with Annex 9.11.

2. The compensation referred to in paragraph 1 must be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place ("date of expropriation"), and shall not reflect any change in value occurring because the intended expropriation had become known earlier. Valuation criteria shall include going concern value, asset value including declared tax value of tangible property, and other criteria, as appropriate, to determine fair market value.

3. Compensation shall be paid without delay and shall be fully realizable and freely transferable. Compensation shall be paid in a freely convertible currency and shall include interest at a commercially reasonable rate for that currency from the date of expropriation until date of payment.

4. The investor affected shall have a right under the law of the expropriating Party to prompt review of its case and of the valuation of its investment by a judicial or other independent authority of that Party under the principles set out in this Article.

5. This Article does not apply to the issuance of a compulsory license granted in relation to intellectual property rights, or to the revocation, limitation or creation of an intellectual property right, to the extent that such issuance, revocation, limitation or creation is consistent with the WTO Agreement.

Article 9.12. Compensation for Losses

Notwithstanding Article 9.09(5)(b), each Party shall accord to an investor of the other Party, and to a covered investment, non-discriminatory treatment with respect to a measure it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict or civil strife.

Article 9.13. Transparency

1. Further to Article 20.02 (Transparency - Publication), each Party shall ensure that its laws, regulations, procedures, and administrative rulings of general application respecting a matter covered by this Chapter are promptly published or otherwise made available in such a manner as to enable interested persons and the other Party to become acquainted with them.

2. To the extent possible, each Party shall:

(a) publish in advance any such measure that it proposes to adopt; and

(b) provide interested persons and the other Party a reasonable opportunity to comment on that proposed measure.

3. Upon request by a Party, the other Party shall provide information on a measure that may have an impact on a covered investment.

Article 9.14. Subrogation

1. If a Party or an agency of a Party makes a payment to one of its investors under a guarantee or a contract of insurance it has entered into in respect of an investment, the other Party shall recognize the validity of the subrogation in favour of that

Party or agency to a right or title held by the investor. The subrogated right or claim may not be greater than the original right or claim of the investor.

2. A Party or an agency of a Party that is subrogated to a right of an investor in accordance with paragraph 1 is entitled to the same rights as those of the investor regarding the investment. These rights may be exercised by the Party or an agency of the Party, or by the investor if the Party or its agency so authorizes.

Article 9.15. Denial of Benefits

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of that Party and to investments of that investor if investors of a non-Party own or control the enterprise and the denying Party adopts or maintains a measure with respect to the non-Party that prohibits transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

2. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of that Party and to investments of that investor if investors of a non-Party own or control the enterprise and the enterprise has no substantial business activities in the territory of the Party under whose domestic law it is constituted or organized.

Article 9.16. Health, Safety and Environmental Measures

The Parties recognize that it is inappropriate to encourage investment by relaxing domestic health, safety or environmental measures. Accordingly, a Party should not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such measures to encourage the establishment, acquisition, expansion or retention in its territory of an investment of an investor. If a Party considers that the other Party has offered such an encouragement, it may request discussions with the other Party and the two Parties shall enter discussions with a view to avoiding any such encouragement.

Article 9.17. Corporate Social Responsibility

Each Party should encourage enterprises operating within its territory or subject to its jurisdiction to voluntarily incorporate internationally recognized standards of corporate social responsibility in their internal policies, such as those statements of principle that have been endorsed or are supported by the Parties. These principles address issues such as labour, the environment, human rights, community relations and anti-corruption.

Article 9.18. Special Formalities and Information Requirements

1. Article 9.04 does not prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with the establishment of a covered investment, such as a requirement that an agent of an investor be a resident of the Party or that a covered investment be legally constituted under the laws or regulations of the Party, provided that those formalities do not materially impair the protections afforded by a Party to investors of the other Party and covered investments under this Chapter.

2. Notwithstanding Article 9.04 or 9.05, a Party may require an investor of the other Party, or its covered investment, to provide routine information concerning that investment solely for informational or statistical purposes. The Party shall protect any confidential information from disclosure that would prejudice the competitive position of the investor or the covered investment. This paragraph does not prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

Section C. Settlement of Disputes between an Investor and the Host Party

Article 9.19. Purpose

Without prejudice to the rights and obligations of the Parties under Chapter Twenty-Two (Dispute Settlement), this Section establishes a mechanism for the settlement of investment disputes.

Article 9.20. Claim by an Investor of a Party on Its Own Behalf

An investor of a Party may submit to arbitration under this Section a claim that the other Party has breached:

- (a) an obligation under Section B, other than an obligation under Article 9.03(4), 9.13, 9.16, 9.17 or 9.18,
 - (b) an obligation under Article 14.03(3)(a) (Competition Policy, Monopolies and State Enterprises - Designated Monopolies) or Article 14.04(2) (Competition Policy, Monopolies and State Enterprises - State Enterprises), only to the extent that the monopoly or state enterprise has acted in a manner inconsistent with an obligation under Section B, other than an obligation under Article 9.13, 9.16, 9.17 or 9.18, or
 - (c) an agreement referred to in Article 23.04(9)(a) (Exceptions - Taxation),
- and that the investor has incurred loss or damage by reason of, or arising out of, that breach.

Article 9.21. Claim by an Investor of a Party on Behalf of an Enterprise

1. An investor of a Party, on behalf of an enterprise of the other Party that is a juridical person that the investor owns or controls directly or indirectly, may submit to arbitration under this Section a claim that the other Party has breached:

- (a) an obligation under Section B, other than an obligation under Article 9.03(4), 9.13, 9.16, 9.17 or 9.18,
- (b) an obligation under Article 14.03(3)(a) (Competition Policy, Monopolies and State Enterprises - Designated Monopolies), or Article 14.04(2) (Competition Policy, Monopolies and State Enterprises - State Enterprises), only to the extent that the monopoly or state enterprise has acted in a manner inconsistent with an obligation under Section B, other than an obligation under Article 9.13, 9.16, 9.17 or 9.18, or
- (c) an agreement referred to in Article 23.04(9)(b) (Exceptions - Taxation), and that the enterprise has incurred loss or damage by reason of that breach.

2. Where an investor makes a claim under this Article and the investor or a non- controlling investor in the enterprise makes a claim under Article 9.20 arising out of the same events that gave rise to the claim under this Article, and two or more of the claims are submitted to arbitration under Article 9.23, the claims should be heard together by a Tribunal established under Article 9.27, unless the Tribunal finds that the interests of a disputing party would be prejudiced as a result.

3. An investment may not make a claim under this Section.

Article 9.22. Conditions Precedent to Submission of a Claim to Arbitration

1. The disputing parties shall hold consultations and attempt to settle a claim amicably before a disputing investor may submit a claim to arbitration. Consultations shall be held within 30 days of the submission of the notice of intent to submit a claim to arbitration, unless the disputing parties otherwise agree. The place of consultation shall be the capital of the disputing Party, unless the disputing parties otherwise agree.

2. A disputing investor may submit a claim to arbitration under Article 9.20 or Article 9.21 only if:

- (a) the disputing investor and, where a claim is made under Article 9.21, the enterprise consent to arbitration in accordance with the procedures set out in this Chapter;
- (b) at least six months have elapsed since the events giving rise to the claim;

- (e) in the case of a claim submitted under Article 9.20:

acquired, knowledge of the alleged breach and knowledge that the disputing investor has incurred loss or damage thereby,

(ii) the disputing investor waives its right to initiate or continue before an administrative tribunal or court under the domestic law of a Party, or other dispute settlement procedures, proceedings with respect to the measure of the disputing Party that is alleged to be a breach referred to in Article 9.20, and

(iii) if the claim is for loss or damage to an interest in an enterprise of the other Party that is a juridical person that the disputing investor owns or controls directly or indirectly, the enterprise waives the right referred to in subparagraph (ii); and

(f) in the case of a claim submitted under Article 9.21:

(i) not more than three years have elapsed from the date on which the enterprise first acquired, or should have first acquired, knowledge of the alleged breach and knowledge that the enterprise has incurred loss or damage thereby, and

(ii) both the disputing investor and the enterprise waive their rights to initiate or continue before an administrative tribunal or court under the domestic law of a Party, or other dispute settlement procedures, a proceeding with respect to the measure of the disputing Party that is alleged to be a breach under Article 9.21.

3. Paragraphs 2(e)(ii) and (iii) and 2(f)(ii):

(a) do not apply to proceedings before a judicial or administrative tribunal or court under the domestic law of the disputing Party that:

(i) are for interim injunctive, declaratory or other extraordinary relief,

(ii) do not involve the payment of monetary damages, and

(iii) are brought for the sole purpose of preserving the claimant's or the enterprise's rights and interests while the arbitration is pending;

and

(b) do not require a waiver from an enterprise if a disputing Party has deprived the investor of control of an enterprise.

4. The disputing enterprise or investor shall deliver the consent and waiver required under paragraph 2 to the disputing Party and shall include them in the submission of a claim to arbitration.

5. An investor may submit a claim relating to taxation measures covered by this Agreement to arbitration under this Section only if the taxation authorities of the Parties fail to reach the joint determinations specified in Article 23.04 (Exceptions - Taxation) within six months of being notified in accordance with those provisions.

Article 9.23. Submission of a Claim to Arbitration

1. A disputing investor who meets the conditions precedent in Article 9.22 may submit the claim to arbitration under:

(a) the ICSID Convention, provided that both Parties are party to the Convention;

(b) the Additional Facility Rules of ICSID, if only one Party is a party to the ICSID Convention; or

Article 9.24. Consent to Arbitration

1. Each Party consents to the submission of a claim to arbitration in accordance with the terms of this Agreement. Failure to meet a condition precedent listed in Article 9.22 nullifies that consent.

2. The consent given in paragraph 1 and the submission by a disputing investor of a claim to arbitration satisfies the requirement of:

(a) Chapter I of the ICSID Convention (Jurisdiction of the Centre) and the Additional Facility Rules for written consent of the parties; and

(b) Article II of the New York Convention for an agreement in writing.

Article 9.25. Arbitrators

1. Except in respect of a Tribunal established under Article 9.27, and unless the disputing parties agree otherwise, the Tribunal shall be composed of three arbitrators. One arbitrator shall be appointed by each of the disputing parties and the third, who will be the presiding arbitrator, shall be appointed by agreement of the disputing parties.

2. Arbitrators shall have expertise or experience in public international law, international trade or international investment rules, or the resolution of disputes arising under international trade or international investment agreements. They shall be independent of, and not be affiliated with or take instructions from, either Party or the disputing investor.

3. If the disputing parties do not agree on the remuneration of the arbitrators before the constitution of the Tribunal, the prevailing ICSID rate for arbitrators shall apply.

4. If a Tribunal, other than a Tribunal established under Article 9.27, has not been constituted within 90 days from the date that a claim is submitted to arbitration, the Secretary-General of ICSID, on the request of either disputing party, shall appoint the arbitrator or arbitrators not yet appointed. The Secretary-General shall make the appointment in its discretion and, to the extent practicable, do so in consultation with the disputing parties. The Secretary-General may not appoint as presiding arbitrator a national of either Party.

Article 9.26. Agreement to Appointment of Arbitrators

For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator based on a ground other than citizenship or permanent residence:

(a) the disputing Party agrees to the appointment of each individual member of a Tribunal established under the ICSID Convention or the ICSID Additional Facility Rules;

(b) a disputing investor referred to in Article 9.20 may submit a claim to arbitration or continue a claim under the ICSID

Convention or the ICSID Additional Facility Rules only if the disputing investor agrees in writing to the appointment of each member of the Tribunal; and

(c) a disputing investor referred to in Article 9.21 may submit a claim to arbitration, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only if the disputing investor and the enterprise agree in writing to the appointment of each member of the Tribunal.

Article 9.27. Consolidation

1. A Tribunal established under this Article shall be established under the UNCITRAL Arbitration Rules and shall conduct its proceedings in accordance with those Rules, except as modified by this Section.

2. If a Tribunal established under this Article is satisfied that claims submitted to arbitration under Article 9.23 have a question of law or fact in common, the Tribunal may, in the interests of fair and efficient resolution of the claims and after hearing the disputing parties, by order:

(a) assume jurisdiction over, and hear and determine together, all or part of the claims; or

(b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others.

3. A disputing party that seeks an order under paragraph 2 shall request that the Secretary-General of ICSID establish a Tribunal and shall specify in the request:

(a) the name of the disputing Party or disputing investor against which the order is sought;

(b) the nature of the order sought; and

(c) the grounds for the order sought.

4. The disputing party shall deliver a copy of the request to the disputing Party or disputing investor against which the order is sought.

5. Within 60 days of receipt of the request, the Secretary-General of ICSID shall establish a Tribunal consisting of three arbitrators. The Secretary-General of ICSID shall appoint one member who is a national of the disputing Party, one member who is a national of the Party of the disputing investors and a presiding arbitrator who is not a national of either Party.

6. Where a Tribunal has been established under this Article, a disputing investor that has submitted a claim to arbitration under Article 9.23 and that has not been named in a request made under paragraph 3 may make a written request to the Tribunal that it be included in an order made under paragraph 2, and shall specify in the request:

(a) the name and address of the disputing investor;

(b) the nature of the order sought; and

(c) the grounds for the order sought.

7. A disputing investor referred to in paragraph 6 shall deliver a copy of its request to the disputing parties named in a request made under paragraph 3.

8. A Tribunal established under Article 9.23 does not have jurisdiction to decide a claim, or a part of a claim, over which a Tribunal established under this Article has assumed jurisdiction.

9. On application of a disputing party, a Tribunal established under this Article may order that the proceedings of a Tribunal established under Article 9.23 be stayed pending its decision under paragraph 2, unless that Tribunal has already adjourned its proceedings.

Article 9.28. Documents to, and Participation of, the other Party

1. A disputing Party shall deliver to the other Party a copy of the notice of intent to submit a claim to arbitration and other documents within 30 days of the date that those documents have been delivered to the disputing Party. The other Party is entitled, at its cost, to receive from the disputing Party a copy of the evidence that has been tendered to the Tribunal, copies of all pleadings filed in the arbitration and the written argument of the disputing parties. The Party receiving such information shall treat the information as if it were a disputing Party.

2. The other Party to this Agreement has the right to attend a hearing held under Section C of this Chapter. Upon written notice to the disputing parties, the other Party may make submissions to a Tribunal on a question of interpretation of this Agreement.

Article 9.29. Place of Arbitration

The disputing parties may agree on the legal place of arbitration under the arbitral rules applicable under Article 9.23(1). If the disputing parties fail to agree, the Tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place is in the territory of either Party or of a third State that is a party to the New York Convention.

Article 9.30. Public Access to Hearings and Documents

1. A Tribunal award under this Section shall be publicly available, subject to the redaction of confidential information. All other documents submitted to, or issued by, the Tribunal shall be publicly available unless the disputing parties otherwise agree, subject to the redaction of confidential information.
2. Hearings held under this Section shall be open to the public. The Tribunal may hold portions of hearings in camera to the extent necessary to ensure the protection of confidential information, including business confidential information.
3. A disputing party may disclose to other persons in connection with the arbitral proceedings such unredacted documents as it considers necessary for the preparation of its case, but it shall ensure that those persons protect the confidential information in those documents.
4. The Parties may share with officials of their respective national and sub-national governments all relevant unredacted documents in the course of dispute settlement under this Chapter, but they shall ensure that those persons protect confidential information in those documents.
5. To the extent that a Tribunal's confidentiality order designates information as confidential and a Party's domestic law on access to information requires public access to that information, the Party's domestic law on access to information prevails. However, a Party should endeavour to apply its domestic law on access to information so as to protect information designated confidential by the Tribunal.

Article 9.31. Submissions by a Non-Disputing Party

1. A Tribunal has the authority to consider and accept written submissions from a person or entity that is not a disputing party with a significant interest in the arbitration. The Tribunal shall ensure that a non-disputing party submission does not disrupt the proceedings and does not unduly burden or unfairly prejudice either disputing party.
2. An application to the Tribunal for leave to file a non-disputing party submission, and the filing of a submission, if allowed by the Tribunal, must be made in accordance with Annex 9.31.

Article 9.32. Governing Law

1. A Tribunal established under this Section shall decide the issues in dispute consistently with this Agreement and applicable rules of international law. An interpretation by the Commission of this Agreement is binding on a Tribunal established under this Section and an award under this Section must be consistent with that interpretation.
2. Where a disputing Party asserts as a defence that the measure alleged to be a breach is within the scope of a reservation or exception set out in Annex I, Annex II or Annex III, on request of the disputing Party the Tribunal shall request the interpretation of the Commission on the issue. Within 60 days of delivery of the request, the Commission shall submit in writing its interpretation to the Tribunal. The interpretation is binding on the Tribunal. If the Commission fails to submit an interpretation within 60 days, the Tribunal shall decide the issue.

Article 9.33. Expert Reports

1. Subject to paragraph 2, a Tribunal may appoint experts to report to it in writing on any factual issue concerning environmental, health, safety or other scientific matters raised by a disputing party, subject to such terms and conditions as the disputing parties may decide.
2. The Tribunal may not exercise the power conferred to it under paragraph 1 if the disputing parties decide that the Tribunal may not do so.

3. Paragraph 1 does not affect the appointment of other kinds of experts where the appointment is authorized by the applicable arbitration rules.

Article 9.34. Interim Measures of Protection and Final Award

1. A Tribunal may order an interim measure of protection to preserve the rights of a disputing party or to ensure that the Tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the Tribunal's jurisdiction. A Tribunal may not order attachment or enjoin the application of the measure alleged to constitute a breach referred to in Articles 9.20 and 9.21. For purposes of this paragraph, an order includes a recommendation.

2. Where a Tribunal makes a final award against the disputing Party, the Tribunal may award only:

(a) monetary damages and any applicable interest; or

(b) restitution of property, in which case the award shall provide that the disputing Party may pay monetary damages and any applicable interest in lieu of restitution. The Tribunal may also award costs in accordance with the applicable arbitration rules.

3. Subject to paragraph 2, where a claim is made under Article 9.21:

(a) an award of monetary damages and any applicable interest shall provide that the sum be paid to the enterprise;

(b) an award of restitution of property shall provide that restitution be made to the enterprise; and

(c) the award shall provide that it is made without prejudice to a right that a person may have in monetary damages or property awarded under subparagraphs (a) or (b) under domestic law.

4. A Tribunal may not order a disputing Party to pay punitive damages.

Article 9.35. Finality and Enforcement of an Award

1. An award made by a Tribunal has no binding force except between the disputing parties and in respect of that particular case.

2. Subject to paragraph 3 and the applicable review procedure for an interim award, a disputing party shall abide by and comply with an award without delay.

3. A disputing party may not seek enforcement of a final award until:

(a) in the case of a final award made under the ICSID Convention:

(i) 120 days have elapsed from the date the award was rendered, provided that a disputing party has not requested that the award be revised or annulled, or

(ii) revision or annulment proceedings have been completed; and

(b) in the case of a final award under the ICSID Additional Facility Rules or the UNCITRAL Arbitration Rules:

(i) 90 days have elapsed from the date the award was rendered and no disputing party has commenced a proceeding to revise, set aside or annul the award, or

(ii) a court has dismissed or allowed an application to revise, set aside or annul the award and there is no further appeal.

4. Each Party shall provide for the enforcement of an award in its territory.

5. A claim that is submitted to arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for purposes of Article I of the New York Convention.

Article 9.36. Receipts Under Insurance or Guarantee Contracts

In an arbitration under this Section, a disputing Party may not assert as a defence, counterclaim, right of setoff or otherwise that the disputing investor has received or will receive, under an insurance or guarantee contract, indemnification or other compensation for all or part of its alleged damages.

Article 9.37. Exclusions

The dispute settlement provisions of this Section and of Chapter Twenty-Two (Dispute Settlement) do not apply to the matters referred to in Annex 9.37.

Article 9.38. Suspension of other Agreements

1, The Treaty between the Government of Canada and the Government of the Republic of Panama for the Promotion and Protection of Investments, done at Guatemala on 12 September 1996 (the "FIPA") is suspended from the date of entry into force of this Agreement until such time as this Agreement is no longer in force.

2. Notwithstanding paragraph 1, the FIPA remains operative for a period of 15 years after the entry into force of this Agreement for the purpose of any breach of the obligations of the FIPA that occurred before the entry into force of this Agreement. During this period the right of an investor of a Party to submit a claim to arbitration concerning such a breach shall be governed by the relevant provisions of the FIPA.

Annex 9.11. Expropriation

The Parties confirm their shared understanding that:

- (a) indirect expropriation results from a measure or a series of measures of a Party that has an effect equivalent to direct expropriation without formal transfer of title or outright seizure;
- (b) the determination of whether a measure or series of measures of a Party constitute an indirect expropriation requires a case-by-case, fact-based inquiry that considers, among other factors:
 - (i) the economic impact of the measure or a series of measures, although the sole fact that a measure or a series of measures of a Party has an adverse effect on the economic value of an investment does not establish that an indirect expropriation has occurred,
 - (ii) the extent to which the measure or the series of measures interfere with distinct, reasonable investment-backed expectations, and
 - (ii) the character of the measure or the series of measures;
- (c) except in rare circumstances, such as when a measure or a series of measures is so severe in the light of its purpose that it cannot be reasonably viewed as having been adopted and applied in good faith, a non-discriminatory measure of a Party that is designed and applied to protect legitimate public welfare objectives, such as health, safety and the environment, does not constitute indirect expropriation.

Annex 9.31. Submissions by a Non-Disputing Party

1. The application for leave to file a non-disputing party submission shall:

- (a) be made in writing, dated and signed by the person filing the application, and include the address and other contact details of the applicant;
- (b) be no longer than five typed pages;
- (c) describe the applicant, including, where relevant, its membership and legal status (for example, company, trade association or other non-governmental organization), its general objectives, the nature of its activities, and any parent organization (including any organization that directly or indirectly controls the applicant);
- (d) disclose whether the applicant has an affiliation, direct or indirect, with a disputing party;
- (e) identify any government, person or organization that has provided financial or other assistance in preparing the submission;
- (f) specify the nature of the interest that the applicant has in the arbitration;
- (g) identify the specific issues of fact or law in the arbitration that the applicant has addressed in its written submission;
- (h) explain why the Tribunal should accept the submission; and

(i) be made in a language of the arbitration.

2. The submission filed by a non-disputing party shall:

(a) be dated and signed by the person filing the submission;

(b) be concise, and not exceed 20 typed pages, including any appendices;

(c) set out a precise statement supporting the applicant's position on the issues; and

(d) only address matters within the scope of the dispute.

Annex 9.37. Exclusions

1. A decision by Canada following a review under the Investment Canada Act (R.S.C. 1985, c. 28 (1st supp.)), with respect to whether to permit an acquisition that is subject to review, shall not be subject to the dispute settlement provisions of Section C of this Chapter or of Chapter Twenty-Two (Dispute Settlement).

2. A decision by a Party to prohibit or restrict the acquisition of an investment in its territory by an investor of the other Party, or its investment, under Article 23.03 (Exceptions à National Security) shall not be subject to the dispute settlement provisions of Section C of this Chapter or of Chapter Twenty-Two (Dispute Settlement).

Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licences or certifications obtained or requirements met in that other Party's territory should be recognized.

3. A Party shall not accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing or certification of services providers, or a disguised restriction on trade in services.

4. The Parties shall encourage their relevant professional service bodies in their respective territories to:

(a) exchange information on existing standards and criteria for the authorization, licensing and certification of professional service providers; and

(b) enforcement of that regulation is not necessary to protect consumers; or

(c) it is consistent with the public interest, including promoting and enhancing competition between suppliers of a public telecommunications transport network or service.

2. 3. For purposes of the national treatment obligations in Article 12.06(1), a Party shall accord to a cross-border financial service supplier of the other Party treatment no less favourable than that it accords to its own financial service suppliers, in like circumstances, with respect to the supply of the relevant service.

4. The treatment that a Party is required to accord under paragraphs 1, 2 and 3 means, with respect to measures adopted or maintained by a sub-national government, treatment no less favourable than the most favourable treatment accorded, in like circumstances, by that sub-national government to investors in financial institutions, financial institutions, investments of investors in financial institutions and financial service providers of the Party of which it forms a part.

1. Each Party shall accord to an investor of the other Party, a financial institution of the other Party, an investment of an investor in a financial institution and a cross-border financial service supplier of the other Party treatment no less favourable than that it accords to the investors, financial institutions, investments of investors in financial institutions and cross-border financial service suppliers of a non-Party, in like circumstances.

(a) accorded unilaterally;

(b) achieved through harmonization or other means; or

(c) based upon an agreement or arrangement with the non-Party.

4. If a Party accords recognition of prudential measures under subparagraph 2(c) and the circumstances set out in paragraph 3 exist, the Party shall provide adequate opportunity to the other Party to negotiate accession to the agreement or arrangement, or to negotiate a comparable agreement or arrangement.

Article 12.05. Right of Establishment

1. A Party shall permit an investor of the other Party that does not own or control a financial institution in the Party's territory to establish, without the imposition of numerical restrictions or requirements to take a specific juridical form, a financial institution that is permitted to supply a financial service that a like institution of the Party may supply under the domestic law of the Party at the time of establishment. The obligation not to impose a requirement to take a specific juridical form does not prevent a Party from imposing a condition or requirement in connection with the establishment of a particular type of entity chosen by an investor of the other Party.

2. A Party shall permit an investor of the other Party that owns or controls a financial institution in the Party's territory to establish in that territory such additional financial institutions as may be necessary for the supply of the full range of financial services allowed under the domestic law of the Party at the time of establishment of the additional financial institutions. Subject to Article 12.03, a Party may impose a term or condition on the establishment of additional financial institutions and determine the institutional and juridical form to be used to supply a specified financial service or to carry out of a specified activity.

3. The right of establishment under paragraphs 1 and 2 includes the acquisition of an existing entity.

4. Subject to Article 12.03, a Party may prohibit a particular financial service or activity. Such a prohibition may not apply to all financial services or to a complete financial services sub-sector such as banking.

5. For the purpose of this Article, without prejudice to other forms of prudential regulation, a Party may require that an investor of the other Party be engaged in the business of providing financial services in the territory of that other Party.

6. For the purpose of this Article, "numerical restrictions" means limitations imposed either on the basis of a regional subdivision or on the basis of the entire territory of a Party, on the number of financial institutions whether in the form of a numerical quota, a monopoly, an exclusive service supplier or the requirements of an economic needs test.

2. Each Party shall permit a person located in its territory, and its nationals wherever located, to purchase a financial service from a cross-border financial service supplier of the other Party located in the territory of the other Party. Subject to paragraph 1, this obligation does not require a Party to permit that supplier to do business or solicit in its territory. Each Party may define "doing business" and "solicitation" for the purposes of this Article.

3. Without prejudice to other means of prudential regulation of cross-border trade in financial services, a Party may require the registration of cross-border financial service suppliers of the other Party and of financial instruments.

Article 12.07. New Financial Services

1. A Party shall permit a financial institution of the other Party to supply a new financial service that the first Party would permit its own financial institutions, in like circumstances, to supply under its domestic law. A Party may:

(a) require the financial institution to request permission or notify the relevant regulator in order to obtain that permission; and

(b) refuse to grant permission if the introduction of the financial service would require the Party to adopt or amend statutes.

2. A Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorization for the supply of the service. Where a Party would permit the new financial service and authorization is required, the decision shall be made within a reasonable time and authorization may only be refused for

prudential reasons.

3. This Article does not prevent a financial institution of a Party from applying to the other Party to consider authorizing the supply of a financial service that is not supplied within either Party's territory. That application is subject to the domestic law of the Party receiving the application and is not subject to the obligations of this Article.

Article 12.08. Treatment of Certain Information

This Chapter does not require a Party to furnish or allow access to:

(a) information related to the financial affairs and accounts of an individual customer of a financial institution or a cross-border financial service supplier; or

(b) confidential information which if disclosed would impede law enforcement or otherwise be contrary to the public interest or prejudice legitimate commercial interests of a particular enterprise.

Article 12.09. Senior Management and Boards of Directors

1. A Party may not require a financial institution of the other Party to engage natural persons of any particular nationality as senior managerial or other essential personnel.

2. A Party may not require that more than a simple majority of the board of directors of a financial institution of the other Party be composed of nationals of the Party or natural persons residing in the territory of the Party.

Where these measures do not conform with the provisions of this Agreement referred to in this paragraph, they shall not be used as a means of avoiding the Party's obligations under those provisions.

2. This Chapter or Chapter Nine (Investment), Ten (Cross-Border Trade in Services), Eleven (Telecommunications), Thirteen (Temporary Entry for Business Persons), Fourteen (Competition Policy, Monopolies and State Enterprises), or Fifteen (Electronic Commerce) does not apply to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph does not affect a Party's obligations under Article 9.07 (Investment - Performance Requirements) with respect to measures covered by Chapter Nine (Investment) or Article 9.10 (Investment - Transfers) or 10.11 (Cross-Border Trade in Services - Transfers and Payments).

3. 4. A Party may adopt or enforce a measure necessary to secure compliance with its laws or regulations that is not inconsistent with this Chapter, including a measure relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts. A Party may not apply that measure in a manner that would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on investment in a financial institution or on a cross-border trade in financial services.

Article 12.12. Transparency

The Parties recognize that transparent regulations and policies governing the activities of financial institutions and financial service suppliers are important in facilitating access of financial institutions and financial service suppliers to, and their operations in, each other's markets. 6. A regulatory authority shall make an administrative decision on a completed application of an investor in a financial institution, cross-border financial service supplier or a financial institution of the other Party relating to the supply of a financial service within 120 days, and shall promptly notify the applicant of the decision. An application shall not be considered complete until all relevant hearings are held and all necessary information is received. Where it is not practicable for a decision to be made within 120 days, the regulatory authority shall promptly notify the applicant and shall endeavour to make the decision within a reasonable time.

7. Each Party shall adopt or maintain appropriate mechanisms that will promptly respond to inquiries from an interested person regarding a measure of general application covered by this Chapter.

Article 12.13. Self-Regulatory Organizations

If a Party requires a financial institution or a cross-border financial service supplier of the other Party to be a member of, participate in, or have access to, a self-regulatory organisation to provide a financial service in or into the territory of that Party then the requiring Party shall ensure that the self-regulatory organisation observes the obligations of this Chapter.

Article 12.14. Payment and Clearing Systems

Under terms and conditions that accord national treatment, each Party shall grant to a financial institution of the other Party established in its territory access to payment and clearing systems operated by an entity exercising governmental authority delegated to it by a Party as well as access to official funding and refinancing facilities available in the normal course of ordinary business. (c) the Parties shall endeavour to jointly appoint the third panelist who shall chair the panel; unless the Parties decide otherwise, this panelist shall not be a national of either Party; if the chair of the panel has not been appointed within 30 days of the most recent appointment under subparagraph (b), either Party may request that the Appointing Authority appoint at its discretion, subject to paragraph 4, the chair of the panel, who shall not be a national of either Party;

(d) subparagraphs (b) and (c) apply where a panelist or the chair of the panel withdraws, is removed or becomes unable to serve on the panel. 4. In addition, each panelist shall have expertise or experience in financial services law or practice, which may include the regulation of financial institutions.

2. In a referral under paragraph 1, the Committee shall decide the issue of whether and to what extent Article 12.11 is a valid defence to the claim of the investor. The Committee shall transmit a copy of its decision to the Tribunal and to the Commission.

The decision is binding on the Tribunal.

(i) premiums, fees, commissions and interest, and

The procuring entity shall publish that notice in an electronic or paper medium that is widely disseminated and readily accessible to the public for the entire period established for tendering. Each Party shall maintain a gateway electronic site that includes links to all notices of procuring entities for procurements covered by this Chapter.

2. Each notice of intended procurement must include:

Article 16.07. Conditions for Participation

General Requirements

1. Where a procuring entity requires a supplier to satisfy a registration, qualification or other requirement or conditions for participation in a separate process in order to participate in a procurement covered by this Chapter, the procuring entity shall publish a notice inviting suppliers to apply for participation. The procuring entity shall publish the notice sufficiently in advance to provide interested suppliers time to prepare and submit applications and to provide the procuring entity with sufficient time to evaluate and make its determination based on those applications.

2. A procuring entity shall limit conditions for participation in a procurement covered by this Chapter to those that are

essential to ensure that a supplier has the legal and financial capacity and the commercial and technical ability to undertake the relevant procurement.

3. In establishing the conditions for participation, a procuring entity:

(a) shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded a contract by a procuring entity of a Party; and

(b) may require relevant prior experience if essential to meet the requirements of the procurement.

4. In assessing whether a supplier satisfies the conditions for participation, a procuring entity shall:

(a) evaluate the financial capacity and the commercial and technical abilities of a supplier on the basis of that supplier's business activities inside and outside the territory of the Party of the procuring entity; and

(b) base its evaluation on the conditions that the procuring entity has specified in advance in its notices or tender documentation.

5. In assessing whether a supplier satisfies the conditions for participation, a procuring entity shall recognize as qualified all domestic suppliers and suppliers of the other Party that satisfy the conditions for participation.

Multi-use Lists

6. A procuring entity may establish or maintain a multi-use list of suppliers, provided that a notice inviting interested suppliers to apply for inclusion on the list is:

(a) published annually; and

(b) where published by electronic means, made available continuously.

7. The notice referred to in paragraph 6 must include:

(a) a description of the good or service, or category thereof, for which the list may be used;

(b) the conditions for participation to be satisfied by suppliers and the methods that the procuring entity will use to verify that a supplier satisfies those conditions;

(c) the name and address of the procuring entity and other information necessary to contact the procuring entity and to obtain relevant documents relating to the list;

(d) the period of validity of the list, the means for its renewal or termination, or, if the period of validity is not provided, an indication of the method by which notice will be given of the termination of the list; and

(e) an indication that the list may be used for procurement covered by this Chapter.

8. A procuring entity shall allow suppliers to apply at any time for inclusion on a multi-use list and shall include on the list all qualified suppliers within a reasonably short time.

Selective Tendering

9. If a procuring entity intends to use selective tendering, the procuring entity shall:

(a) publish a notice inviting suppliers to apply for participation in the procurement giving sufficient time for interested suppliers to prepare and submit applications and for the procuring entity to evaluate and make its determinations based on those applications; and

(b) allow all domestic suppliers and suppliers of the other Party that the entity has determined satisfy the conditions for participation to submit a tender, unless in the notice of intended procurement or, if publicly available, in the tender documentation, the procuring entity has stated a limitation on the number of suppliers that will be permitted to tender and the criteria for this limitation.

Information on Procuring Entity Decisions

10. A procuring entity shall promptly inform a supplier that submits an application for participation in a procurement or for inclusion on a multi-use list of the procuring entity's decision with respect to the application.

11. If a procuring entity:

- (a) rejects a supplier's application for participation in a procurement or an application for inclusion on a multi-use list,
- (b) ceases to recognize a supplier as qualified, or
- (c) removes a supplier from a multi-use list,

the procuring entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

12. If there is supporting evidence, a procuring entity may exclude a supplier on grounds such as:

- (a) bankruptcy;
- (b) false declarations; or
- (c) significant or persistent deficiencies in performance of a substantive requirement or of an obligation under a prior contract.

13. A procuring entity of a Party shall not adopt or maintain a registration system or qualification procedure with the purpose or the effect of creating an unnecessary obstacle to the participation of a supplier of the other Party in its procurement.

Article 16.08. Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt, or apply a technical specification or prescribe a conformity assessment procedure with the purpose or the effect of creating an unnecessary obstacle to international trade between the Parties.

2. In prescribing the technical specifications for a good or service being procured, a procuring entity shall, where appropriate:

(a) specify the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and

(b) base the technical specification on an international standard, if it exists; otherwise, on a national technical regulation, recognized national standard or building code.

3. A procuring entity shall not prescribe a technical specification requiring or referring to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirement provided that, in those cases, the procuring entity includes words such as "or equivalent" in the tender documentation.

4. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of a technical specification for a specific procurement covered by this Chapter from a person that may have a commercial interest in the procurement.

5. A procuring entity may, in accordance with this Article, prepare, adopt or apply a technical specification to promote the conservation of natural resources or protect the environment.

Tender Documentation

6. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, that documentation shall include a complete description of:

(a) the procurement, including the nature and the quantity of the good or service to be procured or, if the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specification, conformity assessment certification, plan, drawing or instructional material;

(b) any condition for participation of a supplier, including a list of information and documents that suppliers are required to submit in connection with the conditions for participation;

(c) all evaluation criteria to be considered in the awarding of the contract, and the relative importance of that criteria, except where price is the sole criterion;

(d) where there will be a public opening of tenders, the date, time and place for the opening of tenders; and

(e) any other terms or conditions relevant to the evaluation of tenders.

7. A procuring entity shall promptly reply to a reasonable request for relevant information by a supplier participating in a procurement covered by this Chapter, except that the procuring entity shall not make available information with regard to a specific procurement in a manner that would give the requesting supplier an advantage over its competitors in the procurement.

Modifications

8. If, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing that modified, amended or re-issued notice or tender documentation:

(a) to all suppliers that are participating in the procurement at the time of the modification, amendment or re-issuance, where those suppliers are known to the procuring entity, and, in all other cases, in the same manner as the original information was made available; and

(b) in adequate time to allow those suppliers to modify and submit amended tenders, as appropriate.

Article 16.09. Time Limits for the Submission of Tenders

1. A procuring entity shall provide suppliers sufficient time to submit applications to participate in a procurement covered by this Chapter and prepare and submit responsive tenders, taking into account the nature and complexity of the procurement.

Deadlines

2. Except as provided for in paragraphs 3 and 4, a procuring entity shall establish that the final date for the submission of tenders is not less than 40 days from the date on which:

(a) in the case of open tendering, the notice of intended procurement is published; or

(b) in the case of selective tendering, the procuring entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

3. A procuring entity may reduce by 5 days the time limit established under paragraph 2 for the submission of tenders, for each one of the following circumstances:

(a) the notice of intended procurement is published by electronic means;

(b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and

(c) the procuring entity accepts tenders by electronic means.

4. A procuring entity may establish a time limit of less than 40 days for the submission of tenders provided that the time given to suppliers is sufficient to enable them to prepare and submit responsive tenders, but not less than 10 days before the final date for the submission of tenders, if:

(a) the procuring entity published a separate notice containing the information specified in Article 16.06(3) at least 40 days and not more than 12 months in advance, and such separate notice contains a description of the procurement, the relevant time limits for the submission of tenders, or, if applicable, applications for participation, and the address from which documents relating to the procurement may be obtained;

(b) there is a second or subsequent publication of notices for procurement of a recurring nature;

(c) the procuring entity procures a commercial good or service; or

(d) a state of urgency duly substantiated by the procuring entity renders impracticable the time limits specified in paragraph 2 or, if applicable, paragraph 3.

Article 16.10. Limited Tendering

1. Provided that a procuring entity does not use this provision to avoid competition among suppliers, to protect domestic suppliers, or in a manner that discriminates against suppliers of the other Party, the procuring entity may contact a supplier of its choice and may choose not to apply Articles 16.06, 16.07, 16.08, 16.09 and 16.11 only under the following circumstances, if:

(a) the requirements of the tender documentation are not substantially modified and:

(i) no tenders were submitted or no suppliers applied to participate in a procurement covered by this Chapter,

(ii) no tenders that conform to the essential requirements of the tender documentation were submitted,

(iii) no suppliers satisfied the conditions for participation, or

(iv) the tenders submitted have been collusive;

(b) the procurement can be carried out only by a particular supplier and a reasonable alternative or substitute does not exist because:

(i) the requirement is for a work of art,

(ii) a good or service being procured is protected by a patent, copyright or another exclusive right, or

(iii) of the absence of competition for technical reasons;

(c) for additional deliveries by the original supplier of a good or service that was not included in the initial procurement, a change of supplier for that additional good or service:

(i) cannot be made for economic or technical reasons, such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement, and

(ii) would cause significant inconvenience or substantial duplication of costs to the procuring entity;

(d) the good is purchased on a commodity market;

(e) a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development; original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production, or supply to establish commercial viability, or to recover research and development costs;

(f) insofar as is strictly necessary, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time using open tendering or selective tendering;

(g) a contract is awarded to a winner of a design contest provided that:

(i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement, and

(ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner;

(h) a procuring entity needs to procure a consulting service regarding matters of a confidential nature, the disclosure of which could reasonably be expected to compromise government confidences, cause economic disruption or similarly be contrary to the public interest; and

(i) an additional construction service that was not included in the initial contract but that is within the objectives of the original tender documentation has become necessary, due to unforeseeable circumstances, to complete the construction service described in the original tender documentation; however the total value of all contracts awarded for additional services may not exceed 50% of the total amount of the initial contract.

2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of good or service procured, and a statement indicating the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

Article 16.11. Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and the confidentiality of tenders.
2. A procuring entity shall treat tenders in confidence until at least the opening of the tenders.
3. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for award, a tender must be submitted in writing by a supplier that satisfies the conditions for participation and must, at the time of opening, comply with the essential requirements of the notices and tender documentation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be fully capable of undertaking the contract and, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender; or
 - (b) where price is the sole criterion, the lowest price.
6. A procuring entity shall not use options, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations in this Chapter.

Information Provided to Suppliers

7. A procuring entity shall promptly inform suppliers participating in the procurement of the entity's contract award decisions and, on request, shall do so in writing. Subject to Article 16.12, a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the procuring entity did not select its tender and the relative advantages of the successful supplier's tender.

Publication of Award Information

8. Within 72 days of an award, a procuring entity shall publish in electronic or paper form in an officially designated publication, a notice including the following information about the contract:
 - (a) the name and address of the procuring entity;
 - (b) a description of the goods or services procured;
 - (c) the date of award;
 - (d) the name and address of the successful supplier;
 - (e) the contract value; and
 - (f) the procurement method used and, when a procedure has been used pursuant to Article 16.10(1), a description of the circumstances justifying the use of that procedure.

Maintenance of Records

9. A procuring entity shall maintain reports and records of tendering procedures relating to procurements covered by this Chapter, including the reports provided for in Article 16.10(2), and shall retain such reports and records for a period of at least 3 years after the award of a contract.

Article 16.12. Disclosure of Information

Provision of Information to a Party

1. On request of the other Party, a Party shall promptly provide information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives that information shall not disclose it to a supplier without the consent of the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, may not provide information to a particular supplier that might prejudice fair competition between suppliers.

3. A Party, including its procuring entities, administrative authorities and judicial authorities, is not required under this Chapter to release confidential information if the release:

(a) would impede law enforcement;

(b) might prejudice fair competition between suppliers;

(c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or

(d) would otherwise be contrary to the public interest.

Article 16.13. Domestic Review Procedures

1. For the purposes of this Article, "challenge" means a challenge by a supplier arising in the context of a procurement covered by this Chapter in which the supplier has, or has had, an interest.

2. Each Party shall ensure that its procuring entities give impartial and timely consideration to a complaint from a supplier regarding an alleged breach of measures implementing this Chapter arising in the context of a procurement covered by this Chapter in which the supplier has, or has had, an interest. Each Party shall encourage suppliers to seek clarification from its procuring entities through discussions with a view to facilitating the resolution of a complaint.

3. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge.

4. Each Party shall ensure that an authority it establishes or designates under paragraph 3 has written procedures that are generally available. Each Party shall ensure that those procedures are timely, effective, transparent, non-discriminatory and provide that:

(a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;

(b) the participants in the challenge have:

(i) the right to be heard prior to the review body making a decision on the challenge,

(ii) the right to be represented and accompanied,

(iii) access to all challenge proceedings, and

(iv) the right to request that the proceedings take place in public and that witnesses may be presented;

(c) a decision or recommendation relating to a challenge be provided in a timely manner, in writing and with an explanation of the basis for the decision or recommendation; and

(d) each supplier be allowed a sufficient period of time to prepare and submit a challenge, which must be at least 10 days from the time when the basis of the challenge became known to the supplier or reasonably should have become known to the supplier.

5. Each Party shall provide that an authority it establishes or designates under paragraph 3 has authority to take interim measures to preserve the supplier's opportunity to participate in the procurement. Those interim measures may result in a suspension of the procurement process. The procedures for taking interim measures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied.

6. Each Party shall ensure that a supplier's submission of a challenge will not prejudice the supplier's participation in ongoing or future procurements.

7. If a body other than an authority referred to in paragraph 2 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

Article 16.14. Modifications and Rectifications to Coverage

1. A Party may modify an Annex to this Chapter.
2. When a Party modifies an Annex to this Chapter, the Party shall:
 - (a) notify the other Party in writing; and
 - (b) include in the notification a proposal of appropriate compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification.
3. Notwithstanding paragraph 2(b), a Party need not provide compensatory adjustments if:
 - (a) the modification in question is a minor adjustment or rectification of a purely formal nature; or
 - (b) the proposed modification covers an entity over which the Party has effectively eliminated its control or influence.
4. If the other Party disputes that:
 - (a) an adjustment proposed under paragraph 2(b) is adequate to maintain a comparable level of mutually decided coverage,
 - (b) the proposed modification is a minor adjustment or a rectification under paragraph 3(a), or
 - (c) the proposed modification covers an entity over which the Party has effectively eliminated its control or influence under paragraph 3(b),it shall object in writing within 30 days of receipt of the notification referred to in paragraph 1 or be deemed to have accepted the adjustment or proposed modification, including for the purposes of Chapter Twenty-Two (Dispute Settlement).

2. If, after the entry into force of the provisions of this Chapter, a Party enters into another international agreement providing greater access to its procurement market than is provided under this Chapter, including with respect to sub-national government procurement, on the request of either Party, the Parties may decide to enter into negotiations with a view to achieving a level of market access under this Chapter equivalent to that of the other international agreement.

 - (b) a complaining Party that considers it is not practicable or effective to suspend benefits or other obligations in the same sector may suspend benefits in another sector.
4. A Party may only suspend benefits temporarily, and only until the other Party has brought the inconsistent measure or other matter into conformity with this Agreement, including as a result of the panel process described in Article 22.14, or until such time as the Parties arrive at a resolution of the dispute.

The Commission shall endeavour to determine an appropriate response as expeditiously as possible.
2. The Party in whose territory the court or administrative body is located shall submit any interpretation of the Commission to the court or administrative body in accordance with the rules of that forum.

Written Submissions and Other Documents

3. Each Party shall deliver the original and a minimum of 3 copies of any written submission to the panel and one 1 copy to the Embassy of the other Party. Delivery of submissions and any other document related to the panel proceeding may be made by e-mail or other means of electronic transmission if the Parties so decide. When a Party delivers physical copies of written submissions or any other document related to the panel proceeding, that Party shall deliver at the same time an electronic version of the submissions or other document.

4. The complaining Party shall deliver an initial written submission no later than 10 days after the date on which the last panellist is appointed. The Party complained against, in turn, shall deliver a written counter-submission no later than 20 days after the date on which the initial written submission of the complaining Party is due.

5. The panel, in consultation with the Parties, shall establish dates for the delivery of the subsequent written rebuttal submissions of the Parties and any other written submissions that the panel and the Parties determine are appropriate.

6. A Party at any time may correct minor errors of a clerical nature in any written submission or other document related to the panel proceeding by delivering a new document clearly indicating the changes.

7. If the last day for delivery of a document falls on a legal holiday observed by a Party or on another day on which the government offices of a Party are closed by order of the government or by force majeure, the document may be delivered on the next business day.

Burden of Proof

Written Submission by a Non-Governmental Person

9. A panel, on application, may grant leave to a non-governmental person of a Party to file written submissions. In making its decision to grant leave, the panel shall consider, among other things:

(a) whether the subject matter of the proceeding is of public interest;

(b) whether the non-governmental person has a substantial interest in the proceeding; a substantial interest requires more than an interest in the development of trade law jurisprudence, the interpretation of the Agreement or the subject matter of the dispute;

(c) whether the written submission would assist the panel in determining a factual or legal issue related to the proceeding by bringing a perspective, particular knowledge or insight that is different from that of the Parties; and

(d) submissions by the Parties on the application for leave.

10. Where the panel has granted leave to a non-governmental person to file a written submission, the panel shall ensure that:

(a) the written submission does not introduce new issues to the dispute;

(b) the written submission is within the terms of reference of the dispute as defined by the Parties;

(c) the written submission addresses only the issues of fact and law that the person described in its request;

(d) the written submission avoids disrupting the proceeding and preserves the equality of the Parties; and

(e) the Parties have the opportunity to respond to the written submission.

Role of Experts

11. On request of a Party, or on its own initiative, the panel may seek information and technical advice from a person or body that it deems appropriate, subject to paragraphs 12 and 13 and such additional terms and conditions as the Parties

may decide. The requirements set out in Article 22.09 apply to the experts or bodies, as appropriate.

12. Before the panel seeks information or technical advice under paragraph 11, it shall:

(a) notify the Parties of its intention to seek information or technical advice and provide them with an adequate period of time to submit comments; and

19. The location of hearings shall alternate between the territories of the Parties, with the first hearing to take place in the territory of the Party complained against, unless the Parties decide otherwise.

20. No later than 5 days before the date of a hearing, each Party shall deliver to the other Party and the panel a list of the names of the persons who will be present at the hearing on behalf of that Party and of other representatives or advisers who will be attending the hearing.

23. The panel shall arrange the preparation of hearing transcripts, if any, and shall, as soon as possible after any such transcripts are prepared, deliver a copy to each Party.

Article 23.04. Taxation

1. Except as set out in this Article, this Agreement does not apply to a taxation measure.

2. This Agreement does not affect the rights and obligations of a Party under a tax convention. In the event of inconsistency between this Agreement and a tax convention, that convention prevails.

3. Where a provision with respect to a taxation measure under this Agreement is similar to a provision under a tax convention, the competent authorities identified in the tax convention shall use the procedural provisions of that tax convention to resolve an issue that may arise under this Agreement.

4. Notwithstanding paragraphs 2 and 3:

7. Subject to paragraphs 2 and 3, and without prejudice to the rights and obligations of the Parties under paragraph 4, Article 9.07 (Investment - Performance Requirements) applies to a taxation measure.

8. Notwithstanding paragraphs 2 and 3, Article 9.11 (Investment - Expropriation) applies to a taxation measure, but an investor may not invoke that Article as the basis for a claim under Articles 9.20 (Investment - Claim by an Investor of a Party on Its Own Behalf) or 9.21 (investment - Claim by an Investor of a Party on Behalf of an Enterprise), where the designated authorities of the Parties have determined under this paragraph that a taxation measure is not an expropriation. The investor shall refer the issue of whether a measure is not an expropriation for a determination to the designated authorities of the Parties at the time that it gives notice under subparagraph 2(c) of Article 9.22 (Investment - Conditions Precedent to Submission of a Claim to Arbitration). If, within a period of six months from the date of this referral, the designated authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation, the investor may submit its claim to arbitration under Article 9.23 (Investment - Submission of a Claim to Arbitration).

9. A claim by:

(a) an investor of a Party that a tax measure of the other Party breaches an agreement between a central government authority of that Party and the investor concerning an investment, or

(b) an investor of a Party, on behalf of an enterprise of the other Party that is a juridical person that the investor owns or controls directly or indirectly, that a tax measure of the other Party breaches an agreement between a central government authority of the other Party and that enterprise,

may be submitted to arbitration under Section C of Chapter Nine (Settlement of Disputes between an Investor and the Host Party) unless the designated authorities of the Parties, within six months of being notified by the investor of its intention to submit the claim to arbitration, jointly determine that the measure does not contravene such agreement. The investor shall refer the issue of whether a taxation measure does not contravene such agreement for a determination to the designated authorities of the Parties at the same time that it gives notice under Article 9.22 (Investment - Conditions Precedent to Submission of a Claim to Arbitration).

10. In order to give effect to paragraphs 1 to 3:

(a) If an issue arises as to whether a measure of a Party is a taxation measure in a dispute between the Parties, either Party may refer the issue to the designated authorities of the Parties. The designated authorities shall decide the issue of whether

the measure is a taxation measure, and their decision shall bind a panel established under Article 22.07 (Dispute Settlement - Establishment of a Panel) for the dispute. If a Party has referred the issue to the designated authorities and they have not decided the issue within six months of the referral, the panel shall decide the issue;

(b) If an issue arises as to whether a measure is a taxation measure in connection with a claim by an investor of a Party, the Party that has received notice of intention to submit a claim or against which an investor of a Party has submitted a claim may refer the issue to the designated authorities of the Parties. The designated authorities shall decide whether the measure is a taxation measure, and their decision shall bind a Tribunal with jurisdiction over the claim. A Tribunal seized of a claim in which the same issue arises may not proceed while the designated authorities are considering the issue. If a Party has referred the issue to the designated authorities and they have not decided the issue within six months of the referral, the Tribunal shall decide the issue;

(c) If an issue arises as to whether a tax convention prevails over this Agreement in a dispute between the Parties, a Party to the dispute may refer the issue to the designated authorities of the Parties. The designated authorities shall consider the issue and decide whether the tax convention prevails. If within six months of the referral of the issue to the designated authorities, they decide with respect to the measure that gives rise to the issue that the tax convention prevails, procedures concerning that measure may not be initiated under Article 22.07 (Dispute Settlement - Establishment of a Panel). Procedures concerning the measure may not be initiated while the designated authorities are considering the issue. If a Party has referred the issue to the designated authorities and they have not decided the issue within six months of the referral, the panel shall decide the issue;

(d) If an issue arises as to whether a tax convention prevails over this Agreement prior to the submission of a claim by an investor of a Party, the Party that has received notice of intention to submit a claim may refer the issue to the designated authorities of the Parties. The designated authorities shall consider the issue and decide whether the tax convention prevails. If within six months of the referral of the issue to the designated authorities, they decide with respect to the measure that gives rise to the issue that the tax convention prevails, a claim concerning that measure may not be submitted under Article 9.23 (Investment - Submission of a Claim to Arbitration). A claim concerning the measure may not be submitted while the designated authorities are considering the issue. An investor of a Party that fails to identify a taxation measure in its notice of intention to submit a claim may not submit a claim concerning that measure under Article 9.23 (Investment - Submission of a Claim to Arbitration). If a Party has referred the issue to the designated authorities and they have not decided the issue within six months of the referral, the panel shall decide the issue.

11. If an investor invokes Article 9.11 (Investment - Expropriation) as the basis for a claim under Article 9.20 (Investment - Claim by an Investor of a Party on Its Own Behalf) or 9.21 (Investment - Claim by an Investor of a Party on Behalf of an Enterprise), the designated authorities shall make a determination under paragraph 8 of whether a measure is an expropriation concurrently with a decision under paragraph 10(b) of whether the measure is a taxation measure.

12. The designated authorities seized of an issue under paragraphs 8, 9 or 10 may modify the time period allowed to decide the issue.

13. This Agreement does not require a Party to furnish or allow access to information whose disclosure would be contrary to that Party's law protecting information concerning the taxation affairs of a taxpayer.

Article 23.05. Disclosure of Information

1. This Agreement does not require a Party to furnish or allow access to information which if disclosed would impede law enforcement, or would be contrary to the Party's law protecting the deliberative and policy-making processes of the executive branch of government at the cabinet level, personal privacy or the financial affairs and accounts of individual customers of financial institutions.

2. In the course of a dispute settlement procedure under this Agreement:

(a) a Party is not required to furnish or allow access to information protected under its competition laws;

(b) a competition authority of a Party is not required to furnish or allow access to information that is privileged or otherwise protected from disclosure.

Article 23.06. Cultural Industries

This Agreement does not apply to a measure adopted or maintained by a Party with respect to a cultural industry except as specifically provided in Article 2.04 (National Treatment and Market Access for Goods - Tariff Elimination).

Article 23.07. World Trade Organization Waivers

If a right or obligation in this Agreement duplicates one under the WTO Agreement, the Parties agree that a measure adopted by a Party in conformity with a waiver decision adopted by the WTO pursuant to Article IX of the WTO Agreement is deemed to be also in conformity with the present Agreement. Such conforming measure of either Party may not give rise to a claim by an investor of one Party against the other under Section C of Chapter Nine (Settlement of Disputes between an Investor and the Host Party).

Chapter Twenty-Four. FINAL PROVISIONS

Article 24.01. Annexes, Appendices and Footnotes

The Annexes, Appendices and footnotes to this Agreement constitute integral parts of this Agreement.

Article 24.02. Amendments

2. An amendment shall enter into force following an exchange of written notifications by the Parties certifying the completion of their respective necessary legal procedures. The amendment shall enter into force on the date agreed upon by the Parties.

Article 24.03. Reservations and Unilateral Declarations

This Agreement may not be subject to reservations nor to interpretive statements at the time of its ratification.

Article 24.04. Entry Into Force

Each Party shall notify the other Party in writing of the completion of its legal or constitutional procedures required for the entry into force of this Agreement. This Agreement shall enter into force on the first day of the second month following the latter notification of the completion of the procedures for the entry into force.

Article 24.05. Termination

This Agreement may be terminated by either Party by giving notice in writing. It shall cease to be in force 6 months after the date of receipt of that notice.

Article 24.06. Accession

The Parties and the acceding state or regional economic organisation shall notify each other through diplomatic channels of the completion of the domestic procedures necessary to approve the Agreement on Accession. The Agreement on Accession shall enter into force on the first day of the second month following the later of these notifications.

Annex I. Reservations for existing measures

The Schedule of a Party sets out, under Articles 9.09 (Investment - Reservations and Exceptions) and 10.07 (Cross-Border Trade in Services - Reservations), the reservations taken by that Party for existing measures of a Party that do not conform with obligations imposed by:

Articles 9.04 (Investment - National Treatment) or 10.03 (Cross-Border Trade in Services - National Treatment);

Articles 9.05 (Investment - Most-Favoured-Nation Treatment) or 10.04 (Cross-Border Trade in Services - Most-Favoured-Nation Treatment);

Article 10.06 (Cross-Border Trade in Services - Local Presence);

Article 9.07 (Investment - Performance Requirements);

Article 9.08 (Investment - Senior Management and Boards of Directors); or

Article 10.05 (Cross-Border Trade in Services - Market Access).

Each reservation sets out the following elements:

Sector refers to the general sector in which the reservation is taken;

Sub-Sector refers to the specific sector in which the reservation is taken;

Industry Classification refers, where applicable, to the activity covered by the reservation according to industry classification codes;

Type of Reservation specifies the obligation referred to in paragraph 1 for which a reservation is taken;

Measure identifies a law, regulation or other measure, as qualified, where indicated, by the Description element, for which the reservation is taken. A measure cited in the Measureelement:

means the measure as amended, continued or renewed as of the date of entry into force of this Agreement, and

includes a subordinate measure adopted or maintained under the authority of and consistent with the measure; and

Description sets out the non-conforming aspects of the existing measure for which the reservation is taken. It may also set out commitments for liberalization.

In the interpretation of a reservation, all elements of the reservation, with the exception of Industry Classification, are considered. The Measure element prevails over other elements, unless a discrepancy between the Measure element and the other elements considered in their totality is so substantial and material that it would be unreasonable to conclude that the Measure element prevails, in which case the other elements prevail to the extent of that discrepancy. A reservation is interpreted in the light of the relevant provisions of the Articles against which the reservation is taken.

Where a Party maintains a measure that requires a service provider be a citizen, permanent resident or resident of its territory as a condition to the provision of a service in its territory, a reservation for that measure taken with respect to Article 10.03, 10.04 or 10.06 (Cross-Border Trade in Services - National Treatment, Most-Favoured-Nation or Local Presence) operates as a reservation with respect to Article 9.04, 9.05 or 9.07 (Investment - National Treatment, Most-Favoured-Nation or Performance Requirements) to the extent of that measure.

The listing of a measure in this Annex is without prejudice to a future claim that Annex II may apply to the measure or some application of the measure.

For purposes of this Annex:

CPC means Central Product Classification (CPC) numbers as set out in Statistical Office of the United Nations, Statistical Papers, Series M, No. 77, Provisional Central Product Classification, 1991; and

SIC means Standard Industrial Classification (SIC) numbers as set out in Statistics Canada, Standard Industrial Classification, fourth edition, 1980.

Investment Canada Act, R.S.C. 1985, c. 28 (1st Supp.)

Investment Canada Regulations, SOR/85-611, as qualified by paragraphs 8 through 12 of the Description element

Description: Investment

Under the Investment Canada Act, the following acquisitions of Canadian businesses by a non-Canadian are subject to review by the Director of Investments:

a direct acquisition of a Canadian business with assets of C\$5 million or more;

indirect acquisition of a Canadian business with assets of C\$50 million or more; and

indirect acquisition of a Canadian business with assets between C\$5 million and C\$50 million that represent more than 50% of the value of the assets of all the entities the control of which is being acquired, directly or indirectly, in the transaction in question.

For the purposes of this reservation:

non-Canadian is an individual, government or agency thereof or an entity that is not Canadian; and

Canadian means a Canadian citizen or permanent resident, government in Canada or agency thereof, or a Canadian-controlled entity as described in the Investment Canada Act.

In addition, the specific acquisition or establishment of a new business in designated types of business activities relating to Canada's cultural heritage or national identity may be subject to review if the Governor-in-Council authorizes a review in the public interest.

An investment subject to review under the Investment Canada Act may not be implemented unless the Minister responsible for the Investment Canada Act advises the applicant that the investment is likely to be of net benefit to Canada. This determination is made in accordance with 6 factors described in the Act, summarized as follows:

the effect of the investment on the level and nature of economic activity in Canada, including the effect on employment, on the use of parts, components and services produced in Canada and on exports from Canada;

the degree and significance of participation by Canadians in the investment;

the effect of the investment on productivity, industrial efficiency, technological development and product innovation in Canada;

the effect of the investment on competition within an industry in Canada;

the compatibility of the investment with national industrial, economic and cultural policies, taking into consideration industrial, economic and cultural policy objectives enunciated by the government or legislature of any province likely to be significantly affected by the investment; and

the contribution of the investment to Canada's ability to compete in world markets.

In making a net benefit determination, the Minister, through the Director of Investments, may review plans under which the applicant demonstrates the net benefit to Canada of the proposed acquisition. An applicant may also submit undertakings to the Minister in connection with a proposed acquisition that is the subject of review. In the event that an applicant fails to comply with an undertaking, the Minister may seek a court order directing compliance or another remedy authorized under the Investment Canada Act.

A non-Canadian who establishes or acquires a Canadian business, other than those that are subject to review as described above must notify the Director of Investments.

The Director of Investments will review an “acquisition of control”, as defined in the Investment Canada Act, of a Canadian business by an investor of Panama if the value of the gross assets of the Canadian business is not less than the applicable threshold.

The higher review threshold, calculated as set out in paragraph 13, does not apply to an acquisition in the cultural businesses sector.

Notwithstanding the definition of “investor of a Party” in Article 9.01, an investor may benefit from the higher review threshold only if that investor is:

a national of Panama; or

an entity controlled, as provided for in the Investment Canada Act, by a national of Panama.

An indirect “acquisition of control” by an investor of Panama of a Canadian business in a sector other than those sectors identified in paragraph 8 is not reviewable.

In connection with reviewing an acquisition of an investment under the Investment Canada Act, Canada may impose requirements or enforce a commitment or undertaking in connection with the establishment, acquisition, expansion, conduct or operation of an investment of an investor of Panama or of a non-Party for the transfer of technology, production process or other proprietary knowledge to a national or enterprise, affiliated to the transferor, in Canada.

Except for requirements, commitments or undertakings relating to technology transfer as set out in paragraph 11 of this reservation, Article 9.07 applies to requirements, commitments or undertakings imposed or enforced under the Investment Canada Act. Article 9.07 shall not be construed to apply to a requirement, commitment or undertaking imposed or enforced in connection with a review under the Investment Canada Act to locate production, carry out research and development, employ or train workers, or construct or expand particular facilities, in Canada.

For direct acquisition of control by an investor of Panama or for an investor of a non-Party where the Canadian business is controlled by an investor of Panama, the applicable threshold for review is C\$299 million for 2010 and in January of each subsequent year the amount will be determined by the Minister using the following formula:

$$\text{Annual Adjustment} = \frac{\text{Current Nominal GDP at Market Prices}}{\text{Previous Year Nominal GDP at Market Prices}} \times \text{amount determined for previous year}$$

Current Nominal GDP at Market Prices means the average of the Nominal Gross Domestic Products at Market Prices for the most recent 4 consecutive quarters.

Previous Year Nominal GDP at Market Prices means the average of the Nominal Gross Domestic Products for the 4 consecutive quarters for the comparable period in the year preceding the year used in calculating the Current Nominal GDP at Market Prices.

For the above-mentioned purposes, the amounts will be rounded to the nearest million CAD.

Canada may place constraints on the issue, transfer and ownership of shares in a federally incorporated corporation. The object of those constraints is to permit a corporation to meet Canadian ownership requirements, under certain laws set out in the Canada Business Corporations Regulations, in sectors where ownership is required as a condition to operate or to receive licences, permits, grants, payments or other benefits. In order to maintain certain Canadian ownership levels, a corporation is permitted to sell shareholders' shares without the consent of those shareholders, and to purchase its own shares on the open market.

Special Acts of Parliament incorporating specific companies

Description: Investment

The Canada Business Corporations Act requires, for most federally incorporated corporations, that 25% of directors be resident Canadians. A simple majority of resident Canadian directors is required for corporations in the following sectors: uranium mining; book publishing or distribution; book sales, where the sale of books is the primary part of the corporation's business, and film or video distribution. Similarly, corporations that, by an Act of Parliament or Regulation, are individually subject to minimum Canadian ownership requirements are required to have a majority of resident Canadian directors.

For the purposes of the Act, resident Canadian means a natural person who is a Canadian citizen ordinarily resident in Canada, a citizen who is a member of a class set out in the Canada Business Corporations Regulations, or a permanent resident as defined in the Immigration and Refugee Protection Act other than one who has been ordinarily resident in Canada for more than one year after becoming eligible to apply for Canadian citizenship.

In the case of a holding corporation, not more than one-third of the directors need be resident Canadians if the earnings in Canada of the holding corporation and its subsidiaries are less than 5% of the gross earnings of the holding corporation and its subsidiaries.

Under Part IV of the Canada Corporations Act, a simple majority of the elected directors of a Special Act corporation is required to be resident in Canada and citizens of a Commonwealth country. This requirement applies to every joint stock company incorporated subsequent to June 22, 1869, by any Special Act of Parliament.

Measures implementing the Canada-Yukon Oil and Gas Accord

Measures implementing the Northwest Territories Oil and Gas Accord

Description: Cross-Border Trade in Services and Investment

Under the Canada Oil and Gas Operations Act, a "benefits plan" must be approved by the Minister in order to be authorized to proceed with an oil and gas development project.

A "benefits plan" is a plan for the employment of Canadians and for providing Canadian manufacturers, consultants, contractors and service companies with a full and fair opportunity to participate on a competitive basis in the supply of

goods and services used in proposed work or activity referred to in the benefits plan.

The benefits plan contemplated by the Canada Oil and Gas Operations Act permits the Minister to impose on the applicant an additional requirement to ensure that disadvantaged individuals or groups have access to training and employment opportunities or can participate in the supply of goods and services used in proposed work referred to in the benefits plan.

The Canada - Nova Scotia Offshore Petroleum Resources Accord Implementation Act and the Canada - Newfoundland Atlantic Accord Implementation Act have the same requirement for a benefits plan but also require that the benefits plan ensures that:

the corporation or other body submitting the plan establishes in the applicable province an office where appropriate levels of decision-making are to take place, prior to carrying out work or an activity in the offshore area;

expenditures be made for research and development to be carried out in the province, and for education and training to be provided in the province; and

first consideration be given to goods produced or services provided from within the province, where those goods or services are competitive in terms of fair market price, quality and delivery.

The Boards administering the benefits plan under these Acts may also require that the plan include provisions to ensure that disadvantaged individuals or groups, or corporations owned or cooperatives operated by them, participate in the supply of goods and services used in proposed work or activity referred to in the plan.

In addition, Canada may impose a requirement or enforce a commitment or undertaking for the transfer of technology, a production process or other proprietary knowledge to a person of Canada in connection with the approval of development projects under the applicable Acts.

Provisions similar to those set out above are included in laws which implement the Canada-Yukon Oil and Gas Accord.

Provisions similar to those set out above will be included in laws or regulations to implement the Northwest Territories Oil and Gas Accord. For the purposes of this reservation this accord shall be deemed, once concluded, to be an existing measure.
