3. The value of a non-originating material shall not include, where the producer acquires the material in the Area of the Party where the producer is located, freight, insurance, packing and all other costs incurred in transporting the material from the warehouse of the supplier of the material to the place where the producer is located; as well as any other known and ascertainable cost incurred in the Area of the producer of the good.

(a) the accessories, spare parts or tools are not invoiced separately from the good, without regard of whether they are separately detached in the commercial invoice; and

(b) the quantities and value of the accessories, spare parts or tools are customary for the good.

Article 32. Packaging Materials and Containers for Retail Sale

1. Packaging materials and containers in which a good is packaged for retail sale shall, if classified with the good pursuant to Rule 5 of the General Rules for the Interpretation of the Harmonized System, be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex 4.

2. The certificate of origin referred to in paragraph 1 above will have the purpose of certifying that a good being exported from one Party into the other Party qualifies as an originating good.
3. The certificate of origin referred to in paragraph 1 above shall be issued by the competent governmental authority of the exporting Party on request having been made in writing by the exporter or, under the exporter's responsibility, by his authorized representative, in accordance with paragraph 4 below. The certificate of origin must be stamped and signed by the competent governmental authority of the exporting Party or its designees at the time of issue. For the purposes of this Article, the competent governmental authority of the exporting Party may designate other entities or bodies to be responsible for the issuance of the certificate of origin, prior authorization given under its applicable laws and regulations. Where the competent governmental authority of the exporting Party designates other entities or bodies to carry out the issuance of the certificate of origin, the exporting Party shall notify in writing the other Party of its designees. The exporting Party shall revoke the designation, where the issuance of certificates of origin by a designee is not in conformity with the provisions provided for in this Section and the situation warrants the revocation. For this purpose, the exporting Party shall consider views expressed by the importing Party in deciding on revoking the designation.
4. Prior to the issuance of a certificate of origin, an exporter that requests a certificate of origin must prove to the competent governmental authority of the exporting Party or its designees, that the good to be exported qualifies as an originating good. Where an exporter is not the producer of the good, the exporter may request a certificate of origin on the basis of a declaration voluntarily provided by the producer of the good that demonstrates that such producer has proved to the

competent governmental authority or its designees, that the good concerned qualifies as an originating good. Nothing in this paragraph shall be construed to oblige the producer of the good to certificate that the good qualifies as an originating good. If the producer decides not to provide the declaration concerned, the exporter shall be required to prove to the competent governmental authority or its designees that the good to be exported qualifies as an originating good.

5. The competent governmental authority or its designees shall issue a certificate of origin after the exportation of a good when it is requested by the exporter in accordance with paragraph 4 above. The certificate of origin issued retrospectively must be endorsed with the phrase set out in the Uniform Regulations referred to in Article 10.

6. In the event of theft, loss or destruction of a certificate of origin, the exporter may request to the competent governmental authority or its designees which issued it a duplicate made out on the basis of the export documents in their possession. The duplicate issued in this way must be endorsed with the phrase set out in the Uniform Regulations referred to in Article 10.

7. The certificate of origin for a good imported into the importing Party shall be completed in the English language. If the certificate of origin is not completed in the English language, a translation into the official language of the importing Party shall be attached thereto. If the certificate of origin is completed in the English language, a translation into the Spanish or the Japanese language shall not be required.

8. Each Party shall provide that a valid certificate of origin that fulfills the requirements of this Section that is applicable to a single importation of a good into the other Party, shall be accepted by the customs authority of the importing Party for 1 year or another period that the Parties may agree, after the date on which the certificate was issued.

9. The competent governmental authority of the exporting Party shall:

(a) determine the administrative mechanisms for the issuing of the certificate of origin;

Article 40. Obligations Regarding Importations

(b) have the certificate in its possession at the time the declaration is made;

(c) provide the certificate on the request of the customs authority; and

(d) promptly make a corrected declaration and pay any duties owing where the importer has reason to believe that a certificate on which a declaration was based contains information that is not correct.

2. Where an importer claims preferential tariff treatment for a good imported into a Party from the other Party, the customs authority of the importing Party may deny preferential tariff treatment to the good if the importer fails to comply with any requirement under this Article.

3. Each Party shall ensure that, in the case that the importer at the time of importation does not have in his possession a certificate of origin, the importer of the good may, in accordance with the domestic laws and regulations of the importing Party, provide the certificate of origin and if required such other documentation relating to the importation of the good at a later stage, within a period not exceeding 1 year after the time of importation.

Article 41. Obligations Regarding Exportations

1. Each Party shall ensure that an exporter or a producer that has completed and signed a certificate of origin, and that has reasons to believe that the certificate contains incorrect information, shall promptly notify in writing, of any change that could affect the accuracy or validity of the certificate of origin to all persons to whom he gave the certificate, as well as to its competent governmental authority or its designees and to the customs authority of the importing Party. The notification shall be sent by one of the methods stipulated in paragraph 4 of Article 44. If this is done prior to the commencement of a verification referred to in Article 44 and if the exporter or producer demonstrates that at time of issuance of the certificate of origin he possessed facts upon which he could reasonably rely to the effect that the good qualified as an originating good, the exporter or producer shall not be subject to penalties for having submitted an incorrect certificate.

2. Each Party shall ensure that providing false declarations or documents to its competent governmental authority or its designees by its exporters or producers stating that the good qualifies as an originating good shall be subject to penalties or other appropriate sanctions as provided for in Article 46.

3. Each Party shall ensure that the exporter referred to in paragraph 3 of Article 39 or the producer referred to in paragraph 4 of Article 39, as the case may be, shall be prepared to submit at any time, at the request of the competent governmental authority or its designees of the exporting Party, all appropriate documents proving the originating status of the goods

concerned as well as the fulfillment of other requirements under this Agreement.

Article 42. Exceptions

Each Party shall ensure that a certificate of origin shall not be required for:

(a) a commercial importation of a good whose value does not exceed 1,000 United States dollars or its equivalent amount in the Party's currency, or such higher amount as it may establish, provided that it may require that the invoice accompanying the importation includes a statement indicating that the good qualifies as an originating good;

(b) a non-commercial importation of a good whose value does not exceed 1,000 United States dollars or its equivalent amount in the Party's currency, or such higher amount as it may establish; or

(c) an importation of a good for which the importing Party has waived the requirement for a

certificate of origin, provided that the importation does not form part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purposes of avoiding the certification requirements of Articles 39 and 40.

Section 2. Administration and Enforcement

Article 43. Records

1. Each Party shall ensure that:

(a) an exporter referred to in paragraph 3 of Article 39 or a producer referred to in paragraph 4 of Article 39, that has the documentation that proves that the good qualifies as an originating good for the purposes of requesting a certificate of origin shall maintain in that Party, for 5 years after the date on which the certificate was issued or for such longer period as the Party may specify, the records relating to the origin of a good for which preferential tariff treatment was claimed in the other Party, including records associated with:

2. Each Party shall ensure that the competent governmental authority or its designees shall keep a record of the certificate of origin issued for a minimum period of 5 years after the date on which the certificate was issued. Such record will include all antecedents, which were presented to prove the qualification as an originating good.

Article 44. Origin Verifications

1. For the purposes of determining whether a good imported from the other Party under preferential tariff treatment qualifies as an originating good, the importing Party may conduct a verification through its customs authority, by means of:

(a) request of information relating to the origin of a good to the competent governmental authority of the exporting Party on the basis of a certificate of origin;

(b) written questionnaires to an exporter or a producer of the good in the other Party;

(c) request to the exporting Party to collect information, including that contained in the documents maintained pursuant to Article 43, that demonstrate the compliance with Chapter 4 and to check, for that purpose, the facilities used in the production of the good, through a visit by its competent governmental authority along with the customs authority of the importing Party to the premises of an exporter or a producer of the good in the exporting Party, and to provide the collected information in the English language to the customs authority of the importing Party; or (d) such other procedure as the Parties may agree.

2. Where the customs authority of the importing Party has initiated a verification in accordance with this Article, the provisions of Annex 5 shall be applied as appropriate.

3. For the purposes of subparagraph 1(a), the competent governmental authority of the exporting Party shall provide the information requested, in a period not exceeding 4 months, after the date of the request.

If the customs authority of the importing Party considers necessary, it may require additional information relating to the origin of the good. If additional information is requested by the customs authority of the importing Party, the competent

governmental authority of the exporting Party shall provide the information requested in a period not exceeding 2 months after the date of the request.

If the competent governmental authority of the exporting Party fails to respond to the request within the period specified therein, the customs authority of the importing Party shall determine that the good subject to the verification does not qualify as an originating good, therefore considering the certificate of origin as not valid, and shall deny it preferential tariff treatment. 4. The customs authority of the importing Party shall send the questionnaires referred to in subparagraph 1(b), to the exporters or producers in the exporting Party, by any of the following means: (a) certified or registered mail with confirmation of receipt; (b) any other method that produces a confirmation of receipt by the exporter or producer; or (c) such other method that the Parties may agree.

The customs authority of the importing Party shall immediately communicate to the competent governmental authority of the exporting Party whenever it sends a questionnaire referred to in subparagraph 1(b).

5. The provisions of paragraph 1 above shall not prevent the customs authority or the competent governmental authority, as the case may be, of the importing Party from exercising its powers to take action in that Party, in relation with the compliance with its domestic laws and regulations by its own importers, exporters or producers.

6. The exporter or producer who receives a questionnaire pursuant to subparagraph 1(b) shall have 30 days from the date of its receipt to answer such questionnaire and return it.

7. Where the importing Party has received the answer to the questionnaire referred to in subparagraph 1(b) within the period specified in paragraph 6 above, and considers that it requires more information to determine whether the good subject to the verification qualifies as an originating good, it may, through its customs authority, request additional information from the exporter or producer, by means of a subsequent questionnaire, in which case, the exporter or producer shall have 30 days from the date of its receipt to answer and return it.

8. (a) If the response by the exporter or producer to any of the questionnaires referred to in paragraph 6 or 7 above does not contain sufficient information to determine that the good is originating, the customs authority of the importing Party may determine that the good subject to the verification does not qualify as an originating good and may deny it preferential tariff treatment, upon written determination under paragraph 22 below.

(b) If the response to the questionnaire referred to in paragraph 6 above is not returned within the period specified therein, the customs authority of the importing Party shall determine that the good subject to the verification does not qualify as an originating good, therefore considering the certificate of origin as not valid, and shall deny it preferential tariff treatment.

9. The conducting of a verification in accordance with one of the methods set forth in paragraph 1 above shall not preclude the use of another verification method provided for in paragraph 1 above.

10. When requesting the exporting Party to conduct a visit pursuant to subparagraph 1(c), the importing Party shall deliver a written communication with such request to the exporting Party, the receipt of which is to be confirmed by the latter Party, at least 30 days in advance of the proposed date of the visit. The competent governmental authority of the exporting Party shall request the written consent of the exporter or producer whose premises are to be visited.

11. The communication referred to in paragraph 10 above shall include:

- (a) the identity of the customs authority issuing the communication;
- (b) the name of the exporter or producer whose premises are requested to be visited;

If the proposed date referred to in subparagraph 11(c) is to be modified, this shall be notified in writing at least 10 days prior to the date of the visit.

13. The exporting Party shall respond in writing to the importing Party, within 20 days of the receipt of the communication referred to in paragraph 10 above, if it accepts or refuses to conduct a visit requested pursuant to subparagraph 1(c).

14. Where the exporting Party refuses to conduct a visit, or that Party fails to respond to the communication referred to in paragraph 10 above within the period referred to in paragraph 13 above, the customs authority of the importing Party shall determine that the good or goods that would have been the subject of the visit do not qualify as originating goods, therefore considering the certificate of origin as not valid, and shall deny them preferential tariff treatment.

15. The competent governmental authority of the exporting Party shall provide, within 45 days, or any other mutually agreed period, from the last day of the visit, to the customs authority of the importing Party the information obtained through the visit.

16. It is confirmed by both Parties that during the course of a verification referred to in paragraph 1 above, the customs authority of the importing Party may request information necessary for determining the origin of a material used in the production of the good.

17. For the purposes of obtaining information on the origin of the material used in the production of the good, the exporter or producer of the good referred to in paragraph 1 above may request a producer of the material to provide voluntarily the former with information relating to the origin of such material. In case the producer of such material desires, such information may be sent to the competent governmental authority of the exporting Party for the provision to the customs authority of the importing Party, without the involvement of the exporter or producer of the good.

18. Where the customs authority of the importing Party requests information relating to the origin of a material pursuant to paragraph 16 above, during the course of a verification in accordance with the method set forth in subparagraph 1(a), the information shall be provided by the competent governmental authority of the exporting Party in accordance with paragraph 3 above.

Where the customs authority of the importing Party requests information relating to the origin of a material pursuant to paragraph 16 above, during the course of a verification in accordance with the method set forth in subparagraph 1(b), the information shall be provided by the exporter or producer of the good or the competent governmental authority of the exporting Party, as the case may be, in accordance with paragraph 6 or 7 above, as appropriate and mutatis mutandis, provided that in case the information is provided by the competent governmental authority, the 30 day period referred to in paragraph 6 or 7 above shall mean the period beginning on the date of the receipt of the questionnaire by that exporter or producer.

Where the customs authority of the importing Party requests information relating to the origin of a material pursuant to paragraph 16 above, during the course of a verification in accordance with the method set forth in subparagraph 1(c), the information shall be provided by the competent governmental authority of the exporting Party in accordance with paragraph 15 above.

19. The requesting of information relating to the origin of a material pursuant to paragraph 16 above during the course of a verification in accordance with one of the methods set forth in paragraph 1 above shall not preclude the requesting of information relating to the origin of a material during the course of a verification in accordance with another verification method provided for in paragraph 1 above.

20. The customs authority of the importing Party shall determine that a material used in the production of the good is a non-originating material where the exporter or producer of the good or the competent governmental authority of the exporting Party, as the case may be, does not provide the information that demonstrates that the material in question qualifies as originating, or where the information provided is not sufficient to determine whether that material is originating. Such a determination shall not necessarily lead to a decision that the good itself is not originating.

21. Each Party shall, through its customs authority, conduct a verification of a regional value content requirement in accordance with the Generally Accepted Accounting Principles applied in the Party from which the good was exported.

22. After carrying out the verification procedures outlined in paragraph 1 above, the customs authority of the importing Party shall in the manner specified in paragraph 4 above, provide the exporter or producer whose good is subject to the verification, a written determination of whether or not the good qualifies as an originating good under Chapter 4, including findings of fact and the legal basis for the determination.

23. Where the customs authority of the importing Party denies preferential tariff treatment to the good in question in the cases of paragraph 3, 8(b) or 14 above, a written determination thereof shall be sent to the exporter or producer, in the manner specified in paragraph 4 above.

24. When the Party conducting a verification referred to in paragraph 1 above determines, based on the information obtained during the verification, that a good does not qualify as an originating good, and provides the exporter or producer with a written determination pursuant to paragraph 22 above, it shall grant the exporter or producer whose good was the subject of the verification, 30 days from the date of receipt of the written determination, to provide any comments or additional information before denying preferential tariff treatment to the good, and shall issue a final determination after taking into consideration any comments or additional information received from the exporter or producer during the above-mentioned period, and shall send it to the exporter or producer in the manner specified in paragraph 4 above.

25. Where the verification completed by the customs authority of the importing Party indicates that an exporter or a producer has repeatedly made false representations that a good imported into the Party qualifies as an originating good, the customs authority of the importing Party may withhold preferential tariff treatment to identical goods exported or produced by such person until that person establishes compliance with Chapter 4 to that authority. In taking such an action, the customs authority of the importing Party shall notify the person who completed and signed the certificate of origin and the competent governmental authority of the exporting Party.

26. Communications from the importing Party to an exporter or producer in the exporting Party as well as the response to the questionnaire referred to in subparagraph 1(b) to the importing Party shall be conducted in the English language

Article 45. Confidentiality

(c) make its customs procedures conform, as far as possible, to relevant international standards and recommended practices such as those made under the auspices of the Customs Cooperation Council.

Chapter 6. Bilateral Safeguard Measures

Article 51. General Provision

1. This Chapter establishes rules for the application of bilateral safeguard measures to originating goods, which shall be applied only between the Parties (hereinafter referred to as "bilateral safeguard measures").

2. Nothing in this Agreement shall prevent a Party from applying safeguard measures in accordance with Article XIX of the GATT 1994 and the Agreement on Safeguards in Annex 1A to the WTO Agreement, as may be amended. Except for the bilateral safeguard measures provided for in this Chapter, no Party shall apply safeguard measures to originating goods which are accorded the preferential tariff treatment in accordance with Article 5, outside the scope of Article XIX of the GATT 1994 and the Agreement on Safeguards in Annex 1A to the WTO Agreement, as may be amended.

Article 52. Consistency

Each Party shall ensure the consistent, impartial and reasonable administration of its laws, regulations, decisions and rulings governing proceedings of bilateral safeguard measures.

Article 53. Conditions

1. Subject to the provisions of this Chapter, each Party may apply a bilateral safeguard measure, to the minimum extent necessary to prevent or remedy the serious injury and to facilitate adjustment if an originating good imported from the other Party, which is accorded the preferential tariff treatment in accordance with Article 5, as a result of the elimination or reduction of a customs duty, is being imported into the former Party in such increased quantities, in absolute terms, and under such conditions that the imports of that originating good constitute a substantial cause of serious injury, or threat thereof, to a domestic industry of the former Party.

2. A Party proposing to apply a bilateral safeguard measure may (a) suspend the further reduction of any rate of customs duty on the originating good referred to in paragraph 1 above in accordance with Article 5; or (b) increase the rate of customs duty on the originating good to a level not to exceed the lesser of:

(i) the most-favored-nation applied rate of customs duty in effect at the time when the bilateral safeguard measure is taken; and

(ii) the most-favored-nation applied rate of customs duty in effect on the day immediately preceding the date of entry into force of this Agreement.

3. A bilateral safeguard measure shall consist of tariff measures, including application of tariff rate quotas.

4. Each Party shall not apply bilateral safeguard measures on an originating good imported up to the limit of quota quantities granted under tariff rate quotas applied in accordance with Schedule in Annex 1.

5. No bilateral safeguard measure shall be maintained for a period exceeding 3 years. However, in very exceptional circumstances, after the prior consultations referred to in paragraph 9 below, a bilateral safeguard measure may be maintained for up to a total maximum period of 4 years. A Party taking such measure shall present to the other Party a schedule leading to its progressive elimination.

6. No bilateral safeguard measure shall be applied again to the imports of the same originating good which has been subject to a bilateral safeguard measure, for a period of time equal to the duration of the previous measure or 1 year, whichever is longer.

7. A Party shall deliver a written notice in English to the other Party immediately upon initiation of an investigation referred to in Article 55. Such written notice shall include the reason for the initiation of the investigation, a precise description of the originating good involved and its subheading or a more detailed level of the Harmonized System.

8. A Party shall deliver a written notice in English to the other Party prior to applying a bilateral safeguard measure. Such written notice shall include a description of evidence of the serious injury or threat thereof caused by the increased imports, a precise description of the originating good involved and its subheading or a more detailed level of the Harmonized System, a precise description of the proposed bilateral safeguard measure, its date of entry into force, and its expected duration.

9. A Party proposing to apply a bilateral safeguard measure shall provide adequate opportunity for prior consultations with the other Party on such measure with a view to, inter alia, reaching an agreement on compensation set out in paragraph 10 below.

10. A Party proposing to apply a bilateral safeguard measure shall offer the other Party adequate means of trade compensation in the form of additional concessions of customs duties whose levels are substantially equivalent to the value of the additional customs duties expected to result from such measure, and, in the case that room for such sufficient additional concessions of customs duties is already exhausted through overall reduction of customs duties, other concessions which the Parties may agree upon.

11. If the Parties are unable to agree on compensation within 60 days after the date when a Party initiates the application of the bilateral safeguard measure, the other Party shall be free to suspend, to the trade of the Party applying such measure, the application of concessions of customs duties under Article 5, which are substantially equivalent to such measure applied. For this purpose, the Party exercising the right of suspension may suspend the application of concessions of customs duties only for the minimum period necessary.

12. Upon termination of a bilateral safeguard measure, the rate of customs duty shall be the rate which would have been in effect but for such measure. 13. The Parties shall review the provisions of this Chapter, if necessary, after 10 years of the date of entry into force of this Agreement.

Article 54. Provisional Bilateral Safeguard Measures

1. In critical circumstances, where delay would cause damage which it would be difficult to repair, a Party may take a provisional bilateral safeguard measure pursuant to a preliminary determination that there is clear evidence that increased imports have caused or are threatening to cause serious injury to a domestic industry.

2. A Party shall deliver a written notice in English to the other Party prior to applying a provisional bilateral safeguard measure. Consultations on such measure shall take place promptly after such measure is taken.

3. The duration of the provisional bilateral safeguard measure shall not exceed 200 days. During that period, the pertinent requirements of Articles 52 and 55 shall be met. The duration of such measure shall be counted as a part of the period referred to in paragraph 5 of Article 53.

4. Paragraphs 2 through 4 and 12 of Article 53 shall be applied mutatis mutandis to the provisional bilateral safeguard measure. The customs duty imposed as a result of such measure shall be refunded within 60 days if the subsequent investigation referred to in Article 55 does not determine that increased imports have caused or threatened to cause serious injury to a domestic industry.

Article 55. Bilateral Safeguard Measures Proceedings

1. Each Party shall adopt or maintain equitable, timely, transparent and effective proceedings relating to bilateral safeguard measures.
2. A Party shall apply a bilateral safeguard measure only following an investigation by its investigating authority pursuant to the provisions of this Chapter.
3. The investigating authority of a Party shall examine and ensure the existence of sufficient evidence that the increased imports of an originating good are causing serious injury or threat thereof to the domestic industry concerned, to justify the initiation of an investigation.
4. An investigation shall, except in special circumstances, be completed within 1 year, and in no case more than 18 months, following its date of initiation.
5. Upon initiation of an investigation, the investigating authority of a Party shall give a public notice of the initiation of the investigation through the official journal of that Party. The public notice shall identify the originating good subject to the investigation and its subheading or a more detailed level of the Harmonized System, the period of investigation, the date of initiation of the investigation, deadlines for filing statements and other documents, and the place at which documents filed during the investigation may be inspected.
6. Each Party shall establish procedure to allow an interested party to have access to information submitted by other interested parties to the investigating authority of that Party after submission of such information. The investigating authority shall, upon request of an interested party, provide timely access to the information, including documents, items of evidence, and non-confidential written summaries referred to in paragraph 7 below, which were submitted by other interested parties during the investigation. In particular, the investigating authority shall grant access to the interested parties to the following information related to the investigation:
 - (a) production processes for the good concerned;
 - (b) production costs of the good concerned and specifications of its components;
 - (c) distribution costs of the good concerned;
 - (d) terms and conditions of sale of the good concerned; (e) selling prices of the good concerned;
 - (f) description of the category of individual customers, distributors, suppliers, and any other enterprises related to the good concerned;
 - (g) data considered for the injury analysis such as the level of sales, production, productivity, capacity utilization, profits and losses, and employment related to the domestic industry concerned; and
 - (h) any other information about the enterprise related to the good concerned.
7. Notwithstanding paragraph 6 above, each Party shall adopt or maintain procedures for the treatment of confidential information as specified by that Party in accordance with its domestic laws and regulations and which is provided in the course of an investigation. When the interested parties provide such information, they shall be required to furnish non-confidential written summaries thereof, or if they indicate that the information cannot be summarized, the reasons why a summary cannot be provided.
8. During the course of each investigation, the investigating authority of a Party shall endeavor to hold a public hearing after providing reasonable notice, so that opposite views may be presented and rebuttal arguments offered. Such public hearing should allow interested parties to defend their interest and to question the other parties.
9. In the investigation to determine whether increased imports have caused serious injury or are threatening to cause serious injury to a domestic industry, the investigating authority of a Party shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that domestic industry, in particular, the rate and amount of the increase in imports of the originating good, in absolute terms, the share of the domestic market taken by increased imports, and changes in the level of sales, production, productivity, capacity utilization, profits and losses, employment, and prices.
10. The determination that increased imports have caused serious injury or are threatening to cause serious injury to a domestic industry shall not be made unless this investigation demonstrates, on the basis of objective evidence, the existence of the causal link between increased imports of the originating good and serious injury or threat thereof. When factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports.
11. With regard to determination on whether increased imports have caused serious injury or are threatening to cause serious injury to a domestic industry, the investigating authority of a Party shall not arbitrarily modify a negative injury determination.
12. Upon decision to apply a bilateral safeguard measure, the investigating authority of a Party shall give a public notice through the official journal of that Party. The public notice shall identify the originating good subject to such measure and its subheading or a more detailed level of the Harmonized System, the duration of such measure, and the findings and reasoned conclusions reached on all pertinent issues of law and fact.
13. In the public notice the investigating authority of a Party shall not disclose any confidential information referred to in paragraph 7 above.

Article 56. Definitions

For the purposes of this Chapter:

- (a) the term "domestic industry" means the producers as a whole of the like or directly competitive goods operating in the Area of a Party, or those whose collective output of the like or directly competitive goods constitutes a major proportion of the total domestic production of those goods;
- (b) the term "serious injury" means a significant overall impairment in the position of a domestic industry; and
- (c) the term "threat of serious injury" means serious injury that is clearly imminent, based on facts and not merely on allegation, conjecture or remote possibility.

Chapter 7. Investment

Section 1. Investment

Article 57. Scope and Coverage

1. This Chapter shall apply to measures adopted or maintained by a Party relating to:
 - (a) investors of the other Party;
 - (b) investments of investors of the other Party in the Area of the former Party; and (c) with respect to Articles 65 and 74, all investments in the Area of the former Party.
2. A Party has the right to perform exclusively the economic activities set out in Annex 8 and to refuse to permit the establishment of investment in such activities.
3. This Chapter shall not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter 9.
4. Nothing in this Chapter shall impose any obligation on either Party regarding measures pursuant to immigration laws and regulations. Note: Nothing in this Chapter shall be construed to prevent a Party from providing a service or performing a function such as law enforcement, correctional services, income security or insurance, social security or insurance, social welfare, public education, public training, health, and child care, in a manner that is not inconsistent with this Chapter.

Article 58. National Treatment

1. Each Party shall accord to investors of the other Party and to their investments treatment no less favorable than the treatment it accords, in like circumstances, to its own investors and to their investments with respect to the establishment, acquisition, expansion, management, conduct, operation, maintenance, use, enjoyment and sale or other disposition of investments (hereinafter referred to in this Chapter as "investment activities").
2. The treatment accorded by a Party under paragraph 1 above means, with respect to a local government in the case of Japan, and with respect to a state in the case of Mexico, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that local government or state to investors, and to investments of investors, of the Party of which it forms a part.

Article 59. Most-favored-nation Treatment

Each Party shall accord to investors of the other Party and to their investments, treatment no less favorable than the treatment it accords, in like circumstances, to investors of a non-Party and to their investments with respect to investment activities.

Note 1: Each Party shall accord to investors of the other Party and to their investments the better of the treatment required by Articles 58 and 59.

Note 2: For greater certainty, it is confirmed by both Parties that in the application of Articles 58 and 59 a Party:

- (a) may not impose on an investor of the other Party a requirement that a minimum level of equity in an enterprise in the Area of the former Party be held by its nationals; or
- (b) may not require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment in the Area of the former Party.

Note 3: Each Party shall in its Area accord to investors of the other Party treatment no less favorable than the treatment which it accords, in like circumstances, to its own investors or investors of a non-Party with respect to access to the courts of justice and administrative tribunals and agencies in all degrees of jurisdiction, both in pursuit and in defense of such investor's rights.

Article 60. General Treatment

Each Party shall accord to investments of investors of the other Party treatment in accordance with international law, including fair and equitable treatment and full protection and security.

Note: This Article prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to investments of investors of the other Party. The concepts of "fair and equitable treatment" and "full protection and security" do not require treatment in addition to or beyond that which is required by the customary international law minimum standard of treatment of aliens. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

Article 61. Expropriation and Compensation

1. Neither Party shall expropriate or nationalize an investment of an investor of the other Party in its Area either directly or indirectly through measures tantamount to expropriation or nationalization (hereinafter referred to as "expropriation") except:

- (a) for a public purpose;
- (b) on a non-discriminatory basis;
- (c) in accordance with due process of law and Article 60; and
- (d) on payment of compensation pursuant to paragraphs 2 through 5 below.

2. Compensation shall be equivalent to the fair market value of the expropriated investment immediately before the expropriation occurred. The fair market value shall not reflect any change in value occurring because the expropriatory action had become known earlier. Valuation criteria to determine the fair market value may include declared tax value of tangible property. The compensation shall be paid without delay and be fully realizable.

3. If payment is made in a freely usable currency, compensation shall include interest at a commercially reasonable rate for that currency from the date of expropriation until the date of actual payment.

4. If a Party elects to pay in a currency other than a freely usable currency, the compensation paid, converted into the currency of payment at the market rate of exchange prevailing on the date of payment, shall be no less than:

(a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date, plus (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the actual date of payment.

5. On payment, compensation shall be freely transferable as provided in Article 63.

Article 62. Protection from Strife

Without prejudice to Article 60 and notwithstanding Article 66, each Party shall accord to investors of the other Party and to their investments treatment no less favorable than the treatment it accords to its own investors or investors of a non-Party and to their investments, whichever is more favorable to the investor of the other Party or its investments, with respect to measures, such as restitution, indemnification, compensation or any other settlement, it adopts or maintains relating to losses suffered by investments in its Area owing to armed conflict, civil strife or any other similar event.

Article 63. Transfers

1. Each Party shall allow all transfers relating to an investment in its Area of an investor of the other Party to be made freely and without delay. Such transfers shall include:

- (a) the initial capital and additional amounts to maintain or increase the investment;
- (b) profits, dividends, interest, capital gains, royalty payments, management fees, technical assistance fees and other fees;
- (c) proceeds from the sale or liquidation of all or any part of the investment;
- (d) payments made under a contract including payments made pursuant to a loan agreement;
- (e) payments made in accordance with Article 61; and (f) payments arising out of the settlement of a dispute under Section 2.

2. Each Party shall allow transfers to be made without delay in a freely usable currency at the market rate of exchange prevailing on the date of the transfer with respect to spot transactions in the currency to be transferred.

3. Notwithstanding paragraphs 1 and 2 above, a Party may delay or prevent a transfer through the equitable, nondiscriminatory and good faith application of its laws relating to:

- (a) bankruptcy, insolvency or the protection of the rights of creditors;
- (b) issuing, trading or dealing in securities;
- (c) criminal or penal offenses; (d) reports of transfers of currency or other monetary instruments; or (e) ensuring compliance

with orders or judgments in adjudicatory proceedings.

Article 64. Senior Management and Boards of Directors

1. Neither Party may require that an enterprise of that Party that is an investment of an investor of the other Party appoint to senior management positions individuals of any particular nationality.
2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is an investment of an investor of the other Party, be of a particular nationality, or resident of the Party, provided that the requirement does not materially impair the ability of the investor to exercise control over its investment.

Article 65. Performance Requirements

1. Neither Party may impose or enforce any of the following requirements, or enforce any commitment or undertaking, in connection with the establishment, acquisition, expansion, management, conduct or operation of an investment of an investor of a Party or of a non-Party in its Area:
 - (a) to export a given level or percentage of goods or services;
 - (b) to achieve a given level or percentage of domestic content;
 - (c) to purchase, use or accord a preference to goods produced or services provided in its Area, or to purchase goods or services from persons in its Area;
 - (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment;
 - (e) to restrict sales of goods or services in its Area that such investment produces or provides by relating such sales in any way to the volume or value of its exports or foreign exchange earnings;
 - (f) to transfer technology, a production process or other proprietary knowledge to a person in its Area, except when the requirement is imposed or the commitment or undertaking is enforced by a court, administrative tribunal or competition authority to remedy an alleged violation of competition laws or to act in a manner not inconsistent with multilateral agreements in respect of protection of intellectual property rights. A measure that requires an investment to use a technology to meet generally applicable health, safety or environmental requirements shall not be construed to be inconsistent with this paragraph. For greater certainty, Articles 58 and 59 shall apply to the measure; or
 - (g) to act as the exclusive supplier of the goods it produces or services it provides to a specific region or world market.
2. Neither Party may condition the receipt or continued receipt of an advantage, in connection with an investment in its Area of an investor of a Party or of a non-Party, on compliance with any of the following requirements:
 - (a) to achieve a given level or percentage of domestic content;
 - (b) to purchase, use or accord a preference to goods produced in its Area, or to purchase goods from producers in its Area;
 - (c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with such investment; or
 - (d) to restrict sales of goods or services in its Area that such investment produces or provides by relating such sales in any way to the volume or value of its exports or foreign exchange earnings.
3. Nothing in paragraph 2 above shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment in its Area of an investor of a Party or of a non-Party, on compliance with a requirement to:
 - (a) locate production;
 - (b) provide a service;
 - (c) train or employ workers;
 - (d) construct or expand particular facilities; or
 - (e) carry out research and development in its Area.
4. Paragraphs 1 and 2 above shall not apply to any requirement other than the requirements set out in those paragraphs.
5. Provided that such measures are not applied in an arbitrary or unjustifiable manner, or do not constitute a disguised restriction on international trade or investment activities, nothing in subparagraph 1(b) or (c) or 2(a) or (b) above shall be construed to prevent any Party from adopting or maintaining measures:
 - (a) necessary to secure compliance with laws and regulations that are not inconsistent with the provisions of this Agreement;
 - (b) necessary to protect human, animal or plant life or health; or
 - (c) necessary for the conservation of living or nonliving exhaustible natural resources.

Article 66. Reservations and Exceptions

1. Articles 58, 59, 64 and 65 shall not apply to:

(a) any existing non-conforming measure that is maintained by a Party at the federal or central government level, as set out in its Schedule to Annex 6 or Annex 8; or

(b) any existing non-conforming measure that is maintained by:

(i) with respect to Mexico:

(AA) a state, for 6 months after the date of entry into force of this Agreement, and thereafter as to be set out by Mexico in its Schedule to Annex 6 in accordance with paragraph 2 below; or

(BB) a local government; and

(ii) with respect to Japan:

(AA) a prefecture, for 6 months after the date of entry into force of this Agreement, and thereafter as to be set out by Japan in its Schedule to Annex 6 in accordance with paragraph 2 below; or (BB) a local authority other than prefectures;

(c) the continuation or prompt renewal of any nonconforming measure referred to in subparagraphs (a) and (b) above; or

(d) an amendment or a modification to any nonconforming measure referred to in subparagraphs (a) and (b) above provided that the amendment or modification does not decrease the conformity of the measure, as it existed immediately before the amendment or modification, with Articles 58, 59, 64 and 65.

2. Each Party shall set out in its Schedule to Annex 6, within 6 months of the date of entry into force of this Agreement, any existing non-conforming measure maintained by a state or a prefecture as referred to in subparagraphs 1(b)(i)(AA) and 1(b)(ii)(AA) above, and shall notify thereof the other Party by a diplomatic note.

3. Articles 58, 59, 64 and 65 shall not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors or activities, as set out in its Schedule to Annex 7.

4. Neither Party may, under any measure adopted after the date of entry into force of this Agreement and covered by Annex 7, require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment that exists at the time the measure becomes effective.

5. Article 59 shall not apply to treatment accorded by a Party pursuant to agreements, or with respect to sectors, set out in its Schedule to Annex 9.

6. Articles 58, 59 and 64 shall not apply to any measure adopted or maintained with respect to procurement by a Party or a state enterprise.

7. The provisions of:

(a) subparagraphs 1(a), (b) and (c), and 2(a) and (b) of Article 65 shall not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs;

(c) subparagraphs 2(a) and (b) of Article 65 shall not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

Article 67. Notification

To the maximum extent possible, each Party shall notify the other Party of any new measure that the former Party considers might materially affect the implementation and operation of this Chapter and of Annexes 6 to 9.

Article 68. Special Formalities and Information Requirements

1. Nothing in Article 58 shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with the establishment of investments by investors of the other Party, such as the compliance with registration requirements or that investments be legally constituted under the laws or regulations of the Party, provided that such formalities do not materially impair the protection afforded by a Party to investors of the other Party and investments of investors of the other Party pursuant to this Chapter.

2. Notwithstanding Article 58 or 59, a Party may require an investor of the other Party, or its investment in its Area, to provide routine information concerning that investment solely for information or statistical purposes. The Party shall protect such business information that is confidential from any disclosure that would prejudice the competitive position of the investor or the investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

Article 69. Relation to other Chapters

In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of

the inconsistency.

Article 70. Denial of Benefits

1. A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such Party and to an investment of such investor if investors of a non-Party own or control the enterprise and the denying Party:
 - (a) does not maintain diplomatic relations with the non-Party; or
 - (b) adopts or maintains measures with respect to the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.
2. Subject to prior notification and consultation, a Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of such Party and to investments of such investor if investors of a non-Party own or control the enterprise and the enterprise has no substantial business activities in the Area of the Party under whose law it is constituted or organized.

Article 71. Investment Support

1. An issuer may provide to investors of any Party, investment support in connection with projects or activities in the Area of the other Party. Investors and investments of investors of a Party in the Area of the other Party may enter into agreements for investment support with the issuer. The issuer will undertake investment support only in respect of projects and activities allowed by this Agreement.
2. If the issuer makes a payment to any person or entity, or exercises its rights as a creditor or subrogee, in connection with any investment support, the other Party shall recognize the transfer to, or acquisition by, the issuer of any cash, accounts, credits, instruments or other assets in connection with such payment or the exercise of such rights, as well as the succession of the issuer to any right, title, claim, privilege or cause of action, existing, or which may arise, in connection therewith.
3. With respect to any interests transferred to or acquired by the issuer or any interests to which the issuer succeeds, under this Article, in its own right or otherwise by contract or operation of law, the issuer shall assert no greater rights than those of the person or entity from whom such interests were received.
4. To the extent that the laws of a Party partially or wholly restrict ownership or acquisition by, or transfer or succession to, the issuer of any interests as described in paragraph 3 above, the Party shall permit the issuer to make appropriate arrangements to transfer such assets, interests or rights to a person or entity permitted to own them under the laws of that Party.

Article 72. Temporary Safeguard Measures

Article 73. Intellectual Property Rights

1. Nothing in this Chapter shall be construed so as to derogate from the rights and obligations under multilateral agreements in respect of protection of intellectual property rights to which the Parties are parties.
2. Nothing in this Chapter shall be construed so as to oblige either Party to extend to investors of the other Party and their investments treatment accorded to investors of a non-Party and their investments by virtue of multilateral agreements in respect of protection of intellectual property rights, to which the former Party is a party.

Article 74. Environmental Measures

The Parties recognize that it is inappropriate to encourage investment by relaxing domestic health, safety or environmental measures. Accordingly, a Party should not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such measures as an encouragement for the establishment, acquisition, expansion or retention in its Area of an investment of an investor. If a Party considers that the other Party has offered such an encouragement, it may request consultations with the other Party and the Parties shall consult with a view to avoiding any such encouragement.

Section 2. Settlement of Investment Disputes between a Party and an Investor of the other Party

Article 75. Purpose

Without prejudice to the rights and obligations of the Parties under Chapter 15, this Section establishes a mechanism for the settlement of investment disputes that assures both equal treatment among investors of the Parties and due process before an impartial tribunal.

(a) on its own behalf, may submit to arbitration under this Section a claim that the other Party has breached an obligation under Section 1 and that the investor has incurred loss or damage by reason of, or arising out of, that breach; and
(b) on behalf of an enterprise of the other Party that is a legal person that the investor owns or controls directly or indirectly, may submit to arbitration under this Section a claim that the other Party has breached an obligation under Section 1 and that the enterprise has incurred loss or damages by reason of, or arising out of, that breach.

2. An investment may not make a claim under this Section.

The disputing parties should first attempt to settle a claim through consultation or negotiation.

Article 78. Written Request

1. The disputing investor shall submit to the disputing Party a written request for consultations with a view to settling the claim amicably at least 180 days before the claim may be submitted to arbitration. Such a request shall specify:
(a) the name and address of the disputing investor and, where a claim is submitted by an investor of a Party on behalf of an enterprise, the name and address of the enterprise;
(b) the provisions of this Agreement alleged to have been breached and any other relevant provisions;

For the purpose of this Article, offsets means conditions considered, sought or imposed by an entity prior to or in the course of its procurement process that encourage local development or improve its Party's balance of payments accounts, by means of requirements of local content, licensing of technology, investment, counter-trade or similar requirements.

To this end, the Party of the procuring entity shall provide information on both the characteristics and relative advantages of the winning tender and the contract price. Normally this latter information may be disclosed by the former Party provided it exercises this right with discretion. However, procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account in deciding whether such measures should be applied. In such circumstances, just cause for not acting shall be provided in writing;
 - (b) an assessment and a possibility for a decision on the justification of the challenge; and
 - (c) where appropriate, correction of the breach of this Chapter or compensation for the loss or damages suffered, which may be limited to costs for tender preparation or protest.

Article 151. Choice of Dispute Settlement Procedure

1. Nothing in this Chapter shall prejudice any rights of the Parties to have recourse to dispute settlement procedures available under any other international agreement to which both Parties are parties.
2. Notwithstanding paragraph 1 above, once a dispute settlement procedure has been initiated under this Chapter or under any other international agreement to which both Parties are parties with respect to a particular dispute, that procedure shall be used to the exclusion of any other procedure for that particular dispute. However, this does not apply if substantially separate and distinct rights or obligations under different international agreements are in dispute.
3. For the purposes of paragraph 2 above, a dispute settlement procedure under this Chapter shall be deemed to be initiated by a Party's request for the establishment of an arbitral tribunal pursuant to paragraph 1 of Article 153.
4. For the purposes of paragraph 2 above, a dispute settlement procedure under the WTO Agreement shall be deemed to be initiated by a Party's request for the establishment of a panel pursuant to Article 6 of the Understanding on Rules and Procedures Governing the Settlement of Disputes in Annex 2 to the WTO Agreement, as may be amended.

Article 152. Consultations

1. Each Party may request in writing consultations with the other Party regarding any matter on the interpretation or application of this Agreement.
2. When a Party requests consultations pursuant to paragraph 1 above, the other Party shall reply to the request and enter into consultations in good faith within 30 days after the date of receipt of the request, with a view to a prompt and satisfactory resolution of the matter. In a case of consultations regarding perishable goods, the requested Party shall enter into consultations within 15 days after the date of receipt of the request.

Article 153. Establishment of Arbitral Tribunals

1. The complaining Party that requested consultations under Article 152 above may request in writing the establishment of an arbitral tribunal to the Party complained against:
 - (a) if the Party complained against does not enter into such consultations within 30 days after the date of its receipt of the request for consultations under that Article; or
 - (b) if the Parties fail to resolve the dispute through such consultations under that Article within 60 days after the date of receipt of the request for such consultations, provided that the complaining Party considers that any benefit accruing to it directly or indirectly under this Agreement is being nullified or impaired as a result of the failure of the Party complained against to carry out its obligations, or as a result of the application by the Party complained against of measures which are in conflict with the obligations of that Party, under this Agreement.
2. Any request for the establishment of an arbitral tribunal pursuant to this Article shall identify:
 - (a) the legal basis of the complaint, including the provisions of this Agreement alleged to have been breached and any other relevant provisions; and
 - (b) the factual basis for the complaint.
3. The arbitral tribunal shall comprise 3 arbitrators.
4. Each Party shall, within 30 days after the date of receipt of the request for the establishment of an arbitral tribunal, appoint one arbitrator who may be its national and propose up to 3 candidates to serve as the third arbitrator who shall be the chair of the arbitral tribunal. The third arbitrator shall not be a national of either Party, nor have his or her usual place of residence in either Party, nor be employed by either Party.
5. The Parties shall agree on and appoint the third arbitrator within 45 days after the date of receipt of the request for the establishment of an arbitral tribunal, taking into account the candidates proposed pursuant to paragraph 4 above.
6. If a Party has not appointed one arbitrator pursuant to paragraph 4 above or if the Parties fail to agree on and appoint the third arbitrator pursuant to paragraph 5 above, such arbitrator or such third arbitrator shall be chosen by lot within further 7 days from the candidates proposed pursuant to paragraph 4 above.
7. The date of the establishment of an arbitral tribunal shall be the date on which the chair is appointed.
8. Unless the Parties otherwise agree within 20 days from the date of receipt of the request for the establishment of the arbitral tribunal, the terms of reference of such arbitral tribunal shall be: "To examine, in the light of the relevant provisions of this Agreement, the matter referred to in the request for the establishment of an arbitral tribunal pursuant to this Article, to rule on the consistency of the measures at issue with this Agreement, and, where the arbitral tribunal reaches the conclusion that the measure is inconsistent with this Agreement, to make recommendations that the Party complained against bring the measure into conformity with this Agreement. When making recommendations, the arbitral tribunal may not suggest specific ways in which the Party complained against could implement these recommendations."
9. The Parties shall promptly deliver the terms of reference pursuant to paragraph 8 above to the arbitral tribunal.
10. If an arbitrator dies, withdraws or is removed, a replacement shall be appointed within 30 days in accordance with the

appointment procedure provided for in paragraphs 4 to 6 above, which shall be applied, respectively, mutatis mutandis. In such a case, any time period applicable to the arbitral tribunal proceeding shall be suspended for a period beginning on the date the arbitrator dies, withdraws or is removed and ending on the date the replacement is appointed.

Article 154. Award of Arbitral Tribunals

1. The arbitral tribunal shall meet in closed session.
2. The deliberations of the arbitral tribunal, the documents submitted to it and the draft award referred to in paragraph 4 below shall be kept confidential.
3. Nothing in this Chapter shall preclude a Party from disclosing statements of its own position to the public. Each Party shall treat as confidential, information submitted by the other Party to the arbitral tribunal which that other Party has designated as confidential. A Party shall also, upon request of the other Party, provide a non-confidential summary of the information contained in its written submissions that could be disclosed to the public.
4. The arbitral tribunal shall, within 90 days after the date of its establishment, submit to the Parties its draft award, including both descriptive part and its findings and conclusions, for the purposes of enabling the Parties to review precise aspects of the draft award. When the arbitral tribunal considers that it cannot submit to the Parties its draft award within the aforementioned 90 day period, it may extend that period with the consent of the Parties. However, in no case should the period from the establishment of the arbitral tribunal to the submission of the draft award to the Parties exceed 150 days. A Party may submit comments in writing to the arbitral tribunal on the draft award within 15 days after the date of the submission of the draft award.
5. The arbitral tribunal shall issue its award within 30 days after the date of the submission of the draft award.
6. In the case that the matters referred to the arbitral tribunal are those concerning perishable goods, the arbitral tribunal shall make every effort to issue its award to the Parties within 90 days after the date of its establishment. In no case should it do so later than 120 days.
7. The arbitral tribunal shall take its decisions including its award by majority vote.
8. The award of the arbitral tribunal shall be final and binding on the Parties.

Article 155. Termination of Proceedings of the Arbitral Tribunal

While the proceedings of the arbitral tribunal are in progress, the Parties may agree to terminate the proceedings at any time by jointly so notifying the chair of the arbitral tribunal.

Article 156. Implementation of Award

1. The Party complained against shall promptly comply with the award of the arbitral tribunal issued pursuant to Article 154.
2. The Party complained against shall, within 20 days after the date of issuance of the award, notify the complaining Party of the period of time for implementing the award. If the complaining Party considers the period of time notified to be unacceptable, it may refer the matter to an arbitral tribunal.
3. If the Party complained against fails to comply with the award within the implementation period as determined pursuant to paragraph 2 above, the Party complained against shall no later than the expiry of that implementation period enter into consultations with the complaining Party, with a view to developing mutually acceptable compensation. If no satisfactory compensation has been agreed within 20 days after the date of expiry of that implementation period, the complaining Party may notify the Party complained against that it intends to suspend the application to the Party complained against of concessions or other obligations under this Agreement.
4. If the complaining Party considers that measures taken by the Party complained against for implementing the award do not comply with the award within the implementation period as determined pursuant to paragraph 2 above, it may refer the matter to an arbitral tribunal.
5. If the arbitral tribunal to which the matter is referred pursuant to paragraph 4 above confirms that the Party complained against has failed to comply with the award within the implementation period as determined pursuant to paragraph 2 above, the complaining Party may, within 30 days after the date of such confirmation by the arbitral tribunal, notify the Party complained against that it intends to suspend the application to the Party complained against of concessions or other obligations under this Agreement.
6. Suspension of the application of concessions or other obligations under paragraphs 3 and 5 above may only be implemented at least 30 days after the date of the notification in accordance with those paragraphs.
Such suspension shall:
 - (a) not be effected if, in respect of the dispute to which the suspension relates, consultations, or proceedings before an arbitral tribunal are in progress;
 - (b) be temporary, and be discontinued when the Parties reach a mutually satisfactory resolution or where compliance with the award is effected;

(c) be restricted to the same level of nullification or impairment that is attributable to the failure to comply with the award; and

(d) be restricted to the same sector or sectors to which the nullification or impairment relates, unless it is not practicable or effective to suspend the application of concessions or other obligations in such sector or sectors.

7. If the Party complained against considers that the requirements for the suspension of the application to it of concessions or other obligations under this Agreement by the complaining Party set out in paragraph 3, 5 or 6 above have not been met, it may refer the matter to an arbitral tribunal.

8. The arbitral tribunal that is established for the purposes of this Article shall, wherever possible, have as its arbitrators, the arbitrators to the original arbitral tribunal. If this is not possible, then the arbitrators to the arbitral tribunal that is established for the purposes of this Article shall be appointed pursuant to paragraphs 4 to 6 of Article 153. Unless the Parties agree to a different period, such arbitral tribunal shall issue its award within 30 days after the date when the matter is referred to it. The award of the arbitral tribunal established under this Article shall be binding on the Parties.

Article 157. Modification of Time Periods

Regulations to the Foreign Investment Law and the National Registry for Foreign Investment (Reglamento de la Ley de Inversión Extranjera y del Registro Nacional de Inversiones Extranjeras), Title II, Chapters I and II

Description: Investment

Foreign nationals or foreign enterprises may not acquire property rights ("dominio directo") over land and water in a 100-kilometer strip along the country's borders or in a 50-kilometer strip inland from its coasts (the "Restricted Zone").

Mexican enterprises without a foreigners' exclusion clause may acquire property rights ("dominio directo") over real estate located in the Restricted Zone, used for nonresidential

purposes. Notice of the

acquisition must be given to the Ministry of Foreign Affairs (Secretaría de Relaciones Exteriores,

SRE) within the sixty business days following the date of acquisition.

1076

Mexican enterprises without a foreigners' exclusion clause may not acquire property rights ("dominio directo") over real estate located in the Restricted Zone, used for residential purposes.

Pursuant to the procedure described below, Mexican enterprises without a foreigners' exclusion clause may acquire rights for the use and enjoyment over real estate in the "Restricted Zone", used for residential purposes. Such a

procedure shall also apply when foreign nationals or foreign enterprises seek to acquire rights for the use and enjoyment over real estate in the Restricted Zone

regardless of the purpose for which the real estate is used.

A permit from the SRE is required for credit institutions to acquire, as trustees, rights to real estate located in the Restricted Zone, when the purpose of the trust is to allow the use and enjoyment of such real estate, without granting real property rights thereof, and the trust beneficiaries are the Mexican

enterprises without a foreigners' exclusion clause, or the foreign nationals or foreign enterprises referred to above.

The terms "use" and "enjoyment" of the real estate located in the

Restricted Zone mean the rights to use or enjoy such real estate,

including, as applicable, obtaining fruits, products and, in general, any yield resulting from lucrative operation and exploitation through third parties or through the credit institutions acting as trustees.

The duration of the trust referred to

in this reservation shall be for a

maximum period of 50 years, which may be renewed on request by the interested party.

1077

The SRE can verify at any time the compliance with the conditions under which the permits referred to in this reservation are granted, as well as the submission and veracity of the notices mentioned above.

The SRE shall resolve on the permits,

considering the economic and social benefits that these operations could imply to the Nation.

Foreign nationals or foreign enterprises seeking to acquire real estate outside the Restricted Zone,

shall previously submit to the SRE a statement agreeing to consider themselves Mexican nationals for the

above mentioned purposes, and waiving to invoke the protection of their governments with respect to such real estate.
