2. The provisions of Article 12, Paragraph 2 of this Protocol on assessing "in like circumstances" shall apply mutatis mutandis to this Article.
3. For greater certainty, the "treatment" referred to in Paragraphs 1 and 2 does not include dispute settlement procedures, including, but not limited to, those related to admissibility and jurisdiction, provided for in other treaties. Substantive obligations in other investment treaties, do not in themselves constitute "treatment", and cannot give rise to a breach of this Article.

Article 17. Administrative and Judicial Treatment

1. Each State Party shall ensure that, in administrative and judicial matters, investors and investments of another State Party are not subject to treatment which constitutes a fundamental denial of justice in criminal, civil and administrative adjudicative proceedings, an evident denial of due process, a manifest arbitrariness, a discrimination based on gender, race or religious beliefs, or an abusive treatment in administrative and judicial proceedings.

2. For greater certainty, Paragraph 1 shall not be interpreted as equivalent to fair and equitable treatment. For further certainty, Paragraph 1 includes the minimum standard of treatment under customary international law and does not allow for an interpretation and application of such a standard that would go beyond the elements contained in Paragraph 1.

Article 18. Physical Protection and Security

- a. direct expropriation occurs when an investment is nationalised or expropriated directly, through a formal transfer of ownership or outright seizure;
- b. indirect expropriation results from a measure or a series of measures having an equivalent effect of direct expropriation without formal transfer of title or outright seizure. The sole fact that a measure or a series of measures has an adverse effect on the economic value of an investment does not establish that an indirect expropriation has occurred; and
- c. the determination of whether a measure or a series of measures have an effect equivalent to expropriation requires a case-by-case, fact-based inquiry, that takes into consideration among others:
 - i. the duration of the measure or series of measures of a State Party; and
 - ii. the character of the measure or series of measures, notably their object, context and intent.

1. Fair and adequate compensation shall be assessed on a case-by-case basis in relation to the fair market value of the expropriated investment, and in a reasonable period of time, in accordance with domestic laws and regulation.

3. Compensation shall be assessed based on the fair market value of the expropriated investment at the date immediately before the expropriation took place ("date of expropriation") or before the measure became publicly known, whichever is earlier. For greater certainty, the fair and adequate compensation standard also applies in case of unlawful expropriation.
4. The computation of the fair market value of the expropriated property shall exclude any consequential losses or speculative or windfall profits claimed by the investor.
5. Any payment of compensation according to this Article shall be made in a freely convertible currency. Payment shall include simple interest at the applicable commercial rate in the Host State from the date of expropriation until the date of actual payment. On payment, compensation shall be freely transferable.

Article 22. Transfer of Funds
