Article 73. Emergency Clause for Agricultural and Processed Agricultural Products

1. Notwithstanding Article 92 of this Agreement and Article 5 of the WTO Agreement on Agriculture, if, given the particular sensitivity of the agricultural markets, a product originating in a Party is being imported into the other Party in such increased quantities and under such conditions as to cause or threaten to cause serious injury or disturbance in the markets of like or directly competitive products of the other Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. If the conditions in paragraph 1 are met, the importing Party may:

(a) suspend the further reduction of any customs duties on the products concerned provided for under this Title; or

(b) increase the customs duty on the product to a level which does not exceed the lesser of:

(i) the most-favoured-nation customs duty; or

(ii) the basic customs duty referred to in Article 60(3).

3. Before applying the measure as defined under paragraph 2, the Party concerned shall refer the matter to the Association Committee for a thorough examination of the situation, with a view to seeking a mutually acceptable solution. If the other Party so requests, the Parties shall hold consultations within the Association Committee. If no solution is found within 30 days of the request for such consultation, safeguard measures may be applied.

4. Where exceptional circumstances require immediate action, the importing Party may take the measures provided for in paragraph 2 on a transitional basis without complying with the requirements of paragraph 3 for a maximum period of 120 days. Such measures shall not exceed what is strictly necessary to limit or redress the injury or disturbance. The importing Party shall inform the other Party immediately.

5. The measures taken under this Article shall not exceed what is necessary to remedy the difficulties which have arisen. The Party imposing the measure shall preserve the overall level of preferences granted for the agricultural sector. To achieve this objective, the Parties may agree on compensation for the adverse effects of the measure on their trade, including the period during which a transitional measure applied in accordance with paragraph 4 is in place. To this effect, the Parties shall hold consultations to reach a mutually agreed solution. If no agreement is reached within 30 days, the affected exporting Party may, after notification to the Association Council, suspend the application of substantially equivalent concessions under this Title.

6. For the purposes of this Article:

(a) "serious injury" shall be understood to mean a significant overall impairment in the position of the producers as a whole of the like or directly competitive products operating in a Party.

(b) "threat of serious injury" shall be understood to mean serious injury that is clearly imminent based on facts and not merely on allegations, conjecture or remote possibility.

Article 74. Evolution Clause

During the third year after the entry into force of this Agreement the Parties shall assess the situation, taking account of the pattern of trade in agricultural products and processed agricultural products between the Parties, the particular sensitivities of such products and the development of agricultural policy on both sides. Chapter II. Non Tariff Measures

Section 1. Common Provisions

Article 75. Scope

The provisions of this Chapter shall apply to trade in goods between the Parties.

Article 76. Prohibition of Quantitative Restrictions

All import or export prohibitions or restrictions in trade between the Parties, other than customs duties and taxes, whether made effective through quotas, import or export licenses or other measures, shall be eliminated upon the entry into force of this Agreement. No new such measures shall be introduced.

Article 77. National Treatment on Internal Taxation and Regulation (2)

1. Imported products of the territory of the other Party shall not be subject, either directly or indirectly, to internal taxes or other internal charges of any kind in excess of those applied, directly or indirectly, to like domestic products. Moreover, the Parties shall not otherwise apply internal taxes or other internal charges so as to afford protection to domestic production. (3)

2. Imported products of the territory of the other Party shall be accorded treatment no less favourable than that accorded to like domestic products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.

3. Neither Party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. Moreover, neither Party shall otherwise apply internal quantitative regulations so as to afford protection to domestic production. (4)

4. The provisions of this Article shall not prevent the payment of subsidies exclusively to domestic producers, including payments to domestic producers derived from the proceeds of internal taxes or charges applied consistently with the provisions of this Article and subsidies effected through governmental purchases of domestic products.

5. The provisions of this Article shall not apply to laws, regulations, procedures or practices governing public procurement, which shall be subject exclusively to the provisions of Title IV of this Part of the Agreement.

(2) Any internal tax or other internal charge, or any law, regulation or requirement of the kind referred to in paragraph 2 which applies to an imported product and to the like domestic product and is collected or enforced in the case of the imported product at the time or point of importation, is nevertheless to be regarded as an internal tax or other internal charge, or a law, regulation or requirement of the kind referred to in paragraph 2, and is accordingly subject to the provisions of this Article.

(3) A tax conforming to the requirements of the first sentence shall be considered inconsistent with the provisions of the second sentence only in cases where competition is involved between, on the one hand, a taxed product and, on the other hand, a directly competitive or substitutable product which is not similarly taxed.

(4) Regulations consistent with the provisions of the first sentence shall not be considered to be contrary to the provisions of the second sentence in any case in which all of the products subject to the regulations are produced domestically in substantial quantities. A regulation cannot be justified as being consistent with the provisions of the second sentence on the ground that the proportion or amount allocated to each of the products which are the subject of the regulation constitutes an equitable relationship between imported and domestic products.

Section 2. Antidumping and Countervailing Measures

Article 78. Antidumping and Countervailing Measures

If a Party determines that dumping and/or countervailable subsidisation is taking place in its trade with the other Party, it may take appropriate measures in accordance with the WTO Agreement on Implementation of Article VI of the GATT 1994 and the WTO Agreement on Subsidies and Countervailing Measures.

Section 3. Customs and Related Matters

Article 79. Customs and Related Trade Matters

- (a) cooperate and exchange information concerning customs legislation and procedures;
- (b) apply customs rules and procedures agreed by the Parties at a bilateral or multilateral level;
- (c) simplify requirements and formalities in respect of the release and clearance of goods, including, to the extent possible, collaboration on the development of procedures enabling the submission of import or export data to a single agency; and to coordinate between customs and other control agencies so as to enable official controls upon import or export to be carried out, as far as possible, by a single agency;
- (d) cooperate on all issues concerning rules of origin and the customs procedures related to them; and
- (e) cooperate on all customs valuation matters, in accordance with the Agreement on Implementation of Article VII of the GATT 1994, particularly with the aim of reaching common views regarding the application of valuation criteria, the use of indicative or reference indices, operational aspects and working methods.

2. In order to improve working methods and to ensure transparency and efficiency of customs operations, the Parties shall:

- (a) ensure that the highest standards of integrity be maintained, through application of measures reflecting the principles of the relevant international conventions and instruments in this field, as provided for in each Party's legislation;
- (b) take further steps wherever possible, towards the reduction, simplification and standardisation of data in the documentation required by customs, including the use of a single customs entry document or data message and a single customs exit document or data message, based on international standards and relying as far as possible on commercially available information;
- (c) collaborate wherever possible on legislative and operational initiatives relating to import, export and customs procedures, and, to the extent possible, towards improving the service to the business community;
- (d) cooperate where appropriate on technical assistance, including the organisation of seminars and placements;
- (e) cooperate on the computerisation of customs procedures and collaborate, where possible, towards the establishment of common standards;
- (f) apply the international rules and standards in the field of customs, including wherever possible, the substantive elements of the revised Kyoto Convention on the Simplification and Harmonisation of Customs Procedures;
- (g) as far as possible, establish common positions in international organisations in the field of customs such as the WTO, the World Customs Organisation (WCO), the United Nations Organization (UN) and the United Nations Conference on Trade and Development (UNCTAD);
- (h) provide effective and prompt procedures enabling the right of appeal, against customs and other agency administrative actions, rulings and decisions affecting import or export of goods, in conformity with Article X of the GATT 1994; and
- (i) collaborate wherever possible towards facilitating transshipment operations and transit movements through their respective territories.

3. The Parties agree that their respective trade and customs provisions and procedures shall be based upon:

- (a) legislation that avoids unnecessary burdens on economic operators, that will not hinder the fight against fraud and provides further facilitation for operators that meet high levels of compliance;
- (b) the protection of legitimate trade through the effective enforcement of legislative requirements;
- (c) the application of modern customs techniques, including risk assessment, simplified procedures for entry and release of goods, post release controls, and company audit methods, whilst respecting the confidential nature of commercial data in accordance with the provisions applicable in each Party. Each Party will take the necessary measures to ensure the effectiveness of the risk assessment methods;
- (d) procedures that are transparent, efficient and where appropriate simplified, in order to reduce costs and increase predictability for economic operators;
- (e) the development of information technology-based systems, for both export and import operations, between economic operators and customs administrations, and between customs and other agencies. Such systems may also provide for the payment of duties, taxes and other fees by electronic transfer;
- (f) rules and procedures that provide for advance binding rulings on tariff classification and rules of origin. A ruling may be modified or revoked at any time but only after notification to the affected operator and without retroactive effect unless the ruling has been made on the basis of incorrect or incomplete information being provided;

4. The Parties agree:

- (a) on the need for timely consultation with economic operators on substantial matters concerning legislative proposals and general procedures related to customs. To that end, appropriate consultation mechanisms between administrations and the operators shall be established by each Party;

- (c) to foster cooperation between operators and customs administrations via the use of objective and publicly accessible Memoranda of Understanding, based on those promulgated by the WCO; and
- (d) to ensure that their respective customs and related requirements and procedures continue to meet the needs of the trading community and follow best practices.

5. Notwithstanding paragraphs 1 to 4, the administrations of both Parties shall provide mutual administrative assistance in customs matters in accordance with the provisions of the Protocol of 13 June 2001 on Mutual Administrative Assistance in Customs Matters to the Framework Cooperation Agreement.

Article 81. Special Committee on Customs Cooperation and Rules of Origin

1. The Parties hereby establish a Special Committee on Customs Cooperation and Rules of Origin, composed of representatives of the Parties. 2. In this regard, a Party may temporarily suspend the preferential treatment granted under this Title for a product or products in respect of which that Party determines, in accordance with this Article, that there has been systematic failure to provide administrative cooperation or fraud by the other Party.

3. For the purpose of this Article, systematic failure to provide administrative cooperation shall mean:

(a) the absence of administrative cooperation, such as a failure to provide names and addresses of customs or government authorities responsible for issuing and checking certificates of origin, or specimens of stamps used to authenticate the certificates, or a failure to update that information where appropriate;

For this purpose, a Party may presume the existence of fraud, inter alia, where imports of a product or products under this Agreement massively exceed the usual levels of production and export capacity of the other Party.

4. The Party which has made a finding of systematic failure to provide administrative cooperation or presumption of fraud shall, before applying the temporary suspension provided under this Article, supply the Association Committee with all relevant information required for a thorough examination of the situation with a view to seeking a solution acceptable to the Parties. At the same time, it shall publish in its Official Journal a notice to the importers indicating the product or products for which a finding of systematic failure to provide administrative cooperation or presumption of fraud has been made. The legal consequences of this publication shall be governed by the domestic law of each Party.

5. Within 10 days after the day of notification of the information referred to in paragraph 4, the Parties shall hold consultations within the Association Committee. If the Parties do not reach an agreement on a solution to avoid application of the temporary suspension of the preferential treatment within 30 days from the initiation of such consultations, the Party concerned may suspend temporarily the preferential treatment of the product or products concerned. The temporary suspension shall not exceed what is necessary to protect the financial interests of the Party concerned.

6. Temporary suspensions under this Article shall be notified immediately after their adoption to the Association Committee. They shall not exceed a period of six months which may be renewed. They shall be subject to periodic consultations within the Association Committee, particularly with a view to their abolition as soon as circumstances permit. Such mechanisms include aspects of regulatory co-operation, inter alia convergence and/or equivalence of technical regulations and standards, alignment to international standards, reliance on the supplier's declaration of conformity and use of accreditation to qualify conformity assessment bodies, and mutual recognition agreements.

3. Based on progress made in their bilateral cooperation, the Parties shall agree on what specific arrangements should be concluded with a view to implementing the mechanisms identified.

4. To this end, the Parties shall work towards:

(vi) mechanisms and methods for reviewing technical regulations and conformity assessment procedures;

An additional objective of this section is to consider animal welfare standards.

2. The objectives of this section are pursued through the "Agreement on Sanitary and Phytosanitary Measures Applicable to Trade in Animals and Animal Products, Plants, Plant Products and other Goods and Animal Welfare", which is attached as Annex IV.

3. By way of derogation from Article 193, the Association Committee, when dealing with sanitary or phytosanitary measures, shall be composed of representatives of the Community and Chile with responsibility for sanitary and phytosanitary matters. A This Committee shall then be called the "Joint Management Committee for Sanitary and Phytosanitary Matters". The functions of the Committee are set out in Article 16 of Annex IV.

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail, or a disguised restriction on trade between the Parties, nothing in this Title shall be construed to prevent the adoption or enforcement by either Party of measures which:

(a) are necessary to protect public morals;

(b) are necessary to protect human, animal or plant life or health;

(c) are necessary to secure compliance with laws or regulations which are not inconsistent with this Agreement, including those relating to customs enforcement, the protection of intellectual property rights, and the prevention of deceptive practices;

(f) relate to the conservation of exhaustible natural resources if such measures are made effective in conjunction with restrictions on domestic production or consumption; or

(g) relate to the products of prison labour.

Article 92. Safeguard Clause

1. Unless otherwise provided by this Article, the provisions of Article XIX of the GATT 1994 and of the WTO Agreement on Safeguards are applicable between the Parties. The provisions of paragraphs 2, 3, 4, 5, 7, 8 and 9 of this Article apply only when a Party has a substantial interest as exporter of the product concerned, as defined in paragraph 10.
2. Each Party shall provide, immediately and in any case no later than seven days from the event, ad hoc written notification to the Association Committee of all pertinent information on the initiation of a safeguard investigation and on the final findings of the investigation.
3. The information provided under paragraph 2 shall include in particular an explanation of the domestic procedure on the basis of which the investigation will be carried out and an indication of the time schedules for hearings and other appropriate opportunities for interested parties to present their views on the matter. Furthermore, each Party shall provide advance written notification to the Association Committee of all pertinent information on the decision to apply provisional safeguard measures. Such notice must be received at least seven days before the application of such measures.
4. Upon notification of the final findings of the investigation and before applying safeguard measures pursuant to the provisions of Article XIX of the GATT 1994 and of the WTO Agreement on Safeguards, the Party intending to apply such measures shall refer the matter to the Association Committee for a thorough examination of the situation with a view to seeking a mutually acceptable solution. In order to find such a solution and if the Party concerned so requests, the Parties shall hold prior consultations within the Association Committee.
5. Notwithstanding paragraph 4, nothing shall prevent a Party from applying measures pursuant to the provisions of Article XIX of the GATT 1994 and of the WTO Agreement on Safeguards.
6. In the selection of safeguard measures referred to in this Article, the Parties shall give priority to those which cause least disturbance to the achievement of the objectives of this Agreement. Such measures shall not exceed what is necessary to remedy the serious injury, and shall preserve the level/margin of preference granted under this Title.
7. The Parties confirm their rights and obligations under paragraphs 1 and 2 of Article 8 of the WTO Safeguard Agreement.
8. The right of suspension referred to in Article 8(2) of the WTO Safeguard Agreement shall not be exercised between the Parties for the first 18 months that a safeguard measure is in effect, provided that the safeguard measure has been taken as a result of an absolute increase in imports and that such a measure conforms to the provisions of the WTO Safeguard Agreement.
9. Safeguard measures shall upon application be notified immediately to the Association Committee and shall be the subject of consultations once a year within the Committee, particularly with a view to their liberalisation or abolition.
10. For the purposes of this Article, it is considered that a Party has a substantial interest when it is among the five largest suppliers of the imported product during the most recent three-year period of time, measured in terms of either absolute volume or value.
11. In the event of either Party subjecting to a surveillance procedure imports of products liable to give rise to the conditions for the application of a safeguard measure pursuant to this Article, it shall inform the other Party.

Article 93. Shortage Clause

1. Where compliance with the provisions of this Title leads to:
 - (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or
 - (b) a shortage of essential quantities of domestic materials for a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilisation plan; and where the situations referred to above give rise or are likely to give rise to major difficulties for the exporting Party, that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.
2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade, and shall be eliminated when the conditions no longer justify their maintenance. In addition, the measures which may be adopted pursuant to paragraph 1(b) shall not operate to increase the exports of or the protection afforded to the domestic processing industry concerned, and shall not depart from the provisions of this Agreement relating to non-discrimination.
3. Before taking the measures provided for in paragraph 1, or as soon as possible in cases to which paragraph 4 applies, the Party intending to take the measures shall supply the Association Committee with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Association Committee may agree on any means needed to put an end to

the difficulties. If no agreement is reached within 30 days of the matter being referred to the Association Committee, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination impossible, the Party intending to take the measures may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Association Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

The Association Committee, within a reasonable period of time and considering the level of correspondence of the respective regulations, shall decide whether a recommendation referred to in paragraph 2 is consistent with this Chapter. If that is the case, such a recommendation shall be implemented through an agreement on mutual recognition of requirements, qualifications, licences and other regulations to be negotiated by the competent authorities.

 - (b) selective tendering procedures are those procedures whereby, consistent with Article 144 and other relevant provisions of this Title, only suppliers satisfying qualification requirements established by the entities are invited to submit a tender.
3. However, in the specific cases and only under the conditions laid down in Article 145, entities may use a procedure other than the open or selective tendering procedures referred to in paragraph 1 of that Article, in which case the entities may choose not to publish a notice of intended procurement, and may consult the suppliers of their choice and negotiate the terms of contract with one or more of these.

4. Entities shall treat tenders in confidence. In particular, they shall not provide information intended to assist particular participants to bring their tenders up to the level of other participants.

Article 144. Selective Tendering

1. In selective tendering, entities may limit the number of qualified suppliers they will invite to tender, consistent with the efficient operation of the procurement process, provided that they select the maximum number of domestic suppliers and suppliers of the other Party, and that they make the selection in a fair and non-discriminatory manner and on the basis of the criteria indicated in the notice of intended procurement or in tender documents.

2. Entities maintaining permanent lists of qualified suppliers may select suppliers to be invited to tender from among those listed, under the conditions foreseen in Article 146(7). Any selection shall allow for equitable opportunities for suppliers on the lists.

Article 145. Other Procedures

1. Provided that the tendering procedure is not used to avoid maximum possible competition or to protect domestic suppliers, entities shall be allowed to award contracts by means other than an open or selective tendering procedure in the following circumstances and subject to the following conditions, where applicable:

(a) when no suitable tenders or request to participate have been submitted in response to a prior procurement, on condition that the requirements of the initial procurement are not substantially modified;

(b) when, for technical or artistic reasons, or for reasons connected with protection of exclusive rights, the contract may be performed only by a particular supplier and no reasonable alternative or substitute exists;

(c) for reasons of extreme urgency brought about by events unforeseeable by the entity, the products or services could not be obtained in time by means of open or selective tendering procedures;

(d) for additional deliveries of goods or services by the original supplier where a change of supplier would compel the entity to procure equipment or services not meeting requirements of interchangeability with already existing equipment, software or services;

(e) when an entity procures prototypes or a first product or service which are developed at its request in the course of, and for, a particular contract for research, experiment, study or original development;

(f) when additional services which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseeable circumstances, become necessary to complete the services described therein. However, the total value of contracts awarded for the additional construction services may not exceed 50 per cent of the amount of the main contract;

(g) for new services consisting of the repetition of similar services and for which the entity has indicated, in the notice concerning the initial service, that tendering procedures other than open or selective might be used in awarding contracts for such new services;

(h) in the case of contracts awarded to the winner of a design contest, provided that the contest has been organised in a manner which is consistent with the principles of this Title; in case of several successful candidates, all successful candidates shall be invited to participate in the negotiations; and

(i) for quoted goods purchased on a commodity market and for purchases of goods made under exceptionally advantageous conditions which only arise in the very short term in the case of unusual disposals and not for routine purchases from regular suppliers.

2. The Parties shall ensure that, whenever it is necessary for entities to resort to a procedure other than the open or selective tendering procedures based on the circumstances set forth in paragraph 1, the entities shall maintain a record or prepare a written report providing specific justification for the contract awarded under that paragraph.

Article 146. Qualification of Suppliers

1. Any conditions for participation in procurement shall be limited to those that are essential to ensure that the potential supplier has the capability to fulfil the requirements of the procurement and the ability to execute the contract in question.

2. In the process of qualifying suppliers, entities shall not discriminate between domestic suppliers and suppliers of the other Party.

3. A Party shall not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by an entity of that Party or that the supplier has prior work experience in the territory of that Party.

4. Entities shall recognise as qualified suppliers all suppliers who meet the conditions for participation in a particular intended procurement. Entities shall base their qualification decisions solely on the conditions for participation that have been specified in advance in notices or tender documentation.
5. Nothing in this Title shall preclude the exclusion of any supplier on grounds such as bankruptcy or false declarations or conviction for serious crime such as participation in criminal organisations.
6. Entities shall promptly communicate to suppliers that have applied for qualification their decision on whether or not they qualify.

Permanent lists of qualified suppliers

7. Entities may establish permanent lists of qualified suppliers provided that the following rules are respected :

(a) entities establishing permanent lists shall ensure that suppliers may apply for qualification at any time.

(b) any supplier having requested to become a qualified supplier shall be notified by the entities concerned of the decision in this regard.

(c) suppliers requesting to participate in a given intended procurement who are not on the permanent list of qualified suppliers shall be given the possibility to participate in the procurement by presenting the equivalent certifications and other means of proof requested from suppliers who are on the list.

(d) when an entity operating in the utilities sector uses a notice on the existence of a permanent list as a notice of intended procurement, as provided in Article 147(7), suppliers requesting to participate who are not on the permanent list of qualified suppliers shall also be considered for the procurement, provided there is sufficient time to complete the qualification procedure; in this event, the procuring entity shall promptly start procedures for qualification and the process of, and the time required for, qualifying suppliers shall not be used in order to keep suppliers of other Parties off the suppliers' list.

Article 147. Publication of Notices

General provisions

1. Each Party shall ensure that its entities provide for effective dissemination of the tendering opportunities generated by the relevant government procurement processes, providing suppliers of the other Party with all the information required to take part in such procurement.

2. For each contract covered by this Title, except as set out in Articles 143(3) and 145, entities shall publish in advance a notice inviting interested suppliers to submit tenders, or where appropriate, requests for participation for that contract.

3. The information in each notice of intended procurement shall include at least the following.

(a) name, address, telefax number, electronic address of the entity and, if different, the address where all documents relating to the procurement may be obtained;

(b) the tendering procedure chosen and the form of the contract;

(c) a description of the intended procurement, as well as essential contract requirements to be fulfilled;

(d) any conditions that suppliers must fulfil to participate in the procurement;

(e) time-limits for submission of tenders and, where appropriate, other time limits;

(f) main criteria to be used for award of the contract; and

(g) if possible, terms of payment and any other terms.

Notice of planned procurement

4. Each Party shall encourage its entities to publish as early as possible in each fiscal year, a notice of planned procurement containing information regarding entities' future procurement plans. Such notice should include the subject matter of the procurement and the planned date of the publication of the notice of intended procurement.

5. Entities operating in the utilities sector may use a notice of planned procurement as a notice of intended procurement, under the condition that such notice contains as much of the information referred to in paragraph 3 as is available, and that it explicitly invites interested suppliers to express their interest in the procurement to the entity.

6. Entities having used a notice of planned procurement as a notice of intended procurement shall subsequently communicate to all suppliers who have expressed an initial interest further information that shall include, at least, the information referred to in paragraph 3 and ask them to confirm their interest on that basis.

Notice regarding permanent lists of qualified suppliers

7. Entities which intend to maintain permanent lists shall, consistently with paragraph 2, publish a notice which shall identify the entity, and indicate the purpose of the permanent list and the availability of the rules concerning its operation, including criteria for qualification and disqualification, as well as its duration.

8. Where the permanent list is of a duration greater than three years, the notice shall be published annually.

9. Entities operating in the utilities sector may use a notice on the existence of permanent lists of qualified suppliers as a notice of intended procurement. In that case, they shall provide, in a timely manner, information which allows all those who have expressed an interest to assess their interest in participating in the procurement. This information shall include the information contained in the notice referred to in paragraph 3, to the extent that such information is available. Information provided to one interested supplier shall be provided in a non-discriminatory manner to the other interested suppliers. Common provisions

10. Each notice referred to in this Article shall be accessible during the entire time period established for tendering for the relevant procurement.

11. Entities shall publish the notices in a timely manner through means which offer the widest possible and non-discriminatory access to the interested suppliers of the Parties. These means shall be accessible free of charge through a single point of access specified in Annex XIII, Appendix 2.

Article 148. Tender Documentation

1. Tender documentation provided to suppliers shall contain all information necessary to permit them to submit responsive tenders.

2. Where contracting entities do not offer free direct access to the entire tender documents and any supporting documents by electronic means, entities shall make promptly available the tender documentation at the request of any supplier of the Parties.

3. Entities shall promptly reply to any reasonable request for relevant information relating to the intended procurement, on condition that such information does not give that supplier an advantage over its competitors.

Article 149. Technical Specifications

1. Technical specifications shall be set out in the notices, tender documents or additional documents.

2. Each Party shall ensure that its entities do not prepare, adopt or apply any technical specifications with a view to, or with the effect of, creating unnecessary barriers to trade between the Parties.

3. Technical specifications prescribed by entities shall

(a) be in terms of performance and functional requirements rather than design or descriptive characteristics; and

(b) be based on international standards, where these exist or, in their absence, on national technical regulations (12), recognised national standards (13), or building codes.

4. The provisions of paragraph 3 do not apply when the entity can objectively demonstrate that the use of technical specifications referred to in that paragraph would be ineffective or inappropriate for the fulfilment of the legitimate objectives pursued.

5. In all cases, entities shall consider bids which do not comply with the technical specifications but meet the essential requirements thereof and are fit for the purpose intended. The reference to technical specifications in the tender documents must include words such as "or equivalent".

6. There shall be no requirement for or reference to a particular trademark or trade name, patent, design or type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that words, such as "or equivalent", are included in the tender documentation.

7. The tenderer shall have the burden of proving that his bid meets the essential requirements.

(12) For the purpose of this Title, a technical regulation is a document which lays down characteristics of a product or a service or their related processes and production methods, including the applicable administrative provisions, with which compliance is mandatory. It may also include or deal exclusively with terminology, symbols, packaging, marking or labeling requirements as they apply to a product, service, process or production method.

(13) For the purpose of this Title, a standard is a document approved by a recognised body, that provides, for common and repeated use, rules, guidelines or characteristics for products or services or related processes and production methods, with which compliance is not mandatory. It may also include or deal exclusively with terminology, symbols, packaging, marking or labeling requirements as they apply to a product, service, process or

production method.

Article 150. Time-limits

1. All time-limits established by the entities for the receipt of tenders and requests to participate shall be adequate to allow suppliers of the other Party, as well as domestic suppliers, to prepare and to submit tenders, and where appropriate, requests for participation or applications for qualifying. In determining any such time-limit, entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement and the normal time for transmitting tenders from foreign as well as domestic points.
2. Each Party shall ensure that its entities shall take due account of publication delays when setting the final date for receipt of tenders or of request for participation or for qualifying for the supplier's list.
3. The minimum time-limits for the receipt of tenders are specified in Annex XIII, Appendix 3.

Article 151. Negotiations

1. A Party may provide for its entities to conduct negotiations:
 - (a) in the context of procurements in which they have indicated such intent in the notice of intended procurement; or
 - (b) when it appears from evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set forth in the notices or tender documentation.
2. Negotiations shall primarily be used to identify the strengths and weaknesses in tenders.
3. Entities shall not, in the course of negotiations, discriminate between tenderers. In particular, they shall ensure that:
 - (a) any elimination of participants is carried out in accordance with the criteria set forth in the notices and tender documentation;
 - (b) all modifications to the criteria and to the technical requirements are transmitted in writing to all remaining participants in the negotiations;
 - (c) on the basis of the revised requirements and/or when negotiations are concluded, all remaining participants are afforded an opportunity to submit new or amended tenders in accordance with a common deadline.

Article 152. Submission, Receipt and Opening of Tenders

1. Tenders and requests to participate in procedures shall be submitted in writing.
2. Entities shall receive and open bids from tenderers under procedures and conditions guaranteeing the respect of the principles of transparency and non-discrimination.

Article 153. Awarding of Contracts

1. To be considered for award, a tender must, at the time of opening, conform to the essential requirements of the notices or tender documentation and be submitted by a supplier which complies with the conditions for participation.
2. Entities shall make the award to the tenderer whose tender is either the lowest tender or the tender which, in terms of the specific objective evaluation criteria previously set forth in the notices or tender documentation, is determined to be the most advantageous.

Article 154. Information on Contract Award

1. Each Party shall ensure that its entities provide for effective dissemination of the results of government procurement processes.
2. Entities shall promptly inform tenderers of decisions regarding the award of the contract and of the characteristics and relative advantages of the selected tender. Upon request, entities shall inform any eliminated tenderer of the reasons for the rejection of its tender.
3. Entities may decide to withhold certain information on the contract award where release of such information would prevent law enforcement or otherwise be contrary to the public interest, would prejudice the legitimate commercial interests of suppliers, or might prejudice fair competition between them.

Article 155. Bid Challenges

1. Entities shall accord impartial and timely consideration to any complaints from suppliers regarding an alleged breach of this Title in the context of a procurement procedure.
2. Each Party shall provide non-discriminatory, timely, transparent and effective procedures enabling suppliers to challenge alleged breaches of this Title arising in the context of procurements in which they have, or have had, an interest.
3. Challenges shall be heard by an impartial and independent reviewing authority. A reviewing authority which is not a court shall either be subject to judicial review or shall have procedural guarantees similar to those of a court.
4. Challenge procedures shall provide for:
 - (a) rapid interim measures to correct breaches of this Title and to preserve commercial opportunities. Such action may result in suspension of the procurement process. However, procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account in deciding whether such measures should be applied; and
 - (b) if appropriate, correction of the breach of this Title or, in the absence of such correction, compensation for the loss or damages suffered, which may be limited to costs for tender preparation and protest.

Article 156. Information Technology

1. The Parties shall, to the extent possible, endeavour to use electronic means of communication to permit efficient dissemination of information on government procurement, particularly as regards tender opportunities offered by entities, while respecting the principles of transparency and non-discrimination.
2. With a view to improving access to government procurement markets, each Party shall endeavour to implement an electronic information system, which is compulsory for their respective entities.
3. The Parties shall encourage the use of electronic means for the transmission of offers.

Article 157. Cooperation and Assistance

The Parties shall endeavour to provide each other with technical cooperation and assistance through the development of training programs with a view to achieving a better understanding of their respective government procurement systems and statistics and better access to their respective markets.

Article 158. Statistical Reports

Where a Party does not ensure an acceptable level of compliance with Article 147(11), it shall, upon request of the other Party, collect and provide to the other Party on an annual basis statistics on its procurements covered by this Title. Such reports shall contain the information established in Annex XIII, Appendix 4.

Article 159. Modifications to Coverage

1. A Party may modify its coverage under this Title, provided that it:
 - (a) notifies the other Party of the modification; and
 - (b) provides the other Party, within 30 days following the date of such notification, appropriate compensatory adjustments to its coverage in order to maintain a level of coverage comparable to that existing prior to the modification.
2. Notwithstanding paragraph 1(b), no compensatory adjustments shall be provided to the other Party where the modification by a Party of its coverage under this Title concerns:
 - (a) rectifications of a purely formal nature and minor amendments to Annexes XI and XII;
 - (b) one or more covered entities on which government control or influence has been effectively eliminated as a result of privatisation or liberalisation.
3. Where appropriate, the Association Committee shall by decision modify the relevant Annex to reflect the modification notified by the Party concerned.

Article 160. Further Negotiations

If either Party should offer in the future a third party additional advantages with regard to access to their respective procurement markets beyond what has been agreed under this Title, it shall agree to enter into negotiations with the other Party with a view to extending these advantages to it on a reciprocal basis by means of a decision of the Association Committee.

Article 161. Exceptions

Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties or a disguised restriction on trade between them, nothing in this Title shall be construed to prevent any Party from adopting or maintaining measures:

- (a) necessary to protect public morals, order or safety;
- (b) necessary to protect human life, health or security;
- (c) necessary to protect animal or plant life or health;
- (d) necessary to protect intellectual property; or
- (e) relating to goods or services of handicapped persons, of philanthropic institutions or of prison labour.

Article 162. Review and Implementation

The Association Committee shall review the implementation of this Title every two years, unless otherwise agreed by the Parties; it shall consider any issue arising from it, and take appropriate action in the exercise of its functions. It shall, in particular, fulfil the following tasks:

- (c) adopt decisions where provided for under this Title.

Title V. Current Payments and Capital Movements

2. This Title applies to all current payments and capital movements between the Parties.

Article 164. Current Account

The Parties shall allow, in freely convertible currency and in accordance with the Articles of Agreement of the International Monetary Fund, any payments and transfers of the Current Account between the Parties.

Article 166. Exceptions and Safeguard Measures

1. Where, in exceptional circumstances, payments and capital movements between the Parties cause or threaten to cause serious difficulties for the operation of monetary policy or exchange rate policy in either Party, the Party concerned may take safeguard measures with regard to capital movements that are strictly necessary for a period not exceeding one year. The application of safeguard measures may be extended through their formal reintroduction.
2. The Party adopting the safeguard measures shall inform the other Party forthwith and present, as soon as possible, a time schedule for their removal.

Article 167. Final Provisions

1. With respect to this Title, the Parties confirm the rights and obligations existing under any bilateral or multilateral agreements to which they are parties.

2. The Parties shall consult each other with a view to facilitating the movement of capital between them in order to promote the objectives of this Agreement.

Title VII. Competition

Article 172. Objectives

1. The Parties undertake to apply their respective competition laws in a manner consistent with this Part of the Agreement so as to avoid the benefits of the liberalisation process in goods and services being diminished or cancelled out by anti-competitive business conduct. To this end, the Parties agree to cooperate and coordinate among their competition authorities under the provisions of this Title.

2. With a view to preventing distortions or restrictions of competition which may affect trade in goods or services between them, the Parties will give particular attention to anticompetitive agreements, concerted practices and abusive behaviour resulting from single or joint dominant positions.

3. The Parties agree to cooperate and coordinate among themselves for the implementation of competition laws. This cooperation includes notification, consultation, exchange of non-confidential information and technical assistance. The Parties acknowledge the importance of embracing principles on competition that would be accepted by both Parties in multilateral fora, including the WTO.

Article 173. Definitions

For the purpose of this Title:

1. "competition laws" includes:

(a) for the Community, Articles 81, 82 and 86 of the Treaty establishing the European Community, Regulation (EEC) No 4064/89 and their implementing regulations or amendments;

(b) for Chile, Decreto Ley N° 211 of 1973 and Ley N° 19.610 of 1999 and their implementing regulations or amendments; and

(c) any changes that the above mentioned legislation may undergo after the entry into force of this Agreement.

Article 174. Notifications

1. Each competition authority shall notify the competition authority of the other Party of an enforcement activity if it:

(a) is liable to substantially affect the other Party's important interests;

(b) relates to restrictions on competition which are liable to have a direct and substantial effect in the territory of the other Party; or

(c) concerns anti-competitive acts taking place principally in the territory of the other Party.

2. Provided that this is not contrary to the Parties' competition laws and does not affect any investigation being carried out, notification shall take place at an early stage of the procedure. The opinions received may be taken into consideration by the other competition authority when taking decisions.

3. The notifications provided for in paragraph 1 should be detailed enough to permit an evaluation in the light of the interests of the other Party.

4. The Parties undertake to use their best efforts to ensure that notifications are made in the circumstances set out above, taking into account the administrative resources available to them.

Article 175. Co-ordination of Enforcement Activities

The competition authority of one Party may notify the other Party's competition authority of its willingness to coordinate enforcement activities with respect to a specific case. This coordination shall not prevent the Parties from taking autonomous decisions.

Article 176. Consultations When the Important Interests of One Party Are Adversely Affected In the Territory of the other Party

1. Each Party shall, in accordance with its laws, take into consideration, as necessary, the important interests of the other Party in the course of its enforcement activities. If the competition authority of a Party considers that an investigation or proceeding being conducted by the competition authority of the other Party may adversely affect such Party's important interests it may transmit its views on the matter to, or request consultation with, the other competition authority. Without prejudice to the continuation of any action under its competition laws and to its full freedom of ultimate decision, the competition authority so addressed should give full and sympathetic consideration to the views expressed by the requesting competition authority.
2. The competition authority of a Party which considers that the interests of that Party are being substantially and adversely affected by anti-competitive practices of whatever origin that are or have been engaged in by one or more enterprises situated in the other Party may request consultations with the competition authority of that Party. Such consultations are without prejudice to the full freedom of ultimate decision of the competition authority concerned. A competition authority so consulted may take whatever corrective measures under its competition laws it deems appropriate, consistent with its own domestic law, and without prejudice to its full enforcement discretion.

Article 177. Exchange of Information and Confidentiality

1. With a view to facilitating the effective application of their respective competition laws, the competition authorities may exchange non-confidential information.
2. For the purpose of improving transparency, and without prejudice to the rules and standards of confidentiality applicable in each Party, the Parties hereby undertake to exchange information regarding sanctions and remedies applied in the cases that, according to the competition authority concerned, are significantly affecting important interests of the other Party and to provide the grounds on which those actions were taken, when requested by the competition authority of the other Party.
3. Each Party shall provide to the other Party information on state aid on an annual basis, including the overall amount of aid and, if possible, the segregation by sector. Each Party may request information on individual cases affecting trade between the Parties. The requested Party will use its best efforts to provide non-confidential information.
4. All exchange of information shall be subject to the standards of confidentiality applicable in each Party. Confidential information whose dissemination is expressly prohibited or which, if disseminated, could adversely affect the interest of the Parties, shall not be provided without the express consent of the source of the information.
5. The Parties may provide each other technical assistance in order to take advantage of their respective experience and to strengthen the implementation of their competition laws and policies.

Article 179. Public Enterprises and Enterprises Entrusted with Special or Exclusive Rights, Including Designated Monopolies

1. Nothing in this Title prevents a Party from designating or maintaining public or private monopolies according to their respective laws.
2. With regard to public enterprises and enterprises to which special or exclusive rights have been granted, the Association Committee shall ensure that, following the date of entry into force of this Agreement, there is neither enacted nor maintained any measure distorting trade in goods or services between the Parties to an extent contrary to the Parties' interests and that such enterprises shall be subject to the rules of competition insofar as the application of such rules does not obstruct the performance,

in law or in fact, of the particular tasks assigned to them.

Article 180. Dispute Settlement

Neither Party may have recourse to dispute settlement under this Agreement for any matter arising under this Title.

Title VIII. DISPUTE SETTLEMENT

Chapter I. Objective and Scope

2. Each Party may request consultations within the Association Committee with respect to an existing or proposed measure or any matter relating to the application or interpretation of this Part of the Agreement or any other matter that it considers might affect its operation. For the purposes of this Title, a "measure" shall also include a practice. The Party shall state in the request the measure or other matter complained of, indicate the provisions of this Agreement that it considers applicable and deliver the request to the other Party.
3. The Association Committee shall convene within 30 days of delivery of the request. Upon initiation of consultations, the Parties shall provide information to enable the examination of how the measure or any other matter might affect the operation and application of this Part of the Agreement, and give confidential treatment to the information exchanged during consultations. The Association Committee shall endeavour to resolve the dispute promptly by means of a decision. That decision shall specify the implementing measures to be taken by the Party concerned, and the timeframe for doing so.

Section CHAPTER III. Dispute Settlement Procedure

Article 184. Initiation of the Procedure

1. Parties shall at all times endeavour to reach a mutually satisfactory agreement on the dispute.
2. Where a Party considers that an existing measure of the other Party is in breach of an obligation under the provisions referred to in Article 182 and such matter has not been resolved within 15 days after the Association Committee has convened pursuant to Article 183(3) or 45 days after the delivery of the request for consultations within the Association Committee, whichever is earlier, it may request in writing the establishment of an arbitration panel.
3. The complaining Party shall state in the request the existing measure it considers to be in breach of this Part of the Agreement and indicate the provisions of this Agreement that it considers relevant, and shall deliver the request to the other Party and to the Association Committee.

Article 185. Appointment of Arbitrators

1. Arbitration panels shall consist of three arbitrators.
2. The Association Committee shall, no later than six months after the entry into force of this Agreement, establish a list of at least 15 individuals who are willing and able to serve as arbitrators, a third of whom must not be national of either Party and are identified as chairperson of arbitration panels. The Association Committee shall ensure that the list always contains 15 individuals at any point in time. Those individuals shall have specialised knowledge or experience in law, international trade or other matters

relating to this Part of the Agreement or in the resolution of disputes deriving from international trade agreements, be independent, serve in their individual capacities and not be affiliated with, nor take instructions from, any Party or organisation and shall comply with the Code of Conduct set out in Annex XVI. Such list may be amended every three years.

3. Within three days of the request for the establishment of the arbitration panel, the three arbitrators shall be selected by lot by the chairperson of the Association Committee from the list referred to in paragraph 2, one among the individuals proposed to the Association Committee by the complaining Party, one among the individuals proposed to the Association Committee by the Party complained against and the chairperson among the individuals identified for that purpose under paragraph 2.

4. The date of establishment of the arbitration panel shall be the date on which the three arbitrators are selected by lot.

5. Where a Party considers that an arbitrator does not comply with the requirements of the Code of Conduct, the Parties shall consult and, if so agreed, they shall replace that arbitrator and select a new one pursuant to paragraph 6.

6. If an arbitrator is unable to participate in the proceeding, withdraws or is replaced, a replacement shall be selected within three days in accordance with the selection procedure followed to select that arbitrator. In such a case, any timeframe applicable to the arbitration panel proceeding shall be suspended for a period beginning on the date the arbitrator is unable to participate in the proceeding, withdraws or is replaced and ending on the date the replacement is selected.

Article 186. Information and Technical Advice

At the request of a Party or on its own initiative, the panel may obtain the information and technical advice of persons and bodies that it deems appropriate. Any information so obtained shall be submitted to the Parties for comments.

Article 187. Arbitration Panel Ruling

1. The arbitration panel shall transmit its ruling containing its findings and conclusions to the Parties and the Association Committee, as a general rule not later than three months from the date of establishment of the arbitration panel. In no case should it do so later than five months from this date. The arbitration panel shall base its ruling on the submissions and communications of the Parties and on any information it has received pursuant to Article 186. The ruling is final and shall be publicly available.

2. The ruling shall set out the findings of fact, the applicability of the relevant provisions of this Agreement and the basic rationale behind any findings and conclusions that it makes.

3. Arbitration panels shall interpret the provisions of this Agreement in accordance with customary rules of interpretation of public international law, due account being taken of the fact that the Parties must perform this Agreement in good faith and avoid circumvention of their obligations.

4. A Party asserting that a measure of the other Party is inconsistent with the provisions of this Part of the Agreement shall have the burden of establishing such inconsistency. A Party asserting that a measure is subject to an exception under this Part of the Agreement shall have the burden of establishing that the exception applies.

5. In cases of urgency, including those involving perishable goods, the arbitration panel shall make every effort to issue its ruling to the Parties within 75 days from the date of establishment of the arbitration panel. In no case should it do so later than four months from that date. The arbitration panel may give a preliminary ruling on whether a case is urgent.

6. All decisions of the arbitration panel, including the adoption of the ruling and of any preliminary ruling, shall be taken by majority vote.

7. The complaining Party may, with the agreement of the Party complained against, withdraw its complaint at any time before the ruling is transmitted to the Parties and the Association Committee. Such withdrawal is without prejudice to its right to introduce a new complaint regarding the same matter at a later point in time.

8. The arbitration panel may, with the agreement of the Party complained against, suspend its work at any time at the request of the complaining Party for a period not to exceed 12 months. In the event of such a suspension, the time-frame set out in paragraphs 1 and 5 shall be extended by the amount of time that the work was suspended. If the work of the panel has been suspended for more than 12 months, the authority for establishment of the panel shall lapse, without prejudice to the right of the complaining Party to request at a later stage the establishment of an arbitration panel on the same subject matter.

Article 188. Compliance

1. Each Party shall be bound to take the measures necessary to comply with the ruling of the arbitration panel.

2. The Parties shall endeavour to agree on the specific measures that are required for complying with the ruling.

3. Within 30 days after the ruling has been transmitted to the Parties and the Association Committee, the Party complained against

shall notify the other Party:

(a) of the specific measures required for complying with the ruling;

(b) of the reasonable timeframe for doing so; and

(c) of a concrete proposal for a temporary compensation until the full implementation of the specific measures required for compliance with the ruling.

4. In the event of disagreement between the Parties on the content of such notification, the complaining Party shall request the original arbitration panel to rule on whether the proposed measures referred to under paragraph 3(a) would be consistent with this Part of the Agreement, on the duration of the timeframe and on whether the compensation proposal is manifestly disproportionate. The ruling shall be given within 45 days after that request.

5. The Party concerned shall notify to the other Party and to the Association Committee the implementing measures adopted in order to put an end to the violation of its obligations under this Part of the Agreement, before the expiry of the reasonable timeframe agreed by the Parties or determined in accordance with paragraph 4. Upon that notification, that other Party may request the original arbitration panel to rule on the conformity of those measures with this Part of the Agreement if they are not similar to the measures which the arbitration panel, acting under paragraph 4, has ruled that they would be consistent with this Part of the Agreement. The ruling of the arbitration panel shall be given within 45 days from that request.

6. If the Party concerned fails to notify the implementing measures before the expiry of the reasonable timeframe or if the arbitration panel rules that the implementing measures notified by the Party concerned are inconsistent with its obligations under this Part of the Agreement, the complaining Party shall, if no agreement on compensation has been found, be entitled to suspend the application of benefits granted under this Part of the Agreement equivalent to the level of nullification and impairment caused by the measure found to violate this Part of the Agreement.

7. In considering what benefits to suspend, a complaining Party should first seek to suspend benefits in the same Title or Titles of this Part of the Agreement as that affected by the measure that the arbitration panel has found to violate this Part of the Agreement. A complaining Party that considers that it is not practicable or effective to suspend benefits in the same Title or Titles may suspend benefits in other Titles, provided it submits written justification. In the selection of the benefits to suspend, priority must be given to those which least disturb the functioning of this Agreement.

8. The complaining Party shall notify the other Party and the Association Committee of the benefits which it intends to suspend. Within five days from that notification, the other Party may request the original arbitration panel to rule on whether the benefits which the complaining Party intends to suspend are equivalent to the level of nullification and impairment caused by the measure found to violate this Part of the Agreement, and whether the proposed suspension is in accordance with paragraph 7. The ruling of the arbitration panel shall be given within 45 days from that request. Benefits shall not be suspended until the arbitration panel has issued its ruling.

9. The suspension of benefits shall be temporary and shall only be applied by the complaining Party until the measure found to violate this Part of the Agreement has been withdrawn or amended so as to bring it into conformity with this Part of the Agreement, or the Parties have reached agreement on a resolution of the dispute.

10. At the request of any of the Parties, the original arbitration panel shall rule on the conformity with this Part of the Agreement of any implementing measures adopted after the suspension of benefits and, in the light of such ruling, whether the suspension of benefits should be terminated or modified. The ruling of the arbitration panel shall be given within 45 days from the date of that request.

11. The rulings provided for in this Article shall be final and binding. They shall be transmitted to the Association Committee and be publicly available.

Subsidiary of a legal person means a legal person which is effectively controlled by another legal person.

Branch of a legal person means a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.

1. HORIZONTAL COMMITMENTS

All sectors included in this schedule

a) Treatment accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State and having their registered office, central administration or principal place of business within the Community is not extended to branches or

agencies established in a Member State by a Chilean company. However, this does not prevent a Member State from extending this treatment to branches or agencies established in another Member State by a Chilean company or firm, as regards their operation in the first Member State's territory, unless such extension is explicitly prohibited by Community law.

b) Treatment less favourable may be accorded to subsidiaries (of Chilean companies) formed in accordance with the law of a Member State which have only their registered office or central administration in the territory of the Community, unless it can be shown that they possess an effective and continuous link with the economy of one of the Member States.

Formation of Legal Entity

A: Without prejudice to existing treaties, foreign natural persons may exercise a business on equal terms as Austrian nationals. However, evidence has to be presented to the competent authority that Austrian natural persons are in no way discriminated against in the exercise of the relevant business in the foreigner's home country. If this evidence cannot be presented the foreign natural person has to apply formally for equal status with nationals. If the holder of a business permit is not a permanent resident of Austria, the appointment of a professional representative (.gewerberechtlicher Geschäftsführer.) permanently residing in Austria is necessary. In order to acquire a business permit, foreign juridical persons or partnerships must set up an establishment and appoint a professional representative permanently residing in Austria. Without prejudice to existing treaties a foreign professional representative has to apply for equal status with nationals.

FIN: At least half of the founders of a limited company need to be natural persons residing within EEA (European Economic Area) or juridical persons having their domicile in one of the EEA countries, unless the Ministry of Trade and Industry grants an exception.

S: A limited liability company (joint stock company) may be established by one or several founders. A founding party shall either reside within the EEA (European Economic Area) or be an EEA legal entity. A partnership can only be a founding party if each partner resides within the EEA (1). Corresponding conditions prevail for establishment of other types of legal entities.

(1) Exceptions from these requirements may be granted, if it can be proved that residency is not necessary.

Law on Foreign Companies' Branches

S: A foreign company (which has not established a legal entity in Sweden) shall conduct its commercial operations through a branch, established in Sweden with independent management and separate accounts. Building projects with a duration of less than a year are exempted from the requirements of establishing a branch or appointing a resident representative.

S: The managing director of a branch shall reside within the EEA (European Economic Area) (1).

A foreigner living outside the European Economic Area and carrying on a trade as a private entrepreneur or as a partner in a Finnish limited or general partnership needs a trade permit. If a foreign organization or foundation is established under the laws of and has its registered office in an EEA-country no permit is required for carrying on a business or trade by establishing a branch in Finland.

Real estate purchases:

A: The acquisition, purchase as well as rent or lease of real estate by foreign natural persons and juridical persons requires an authorisation by the competent regional authorities (Länder) which will consider whether important economic, social or cultural interests are affected or not.

IRL: Prior written consent of the Land Commission is necessary for the acquisition of any interest in Irish land by domestic or foreign companies or foreign nationals.
