4. Each Party shall provide that any modification or revocation of an advance ruling shall be effective on the date on which the modification or revocation is issued, or on such later date as may be specified therein, and shall not be applied to importations of a good that have occurred prior to that date, unless the person to whom the advance ruling was issued has not acted in accordance with its terms and conditions.

If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 5.1(u)(iii), it is thereby committed to allow related transfers of capital into its territory.

(6) Subparagraph 2(c) of Article 5.3 does not cover measures of a Party which limit inputs for the supply of services.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of a Party compared to like services or service suppliers of another Party.

(7) Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

Article 5.5. Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 5.3 or 5.4, including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule of specific commitments.

Article 5.6. Schedule of Specific Commitments

1. Each Party shall set out in a Schedule the specific commitments it undertakes under Articles 5.3, 5.4 and 5.5. With respect to sectors where such commitments are undertaken, each Schedule of specific commitments shall specify:

 - (b) conditions and qualifications on national treatment;
 - (c) undertakings relating to additional commitments;
 - (d) where appropriate, the time-frame for implementation of such commitments; and
 - (e) the date of entry into force of such commitments.
2. Measures inconsistent with both Articles 5.3 and 5.4 shall be inscribed in the column relating to Article 5.3. In this case, the inscription will be considered to provide a condition or qualification to Article 5.4 as well.

3. The Schedules of specific commitments shall be annexed to this Chapter as Annexes 5 (GCC) and 6 (Singapore).

Article 5.7. Modification of Schedules

1. A Party may modify or withdraw any commitment in its Schedule (referred to in this Article as the "modifying Party"), at any time after three (3) years have elapsed from the date on which that commitment entered into force, in accordance with the provisions of this Article. If one or more of the GCC Member States or Singapore modifies or withdraws any commitment in its Schedule, the GCC or Singapore, as the case may be, shall notify each other of the modifying Party's intent to modify or withdraw a commitment pursuant to this Article no later than three months before the intended date of implementation of the modification or withdrawal.

2. At the request of the affected Party, the modifying Party shall enter into negotiations with a view to reaching agreement on any necessary compensatory adjustment within six (6) months. In such negotiations and agreement, the any affected

Party and the modifying Party shall endeavour to maintain a general level of mutually advantageous commitments not less favourable to trade than that provided for in the Schedules of specific commitments prior to such negotiations. The Joint Committee shall be kept informed of the outcome of the negotiations.

3. If agreement is not reached between any affected Party and the modifying Party before the end of the period provided for negotiations, the affected Party may invoke the process in Chapter 9 (Settlement of Disputes).

4. If an affected Party does not refer the matter to dispute settlement sixty (60) days from the expiration of the period referred to in paragraph 3 of this Article, the modifying Party shall be free to implement the proposed modification or withdrawal.

5. The modifying Party may not modify or withdraw its commitment until it has made compensatory adjustments in conformity with the findings of the arbitration panel established pursuant to Article 9.4.

6. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitration panel established pursuant to Article 9.4, the affected Party may modify or withdraw substantially equivalent benefits in conformity with those findings.

Article 5.8. Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of another Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. The provisions of paragraph 2 of this Article shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

4. Where authorization is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.

5. With the objective of ensuring that domestic regulation, including measures relating to qualification requirements and procedures, technical standards and licensing requirements, does not constitute an unnecessary barrier to trade in services, the Parties shall jointly review the results of the negotiations on disciplines on these measures, pursuant to paragraph 4 of Article VI of the GATS, with a view to their incorporation into this Chapter. The Parties note that such disciplines aim to ensure that such requirements are, inter alia:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service;

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

6. Pending the incorporation of disciplines pursuant to paragraph 5 of this Article, for sectors where a Party has undertaken specific commitments and subject to any terms, limitations, conditions or qualifications set out therein, a Party shall not apply licensing and qualification requirements and technical standards that nullify or impair such specific commitments in a manner which:

(a) does not comply with the criteria outlined in subparagraphs (a), (b) or (c) of paragraph 5 of this Article; and

(b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.

7. In determining whether a Party is in conformity with the obligation under paragraph 6 of this Article, account shall be taken of international standards of relevant international organisations (8) applied by that Party.

(8) The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of the

2. The Parties shall encourage their relevant competent bodies to enter into negotiations on recognition of professional qualifications, licenses, or registration procedures with a view to the achievement of early outcomes.
3. Any arrangement reached pursuant to paragraph 2 of this Article shall be consistent with this Agreement.

Article 5.10. Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's Schedule of specific commitments.
2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's Schedule of specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.
3. If a Party has reason to believe that a monopoly supplier of a service of another Party is acting in a manner inconsistent with paragraphs 1 or 2 of this Article, it may request the Party establishing, maintaining or authorizing such supplier to provide specific information concerning the relevant operations.
4. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:
 - (a) authorizes or establishes a small number of service suppliers; and
 - (b) substantially prevents competition among those suppliers in its territory.

Article 5. Business Practices

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 5.10, may restrain competition and thereby restrict trade in services.
2. A Party shall, at the request of another Party, enter into consultations with a view to eliminating practices referred to in paragraph 1 of this Article. The Party addressed shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The Party addressed shall also provide other information available to the requesting Party, subject to its domestic laws and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 5.12. Payments and Transfers

1. Except under the circumstances envisaged in Article 5.13, a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.
2. Article 5.13. Restrictions to Safeguard the Balance-of-Payments

1. In the event of serious balance-of-payments and external financial difficulties or threat thereof, a Party may adopt or maintain restrictions on trade in services in respect of which it has obligations under Articles 5.3 and 5.4, including on payments or transfers for transactions relating to such obligations. It is recognised that particular pressures on the balance-of-payments of a Party in the process of economic development may necessitate the use of restrictions to ensure, inter alia,

the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development.

2. The restrictions referred to in paragraph 1 of this Article:

(a) shall not discriminate among WTO Members;

(b) shall be consistent with the Articles of Agreement of the International Monetary Fund;

(c) shall avoid unnecessary damage to the commercial, economic and financial interests of another Party;

(d) shall not exceed those necessary to deal with the circumstances described in paragraph 1 of this Article;

(e) shall be temporary and be phased out progressively as the situation specified in paragraph 1 of this Article improves.

3. In determining the incidence of such restrictions, the Parties may give priority to the supply of services which are more essential to their economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.

4. Any restrictions adopted or maintained under paragraph 1 of this Article, or any changes therein, shall be promptly notified to the affected Parties.

5. The Party adopting any restrictions under paragraph 1 of this Article shall commence consultations with all affected Parties in order to review the restrictions adopted by it.

Article 5.14. Transparency

1. Each Party shall publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application which pertain to or affect the operation of this Chapter. International agreements pertaining to or affecting trade in services to which a Party is a signatory shall also be published.

2. Where publication as referred to in paragraph 1 of this Article is not practicable, such information shall be made otherwise publicly available.

3. Each Party shall respond promptly to all requests by another Party for specific information on any of its measures of general application or international agreements within the meaning of paragraph 1 of this Article. Each Party shall also use the existing enquiry points or, when they do not exist, establish one or more enquiry points to provide specific information to another Party, upon request, on all such matters.

Article 5.15. Disclosure of Confidential Information

Nothing in this Chapter shall require any Party to provide confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private.

Article 5.16. Denial of Benefits

1. Subject to prior notification and consultation, a Party may deny the benefits of this Chapter to a service supplier of another Party if the service supplier is a juridical person owned or controlled by persons of a non-Party, and the denying Party:

(a) does not maintain diplomatic relations with the non-Party; or

(b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the juridical person or that would be violated or circumvented if the benefits of this Chapter were accorded to the juridical person.

2. Subject to prior notification and consultation, a Party may deny the benefits of this Chapter:

(a) to the supply of a service, if it establishes that the service is supplied from or in the territory of a non-Party;

(b) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:

(i) by a vessel registered under the laws of a non-Party, and

(ii) by a person which operates and/or uses the vessel in whole or in part but which is of a non-Party;

(c) to a service supplier of another Party where the Party establishes that the service supplier is owned or controlled by persons of a non-Party and that it has no substantive business operations in the territory of a Party.

Article 5.17. Review of Commitments

If after this Agreement enters into force, a Party enters into any agreement on trade in services with a non-Party, it shall give sympathetic consideration to a request by another Party for the incorporation herein of treatment no less favourable than that provided under the aforesaid agreement. Any such incorporation should maintain the overall balance of commitments undertaken by a Party under this Agreement.

Article 5.18. Telecommunications Services

1. Negotiations on mutual liberalisation of telecommunications services shall be considered at future reviews held by the Joint Committee in accordance with Article 1.11.

2. The results of the negotiations referred to in paragraph 1 of this Article, if any, shall be incorporated into this Chapter in accordance with Article 10.2.

Each Party shall be prepared, upon request, to explain to another Party its government procurement procedures.

Article 6.10. Tendering Procedures

1. Entities shall normally procure by open or selective tendering and may also procure by limited tendering or by negotiation for the selection of the successful supplier as set out in Articles 6.11, 6.12 and 6.13 respectively.

(b) indicate the time-limit for submitting requests for participation; and

(c) before the commencement of the time period for tendering invite qualified suppliers to submit a tender.

2. When using selective tendering procedures, a procuring entity shall recognise as qualified suppliers any domestic suppliers and any suppliers of the other Party that meet the conditions for participation in a particular procurement, unless the procuring entity states in the notice of intended procurement or, where publicly available, in the tender documentation any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers. Procuring entities shall select the suppliers to participate in the selective tendering procedure in a fair and non-discriminatory manner.

3. Where the tender documentation is not made publicly available from the date of publication of the notice of intended procurement, procuring entities shall ensure that those documents are made available at the same time to all the qualified suppliers selected in accordance with paragraph 2 of this Article.

Article 6.12. Limited Tendering

1. Subject to the conditions established in paragraph 2 of this Article, when using the limited tendering procedure, a procuring entity may choose not to apply Articles 6.10 to 6.11 and 6.13.

2. Provided that limited tendering is not used to avoid competition or in a manner that discriminates against suppliers of another Party, entities may apply limited tendering procedure in the following cases:

(a) where no suitable tenders have been submitted in response to an open or selective tender, provided that the requirements of the initial tender are not substantially modified;

(b) where, for works of art, or, for technical or artistic reasons connected with protection of exclusive rights, the contract may be performed only by a particular supplier and no reasonable alternative or substitute exists;

(c) for reasons of extreme urgency brought by events unforeseeable by the entity, the products or services could not be obtained in time by using open or selective tendering procedures;

(d) for additional deliveries of goods or services by the original supplier that were not included in the initial procurement where a change of supplier for such additional goods or services cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement;

(e) where an entity procures prototypes or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development of a first good or service;

(f) where additional services which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseeable circumstances, become necessary to complete the services described therein. However, the total value of contracts awarded for the additional services may not exceed fifty percent (50%) of the amount of the main contract;

(g) for new services consisting of the repetition of similar services which conform to a basic project for which an initial contract was awarded and for which the entity has indicated in the notice of intended procurement concerning the initial service, that limited tendering procedures might be used in awarding contracts for such new services;

(h) for goods purchased on a commodity market;

(i) in the case of contracts awarded to the winner of a design contest; where there are several successful candidates, the participants are evaluated by an independent panel or experts with a view to a design contract being awarded to a winner; and

(j) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy but not for routine purchases from regular suppliers.

Article 6.13. Negotiations

1. A Party may provide for its entities to conduct negotiations:

(a) in the context of procurements in which they have indicated such intent in the notice of intended procurement; or

(b) where it appears from the evaluation that no one tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notices or tender documentation.

2. An entity shall:

(a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notices or tender documentation; and

(b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 6.14. Publication of Notice of Intended Procurement

1. An entity shall, for each procurement covered by this Chapter, publish in advance a notice inviting all interested suppliers to submit tenders for that procurement ("notice of intended procurement"), except as otherwise provided for in Article 6.12. This notice shall be published in the appropriate publication listed in Annex 8B. Each such notice shall be valid during the entire period established for tendering for the relevant procurement.

2. Each notice of intended procurement shall include a description of the intended procurement, any conditions that suppliers must fulfil to participate in the procurement, the name of the entity issuing the notice, the address and contact where suppliers may obtain all documents relating to the procurement, the time limits for submission of tenders and the dates for delivery of the goods or services to be procured.

Article 6.15. Time Limits for the Tendering Process

1. All time limits established by the entities for the receipt of tenders and requests to participate shall be adequate to allow suppliers of another Party, as well as domestic suppliers, to prepare and to submit tenders, and where appropriate, requests for participation or applications for qualifying. In determining any such time limit, entities shall, consistent with their own reasonable needs, take into account such factors as the complexity of the intended procurement, extent of subcontracting anticipated and the normal time for transmitting tenders from foreign as well as domestic points.

2. Each Party shall ensure that its entities shall take due account of publication delays when setting the final date for receipt of tenders or of requests for participation or for qualifying for the suppliers' list.

3. The minimum time limits for the receipt of tenders is not less than thirty (30) days and the actual time limit of each Party may be stated in Annex 8C.

Article 6.16. Tender Documentation

1. An entity shall provide interested suppliers with tender documentation that includes all the information necessary to permit suppliers to prepare and submit responsive tenders. The documentation shall include the criteria that the entity will consider in awarding the contract, including all cost factors, and the weights or, where appropriate, the relative values that the entity will assign to these criteria in evaluating tenders.

2. To the extent possible and subject to any applicable fees, an entity should make relevant tender documentation publicly available through electronic means or a computer-based telecommunications network openly accessible to all suppliers. Where an entity does not publish all the tender documentation by electronic means, the entity shall, on request of any supplier and subject to any applicable fees, promptly make the documentation available in written form to the supplier.

3. Where an entity, during the course of a procurement, modifies any part of the tender documentation referred to in paragraph 1 of this Article, it shall:

(a) publish all such modifications electronically; or

(b) transmit all such modifications in writing to all suppliers that are participating in the procurement at the time the criteria were modified, and in all cases, allow adequate time to suppliers to submit fresh tenders, or modify and re-submit their

tenders as appropriate.

Article 6.17. Technical Specifications

1. Each Party shall ensure that its entities shall not prepare, adopt or apply any technical specifications with a view to, or with the effect of, creating unnecessary obstacles to trade between the Parties.
2. Technical specifications prescribed by a procuring entity shall, where appropriate:
 - (a) be in terms of performance requirements rather than design or descriptive characteristics; and
 - (b) be based on international standards, where applicable; otherwise, on national technical regulations, recognised national standards or building codes.
3. There shall be no requirement or reference to a particular trademark or trade name, patent, design or type, specific origin or producer or supplier unless there is no sufficiently precise or intelligible way of otherwise describing the procurement requirements and provided that, in such cases, words such as "or equivalent" are included in the tender documentation.
4. Entities shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in that procurement.

Article 6.18. Registration and Qualification of Suppliers

1. In the process of registering and/or qualifying suppliers, the entities of a Party shall not discriminate between domestic suppliers and suppliers of another Party.
2. Any condition for participation in open tendering procedures shall be no less favourable to suppliers of another Party than to domestic suppliers.
3. The process of, and the time required for, registering and/or qualifying suppliers shall not be used in order to keep suppliers of another Party off a list of suppliers or from being considered for a particular procurement.
4. Entities maintaining permanent lists of registered and/or qualified suppliers shall ensure that suppliers may apply for registration or qualification at any time, and that all registered and qualified suppliers are included in the lists within a reasonable time.
5. Nothing in this Article shall preclude an entity from excluding a supplier from a procurement on grounds such as bankruptcy or false declaration, provided that such an action is consistent with Article 6.4.

Article 6.19. Evaluation of Contracts

The tender evaluation process shall be fair and non-discriminatory to avoid any potential conflict of interest between persons administering the process and suppliers participating in the process.

Article 6.20. Information on Awards

1. Subject to Article 6.26, an entity shall promptly publish a notice on contract award decision in the appropriate publications listed in Annex 8B. The award notice should include at least the following information:
 - (a) the name of the entity;
 - (b) a description of the goods or services procured;
 - (c) the name of the winning supplier; and
 - (d) the value of the contract award.
2. Entities shall, on request from an unsuccessful supplier of another Party which participated in the relevant tender, promptly provide pertinent information concerning reasons for the rejection of its tender, unless the release of such information would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interest of particular enterprises, public or private, or might prejudice fair competition between suppliers.

Article 6.21. Modifications and Rectifications to Coverage

1. A Party shall notify the Parties of any proposed rectification, transfer of an entity from one Appendix to another, in Annex 8A, withdrawal of an entity, or other modification (hereinafter referred to generally in this Article as "modification") of Annex 8A. The Party proposing the modification ("modifying Party") shall state in the notification:

(a) the evidence on whether government control or influence over the covered procurements of the entity to be withdrawn has been effectively eliminated; and

(b) for any other proposed modification, information as to the likely consequences of the change for the mutually agreed coverage provided in this Agreement.

2. A Party may withdraw or replace a covered entity by making the appropriate compensatory adjustment to its coverage to maintain a level of coverage comparable to that existing prior to the modification. No compensatory adjustment shall be provided to an affected Party in respect of the following modifications made by a Party to its coverage under this Chapter:

(a) rectifications of a purely formal nature and minor amendments to the Appendices; and

(b) where Government control or influence over the entity's covered procurements has been effectively eliminated upon its corporatisation or privatisation.

Article 6.22. Electronic Procurement

1. The Parties shall endeavour, within the context of their commitment to promote electronic commerce, to seek to provide opportunities for e-procurement.

2. Each Party shall endeavour to work toward a single entry point for the purpose of enabling suppliers to access information on procurement opportunities in its territory.

3. Each Party shall, to the extent possible, make procurement opportunities that are available to the public accessible to suppliers via publically available electronic mediums or means. To the extent possible, each Party shall make available relevant documentation by the same medium or means.

4. For each case of intended procurement, the procuring entity shall publish a summary notice in English. The notice shall contain at least the following information:

Article 6.23. Challenge Procedures

1. In the event of a complaint by a supplier of a Party that there has been a breach of this Chapter in the context of procurement by another Party, that Party shall encourage the supplier to seek resolution of its complaint in consultation with the procuring entity of that other Party. In such instances the procuring entity of that other Party shall accord timely and impartial consideration to any such complaint, in such a manner that is not prejudicial to obtaining corrective measures under the challenge system.

2. Each Party shall provide suppliers of the Parties with non-discriminatory, timely, transparent and effective procedures to challenge alleged breaches of this Chapter arising in the context of procurements in which they have an interest.

3. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of its procuring entities to receive and review a challenge by a supplier arising in the context of a covered procurement.

4. Unless the tender document specifies otherwise, a Party's total liability for any breach of this Chapter or compensation for loss or damages suffered shall be limited to the costs for tender preparation reasonably incurred by the supplier for the purpose of the procurement.

5. The issues arising under paragraphs 1 to 4 of this Article are to be determined by each Party according to its domestic laws and regulations.

Article 6.24. Exceptions

1. Nothing in this Chapter shall be construed to prevent any Party from taking any action or not disclosing any information which it considers necessary for the protection of its essential security interests relating to the procurement of arms, ammunition or war materials, or to procurement indispensable for national security or for national defence purposes.

2. Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail or a disguised restriction on international trade, nothing in this Chapter shall be construed to prevent any Party from imposing or enforcing measures:

(a) necessary to protect public morals, order or safety;

(b) necessary to protect human, animal or plant life or health;

(c) necessary to protect intellectual property; or

Article 6.26. Non-disclosure of Information

1. The Parties, their covered entities, and their review authorities shall not disclose confidential information the disclosure of which would prejudice legitimate commercial interests of a particular person or might prejudice fair competition between suppliers, without the formal authorization of the person that provided the information to the Party.

2. Nothing in this Chapter shall be construed as requiring a Party or its covered entities to disclose confidential information the disclosure of which would impede law enforcement or otherwise be contrary to the public interest.

Article 6.27. Language

2. Any request for the establishment of an arbitration panel shall indicate whether consultations under Article 9.2 were held, identify the specific measures at issue and provide a brief summary of the legal basis of the complaint, including the provisions of this Agreement alleged to have been breached and any other relevant provisions, sufficient to present the problem clearly.

Article 9.5. Composition of Arbitration Panel

1. Unless the disputing Parties agree otherwise, an arbitration panel shall consist of three (3) members.

2. Each of the disputing Parties shall, within thirty (30) days after the date of receipt of the request for the establishment of an arbitration panel, separately appoint one arbitrator who may be a national of the disputing Parties.

3. Where the disputing Parties have appointed their respective arbitrators, the arbitrators shall, within fifteen (15) days of the appointment of the second of them, designate by common agreement, the third arbitrator. If any disputing Party disapproves the designated third arbitrator, it shall, within seven (7) days from the date of designation, notify its disapproval of the third arbitrator to the other disputing Party and to the two arbitrators.

4. Where no third arbitrator has been appointed within the periods specified in this Article, or where any Party has disapproved the designation of a third arbitrator under paragraph 3 of this Article, any disputing Party may, within forty-five (45) days of the period within which the appointment should be made, request the Director-General of the WTO to appoint the third arbitrator. This appointment shall be final.

5. The third arbitrator shall be appointed as the Chairperson of the arbitration panel. He or she shall not be a national of, nor have his or her usual place of residence in, nor be employed by, any of the disputing Parties. He or she shall also not have dealt with the dispute in any capacity.

6. If any of the arbitrators resigns or becomes unable to act, a successor arbitrator shall be appointed in the same manner as prescribed for the appointment of the original arbitrator, and the successor arbitrator shall have all the powers and duties of the original arbitrator. The arbitration panel proceedings shall be suspended until a successor arbitrator is appointed.

7. Any person appointed as an arbitrator shall have specialised knowledge or experience in law, international trade, other matters covered by this Agreement or the resolution of disputes arising under international trade agreements. The arbitrators shall be independent, serve in their individual capacities, not be affiliated with, or take instructions from, any organisation or government or have any conflict of interest. The arbitrators shall comply with the Code of Conduct for Members of Arbitration Panels set out in Annex 9.

8. The date of establishment of the arbitration panel shall be the date on which the Chairperson is appointed.

Article 9.6. Suspension and Termination of Proceedings

1. The arbitration panel may, at the written request of the disputing Parties, suspend its work at any time for a period not

exceeding twelve (12) months. Once the period of twelve (12) months has been exceeded, the authority for the establishment of the arbitration panel will lapse.

2. The disputing Parties may agree to terminate the proceedings of an arbitration panel at any time before the issuance of the award by jointly notifying the Chairperson of the arbitration panel.

Article 9.7. Amicable Resolution

1. Before the arbitration panel issues its draft award, it may, at any stage of the proceedings, propose to the disputing Parties that the dispute be settled amicably.

2. The disputing Parties shall notify the Joint Committee when a dispute which has been referred to an arbitration panel is resolved amicably.

Article 9.8. Compliance with Award

1. The arbitration panel award is final and binding from the date of its notification to the disputing parties.

2. The arbitration panel shall make its award based on the provision of this Agreement, applied and interpreted in accordance with the rules of interpretation of public international law. The award cannot add to or diminish the rights and obligations provided in this Agreement.

3. The arbitration panel's decision on the length of time required to implement the award will be final. The award must be complied with within this time. Where no time is prescribed for implementing the award, the award must be complied with within ninety (90) days of the date of the notification of the award.

4. The disputing Parties may agree on a different period of time for the award to be complied with. In the absence of such agreement, where an award has not been complied with, either of the disputing Parties may request the arbitration panel to prescribe another period of time within which the award must be complied with.

5. Before the expiry of the deadline for implementation determined under paragraph 3 of this Article, the responding Party will notify the complaining Party and the Joint Committee of the action it has taken in order to comply with the arbitration award.

6. Where there is disagreement between the disputing Parties as to the conformity with the award of the action taken by the responding Party as notified in paragraph 5 of this Article with the award, the matter will be referred to the original arbitration panel.

Article 9.9. Non-compliance, Compensation and Suspension of Benefits

1. If the responding Party does not notify any action in order to comply with the arbitration panel award before the expiry of the implementation deadline as required under paragraph 3 of Article 9.8, or otherwise fails to comply with the award in accordance with this Agreement, it shall, if so requested by the complaining party, and no later than after the expiry of a reasonable period of time, enter into negotiations with the complaining Party to develop mutually acceptable compensation.

2. If no agreement is reached between the disputing Parties within twenty (20) days after the expiry of the reasonable period of time, the complaining party may refer the matter to the original arbitration panel to determine whether the responding Party has failed to comply with the arbitration panel award and, if so, to determine the appropriate level of any suspension of the application to the responding Party of benefits or other obligations under this Agreement.

3. The suspension of benefits may commence thirty (30) days following the end of the period awarded under paragraph 3 of Article 9.8 or after an arbitration panel has found that the measure taken to comply is not in conformity with the Agreement. The complaining party shall notify the responding Party of the benefits it intends to suspend fifteen (15) days before the date on which the suspension is due to enter into force.

4. The complaining Party will first seek to suspend benefits or other equivalent obligations in the same sector or sectors affected. If the complaining party considers that it is not practical or effective to suspend benefits or obligations in the same sector or sectors affected, it may suspend them in other sectors under this Agreement, indicating the reasons to justify its decision.

5. The responding Party may request the original arbitration panel to rule on whether the level of suspension of benefits

notified by the complaining party is equivalent to the nullification and impairment suffered as a result of the breach and/or whether the proposed suspension is in accordance with paragraph 2 of this Article. The original arbitration panel will issue its ruling within thirty (30) days from the arbitration panel's re-establishment. If a member of the original arbitration panel is unavailable, the procedures laid down under Article 9.5 will apply for the selection of a replacement arbitrator. The period for issuing the arbitration ruling in this instance remains thirty (30) days from the date of the re-establishment of the arbitration panel.

6. Where the original arbitration panel is requested to rule on the conformity with the Agreement of an implementing measure adopted after the suspension of benefits under paragraph 4 of this Article, the procedures and deadlines established under Annex 10 shall apply.

7. The suspension of benefits will be a temporary measure and is not intended to replace the agreed objective of full compliance. Benefits will only be suspended until the measure found to be in breach of the Agreement has been withdrawn or amended so as to bring it into conformity with the Agreement, or when the disputing parties have reached an agreement on the resolution of the dispute. The responding Party shall notify the complaining party and the Joint Committee of the measures it has taken to comply.

8. Where the disputing Parties disagree on the conformity with this Agreement of any implementing measure adopted after the suspension of benefits, the responding party may request the original arbitration panel to rule on this issue. If the arbitration panel rules that the implementing measure is not in conformity with this Agreement, the arbitration panel will determine whether the complaining Party may resume the suspension of benefits at the same or a different level.

Article 9.10. Temporary Remedies for Non-compliance

1. If, prior to the deadline for implementation determined under Paragraph 2 of Article 9.9, the responding Party considers that it will require further time to comply with the arbitration panel ruling, it will inform the complaining Party of the extra period of time it requires, whilst presenting an offer of market-opening compensation for this additional period of time until it comes into compliance with the ruling.

2. If there is no agreement to the responding Party's request for an extension to the time required for implementation, or on market-opening compensation, the complaining Party may suspend benefits under this Agreement. Article 9.9 shall apply in this case *mutatis mutandis*.

Article 9.11. Rules of Procedure

1. The Rules of Procedure set out at Annex 10 shall apply to the procedures established in this Chapter. These Rules and any timeframes specified in this Chapter may be amended by the Joint Committee

2. The disputing Parties may agree to vary these Rules to facilitate the resolution of their dispute.
