Chapter I. General Provisions

Article 1. Scope of the Interim Agreement

This Interim Agreement establishes a framework for an Economic Partnership Agreement (EPA).

Article 2. General EPa Objectives

The objectives of the Economic Partnership Agreement are:

- (a) contributing to the reduction and eventual eradication of poverty through the establishment of a strengthened and strategic trade and development partnership consistent with the objective of sustainable development, the Millennium Development Goals and the Cotonou Agreement;
- (b) promoting regional integration, economic cooperation and good governance in the ESA region;
- (c) promoting the gradual integration of the ESA region into the world economy, in conformity with its political choices and development priorities;
- (d) fostering the structural adjustment of the ESA economies and diversification including value addition;
- (e) improving the ESA region's capacity in trade policy and trade related issues;
- (f) establishing and implementing an effective, predictable and transparent regional regulatory framework for trade and investment in the ESA region, thus supporting the conditions for increasing investment and private sector initiative and enhancing supply capacity, competitiveness and economic growth; and
- (g) strengthening the existing relations between the Parties on the basis of solidarity and mutual interest. To this end, consistent with WTO obligations, the Agreement shall enhance commercial and economic relations, support a new trading dynamic between the Parties by means of the progressive, asymmetrical liberalisation of trade between them and reinforce, broaden and deepen cooperation in all areas relevant to trade and investment.

Article 3. Specific Objectives of this Agreement

1. Consistent with Articles 34 and 35 of the Cotonou Agreement, the objectives of this Agreement are:

- (a) to establish an agreement consistent with Article XXIV of General Agreement on Tariffs and Trade 1994 (GATT 1994);
- (b) to establish the framework, scope and principles for further negotiations on trade in goods including rules of origin, trade defence instruments, customs cooperation and trade facilitation, sanitary and phytosanitary measures, technical barriers to trade, and agriculture, on the basis of the proposals already submitted; and
- (c) to establish a framework for and scope of potential negotiation in relation to other issues including trade in services, trade related issues as identified in the Cotonou Agreement and any other areas of interest to both Parties.

2. The Parties undertake to complete negotiations with a view to concluding a comprehensive EPA, no later than 31 December 2008, including on subject matters listed in points (b) and (c) of paragraph 1 according to the Agreed Joint Road Map adopted by the Parties on 7 February 2004.

Article 4. Principles

The principles of this Agreement on the basis of which further negotiations between the Parties shall be held with a view to reaching a comprehensive EPA are the following:

- (a) building on the acquis of the Cotonou Agreement;
- (b) strengthening regional integration in the ESA region;
- (c) asymmetry in the liberalisation of trade and in the application of trade related measures and trade defence instruments;
- (d) special and differential treatment for the ESA LDCs and taking into account the vulnerability of small landlocked and island countries, including in the level and pace of trade liberalisation;
- (e) variable geometry to allow an ESA State in a position to do so to undertake liberalisation within an earlier timeframe and schedule;
- (f) inclusiveness of application of development cooperation provisions such that ESA LDCs not in a position to conclude a tariff offer should be able to benefit from all aspects of this Agreement in particular economic and development cooperation in this Interim Agreement;
- (g) allowing ESA LDCs that have not yet submitted tariff reduction offers to do so after signature of this Interim Agreement on the same or flexible conditions and to benefit fully from its provisions;
- (h) allowing ESA States to maintain regional preferences among themselves and with other African countries and regions without the obligation to extend them to the EC.

Chapter II. Trade Regime for Goods

3. Any new schedule of tariff liberalisation for customs duties on imports of products originating in the EC Party submitted after the ratification process of this Agreement has commenced may be annexed to this Agreement in Annex II by decision of the EPA Committee.

Article 13. Rules of Origin

2. With respect to the subject matter covered by this Chapter, the Signatory ESA States shall accord to the EC Party any more favourable treatment applicable as a result of the Signatory ESA States becoming party to a free trade agreement with any major trading economy after the signature of this Agreement.

3. The provisions of this Chapter shall not be so construed as to oblige the Parties to extend reciprocally any preferential treatment applicable as a result of one of them being party to a free trade agreement with third parties on the date of signature of this Agreement.

4. The provisions of paragraph 2 shall not apply in respect of trade agreements between Signatory ESA States with other African countries and regions.

5. For the purposes of this Article, "free trade agreement" means an agreement substantially liberalising trade and providing for the absence or elimination of substantially all discrimination between or among parties thereto through the elimination of existing discriminatory measures and/or the prohibition of new or more discriminatory measures, either at the entry into force of that agreement or on the basis of a reasonable time frame. 6. 2. Imported products originating in the other Party shall be accorded treatment no less favourable than that accorded to like national products in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution or use. The provisions of this paragraph shall not prevent the application of differential internal transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.

3. No Party shall establish or maintain any internal quantitative regulation relating to the mixture, processing or use of products in specified amounts or proportions which requires, directly or indirectly, that any specified amount or proportion of any product which is the subject of the regulation must be supplied from domestic sources. 5. The provisions of this Article shall not apply to laws, regulations, procedures or practices governing public procurement.

6. The EPA Committee may decide to authorise a Signatory ESA State to depart from the provisions of this Article to promote the establishment of domestic production and protect infant industry. In this respect the development needs of Signatory ESA States and, in particular, the special needs and concerns of ESA LDCs will be taken into account. 7. A list of provisional derogations is attached as Annex III. Such derogations are granted to the interested Signatory ESA States for the periods of time which are set out in the same Annex.

Title IV. Trade Defence Measures

1. Subject to the provisions of this Article, nothing in this Agreement shall prevent the EC Party or Signatory ESA States, whether individually or collectively, from adopting anti-dumping or countervailing measures in accordance with the relevant WTO agreements. For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties.

2. Before imposing definitive anti-dumping or countervailing duties in respect of products imported from ESA States, the EC Party shall consider the possibility of constructive remedies as provided for in the relevant WTO agreements.

3. Where anti-dumping or countervailing measures have been imposed on behalf of two or more Signatory ESA States by a regional authority, there shall be one single forum of judicial review, including at the stage of appeals.

4. Where anti-dumping or countervailing measures can be imposed on a regional or sub-regional basis and on a national basis the Parties shall ensure that such measures are not applied simultaneously in respect of the same product by regional or sub-regional authorities on the one hand, and national authorities on the other.

5. The EC Party shall notify the exporting Signatory ESA States of the receipt of a properly documented complaint before initiating any investigation.

6. The provisions of this Article shall be applicable in all investigations initiated after this Agreement enters into force.

7. The provisions of this Article shall not be subject to the Dispute Settlement provisions of this Agreement.

For the purpose of this Article, origin shall be determined in accordance with the non-preferential rules of origin of the Parties.

2. Notwithstanding paragraph 1, the EC Party shall, in the light of the overall development objectives of this Agreement and the small size of the economies of the ESA States, exclude imports from any ESA State from any measures taken pursuant to Article XIX of GATT 1994, the WTO Agreement on Safeguards and Article 5 of the WTO Agreement on Agriculture.

3. The provisions of paragraph 2 shall apply for a period of five years, beginning with the date of entry into force of this

Agreement. Not later than 120 days before the end of this period, the EPA Committee shall review the operation of those provisions in the light of the development needs of the ESA States, with a view to determining whether to extend their application for a further period.

4. The provisions of paragraph 1 shall not be subject to the Dispute Settlement provisions of this Agreement.

Article 21. Bilateral Safeguards

1. After having examined alternative solutions, a Party may apply safeguard measures of limited duration which derogate from the provisions of Articles 11, 12 and 17, under the conditions and in accordance with the procedures laid down in this Article.

2. Safeguard measures referred to in paragraph 1 may be taken where a product originating in one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:

(a) serious injury to the domestic industry producing like or directly competitive products in the territory of the importing Party, or;

(b) disturbances in a sector of the economy, particularly where these disturbances produce major social problems, or difficulties which could bring about serious deterioration in the economic situation of the importing Party, or;

(c) disturbances in the markets of agricultural like or directly competitive products (2) or mechanisms regulating those markets.

3. Safeguard measures referred to in this Article shall not exceed what is necessary to remedy or prevent the serious injury or disturbances, as defined in paragraph 2 and 5(b). Those safeguard measures of the importing Party may only consist of one or more of the following:

(a) suspension of the further reduction of the rate of import duty for the product concerned, as provided for under this Agreement;

(b) increase in the customs duty on the product concerned up to a level which does not exceed the customs duty applied to other WTO Members, and

(c) introduction of tariff quotas on the product concerned.

4. Without prejudice to paragraphs 1, 2 and 3, where any product originating in one or more Signatory ESA States or subgroups is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under paragraph 2 to one or several of the EC Party's outermost regions, the EC Party may take surveillance or safeguard measures limited to the region or regions concerned in accordance with the procedures laid down in paragraphs 6 to 9.

5. (a) Without prejudice to paragraphs 1, 2 and 3, where any product originating in the EC Party is being imported in such increased quantities and under such conditions as to cause or threaten to cause one of the situations referred to under paragraph 2 to a Signatory ESA State, the Signatory ESA State concerned may take surveillance or safeguard measures limited to its territory in accordance with the procedures laid down in paragraphs 6 to 9.

(b) A Signatory ESA State may take safeguard measures where a product originating in the EC Party as a result of the reduction of duties is being imported into its territory in such increased quantities and under such conditions as to cause or threaten to cause disturbances to an infant industry producing like or directly competitive products. Such provision is only applicable for a period of 10 years for non-LDCs and 15 years for LDCs from the date of entry into force of this Agreement. Measures must be taken in accordance with the procedures laid down in paragraphs 6 to 9.

6. (a) Safeguard measures referred to in this Article shall only be maintained for such a time as may be necessary to prevent or remedy serious injury or disturbances as defined in paragraphs 2, 4 and 5.

(b) Safeguard measures referred to in this Article shall not be applied for a period exceeding two years. Where the circumstances warranting imposition of safeguard measures continue to exist, such measures may be extended for a further period of no more than two years. Where the Signatory ESA States or a Signatory ESA State apply a safeguard measure, or where the EC Party applies a measure limited to the territory of one or more of its outermost regions, such measure may however be applied for a period not exceeding four years and, where the circumstances warranting imposition of safeguard measures continue to exist, extended for a further period of four years.

(c) Safeguard measures referred to in this Article that exceed one year shall contain clear elements progressively leading to

their elimination at the end of the set period, at the latest. (d) No safeguard measure referred to in this Article shall be applied to the imports of a product that has previously been subject to such a measure, for a period of at least one year since the expiry of the measure.

7. For the implementation of the above paragraphs, the following provisions shall apply:

(a) where a Party takes the view that one of the circumstances set out in paragraphs 2, 4 and 5 exists, it shall immediately refer the matter to the EPA Committee for examination;

(b) the EPA Committee may make any recommendation needed to remedy the circumstances which have arisen. If no recommendation has been made by the EPA Committee aimed at remedying the circumstances, or no other satisfactory solution has been reached within 30 days of the matter being referred to the EPA Committee, the importing Party may adopt the appropriate measures to remedy the circumstances in accordance with this Article;

(c) before taking any measure provided for in this Article or, in the cases to which paragraph 8 of this Article applies, as soon as possible, the EC Party or the Signatory ESA State concerned shall supply the EPA Committee with all relevant information required for a thorough examination of the situation, with a view to seeking a solution acceptable to the Parties concerned;

(d) in the selection of safeguard measures pursuant to this Article, priority must be given to those which least disturb the operation of this Agreement;

(e) any safeguard measure taken pursuant to this Article shall be notified immediately to the EPA Committee and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

8. Where exceptional circumstances require immediate action, the importing Party concerned, whether the EC Party, the ESA States or a Signatory ESA State as the case may be, may take the measures provided for in paragraph 3, 4 and/or 5 on a provisional basis without complying with the requirements of paragraph 7. Such action may be taken for a maximum period of 180 days where measures are taken by the EC Party and 200 days where measures are taken by the ESA States or a Signatory ESA State, or where measures taken by the EC Party are limited to the territory of one or more of its outermost regions. The duration of any such provisional measure shall be counted as a part of the initial period and any extension referred to in paragraph 6. In the taking of such provisional measures, the interest of all Parties involved shall be taken into account. The importing Party concerned shall inform the other Party concerned and shall immediately refer the matter to the EPA Committee for examination.

9. If an importing Party subjects imports of a product to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows liable to give rise to the problems referred to in this Article, it shall inform the EPA Committee without delay.

10. The WTO Agreement shall not be invoked to preclude a Party from adopting safeguard measures in conformity with this Article.

(2) For the purpose of this Article agricultural products are those covered by Annex I of the WTO Agreement on Agriculture.

Title V. Administrative Provisions

Article 22. Special Provision on Administrative Cooperation

1. The Parties agree that administrative cooperation is essential for the implementation and control of the preferential treatment granted under this Chapter and underline their commitment to combat irregularities and fraud in customs and related matters.

2. Where a Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purpose of this Article, a failure to provide administrative cooperation shall mean, inter alia:

(a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;

(b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;

(c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

4. For the purpose of this Article a finding of irregularities or fraud may be made, inter alia, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party that is linked to objective information concerning irregularities or fraud.

5. The application of a temporary suspension shall be subject to the following conditions:

(a) the Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the EPA Committee of its finding together with the objective information and enter into consultations within the EPA Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.

(b) where the Parties have entered into consultations within the EPA Committee as above and have failed to agree on an acceptable solution within three months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the EPA Committee without undue delay.

(c) temporary suspensions under this Article shall be limited to that necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the EPA Committee. They shall be subject to periodic consultations within the EPA Committee in particular with a view to their termination as soon as the conditions for their application are no longer satisfied.

6. At the same time as the notification to the EPA Committee under paragraph 5(a) of this Article, the Party concerned should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

Article 23. Management of Administrative Errors

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the provisions of Protocol 1 concerning the definition of the concept of "originating products" and methods of administrative cooperation, where this error leads to consequences in terms of import duties, the Party facing such consequences may request the EPA Committee to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

Article 24. Custom Valuation

1. Article VII of GATT 1994 and the Agreement on the implementation of Article VII of GATT 1994 shall govern customs valuation rules applied to reciprocal trade between the Parties.

Furthermore, the EC Party shall contribute to the measures as described in the section concerning financial and trade measures, and on infrastructure development specific for fisheries and marine aquaculture.

(a) Fisheries Management and Conservation Issues

1. The precautionary approach shall be applied in determining levels of sustainable catch, fishing capacity and other management strategies to avoid or reverse undesirable outcomes such as over-capacity and over-fishing, as well as undesirable impacts on the ecosystems and artisanal fisheries.

2. Each ESA State may take appropriate measures, including seasonal and gear restrictions in order to further protect its territorial waters and ensure the sustainability of the artisanal and coastal fishery.

3. The Parties will promote the membership of all the concerned States to the Indian Ocean Tuna Commission (IOTC) and other relevant fisheries organisations. These countries, with the EC Party, should coordinate action to ensure the management and conservation of all fish species, including tuna and tuna-like resources and facilitate relevant scientific research.

4. Where there is insufficient scientific evidence for the competent national management authority to determine limits and target levels of sustainable catch in an ESA EEZ, both Parties in consultation with the competent national authority and together with IOTC and where relevant, other regional fisheries organisations, shall support such scientific analysis.

5. The Parties agree to take appropriate measures where an increase in effort results in catch levels above the target sustainable level established by the competent national authority.

6. In order to conserve and manage straddling stocks and highly migratory fish stocks, the EC Party and the ESA States shall ensure compliance by vessels flying their flags with relevant national, regional and sub-regional fisheries management measures and related national laws and regulations.

(b) Vessel Management and Post Harvest Arrangements

1. Vessel Management and post harvest arrangements emerging from IOTC and any other relevant regional fisheries organisations will be observed. ESA States and the EC Party shall set out minimum terms and conditions with respect to MCS of EC Party fishing vessels operating in the waters of ESA States, which should include the following:

(i) a Vessel Monitoring System (VMS) will be set up for all ESA States, and all ESA States will use a compatible VMS. Those ESA States which do not have a VMS will be assisted by the EC Party to set up a compatible VMS;

(ii) in addition to a compulsory compatible VMS system, all ESA States, in conjunction with the EC Party, will develop other mechanisms to ensure effective MCS and the EC Party will support ESA States to put such an agreed system in place and assist in implementation;

(iii) the Parties shall have the right to place observers, whether in national or international waters, with the procedures concerning the deployment of observers being well stipulated. Observers are to be paid by the national governments but all costs on board are to be met by the ship-owner. The EC Party will support the costs of training observers;

(iv) common systems of reporting of fishing will be developed and be used throughout the region, with minimum terms set for reporting;

(v) all vessels that land or tranship their catches within the ESA State shall do it in ports or outer-port areas. No transhipment shall be allowed at sea, except on particular conditions foreseen by the relevant Regional Fisheries Management Organisations (RFMO). Both Parties shall cooperate to modernise landing or transhipment infrastructure in ports of ESA States, including development capacity of fish products;

(vi) all vessels should endeavour to use the facilities of the ESA States and undertake to make use of local supplies;

(vii) discards reporting shall be compulsory. Priority should be given to avoid discards through the use of selective fishing methods in line with the principles of the IOTC and relevant regional fisheries organisations. As far as possible, by-catch shall be brought ashore.

2. The Parties agree to cooperate in developing and implementing national/regional training programmes for ESA nationals in order to facilitate their effective participation in the fishing industry. Where the EC Party has negotiated bilateral fisheries agreements, employment of ESA nationals shall be encouraged. The International Labour Organisation (ILO) Declaration on fundamental principles and rights at work shall apply as of right to seamen signed on Community vessels.

3. Both Parties shall undertake coordinated efforts to improve the means for preventing, deterring, and eliminating IUU fishing and to this end take appropriate measures. Fishing vessels involved in IUU fishing should be prosecuted and should not be allowed to fish again in ESA waters, unless prior authorisation has been obtained from both the flag State and the concerned ESA States as well as, where relevant, the concerned RFMO.

(c) Financial and Trade Measures and Development Issues

The Parties undertake to cooperate in promoting the setting up of joint ventures in fishing operations, fish processing and port services; to enhance production capacity; to improve competitiveness of fishing and related industries and services, to downstream processing, development and improvement of port facilities, and to diversify the fishery to include non-tuna species which are under-exploited or not exploited.
