The Party concluding such agreement shall afford adequate opportunity for consultations with the requesting Party.
3. If any international agreement, referred to in this Agreement is amended, the Parties may consult on whether it is necessary to amend this Agreement.

2. Each Party shall respond to a request with respect to specific questions, and provide information requested by another Party on matters referred to in paragraph 1 in a timely manner.
3. Nothing in this Agreement shall require any Party to disclose confidential information that would impede law enforcement, or otherwise be contrary to the public interest or that would prejudice the legitimate commercial interests of any economic operator.
4. Each Party shall treat as confidential the information submitted by another Party, which has been designated as confidential by the Party submitting the information.
5. In case of any inconsistency between this Article and provisions relating to transparency in other parts of this Agreement, the latter shall prevail to the extent of the inconsistency.

Article 2.6. Import Licensing

1. The WTO Agreement on Import Licensing Procedures shall apply and is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.
2. In adopting or maintaining import licensing procedures, the Parties shall implement such procedures consistent with this Agreement. 3. Subject to the domestic laws and regulations of the importing Party, if the license application is not approved, the applicant shall without undue delay be given the reason in writing and shall have a right to appeal in at least one level of administrative or judicial appeal, and be given a written justification without undue delay if the non- approval is upheld following such appeal.
4. Upon entry into force of this Agreement, each Party shall promptly notify the other Parties of existing import licensing procedures. 6. The Parties shall exchange contact points responsible for the issuance of import licenses in order to facilitate communication and exchange of information on a regular basis.

exportation of a product to another Party, except for measures in accordance with paragraph 2 of Article XI of the GATT 1994.

3. A Party introducing a measure in accordance with paragraph 2 of Article XI of the GATT 1994 shall promptly notify the Joint Committee. A notification by a Party in accordance with Article XI of the GATT 1994 shall be deemed equivalent to a notification under this Agreement.

4. Any measure applied in accordance with this Article shall be temporary and may not go beyond what is necessary to deal with the circumstances described in paragraph 2. The Parties shall endeavour to terminate measures no later than three years after their imposition.

5. Each Party shall ensure non-discriminatory administration and transparency of its measures in accordance with paragraph 2 of Article XI of the GATT 1994 and that such measures are not prepared, adopted or applied with the view to or with the effect of creating unnecessary obstacles to trade between the Parties.

2. The Parties shall exchange names and addresses of contact points with expertise on technical regulations in order to facilitate communication and exchange of information.

3. The Parties agree to hold technical consultations if a Party considers that another Party has applied or is considering applying a measure not in conformity with the TBT Agreement, in order to find an appropriate solution in conformity with the TBT Agreement. Such consultations, which may be held within or outside the framework of the Joint Committee, shall take place within 40 days from the date of receipt of the request. If consultations are held outside the framework of the Joint Committee, it should be informed thereof. Such consultations may be conducted by any agreed method.

4. Upon request of a Party, the Parties shall, without undue delay, agree on an arrangement extending to each other equivalent treatment related to technical regulations, standards and conformity assessments mutually agreed between each Party and a non-party.

5. The Parties may amend this Agreement or conclude other agreements to prevent, eliminate, or reduce technical barriers to trade, including mutual recognition agreements designed to avoid duplicative and unnecessarily burdensome conformity assessment procedures in specific product sectors.

Article 2. Sanitary and Phytosanitary Measures

1. Except as otherwise provided for in this Article, the WTO Agreement on the Application of Sanitary and Phytosanitary Measures (hereinafter referred to as the "SPS Agreement") shall apply and is hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

2. An importing Party shall ensure free movement of goods complying with its relevant sanitary and phytosanitary requirements and applicable domestic laws and regulations once placed on its market. Sanitary and phytosanitary requirements and domestic laws and regulations shall be applied in a non-discriminatory manner.

3. The Parties agree to use system audits as the preferred assessment method. The need to perform on-site inspections shall be justified and agreed by the Parties.
4. The Parties agree to minimise the number of model SPS-certificates as far as possible. Where official certificates are required, these should be in line with the principles laid down in international standards. When a Party introduces or modifies a certificate, information on the proposed new or revised certificate shall be notified, in English, as early as possible. The Parties shall explain and justify introduction or modification of a certificate. The exporting Party shall be given sufficient time to adapt to the new requirements.
5. Import control should be carried out according to international standards, guidelines and recommendations issued by the relevant international organisations, such as Codex Alimentarius Commission (CAC), including Codex Committee on Food Import and Export Inspection and Certification Systems (CCFICS), International Plant Protection Convention (IPPC) and the World Organisation for Animal Health (OIE).
6. The import requirements and checks applied to imported products covered by this Article shall be based on the risk that is associated with such products and shall be applied in a non-discriminatory manner. Import checks and border controls shall be carried out as expeditiously as possible in a manner that is no more trade-restrictive than necessary.
7. Information about the frequency of import checks or changes in this frequency shall be exchanged upon request between competent authorities.
8. Each Party shall ensure that adequate procedures exist to allow the person or entity responsible for the consignment whose goods are subject to sampling and analysis to apply for a supplementary expert opinion as part of the official sampling.
9. Products subject to random and routine checks upon importation should be cleared while awaiting results of the tests if no perceived or verified risk is associated with the products.
10. If a product is detained at the border due to a perceived risk, the clearance decision shall be issued as soon as possible. Every effort shall be made to avoid deterioration of perishable goods. (2)
11. If a product is rejected at a port of entry due to a verified serious sanitary or phytosanitary issue, the competent authority in the exporting Party shall be informed immediately. The factual basis and scientific justification shall, upon request, be provided to the exporting Party in writing, as soon as possible, but no later than within 14 days.
12. Where a Party detains, at a port of entry, a product exported from another Party due to a perceived failure to comply with a sanitary or phytosanitary measure, the factual justification for the detention shall be promptly notified to the person or entity responsible for the consignment. If a product is rejected at a port of entry, each Party shall ensure that appropriate administrative or legal procedures exist to file a complaint to appeal the decision in accordance with their domestic laws and regulations.
13. Consultations shall be held upon request of a Party which considers that another Party has taken a measure which is likely to create, or has created, an obstacle to trade. Such consultations shall take place within 30 days from the date of receipt of the request with the objective of finding a mutually acceptable solution. If consultations are not taking place in the Joint Committee, it should be informed thereof. In case of perishable goods, consultations between the competent authorities shall be held without undue delay. Such consultations may be conducted by any agreed method.
14. Upon request by a Party, the Parties shall, without undue delay, agree on an arrangement extending to each other equivalent (3) treatment related to sanitary and phytosanitary measures mutually agreed between each Party and a non-party.
15. The Parties shall exchange names and addresses of contact points in order to facilitate communication and exchange of information. They shall notify any substantial change in structure, organisation and division of responsibilities of the competent authorities and contact points to each other.

(2) For the purposes of this Article, "perishable goods" means goods that rapidly decay due to their natural characteristics, in particular in the absence of appropriate storage conditions.

(3) "Equivalent" used here shall not be understood as the term "equivalence" in the WTO SPS Agreement.

Article 2.13. Trade Facilitation

The rights and obligations of the Parties regarding Trade Facilitation are set out in Annex VI (Trade Facilitation).

Article 2.14. Subsidies and Countervailing Measures

1. The rights and obligations of the Parties relating to subsidies and countervailing measures shall be governed by Articles VI and XVI of the GATT 1994 and the WTO Agreement on Subsidies and Countervailing Measures.
2. Upon receipt of a properly documented countervailing duty application with respect to imports from another Party, and before initiating an investigation, the Party considering initiating an investigation shall provide written notification to the Party whose goods are subject to investigation at least 30 days in advance of the date of initiation and invite the Party whose goods are subject to investigation for consultations, with the view to finding a mutually acceptable solution. The notifying Party shall allow for a 30-day period for consultations. The consultations may take place in the Joint Committee if the Parties agree and should not prevent the competent authorities of a Party from proceeding expeditiously with regard to initiating the investigation.

Article 2.15. Anti-dumping Measures

1. The rights and obligations of the Parties with regard to anti-dumping measures shall be governed by Article VI of the GATT 1994 and the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994, subject to paragraphs 2 to 5.
2. Subject to paragraph 1 and considering the comprehensive economic partnership established by this Agreement, the Parties will consider to refrain from initiating anti-dumping procedures or applying anti-dumping measures against each other.
3. Upon receipt of a properly documented application for the initiation of an anti-dumping investigation concerning imports from another Party, the Party considering initiating an investigation shall provide written notification to the Party whose goods are subject to investigation of the application 30 days in advance of the date of initiation of such investigation. Under very exceptional circumstances, the aforementioned notice of 30 days may be reduced to a minimum of seven days. Upon request of the Party whose goods are subject to investigation, the notifying Party shall allow for a 30-day period for consultations. The consultations may take place in the Joint Committee if the Parties agree. These consultations should not prevent the competent authorities of a Party from proceeding expeditiously with regard to initiating the investigation.
4. Unless the circumstances have changed, a Party shall not initiate an anti-dumping investigation with regard to the same product from the same Party after a determination which resulted in the non-application or revocation of anti-dumping measures or after the termination of a measure. In such case, the Parties agree to undertake a special examination on any application for an anti-dumping investigation.
5. The Parties shall, upon request of a Party, exchange views about the application of this Article and its effect on trade between the Parties at the meetings of the Joint Committee.

Article 2.16. WTO Safeguard Measures

1. The rights and obligations of the Parties with respect to global safeguards shall be governed by Article XIX of the GATT 1994, the WTO Agreement on Safeguards, and Article V of the WTO Agreement on Agriculture.
2. In taking measures under Article XIX of the GATT 1994 and the WTO Agreement on Safeguards, a Party will, consistent with its obligations under the WTO Agreement, consider to exclude imports of an originating product from one or several Parties if such imports do not in and of themselves cause or threaten to cause serious injury.

Article 2.17. Bilateral Safeguard Measures

1. Where, as a result of the reduction or elimination of a customs duty under this Agreement, any product originating in a Party is being imported into the territory of another Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to constitute a substantial cause of serious injury or threat thereof to the domestic industry of like or directly competitive goods in the territory of the importing Party, the importing Party may take bilateral safeguard measures to the minimum extent necessary to remedy or prevent the injury, subject to the provisions of paragraphs 2 to 11.
2. If the conditions set out in paragraph 1 are met, the importing Party may take measures consisting in:

(a) suspending the further reduction of any rate of customs duty for the product provided for under this Agreement; or

(b) increasing the rate of customs duty for the product to a level not to exceed the lesser of:

(i) the MFN rate of duty applied at the time the bilateral safeguard measure is taken; or

(ii) the MFN rate of duty applied on the day immediately preceding the date of the entry into force of this Agreement.

3. Bilateral safeguard measures shall be taken for a period not exceeding one year. In exceptional circumstances, after consultations pursuant to paragraph 7, measures may be taken up to a total maximum period of three years. After a period of non-application of three years and in an emergency situation only, a Party may apply another bilateral safeguard measure in accordance with this Article.

4. Bilateral safeguard measures shall only be taken upon clear evidence that increased imports have caused or are threatening to cause serious injury pursuant to an investigation in accordance with the procedures laid down in the WTO Agreement on Safeguards.

5. A Party intending to take a bilateral safeguard measure under this Article shall immediately, and in any case before taking such measure, notify the other Parties. The notification shall contain all pertinent information, which shall include evidence of serious injury or threat thereof caused by increased imports, a precise description of the product involved, and the proposed measure, as well as the proposed date of introduction, expected duration and timetable for the progressive removal of the measure.

6. A Party that may be affected by a bilateral safeguard measure may request any adequate means of trade compensation in the form of substantially equivalent trade liberalisation in relation to its imports.

7. The Party intending to apply or extend a bilateral safeguard measure shall provide adequate opportunity for prior consultations with the Party that may be affected by the measure, with a view to reviewing the information arising from the investigation referred to in paragraph 4, exchanging views on the intended application or extension of a bilateral safeguard measure and reaching an understanding on compensation. The consultations shall take place in the Joint Committee if the Parties agree.

8. In the absence of a mutually acceptable solution within 30 days from the first day of consultations pursuant to paragraph 7, the importing Party may adopt a bilateral safeguard measure pursuant to paragraph 2 to remedy the problem, and, in the absence of mutually agreed compensation, the Party against whose product the bilateral safeguard measure is taken may take compensatory action. The bilateral safeguard measure and the compensatory action shall be immediately notified to the other Parties. In the selection of the bilateral safeguard measure and the compensatory action, priority must be given to the action which least disturbs the functioning of this Agreement. The Party taking compensatory action shall apply the action only for the minimum period necessary to achieve the substantially equivalent trade effects and in any event, only while the measure according to paragraph 2 is being applied.

9. Upon the termination of the measure, the rate of customs duty shall be the rate which would have been in effect but for the bilateral safeguard measure.

10. In critical circumstances, where delay would cause damage, which would be difficult to repair, a Party may take a provisional bilateral safeguard measure in accordance with paragraph 2, pursuant to a preliminary determination that there is clear evidence that increased imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry. The Party intending to take such measure shall immediately notify the other Parties. Within 30 days from the date of receipt of the notification, the procedures set out in this Article shall be initiated. Any compensation shall be based on the total period of application of the provisional bilateral safeguard measure and of the bilateral safeguard measure.

11. Any provisional bilateral safeguard measure shall be terminated within 200 days at the latest. The period of application of any such provisional bilateral safeguard measure shall be counted as part of the duration, and any extension thereof, of the measure, set out in paragraphs 3 and 7 respectively. Any tariff increases shall be promptly refunded if the investigation described in paragraph 4 does not result in a finding that the conditions of paragraph 1 are met.

12. The Parties shall, upon request of a Party, exchange views about the application of this Article and its effect on trade between the Parties at the meetings of the Joint Committee.

Article 2.18. State Trading Enterprises

Article XVII of the GATT 1994 and the Understanding on the Interpretation of Article XVII of the General Agreement on Tariffs and Trade 1994 shall apply and are hereby incorporated into and made part of this Agreement, mutatis mutandis.

Article XX of the GATT 1994 shall apply and is hereby incorporated into and made part of this Agreement, mutatis mutandis.

Article 2.20. Security Exceptions

Article XXI of the GATT 1994 shall apply and is hereby incorporated into and made part of this Agreement, mutatis mutandis.

Article 2.21. Balance-of-Payments

1. Nothing in this Chapter shall be construed to prevent a Party in serious balance of payments and external financial difficulties, or imminent threat thereof, from adopting any measure for balance-of-payments purposes. A Party adopting such measure shall do so in accordance with the conditions established under the GATT 1994 and the Understanding on the Balance-of-Payments Provisions of the General Agreement on Tariffs and Trade 1994 in Annex 1A to the WTO Agreement.
2. Trade restrictive measures adopted for balance-of-payments purposes shall be temporary and non-discriminatory, and may not go beyond what is necessary to deal with the circumstances described in paragraph 1.
3. Nothing in this Chapter shall be construed to prevent a Party from using exchange controls or exchange restrictions in accordance with the Articles of Agreement of the International Monetary Fund (hereinafter referred to as the "IMF").
4. A Party adopting a measure according to paragraph 1 shall promptly notify the other Parties thereof. A notification by a Party in accordance with its international obligations as set out in paragraph 1 shall be deemed equivalent to a notification under this Agreement.

Article 2.22. Exchange of Data

1. The Parties recognise the value of trade data in the accurate analysis of the impact of the Agreement on trade between the Parties. The Parties shall periodically exchange data relating to trade in goods between them. Such information shall include, in particular, the most-favoured-nation tariff rates and import statistics, including, if available from all Parties, separate statistics for preferential imports. The Sub-Committee on Trade in Goods shall determine the rules of procedure, as appropriate, for any exchange of data according to this paragraph.
2. A Party shall give consideration to a request for technical cooperation with regard to exchange of data under paragraph 1 from another Party.

Article 2.23. Sub-Committee on Trade In Goods

1. A Sub-Committee on Trade in Goods (hereinafter referred to as "Sub-Committee") is hereby established.
2. The mandate of the Sub-Committee is set out in Annex VII (Mandate of the Sub-Committee on Trade in Goods).

2. With respect to air transport services, whether scheduled or non-scheduled, and ancillary services, this Chapter shall not apply to measures affecting air traffic rights or measures affecting services directly related to the exercise of air traffic rights, except as provided for in paragraph 3 of the GATS Annex on Air Transport Services. For the purposes of this Chapter, the definitions of paragraph 6 of the GATS Annex on Air Transport Services are hereby incorporated and made part of this Agreement.

Where the service is not supplied or sought to be supplied directly by a juridical person but through other forms of commercial presence such as a branch or a representative office, the service supplier (i.e. the juridical person) shall, nonetheless, through such commercial presence be accorded the treatment provided for service suppliers under this Chapter. Such treatment shall be extended to the commercial presence through which the service is supplied or sought to be supplied and need not be extended to any other parts of the service supplier located outside the territory where the service is supplied or sought to be supplied.

Article 3.3. Most-Favoured-Nation Treatment

1. Without prejudice to measures taken in accordance with Article VII of the GATS, and except as provided for in its List of MFN-Exemptions contained in Annex VII. (Lists of MFN-Exemptions), each Party shall accord immediately and unconditionally, with respect to all measures affecting the supply of services, to services and service suppliers of another Party treatment no less favourable than the treatment it accords to like services and service suppliers of any non-party.

2. Treatment granted under other existing or future agreements concluded by a Party and notified under Article V or Article Vbis of the GATS shall not be subject to paragraph 1.

3. If a Party concludes an agreement of the type referred to in paragraph 2, it shall notify the other Parties without delay. The Party concluding such an agreement shall, upon request by another Party, afford adequate opportunity to negotiate the incorporation into this Agreement of a treatment no less favourable than that provided under that agreement.

4. For the purposes of this Chapter, with regard to the rights and obligations of the Parties in respect of advantages accorded to adjacent countries, paragraph 3 of Article I of the GATS shall apply and is hereby incorporated into and made part of this Agreement.

Article 3.4. Market Access

1. With respect to market access through the modes of supply identified in subparagraph (r) of Article 3.2 (Definitions), each Party shall accord services and service suppliers of another Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule of Specific Commitments. (5)

2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule, are defined as:

(a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service

suppliers or the requirements of an economic needs test;

(b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

(c) limitations on the total number of service operations or the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test; (6)

(d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

(e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

(f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

(5) If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in Article 3.2 (Definitions) and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital.

(6) This subparagraph does not cover measures of a Party, which limit inputs for the supply of services.

Article 3.5. National Treatment

1. In the sectors inscribed in its Schedule of Specific Commitments, and subject to the conditions and qualifications set out therein, each Party shall accord to services and service suppliers of another Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers. (7)

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of another Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of a Party compared to like services or service suppliers of another Party.

(7) Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages, which result from the foreign character of the relevant services or service suppliers.

Article 3.6. Additional Commitments

Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Article 3.4 (Market Access) or 3.5 (National Treatment), including those regarding qualifications, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule.

Article 3.7. Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. (a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of another Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures

where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where a Party requires authorisation for the supply of a service, on which a specific commitment has been made, the competent authorities of that Party shall, within a reasonable period of time after the submission of an application is considered complete under that Party's domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of that Party shall provide, without undue delay, information concerning the status of the application.

4. In sectors where specific commitments are undertaken, each Party shall ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures, are based on objective and transparent criteria, such as competence and the ability to supply the service.

5. Upon conclusion of the multilateral negotiations on the disciplines on Domestic Regulation pursuant to Article VI:4 of the GATS, the Parties shall conduct a review for the purpose of discussing appropriate amendments to this Chapter based on the result of such multilateral negotiations.

6. (a) In sectors in which a Party has undertaken specific commitments, pending the entry into force of a decision incorporating WTO disciplines for these sectors pursuant to paragraph 5, that Party shall not apply qualification requirements and procedures, technical standards and licensing requirements and procedures that nullify or impair such specific commitments in a manner which is:

(i) more burdensome than necessary to ensure the quality of the service; or

(ii) in the case of licensing procedures, in itself a restriction on the supply of the service;

(b) In determining whether a Party is in conformity with the obligation under subparagraph (a), account shall be taken of international standards of relevant international organisations (8) applied by that Party.

7. Each Party shall provide for adequate procedures to verify the competence of professionals of another Party.

(8) The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of at least all Parties.

Article 3.8. Recognition

1. For the purposes of the fulfilment of its relevant standards or criteria for the authorisation, licensing or certification of service suppliers, each Party shall give due consideration to requests by another Party to recognise the education or experience obtained, requirements met, or licences or certifications granted in that Party. Such recognition may be based upon an agreement or arrangement with the requesting Party, or be accorded autonomously.

2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted, in the territory of a non-party, that Party shall afford another Party adequate opportunity to negotiate a comparable agreement or arrangement. Where a Party accords recognition autonomously, it shall afford adequate opportunity for another Party to demonstrate that the education or experience obtained, requirements met, or licences or certifications granted, in the territory of that Party should also be recognised.

3. Any such agreement or arrangement or autonomous recognition shall be in conformity with the relevant provisions of the WTO Agreement, in particular paragraph 3 of Article VI of the GATS.

Article 3.9. Movement of Natural Persons

1. This Article applies to measures affecting natural persons who are service suppliers of a Party, and natural persons of a Party who are employed by a service supplier of a Party, in respect of the supply of a service.

2. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of a Party, nor shall it apply to measures regarding nationality, residence or employment on a permanent basis.

3. Natural persons covered by a specific commitment shall be allowed to supply the service in accordance with the terms of that commitment.

4. This Chapter shall not prevent a Party from applying measures to regulate the entry of natural persons of another Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure

the orderly movement of natural persons across, its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific commitment. (9)

(9) The sole fact of requiring a visa for natural persons shall not be regarded as nullifying or impairing benefits under a specific commitment.

Article 3.10. Transparency

1. Each Party shall publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application which pertain to or affect the operation of this Chapter. International agreements pertaining to or affecting trade in services to which a Party is a signatory shall also be published.

2. Where publication as referred to in paragraph 1 is not practicable, such information shall be made otherwise publicly available.

3. Nothing in this Chapter shall require any Party to disclose confidential information, which would impede law enforcement, or otherwise be contrary to the public interest or that would prejudice legitimate commercial interests of particular enterprises, public or private.

4. Each Party shall treat as confidential the information submitted by another Party, which has been designated as confidential by the Party submitting the information.

Article 3.11. Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under Article 3.3 (Most-Favoured-Nation Treatment) and specific commitments.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, that Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:

(a) authorises or establishes a small number of service suppliers; and

(b) substantially prevents competition among those suppliers in its territory.

Article 3.12. Business Practices

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 3.11 (Monopolies and Exclusive Service Suppliers), may restrain competition and thereby restrict trade in services.

2. Each Party shall, at the request of another Party, enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The Party addressed shall also provide other information available to the requesting Party, subject to its domestic laws and regulations and to the conclusion of a satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 3.13. Payments and Transfers

1. Subject to its specific commitments and except under the circumstances referred to in Article 3.14 (Restrictions to Safeguard the Balance of Payments), no Party shall apply restrictions on international transfers and payments for current transactions with another Party.

2. Nothing in this Chapter shall affect the rights and obligations of the Parties under the Articles of Agreement of the IMF, including the use of exchange actions which are in conformity with the Articles of Agreement of the IMF, provided that a Party shall not impose restrictions on capital transactions inconsistent with its specific commitments regarding such transactions, except under Article 3.14 (Restrictions to Safeguard the Balance of Payments) or at the request of the IMF.

For the purposes of this Chapter, paragraphs 1 to 3 of Article XII of the GATS, shall apply and are hereby incorporated into and made part of this Agreement.

Article 3.15. Consultation on Implementation

If, after the entry into force of this Agreement, difficulties arise in a services sector of a Party where that Party has undertaken a specific commitment, that Party may request consultations with the other Parties, regardless whether such difficulties arise from liberalisation or not, for the purposes of exchanging information, data or experience, or exchanging views on possible ways and means to address such difficulties, taking into account the circumstances of the case at hand.

Article 3.16. General Exceptions

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between the Parties where like conditions prevail, or a disguised restriction on trade in services, nothing in this Chapter shall prevent a Party from the adoption or enforcement of measures:

- (a) necessary to protect public morals or to maintain public order (10);
- (b) necessary to protect human, animal or plant life or health;
- (c) necessary to secure compliance with domestic laws and regulations which are not inconsistent with the provisions of this Chapter including those relating to:

(10) The public order exception may be invoked only where a genuine and sufficiently serious threat is posed to one of the fundamental interests of society.

(11) Measures that are aimed at ensuring the equitable or effective imposition or collection of direct taxes include measures taken by a Party under its taxation system which: (i) apply to non-resident service suppliers in recognition of the fact that the tax obligation of non-residents is determined with respect to taxable items sourced or located in the Party's territory; or (ii) apply to non-residents in order to ensure the imposition or collection of taxes in the Party's territory; or (iii) apply to non-residents or residents in order to prevent the avoidance or evasion of taxes, including compliance measures; or (iv) apply to consumers of services supplied in or from the territory of another Party in order to ensure the imposition or collection of taxes on such consumers derived from sources in the Party's territory; or (v) distinguish service suppliers subject to tax on worldwide taxable items from other service suppliers, in recognition of the difference in the nature of the tax base between them; or (vi) determine, allocate or apportion income, profit, gain, loss, deduction or credit of resident persons or branches, or between related persons or branches of the same person, in order to safeguard the Party's tax base. If no such agreement has been reached within 20 days from the date of receipt of the request, the complaining Party shall be entitled to suspend the application of benefits granted under this Agreement but only equivalent to those affected by the measure or matter that the arbitration panel has found to be inconsistent with this Agreement.

2. In considering what benefits to suspend, the complaining Party should first seek to suspend benefits in the same sector or sectors as that affected by the measure or matter that the arbitration panel has found to be inconsistent with this Agreement. The complaining Party that considers it is not practicable or effective to suspend benefits in the same sector or sectors may suspend benefits in other sectors.

3. The complaining Party shall notify the Party complained against of the benefits which it intends to suspend, the grounds for such suspension and when suspension will commence, no later than 30 days before the date on which the suspension is due to take effect. Within 15 days from the date of receipt of that notification, the Party complained against may request the

The ruling of the arbitration panel shall be given within 45 days from the date of receipt of that request. Benefits shall not be suspended until the arbitration panel has issued its ruling.

4. Compensation and suspension of benefits shall be temporary measures and shall only be applied by the complaining Party until the measure or matter found to be inconsistent with this Agreement has been withdrawn or amended so as to bring it into conformity with this Agreement, or until the parties to the dispute have resolved the dispute otherwise.

5. At the request of a party to the dispute, the original arbitration panel shall rule on the conformity with the final report of any implementing measures adopted after the suspension of benefits and, in light of such ruling, whether the suspension of benefits should be terminated or modified.
