## **Annex. Expropriation**

The Contracting Parties confirm their shared understanding that;

1. An action or a series of actions by a Contracting Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.

2. Article 6 [Expropriation and Compensation] paragraph 1 addresses two situations, The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.

3. The second situation addressed by Article 6 [Expropriation and Compensation] paragraph 1 is indirect expropriation, where an action or series of actions by a Contracting Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.

(a) The determination of whether an action or series of actions by a Contracting Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:

(i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;

(ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and

(iii) the character of the government action.
