1. Except as provided in paragraph 5, each Party shall provide that the regional value content of a good shall be calculated, at the choice of the exporter or producer of the good, on the basis of either the transaction value method set out in paragraph 2 or, for an automotive good of subheading 8407.31 through 8407.34 or heading 87.01 through 87.08, the net cost method set out in paragraph 3.

2. Each Party shall provide that an exporter or producer may calculate the regional value content of a good on the basis of the following transaction value method:

$$RVC = \frac{TV - VNM}{TV} \times 100$$

where:

RVC is the regional value content, expressed as a percentage;

TV is the transaction value of the good, adjusted to an F.O.B. basis; and

VNM is the value of non-originating materials used by the producer in the production of the good, in accordance with paragraph 6 of this Article.

3. Each Party shall provide that an exporter or a producer may calculate the regional value content of an automotive good of subheading 8407.31 through 8407.34 or heading 87.01 through 87.08 on the basis of the following net cost method:

$$\text{RVC} = \frac{\text{NC} - \text{VNM}}{\text{NC}} \times 100$$

where:

RVC is the regional value content, expressed as a percentage;

NC is the net cost of the good; and

VNM is the value of non-originating materials used by the producer in the production of the good, in accordance with paragraph 6 of this Article.

4. The value of non-originating materials used by the producer in the production of a good shall not, for purposes of calculating the regional value content of the good under paragraph 2 or 3, include the value of non-originating materials used to produce originating materials that are subsequently used in the production of the good.¹

5. For purposes of calculating the net cost of a good under paragraph 3, the producer of the good may:

- (a) calculate the total cost incurred with respect to all goods produced by that producer, subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, as well as non-allowable interest costs that are included in the total cost of all such goods, and then reasonably allocate the resulting net cost of those goods to the good;
- (b) calculate the total cost incurred with respect to all goods produced by that producer, reasonably allocate the total cost to the good, and then subtract any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs and non-allowable interest costs that are included in the portion of the total cost allocated to the good; or
- (c) reasonably allocate each cost that forms part of the total cost incurred with respect to the good so that the aggregate of these costs does not include any sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, or non-allowable interest costs.²

6. Except as provided in paragraph 7, the value of a material used in the production of a good shall:

¹ Article IV.2.4 applies to intermediate materials, and VNM in paragraphs 2 and 3 does not include:

- (i) the value of any non-originating materials used by another producer to produce an originating material that is subsequently acquired and used in the production of the good by the producer of the good, and
- (ii) the value of non-originating materials used by the producer to produce an originating intermediate material.

With respect to paragraph 4, where an originating intermediate material is subsequently used by a producer with non-originating materials (whether or not produced by the producer) to produce the good, the value of such non-originating materials shall be included in the VNM of the good.

² With respect to paragraph 5, sales promotion, marketing and after-sales service costs, royalties, shipping and packing costs, and non-allowable interest costs included in the value of materials used in the production of the good are not subtracted out of the net cost in the calculation under Article IV.2.3.

- (a) be the transaction value of the material determined in accordance with Article 1 of the Customs Valuation Agreement;
- (b) in the event that there is no transaction value or the transaction value of the material is unacceptable under Article 1 of the Customs Valuation Agreement, be determined in accordance with Articles 2 through 7 of the Customs Valuation Agreement;
- (c) where not covered under subparagraph (a) or (b), include freight, insurance, packing and all other costs incurred in transporting the material to the place of importation; or
- (d) in the case of a domestic transaction, be determined in accordance with the principles of the Customs Valuation Agreement in the same manner as an international transaction, with such modifications as may be required by the circumstances.

7. The value of an intermediate material shall be:

- (a) the total cost incurred with respect to all goods produced by the producer of the good that can be reasonably allocated to that intermediate material; or
- (b) the sum of all costs that comprise the total cost incurred with respect to that intermediate material that can be reasonably allocated to that intermediate material.

8. The value of an indirect material shall be based on the Generally Accepted Accounting Principles applicable in the territory of the Party in which the good is produced.

Article IV.3 Accumulation

For purposes of determining whether a good is an originating good, the production of the good in the territory of one or both of the Parties by one or more producers shall, at the choice of the exporter or producer of the good for which preferential tariff treatment is claimed, be considered to have been performed in the territory of either of the Parties by that exporter or producer, provided that:

- (a) all non-originating materials used in the production of the good undergo an applicable tariff classification change set forth in Annex IV.1 (Specific Rules of Origin), and the good satisfies any applicable regional value content requirement, entirely in the territory of one or both of the Parties; and
- (b) the good satisfies all other applicable requirements of this Chapter.

Article IV.4 De Minimis

1. Except as provided in paragraphs 2 and 3, a good shall be considered to be an originating good if the value of all non-originating materials used in the production of the good that do not undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin) is not more than 10 per cent of the transaction value of the good, adjusted to an F.O.B. basis, provided that:

- (a) if the good is subject to a regional value-content requirement, the value of such non-originating materials shall be taken into account in calculating the regional value content of the good; and
- (b) the good satisfies all other applicable requirements of this Chapter.

2. Except as specified in a product-specific rule of origin of Annex IV.1 (Specific Rules of Origin) applicable to a good, paragraph 1 does not apply to a non-originating material used in the production of a good of Chapter 1 through 24 of the Harmonized System unless the non-originating material is provided for in a different subheading from the good for which origin is being determined under this Article.

3. A good of Chapter 50 through 63 of the Harmonized System that is not originating because certain fibres or yarns used in the production of the component of the good that determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin), shall nonetheless be considered as originating if the total weight of all such fibres or yarns in that component is not more than 10 per cent of the total weight of that component.³

Article IV.5 Fungible Goods and Materials

For purposes of determining whether a good is an originating good:

- (a) where originating and non-originating fungible materials are used in the production of a good, the determination of whether the materials are originating need not be made through the identification of any specific fungible material, but may be determined on the basis of any of the inventory management methods set out in Annex IV.5 (Inventory Management Methods); and
- (b) where originating and non-originating fungible goods are physically combined or mixed in inventory and, prior to their exportation, do not undergo any production or any other operation in the territory of the Party in which they were physically combined or mixed in inventory, other than unloading, reloading, or any other operation necessary to preserve the goods in good condition or to transport the goods for exportation to the other Party's territory, the determination may be made on the basis of any of the inventory management methods set out in Annex IV.5 (Inventory Management Methods).

Article IV.6 Sets or Assortments of Goods

1. Except as provided in Annex IV.1 (Specific Rules of Origin), a set or assortment as defined in Rule 3 of the General Rules for the Interpretation of the Harmonized System, shall be considered as originating, provided that:

 - (i) at least one of the component products, or all the packaging materials and containers for the set, is originating; and

³ For purposes of applying paragraph 3, the identification of the component that determines the tariff classification of the good shall be based on the General Rules for the Interpretation of the Harmonized System. When the component that determines the tariff classification is a blend of 2 or more yarns or fibres, all yarns and, where applicable, fibres, in that component are to be taken into account.

- (ii) the regional value content of the set or assortment is not less than 50 per cent under the transaction value method.

2. For purposes of subparagraph 1(b), the value of packaging materials and containers for the set shall be taken into account as originating or non-originating materials, as the case may be, in calculating the regional value content of the set.

Article IV.7 Accessories, Spare Parts and Tools

Accessories, spare parts and tools delivered with the good that form part of the good's standard accessories, spare parts or tools, shall be considered as originating if the good originates and shall be disregarded in determining whether all the non-originating materials used in the production of the good undergo the applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin), provided that:

- (a) the accessories, spare parts and tools are not invoiced separately from the good, whether or not each is listed or detailed on the invoice;
- (b) the quantities and value of the accessories, spare parts or tools are customary for the good; and

Article IV.10 Packing Materials and Containers for Shipment

Packing materials and containers in which a good is packed for shipment shall be disregarded in determining whether:

- (a) the non-originating materials used in the production of the good undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin); and
- (b) the good satisfies a regional value-content requirement.

Article IV.11 Transshipment

Each Party shall provide that, when the exporter or producer receives notification pursuant to paragraph 4, the exporter or producer may, on a single occasion, within 15 days of receipt of the notification, request the postponement of the proposed verification visit for a period not exceeding 60 days from the date of such receipt, or for such longer period as agreed to by the notifying Party.

9. A Party shall not deny preferential tariff treatment to a good based solely on the postponement of a verification visit pursuant to paragraph 7.

10. Each Party shall permit an exporter or a producer whose good is the subject of a verification visit by the other Party to designate 2 observers to be present during the visit, provided that:
 - (a) the observers do not participate in a manner other than as observers; and
 - (b) the failure of the exporter or producer to designate observers shall not result in the postponement of the visit.

11. Each Party shall, through its customs administration, where conducting a verification of origin involving a regional value content, de minimis calculation or any other provision in Chapter IV (Rules of Origin) to which Generally Accepted Accounting Principles may be relevant, apply such principles as are applicable in the territory of the Party from which the good was exported.

12. The Party conducting a verification shall, through its customs administration and within 120 days after it has received all the necessary information, provide the exporter or producer whose good is the subject of the verification with a written determination of whether the good qualifies as an originating good, including findings of fact and the legal basis for the determination. Notwithstanding the foregoing, the customs administration may extend such period for up to 90 days, after notifying the producer or exporter of the good.

13. Where verifications by a Party indicate a pattern of conduct by an exporter or a producer of false or unsupported representations that a good imported into its territory qualifies as an originating good, the Party may withhold preferential tariff treatment to identical goods exported or produced by such person until that person establishes compliance with Chapter IV (Rules of Origin).

14. Each Party shall provide that where it determines that a certain good imported into its territory does not qualify as an originating good based on a tariff classification or a value applied by the Party to one or more materials used in the production of the good, which differs from the tariff classification or value applied to the materials by the other Party, the Party's determination shall not become effective until it notifies in writing both the importer of the good and the person that completed and signed the Certificate of Origin for the good of its determination.

15. A Party shall not apply a determination made under paragraph 14 to an importation made before the effective date of the determination where:

- (a) the customs administration of the other Party has issued an advance ruling under Article V.9 or any other ruling on the tariff classification or on the value of such materials, or has given consistent treatment to the entry of the materials under the tariff classification or value at issue, on which a person is entitled to rely; and
- (b) the advance ruling, other ruling or consistent treatment was given prior to notification of the determination.

16. If a Party denies preferential tariff treatment to a good pursuant to a determination made under paragraph 14, it shall postpone the effective date of the denial for a period not exceeding 90 days where the importer of the good, or the person who completed and signed the Certificate of Origin for the good, demonstrates that it has relied in good faith to its detriment on the tariff classification or value applied to such materials by the customs administration of the other Party.

17. The Parties may also agree to develop other verification procedures under this Article.

Article V.7 Confidentiality

1. Each Party shall maintain, in accordance with its law, the confidentiality of the business information collected pursuant to this Chapter and shall protect that information from disclosure that could prejudice the competitive position of the person providing the information.

2. The confidential business information collected pursuant to this Chapter may only be disclosed to those authorities responsible for the administration and enforcement of determinations of origin, and of customs and revenue matters.

Article V.8 Penalties

1. Each Party shall maintain measures imposing criminal, civil or administrative penalties for violations of its laws and regulations relating to this Chapter.

2. Nothing in Article V.2.2, V.4.3 or V.6.9 shall be construed to prevent a Party from applying such measures as may be warranted by the circumstances in accordance with its legislation.

Section III - Advance Rulings

Article V.9 Advance Rulings

1. Each Party shall, through its customs administration, provide for the expeditious issuance of written advance rulings, prior to the importation of a good into its territory, to an importer in its territory or an exporter or a producer in the territory of the other Party, on the basis of the facts and circumstances presented by such importer, exporter or producer of the good, concerning:

- (a) whether materials imported from a non-Party country used in the production of a good undergo an applicable change in tariff classification set out in Annex IV.1 (Specific Rules of Origin) as a result of production occurring entirely in the territory of one or both of the Parties;
- (b) whether a good satisfies a regional value-content requirement set out in Chapter IV (Rules of Origin);
- (c) for the purpose of determining whether a good satisfies a regional value-content requirement under Chapter IV (Rules of Origin), the appropriate basis or method for value to be applied by an exporter or a producer in the territory of the other Party, in accordance with the principles of the Customs Valuation Agreement, for calculating the transaction value of the good or of the materials used in production of the good;
- (d) whether a good qualifies as an originating good under Chapter IV (Rules of Origin);
- (e) whether a good that re-enters its territory after the good has been exported from its territory to the territory of the other Party for repair or alteration qualifies for duty-free treatment in accordance with Article III.6 (Goods Re-Entered after Repair or Alteration); or
- (f) such other matters as the Parties may agree.

2. Each Party shall adopt or maintain procedures for the issuance of advance rulings, including a detailed description of the information reasonably required to process an application for a ruling.

3. Each Party shall provide that its customs administration:

- (a) may, at any time during the course of an evaluation of an application for an advance ruling, request supplemental information from the person requesting the ruling;
- (b) shall, after it has obtained all necessary information from the person requesting an advance ruling, issue the ruling within 120 days; and
- (c) shall provide to the person requesting the ruling a full explanation of the reasons for the ruling.

4. Subject to paragraph 6, each Party shall apply an advance ruling to importations into its territory of the good for which the ruling was requested, beginning on the date of its issuance or such later date as may be specified in the ruling.

5. Each Party shall provide to any person requesting an advance ruling the same treatment, including the same interpretation and application of provisions of Chapter IV (Rules of Origin) regarding a determination of origin, as it provided to any other person to whom it issued an advance ruling, provided that the facts and circumstances are identical in all material respects.

6. The issuing Party may modify or revoke an advance ruling:

- (a) if the ruling is based on an error:
 - (i) of fact;
 - (ii) in the tariff classification of a good or a material that is the subject of the ruling;
 - (iii) in the application of a regional value-content requirement under Chapter IV (Rules of Origin); or
 - (iv) in the application of the rules for determining whether a good that re-enters its territory after the good has been exported from its territory to the territory of the other Party for repair or alteration qualifies for duty-free treatment under Article III.6 (Goods Re-Entered after Repair or Alteration);
- (b) if the ruling is not in accordance with an interpretation agreed upon by the Parties regarding Chapter III (National Treatment and Market Access of Goods) or Chapter IV (Rules of Origin);
- (c) if there is a change in the material facts or circumstances on which the ruling is based;
- (d) to conform with a modification of Chapter III (National Treatment and Market Access of Goods), Chapter IV (Rules of Origin), this Chapter or any Uniform Regulations; or
- (e) to conform with a judicial decision or a change in its domestic law.

7. Each Party shall provide that any modification or revocation of an advance ruling shall be effective on the date on which the modification or revocation is issued, or on such later date as may be specified therein, and shall not be applied to importations of a good that have occurred prior to that date, unless the person to whom the advance ruling was issued has not acted in accordance with its terms and conditions.

8. Notwithstanding paragraph 7, the issuing Party shall postpone the effective date of such modification or revocation for a period not exceeding 90 days where the person to whom the advance ruling was issued demonstrates that it has relied in good faith to its detriment on that ruling.

9. Each Party shall provide that where its customs administration examines the regional value content of a good for which it has issued an advance ruling pursuant to subparagraph 1(b), (c), (d) and (e), it shall evaluate whether:

- (a) the exporter or producer has complied with the terms and conditions of the advance ruling;
- (b) the exporter's or producer's operations are consistent with the material facts and circumstances on which the advance ruling is based; and

- (c) the supporting data and computations used in applying the basis or method for calculating value or allocating cost were correct in all material respects.

10. Each Party shall provide that where its customs administration determines that any requirement in paragraph 9 has not been satisfied, it may modify or revoke the advance ruling as the circumstances may warrant.

11. Each Party shall provide that, where the person to whom an advance ruling was issued demonstrates that it used reasonable care and acted in good faith in presenting the facts and circumstances on which the ruling was based, and where the customs administration of a Party determines that the ruling was based on incorrect information, the person to whom the ruling was issued shall not be subject to penalties.

12. Each Party shall provide that where it issues an advance ruling to a person that has misrepresented or omitted material facts or circumstances on which the ruling is based, or has failed to act in accordance with the terms and conditions of the ruling, the Party may apply such measures as may be warranted by the circumstances in accordance with its laws.

13. The Parties shall provide that an advance ruling will remain in effect and will be honoured if there is no change in the material facts or circumstances on which it is based.

14. Each Party may provide that, where application for an advance ruling is made to its customs administration that involves an issue that is the subject of:

- (a) a verification of origin;
- (b) a review by or appeal to the customs administration; or
- (c) judicial or quasi-judicial review in its territory;

the customs administration may decline or postpone the issuance of the ruling.

Section IV - Review and Appeal of Advance Rulings and Origin Determinations

Article V.10 Review and Appeal

1. Each Party shall grant substantially the same rights of review and appeal of determinations of origin and advance rulings issued by its customs administration as it provides to importers in its territory, to any person:

- (a) who completes and signs a Certificate of Origin for a good that has been the subject of a determination of origin; or
- (b) who has received an advance ruling pursuant to Article V.9.1.

2. Further to Articles XII.4 (Administrative Proceedings) and XII.5 (Review and Appeal), each Party shall provide that the rights of review and appeal referred to in Paragraph 1 shall include access to:

2. Each Party shall implement any modification of or addition to the Uniform Regulations no later than 180 days after the Parties agree on such modification or addition, or such other period as the Parties may agree.

Section VI - Cooperation

Chapter VI: Emergency Action

Article VI.1 Article XIX of the GATT 1994 and the Agreement on Safeguards of the WTO.

Each Party retains its rights and obligations under Article XIX of the GATT 1994 and the *Agreement on Safeguards* of the WTO Agreement and any successor agreements.

Article VI.2 Bilateral Actions

1. Subject to paragraphs 2 through 4, and during the transition period only, if a good originating in the territory of a Party, as a result of the reduction or elimination of a duty provided for in this Agreement, is being imported into the territory of the other Party in such increased quantities and under such conditions that the imports of the good from that Party alone constitute a substantial cause of serious injury, or threat thereof, to a domestic industry producing a like or directly competitive good, the Party into whose territory the good is being imported may, to the minimum extent necessary to remedy or prevent the injury:

- a. suspend the further reduction of any rate of duty provided for under this Agreement on the good;
 - b. increase the rate of duty on the good to a level not to exceed the lesser of:
 - i. the most-favoured-nation (MFN) applied rate of duty in effect at the time the action is taken; and
 - ii. the MFN applied rate of duty in effect on the day immediately preceding the date of entry into force of this Agreement; or
 - c. in the case of a duty applied to a good on a seasonal basis, increase the rate of duty to a level not to exceed the MFN applied rate of duty that was in effect on the good for the corresponding season immediately preceding the date of entry into force of this Agreement.
2. The following conditions and limitations shall apply to a proceeding that may result in emergency action under paragraph 1:
- a. a Party shall, without delay, deliver to the other Party written notice of, and a request for consultations regarding, the institution of a proceeding that could result in the application of emergency action against a good originating in the territory of the other Party;
 - b. any such action shall be initiated no later than 1 year after the date of institution of the proceeding;
 - c. no action may be maintained:
 - i. for a period exceeding 3 years; or
 - ii. beyond the expiration of the transition period, except with the consent of the Party against whose good the action is taken;

- d. during the transition period, the Parties may apply emergency actions to the same good no more than 2 times;
- e. on the termination of a first action, the rate of duty shall be the rate that, according to the Party's Schedule to Annex III.3.1 (Tariff Elimination) for the staged elimination of the tariff, would have been in effect 1 year after the initiation of the action, and beginning January 1 of the year following the termination of the action, at the option of the Party that has taken the action:
 - i. the rate of duty shall conform to the applicable rate set out in its Schedule to Annex III.3.1 (Tariff Elimination); or
 - ii. the tariff shall be eliminated in equal annual stages ending on the date set out in its Schedule to Annex III.3.1 (Tariff Elimination) for the elimination of the tariff; and
- f. a safeguard action may be applied a second time for up to three years, provided:
 - i. the period of time that has elapsed since the initial application of the measure ended is equal to at least one half the initial period of application;
 - ii. the rate of duty for the first year of the second action shall not be greater than the rate that would be in effect in accordance with that Party's Schedule to Annex III.3.1 (Tariff Elimination) at the time the first action was imposed; and
 - iii. the rate of duty applicable to any subsequent year shall be reduced in equal steps such that the duty rate in the final year of the action is equivalent to the rate provided for in that Party's Schedule to Annex III.3.1 (Tariff Elimination) for that year.

3. A Party may take a bilateral emergency action after the expiration of the transition period to deal with cases of serious injury, or threat thereof, to a domestic industry arising from the operation of this Agreement only with the consent of the other Party.

4. The Party taking an action under this Article shall provide to the other Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the action. If the Parties are unable to agree on compensation, the Party against whose good the action is taken may take tariff action having trade effects substantially equivalent to the action taken under this Article. good originating in the territory of a Party means an originating good;

serious injury means a significant overall impairment of a domestic industry;

Annex VI.3

Administration of Emergency Action Proceedings

Institution of a Proceeding

1. An emergency action proceeding may be instituted by a petition or complaint by entities specified in domestic law. The entity filing the petition or complaint shall demonstrate that it is representative of the domestic industry producing a good like or directly competitive with the imported good.
2. A Party may institute a proceeding on its own motion or request the competent investigating authority to conduct a proceeding.
3. Except as provided in this Annex, the time periods applicable to these proceedings will be those established by the domestic law of each Party.

Contents of a Petition or Complaint

1. Where the basis for an investigation is a petition or complaint filed by an entity representative of a domestic industry, the petitioning entity shall, in its petition or complaint, provide the following information to the extent that such information is publicly available from governmental or other sources, or best estimates and the basis therefor if such information is not available:

- a. product description: the name and description of the imported good concerned, the tariff subheading under which that good is classified, its current tariff treatment and the name and description of the like or directly competitive domestic good concerned;
- b. representativeness:
 - i. the names and addresses of the entities filing the petition or complaint, and the locations of the establishments in which they produce the domestic good;
 - ii. the percentage of domestic production of the like or directly competitive good that such entities account for and the basis for claiming that they are representative of an industry; and
 - iii. the names and locations of all other domestic establishments in which the like or directly competitive good is produced;
- c. import data: import data for each of the 5 most recent full years that form the basis of the claim that the good concerned is being imported in increased quantities, either in absolute terms or relative to domestic production as appropriate;
- d. domestic production data: data on total domestic production of the like or directly competitive good for each of the 5 most recent full years;
- e. data showing injury: quantitative and objective data indicating the nature and extent of injury to the concerned industry, such as data showing changes in the level of sales, prices, production,

productivity, capacity utilization, market share, profits and losses, and employment;

f. cause of injury: an enumeration and description of the alleged causes of the injury, or threat thereof, and a summary of the basis for the assertion that increased imports, either actual or relative to domestic production, of the imported good are causing or threatening to cause serious injury, supported by pertinent data; and

g. criteria for inclusion: quantitative and objective data indicating the share of imports accounted for by imports from the territory of the other Party and the petitioner's views on the extent to which such imports are contributing importantly to the serious injury, or threat thereof, caused by imports of that good.

2. Petitions or complaints, except to the extent that they contain confidential business information, shall promptly be made available for public inspection on being filed.

Notice Requirement

1. On instituting an emergency action proceeding, the competent investigating authority shall publish notice of the institution of the proceeding in the official journal of the Party. The notice shall identify the petitioner or other requester, the imported good that is the subject of the proceeding and its tariff subheading, the nature and timing of the determination to be made, the time and place of the public hearing, dates of deadlines for filing briefs, statements and other documents, the place at which the petition and any other documents filed in the course of the proceeding may be inspected, and the name, address and telephone number of the office to be contacted for more information.

2. With respect to an emergency action proceeding instituted on the basis of a petition or complaint filed by an entity asserting that it is representative of the domestic industry, the competent investigating authority shall not publish the notice required by paragraph 5 without first assessing carefully that the petition or complaint meets the requirements of paragraph 3, including representativeness.

Public Hearing

1. In the course of each proceeding, the competent investigating authority shall:
 - a. hold a public hearing, after providing reasonable notice, to allow all interested parties, and any association whose purpose is to represent the interests of consumers in the territory of the Party instituting the proceeding, to appear in person or by counsel, to present evidence and to be heard on the questions of serious injury, or threat thereof, and the appropriate remedy; and
 - b. provide an opportunity to all interested parties and any such association appearing at the hearing to cross-question interested parties making presentations at that hearing.

Confidential Information

1. The competent investigating authority shall adopt or maintain procedures for the treatment of confidential information, protected under domestic law, that is provided in the course of a proceeding, including a requirement that interested parties and consumer associations providing such information furnish non-confidential written summaries thereof, or where they indicate that the information cannot be summarized, the reasons why a summary cannot be provided.

Evidence of Injury and Causation

1. In conducting its proceeding the competent investigating authority shall gather, to the best of its ability, all relevant information appropriate to the determination it must make. It shall evaluate all relevant factors of an objective and quantifiable nature having a bearing on the situation of that industry, including the rate and amount of the increase in imports of the good concerned, the share of the domestic market taken by increased imports, and changes in the level of sales, production, productivity, capacity utilization, profits and losses, and employment. In making its determination, the competent investigating authority may also consider other economic factors, such as changes in prices and inventories, and the ability of firms in the industry to generate capital.
2. The competent investigating authority shall not make an affirmative injury determination unless its investigation demonstrates, on the basis of objective evidence, the existence of a clear causal link between increased imports of the good concerned and serious injury, or threat thereof. Where factors other than increased imports are causing injury to the domestic industry at the same time, such injury shall not be attributed to increased imports.

Deliberation and Report

1. The competent investigating authority, before making an affirmative determination in an emergency action proceeding, shall allow sufficient time to gather and consider the relevant information, hold a public hearing and provide an opportunity for all interested parties and consumer associations to prepare and submit their views.
2. The competent investigating authority shall publish promptly a report, including a summary thereof in the official journal of the Party, setting out its findings and reasoned conclusions on all pertinent issues of law and fact. The report shall describe the imported good and its tariff item

number, the standard applied and the finding made. The statement of reasons shall set out the basis for the determination, including a description of:

- a. the domestic industry seriously injured or threatened with serious injury;
- b. information supporting a finding that imports are increasing, the domestic industry is seriously injured or threatened with serious injury, and increasing imports are causing or threatening serious injury; and
- c. if provided for by domestic law, any finding or recommendation regarding the appropriate remedy and the basis therefor.

3. In its report, the competent investigating authority shall not disclose any confidential information provided pursuant to any undertaking concerning confidential information that may have been made in the course of the proceedings.

- (l) the provision of procedures for the judicial review of administrative actions relating to final determinations and reviews of determinations.

4. In an investigation, each Party shall provide the other Party with information concerning the point of contact in the investigating authority for that investigation.

5. All disputes between Parties arising in respect of the application of antidumping measures by either Party shall be settled in accordance with the WTO Agreement.

2. (a) The Parties to this Agreement shall encourage bodies responsible for the regulation of professional services in their respective territories to:
 - (i) ensure that measures relating to the licensing or certification of nationals of the other Party are based on objective and transparent criteria, such as competence and the ability to provide a service; and

- (b) The following elements may be examined with regard to the standards and criteria referred to in subparagraph (a)(ii):

PART FOUR: TRADE FACILITATION

Chapter IX: Trade Facilitation and Additional Provisions

Section I-Trade Facilitation

Article IX.1 Objectives and Principles

1. With the objectives of facilitating trade under this Agreement and cooperating in pursuing trade facilitation initiatives on a multilateral and hemispheric basis, Canada and Costa Rica agree to administer their import and export processes for goods traded under this Agreement on the basis that:

- (a) procedures be efficient to reduce costs for importers and exporters and simplified where appropriate to achieve such efficiencies;
- (b) procedures be based on any international trade instruments or standards to which the Parties have agreed;
- (c) entry procedures be transparent to ensure predictability for importers and exporters;
- (d) measures to facilitate trade also support mechanisms to protect persons through effective enforcement of and compliance with national requirements;
- (e) the personnel and procedures involved in those processes reflect high standards of integrity;
- (f) the development of significant modifications to procedures of a Party include, in advance of implementation, consultations with the representatives of the trading community of that Party;
- (g) procedures be based on risk assessment principles to focus compliance efforts on transactions that merit attention, thereby promoting effective use of resources and providing incentives for voluntary compliance with the obligations to importers and exporters; and
- (h) the Parties encourage cooperation, technical assistance and the exchange of information, including information on best practices, for the purpose of promoting the application of and compliance with the trade facilitation measures agreed upon under this Agreement.

Article IX.2 Specific Obligations

1. The Parties confirm their rights and obligations under Article VIII (Fees and Formalities Connected with Importation and Exportation) and Article X (Publication and Administration of Trade Regulations) of the GATT 1994 and any successor agreements.
2. The Parties shall release goods promptly, particularly those which are unrestricted or uncontrolled. Subject to Article IX.2.3, they shall provide a basic option of:

- (a) releasing the goods at the time of entry based on the submission of only the documentation required before the goods arrive or at the time of arrival. This shall not prevent customs from requiring the submission of more extensive documentation through post-entry accounting and verifications, as appropriate; or
 - (b) releasing the goods based on the submission, before or at the time of arrival of the goods, of all the information necessary to obtain a final accounting of the goods.
3. The Parties recognize that, for certain goods or under certain circumstances, such as goods subject to quota or to health-related or public safety requirements, releasing the goods may require the submission of more extensive information, before or at the time of arrival of the goods, to allow the authorities to examine the goods for release.
4. The Parties shall facilitate and simplify the process and procedures for the release of low-risk merchandise, and shall improve controls on the release of high-risk merchandise. For these purposes, the Parties shall base their examination and release procedures and their post-entry verification procedures on risk assessment principles, rather than examining each and every shipment offered for entry in a comprehensive manner for compliance with all import requirements. This shall not preclude the Parties from conducting quality control and compliance reviews which may require more extensive examinations.
5. The Parties shall ensure that the procedures and activities of various agencies whose requirements on the import or export of goods are maintained, either by themselves or on their behalf by customs, are coordinated to facilitate trade. In this connection, each Party shall take steps to harmonize the data requirements of such agencies with the objective of allowing importers and exporters to present all required data to only one border agency.
6. In their procedures for the clearance of express consignments, the Parties shall apply the *World Customs Organization Principles on Express Consignment*.
7. The Parties shall introduce or maintain simplified clearance procedures for the entry of goods which are low in value and for which the revenue associated with such imports is not considered significant by the Party maintaining such expedited procedures.
8. The Parties shall work to achieve common processes and simplification of the information necessary for the release of goods, applying, when appropriate, existing international standards. With this objective, the Parties shall establish a means of providing for the electronic exchange of information between customs administrations and the trading community for the purpose of encouraging rapid release procedures. For purposes of this Article, the Parties shall use formats based on international standards for the electronic exchange of information, and shall also take into account the World Customs Organization Recommendations "Concerning the Use of UN/EDIFACT Rules for Electronic Data Interchange" and "Concerning the Use of Codes for the Representation of Data Elements". This shall not preclude the use of additional electronic data transmission standards.
9. The Parties, through their customs administrations, shall establish formal consultation mechanisms with their trade and business communities to promote greater cooperation and the exchange of electronic information.

10. The Parties shall issue written rulings in advance of an importation in response to a written request by an importer, exporter or its representative. Rulings shall be issued for tariff classification, applicable rate of duty, any tax applicable upon importation, or whether goods are considered to be originating goods and entitled to tariff preferences under this Agreement. The rulings shall be as detailed as the nature of the request and the details provided by the person requesting the ruling permits. When a Party determines that a request for an advance ruling is incomplete, it may request additional information, including, where appropriate, a sample of the goods or materials in question from the person requesting the ruling. The advance ruling shall be binding upon the customs administration that issued the ruling at the time the goods are actually imported provided that the facts and circumstances that were the basis for the issuance of the advance ruling remain in effect. The customs administration of a Party may modify or revoke such a ruling at any time but only after notification to the person that requested the ruling and without retroactive application. The Parties may modify or revoke such rulings without notification and with retroactive application in circumstances where inaccurate or false information has been provided.

11. The Parties shall ensure that any administrative action or official decision taken in respect of the import or export of goods is reviewable promptly by judicial, arbitral or administrative tribunals or procedures, independent of the authority issuing the decision, which has the competence to maintain, modify or reverse the determination, in accordance with the law of each Party. The Parties shall provide for an administrative level of appeal or review, independent of the official or, where applicable, the office responsible for the original action or decision, before requiring a person to seek redress at a more formal or judicial level.

12. The Parties shall promptly publish or otherwise make available, including through electronic means, all their laws, regulations, judicial decisions and administrative rulings or policies of general application relating to their requirements for imported or exported goods. They shall also make available notices of an administrative nature, such as general agency requirements and entry procedures, hours of operation and points of contacts for information enquiries.

13. Each Party shall, in accordance with their laws, treat as strictly confidential all business information that is by its nature confidential or that is provided on a confidential basis.

Article IX.3 Cooperation

1. The Parties recognize that technical cooperation is fundamental to facilitating compliance with the obligations set forth in this Agreement and for reaching a better degree of trade facilitation.

2. The Parties, through their customs administrations, agree to develop a technical cooperation program under such mutually agreed terms as the scope, timing and cost of cooperative measures, in customs-related areas such as, *inter alia*:

- (a) training;
- (b) risk assessment;
- (c) prevention and detection of contraband and illegal activities, in collaboration with other authorities;
- (d) implementation of the Customs Valuation Agreement;
- (e) audit and verification frameworks;

- (f) customs laboratories; and
- (g) electronic exchange of information.

3. The Parties shall cooperate in the development of effective mechanisms for communicating with the trade and business communities.

Article IX.4 Future Work Program

1. With the objective of developing further steps to facilitate trade under this Agreement, the Parties establish the following work program:

- (a) to develop the Cooperation Program referred to in Article IX.3 for the purpose of facilitating compliance with the obligations set forth in this Agreement; and
- (b) as appropriate, to identify and submit for the consideration of the Commission new measures aimed at facilitating trade between the Parties, taking as a basis the objectives and principles set forth in Article IX.1 of this Chapter, including, *inter alia*:
 - (i) common processes;
 - (ii) general measures to facilitate trade;
 - (iii) official controls;
 - (iv) transportation;
 - (v) the promotion and use of standards;
 - (vi) the use of automated systems and Electronic Data Interchange (EDI);
 - (vii) the availability of information;
 - (viii) customs and other official procedures concerning the means of transportation and transportation equipment, including containers;
 - (ix) official requirements for imported goods;
 - (x) simplification of the information necessary for the release of goods;
 - (xi) customs clearance of exports;
 - (xii) transshipment of goods;
 - (xiii) goods in international transit;
 - (xiv) commercial trade practices; and
 - (xv) payment procedures.

2. The Parties may periodically review the work program referred to in this Article for the purpose of agreeing upon new cooperation actions that might be needed to promote application of the trade facilitation obligations and principles, including new measures that might be agreed upon by the Parties.

3. Through the Parties' respective customs administrations and other border-related authorities as appropriate, the Parties will review relevant international initiatives on trade facilitation, including the Compendium of Trade Facilitation Recommendations, developed by the United Nations Conference on Trade and Development and the United Nations Economic Commission for Europe, to identify areas where further joint action would facilitate trade between the Parties and promote shared multilateral objectives.

Section II-Additional Provisions

Article IX.5 Sanitary and Phytosanitary Measures

1. The Parties reaffirm their rights and obligations under the *WTO Agreement on the Application of Sanitary and Phytosanitary Measures*.

2. The Parties agree to use the WTO dispute settlement procedures for any formal disputes regarding sanitary and phytosanitary (SPS) measures.

3. Recognizing the benefits from a bilateral program of technical and institutional cooperation, a Committee on Sanitary and Phytosanitary Measures, comprising representatives of each Party who have responsibilities for sanitary and phytosanitary matters, is hereby established. 2. The Parties shall use the relevant dispute settlement provisions of the WTO Agreement for any formal disputes related to their rights and obligations under the WTO TBT Agreement.
3. The Parties shall develop programs for technical cooperation aimed at achieving full and effective compliance with the obligations set forth in the WTO TBT Agreement. To this end, the Parties shall encourage their competent authorities in the area of standards, including metrology, to undertake the following activities for the purpose of strengthening processes and systems in this field:
 - (a) the promotion of bilateral institutional and regulatory information exchange and technical cooperation; and
 - (b) the promotion of bilateral coordination by appropriate agencies in multilateral and international fora on standards, including metrology.

The Parties recognize that technical cooperation can contribute to achieving these aims and agree to cooperate in exploring potential approaches to such technical cooperation through existing mechanisms, particularly with respect to the application of information technology to government procurement.
3. The Parties shall, within 3 years after the entry into force of this Agreement, meet to review this Article.

3. No later than 1 year after the date of entry into force of this Agreement, the Parties shall make available explanatory material regarding the requirements for temporary entry under this Article in such a manner as to enable citizens of the other Party to become acquainted with them.

4. For the purposes of this Chapter:

after-sales services include those provided by persons repairing and servicing, supervising installers, and setting up and testing commercial or industrial (including computer software) equipment, provided the services are being performed as part of an original or extended sales or lease agreement, warranty, or service contract. "Setting up" does not include hands-on installation generally performed by construction or building trades. After-sales services also includes persons providing familiarization or training sessions to potential users;

2. Each Party shall ensure that the measures referred to in paragraph 1, and the enforcement actions pursuant to those measures, are applicable on a non-discriminatory basis.

3. For the purpose of this Chapter, anticompetitive activities include, but are not limited to, the following:

- (a) anticompetitive agreements, anticompetitive concerted practices or anticompetitive arrangements by competitors to fix prices, make rigged bids (collusive tenders), establish output restrictions or quotas, or share or divide markets by allocating customers, suppliers, territories or lines of commerce;
- (b) anticompetitive practices by an enterprise or group of enterprises that has market power in a relevant market or group of markets; and
- (c) mergers or acquisitions with substantial anticompetitive effects;

1. Subject to paragraph 2, Article VI.4 (Dispute Settlement in Emergency Action Matters), Article VII.1.5 (Antidumping Measures), Article IX.5.1.2 (Sanitary and Phytosanitary Measures) and Article XI.6.3 (Consultations), disputes regarding any matter arising under both this Agreement and the WTO Agreement, any agreement negotiated thereunder, or any successor agreement, may be settled in either forum at the discretion of the complaining Party.
2. In any dispute referred to in paragraph 1 where the Party complained against claims that its action is subject to Article I.4 (Relation to Environmental and Conservation Agreements) and requests in writing that the matter be considered under this Agreement, the complaining Party may, in respect of that matter, thereafter have recourse to dispute settlement procedures solely under this Agreement.
3. The Party complained against shall deliver a copy of a request made pursuant to paragraph 2 to its Section of the Secretariat and the other Party. Where the complaining Party has initiated dispute settlement proceedings regarding any matter subject to paragraph 2, the Party complained against shall deliver its request no later than 15 days thereafter. On receipt of such request, the complaining Party shall promptly withdraw from participation in those proceedings and may initiate dispute settlement procedures under Article XIII.8.
4. Once dispute settlement procedures have been initiated under Article XIII.8 or dispute settlement proceedings have been initiated under the WTO Agreement, the forum selected shall be used to the exclusion of the other unless a Party makes a request pursuant to paragraph 2.
5. For purposes of this Article, dispute settlement proceedings under the WTO Agreement are deemed to be initiated by a Party's request for a panel, such as under Article 6 of the DSU.

Article XIII.7 Consultations

1. A Party may request in writing consultations with the other Party regarding any actual or proposed measure or any other matter that it considers might affect the operation of this Agreement.
2. The requesting Party shall deliver the request to its Section of the Secretariat and the other Party.
3. In cases of urgency, including those which concern perishable goods, consultations shall commence within 15 days of the date of delivery of the request.
4. The Parties shall make every attempt to arrive at a mutually satisfactory resolution of any matter through consultations under this Article or other consultative provisions of this Agreement. To this end, the Parties shall:
 - (a) provide sufficient information to enable a full examination of how the actual or proposed measure or other matter might affect the operation of this Agreement; and
 - (b) treat any confidential or proprietary information exchanged in the course of consultations on the same basis as the Party providing the information.

Article XIII.8 Establishment of an Arbitral Panel

1. Unless the Parties agree to have recourse to alternative methods of dispute resolution, such as, for example, good offices, conciliation or mediation, the Parties agree to establish an arbitral panel to examine any matter they fail to resolve through consultations pursuant to Article XIII.7.
2. The complaining Party may request in writing the establishment of an arbitral panel if the Parties fail to resolve a matter pursuant to Article XIII.7 within:
 - (a) 30 days after the delivery date of the request for consultations; or
 - (b) 15 days after the delivery date of the request for consultations for matters referred to in paragraph 3 of Article XIII.7.
3. The complaining Party shall state in the request the measure or other matter complained of and indicate the provisions of this Agreement that it considers relevant, and shall deliver the request to its Section of the Secretariat and to the other Party.
4. The Parties may consolidate two or more proceedings regarding other matters that they determine are appropriate to be considered jointly.
5. The arbitral panel shall be deemed established, by consent of both Parties, on the date the request for the establishment of the arbitral panel is delivered to the Party complained against.
6. Unless otherwise agreed by the Parties, the arbitral panel shall be established and perform its functions in a manner consistent with the provisions of this Chapter.

Article XIII.9**Roster**

1. No later than 3 months after the entry into force of the Agreement, the Parties shall establish and maintain a roster of up to 20 individuals, at least 5 of whom must not be citizens of either of the Parties, who are willing and able to serve as panelists. The roster members shall be appointed by agreement of the Parties for terms of 3 years. Unless either of the Parties disagrees, a roster member shall be considered reappointed for a further period of three years.
2. Roster members shall:
 - (a) have expertise or experience in law, international trade, other matters covered by this Agreement, or the resolution of disputes arising under international trade agreements and shall be chosen strictly on the basis of objectivity, reliability and sound judgment;
 - (b) be independent of, and not be affiliated with or take instructions from, any Party; and
 - (c) comply with a code of conduct to be established by the Commission.

Article XIII.10**Qualifications of Panelists**

1. All panelists shall meet the qualifications set out in Article XIII.9.2.
2. Individuals who might have been involved in any of the possible alternative dispute settlement proceedings referred to in Article XIII.8.1 may not serve as members of an arbitral panel on the same dispute.

Article XIII.11**Panel Selection**

1. The following procedures shall apply to panel selection:
 - (a) the panel shall comprise 3 members;
 - (b) the Parties shall endeavour to agree on the chair and on the other 2 panelists within 15 days of the delivery of the request for the establishment of the panel. If the Parties are unable to agree on the chair within this period, within 5 days the Party chosen by lot shall select an individual as chair who must not be citizen of the Parties;
 - (c) within 15 days of selection of the chair, each Party shall select a panelist who must not be a citizen of that Party; and
 - (d) if a Party fails to select its panelist within such period, the Parties shall choose by lot the panelist from among the roster members who are not citizens of that Party.
2. Panelists shall normally be selected from the roster. A Party may exercise a peremptory challenge against any individual not on the roster who is proposed as a panelist by the other Party within 15 days after the individual has been proposed.
3. If a Party believes that a panelist is in violation of the code of conduct, the Parties shall consult and if they agree, the panelist shall be removed and a new panelist shall be selected in accordance with this Article.

Article XIII.12 Rules of Procedure

1. The Commission shall establish, by the date of entry into force of this Agreement, Model Rules of Procedure, in accordance with the following principles:
 - (a) the procedures shall assure a right to at least one hearing before the panel as well as the opportunity to provide initial and rebuttal written submissions; and
 - (b) the panel's hearings, deliberations and initial report, and all written submissions to and communications with the panel shall be confidential.
2. The Commission may amend from time to time the Model Rules of Procedure referred to in paragraph 1.
3. Unless the Parties otherwise agree, the panel shall conduct its proceedings in accordance with the Model Rules of Procedure.
4. Unless the Parties otherwise agree within 20 days from the date of the delivery of the request for the establishment of the panel, the terms of reference shall be:

"To examine, in the light of the relevant provisions of the Agreement the matter referred by the complaining Party (in terms of the request for establishment of the panel) and to make findings, determinations and recommendations as provided in Article XIII.14.2."
5. If the complaining Party wishes to argue that a matter has nullified or impaired benefits, the terms of reference shall so indicate.
6. If a Party wishes the panel to make findings as to the degree of adverse trade effects on a Party of any measure found not to conform with the obligations of the Agreement or to have caused nullification or impairment in the sense of Annex XIII.5, the terms of reference shall so indicate.

Article XIII.13 Role of Experts

On request of a Party, or on its own initiative, the panel may seek information and technical advice from any person or body that it deems appropriate, provided that the Parties so agree and subject to such terms and conditions as the Parties may agree.

Article XIII.14 Initial Report

1. Unless the Parties otherwise agree, the panel shall base its report on the submissions and arguments of the Parties and on any information before it pursuant to Article XIII.13.
2. Unless the Parties otherwise agree, the panel shall, within 90 days after the last panelist is selected or such other period as the Model Rules of Procedure established pursuant to Article XIII.12.1 may provide, present to the Parties an initial report containing:
 - (a) findings of fact, including any findings pursuant to a request under Article XIII.12.6;
 - (b) its determination as to whether the measure at issue is or would be inconsistent with the obligations of this Agreement or cause nullification or impairment in the sense of Annex XIII.5, or any other determination requested in the terms of reference; and

- (c) its recommendations, if any, for resolution of the dispute.
- 3. Panelists may furnish separate opinions on matters not unanimously agreed.
- 4. A Party may submit written comments to the panel on its initial report within 14 days of presentation of the report.
- 5. In such an event, and after considering such written comments, the panel, on its own initiative or on the request of a Party, may:
 - (a) request the views of a Party;
 - (b) reconsider its report; and
 - (c) make any further examination that it considers appropriate.

Article XIII.15 Final Report

- 1. Unless the Parties otherwise agree, the panel shall present to the Parties a final report within 30 days of presentation of the initial report, including any separate opinions on matters not unanimously agreed.
- 2. No panel may, either in its initial report or its final report, disclose which panelists are associated with majority or minority opinions.
- 3. Unless the Parties decide otherwise the final report of the panel shall be published 15 days after it is transmitted to the Parties.

Article XIII.16 Implementation of Recommendations and Rulings

- 1. Prompt compliance with recommendations or rulings of the panel is essential in order to ensure effective resolution of disputes to the benefit of both Parties.
- 2. Within 30 days after the date on which a panel has issued its final report, the Party complained against shall notify the other Party of its intentions in respect of implementation of the recommendations and rulings of the panel. If it is impracticable to comply immediately with the recommendations and rulings, the Party complained against shall have a reasonable period of time in which to do so. The reasonable period of time shall be:
 - (a) a period of time mutually agreed by the Parties within 45 days after the date the final report is issued by the panel; or
 - (b) a period of time determined through binding arbitration within 90 days after the final report is issued.¹ In such arbitration a guideline for the arbitrator should be that the reasonable period of time to implement a panel report should not exceed 15 months from the date of the issuance of a final report. However, that time may be shorter or longer depending upon the particular circumstances.

¹ If the Parties cannot agree on an arbitrator within 10 days after referring the matter to arbitration, the arbitrator shall be chosen by lot from among the panelists.

3. During the reasonable period of time, each Party shall accord sympathetic consideration to any request from the other Party for consultations with a view to reaching a mutually satisfactory solution regarding the implementation of the recommendations or rulings of the panel.
4.
 - (a) The issue of implementation of the recommendations or rulings may be raised by the complaining Party at any time following the issuance of the final report.
 - (b) The Party complained against shall report on the status of its implementation of the recommendations of the rulings at the request of the other Party², beginning 6 months after the date the final report is issued, until the Parties have mutually agreed that the issue is resolved or until a panel finds pursuant to Article XIII.17 that the Party complained against has complied.
 - (c)
 - (i) Upon compliance with the recommendations or rulings of the panel, the Party complained against shall provide the other Party a written notification on compliance.
 - (ii) If the Party complained against has not provided a notification under paragraph (c)(i) by the date that is 20 days before the date of expiry of the reasonable period of time, then not later than that date the Party complained against shall provide to the other Party a written notification on compliance, including the measures that it has taken, or the measures that it expects to have taken by the expiry of the reasonable period of time. Where the notification refers to measures that the Party complained against expects to have taken, the Party complained against shall provide to the other Party a supplementary written notification no later than the expiry of the reasonable period of time, stating that it has, or has not, taken such measures, and indicating any changes to them.
 - (iii) Each notification under this subparagraph shall include a detailed description as well as the text of the relevant measures the Party complained against has taken. The notification requirement of this subparagraph shall not be construed to reduce the reasonable period of time established pursuant to paragraph 2 of this Article.

Article XIII.17 Determination of Compliance

1. Where there is disagreement between the complaining Party and the Party complained against as to the existence or consistency with this Agreement of measures taken to comply with the recommendations or rulings of a panel, such disagreement shall be resolved through recourse to the dispute settlement procedures provided for in this Article.
2. The complaining Party may request the establishment of a compliance panel referred to in paragraph 6 of this Article at any time after:
 - (i) the Party complained against states that it does not need a reasonable period of time for compliance pursuant to paragraph 2 of Article XIII.16;

² The Party complained against shall provide a detailed written status report concerning its progress in the implementation of the recommendations or rulings.

³ A compliance panel may also be established pursuant to paragraph 9 of Article XIII.18.

- (ii) the Party complained against has submitted a notification pursuant to paragraph 4(c) of Article XIII.16 that it has complied with the recommendations or rulings of the panel; or
- (iii) 10 days before the date of expiry of the reasonable period of time;

whichever is the earlier. Such request shall be made in writing.

3. While consultations between the Party complained against and the complaining Party are desirable, they are not required prior to a request for a compliance panel under paragraph 2.

4. When requesting the establishment of a compliance panel, the complaining Party shall identify the specific measures at issue and provide a brief summary of the legal basis of the complaint, sufficient to present the problem clearly. Unless the Parties agree on special terms of reference within 5 days from the establishment of the compliance panel, standard terms of reference in accordance with Article XIII.12 shall apply to the compliance panel.

5. The compliance panel shall be established on the date of the delivery of the request to establish such a panel.

6. The compliance panel shall consist of the members of the original panel. If any member of the original panel is not available, a new member shall be appointed in accordance with the procedure established under Article XIII.11.1(b).

7. The compliance panel shall provide its report to the Parties within 90 days of the date of its establishment.

8. The complaining Party shall not suspend concessions or other obligations under paragraph 9 of this Article until the compliance panel has provided its report to the Parties and the complaining Party has notified the Party complained against which particular concessions or obligations the Party intends to suspend.

9. If the compliance panel report finds that the Party complained against has failed to bring the measure found to be inconsistent with this Agreement into compliance therewith or otherwise comply with the recommendations or rulings of the panel in the dispute within the reasonable period of time, then:

- (a) the Party complained against shall not be entitled to any further period of time for implementation; and
- (b) after the compliance panel report has been provided to the Parties, the complaining Party may suspend the application to the Party complained against of concessions or other obligations under this Agreement pursuant to Article XIII.18.

10. The compliance panel shall establish its own working procedures. The provisions of Articles XIII.4, XIII.13, XIII.14, XIII.15.2, XIII.15.3, and XIII.16.1 shall apply to compliance panel proceedings except to the extent that:

- (a) such provisions are incompatible with the time frame provided in this Article; or
- (b) this Article provides more specific provisions.

Article XIII.18**Compensation and Suspension of Concessions**

1. Compensation and the suspension of concessions or other obligations are temporary measures available in the event that the recommendations and rulings are not implemented within a reasonable period of time. However, neither compensation nor the suspension of concessions or other obligations is preferred to full implementation of a recommendation to bring a measure into conformity with the Agreement. Compensation is voluntary and, if granted, shall be consistent with a Party's obligations under this Agreement.

2. If:

- (a) the Party complained against does not provide notice pursuant to paragraph 2 of Article XIII.16 that it intends to implement the recommendations or rulings of the panel;
- (b) the Party complained against does not submit within the required time period a notification pursuant to paragraph 4(c) of Article XIII.16 stating that the Party complained against has complied; or
- (c) the compliance panel report pursuant Article XIII.17 finds that the Party complained against has failed to bring the measures found to be inconsistent with this Agreement into compliance therewith or otherwise comply with the recommendations or rulings of the panel;

then a complaining Party may suspend the application to the Party complained against of concessions or other obligations under this Agreement. The Parties are encouraged to consult before concessions or other obligations are suspended to discuss a mutually satisfactory solution.

3. The complaining Party shall not implement any suspension of concessions or other obligations until 10 days after it has notified the Party complained against which particular concessions or obligations the Party intends to suspend.

4. The level of the suspension of concessions or other obligations shall be equivalent to the level of nullification or impairment.

5. (a) When the complaining Party has provided notice that it intends to suspend concessions or other obligations pursuant to paragraph 8 of Article XIII.17 or paragraph 3 of this Article and the Party complained against objects to the level of suspension proposed within 10 days after the receipt of such notice, the matter shall be referred to arbitration.
- (b) Such arbitration shall be carried out by the original panel if its members are available. In such case, the Panel will be deemed to be established by consent of both Parties on the date the Party complained against files the document with the objections referred to in subparagraph (a) above. If any member of the original panel is not available, a new member shall be appointed in accordance with the procedure established under Article XIII.11 and the date the new Panel is complete shall be deemed to be the date the matter was referred.
- (c) the arbitration shall be completed and the decision of the arbitral panel shall be provided to the Parties within 45 days after the referral of the matter. The complaining Party shall not suspend concessions or other obligations during the course of the arbitration.

6. The arbitral panel acting pursuant to paragraph 5 shall not examine the nature of the concessions or other obligations to be suspended, but shall determine whether the level of such suspension is equivalent to the level of nullification or impairment. The Parties shall accept the arbitral panel's decision as final and shall not seek a second arbitration. The decision shall constitute authorization to suspend concessions or other obligations consistent with the decision of the arbitral panel.

7. The suspension of concessions or other obligations shall be temporary and shall only be applied until such time as the measure found to be inconsistent with the Agreement has been removed, or the Party that must implement recommendations or rulings provides a solution to the nullification or impairment of benefits, or a mutually satisfactory solution is reached. The Commission shall, unless the Parties otherwise agree, include on its agenda the implementation of adopted recommendations or rulings, including those cases where compensation has been provided or concessions or other obligations have been suspended, but the recommendations to bring a measure into conformity with the Agreement have not been implemented.

8. (a) After a Party has suspended concessions or other obligations pursuant with this Agreement, the Party complained against may request a termination of such suspension on the grounds that it has eliminated the inconsistency or the nullification or impairment of benefits under this Agreement identified in the recommendations or rulings of the panel. The Party complained against shall include with any such request a written notice describing in detail the measures it has taken, providing the text of the relevant measures. If the Parties agree that the Party complained against has eliminated the inconsistency or the nullification or impairment of benefits, the authorization to suspend concessions or other obligations shall terminate.

(b) Where there is disagreement between the Parties as to the existence or consistency with the Agreement of measures taken to comply with the recommendations or rulings of the panel in the dispute, such disagreement shall be resolved through recourse to the dispute settlement procedures provided for in Article XIII.17. If the compliance panel finds that the measures taken to comply are not inconsistent with the Agreement and comply with the recommendations or rulings of the panel in the dispute, it shall withdraw the authorization to suspend concessions or other obligations.

(c) The complaining Party shall not maintain the suspension of concessions and other obligations after the panel withdraws the authorization.

9. The dispute settlement provisions of this Agreement may be invoked in respect of measures affecting their observance taken by regional or local governments or authorities within the territory of a Party. When a compliance panel has ruled that a provision of the Agreement has not been observed, the responsible Party shall take such reasonable measures as may be available to it to ensure its observance. The provisions of this Chapter relating to compensation and suspension of concessions or other obligations apply in cases where it has not been possible to secure such observance.

Section III - Domestic Proceedings and Private Commercial Dispute Settlement

Article XIII.19 Referrals of Matters from Judicial or Administrative Proceedings

1. If an issue of interpretation or application of this Agreement arises, in any domestic judicial or administrative proceeding of a Party, that either Party considers would merit its intervention, or if a court or administrative body solicits the views of a Party, that Party shall notify its Section of the Secretariat and the other Party. The Commission shall endeavour to agree on an appropriate response as expeditiously as possible.
2. The Party in whose territory the court or administrative body is located shall submit any agreed interpretation of the Commission to the court or administrative body in accordance with the rules of that forum.
3. If the Commission is unable to agree, each Party may submit its own views to the court or administrative body in accordance with the rules of that forum.

2. To this end, each Party shall provide appropriate procedures to ensure observance of agreements to arbitrate and for the recognition and enforcement of arbitral awards in such disputes.
3. A Party shall be deemed to be in compliance with paragraph 2 if it is a party to and is in compliance with the 1958 *United Nations Convention on the Recognition and Enforcement of Foreign Arbitral Awards* or the 1975 *Inter-American Convention on International Commercial Arbitration*.
4. The Commission shall establish an Advisory Committee on Private Commercial Disputes comprising persons with expertise or experience in the resolution of private international commercial disputes. A Party may have recourse to dispute settlement under this Chapter if such Party considers that any benefit it could reasonably have expected to accrue to it under any provision of Part Two (Trade in Goods) is being nullified or impaired as a result of the application of any measure that is not inconsistent with this Agreement.
2. In any such dispute, the Panel shall take into consideration the jurisprudence interpreting Article XXIII.1.b) of the GATT 1994.

PART SEVEN: OTHER PROVISIONS

3. Notwithstanding paragraph 2:
