**Article 2.2
Scope**

This Chapter shall apply to trade in goods between the Parties.

**Article 2.3
National Treatment**

1. Each Party shall accord national treatment to the goods of the other Party in accordance with Article III of the GATT 1994, including its Notes and Supplementary Provisions. To this end, the obligations contained in Article III of the GATT 1994, including its Notes and Supplementary Provisions, are incorporated into and made part of this Agreement, *mutatis mutandis*.
2. For greater certainty, the treatment to be accorded by a Party under paragraph 1 of this Article means, with respect to a regional level of government, treatment no less favourable than the most favourable treatment that regional level of government accords to any like, directly competitive, or substitutable goods, as the case may be, of the Party of which it forms a part.

**Article 2.4
Customs Duty**

1. For the purposes of this Chapter, a customs duty includes any duty or charge of any kind imposed on or in connection with the importation or exportation of a good, including any form of surtax or surcharge imposed on or in connection with such importation or exportation, but excluding that as set out in paragraph 2 of this Article.

 - (a) charge equivalent to an internal tax imposed consistently with Article 2.3 (National Treatment);
 - (b) duty imposed consistently with Chapter 3 (Trade Remedies);
 - (c) duty applied consistently with Article 5 of the Agreement on Agriculture and the DSU;

Article 2.5

The classification of goods in trade between the Parties shall be governed by each Party’s respective tariff nomenclature in conformity with the HS and its amendments.

SECTION 2-B
REDUCTION AND/OR ELIMINATION OF CUSTOMS DUTIES

Article 2.6
Reduction and/or Elimination of Customs Duties on Imports

1. Each Party shall reduce and/or eliminate its customs duties on imported goods originating in the other Party in accordance with the Schedules in Annex 2-A (Elimination of Customs Duties). For the purposes of this Chapter, “originating” means in accordance with the rules of origin set out in Protocol 1 (Concerning the Definition of the Concept of “Originating Product” and Methods of Administrative Co-operation).
2. The base rate of customs duties on imports to which the successive reductions are to be applied under paragraph 1 of this Article, shall be that specified in the Schedules in Annex 2-A (Elimination of Customs Duties).
3. If at any moment a Party reduces its applied most favoured nation (“MFN”) customs duty rates on imports after the date of the entry into force of this Agreement, that duty rate shall apply if and for as long as it is lower than the customs duty rate on imports calculated in accordance with its Schedule in Annex 2-A (Elimination of Customs Duties).

4. Three years after the date of the entry into force of this Agreement, or at the request of either Party, the Parties shall consult to consider accelerating the elimination of customs duties set out in the Schedules in Annex 2-A (Elimination of Customs Duties).
5. An agreement between the Parties to accelerate the elimination of a customs duty on an originating good shall supersede any duty rate or staging category determined pursuant to their respective Schedules in Annex 2-A (Elimination of Customs Duties) for that good.
6. A Party may at any time unilaterally accelerate the elimination of customs duties on originating goods set out in its Schedule in Annex 2-A (Elimination of Customs Duties).

Article 2.7

Elimination of Customs Duties and Taxes on Exports

Goods Re-Entered after Repair or Alteration

1. A Party shall not apply a customs duty to a good, regardless of its origin, that re-enters its territory after that good has been temporarily exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in the territory of the Party from which the good was exported for repair or alteration or has increased the value of the good
2. A Party shall not apply a customs duty to a good, regardless of its origin, admitted temporarily from the territory of the other Party for repair or alteration.
3. For the purposes of this Article, repair or alteration does not include an operation or process that:

 - (b) transforms an unfinished good into a finished good.

Article 2.9

Duty-Free Entry of Commercial Samples of Negligible Value and Printed Advertising Material

Each Party shall grant duty-free entry to commercial samples of negligible value¹ and printed advertising material imported from the territory of the other Party, regardless of their origin, but may require that:

1. Except as provided in the Schedules in Annex 2-A (Elimination of Customs Duties), upon the entry into force of this Agreement, a Party shall not increase any existing customs duty or introduce any new customs duty, on the importation of a good originating in the other Party. This shall not preclude either Party from raising a customs duty to the level established in its Schedule in Annex 2-A (Elimination of Customs Duties) following a unilateral reduction of its applied MFN customs duty rates on imports.
2. Paragraph 1 of this Article shall not apply to goods which are not subjected to tariff reduction/elimination under a Party's Schedule in Annex 2-A (Elimination of Customs Duties), unless otherwise provided in the same Schedule.
3. However, in the case of para-tariffs listed out in the Annex 2-A (Elimination of Customs Duties), paragraph 1 of this Article may be applied, on an exceptional basis, to mutually agreed specific tariff lines in the negative list.

SECTION 2-C
NON-TARIFF MEASURES

Article 2.11
Import and Export Restrictions

¹ For the purposes of this Article, “commercial samples of negligible value” shall be defined according to each Party's domestic legislation.

1. A Party shall not adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, in accordance with Article XI of GATT 1994, including its Notes and Supplementary Provisions. To this end Article XI of GATT 1994, its Notes and Supplementary Provisions are incorporated into and made part of this Agreement, *mutatis mutandis*.
2. The Parties understand that before taking any measures provided for in sub-paragraph 2(a) and sub-paragraph 2(c) of Article XI of GATT 1994, the Party intending to take the measures shall supply the other Party with all relevant information as far in advance as practicable, with a view to seeking a solution acceptable to the Parties. The Parties may agree on any means needed to put an end to the difficulties. If no agreement is reached within thirty (30) days of supplying such information, the Party intending to apply the measures under this Article may proceed to do so.
4. Notwithstanding paragraph 2 of this Article, where exceptional and critical circumstances requiring immediate action make prior information or examination impossible, the Party intending to take the measures may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.
5. The Parties understand that the rights and obligations in GATT 1994 incorporated by paragraph 1 of this Article prohibit, in any circumstances in which any other form of restriction is prohibited, a Party from adopting or maintaining:
 - (a) export price requirements, except as permitted in enforcement of countervailing and anti-dumping duty orders and undertakings;
 - (b) import licensing conditioned on the fulfilment of a performance requirement; or
 - (c) voluntary export restraints inconsistent with Article VI of GATT 1994, as implemented under Article 18 of the SCM Agreement and Article 8.1 of the Anti-Dumping Agreement.

3. For the avoidance of doubt, “remanufactured goods” under this Chapter shall be as defined in Article 14 (Treatment of Recovered Materials Used in Production of a Remanufactured Good) of Protocol 1 (Concerning the Definition of the Concept of “Originating Product” and Methods of Administrative Co-operation).

Article 2.13

Fees and Formalities Connected with Importation and Exportation

1. Each Party shall ensure, in accordance with Article VIII of GATT 1994, including its Notes and Supplementary provisions, that all fees and charges of whatever character (other than customs duties, and measures listed in sub-paragraph 2(a), sub-paragraph 2(b) and sub-paragraph 2(c) of Article 2.4 (Customs Duty)) imposed on or in connection with importation or exportation of goods:
 - (a) are limited in amount to the approximate cost of services rendered, which shall not be calculated on an *ad valorem* basis, and
 - (b) shall not represent an indirect protection to domestic goods or a taxation of imports or exports for fiscal purposes.
2. The obligation set out in sub-paragraph 1(a) of this Article shall be implemented pursuant to the transitional arrangements that each Party has provided for under the TFA. Notwithstanding the above, each Party shall fully implement the obligation in sub-paragraph 1(a) of this Article no later than five (5) years from the date of entry into force of the TFA or at any time earlier as notified by that Party to the WTO.
3. Each Party shall make available via an officially designated medium, including through the internet, fees and charges it imposes in connection with importation or exportation.
4. A Party shall not require consular transactions², including related fees and charges, in connection with the importation of any good of the other Party.
5. Each Party shall periodically review its fees and charges with a view to reducing their number and diversity, where practicable.

Article 2.14

Import and Export Licensing Procedures

1. The Parties affirm their existing rights and obligations under the Import Licensing Agreement.

² “Consular transactions” means the procedure of obtaining from a consul of the importing Party in the territory of the exporting Party, or in the territory of a non-Party, a consular invoice or a consular visa for a commercial invoice, certificate of origin, manifest, shippers’ export declaration or any other customs documentation in connection with the importation of the good.

2. The Parties shall introduce and administer any import or export licensing procedures³ in accordance with:

- (a) Paragraphs 1 to 9 of Article 1 of the Import Licensing Agreement;
- (b) Article 2 of the Import Licensing Agreement; and
- (c) Article 3 of the Import Licensing Agreement.

To this end, the provisions referred to in sub-paragraphs (a), (b) and (c) of this paragraph are incorporated into and made part of this Agreement. The Parties shall apply those provisions, *mutatis mutandis*, for any export licensing procedures.

3. The Parties shall ensure that all export licensing procedures are neutral in application and administered in a fair, equitable, non-discriminatory and transparent manner.

4. Each Party shall respond within sixty (60) days to a reasonable enquiry from the other Party regarding:

- (a) any licensing procedures which the Party intends to adopt, or has adopted or maintained; or
- (b) the criteria for granting and/or allocating import or export licenses.

Article 2.15 State Trading Enterprises

1. The Parties affirm their existing rights and obligations under Article XVII of GATT 1994, its Notes and Supplementary Provisions and the *Understanding on the Interpretation of Article XVII of the GATT 1994*, contained in Annex 1-A to the WTO Agreement, which are hereby incorporated into and made part of this Agreement, *mutatis mutandis*.

2. A Party may request information from the other Party bilaterally as foreseen in sub-paragraph 4(c) and sub-paragraph 4(d) of Article XVII of GATT 1994.

3. Neither Party shall apply any measure that is subject to the requirements under paragraph 2 of this Article to food purchased for non-commercial humanitarian purposes.

SECTION 2-D SPECIFIC EXCEPTIONS RELATED TO GOODS

³ For the purposes of this Article, “non-automatic licensing procedures” means licensing procedures where approval of the application is not granted for all legal and natural persons who fulfil the requirements of the Party concerned for engaging in import or export operations involving the goods subject to licensing procedures.

Article 2.16
General Exceptions

1. Nothing in this Chapter prevents the taking of measures in accordance with Article XX of GATT 1994, its Notes and Supplementary Provisions, which are hereby incorporated into and made part of this Agreement, *mutatis mutandis*.
2. The Parties understand that before taking any measures provided for in paragraphs (i) and (j) of Article XX of GATT 1994, the exporting Party intending to take the measures shall supply the other Party with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties may agree on any means needed to put an end to the difficulties. If no agreement is reached within thirty (30) days, the exporting Party may apply measures under this Article on the exportation of the good concerned. Where exceptional and critical circumstances requiring immediate action make prior information or examination impossible, the Party intending to take the measures may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

2. Each Party shall provide that if a good is subject to a regional value content requirement, the value of the packaging materials and containers in which the good is packaged for retail sale, if classified with the good, are taken into account as originating or non-originating, as the case may be, in calculating the regional value content of the good.

Article 16 **Packing Materials and Containers for Shipment**

Each Party shall provide that packing materials and containers for shipment are disregarded in determining whether a good is originating

SECTION 3 **TERRITORIAL REQUIREMENTS**

3. In cases of belated submission of Certificates of Origin in circumstances other than those provided for in paragraph 2 of this Article, the customs authorities of the importing Party may accept the Certificates of Origin where the products have been imported before the expiry of the period of validity specified in paragraph 1 of this Article.

Article 23

Claims for Preferential Treatment

1. Each Party shall require an importer in its territory that claims preferential tariff treatment for a good imported into its territory from the territory of the other Party to:
 - (a) make a declaration for preference as part of the import application prescribed by its legislation, based on importer’s knowledge or information including a valid Certificate of Origin, that the good qualifies as an originating good;
 - (b) submit the Certificate of Origin or other documentary evidence of origin at the time of the declaration referred to in sub-paragraph (a) above, to its customs authorities upon request; and
 - (c) promptly make a corrected declaration and pay any duties owing, where the importer has reason to believe that a Certificate of Origin on which a declaration was based contains information that is incorrect.

2. Each Party shall provide that the importing Party applies preferential tariff treatment only in cases where an importer proves the accuracy of origin of the imported goods through documentary evidence or any other relevant information in accordance with its laws and regulations.
3. A Party may deny preferential tariff treatment to an imported good if the importer fails to comply with requirements of this Protocol.
4. The importing Party shall grant preferential tariff treatment to goods imported after the date of entry into force of this Agreement, in cases where the importer does not have the Certificate of Origin or other documentary evidence of origin at the time of importation, provided that⁴:
 - (a) the importer had, at the time of importation, indicated to the customs authorities of the importing Party his intention to claim preferential tariff treatment; and
 - (b) the Certificate of Origin or other documentary evidence of origin is submitted to its customs authorities within such period from the date of payment of customs duties in accordance with the domestic laws and regulations in the importing Party.

Article 24 **Importation by Instalments**

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing Party, dismantled or non-assembled products are imported by instalments, a single Certificate of Origin for such products may be submitted to the customs authorities upon importation of the first instalment.

Article 25 **Waiver of Certificates of Origin**

Each Party shall provide that a Certificate of Origin shall not be required for the importation of any good whose custom value does not exceed US\$400 or its equivalent amount in the Party's currency; or such higher amount as may be established by a Party which is importing, provided that the importation does not form part of a series of importations that may reasonably be considered to have been undertaken or arranged for the purpose of avoiding the declaration requirements.

⁴ For greater certainty, a Party may require, as a condition for the release of the goods, a guarantee in the form of a surety, a deposit or other appropriate instrument provided for in its laws and regulations. Such guarantee shall not be greater than the amount required by the Party to ensure payment of customs duties, taxes, fees and charges ultimately due for the goods should preferential treatment not be granted.

Article 26
Preservation of Certificates of Origin and Supporting Documents

1. Each Party shall provide that an exporter and a producer in its territory that has obtained a Certificate of Origin shall maintain in its territory, for three (3) years after the date on which the Certificate of Origin was issued or for such longer period as the Party may specify, all records relating to the origin of a good for which preferential tariff treatment was claimed in the territory of the other Party, including records associated with:
 - (a) the purchase of, cost of, value of, shipping of, and payment for, the good that is exported from its territory;

3. Each Party shall permit, in accordance with that Party's laws and regulations, exporters in its territory to maintain documentation or records in any medium, provided that the documentation or records can be retrieved and printed.

Article 27
Discrepancies and Formal Errors

1. The discovery of slight discrepancies between the statements made in the Certificate of Origin and those made in the documents submitted to the customs authorities for the purposes of carrying out the formalities for importing the products shall not *ipso facto* render the Certificate of Origin null and void if it is duly established that this document does correspond to the products imported.
2. Obvious formal errors such as typing errors on a Certificate of Origin should not cause the document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in the document.

SECTION 5

ARRANGEMENTS FOR ADMINISTRATIVE CO-OPERATION

Article 28

Co-operation between Competent Authorities

1. The customs authorities of the Parties shall provide each other with the addresses of the competent authorities responsible for verification.
2. In order to ensure the proper application of this Protocol, the Parties shall assist each other, through their competent authorities, in checking the authenticity of the origin declarations and the correctness of the information given in these documents.

 - (b) request for Cost and Production Statement and information from an exporter or a producer in the territory of the other Party through the other Party's competent authorities;
 - (c) visit to the premises of an exporter or a producer in the territory of the other Party to review the records referred to in paragraph 1 of Article 26 (Preservation of Certificates of Origin and Supporting Documents) and observe the facilities used in the production of the good, or to that effect any facilities used in the production of the materials; or
 - (d) such other procedure as the Parties may agree to.
2. The importer, exporter or producer that receives a written request pursuant to subparagraphs 1(a) or 1(b) of this Article shall answer and return it within a period of sixty (60) days from the date on which it was received. During this period, the importer, exporter or producer may have one opportunity to make a written request to the Party conducting the verification for an extension of the answering period, for a period not exceeding thirty (30) days.

3. In the case where the importer, exporter, or producer does not return the written request for information made by the importing Party within the given period or its extension, or that the information provided is false or incomplete, the Party may deny preferential tariff treatment.
4. Prior to conducting a verification visit pursuant to sub-paragraph 1(c) of this Article, a Party shall, through its customs authorities:
 - (a) deliver a written notification of its intention to conduct the visit to:

6. Each Party shall provide that, upon receipt of notification pursuant to paragraph 4 of this Article, such an exporter or producer may, within thirty (30) days of receiving the notification, have one opportunity to request to the Party conducting the verification for a postponement of the proposed verification visit, for a period not exceeding sixty (60) days. This extension shall be notified to the customs authorities of the importing and exporting Parties.
7. A Party shall not deny preferential tariff treatment to a good solely because a verification visit was postponed pursuant to paragraph 6 of this Article.
8. After the conclusion of a verification visit, the Party conducting the verification, shall provide the exporter or producer whose good was verified, with a written determination of whether the good is eligible for preferential tariff treatment, based on the relevant law and findings of fact.
9. Where verifications by a Party show that an exporter or producer repeatedly makes false or unsupported representations that a good imported into the Party's territory qualifies as an originating good, the Party may suspend the preferential tariff treatment to be accorded to subsequent shipment of identical good exported or produced by such a person until that person establishes that the shipment complies with this Protocol, in accordance with its domestic laws, regulations or practices. The importing Party shall inform the competent authorities of the exporting Party on the evidence and details of the suspension made.

Article 30
Third Party Invoices

The customs authorities of the importing Party may accept Certificates of Origin in cases where the sales invoice is issued either by a company located in a third country or by an exporter for the account of the said company, provided that the goods meet the requirements of this Protocol.

Article 31
Settlement of Disputes

1. Without prejudice to Chapter 16 (Dispute Settlement), where disputes arise in relation to the verification procedures of Article 29 (Verification) which cannot be settled between the competent authorities of both Parties, or where they raise a question as to the interpretation of this Protocol, such disputes or questions shall be submitted to the Joint Committee.
2. All disputes between the importer and the competent authorities of the importing Party shall be settled under the legislation of that Party.

Article 32
Penalties

Penalties shall be imposed in accordance with the relevant domestic legislation of the Parties on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining preferential treatment for goods.

SECTION 6

FINAL PROVISIONS

Article 33
Confidentiality

Each Party shall treat as confidential the information submitted in accordance with this Protocol by a person or authority of the other Party when such information is designated by that Party as confidential. Access to the said information may be refused where disclosure would undermine the protection of the commercial interest of the person that submitted the information.

Article 34
Amendments or Modifications to this Protocol

The Parties may amend the provisions of this Protocol in accordance with Article 17.10 (Amendments) of Chapter 17 (Institutional, General and Final Provisions).

Article 35
Transitional Provisions for Goods in Transit or Storage

This Agreement may be applied to goods which comply with the provisions of this Protocol and which on the date of entry into force of this Agreement are either in transit, in the Parties, in temporary storage, in customs warehouses or in free zones, subject to the submission to the customs authorities of the importing Party, no later than one (1) year after the import of the goods into the territory of that Party, of a Certificate of Origin made out retrospectively in accordance with Article 21 (Certification of Origin), and if requested together with the documents showing that the goods have been transported directly in accordance with Article 18 (Direct Consignment).

Article 36
Review and Appeal

The importing Party shall grant the right of appeal in matters relating to the eligibility for preferential tariff treatment to importers of goods traded or to be traded between the Parties, in accordance with its domestic laws, regulations and administrative practices.

ANNEX A

INTRODUCTORY NOTES TO THE LIST OF PRODUCT SPECIFIC RULES IN ANNEX B

Note 1 – General introduction

- 1.1 The specific rule, or specific set of rules, that applies to a particular subheading is set out immediately adjacent to the subheading, heading, or chapter, as applicable.
- 1.2 Where a tariff heading or sub-heading is subject to alternative Product Specific Rules, it shall be sufficient to comply with one of the rules.
- 1.3 A requirement of a change in tariff classification applies only to non-originating materials.
- 1.4 For the purposes of Annex B:

“**subheading**” means the first six digits in the tariff classification number under the HS;

“**heading**” means the first four digits in the tariff classification number under the HS;
and

“**chapter**” means the first two digits in the tariff classification number under the HS.
- 1.5 For the purposes of column “Product Specific Rule” of Annex B:

“**CTSH**” means that all non-originating materials used in the production of the good have undergone a change in tariff classification at the 6-digit level; and

“**Refining**” means a refining process (chemical or physical), which entails eliminating the odour, taste, colour and acidity of a crude fat or oil.
- 1.6 Chapter Notes within Annex B apply to all headings or subheadings within the indicated chapter. Heading notes within Annex B apply to all subheadings within the indicated heading.
- 1.7 The first column in the list gives the heading number used in the HS. The second column in the list gives the subheading number used in the HS. For each entry, a rule is specified in column 4. Where, in some cases, the entry in column 2 is preceded by an “ex”, this signifies that the rules in column 4 apply only to the part of that subheading as described in column 3.

Note 2 – Examples of how to apply the rules

- 2.1. Article 5 (Sufficiently Worked or Processed Products) of this Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory located in the territory of a Party.

Note 3 – General provisions concerning certain goods

- 3.1 A fish, crustacean, mollusc or other aquatic invertebrate obtained in the territory of a Party is originating even if obtained from eggs, larvae, fry, fingerlings, parr, smolts or other immature fish at a post-larval stage that are imported from a non-Party.
- 3.2 Agricultural goods falling under Section II of the HS (Vegetable Products) which are grown or harvested in the territory of a Party shall be treated as originating even if grown from seeds, bulbs, rhizomes, rootstock, cuttings, slips, grafts, shoots, buds, or other live parts of plants imported from a non-Party.

Note 4 - Definition of specific processes carried out in respect of certain products of Chapters 27 to 39 of Annex B

- 4.1. A “**chemical reaction**” is a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. For the purposes of goods under the headings 39.01-39.15, this comprises all types of polymerization reactions.

The following are not chemical reactions:

- (a) dissolving in water or other solvents;
 - (b) the elimination of solvents, including solvent water; or
 - (c) the addition or elimination of water of crystallisation.
- 4.2 “**Atmospheric distillation**” means a separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapour then condensed into different liquefied fractions. Goods produced from petroleum distillation may include liquefied petroleum gas, naphtha, gasoline, kerosene, diesel/heating oil, light gas oils and lubricating oil.
- 4.3 “**Vacuum distillation**” means distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation. Vacuum distillation is used for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum. In some refineries, gas oils may be further processed into lubricating oils.

- 4.4 “**Direct blending**” means a process whereby various petroleum streams from processing units or petroleum components from holding or storage tanks are combined to create a finished product with pre-determined parameters.
- 4.5 “**Standards material**” (including a standard solution) is a preparation suitable for analytical, calibrating or referencing uses with precise degrees of purity or proportions certified by the manufacturer.
- 4.6 “**Mixing and blending**” means the deliberate and proportionally controlled mixing or blending (including dispersing) of materials to conform to predetermined specifications, that results in the production of a good having physical or chemical characteristics that are relevant to the purposes or uses of the good and are different from the input materials.
- 4.7 “**Change in particle size**” is the deliberate and controlled modification in particle size of a good, including micronizing by dissolving a polymer and subsequent precipitation, other than by merely crushing or pressing, resulting in a good with a defined particle size, defined particle size distribution or defined surface area, that is relevant to the purposes of the resulting good and with different physical or chemical characteristics from the input materials.
- 4.8 “**Purification**” means the elimination of eighty (80) percent of the content of existing impurities. This reduction or elimination of impurities could result in a good suitable for:
- (a) pharmaceutical, medicinal, cosmetic, veterinary, or food grade substances;
 - (b) chemical products and reagents for analytical, diagnostic or laboratory uses;
 - (c) elements and components for use in micro-elements;
 - (d) specialized optical uses;
 - (e) non toxic uses for health and safety
 - (f) biotechnical use
 - (g) carriers used in a separation process; or
 - (h) nuclear grade uses.
- 4.9 “**Isomer separation**” means the isolation or separation of isomers from mixtures of isomers.

**CHAPTER 3
TRADE REMEDIES**

**SECTION 3-A
ANTI-DUMPING AND COUNTERVAILING MEASURES**

**Article 3.1
Anti-Dumping, Subsidies and Countervailing Measures**

1. Each Party retains its rights and obligations under Article VI of the GATT 1994 and the Anti-Dumping Agreement and any amendment thereto. To this end, the provisions of the Anti-Dumping Agreement shall apply, *mutatis mutandis*, to the extent not specifically provided for in this Agreement.
2. Each Party retains its rights and obligations under Articles VI and XVI of GATT 1994 and the SCM Agreement, or any amendments thereto. To this end, the provisions of the SCM Agreement shall apply, *mutatis mutandis*, to the extent not specifically provided for in this Agreement.
3. The Parties, recognising that anti-dumping and countervailing measures can be abused to obstruct trade, agree that:
 - (a) such measures should be used in full compliance with the relevant WTO requirements and should be based on a fair and transparent system; and
 - (b) careful consideration may be given to the interests of the Party against which such a measure is to be imposed.
4. For the purpose of this Section, origin shall be determined in accordance with the non-preferential rules of origin of the Parties.

**Article 3.2
Practices Relating to Anti-Dumping and Countervailing Duty Proceedings**

1. Upon receipt by a Party's investigating authorities of a properly documented anti-dumping or countervailing duty application with respect to imports from the other Party, the Party shall immediately provide written notification of its receipt of the application to the other Party.

2. In any proceeding in which a Party's investigating authorities determine to conduct an in-person verification of information that is provided by a respondent¹, and that is pertinent to the calculation of anti-dumping duty margins or the level of a countervailable subsidy, the investigating authorities shall promptly notify each respondent of their intent, and:
 - (a) provide the respondent at least ten (10) working days' advance notice of the dates on which the investigating authorities intend to conduct an in-person verification of the information;
 - (b) at least five (5) working days prior to an in-person verification, provide to the respondent a document that sets out the topics the respondent should be prepared to address during the verification and that describes the types of supporting documentation to be made available for review; and
 - (c) after an in-person verification is completed, and subject to the protection of confidential information², issue a written report that describes the methods and procedures followed in carrying out the verification and the extent to which the information provided by the respondent was supported by the documents reviewed during the verification. The report shall be made available to all interested parties in sufficient time for the parties to defend their interests.
3. A Party's investigating authorities shall maintain a public file for each investigation and review that contains:
 - (a) all non-confidential documents that are part of the record of the investigation or review; and
 - (b) to the extent feasible without revealing confidential information, non-confidential summaries of confidential information that is contained in the record of each investigation or review.

The public file and a list of all documents that are contained in the record of the investigation or review shall be made physically available for inspection and copying during the investigating authorities' normal business hours or electronically available for download³.

4. If, in an anti-dumping or countervailing duty action that involves imports from the other Party, a Party's investigating authorities determine that a timely response to a

¹ For the purposes of this paragraph, "respondent" means a producer, manufacturer, exporter, importer, and, where appropriate, a government or government entity, that is required by a Party's investigating authorities to respond to an anti-dumping or countervailing duty questionnaire.

² For the purposes of this Chapter, "confidential information" includes information which is provided on a confidential basis and which is by its nature confidential, for example, because its disclosure would be of significant competitive advantage to a competitor or because its disclosure would have a significantly adverse effect upon a person supplying the information or upon a person from whom that person acquired the information.

³ Charges for the copies, if any, are limited in amount to the approximate cost of the services rendered.

request for information does not comply with the request, the investigating authorities, to the extent practicable in light of time limits established to complete the anti-dumping or countervailing duty action, shall inform the interested party that submitted the response of the nature of the deficiency and, provide that interested party with an opportunity to remedy or explain the deficiency. If that interested party submits further information in response to that deficiency and the investigating authorities find that the response is not satisfactory, or that the response is not submitted within the applicable time limits, and if the investigating authorities disregard all or part of the original and subsequent responses, the investigating authorities shall explain in the determination or other written document the reasons for disregarding the information.

5. Before a final determination is made, a Party's investigating authorities shall inform all interested parties of the essential facts that form the basis of the decision whether to apply definitive measures. Subject to the protection of confidential information, the investigating authorities shall use any reasonable means to disclose the essential facts, which includes a report summarising the data in the record, a draft or preliminary determination or some combination of those reports or determinations. Each interested party shall be granted the opportunity and sufficient time to review and respond to the disclosure of essential facts.

Article 3.3

Exemption from Investigation after Termination

Where an anti-dumping investigation in respect of goods from the other Party is terminated with negative final determination, no investigation shall be initiated on the same goods by the importing Party within one (1) year from the date of termination of the previous investigation, unless the pre-initiation examination indicates that the circumstances have changed.

Article 3.4

Lesser Duty Rule

Should a Party decide to impose any anti-dumping or countervailing duty, and such lesser duty would be adequate to remove the injury, the amount of final duty imposed shall not exceed that lesser duty.

Article 3.5

Consideration of Economic Interest

Anti-dumping or countervailing measures shall not be applied by a Party where, on the basis of the information made available during the investigation, it can clearly be concluded that it is not in the economic interest of the Party conducting the investigation to apply such measures. Economic interest shall take into account the situation of the domestic industry,

importers and their representative associations, representative users and representative consumer organisations, to the extent they have provided relevant information to the investigating authorities.

SECTION 3-B CO-OPERATION

Article 3.6 Areas of Co-operation

1. The Parties will endeavour, within available resources, to co-operate in preventing circumvention of trade remedies. The areas of co-operation are as follows:
 - (a) forwarding questionnaires and other documents to interested parties;
 - (b) exchanging information relating to investigations; and
 - (c) any other possible areas to be mutually agreed by the Parties.
2. This Section shall not be construed to require the other Party to furnish or allow access to confidential information pursuant to this Chapter, the disclosure of which it considers would:
 - (a) be contrary to the public interest as determined by its laws;
 - (b) be contrary to any of its laws, including but not limited to, those protecting personal data or financial affairs and accounts of individual customers of financial institutions;
 - (c) impede law enforcement; or
 - (d) prejudice legitimate commercial interests, which may include competitive position of particular enterprises, public or private.
3. Where a Party provides information to the other Party in accordance with this Section and designates the information as confidential, the Party receiving the information shall maintain the confidentiality of the information, use it only for the purposes specified by the Party providing the information, and not disclose it without specific written permission of the Party providing the information.
4. Chapter 16 (Dispute Settlement) and Article 17.1 (Joint Committee), Article 17.2 (Committees and Working Groups) and Article 17.4 (Decision-Making) of Chapter 17 (Institutional, General and Final Provisions) shall not apply to this Section.

**SECTION 3-C
GLOBAL SAFEGUARD MEASURES**

**Article 3.7
Application of Global Safeguard Measures**

1. Each Party retains its rights and obligations under Article XIX of the GATT 1994, the Safeguards Agreement and Article 5 of the Agreement on Agriculture. To this end, the provisions of the Safeguards Agreement shall apply, *mutatis mutandis*, to the extent not specifically provided for in this Agreement.
2. No Party shall apply, with respect to the same good, at the same time:
 - (a) a bilateral safeguard measure; and
 - (b) a measure under Article XIX of the GATT 1994 and the Safeguards Agreement.
3. For the purposes of this Section, origin shall be determined in accordance with the non-preferential rules of origin of the Parties.
4. When imposing safeguard measures, the Parties shall endeavour to impose them in a way that least affects their bilateral trade.
5. For the purposes of paragraph 4 of this Article, the Party intending to apply the definitive safeguard measures may notify the other Party and give the possibility to hold bilateral consultations.
6. A Party that initiates a safeguard investigatory process shall provide to the other Party an electronic copy of the notification given to the WTO Committee on Safeguards under Article 12.1(a) of the Safeguards Agreement.

**SECTION 3-D
BILATERAL SAFEGUARD MEASURES**

**Article 3.8
Definitions**

For the purposes of this Section:

- (a) “**serious injury**” means a significant overall impairment in the position of a domestic industry;
- (b) “**threat of serious injury**” means a serious injury that is clearly imminent and

shall be understood in accordance with Article 4.1(b) of the Safeguards Agreement;

- (c) "**domestic industry**" means the producers as a whole of the like or directly competitive products, operating within the territory of a Party or those whose collective output of the like or directly competitive products constitutes a major proportion of the total domestic production of those products;
- (d) "**bilateral safeguard measure**" means a safeguard measure described in this Section.
- (e) "**transitional safeguard period**" means, in relation to a particular good, the period from the entry into force of this Agreement until three years after the customs duty on that good is to be fully eliminated in accordance with that Party's schedule of tariff commitments set out in Annex 2-A (Elimination of Customs Duties);
- (f) "**Competent Authority**" means the investigating authorities as determined by each Party.

Article 3.9 **Application of Bilateral Safeguard Measures**

1. Only during the transitional safeguard period, if, as a result of the reduction or elimination of a customs duty under this Agreement, originating goods of a Party are being imported into the territory of the other Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause or threaten to cause serious injury to a domestic industry producing like or directly competitive goods, the importing Party may adopt measures provided for in paragraph 2 of this Article in accordance with the conditions and procedures laid down in this Section.
2. The importing Party may take a bilateral safeguard measure which:
 - (a) suspends further reduction of the rate of customs duty on the good concerned provided for under Annex 2-A (Elimination of Customs Duties); or
 - (b) increases the rate of customs duty on the good concerned to a level which does not exceed the lesser of:
 - (i) the MFN applied rate of customs duty on the good in effect at the time the measure is taken; or
 - (ii) the MFN applied rate of customs duty on the good in effect on the day immediately preceding the date of entry into force of this Agreement.

Article 3.10
Conditions and Limitations on the Imposition of Bilateral Safeguard Measures

1. The following conditions and limitations shall apply to an investigation or a measure described in Article 3.9 (Application of Bilateral Safeguard Measures):
 - (a) A Party shall immediately deliver written notice to the other Party upon:
 - (i) initiating an investigatory process relating to serious injury or threat thereof and the reasons for it;
 - (ii) making a finding of serious injury or threat thereof caused by increased imports; and
 - (iii) taking a decision to apply or the imposition or the extension of bilateral safeguard measures;
 - (b) in making the notification referred to in sub-paragraph (a) above, the Party proposing to apply a bilateral safeguard measure shall provide the other Party with all pertinent information, as applicable;
 - (c) a Party proposing to apply a measure shall provide an opportunity for prior consultations with the other Party as far in advance of taking any such measure as practicable with a view to reviewing the information arising from the investigation, and exchanging views on the measure including preliminary views on compensation as set out in Article 3.12 (Compensation).
2. A Party shall apply a bilateral safeguard measure only following an investigation by its Competent Authorities in accordance with Article 3, Article 4.2(a) and Article 4.2(c) of the Safeguards Agreement and to this end, Article 3, Article 4.2(a) and Article 4.2(c) of the Safeguards Agreement shall apply, *mutatis mutandis*, to the extent not specifically provided for in this Agreement.
3. The determination referred to in Article 3.9 (Application of Bilateral Safeguard Measures) shall not be made unless the investigation demonstrates on the basis of objective evidence the existence of a causal link between increased imports from the other Party and serious injury or threat thereof. In this respect, due consideration shall be given to other factors, including imports of the same product from other countries.
4. Each Party shall ensure that its Competent Authorities complete any such investigation within one (1) year from the date of its initiation.
5. Neither Party may apply a bilateral safeguard measure as set out in paragraph 1 of Article 3.9 (Application of Bilateral Safeguard Measures):

- (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
 - (b) for a period exceeding two (2) years, except that the period may be extended up to an additional two (2) years (provided that the total period of application of a bilateral safeguard measure, including the period of initial application and any extension thereof, shall not exceed four (4) years), if the Competent Authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the bilateral safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting; or
 - (c) no measure shall be applied in the first year after the commencement of the tariff reduction or tariff elimination comes into force as negotiated under this Agreement.
6. No bilateral safeguard measure shall be applied again to the import of the same good during the transitional safeguard period, unless a period of time equal to half of the period during which the bilateral safeguard measure was applied previously has elapsed.
7. In accordance with Article 3.7 (Application of Global Safeguard Measures), no bilateral safeguard measure shall be taken against a good while a global safeguard measure in respect of that good is in place; in the event that a global safeguard measure is taken in respect of a good, any existing bilateral safeguard measure which is taken against that good shall be terminated.
8. Upon the termination of a bilateral safeguard measure, the rate of duty shall be the rate which would have been in effect, as per the reduction schedule, but for the action.
9. No bilateral safeguard measure shall be taken beyond the expiration of the transitional safeguard period.

Article 3.11 Provisional Measures

1. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a bilateral safeguard measure as per Article 3.9 (Application of Bilateral Safeguard Measures) of this Section on a provisional basis, without complying with the procedural requirements on consultations as per sub-paragraph 1(c) of Article 3.10 (Conditions and Limitations on the Imposition of Bilateral Safeguard Measures)], pursuant to a preliminary determination that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports cause serious injury, or threat thereof, to the domestic industry.

2. The duration of any provisional measure shall not exceed two hundred (200) days, during which time the Party shall comply with the requirements of paragraphs 2 and 3 of Article 3.10 (Conditions and Limitations on the Imposition of Bilateral Safeguard Measures). The Party shall promptly refund any tariff increases if the investigation described in paragraph 2 of Article 3.10 (Conditions and Limitations on the Imposition of Bilateral Safeguard Measures) does not result in a finding that the requirements of Article 3.9 (Application of Bilateral Safeguard Measures) are met. The duration of any provisional measure shall be counted as part of the period prescribed by sub-paragraph 5(b) of Article 3.10 (Conditions and Limitations on the Imposition of Bilateral Safeguard Measures).
3. If a Party takes a provisional measure pursuant to this Article, the Party shall, as far as practicable, notify the other Party in writing prior to taking such measure and shall initiate consultations with the other Party immediately after such measure is taken.

Article 3.12 Compensation

1. A Party applying a bilateral safeguard measure shall consult with the other Party in order to mutually agree on appropriate trade liberalising compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the bilateral safeguard measure. The Party applying the measure shall provide an opportunity for such consultations no later than thirty (30) days after the application of the bilateral safeguard measure.
2. If the consultations under paragraph 1 of this Article do not result in an agreement on trade liberalising compensation within thirty (30) days after the consultations have begun, the Party whose goods are subject to the bilateral safeguard measure may suspend the application of substantially equivalent concessions on the goods of the Party applying the bilateral safeguard measure. The exporting Party shall notify the other Party in writing at least thirty (30) days before suspending concessions under this paragraph.
3. The suspension of concessions as set out in paragraph 2 of this Article shall not be applicable if the bilateral safeguard measure is applied for:
 - (a) not more than two (2) years; or
 - (b) not more than three (3) years in consultation with the other Party, provided that the Party imposing the bilateral safeguard measure provides to the other Party substantial evidence that the industry concerned is adjusting during the first two years;

and provided that the bilateral safeguard measure conforms to the provisions of this Agreement.

CHAPTER 4 SANITARY AND PHYTOSANITARY MEASURES

Article 4.1 Objectives

The objectives of this Chapter are to protect human, animal, or plant life or health in the territory of the Parties, and to provide a framework to address any bilateral sanitary and phytosanitary (“SPS”) matters so as to facilitate and increase trade between the Parties.

- (c) will neither use the procedures established under this Chapter nor any requests for additional information, to delay, without scientific and technical justification, access to its market.

CHAPTER 5 TECHNICAL BARRIERS TO TRADE

Article 5.1 Objectives

The objective of this Chapter is to facilitate and increase trade in goods between the Parties, by providing a framework to prevent, identify and eliminate unnecessary barriers to trade within the scope of the TBT Agreement.

Article 5.2 Scope and Definitions

1. This Chapter shall apply to the preparation, adoption and application of all standards, technical regulations and conformity assessment procedures as defined in Annex 1 of the TBT Agreement, which may, directly or indirectly, affect trade in goods between the Parties, regardless of the origin of those goods.
2. Notwithstanding paragraph 1 of this Article, this Chapter shall not apply to:
 - (a) purchasing specifications prepared by governmental bodies for production or consumption requirements of such bodies; or
 - (b) sanitary and phytosanitary measures as defined in Annex A of the SPS Agreement which are covered by Chapter 4 (Sanitary and Phytosanitary Measures).
3. For the purposes of this Chapter, the definitions of Annex 1 to the TBT Agreement shall apply, *mutatis mutandis*.

Article 5.3 Affirmation and Incorporation of the TBT Agreement

The Parties affirm their existing rights and obligations with respect to each other under the TBT Agreement which is incorporated into and made part of this Agreement, *mutatis mutandis*.

Article 5.4 International Standards

1. In accordance with Article 2.4 and Article 5.4 of the TBT Agreement, each Party shall use relevant international standards, guides and recommendation, or relevant parts of them, as a basis for its technical regulations and conformity assessment procedures where relevant international standards exist or their completion is imminent, except

when, as duly explained upon request, such international standards, guides and recommendations or their relevant parts are ineffective or inappropriate to fulfil legitimate objectives.

2. In determining whether an international standard, guide, or recommendation within the meaning of Article 2, Article 5 and Annex 3 of the TBT Agreement exists, each Party shall apply the principles set out in the *Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the Agreement*, adopted by the WTO Committee on Technical Barriers to Trade, G/TBT/1/rev.12, 21 January 2015 and the subsequent revisions.
3. The Parties shall co-operate with each other, where appropriate, in the context of their participation in international standardising bodies to ensure that international standards developed within such bodies that are likely to become a basis for technical regulations are trade facilitating and do not create unnecessary obstacles to international trade.
4. The Parties undertake to exchange information on:
 - (a) their use of standards in support of technical regulations;
 - (b) each other's standardisation processes, and the extent of use of international standards or regional standards as a base for their national standards; and
 - (c) co-operation agreements implemented by either Party on standardisation, provided the information can be made available to the public.

Article 5.5 Technical Regulations

1. The Parties agree to make best use of good regulatory practice with regard to the preparation, adoption and application of technical regulations, as provided for in the TBT Agreement, including:
 - (a) when developing a technical regulation, to consider, *inter alia*, the impact of the envisaged technical regulation and the available regulatory and non-regulatory alternatives to the proposed technical regulation which may fulfil the Party's legitimate objectives;
 - (b) consistent with Article 2.4 of the TBT Agreement, to use, to the maximum extent possible, relevant international standards as a basis for their technical regulations, except when such international standards would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued; where international standards have not been used as a basis, to explain upon request to the other Party the reasons why such standards have been considered inappropriate or ineffective for the aim pursued; and

- (c) consistent with Article 2.8 of the TBT Agreement, wherever appropriate, to specify technical regulations based on product requirements in terms of performance rather than design or descriptive characteristics.

Article 5.6 **Conformity Assessment Procedures**

1. The Parties recognise that a broad range of mechanisms exist to facilitate the acceptance of the results of conformity assessment procedures, including but not limited to:
 - (a) the importing Party's reliance on a supplier's declaration of conformity;
 - (b) agreements on mutual acceptance of the results of conformity assessment procedures with respect to specific technical regulations conducted by bodies located in the territory of the other Party;
 - (c) unilateral recognition by a Party of the results of conformity assessment procedures conducted in the territory of the other Party;
 - (d) use of accreditation procedures to qualify conformity assessment bodies;
 - (e) government designation of conformity assessment bodies, including bodies located in the territory of the other Party;
 - (f) voluntary arrangements between conformity assessment bodies in the respective territories of each Party; and
 - (g) use of regional or international multilateral recognition agreements and arrangements of which both the Parties are signatories to.
2. Having regard in particular to those considerations:
 - (a) the Parties shall:
 - (i) intensify their exchange of information on these and other mechanisms with a view to facilitating the acceptance of conformity assessment results;
 - (ii) exchange information on the criteria used to select appropriate conformity assessment procedures for specific products and, in line with Article 5.1.2 of the TBT Agreement, require conformity assessment procedures that are not more strict or are not applied more strictly than necessary to give the importing Party adequate confidence that products conform with the applicable technical regulations or standards, taking account of the risks non-conformity would create;

- (iii) exchange information on accreditation policy, and consider how to make the best use of international standards for accreditation, and international agreements involving the Parties' accreditation bodies, for example, through the mechanisms of the *International Laboratory Accreditation Co-operation* ("ILAC") and the *International Accreditation Forum* ("IAF");
 - (iv) give positive consideration to accredit conformity assessment bodies in the territory of the other Party on terms no less favourable than those it accords to conformity assessment bodies in its territory, to the extent necessary to fulfil their obligations under the ILAC and the IAF; and
 - (v) ensure that, insofar as two or more conformity assessment bodies are authorised by a Party to carry out conformity assessment procedures required for placing the product on the market, economic operators may choose among them.
- (b) a Party shall, on the request of the other Party, explain in writing its reasons for not accepting the results of a conformity assessment procedure performed in the territory of that Party.
3. Before accepting the results of a conformity assessment procedure, and to enhance confidence in the continued reliability of each other's conformity assessment results, the Parties may consult on such matters as the technical competence of the conformity assessment bodies involved, as appropriate.
4. Upon request by either Party, the Parties may decide to engage in consultations with a view to defining sectoral initiatives regarding the use of conformity assessment procedures or the facilitation of acceptance of conformity assessment results that are appropriate for the respective sectors. The Party making the request should substantiate it with relevant information on how this sectoral initiative would facilitate trade between the Parties. In these consultations, all mechanisms described in paragraph 1 of this Article may be considered. Where a Party declines such a request from the other Party, it shall, upon request, explain its reasons.

Article 5.7 **Transparency**

1. The Parties reaffirm their transparency obligations under the TBT Agreement with regard to the preparation, adoption and application of standards, technical regulations and conformity assessment procedures.
2. The Parties agree, where a part of the process of developing a standard, technical regulation or conformity assessment procedure is open to public consultation, to take the other Party's views into account and, without discrimination, to provide reasonable opportunities for the other Party and its interested persons to make comments.

3. Where a Party makes a notification under Article 2.9 and Article 5.6 of the TBT Agreement, the Parties agree:
 - (a) to allow at least sixty (60) days following the notification for the other Party to provide comments in writing on the proposal and where practicable, to give appropriate consideration to reasonable requests for extending the comment period;
 - (b) to allow a period of not less than six (6) months between the publication of technical regulations or conformity assessment procedures and their entry into force for economic operators of the other Party to demonstrate the conformity of their goods with the relevant requirements of the technical regulation, except where urgent problems of safety, health, environmental protection or national security arise or threaten to arise;
 - (c) to ensure that its notifications contain sufficient detail about the likely content of the proposed technical regulations and conformity assessment procedures; and
 - (d) to include in the notification an explanation of the objectives of the proposal and how it would address those objectives.
4. The notification of technical regulations and conformity assessment procedures shall include an online link to, or a copy of, the complete text of the notified document in English.
5. Each Party shall publish all standards, technical regulations, and conformity assessment procedures in force.
6. Each Party shall make available, as appropriate and available, written guidance on compliance with its standards, technical regulations, and conformity assessment procedures to the other Party or its economic operators, upon request and without undue delay.
7. No later than the date of publication of a final technical regulation or conformity assessment procedure that may have a significant effect on trade, each Party shall, preferably electronically:
 - (a) make publicly available an explanation of the objectives and how the final technical regulation or conformity assessment procedure achieves them;
 - (b) provide as soon as possible, but no later than sixty (60) days after receiving a request from the other Party, a description of alternative approaches, if any, that the Party considered in developing the final technical regulation or conformity assessment procedure and the merits of the approach that the Party selected; and

- (c) provide as soon as possible, but no later than sixty (60) days after receiving a request from the other Party, a description of significant revisions, if any, that the Party made to the proposal for the technical regulation or conformity assessment procedure, including those made in response to comments.

Article 5.8 Market Surveillance

The Parties undertake to exchange information on market surveillance and enforcement activities.

Article 5.9 Marking and Labelling

1. For the purposes of this Article, and in accordance with paragraph 1 of Annex 1 of the TBT Agreement, a technical regulation may include or deal exclusively with marking or labelling requirements.
2. The Parties agree that, where their technical regulations contain mandatory marking or labelling, they will ensure that these are not prepared with a view to, or with the effect of, creating unnecessary obstacles to international trade, and should not be more trade restrictive than necessary to fulfil a legitimate objective, as referred to under Article 2.2 of the TBT Agreement.
3. For the purposes of this Agreement, where a Party requires mandatory marking or labelling of products:
 - (a) the Party shall endeavour to restrict its requirements only to those which are relevant for consumers or users of the product or to indicate the product's conformity with the mandatory requirements;
 - (b) the Party may specify the information to be provided on the label and may require compliance with certain regulatory requirements for the affixing of the label, but shall not require any prior approval or certification of labels and markings as a precondition for sale of the products in its market unless this is deemed necessary in the light of the risk of the product to human, animal or plant health or life;
 - (c) where the Party requires the use of a unique identification number by economic operators, the Party shall ensure that such numbers are issued to the relevant economic operators without undue delay and on a non-discriminatory basis;
 - (d) provided it is not misleading, contradictory or confusing in relation to the information required in the importing Party of the goods, the Party shall permit the following:

- (i) information in other languages in addition to the language required in the importing Party of the goods;
 - (ii) internationally-accepted nomenclatures, pictograms, symbols or graphics; and
 - (iii) additional information to that required in the importing Party of the goods;
- (e) in order to facilitate trade, the Party shall, in cases where it considers that legitimate objectives under the TBT Agreement are not compromised thereby and where applicable, endeavour to develop processes and procedures to accept alternative forms of labelling, such as electronic labels, non-permanent or detachable labels, or marking or labelling in the accompanying materials packaged with the product.
4. Without prejudice to the Parties' rights and obligations under the WTO Agreement, paragraph 3 of this Article shall apply to agricultural products, industrial products, and processed agricultural food products including beverages and spirits.

Article 5.10
Information Exchange

1. Each Party shall respond expeditiously to any enquiry from the other Party on standards, technical regulations or conformity assessment procedures relating to any goods and/or assessments of manufacturers or manufacturing processes of goods traded between the Parties. The explanation provided shall be given in print or electronically in English.
2. The Parties shall endeavour to resolve the matter as expeditiously as possible, recognising that the time required to resolve a matter will depend on a variety of factors, and that it may not be possible to resolve every matter through technical discussions.
3. Nothing in this Chapter shall be construed to require either Party to furnish or allow access to information the disclosure of which it considers would:
 - (a) be contrary to its essential security interests;
 - (b) be contrary to the public interest as determined by its domestic laws, regulations and administrative provisions;
 - (c) be contrary to any of its domestic laws, regulations and administrative provisions including but not limited to those protecting personal privacy or the financial affairs and accounts of individual customers of financial institutions;

 - (a) exchanging information and experiences on the preparation and application of their technical regulations and the use of good regulatory practice;

1. With a view to expediting the release of goods, the Parties shall adopt or maintain post-clearance audits to ensure compliance with customs and other related laws and regulations.
2. The Parties shall select a person or a consignment for post-clearance audit in a risk-based manner, which may include appropriate selectivity criteria. The Parties shall conduct post-clearance audits in a transparent manner. Where conclusive results of a post-clearance audit have been achieved, the Party conducting the post-clearance audit shall, without delay, notify the person whose record was audited of the audit results, the person's rights and obligations, and the reasons for the audit results, wherever practicable.

¹ In the case of Sri Lanka, this provision is subject to legislation being passed by Sri Lanka.

² This paragraph refers to pre-shipment inspections covered by the *Agreement on Preshipment Inspection*, and does not preclude pre-shipment inspections for sanitary and phytosanitary purposes.

3. The Parties shall, wherever practicable, use the result of post-clearance audit in applying risk management.

Article 6.13 Release of Goods

1. The Parties shall adopt or maintain procedures:
 - (a) providing for the release of goods within a period of time no greater than that required to ensure compliance with its customs laws;
 - (b) allowing, to the extent possible, goods to be released within forty-eight (48) hours of arrival; and
 - (c) allowing importers who have complied with the procedures that the relevant Party may have in place relating to the determination of value and payment of duty to obtain the release of goods from the customs authorities, but may require importers to provide security as a condition for the release of goods, when such security is required to ensure that obligations arising from the entry of the goods will be fulfilled.
2. The Parties shall:
 - (a) ensure that the amount of any security is no greater than that required to ensure that obligations arising from the importation of the goods will be fulfilled, and, where applicable, not in excess of the amount chargeable, based on tariff rates under domestic and international law, including this Agreement, and on valuation in accordance with the *Agreement on Implementation of Article VII of the General Agreement on Tariffs and Trade 1994*;
 - (b) ensure that any security shall be discharged as soon as possible after the relevant customs authorities are satisfied that the obligations arising from the importation of the goods have been fulfilled; and
 - (c) shall adopt procedures allowing:
 - (i) importers to provide security such as bank guarantees, bonds, or other non-cash financial instruments covering multiple entries; and
 - (ii) importers to provide security in any other forms specified by the relevant customs authorities.

Article 6.14
Electronic Payment

The Parties shall adopt or maintain procedures allowing the option of electronic payment for duties, taxes, fees, and charges collected by the relevant customs authorities incurred upon importation and exportation.

Article 6.15
Trade Facilitation Measures for Authorised Operators

1. The Parties shall provide additional trade facilitation measures related to import, export, or transit formalities and procedures, pursuant to paragraph 3 of this Article, to operators who meet specified criteria, hereinafter called authorised operators. Alternatively, a Party may offer such trade facilitation measures through customs procedures generally available to all operators and is not required to establish a separate scheme.
2. The specified criteria to qualify as an authorised operator shall be related to compliance, or the risk of non-compliance, and specified in a Party's laws, regulations or procedures.
 - (a) Such criteria, which shall be published, may include:
 - (i) an appropriate record of compliance with customs and other related laws and regulations;
 - (ii) a system of managing records to allow for necessary internal controls;
 - (iii) financial solvency, including, where appropriate, provision of a sufficient security or guarantee; and
 - (iv) supply chain security.
 - (b) Such criteria shall not:
 - (i) be designed or applied so as to afford or create arbitrary or unjustifiable discrimination between operators where the same conditions prevail; and
 - (ii) to the extent possible, restrict the participation of small and medium-sized enterprises.
3. The trade facilitation measures provided pursuant to paragraph 1 of this Article shall include at least three (3) of the following measures³:
 - (a) low documentary and data requirements, as appropriate;

³ A measure listed in sub-paragraphs 3(a) to 3(g) of this Article will be deemed to be provided to authorised operators if it is generally available to all operators.

- (b) low rate of physical inspections and examinations, as appropriate;
 - (c) rapid release time, as appropriate;
 - (d) deferred payment of duties, taxes, fees, and charges;
 - (e) use of comprehensive guarantees or reduced guarantees;
 - (f) a single customs declaration for all imports or exports in a given period; and
 - (g) clearance of goods at the premises of the authorised operator or another place authorised by the relevant customs authorities.
4. The Parties shall endeavour to develop authorised operator schemes on the basis of international standards, where such standards exist, except when such standards would be an inappropriate or ineffective means for the fulfilment of the legitimate objectives pursued.
 5. In order to enhance the trade facilitation measures provided to operators, a Party shall afford to the other Party the possibility of negotiating mutual recognition of authorised operator schemes.
 6. The Parties shall exchange relevant information about authorised operator schemes in force.

Article 7.2
Scope and Coverage

1. This Chapter applies to measures by a Party affecting trade in services.
2. This Chapter shall not apply to:
 - (a) subsidies or grants provided by a Party or to any conditions attached to the receipt or continued receipt of such subsidies or grants, whether or not such subsidies are offered exclusively to domestic services, service consumers or service suppliers, including government-supported loans, guarantees and insurance;
 - (b) a service supplied in the exercise of governmental authority within the territory of each Party;
 - (c) government procurement; or
 - (d) measures affecting air traffic rights, however granted; or to measures affecting services directly related to the exercise of air traffic rights, other than measures affecting:
 - (i) aircraft repair and maintenance services;
 - (ii) the selling and marketing of air transport services;
 - (iii) computer reservation system services;
3. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of a Party, nor shall it apply to measures regarding citizenship, residence or employment on a permanent basis.
4. Nothing in this Chapter shall prevent a Party from applying measures to regulate the entry of natural persons of the other Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits² accruing to the other Party under the terms of this Chapter.

² The sole fact of requiring a visa for natural persons of a certain nationality and not for those of others shall not be regarded as nullifying or impairing benefits under a specific commitment.

Article 7.3
Market Access

1. With respect to market access through the modes of supply defined in sub-paragraph (u) of Article 7.1 (Definitions), a Party shall accord services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its respective Schedule of Specific Commitments in Annexes 7-A (Sri Lanka) and 7-B (Singapore)³.
2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its respective Schedule of Specific Commitments in Annexes 7-A (Sri Lanka) and 7-B (Singapore), are:
 - (a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;
 - (b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test⁴;
 - (d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;
 - (e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and
 - (f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

³ If a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in Article 7.1(u)(i) and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market access commitment in relation to the supply of a service through the mode of supply referred to in Article 7.1(u)(iii), it is thereby committed to allow related transfers of capital into its territory.

⁴ Sub-paragraph 2(c) of Article 7.3 (Market Access) does not cover measures of a Party which limit inputs for the supply of services.

Article 7.4 National Treatment

1. In the sectors set out in its respective Schedule of Specific Commitments in Annexes 7-A (Sri Lanka) and 7-B (Singapore), and subject to any conditions and qualifications set out therein, a Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers⁵.
2. A Party may meet the requirement of paragraph 1 of this Article by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.
3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of a Party compared to like services or service suppliers of the other Party.

Article 7.5 Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Article 7.3 (Market Access) or Article 7.4 (National Treatment), including those regarding qualifications, standards or licensing matters. Such commitments shall be set out in a Party's Schedule of Specific Commitments in Annexes 7-A (Sri Lanka) and 7-B (Singapore).

Article 7.6 Schedule of Specific Commitments

1. Each Party shall set out in a Schedule the Specific Commitments it undertakes under Article 7.3 (Market Access), Article 7.4 (National Treatment) and Article 7.5 (Additional Commitments). With respect to sectors where such commitments are undertaken, each Schedule of Specific Commitments shall specify:
 - (a) terms, limitations and conditions on market access;
 - (b) conditions and qualifications on national treatment;
 - (c) undertakings relating to additional commitments;
 - (d) where appropriate, the time-frame for implementation of such commitments; and
 - (e) the date of entry into force of such commitments.

⁵ Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

2. Measures inconsistent with both Article 7.3 (Market Access) and Article 7.4 (National Treatment) shall be inscribed in the column relating to Article 7.3 (Market Access). In this case, the inscription will be considered to provide a condition or qualification to Article 7.4 (National Treatment) as well.
3. Each Party shall identify in its Schedule of Specific Commitments sectors or sub-sectors for future liberalisation with an ‘R’. In these sectors and subsectors, any applicable terms, conditions, limitations, qualifications and undertakings referred to in sub-paragraphs 1(a) through 1(c) of this Article shall be limited to measures that the Party maintains on the date of entry into force of this Agreement.
4. If a Party amends a measure referred to in paragraph 3 of this Article in a manner that reduces or eliminates the inconsistency of that measure with Article 7.3 (Market Access) or Article 7.4 (National Treatment), as it existed immediately before the amendment, or provides further liberalisation under Article 7.5 (Additional Commitments), that Party shall not subsequently amend that measure in a way that increases the measure’s inconsistency with Article 7.3 (Market Access) or Article 7.4 (National Treatment) or decreases liberalisation under Article 7.5 (Additional Commitments).
5. Each Party shall endeavour to inform the Joint Committee of its new level of commitment pursuant to such unilateral amendments. Such unilateral amendments shall, on the date that the unilateral amendment enters into force, form an integral part of that Party’s Schedule of Specific Commitments under this Chapter.
6. Paragraphs 3, 4 and 5 of this Article shall not apply to all Mode 4 commitments made by either Party in its Schedule of Specific Commitments. In respect of commitments made under Modes 1 to 3, paragraphs 3, 4 and 5 of this Article shall apply to all measures which fall under a sector or sub-sector that a Party identifies for future liberalisation with an “R” in its Schedule of Specific Commitments.
7. The Schedules of Specific Commitments shall be annexed to this Chapter as Annex 7-A for Sri Lanka and Annex 7-B for Singapore.

Article 7.7 **Domestic Regulation**

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.
2. Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of the other Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. The provisions of paragraph 2 of this Article shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.
4. Where authorisation is required for the supply of a service on which a specific commitment has been made, the competent authorities of a Party shall, within a reasonable period of time after the submission of an application considered complete under domestic laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application.
5. With the objective of ensuring that domestic regulation, relating to qualification requirements and procedures, technical standards and licensing requirements, does not constitute an unnecessary barrier to trade in services, the Parties shall jointly review the results of the negotiations on disciplines on these measures, pursuant to paragraph 4 of Article VI of the GATS, with a view to their incorporation into this Chapter. The Parties note that such disciplines aim to ensure that such requirements are, *inter alia*:
 - (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
 - (b) not more burdensome than necessary to ensure the quality of the service;
 - (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.
6. Pending the incorporation of disciplines pursuant to paragraph 5 of this Article, for sectors where a Party has undertaken specific commitments and subject to any terms, limitations, conditions or qualifications set out therein, a Party shall not apply licensing and qualification requirements and technical standards that nullify or impair such specific commitments in a manner which:
 - (a) does not comply with the criteria outlined in sub-paragraphs (a), (b) or (c) of paragraph 5 of this Article; and
 - (b) could not reasonably have been expected of that Party at the time the specific commitments in those sectors were made.
7. In determining whether a Party is in conformity with the obligation under paragraph 6 of this Article, account shall be taken of international standards of relevant international organisations⁶ applied by that Party.

⁶ The term "relevant international organisations" refers to international bodies whose memberships are open to the relevant bodies of the Parties.

**Article 7.8
Recognition**

1. For the purposes of the fulfilment of its standards or criteria for the authorisation, licensing or certification of services suppliers, a Party may recognise the education or experience obtained, requirements met, or licenses or certifications granted in the other Party.
2. The Parties shall encourage their relevant competent bodies to enter into negotiations on recognition of professional qualifications, licenses, or registration procedures with a view to the achievement of early outcomes.
3. Any arrangement reached pursuant to paragraph 2 of this Article shall be consistent with this Agreement.

**Article 7.9
Monopolies and Exclusive Service Suppliers**

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's Schedule of Specific Commitments.
2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's Schedule of specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.
3. If a Party has reason to believe that a monopoly supplier of a service of another Party is acting in a manner inconsistent with paragraphs 1 or 2 of this Article, it may request the Party establishing, maintaining or authorising such supplier to provide specific information concerning the relevant operations.
4. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:
 - (a) authorises or establishes a small number of service suppliers; and
 - (b) substantially prevents competition among those suppliers in its territory.

**Article 7.10
Business Practices**

1. The Parties recognise that certain business practices of service suppliers, other than those falling under Article 7.9 (Monopolies and Exclusive Service Suppliers), may restrain competition and thereby restrict trade in services.
2. A Party shall, at the request of the other Party, enter into consultations with a view to eliminating practices referred to in paragraph 1 of this Article. The Party addressed shall accord full and sympathetic consideration to such a request and shall cooperate

through the supply of publicly available non-confidential information of relevance to the matter in question. The Party addressed shall also provide other information available to the requesting Party, subject to its domestic laws and to the conclusion of satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 7.11 Payments and Transfers

1. Except under the circumstances envisaged in Article 7.12 (Restrictions to Safeguard the Balance-of-Payments), a Party shall not apply restrictions on international transfers and payments for current transactions relating to its specific commitments.
2. Nothing in this Chapter shall affect the rights and obligations of the Parties as members of the IMF under the *Articles of Agreement of the International Monetary Fund*, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on any capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 7.12 (Restrictions to Safeguard the Balance-of-Payments) or at the request of the IMF.

Article 7.12 Restrictions to Safeguard the Balance-of-Payments

1. In the event of serious balance-of-payments and external financial difficulties or threat thereof, a Party may adopt or maintain restrictions on trade in services in respect of which it has obligations under Article 7.3 (Market Access) and Article 7.4 (National Treatment), including on payments or transfers for transactions relating to such obligations. It is recognised that particular pressures on the balance-of-payments of a Party in the process of economic development may necessitate the use of restrictions to ensure, *inter alia*, the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development.
2. The restrictions referred to in paragraph 1 of this Article:
 - (a) shall not discriminate among WTO Members;
 - (b) shall be consistent with the *Articles of Agreement of the International Monetary Fund*;
 - (c) shall avoid unnecessary damage to the commercial, economic and financial interests of the other Party;
 - (e) shall not exceed those necessary to deal with the circumstances described in paragraph 1 of this Article;
 - (e) shall be temporary and be phased out progressively as the situation specified in paragraph 1 of this Article improves.

3. In determining the incidence of such restrictions, a Party may give priority to the supply of services which are more essential to its economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.
4. Any restrictions adopted or maintained under paragraph 1 of this Article, or any changes therein, shall be promptly notified to the other Party.
5. The Party adopting any restrictions under paragraph 1 of this Article shall commence consultations with the other Party in order to review the restrictions adopted by it.

Article 7.13 Transparency

1. Each Party shall publish promptly and, except in emergency situations, at the latest by the time of their entry into force, all relevant measures of general application which pertain to or affect the operation of this Chapter. International agreements pertaining to or affecting trade in services to which a Party is a signatory shall also be published.
2. Where publication as referred to in paragraph 1 of this Article is not practicable, such information shall be made otherwise publicly available.
3. Each Party shall respond promptly to all requests by the other Party for specific information on any of its measures of general application or international agreements within the meaning of paragraph 1 of this Article. Each Party shall also use the existing enquiry points or, when they do not exist, establish one or more enquiry points to provide specific information to the other Party, upon request, on all such matters.

Article 7.14 Disclosure of Confidential Information

Nothing in this Chapter shall require any Party to provide confidential information, the disclosure of which would impede law enforcement, or otherwise be contrary to the public interest, or which would prejudice legitimate commercial interests of particular enterprises, public or private.

Article 7.15 Relationship with Chapter 10 (Investment)

1. Chapter 10 (Investment) does not apply to measures adopted or maintained by a Party to the extent that they are covered by this Chapter.
2. Notwithstanding paragraph 1 of this Article, the following Articles and Section of Chapter 10 (Investment) shall apply, *mutatis mutandis*, to any measure affecting the

supply of services by a service supplier of a Party through commercial presence in the territory of the other Party:

- (a) Article 10.3 (Minimum Standard of Treatment);
- (b) Article 10.6 (Compensation for Losses);
- (c) Article 10.10 (Expropriation);
- (d) Article 10.11 (Transfers);
- (e) Article 10.12 (Subrogation); and
- (f) Section 10-B (Investment Disputes between a Party and an Investor),

but only to the extent that any such measures relate to a covered investment and an obligation under Chapter 10 (Investment), regardless of whether such a service sector is scheduled in the Party's Schedule of Specific Commitments in Annexes 7-A (Sri Lanka) and 7-B (Singapore).

Article 7.16 Denial of Benefits

1. Subject to prior notification and consultation, a Party may deny the benefits of this Chapter:
 - (a) to the supply of a service, if it establishes that the service is supplied from or in the territory of a non-Party;
 - (b) in the case of the supply of a maritime transport service, if it establishes that the service is supplied:
 - (i) by a vessel registered under the laws of a non-Party, and
 - (ii) by a person which operates and/or uses the vessel in whole or in part but which is of a non-Party;
 - (c) to a service supplier of the other Party where the Party establishes that the service supplier is owned or controlled by persons of a non-Party and that it has no substantive business operations in the territory of a Party.

ANNEX 7-B

SINGAPORE

SCHEDULE OF SPECIFIC COMMITMENTS

EXPLANATORY NOTES

1. The classification of service sectors in this schedule is based on the 1991 provisional Central Product Classification (CPC) of the United Nations Statistical Office unless otherwise indicated by the absence of a CPC number. The ordering reflects the services sectoral classification list as used in the GATT document MTN.GNS/W/120 dated 10 July 1991. The scheduling of specific commitments follows the guidelines stated in GATT documents MTN.GNS/W/164 dated 3 September 1993 and MTN.GNS/W/164/Add.1 dated 30 November 1993.
2. The use of “***” against individual CPC codes indicates that the specific commitment for that code shall not extend to the total range of services covered under that code.
3. The list of commitments below (hereinafter referred to as “this Schedule”) indicates the service sectors liberalised pursuant to Article 7.6 (Schedule of Specific Commitments), and, by means of reservations, the market access and national treatment limitations that apply to services and service suppliers of Sri Lanka in those sectors. This Schedule is composed of the following elements:
 - (a) the first column indicating the sector or subsector in which the commitment is undertaken by Singapore, and the scope of liberalisation to which the reservations apply;
 - (b) the second column describing the applicable reservations to Article 7.3 (Market Access) in the sector or subsector indicated in the first column;
 - (c) the third column describing the applicable reservations to Article 7.4 (National Treatment) in the sector or subsector indicated in the first column; and
 - (d) the fourth column describing specific commitments on measures affecting the cross-border supply of services and establishment in service sectors not subject to scheduling under Article 7.3 (Market Access) and Article 7.4 (National Treatment).
4. Notwithstanding Article 7.3 (Market Access), non-discriminatory requirements as regards the types of legal form of an establishment do not need to be specified in this Schedule in order to be maintained or adopted by Singapore.
5. This Schedule does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements when they do not constitute a market access or a national treatment limitation within the meaning of Article 7.3 (Market Access) and Article 7.4 (National Treatment). Those measures (e.g. need to obtain a license, universal service obligations, need to obtain recognition

of qualifications in regulated sectors, and need to pass specific examinations, including language examinations and need to have a legal domicile in the territory where the economic activity is performed), even if not listed, apply in any case to services and service suppliers of Sri Lanka.

6. This Schedule shall not apply to measures affecting State Land, and to the alienation and divestment of real estate owned by the State.
7. In accordance with Article 7.2 (Scope and Coverage), this Schedule shall not apply to subsidies or grants provided by a Party, including government-supported loans, guarantees and insurance; or to any conditions attached to the receipt or continued receipt of such subsidies or grants, whether or not such subsidies are offered exclusively to domestic services, service consumers or service suppliers.

ANNEX 7-C

FINANCIAL SERVICES

1. Scope and Definition

- (a) This Annex applies to measures affecting the supply of financial services. Reference to the supply of a financial service in this Annex shall mean the supply of a service as defined in sub-paragraph (t) of Article 7.1 (Definitions).
- (b) For the purposes of sub-paragraph (a) of Article 7.1 (Definitions), “**a service supplied in the exercise of governmental authority**” means the following:
 - (i) activities conducted by a central bank or monetary authority or by any other public entity in pursuit of monetary or exchange rate policies;
 - (ii) activities forming part of a statutory system of social security or public retirement plans; and
 - (iii) activities conducted by a public entity for the account or with the guarantee or using the financial resources of the Government.
- (c) For the purposes of sub-paragraph (a) of Article 7.1 (Definitions), if a Party allows any of the activities referred to in sub-paragraphs (b)(ii) or (b)(iii) of this paragraph to be conducted by its financial service suppliers in competition with a public entity or a financial service supplier, “**services**” shall include such activities.
- (d) Sub-paragraphs (b), (d), (o) and (v) of Article 7.1 (Definitions) shall not apply to services covered by this Annex.
- (e) For the purposes of this Annex, references to “*service supplier of the other Party*” and “*service supplier*” in Chapter 7 (Trade in Services), shall mean “**financial service supplier of the other Party**” and “**financial service supplier**” respectively, as defined in paragraph 7 of this Annex.

2. Domestic Regulation

- (a) Notwithstanding any other provisions of this Agreement, a Party shall not be prevented from adopting or maintaining measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform to the provisions of this Agreement, they shall not be used as a means of avoiding the Party’s commitments or obligations under the Agreement.
- (b) Nothing in this Agreement shall be construed to require a Party to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

3. Recognition

- (a) A Party may recognise prudential measures of the other Party or of a non-Party in the application of measures covered by this Chapter. Such recognition may be:
 - (i) accorded unilaterally;
 - (ii) achieved through harmonisation or other means; or
 - (iii) based upon an agreement or arrangement with the other Party or a non-Party.
- (b) A Party according recognition of prudential measures under sub-paragraph (a) above shall provide adequate opportunity to the other Party to demonstrate that circumstances exist in which there are or would be equivalent regulation, oversight, implementation of regulation, and, if appropriate, procedures concerning the sharing of information between the Parties.
- (c) Where a Party accords recognition of prudential measures under sub-paragraph (a)(iii) above with a non-Party and the circumstances set out in sub-paragraph (b) above exist, the Party shall provide adequate opportunity to the other Party to negotiate accession to the agreement or arrangement, or to negotiate a comparable agreement or arrangement.

4. New Financial Services

Each Party shall permit a financial service supplier of the other Party established in its territory to supply any new financial service of a type similar to those services that it would permit its own financial service suppliers, in like circumstances, to supply under its domestic law. A Party may determine the institutional and juridical form through which the new financial services may be supplied and may require authorisation for the supply of the service. Where a Party requires such authorisation of the new financial services, it shall give its decision within a reasonable time and the authorisation may only be refused for prudential reasons.

5. Transparency

- (a) Each Party shall ensure that measures of general application relating to supply of financial services are promptly published or otherwise made available in a manner so as to enable interested persons to become acquainted with them.
- (b) To the extent practicable, and in accordance with its domestic law, each Party shall:
 - (i) publish in advance any measure of general application relating to supply of financial services that it proposes to adopt and the purpose of the measure; and
 - (ii) provide interested persons with a reasonable opportunity to comment on such proposed measures.
- (c) To the extent practicable, each Party shall allow a reasonable time between the

publication of final measures of general application relating to supply of financial services and their effective date.

- (d) Each Party shall ensure that all measures of general application relating to supply of financial services are administered in a reasonable, objective and impartial manner.
- (e) Each Party shall maintain appropriate mechanisms for responding to enquires from interested persons regarding measures of general application relating to supply of financial services.

6. Dispute Settlement

Persons appointed to arbitration panels under Chapter 16 (Dispute Settlement) for disputes on obligations in financial services matters under this Agreement shall have the necessary expertise or experience relevant to the specific financial service under dispute, and be chosen strictly on the basis of objectivity, reliability and sound judgment.

7. Modification of Commitments for Financial Services

- (a) A Party (referred to in the following sub-paragraphs as the “**modifying Party**”) may, in accordance with sub-paragraphs (b) and (c) below, modify or add to its commitments for Financial Services as set out in its Schedule of Specific Commitments for Trade in Services.
- (b) Such modifications or additions shall not:
 - (i) be introduced for the purpose of affording undue protection to financial institutions of the modifying Party; and
 - (ii) discriminate between the other Party and any non-Party, except for measures that accord differential treatment to that non-Party under any bilateral or multilateral international agreement between the modifying Party and such non-Party in force or signed prior to, on or after the date of entry into force of this Agreement.
- (c) The modifying Party may only make such modifications or additions if it:
 - (i) notifies the other Party in writing of its intent at least three (3) months prior to the date of implementation of the measure;
 - (ii) begins consultations with the other Party upon request by that Party and gives due consideration to the views expressed by that Party in such consultations with a view to reaching an agreement on the appropriate compensatory adjustments; and
 - (iii) makes compensatory adjustments to its Schedule of Commitments for Financial Services in accordance with any agreement reached between the Parties on compensatory adjustments, to the extent possible in the same sector or sub-

sector of the financial institution that is affected by the modification so as to maintain a general level of mutually advantageous commitments that is not less favourable to investments and trade in financial services than that provided for in its Schedule of Commitments prior to the modification.

- (d) If agreement is not reached between the Parties on any necessary compensatory adjustments, the matter may be referred to arbitration.

Article 8.2 Scope and Coverage

1. This Chapter shall apply to measures affecting trade in telecommunications services.
2. This Chapter shall not apply to any measure affecting broadcasting.
3. Nothing in this Chapter shall be construed to require a Party, or require a Party to compel any enterprise, to establish, construct, acquire, lease, operate, or provide telecommunications networks or services not offered to the public generally.

Article 8.3 Access to and Use¹ of Public Telecommunications Services

1. Each Party shall ensure that service suppliers of the other Party have access to and use of any public telecommunications service offered in its territory or across its borders, on reasonable and non-discriminatory terms and conditions.
2. Each Party shall ensure that service suppliers of the other Party are permitted to:
 - (a) purchase or lease, and attach terminal or other equipment that interfaces with, a public telecommunications network;

¹ For greater certainty, this Article does not prohibit a Party from requiring a service supplier to obtain a licence to supply any public telecommunications service within its territory.

- (b) provide services to individual or multiple end-users over leased or owned circuits;
 - (c) connect owned or leased circuits with public telecommunications networks or services, or with circuits leased or owned by another enterprise;
 - (d) perform switching, signalling, processing or conversion functions; and
 - (e) use operating protocols of their choice.
3. Each Party shall ensure that service suppliers of the other Party may use public telecommunications services for the movement of information in its territory or across its borders, including for intra-corporate communications, and for access to information contained in databases or otherwise stored in machine-readable form in the territory of either Party.
4. Notwithstanding paragraph 3 of this Article, a Party may take such measures as are necessary to ensure the security and confidentiality of messages and protect the privacy of personal data of end-users of public telecommunications networks or services, provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or disguised restriction on trade in services.
5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications networks or services, other than as necessary to:
- (a) safeguard the public service responsibilities of suppliers of public telecommunications networks or services, in particular their ability to make their networks or services available to the public generally; or
 - (b) protect the technical integrity of public telecommunications networks or services.
6. Provided that they satisfy the criteria set out in paragraph 5 of this Article, conditions for access to and use of public telecommunications networks or services may include:
- (a) requirements to use specified technical interfaces, including interface protocols, for interconnection with such networks or services;
 - (b) requirements, where necessary, for the inter-operability of such networks or services;
 - (c) type approval of terminal or other equipment which interfaces with the network and technical requirements relating to the attachment of such equipment to such networks; and
 - (d) licensing, permit, registration or notification procedures which, if adopted or

maintained, are transparent and provide for the processing of applications filed thereunder in accordance with the Party's domestic laws and regulations.

Article 8.4 Competitive Safeguards on Major Suppliers

Each Party shall introduce or maintain appropriate measures for the purpose of preventing suppliers of public telecommunications networks or services who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices. Such anti-competitive practices shall include in particular:

- (a) engaging in anti-competitive cross-subsidisation, price squeeze or predatory pricing;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other suppliers of public telecommunications networks or services, on a timely basis, technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

Article 8.5 Interconnection

1. Each Party shall ensure that any service supplier authorised to provide public telecommunications networks or services has the right and obligation to negotiate interconnection with other suppliers of public telecommunications networks or services. Interconnection should be agreed on the basis of commercial negotiations² between the parties concerned.³
2. The telecommunications regulatory body of each Party shall ensure that any supplier authorised to provide public telecommunications networks or services that acquires information from another supplier of public telecommunications networks or services during the process of negotiating interconnection arrangements, uses that information solely for the purpose for which it was supplied and respects, at all times, the confidentiality of information transmitted or stored.

² For further clarity, service suppliers authorised to provide public telecommunications networks or services shall freely determine the terms, conditions and rates that will be included in their interconnection agreements by negotiating among themselves. Each Party shall ensure that if such negotiations fail, any one of the parties may have recourse to the telecommunications regulatory body for resolution of disputes regarding appropriate terms, conditions and rates for interconnection. The telecommunications regulatory body shall conduct the dispute settlement procedure within the scope of relevant domestic legislation and resolve the dispute within a reasonable period of time.

³ For Sri Lanka, all interconnection agreements will need to be approved by the telecommunications regulatory body of Sri Lanka.

Article 8.6
Interconnection with a Major Supplier

1. Each Party shall ensure that any major supplier in its territory provides interconnection for the facilities and equipment of suppliers of public telecommunications networks or services of the other Party at any technically feasible point in the major supplier's network. Such interconnection shall be provided:
 - (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates, and of a quality no less favourable than that provided for its own like services, for like services of non-affiliated service suppliers, or for like services of its subsidiaries or other affiliates;
 - (b) in a timely fashion, on terms and conditions (including technical standards and specifications) and at cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and
 - (c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.
2. Each Party shall ensure that the procedures applicable for interconnection with a major supplier in its territory are made publicly available.
3. Each Party shall provide a means for suppliers of public telecommunications networks or services of the other Party to obtain the rates, terms and conditions necessary for interconnection offered by a major supplier. Such means include, at a minimum, ensuring the public availability of:
 - (a) interconnection agreements in effect between a major supplier in its territory and other suppliers of public telecommunications networks or services in its territory;
 - (b) rates, terms and conditions for interconnection with a major supplier set by the telecommunications regulatory body; or
 - (c) a reference interconnection offer.
4. Further to paragraphs 2 and 3 of this Article, each Party shall ensure that a major supplier in its territory provides suppliers of public telecommunications networks or services of the other Party the opportunity to interconnect their facilities and equipment with those of the major supplier through the following options:

- (a) a reference interconnection offer or another standard interconnection offer containing the rates, terms and conditions that the major supplier offers generally to suppliers of public telecommunications networks or services; or
 - (b) the terms and conditions of an interconnection agreement in effect.
5. In addition to the options provided in paragraph 4 of this Article, each Party shall ensure that suppliers of public telecommunications networks or services of the other Party have the opportunity to interconnect their facilities and equipment with those of the major supplier through negotiation of a new interconnection agreement.

Article 8.7 Co-Location by Major Suppliers

1. Each Party shall endeavour to ensure that a major supplier in its territory provides, to suppliers of public telecommunications networks or services of the other Party in the Party's territory, physical co-location of equipment necessary for interconnection, or access to unbundled network elements on a timely basis and on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory and based on a generally available offer.
2. Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that a major supplier in its territory provides an alternative solution such as facilitating virtual co-location on a timely basis and on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory and based on a generally available offer.
3. Each Party may determine, in accordance with its laws and regulations, which premises owned or controlled by major suppliers in its territory are subject to paragraphs 1 and 2 of this Article. When making this determination, the Party shall take into account factors such as the state of competition in the market in which co-location is required, whether such premises can feasibly be economically or technically substituted in order to provide a competing service, or other specified public interest factors.
4. If a Party does not require that a major supplier offer co-location at certain premises, it nonetheless shall allow service suppliers to request that those premises be offered for co-location consistent with paragraph 1 of this Article, without prejudice to the Party's decision on such a request.

Article 8.8

Access to Poles, Ducts, Conduits and Rights-of-Way Owned or Controlled by Major Suppliers

1. Each Party shall endeavour to ensure that a major supplier in its territory provides, to suppliers of public telecommunications networks or services of the other Party in the first Party's territory, access to poles, ducts, conduits, and rights-of-way, or any other structures as determined by the Party, owned or controlled by the major supplier on a timely basis and on terms and conditions, and at rates, that are reasonable, non-discriminatory, and transparent and subject to technical feasibility.
2. Each Party may determine, in accordance with its laws and regulations, the poles, ducts, conduits, rights-of-way or any other structures to which it requires major suppliers in its territory to provide access under paragraph 1 of this Article. When making this determination, the Party shall take into account factors such as the competitive effect of lack of such access, whether such structures can feasibly be economically or technically substituted in order to provide a competing service, or other specified public interest factors.

Article 8.9

Licensing Process

1. When a Party requires a supplier of public telecommunications networks or services to have a licence, the Party shall ensure the public availability of the following information:
 - (a) all the licensing criteria and procedures it applies;
 - (b) the period it normally requires to reach a decision concerning an application for a licence; and
 - (c) the terms and conditions of all licences in effect.
2. Each Party shall ensure that, on request, an applicant receives the reasons for the:
 - (a) denial of a licence;
 - (b) imposition of supplier-specific conditions on a licence;
 - (c) revocation of a licence; or
 - (d) refusal to renew a licence.

Article 8.10
Allocation and Use of Scarce Resources

1. Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, shall be carried out in an objective, timely, transparent and non-discriminatory manner.
2. The current state of allocated frequency bands shall be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.
3. A Party's measures allocating and assigning spectrum and managing frequencies shall not be considered as inconsistent with Article 7.3 (Market Access) of Chapter 7 (Trade in Services) or Article 10.7 (Performance Requirements) of Chapter 10 (Investment). Accordingly, each Party retains the right to establish and apply its spectrum and frequency management policies that may have the effect of limiting the number of suppliers of a public telecommunications network or service, provided it does so in a manner consistent with other provisions of this Agreement. This includes the ability to allocate frequency bands, taking into account present and future needs, and spectrum availability.
4. When making a spectrum allocation for commercial telecommunications services, each Party shall endeavour to rely on an open and transparent process that considers the public interest, including the promotion of competition. Each Party shall endeavour to rely generally on market-based approaches in assigning spectrum for terrestrial commercial telecommunications services. To this end, each Party shall have the authority to use appropriate mechanisms, including auctions, to assign spectrum for commercial use.

Article 8.11
Universal Service

1. Each Party has the right to define the kind of universal service obligations it wishes to maintain.
2. Such obligations shall not be regarded as anti-competitive *per se*, provided they are administered in a transparent, objective and non-discriminatory way. The administration of such obligations shall also be neutral with respect to competition and not be more burdensome than necessary for the kind of universal service defined by each Party.
3. Where applicable, any fund that has been set up by a Party for the purposes of universal services shall be used in accordance with the relevant legislation of the Party.

Article 8.12
Number Portability

Each Party shall ensure that suppliers of public telecommunications services in its territory provide number portability, in accordance with its laws and regulations, on reasonable terms and conditions, and without impairment to quality and reliability of the service or convenience to the end-users.

Article 8.13
International Submarine Cable Systems

1. Where under national law and regulation, a Party has authorised a supplier of public telecommunications services in its territory to operate a submarine cable system (including the landing facilities and services) as a public telecommunications service, that Party shall ensure that such supplier provides that public telecommunications service to suppliers of public telecommunications services of the other Party on reasonable terms, conditions, and rates that are no less favourable than such supplier offers to any other supplier of public telecommunications services in like circumstances.

2. Where submarine cable landing facilities and services cannot be economically or technically substituted, and a major supplier of public international telecommunication services that controls such cable landing facilities and services has the ability to materially affect the price and supply for those facilities and services for the provision of public telecommunications services in a Party's territory, that Party shall ensure that such major supplier:
 - (a) permits suppliers of public telecommunications services of the other Party to:
 - (i) use the major supplier's cross-connect links in the submarine cable landing station to connect their equipment to backhaul links and submarine cable capacity of any supplier of telecommunications; and
 - (ii) co-locate their transmission and routing equipment used for accessing submarine cable capacity and backhaul links at the submarine cable landing station at terms, conditions, and cost-oriented rates, that are reasonable and non-discriminatory; and
 - (b) provides suppliers of telecommunications of the other Party submarine cable capacity, backhaul links and cross-connect links in the submarine cable landing station at terms, conditions and rates that are reasonable and non-discriminatory.

Article 8.14
Independent Regulators

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. With a view to ensuring the independence and impartiality of telecommunications regulatory bodies, each Party shall ensure that its telecommunications regulatory body does not hold a financial interest⁴ or maintain an operating or management role in any supplier of public telecommunications services.
2. Each Party shall ensure that the regulatory decisions and procedures of its telecommunications regulatory body or other competent authority related to provisions contained in this Chapter are impartial with respect to all market participants.
3. A Party shall not accord more favourable treatment to a supplier of telecommunications services in its territory than that accorded to a like service supplier of the other Party on the basis that the supplier receiving more favourable treatment is owned by the national government of that Party.

Article 8.15
International Mobile Roaming

1. The Parties shall endeavour to co-operate on promoting transparent and reasonable rates for international mobile roaming services that can help promote the growth of trade between the Parties and enhance consumer welfare.
2. A Party may choose to take steps to enhance transparency and competition with respect to international mobile roaming rates and technological alternatives to roaming services, such as:
 - (a) ensuring that information regarding retail rates is easily accessible to consumers; and
 - (b) minimising impediments to the use of technological alternatives to roaming, whereby consumers when visiting the territory of a Party from the territory of the other Party can access telecommunications services using the devices of their choice, including mobile devices.
3. The Parties recognise that a Party, when it has the authority to do so, may choose to adopt or maintain measures affecting rates for wholesale international roaming services with a view to ensuring that those rates are reasonable. If a Party considers it

⁴ This paragraph shall not be construed to prohibit a government entity of a Party other than the telecommunications regulatory body from owning equity in a supplier of public telecommunications services.

appropriate, it may co-operate and implement mechanisms with the other Party to facilitate the implementation of those measures, including by entering into arrangements with the other Party.

4. If a Party (“the first Party”) chooses to regulate rates or conditions for wholesale international mobile roaming services, it shall ensure that a supplier of public telecommunications services of the other Party (“the second Party”) has access to the regulated rates or conditions for wholesale international mobile roaming services for its customers roaming in the territory of the first Party in circumstances in which:⁵
 - (a) the second Party has entered into an arrangement with the first Party to reciprocally regulate rates or conditions for wholesale international mobile roaming services for suppliers of both Parties;⁶ or
 - (b) in the absence of an arrangement of the type referred to in sub-paragraph (a) above, the supplier of public telecommunications services of the second Party, of its own accord:
 - (i) makes available to suppliers of public telecommunications services of the first Party wholesale international mobile roaming services at rates or conditions that are reasonably comparable to the regulated rates or conditions⁷; and
 - (ii) meets any additional requirements⁸ that the first Party imposes with respect to the availability of the regulated rates or conditions.

The first Party may require suppliers of the second Party to fully utilise commercial negotiations to reach agreement on the terms for accessing such rates or conditions.

5. A Party that ensures access to regulated rates or conditions for wholesale international mobile roaming services in accordance with paragraph 4 of this Article shall be deemed to be in compliance with its obligations under Article 8.3 (Access to and Use of Public Telecommunications Services) and Article 8.6 (Interconnection with a Major Supplier) with respect to international mobile roaming services.

⁵ For greater certainty, neither Party shall, solely on the basis of any obligations owed to it by the first Party under a most-favoured-nation provision, or under a telecommunications-specific non-discrimination provision, in any existing international trade agreement, seek or obtain for its suppliers the access to regulated rates or conditions for wholesale international mobile roaming services that is provided under this Article.

⁶ For greater certainty, access under this sub-paragraph to the rates or conditions regulated by the first Party shall be available to a supplier of the second Party only if such regulated rates or conditions are reasonably comparable to those reciprocally regulated under the arrangement referred to in this subparagraph. The telecommunications regulatory body of the first Party shall, in the case of disagreement, determine whether the rates or conditions are reasonably comparable.

⁷ For the purposes of this subparagraph, rates or conditions that are reasonably comparable means rates or conditions agreed to be such by the relevant suppliers or, in the case of disagreement, determined to be such by the telecommunications regulatory body of the first Party.

⁸ For greater certainty, such additional requirements may include, for example, that the rates provided to the supplier of the second Party reflect the reasonable cost of supplying international mobile roaming services by a supplier of the first Party to a supplier of the second Party, as determined through the methodology of the first Party.

6. Each Party shall endeavour to ensure that:
 - (a) suppliers of public telecommunications services in its territory; or
 - (b) its telecommunications regulatory body,make publicly available retail rates for international mobile roaming services.
7. Nothing in this Article shall require a Party to regulate rates or conditions for international mobile roaming services.

Article 8.16
Resolution of Telecommunications Disputes

1. Each Party shall ensure that:

Recourse

- (a) service suppliers authorised by the telecommunications regulatory body of a Party to provide public telecommunications networks or services in its territory may have recourse to the telecommunications regulatory body or other relevant body of the Party to resolve disputes regarding the Party's measures relating to matters set out in Articles 8.3 to 8.15 of this Chapter;
- (b) if the telecommunications regulatory body or other relevant body of the Party declines to initiate any action on a request to resolve a dispute, it shall, upon request, provide a written explanation for its decision within a reasonable period of time;
- (c) suppliers of public telecommunications networks or services requesting interconnection with a major supplier in its territory will have recourse, either:
 - (i) at any time; or
 - (ii) after a reasonable or specified period of time which has been made publicly known,

to an independent domestic body, which may be a telecommunications regulatory body as referred to in Article 8.14 (Independent Regulators), to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

Reconsideration

- (d) any enterprise whose legally protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may appeal to or petition the telecommunications regulatory body, or other relevant body, including judicial body, in accordance with its laws and regulations, to reconsider that determination or decision. No Party may permit the making of an application for reconsideration to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body, unless the telecommunications regulatory body or other relevant body issues an order that the determination or decision not be enforced while the proceeding is pending. A Party may limit the circumstances under which an application for reconsideration is available, in accordance with its laws and regulations.

Judicial Review

- 2. No Party may permit the making of an application for judicial review to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body, unless the relevant judicial body issues an order that the determination or decision not be enforced while the proceeding is pending.

Article 8.17
Transparency

- 1. Each Party shall ensure that when its telecommunications regulatory body seeks input for a proposal for a regulation, that body shall:
 - (a) make the proposal public or otherwise available to any interested persons;
 - (b) include an explanation of the purpose of and reasons for the proposal;
 - (c) provide interested persons with adequate public notice of the ability to comment and reasonable opportunity for such comment;
 - (d) to the extent practicable, make publicly available all relevant comments filed with it; and
 - (e) respond to all significant and relevant issues raised in comments filed, in the course of issuance of the final regulation.
- 2. A Party shall ensure that its measures relating to public telecommunications networks or services are made publicly available, including those pertaining to:
 - (a) tariffs and other terms and conditions of service;
 - (b) specifications of technical interfaces;

- (c) conditions for attaching terminal or other equipment to the public telecommunications network;
- (d) notification, permit, registration or licensing requirements, if any;
- (e) general procedures relating to resolution of telecommunications disputes provided for in Article 8.16 (Resolution of Telecommunications Disputes); and
- (f) any measures of the telecommunications regulatory body through which the responsibility for preparing, amending and adopting standards-related measures affecting access and use are delegated to other bodies.

Article 8.18
Flexibility in the Choice of Technology

No Party may prevent suppliers of public telecommunications networks or services from choosing the technologies they wish to use to supply their services, subject to its national laws and regulations or requirements necessary to satisfy legitimate public policy interests, provided that any measure restricting such choice is not prepared, adopted, or applied in a manner that creates unnecessary obstacles to trade. For greater certainty, a Party adopting such measures shall do so consistent with Article 8.17 (Transparency).

Article 8.19
Relationship to Other Chapters

In the event of any inconsistency between this Chapter and another Chapter, this Chapter shall prevail to the extent of the inconsistency.

CHAPTER 9 ELECTRONIC COMMERCE

SECTION 10-A INVESTMENT PROTECTION

Article 10.2 Scope and Coverage

1. This Chapter shall apply to measures adopted or maintained by a Party relating to:
 - (a) investors of the other Party; and
 - (b) all investments made by investors of one Party in the territory of the other Party, whether made before or after the entry into force of this Agreement.

2. This Chapter shall not apply to:
 - (a) government procurement by a Party;
 - (b) services supplied in the exercise of governmental authority within the territory of the respective Party. For purposes of this Chapter, a service supplied in the exercise of governmental authority means any service which is supplied neither on a commercial basis, nor in competition with one or more service suppliers;
 - (c) subsidies or grants provided by a Party, or to any conditions attached to the receipt or continued receipt of such subsidies or grants, whether or not such subsidies or grants are offered exclusively to investors of the Party or investments of investors of the Party, including government-supported loans, guarantees and insurance;
 - (d) any measures adopted or maintained by a Party to the extent that they are covered by Chapter 7 (Trade in Services). Notwithstanding the foregoing, Article 10.3 (Minimum Standard of Treatment), Article 10.6 (Compensation for Losses), Article 10.10 (Expropriation), Article 10.11 (Transfers), Article 10.12 (Subrogation) and Section 10-B (Investment Disputes Between a Party and an Investor) shall apply, *mutatis mutandis*, to any measure affecting the supply of service by a service supplier of a Party through commercial presence in the territory of the other Party pursuant to Chapter 7 (Trade in Services), but only to the extent that any such measures relate to an investment and an obligation under this Chapter, regardless of whether such a service sector is scheduled in the Party’s Schedule of Specific Services Commitments in Annex 7-A (Sri Lanka) and Annex 7-B (Singapore); and

- (e) any taxation measure, including measures taken to enforce taxation obligations.
3. Notwithstanding any other provisions of this Chapter, a Party shall not be prevented from taking measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier, or to ensure the integrity and stability of the financial system. Where such measures do not conform with the provisions of this Chapter, they shall not be used as a means of avoiding the Party's commitments or obligations under this Chapter.
 4. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail over this Chapter to the extent of the inconsistency. For the avoidance of doubt, this paragraph shall not be deemed to impose additional obligations on a Party other than the obligations set out in this Chapter in respect of any dispute under Section 10-B (Investor-State Dispute Settlement).
 5. The requirement by a Party that a service provider of the other Party post a bond or other form of financial security as a condition of providing a service into its territory does not of itself make this Chapter applicable to the provision of that cross-border service. This Chapter applies to that Party's treatment of the posted bond or financial security, to the extent that such bond or financial security is an investment.
 6. For greater certainty, the provisions of this Chapter do not impose any obligation on either Party in relation to any act or fact that took place or any situation that ceased to exist before the date of entry into force of this Agreement.
 7. In the event that a Party extends protection to the establishment, acquisition or expansion of investments to any non-Party after the signing of this Agreement, the other Party shall have the right to initiate a review of the commitments under this Chapter, to extend the provisions of this Chapter to the establishment, acquisition and expansion of investments in like circumstances.
 8. Articles 10.4 (National Treatment), 10.5 (Most-Favoured-Nation Treatment), 10.7 (Performance Requirements) and 10.8 (Senior Management and Board of Directors) do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities, as set out in its Schedule to Annex 10-B (Sri Lanka) and Annex 10-C (Singapore).
 9. Neither Party may, under any measure adopted after the date of entry into force of this Agreement and set out in its Schedule to Annex 10-B (Sri Lanka) and Annex 10-C (Singapore), require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

10. Articles 10.4 (National Treatment) and 10.5 (Most-Favoured-Nation Treatment) do not apply to any measure that is an exception to, or derogation from, a Party's obligations under Chapter 13 (Intellectual Property) and the TRIPS Agreement, as specifically provided for in that Agreement.

Article 10.3 **Minimum Standard of Treatment**

1. Each Party shall accord to investments treatment in accordance with customary international law minimum standard of treatment of aliens¹⁰, including “fair and equitable treatment” and “full protection and security”.
2. For greater certainty, paragraph 1 of this Article prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights. The obligation to provide:
 - (a) “fair and equitable treatment” requires the Parties not to deny justice in criminal, civil or administrative adjudicatory proceedings in accordance with the principle of due process; and
 - (b) “full protection and security” requires each Party to provide the level of police protection in relation to the physical security of investors and investments as required under customary international law.
3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

Article 10.4 **National Treatment**

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances¹¹, to its own investors with respect to the management, conduct, operation, and sale or other disposition of investments in its territory.

¹⁰ Customary international law results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to this Article, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

¹¹ For greater certainty, whether treatment is accorded in “like circumstances” depends on the totality of the circumstances, including whether the relevant treatment distinguishes between investors or investments on the basis of legitimate public welfare objectives.

2. Each Party shall accord to investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the management, conduct, operation, and sale or other disposition of investments.

Article 10.5
Most-Favoured-Nation Treatment

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to investors of any non-Party with respect to the management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the management, conduct, operation, and sale or other disposition of investments.
3. For greater certainty, paragraphs 1 and 2 of this Article shall not be construed as granting to investors options or procedures for the settlement of disputes other than those set out in Section 10-B (Investor-State Dispute Settlement).
4. The treatment, as set forth in paragraphs 1 and 2 of this Article, shall not include:
 - (a) any preferential treatment accorded to investors or their investments under any existing bilateral, regional, multilateral or international agreements or arrangements or any forms of economic and regional cooperation with any non-Party;
 - (b) in the case of Singapore, any measure that accords preferential treatment to ASEAN member states under any agreements between all ASEAN member states, in force or signed after the date of entry into force of this Agreement. For the avoidance of doubt, such agreements do not include agreements between ASEAN member states and non-ASEAN member states; and
 - (c) in the case of Sri Lanka, any measure that accords preferential treatment to SAARC member states under any agreements between all SAARC member states, in force or signed after the date of entry into force of this Agreement. For the avoidance of doubt, such agreements do not include agreements between SAARC member states and non-SAARC member states.

Article 10.6
Compensation for Losses

1. Investors of one Party whose investments in the territory of the other Party suffer losses owing to war or other armed conflict, revolution, a state of national emergency, insurrection, riot, or any other similar event in the territory of the latter Party, shall be accorded by the latter Party treatment, as regards restitution, indemnification, compensation or other settlement, no less favourable than that which the latter Party accords to investments of its own investors or investments of investors of any non-Party, whichever is more favourable, to the investment of the investor of the former Party.
2. Notwithstanding paragraph 1 of this Article, if an investor of a Party, in the situations referred to in paragraph 1 of this Article, suffers a loss in the territory of the other Party resulting from:
 - (a) requisitioning of its investment or part thereof by the latter's forces or authorities; or
 - (b) destruction of its investment or part thereof by the latter's forces or authorities, which was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss.

Article 10.7
Performance Requirements

The provisions of Annex 1A to the TRIMs Agreement, which are not specifically mentioned in or modified by this Chapter, shall apply, *mutatis mutandis*, to this Chapter.

2. A Party may require that a majority of the board of directors, or any committee thereof, of an enterprise of that Party that is an investment, be of a particular nationality, or resident in the territory of the Party, provided that the requirement does not materially impair the ability of the investor of the other Party to exercise control over its investment.
3. For the avoidance of doubt, nothing in this Article shall be construed to limit a Party from exercising its rights as a shareholder.

Article 10.9
Special Formalities and Treatment of Information

1. Nothing in Article 12.4 (National Treatment) shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with investments, such as residency requirements for registration or a requirement that investments be legally constituted under its laws or regulations, provided that such formalities do not materially impair the protections afforded by the Party to investors of the other Party and investments pursuant to this Chapter.
2. Notwithstanding Article 12.4 (National Treatment) and Article 12.5 (Most-Favoured-Nation Treatment), a Party may require an investor of the other Party or its investment to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect such business information that is confidential from any disclosure that would prejudice the competitive position of the investor or the investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

Article 10.10
Expropriation¹²

1. Neither Party shall nationalise, expropriate or subject to measures having effect equivalent to nationalisation or expropriation (hereinafter referred to as “**expropriation**”) an investment unless such a measure is taken on a non-discriminatory basis, for a public purpose, in accordance with due process of law and upon payment of compensation in accordance with this Article.
2. The expropriation shall be accompanied by the payment of prompt, adequate and effective compensation. Compensation shall be equivalent to the fair market value of the expropriated investment immediately before the expropriation or impending expropriation became public knowledge. Such compensation shall be effectively realisable, freely transferable in accordance with Article 10.11 (Transfers) and made without delay. The compensation shall include interest at an appropriate and reasonable rate for that currency, accrued from the date of expropriation until the date of payment.
3. Notwithstanding paragraphs 1 and 2 of this Article, any measure of expropriation relating to land, which shall be as defined in the existing domestic legislation of the expropriating Party on the date of entry into force of this Agreement, shall be for a purpose and upon payment of compensation in accordance with the aforesaid legislation.

¹² Article 10.10 (Expropriation) is to be interpreted in accordance with Annex 12-A (Expropriation).

4. This Article does not apply to the issuance of compulsory licences granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that such issuance, revocation, limitation, or creation is consistent with Chapter 13 (Intellectual Property) and the TRIPS Agreement¹³.

Article 10.11 Transfers

1. Each Party shall permit all transfers relating to an investment to be made freely and without delay¹⁴ into and out of its territory. Such transfers include:
 - (a) the initial capital and additional amounts to maintain or increase an investment;
 - (b) profits, dividends, capital gains, and proceeds from the sale of all or any part of the investment or from the partial or complete liquidation of the investment;
 - (c) interest, royalty payments, management fees, and technical assistance and other fees;
 - (d) payments made under a contract entered into by the investor, or its investment, including payments made pursuant to a loan agreement;
 - (e) payments made pursuant to Article 10.6 (Compensation for Losses) and Article 10.10 (Expropriation); and
 - (f) payments arising under Section 10-B (Investor-State Dispute Settlement).
2. Each Party shall permit such transfers to be made in a freely convertible currency at the market rate of exchange prevailing at the time of transfer.
3. Each Party shall permit returns in kind relating to an investment to be made as authorised or specified in an investment authorisation or other written agreement between the Party¹⁵ and an investment or an investor of the other Party.
4. Notwithstanding paragraphs 1, 2, and 3 of this Article, a Party may delay or prevent a transfer through the equitable, non-discriminatory, and good faith application of its laws relating to:

¹³ For greater certainty, the Parties recognise that, for the purposes of this Article, the term “revocation” of intellectual property rights includes the cancellation or nullification of such rights, and the term “limitation” of intellectual property rights includes exceptions to such rights.

¹⁴ A transfer shall be deemed to have been made without delay if effected within a reasonable period as is typically required for the completion of the relevant transfer formalities.

¹⁵ In the case of Sri Lanka, the investment authorisation or written agreement may only be granted or entered into, in accordance with its written laws, by the Board of Investment of Sri Lanka or such other entities as may be designated by Sri Lanka.

Article 10.12 Subrogation

1. If a Party (or any agency, institution, statutory body or corporation designated by it) makes a payment to any of its investors under a guarantee, a contract of insurance or other form of indemnity it has granted in respect of an investment, against non-commercial risks, the other Party shall recognise the subrogation or transfer of any right or title in respect of such investment. The Party or its designated agency is entitled by virtue of subrogation to exercise the rights and enforce the claims of that investor. The subrogated or transferred right or claim shall not be greater than the original right or claim of the investor.
2. Where a Party (or any agency, institution, statutory body or corporation designated by it) has made a payment to an investor of that Party and has taken over rights and claims of the investor, that investor shall not, unless authorised to act on behalf of the Party or the designated agency of the Party making the payment, pursue those rights and claims against the other Party.

¹⁶ For greater certainty, the laws relating to criminal and penal offences include laws relating to the recovery of proceeds of crimes.

2. This Section shall apply to losses and damages incurred in respect of activities carried out prior to the establishment of an investment only where such activities result in an investment being established in the Party hosting the investment.
3. This Section shall not apply to any dispute concerning any measure adopted or maintained or any treatment accorded to investors or investments by a Party in respect of tobacco or tobacco-related products¹⁹ that is aimed at protecting or promoting human health.

Article 10.14 Institution of Arbitral Proceedings

1. The disputing parties shall initially seek to resolve the dispute by consultations.
2. In the event of an investment dispute, the claimant may deliver to the respondent a written request for consultations. Such written request shall specify the measure(s) complained of and how such measure(s) has given rise to the dispute.
3. Where the dispute cannot be resolved as provided for under paragraphs 1 and 2 of this Article within six (6) months from the date of receipt of such written request for consultations, the claimant shall exhaust any domestic remedy provided in the respondent State. In the event:
 - (a) the claimant has invoked domestic remedies and such remedies have not been concluded within a period of twenty-four (24) months from the date that notice invoking such domestic remedies was served on the respondent State; or

¹⁸ For greater certainty, a natural person possessing the nationality or citizenship of a Party shall not pursue a claim against that Party under this Agreement.

¹⁹ For the purpose of this Chapter, “**tobacco products**” means products under HS Chapter 24 (Tobacco and Manufactured Tobacco Substitutes) and tobacco-related products falling outside HS Chapter 24 (Tobacco and Manufactured Tobacco Substitutes).

- (b) the claimant has invoked and exhausted all domestic remedies,
- the claimant may have recourse to the dispute settlement procedures in this Section.
4. Subject to paragraph 3 of this Article, a claimant may submit to arbitration²⁰:
- (a) a claim, on its own behalf, that the respondent has breached an obligation under this Agreement and the claimant has incurred loss or damage by reason of, or arising out of, that breach; or

- (a) under the SIAC and the SIAC Arbitration Rules;
- (b) to the ICLP or the SLNAC;
- (c) under the UNCITRAL Arbitration Rules; or
- (d) to any other arbitral institutions or under any other arbitration rules, if the disputing parties so agree.
6. Each Party hereby consents to the submission of a dispute to arbitration under sub-paragraphs 5(a), 5(b), 5(c) and 5(d) of this Article in accordance with the provisions of this Section, conditional upon:
- (a) the submission of the dispute to such arbitration taking place within four (4) years from the time at which the claimant became aware, or should reasonably have become aware, of a breach of an obligation under this Agreement causing loss or damage to the claimant or its investment;
- (b) the claimant not being an enterprise of the respondent until the claimant refers the dispute for arbitration pursuant to paragraph 5 of this Article;

²⁰ For greater certainty, a claimant shall not be entitled to bring a claim under both sub-paragraphs (a) and (b) of paragraph 4 of this Article in respect of the same alleged breach of an obligation.

²¹ An enterprise is:

- (a) owned by natural persons or enterprises of the other Party if more than fifty (50) percent of the equity interest in it is beneficially owned by natural persons or enterprises of that Party;
- (b) controlled by natural persons or enterprises of the other Party if such natural persons or enterprises have the power to name a majority of its directors or otherwise to legally direct its actions.

- (c) the claimant providing written consent to arbitration in accordance with the provisions set out in this Section; and
 - (d) the claimant providing written notice, which shall be delivered at least ninety (90) days before the claim is submitted, to the respondent of its intent to submit the dispute to such arbitration and which:
 - (i) states whether the claim is made on its own behalf or on behalf of the enterprise;
 - (ii) states the name and address of the claimant and, where a dispute is submitted on behalf of an enterprise, the name, address, and place of constitution of the enterprise;
 - (iii) nominates one of the *fora* referred to in paragraph 5 of this Article as the forum for dispute settlement;
 - (iv) is accompanied:

 - (v) briefly summarises the alleged breach of the respondent under this Agreement (including the measures giving rise to the claim and the provisions alleged to have been breached), the legal and factual basis for the dispute, the loss or damage allegedly caused to the claimant or its investment by reason of that breach, the type of relief sought and the approximate amount of damages claimed.
7. The consent under paragraph 6 of this Article and the submission of a claim to arbitration under this Section shall satisfy the requirements of Article II of the New York Convention for an “agreement in writing”.
8. A claim that is submitted for arbitration under this Section shall be considered to arise out of a commercial relationship or transaction for purposes of Article I of the New York Convention.

Article 10.15
Constitution of Arbitral Tribunal

1. Unless the disputing parties otherwise agree, the arbitral tribunal shall be composed of three (3) arbitrators. Each disputing party shall appoint one arbitrator and the disputing parties shall agree upon a third arbitrator, who shall be the chairman of the arbitral tribunal. If an arbitral tribunal has not been established within ninety (90) days from the date on which the claim was submitted to arbitration, either because a disputing party failed to appoint an arbitrator or because the disputing parties failed to agree upon the chairman, the President of the Permanent Court of Arbitration (“PCA”), upon request of either disputing party, shall appoint, at his own discretion, the arbitrator or arbitrators not yet appointed.
2. For the purposes of paragraph 1 of this Article, in the event that the President of the PCA is a national or permanent resident of either Party, the Vice-President of the PCA or the officer next in seniority who is not a national or permanent resident of either Party shall be requested to make the necessary appointment or appointments.

Article 10.16
Place of Arbitration

1. Unless the disputing parties otherwise agree, the place of arbitration shall be in the territory of either Party.
2. In the event, the disputing parties cannot agree between the territories of the Parties as the place of arbitration, the tribunal shall determine the place of arbitration giving consideration to where the investment has been made, unless tribunal is of the opinion that there are reasons for the place of arbitration to be in the territory of the other Party or a non- Party.

Article 10.17
Conduct of the Arbitration

1. A tribunal established under this Section shall decide the issues in dispute in accordance with this Agreement and the applicable rules and principles of international law.²²
2. Without prejudice to a tribunal’s authority to address other objections as a preliminary question, such as an objection that a dispute is not within the competence of the tribunal, including an objection to the tribunal’s jurisdiction, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter

²² The Parties confirm their mutual understanding that when domestic law of the Respondent is relevant to a claim, an arbitral tribunal established under this Section shall take into account the domestic law as a matter of fact.

of law, a claim submitted is not a claim for which an award in favour of the claimant may be made under Article 10.19 (Award).

- (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment).
 - (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefor.
 - (c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in the relevant article of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.
 - (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 3 of this Article.
3. In the event that the respondent so requests within forty-five (45) days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 2 of this Article or any objection that the dispute is not within the tribunal's competence, including an objection that the dispute is not within the tribunal's jurisdiction. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than one hundred and fifty (150) days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional thirty (30) days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed thirty (30) days.
4. When it decides a respondent's objection under paragraphs 2 or 3 of this Article, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

Article 10.18
Interim Measures of Protection and Diplomatic Protection

1. Sub-paragraph 6(d)(iii) of Article 10.14 (Institution of Arbitral Proceedings) shall not prevent the claimant from seeking interim measures of protection, not involving the payment of damages or resolution of the substance of the matter in dispute before the courts or administrative tribunals of the respondent, prior to the institution of proceedings before any of the dispute settlement *fora* referred to in paragraph 3 of Article 10.14 (Institution of Arbitral Proceedings), for the preservation of its rights and interests.
2. Neither Party shall give diplomatic protection, or bring an international claim, in respect of a dispute which one of its investors and the other Party shall have consented to submit or have submitted to arbitration under this Section, unless such other Party has failed to abide by and comply with the award rendered in such dispute. Diplomatic protection, for the purposes of this paragraph, shall not include informal diplomatic exchanges for the sole purpose of facilitating a settlement of the dispute.

Article 10.19
Award

1. Where a tribunal makes a final award against a respondent, the tribunal may award, separately or in combination, only:
 - (a) monetary damages and any applicable interest; and
 - (b) restitution of property, in which case the award shall provide that the respondent may pay monetary damages and any applicable interest in lieu of restitution.

A tribunal may also award costs and attorney's fees in accordance with this Section and the applicable arbitration rules.

2. Any arbitral award shall be final and binding upon the disputing parties. Each Party shall ensure the recognition and enforcement of the award in accordance with its relevant laws and regulations.
3. Where a claim is submitted on behalf of an enterprise of the respondent, the arbitral award shall be made to the enterprise.

Article 10.20
Consolidation

1. Where two (2) or more claims have been submitted separately to arbitration under this Section, and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order, in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of this Article.
2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the President of the PCA and to all the disputing parties sought to be covered by the order, specifying the name and address of all the disputing parties sought to be covered by the order; the nature of the order sought; and the grounds on which the order is sought.
3. Unless the President of the PCA finds within thirty (30) days after receiving a request in conformity with paragraph 2 of this Article that the request is manifestly unfounded, a tribunal shall be established under this Article.
4. Unless all the disputing parties sought to be covered by the consolidation order otherwise agree, the tribunal established under this Article shall comprise three (3) arbitrators:
 - (a) one (1) arbitrator appointed by agreement of the disputing investors;
 - (b) one (1) arbitrator appointed by the respondent; and
 - (c) the chairman of the arbitral tribunal appointed by the President of the PCA provided that the chairman shall not be a national of either Party.
5. If, within the sixty (60) days after the President of the PCA receives a request made under paragraph 2 of this Article, the respondent fails or the disputing investors fail to appoint an arbitrator in accordance with paragraph 4 of this Article, the President of the PCA, on request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed.
6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration in accordance to Article 10.14 (Institution of Arbitral Proceedings), have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:
 - (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
 - (b) assume jurisdiction over, and hear and determine one or more claims, whose determination it considers would assist in the resolution of the other claims; or

- (c) instruct a tribunal previously established under Article 10.15 (Constitution of Arbitral Tribunal) to assume jurisdiction over and to hear and determine together, all or part of the claims, provided that:
 - (i) that tribunal, at the request of any disputing investor not previously a disputing party before that tribunal, shall be reconstituted with its original members, except that the arbitrator for the disputing investors shall be appointed pursuant to sub-paragraph 4(a) and paragraph 5 of this Article; and
 - (ii) that tribunal shall decide whether any previous hearing must be repeated.
- 7. Where a tribunal has been established under this Article, a disputing investor that has submitted a claim to arbitration pursuant to Article 10.14 (Institution of Arbitral Proceedings) and that has not been named in a request made under paragraph 2 of this Article, may make a written request to the tribunal that it be included in any order issued under paragraph 6 of this Article, specifying:
 - (a) the name and address of the disputing investor;
 - (b) the nature of the order sought; and
 - (c) the grounds on which the order is sought.

The claimant shall provide the President of the PCA with a copy of his request.

- 8. A tribunal established pursuant to this Article shall conduct the proceedings in accordance with the UNCITRAL Arbitration Rules, except as modified by this Section.
- 9. A tribunal established under Article 10.15 (Constitution of Arbitral Tribunal) shall not have jurisdiction to decide a claim or a part of a claim over which a tribunal established or instructed under this Article has assumed jurisdiction.
- 10. On application of a disputing party, a tribunal established pursuant to this Article may, pending its decision under paragraph 6 of this Article, order that the proceedings of a tribunal established under Article 10.15 (Constitution of Arbitral Tribunal) be stayed, unless the latter tribunal has already adjourned its proceedings.

SECTION 10-C

FINAL PROVISIONS

Article 10.21 Denial of Benefits

1. A Party may deny the benefits of this Chapter to an investor of the other Party and to its investments if the investor is an enterprise owned or controlled by persons of a non-Party or the denying Party, and such enterprise has no substantive business operations in the territory of the other Party.
2. The denying Party shall, to the extent practicable, notify the other Party before denying the benefits. If the denying Party provides such notice, it shall consult with the other Party at the request of the other Party.

Article 10.22 Publication of International Agreements

1. To the extent possible, each Party shall ensure that international agreements pertaining to or affecting investors or investment activities to which a Party is a signatory shall be promptly published or otherwise made available in such a manner as to enable interested persons or parties to become acquainted with them.
2. To the extent possible, each Party shall make the international agreements of the kind referred to in paragraph 1 of this Article available on the Internet. Each Party shall, upon request by the other Party, respond to specific questions from and provide information to the other Party with respect to the international agreements referred to in paragraph 1 of this Article.

Article 10.23 General Exceptions²³

Subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination against the other Party or its investors where like conditions prevail, or a disguised restriction on investments of investors of the other Party in the territory of a Party, nothing in this Agreement shall be construed to prevent the adoption or enforcement by a Party of measures:

- (a) necessary to protect public morals or to maintain public order²⁴;

²³ For greater certainty, the application of the general exception to these provisions shall not be interpreted so as to diminish the ability of governments to take measures where investors are not in like circumstances due to the existence of legitimate regulatory objectives.

²⁴ The public order exception may be invoked only where a genuine and sufficiently serious threat is posed to one of the fundamental interests of society. For greater certainty, the Parties understand that the fundamental interests of society include the maintenance of religious harmony.

- (b) necessary to protect human, animal or plant life or health²⁵;
- (c) necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Agreement including those relating to:
 - (i) the prevention of deceptive and fraudulent practices or to deal with the effects of a default on a contract;
 - (ii) the protection of the privacy of individuals in relation to the processing and dissemination of personal data and the protection of confidentiality of individual records and accounts;
 - (iii) safety; or
- (d) relating to the conservation of exhaustible natural resources²⁶.
- (e) necessary to protect national treasures of artistic, historic or archaeological value;

Article 10.24
Savings Clause

1. For ten (10) years from the date of termination of this Agreement, the following provisions shall continue to apply to investments in existence at the date of termination, and without prejudice to the application thereafter of the rules of general international law:
 - (a) the provisions of this Chapter; and
 - (b) such other provisions in the Agreement as may be necessary for or consequential to the application or interpretation of this Chapter.

Article 10.25
Term of Investment Promotion and Protection Agreement

1. Subject to paragraph 2 of this Article, the Parties hereby agree that the *Agreement between the Government of the Republic of Singapore and the Government of the Socialist Republic of Sri Lanka Concerning the Reciprocal Promotion and Protection of Investments Signed in Singapore on 09th May 1980 (“IPPA”)*, as well as all the rights and obligations derived from the said agreement, shall cease to have effect on the date of entry into force of this Agreement.

²⁵ The Parties understand that the measures referred in sub-paragraph 1(b) of this Article include environmental measures necessary to protect human, animal or plant life or health.

²⁶ The Parties understand that the measures referred in sub-paragraph 1(d) of this Article include environmental measures relating to the conservation of living and non-living exhaustible natural resources.

2. Any and all investments made pursuant to the IPPA before the entry into force of this Agreement will be governed by the rules of the said IPPA regarding any matter arising while the IPPA was in force. An investor may only submit an arbitration claim pursuant to the IPPA regarding any matter arising while the IPPA was in force, pursuant to the rules and procedures established in it, and provided that no more than three (3) years have elapsed since the date of entry into force of this Agreement.

Article 10.26
Corporate Social Responsibility

The Parties reaffirm the importance of each Party encouraging enterprises operating within its territory or subject to its jurisdiction to voluntarily incorporate into their internal policies those internationally recognised standards, guidelines and principles of corporate social responsibility that have been endorsed or are supported by that Party.

ANNEX 10-A

EXPROPRIATION

The Parties confirm their shared understanding that:

1. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.
2. Paragraph 1 of Article 10.10 (Expropriation) addresses two situations. The first is direct expropriation, where an investment is nationalised or otherwise directly expropriated through formal transfer of title or outright seizure.
2. The second situation addressed by paragraph 1 of Article 10.10 (Expropriation) is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.
 - (a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:
 - (i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and
 - (iii) the character of the government action.
 - (b) Except in rare circumstances, non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety and the environment, do not constitute indirect expropriations.

4. Where a procuring entity intends to use selective tendering, the entity shall:
 - (a) include in the notice of intended procurement at least the information specified in sub-paragraphs 2(a), (b), (f), (g), (j) and (k) of Article 11.7 (Notices) and invite suppliers to submit a request for participation; and

A procuring entity covered under Annex 11-C (Other Entities) may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 10 of this Article to tender in a given procurement, where there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

Information on Procuring Entity Decisions

14. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the procuring entity's decision with respect to the request or application.

Article 11.10
Technical Specifications and Tender Documentation

2. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:
 - (a) set out the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specification on international standards, where such exist; otherwise, on national technical regulations, recognised national standards or building codes.
3. Where design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfill the requirements of the procurement by including words such as "or equivalent" in the tender documentation.
4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.
5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.
6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

Tender Documentation

7. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

 - (h) any dates for the delivery of goods or the supply of services.
8. In establishing any date for the delivery of goods or the supply of services being procured, a procuring entity shall take into account such factors as the complexity of the procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the point of supply or for supply of services.
9. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.

10. A procuring entity shall:
 - (a) promptly make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;
 - (b) promptly provide, on request, the tender documentation to any interested supplier; and

Modifications

11. Where, prior to:
 - (a) in the case of Singapore, the award of a contract; or
 - (b) in the case of Sri Lanka, the closing of bids,a procuring entity modifies the criteria or requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall transmit in writing all such modifications or amended or re-issued notice or tender documentation:

Article 11.11 Time Periods

 - (a) the nature and complexity of the procurement;
 - (b) the extent of subcontracting anticipated; and

- (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points where electronic means are not used.

Such time periods, including any extension of the time periods, shall be the same for all interested or participating suppliers.

Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than twenty-five (25) days from the date of publication of the notice of intended procurement. Where a state of urgency duly substantiated by the procuring entity renders this time period impracticable, the time period may be reduced to not less than ten (10) days.
3. Except as provided for in paragraphs 4, 5, 7 and 8 of this Article, a procuring entity shall establish that the final date for the submission of tenders shall not be less than forty (40) days from the date on which:
 - (a) in the case of open tendering, the notice of intended procurement is published; or
 - (b) in the case of selective tendering, the procuring entity notifies suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.
4. A procuring entity may reduce the time period for tendering established in accordance with paragraph 3 of this Article to not less than ten (10) days where:
 - (a) the procuring entity has published a notice of planned procurement as described in paragraph 4 of Article 11.7 (Notices) at least forty (40) days and not more than twelve (12) months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:

 - (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;
 - (iv) the address from which documents relating to the procurement may be obtained; and
 - (v) as much of the information that is required for the notice of intended procurement under paragraph 2 of Article 11.7 (Notices), as is available;

- (b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time periods for tendering based on this paragraph; or
 - (c) a state of urgency duly substantiated by the procuring entity renders the time period for tendering established in accordance with paragraph 3 of this Article impracticable.
5. A procuring entity may reduce the time period for tendering established in accordance with paragraph 3 of this Article by five (5) days for each one of the following circumstances:
- (a) the notice of intended procurement is published by electronic means;
 - (b) all the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
 - (c) the entity accepts tenders by electronic means.
6. The use of paragraph 5 of this Article, in conjunction with paragraph 4 of this Article, shall in no case result in the reduction of the time period for tendering established in accordance with paragraph 3 of this Article to less than ten (10) days from the date on which the notice of intended procurement is published.
7. Notwithstanding any other provision in this Article, where a procuring entity purchases commercial goods or services, or any combination thereof, it may reduce the time period for tendering established in accordance with paragraph 3 of this Article to not less than thirteen (13) days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, where the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time period established in accordance with paragraph 3 of this Article to not less than ten (10) days.
8. Where a procuring entity that is covered under 11-C (Other Entities) has selected all or a limited number of qualified suppliers, as permitted by domestic legislation, the time period for tendering may be fixed by agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than ten (10) days.

Article 11.12 Negotiations

- (b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 11.13 Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Article 11.7 (Notices), Article 11.8 (Conditions for Participation), Article 11.9 (Qualification of Suppliers), paragraphs 7 to 11 of Article 11.10 (Technical Specifications and Tender Documentation), Article 11.11 (Time Periods), Article 11.12 (Negotiations), Article 11.14 (Electronic Auctions) and Article 11.15 (Treatment of Tenders and Awarding of Contracts) only under any of the following circumstances:

 - (ii) the protection of patents, copyrights or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement where a change of supplier for such additional goods or services:
- (i) cannot be made for economic or technical reasons such as requirements of inter-changeability or inter-operability with existing equipment, software, services or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;
- (e) for goods purchased on a commodity market;
- (f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;
- (g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership or bankruptcy, but not for routine purchases from regular suppliers; or

Article 11.14

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

Article 11.15
Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open and treat all tenders in accordance with procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.
2. In the case of Singapore, a procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders, but before the award of the tender if the delay is due solely to mishandling on the part of the procuring entity.
3. Where allowed by a Party, its procuring entity may provide a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract on the condition that the procuring entity provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and

tender documentation and be from a supplier that satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to the supplier that the entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notices and tender documentation, has submitted:
 - (a) the most advantageous tender in terms of price and non-price criteria; or
 - (b) where price is the sole criterion, the lowest price.
6. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted or the estimated procurement value, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.
7. A procuring entity shall not use options, cancel a procurement or modify awarded contracts in a manner that circumvents the obligations under this Chapter.

Article 11.16 Transparency of Procurement Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform participating suppliers of the entity's contract award decisions and, on the request of a supplier, shall do so in writing. Subject to paragraph 2 and paragraph 3 of Article 11.17 (Disclosure of Information), a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.⁴

Publication of Award Information

2. Not later than seventy-two (72) days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in the appropriate paper or electronic medium listed in Annex 11-H (Means of Publication). Where the entity publishes the notice only in an electronic medium, the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:
 - (a) a description of the goods or services procured;

⁴ For Sri Lanka, "on request" may not be applicable because the explanation of the reasons for the selection and the relative advantages are already provided at the point where the participating suppliers are informed of the procuring entity's decision.

- (b) the name and address of the procuring entity;
- (c) the name and address of the successful supplier;
- (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
- (e) the date of award; and
- (f) the type of procurement method used, and in cases where limited tendering was used in accordance with Article 11.13 (Limited Tendering), a description of the circumstances justifying the use of limited tendering.

Maintenance of Documentation, Reports and Electronic Traceability

- 3. Each procuring entity shall, for a period of at least three (3) years from the date it awards a contract, maintain:
 - (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 11.13 (Limited Tendering); and
 - (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

Collection and Reporting of Statistics

- 4. Each Party shall communicate to the other Party the available and comparable statistics relevant to the procurement covered by this Chapter.

Article 11.17
Disclosure of Information

Provision of Information to Parties

- 1. On request of a Party, the other Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any particular supplier information that might prejudice fair competition between suppliers.
3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure:
 - (a) would impede law enforcement;
 - (b) might prejudice fair competition between suppliers;
 - (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
 - (d) would otherwise be contrary to the public interest.

Article 11.18
Domestic Review Procedures

1. In the event of a complaint by a supplier of a Party that there has been a breach of this Chapter in the context of procurement by the other Party, that Party may encourage the supplier to first seek resolution of its complaint in consultation with the procuring entity of the other Party.
2. Each Party shall provide suppliers of the other Party with non-discriminatory, timely, transparent and effective administrative or judicial procedures to challenge alleged breaches of this Chapter arising in the context of procurements in which they have, or have had, an interest.
3. Each Party shall provide its challenge procedures in writing and make them generally available.
4. Challenges shall be heard by a court or by an impartial and independent review body with no interest in the outcome of the procurement and the members of which are secure from external influence during the term of appointment.
5. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which:
 - (a) in the case of Singapore, shall not be less than ten (10) days; and
 - (b) in the case of Sri Lanka, shall not be less than seven (7) days;from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

6. Each Party shall adopt or maintain administrative or judicial procedures that provide for rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing.
7. In the case of Singapore, the total liability for any breach of this Chapter or compensation for loss or damages suffered by a supplier shall be limited to the costs for tender preparation reasonably incurred by the supplier for the purpose of the procurement.

Article 11.19
Modifications and Rectifications to Coverage

Notification of Proposed Modification

1. A Party shall notify the other Party of any proposed rectification, transfer of an entity from one Annex to another, withdrawal of an entity or other modification of its Annexes ("modification") in writing.
2. For any proposed withdrawal of an entity from any Party's Annexes on the grounds that government control or influence over the entity's covered procurement has been effectively eliminated, the Party proposing the modification ("modifying Party") shall include in the notification evidence that such government control or influence has been effectively eliminated. Government control or influence over the covered procurement of entities listed in its Annexes is deemed to be effectively eliminated if the procuring entity has been privatised or where the majority of shares of the entity is not held by government or other public bodies.
3. Where government control or influence over the covered procurement of an entity of a Party has been effectively eliminated, the other Party shall not be entitled to compensatory adjustments.
4. For any other proposed modification, the modifying Party shall include in the notification information as to the likely consequences of the change for the coverage provided in this Chapter. Where the modifying Party proposes to make minor amendments or technical rectifications of a purely formal nature not affecting covered procurement, it shall notify these modifications at least every two (2) years.

Resolution of Objection

5. In case of objection by the other Party (“objecting Party”) to the notification by the modifying Party, the Parties shall seek to resolve the objection through bilateral consultations. In such consultations, the Parties shall consider:
 - (a) evidence pertaining to the effective elimination of government control or influence over an entity’s covered procurement in the case of a notification under paragraph 2 of this Article;
 - (b) evidence that the proposed modification does not affect coverage in the case of a notification under paragraph 4 of this Article; and
 - (c) any claims relating to the need for or level of compensatory adjustments, arising from modifications notified according to paragraph 1 of this Article. The adjustments may consist of either compensatory expansion of coverage by the modifying Party or a withdrawal of equivalent coverage by the objecting Party, with a view to maintaining a balance of rights and obligations and a comparable level of agreed coverage provided in this Chapter.

6. Where the objecting Party, after bilateral consultations under paragraph 5 of this Article, considers that one or more of the following situations exist:
 - (a) in the case of sub-paragraph 5(a) of this Article, government control or influence over an entity’s covered procurement has not been effectively eliminated;
 - (b) in the case of sub-paragraph 5(b) of this Article, a modification does not meet the criteria in paragraph 4 of this Article and which affects coverage, and should be subject to compensatory adjustments; or
 - (c) in the case of sub-paragraph 5(c) of this Article, compensatory adjustments proposed during the consultation between the Parties are not adequate to maintain a comparable level of agreed coverage,

the Parties may have recourse to the dispute settlement mechanism under Chapter 16 (Dispute Settlement).

Implementation

7. A proposed modification shall become effective only where:
 - (a) the other Party has not submitted to the modifying Party a written objection to the proposed modification within forty-five (45) days from the date of the notification of the proposed modifications;
 - (b) the objecting Party has notified the modifying Party of the withdrawal of its objection;

- (c) the Parties have reached an agreement after due consultations under paragraph 5 of this Article; or
- (d) the objection has been resolved through the dispute settlement mechanism under Chapter 16 (Dispute Settlement) pursuant to paragraph 6 of this Article.

CHAPTER 12 COMPETITION AND RELATED MATTERS

Article 12.1 Principles

1. The Parties recognise the importance of free and undistorted competition in their trade relations. They acknowledge that anti-competitive business conduct or anti-competitive transactions have the potential to distort the proper functioning of their markets and undermine the benefits of trade liberalisation.
2. To promote free and undistorted competition in all sectors of their economies, the Parties shall introduce or maintain¹ comprehensive legislation in their respective territories, which effectively address:
 - (a) horizontal agreements between undertakings, decisions by associations of undertakings and concerted practices, which have as their object or effect the prevention, restriction or distortion of competition in their own territory as a whole or in a substantial part thereof;
 - (b) abuses by one or more undertakings of a dominant position in their own territory as a whole or in a substantial part thereof; and
 - (c) concentrations between undertakings which result in a substantial lessening of competition or which significantly impede effective competition, in particular as a result of the creation or strengthening of a dominant position in their own territory as a whole or in a substantial part thereof;

which affect trade between them.

Article 12.2 Implementation

1. The Parties shall maintain autonomy in developing and enforcing their respective laws. The Parties undertake, however, to maintain authorities responsible and appropriately equipped for the effective enforcement of the legislation referred to in paragraph 2 of Article 12.1 (Principles).
2. The Parties will apply their respective legislation referred to in paragraph 2 of Article 12.1 (Principles) in a transparent and non-discriminatory manner, respecting the principles of procedural fairness and rights of defence of the parties concerned, including the right of the parties concerned to be heard prior to deciding on a case.

The Party requesting consultations shall indicate, if relevant, how the matter affects trade between the Parties.
2. The Parties shall promptly discuss, upon the request of a Party, any questions arising from the interpretation or application of this Chapter.

⁶ It is understood that designs are not excluded from protection simply on the basis that they constitute a part of an article or product, provided that they are visible, fulfil the criteria of this paragraph, and:

- (a) fulfil any other criteria for design protection; and
- (b) are not otherwise excluded from design protection,

under the Parties' respective domestic law.

Without prejudice to the foregoing general principles, nothing in this Chapter creates any obligation on either Party:
 - (a) to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of law in general; or
 - (b) with respect to the distribution of resources as between enforcement of intellectual property rights and the enforcement of law in general.

Where it considers that this deadline cannot be met, the chairperson of the arbitration panel must notify the Parties in writing, stating the reasons for the delay and the date on which the arbitration panel plans to issue its interim report. Under no circumstances should the arbitration panel issue its interim report later than one hundred and twenty (120) days after the date of its establishment.

2. Any Party may submit a written request for the arbitration panel to review precise aspects of the interim report within thirty (30) days of its notification.
3. After considering any written comments by the Parties on the interim report, the arbitration panel may modify its report and make any further examination it considers appropriate. The final report of the arbitration panel shall set out the matters listed in paragraph 1 of this Article, include a sufficient discussion of the arguments made at the interim review stage, and answer clearly to the written comments of the two Parties.

Where it considers that this deadline cannot be met, the chairperson of the arbitration panel shall notify the Parties in writing, stating the reasons for the delay and the date on which the arbitration panel plans to issue its final report. Under no circumstances should the arbitration panel issue its final report later than two hundred and seventy (270) days after the date of its establishment.
5. In cases of urgency, including those involving perishable goods:
 - (a) the arbitration panel shall make every effort to issue its interim and final reports to the Parties within half of the respective time periods under paragraphs 1 and 4 of this Article. Under no circumstances should the arbitration panel issue its final report later than ninety (90) days after the date of its establishment;
 - (b) any Party may submit a written request for the arbitration panel to review precise aspects of the interim report within half of the time period under paragraph 2 of this Article.
6. Any findings, determinations and recommendations in the final report of the arbitration panel shall be final and binding on the Parties and shall not create any rights or obligations to any person. For greater certainty, nothing in the final report may add to or diminish the rights and obligations of the Parties under this Agreement.

Article 16.10
Implementation of the Arbitration Panel Report

1. The Party complained against shall take any measure necessary to comply in good faith with the determinations and recommendations in the final report, and the Parties shall endeavour to agree on the time period for the Party complained against to comply with such determinations and recommendations.
2. No later than thirty (30) days after the receipt of the final report, the Party complained against shall notify the complaining Party of the time it will require for compliance (hereinafter referred to as “reasonable period of time”), if immediate compliance is not practicable.
3. If there is disagreement between the Parties on the reasonable period of time to comply with the determinations and recommendations in the final report, the complaining Party shall, within fifty (50) days of the date of issuance of the final report, request in writing to the original arbitration panel to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the other Party. The original arbitration panel shall issue its determination on the length of the reasonable period of time to the Parties within twenty (20) days from the date of the submission of the request.

Compensation and Suspension of Concessions or Other Obligations

1. If the Party complained against fails to notify any measure taken to comply with the determinations and recommendations in the final report before the expiry of the reasonable period of time, or if the arbitration panel determines that no measure taken to comply exists or that the measure notified under paragraph 7 of Article 16.10 (Implementation of Arbitration Panel Report) is inconsistent with that Party's obligations under the provisions referred to in Article 16.2 (Scope), the Party complained against shall, enter into negotiations with the complaining Party with a view to developing mutually acceptable agreement on compensation.
2. If no agreement on compensation is reached within thirty (30) days after the end of the reasonable period of time or, where applicable, the issuance of the arbitration panel determination under paragraph 8 of Article 16.10 (Implementation of the Arbitration Panel Report) that no measure taken to comply exists or that a measure taken to comply is inconsistent with the provisions referred to in Article 16.2 (Scope), the complaining Party shall be entitled, upon notification to the other Party, to suspend concessions or obligations arising from any provision referred to in Article 16.2 (Scope) at a level equivalent to the nullification or impairment caused by the violation.  - (b) if the complaining Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector(s), it may suspend concessions or other obligations with respect to other sector(s); and
 - (c) the complaining Party will take into consideration those concessions or other obligations the suspension of which would least disturb the functioning of the this Agreement.
5. If the Party complained against considers that the level of suspension is not equivalent to the nullification or impairment caused by the violation, it may request in writing the original arbitration panel to determine the matter. Such request shall be notified to the complaining Party before the expiry of the twenty-five (25) day period referred to in paragraph 2 of this Article. The original arbitration panel, having sought, if appropriate, the opinion of experts, shall notify its determination on the level of the suspension of concessions or other obligations to the Parties within thirty (30) days of the date of the submission of the request. Such request shall be notified simultaneously to the other Party.
