Nothing in this Agreement shall prohibit a Party from unilaterally accelerating or broadening the scope of the elimination of customs duties set out in its Schedule in Annex 2-1 (Schedule of Tariff Commitments) on originating goods. Any such unilateral acceleration or broadening of the scope of the elimination of customs duties will not permanently supersede any duty rate or staging category determined pursuant to their respective Schedules, nor will it serve to waive that Party's right to raise the customs duty back to the level established in its Schedule in Annex 2-1 (Schedule of Tariff Commitments) following a unilateral reduction.

ARTICLE 2.5

Classification of Goods and Transposition of Schedules

1. The classification of goods in trade between the Parties shall be that set out in the respective tariff nomenclature of each Party in conformity with the Harmonized System and its legal notes and amendments.
2. Each Party shall ensure that the transposition of its Schedule of Tariff Commitments does not afford less favourable treatment to an originating good of the other Party than that set out in its Schedule in Annex 2-1A or 2-1B.
3. A Party may introduce new tariff splits, provided that the preferential conditions applied in the new tariff splits are not less preferential than those applied originally.

Upon request of the other Party, the Party shall provide information concerning its implementation in a reasonable period of time.

The Parties shall determine the customs value of goods traded between them in accordance with the provisions of Article VII of the GATT 1994 and the Customs Valuation Agreement, *mutatis mutandis*.

ARTICLE 2.9

Export Subsidies

1. Neither Party shall adopt or maintain any export subsidy on any good destined for the territory of the other Party in accordance with the SCM Agreement and the Agreement on Agriculture.
2. The Parties reaffirm their commitments made in the WTO Ministerial Conference Decision on Export Competition adopted in Nairobi on 19 December 2015, including the elimination of scheduled export subsidy entitlements for agricultural goods.

ARTICLE 2.10

Restrictions to Safeguard the Balance-of-Payments

1. The Parties shall endeavour to avoid the imposition of restrictive measures for balance-of-payments purposes.
2. Any such measures taken for trade in goods shall be in accordance with Article XII of the GATT 1994 and the Understanding on the Balance-of-Payments Provisions of the GATT 1994, the provisions of which are incorporated into and made a part of this Agreement, *mutatis mutandis*.

an *ad valorem* basis, and shall not represent an indirect protection for domestic goods or a taxation of imports or exports for fiscal purposes.

2. Each Party shall promptly publish details and shall make such information available on the Internet regarding the fees and charges it imposes in connection with importation or exportation.

ARTICLE 2.12 Non-Tariff Measures

1. Unless otherwise provided, neither Party shall adopt or maintain any non-tariff measure on the importation of any good of the other Party or on the exportation of any good destined for the territory of the other Party, except in accordance with its WTO rights and obligations or with this Agreement.
2. Each Party shall ensure that its laws, regulations, procedures, and administrative rulings relating to non-tariff measures are not prepared, adopted, or applied with a view to, or with the effect of, creating unnecessary obstacles to trade with the other Party.
3. If a Party considers that a non-tariff measure of the other Party is an unnecessary obstacle to trade, that Party may nominate such a non-tariff measure for review by the Subcommittee for Trade established under Article 17.1 (Joint Committee), by notifying the other Party at least 30 days before the date of the next meeting of the Subcommittee for Trade. A nomination of a non-tariff measure for review shall include the reasons for its nomination, how the measure adversely affects trade between the Parties, and, if possible, suggested solutions. The Subcommittee for Trade shall immediately review the measure with a view to securing a mutually agreed solution to the matter. Review by the Subcommittee for Trade is without prejudice to the Parties' rights under Chapter 14 (Dispute Settlement).

ARTICLE 2.13 State Trading Enterprises

Nothing in this Agreement shall be construed to prevent a Party from maintaining or establishing a state trading enterprise in accordance with Article XVII of the GATT 1994 and the Understanding on the Interpretation of Article XVII of the GATT 1994, *mutatis mutandis*.

ARTICLE 2.14 Subcommittee for Trade- Trade in Goods Matters

1. For the purposes of the effective implementation and operation of this Chapter, Subcommittee for Trade established by Chapter 17 of this Agreement will handle, among others, Trade in Goods matters.
2. These matters include the objectives below:

2. The Parties recognize the right to apply measures consistent with Article VI of the GATT 1994, the Anti-Dumping Agreement, and the SCM Agreement, and the importance of promoting transparency.
3. Except as otherwise stipulated in this Article, this Agreement does not confer any additional rights or obligations on the Parties with regard to anti-dumping and countervailing measures including the initiation and conduct of anti-dumping and countervailing duty investigations as well as the application of anti-dumping and/or countervailing measures.
4. Neither Party shall have recourse to Chapter 14 (Dispute Settlement) of this Agreement for any matter arising under this Article.
5. When the investigating authority of a Party receives a written application by or on behalf of its domestic industry for the initiation of an anti-dumping investigation in respect of a product from the other Party, the former Party shall notify the other Party of the application as far in advance of the initiation of such investigation as possible. As soon as possible after accepting an application for a countervailing duty investigation in respect of a product of the other Party, and in any event before initiating an investigation, the Party shall provide written notification of its receipt of the application to the other Party and invite the other Party for consultations with the aim of clarifying the situation as to the matters referred to in the application and arriving at a mutually agreed solution.
6. The investigating authority of each Party shall ensure, before a final determination is made, the disclosure of all essential facts under consideration which form the basis for the decision whether to apply definitive measures. This is without prejudice to Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement. Disclosures shall be made in writing and allow interested parties sufficient time to make their comments.

ARTICLE 3.3
Transitional Safeguard Measures

1. For the purposes of this Article:

Domestic industry means, with respect to an imported product, the producers as a whole of the like or directly competitive product operating within the territory of a Party, or those producers whose collective production of the like or directly competitive product constitutes a major proportion of the total domestic production of that product;

Provisional measure means a provisional bilateral safeguard measure described in Paragraph 12;

Serious injury means a significant overall impairment in the position of a domestic industry;

Threat of serious injury means serious injury that, on the basis of facts and not merely on allegation, conjecture or remote possibility, is clearly imminent;

Transition period, in relation to a particular product, means the period from the entry into force of this Agreement until two years after the date on which the elimination or reduction of the customs duties on that product is completed in accordance with the Party's schedule of tariff commitments in Annex 2-1A and 2-1B, which shall not exceed 7 years starting from the date of entry into force of the Agreement in any circumstances;

Transitional safeguard measure means a transitional bilateral safeguard measure described in Paragraph 2.

2. If, as a result of the reduction or elimination of a customs duty under this Agreement, an originating product of a Party is being imported into the territory of the other Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions as to cause serious injury, or threat thereof, to a domestic industry producing a like or directly competitive product, the other Party may, to the extent necessary to prevent or remedy serious injury apply a transitional safeguard measure consisting of:

(a) the suspension of the further reduction of any rate of customs duty on the product provided for under this Agreement;

(b) an increase of the rate of customs duty on the product to a level not to exceed the lesser of:

(i) the most-favored-nation (MFN) applied rate of customs duty on the product in effect at the date on which the transitional safeguard measure is taken; or

(ii) the MFN applied rate of customs duty on the product in effect on the day immediately preceding the date this Agreement enters into force.

3. A Party shall notify the other Party in writing:
 - (a) immediately on initiation of an investigation described in Paragraph 5;
 - (b) immediately upon making a finding of serious injury or threat thereof caused by increased imports of an originating product of the other Party as a result of the reduction or elimination of a customs duty on the product pursuant to this Agreement;
 - (c) before applying provisional measures pursuant to Paragraph 12, and
 - (d) no less than 20 days in advance of applying a definitive transitional safeguard measure or extending a transitional safeguard measure.
4. A Party shall consult with the other Party as far in advance of applying a transitional safeguard measure as practicable, with a view to reviewing the non-confidential version of the information arising from the investigation and exchanging views on the measure.
5. A Party shall apply a transitional safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.
6. In the investigation described in Paragraph 5, the Party shall comply with the requirements of Article 4.2 (a) and (b) of the Safeguards Agreement, and to this end, Article 4.2 (a) and (b) of the Safeguards Agreement is incorporated into and made a part of this Agreement, *mutatis mutandis*.
7. Each Party shall ensure that its competent authorities complete any such investigation within one year of its date of initiation.
8. Neither Party may apply a transitional safeguard measure:
 - (a) except to the extent, and for such time, as may be necessary to prevent or remedy serious injury and to facilitate adjustment;
 - (b) for a period exceeding two years, except that the period may be extended by up to one year if the competent authorities of the importing Party determine, in conformity with the procedures specified in this Article, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, provided that the total period of application of a transitional safeguard measure, including the period of initial application and any extension thereof, shall not exceed three years; or
 - (c) beyond the expiration of the transition period, except with the consent of the other Party.

9. No transitional safeguard measure shall be applied again to the import of a product which has been previously subject to such measure for a period of time equal to the period during which the previous measure was applied.
10. Where the expected duration of the transitional safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.
11. When a Party terminates a transitional safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex 2-1A and 2-1B (Schedule of Tariff Commitments), would have been in effect but for the measure.
12. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a transitional safeguard measure on a provisional basis pursuant to a preliminary determination by its competent authorities that there is clear evidence that imports of an originating product from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports have caused serious injury, or threat thereof, to the domestic industry.
13. Before applying a safeguard measure on a provisional basis, the applying Party shall notify the other Party. A Party may not apply a provisional measure until at least 45 days after the date its competent authorities initiate an investigation.
14. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Paragraphs 5 and 6.
15. The Party shall promptly refund any tariff increases if the investigation described in Paragraph 5 does not result in a finding that the requirements of Paragraph 2 are met. The duration of any provisional measure shall be counted as part of the period described in Paragraph 8(b).
16. No later than 30 days after it applies a transitional safeguard measure, a Party shall afford an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the transitional safeguard measure. The applying Party shall provide such compensation as the Parties mutually agree.
17. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating product the measure is applied may suspend the application of concessions with respect to originating product of the applying Party that have trade effects substantially equivalent to the transitional safeguard measure. The Party exercising the right of suspension may suspend the application of concessions only for the minimum period necessary to achieve the substantially equivalent effects.
18. A Party against whose product the transitional safeguard measure is applied shall notify the Party applying the transitional safeguard measure in writing at least 30 days before it suspends concessions in accordance with Paragraph 17.

19. The right of suspension referred in Paragraph 17 shall not be exercised for the first 24 months during which a transitional safeguard measure is in effect, provided that the transitional safeguard measure has been applied as a result of an absolute increase in imports and conforms to the provisions of this Agreement.
20. The applying Party's obligation to provide compensation under Paragraph 16 and the other Party's right to suspend concessions under Paragraph 17 shall terminate on the date the transitional safeguard measure terminates.

ARTICLE 3.4
Global Safeguard Measures

1. Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994 and the Safeguards Agreement.
2. Neither Party may apply, with respect to the same product, at the same time:
 - (a) a transitional safeguard measure as provided in Article 3.3 (Transitional Safeguard Measures); and
 - (b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

ARTICLE 3.5

1. This Chapter shall apply to the preparation, adoption, and application of all standards, technical regulations, and conformity assessment procedures, at the central government level, that may affect trade in goods between the Parties.
2. Each Party shall take reasonable measures, as may be available to it, to ensure observance of this Chapter by local government bodies on the level directly below that of the central government within its territory, which are responsible for the preparation, adoption, and application of technical regulations, standards, and conformity assessment procedures.

For greater certainty, nothing in this Chapter shall prevent a Party from preparing, adopting, applying, or maintaining technical regulations, standards, or conformity assessment procedures in accordance with its rights and obligations under this Agreement, the TBT Agreement, and any other relevant international agreement.

ARTICLE 4.4
Affirmation of the TBT Agreement

The Parties affirm their existing rights and obligations with respect to each other under the TBT Agreement.

ARTICLE 4.5
International Standards, Guides, and Recommendations

1. Each Party shall use relevant international standards, guides, and recommendations, to the extent provided in Articles 2.4 and 5.4 of the TBT Agreement, as a basis for its technical regulations and conformity assessment procedures.
2. In determining whether an international standard, guide, or recommendation within the meaning of Articles 2 and 5 and Annex 3 of the TBT Agreement exists, each Party shall apply the principles set out in the Decision of the Committee on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2, 5 and Annex 3 of the Agreement, adopted on 13 November 2000 by the WTO Committee on Technical Barriers to Trade (13 November 2000, Annex 2 to PART 1 of G/TBT/1), and any subsequent version thereof.
3. The Parties shall encourage cooperation between their respective national standardising organisations in areas of mutual interest, in the context of their participation in international standardising bodies, to ensure that international standards developed within such organisations are trade facilitating and do not create unnecessary obstacles to trade.
4. The Parties reaffirm their obligations under Article 4.1 of the TBT Agreement to ensure that their national standardising bodies accept and comply with the Code of Good Practice for the Preparation, Adoption, and Application of Standards in Annex 3 of the TBT Agreement.

2. In accordance with Article 2.2 of the TBT Agreement, each Party shall ensure that technical regulations are not more trade-restrictive than necessary to fulfil a legitimate objective, taking account of the risks non-fulfilment would create.
3. The Parties shall use international standards as a basis for preparing their technical regulations, unless those international standards are ineffective or inappropriate to achieving the legitimate objective pursued. Where a Party does not use an international standard, guide, or recommendation referred to in paragraph 1, or their relevant parts, as a basis for its technical regulations, it shall, on request of the other Party, explain the reasons therefor.
4. In accordance with Article 2.7 of the TBT agreement, each Party shall give positive consideration to accepting as equivalent technical regulations of the other Party, even if these regulations differ from its own, provided that it is satisfied that these regulations adequately fulfil the objectives of its own regulations.

At the request of a Party that has an interest in developing a technical regulation similar to a technical regulation of the other Party, such other Party shall endeavour to provide, to the extent practicable, relevant information, including studies or documents, except for confidential information, on which it has relied in its development.
8. Consistent with the obligations of the TBT Agreement, each Party shall ensure that its technical regulations, including those dealing exclusively with marking and labelling requirements:

This means, *inter alia*, that conformity assessment procedures shall not be more strict or be applied more strictly than is necessary to give the importing Party adequate confidence that products conform with the applicable technical regulations or standards, taking account of the risks non-conformity would create.
3. The Parties recognise that, depending on specific sectors involved, a broad range of mechanisms exists to facilitate the acceptance in a Party's territory of the results of conformity assessment procedures conducted in the other Party's territory. Such mechanisms may include:
 - (a) recognising existing multilateral recognition agreements and arrangements among conformity assessment bodies;

satisfactory assurance of conformity with applicable technical regulations or standards equivalent to its own procedures. Where a Party does not accept the results of a conformity assessment procedure conducted in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.

5. In order to enhance confidence in the consistent reliability of each one of the conformity assessment results, the Parties may consult on matters such as the technical competence of the conformity assessment bodies involved.
6. The Parties may, upon request by a Party, enter into consultations to negotiate agreements or arrangements for the mutual recognition of the results of their respective conformity assessment procedures. The Parties shall consider the possibility of negotiating agreements or arrangements for mutual recognition of the results of their respective conformity assessment procedures in areas mutually agreed upon.
7. The Parties shall endeavour to intensify their exchange of information on acceptance mechanisms, conformity assessment procedures, and accreditation policy with a view to facilitating the acceptance of conformity assessment results.

That request shall be notified simultaneously to the complaining Party. The original panel shall notify the parties of its decision on the matter no later than 30 days after the date of receipt of the request from the respondent Party. That request shall be notified simultaneously to the respondent Party. The panel shall notify its decision to the Parties no later than 30 days after the date of submission of the request.
