Article 4.4: Goods Not Wholly Obtained or Produced

1. For the purposes of Article 4.2(c), the product specific rules set out in Annex 4-A requiring that the materials used undergo a change in tariff classification or a specific manufacturing or processing operation shall apply only to non-originating materials.

2. Where Annex 4-A provides a choice of rule between a qualifying value content, a change in tariff classification, a specific process of production, or a combination of any of these, a Party shall permit the producer or exporter of the good to decide which rule to use in determining if the good is an originating good.

Article 4.5: Qualifying Value Content

For the purposes of Article 4.2(c), the qualifying value content of a good shall be calculated as follows:

$$QVC = \frac{FOB - VNM}{FOB} \times 100$$

where:

- FOB** - is the Free On Board value of the final good; and
- VNM** - is the CIF value of the non-originating materials at the time of importation or the earliest ascertained price paid or payable in the Party where the production takes place for all non-originating materials, parts or produce that are acquired by the producer in the production of the good. When the producer of a good acquires non-originating materials within that Party the value of such materials shall not include freight, insurance, packing costs and any other costs incurred in transporting the material from the supplier's warehouse to the producer's location.

Article 4.6: Indirect Materials

³ "Simple mixing" generally describes an activity which does not need special skills, machine, apparatus or equipment especially produce or install for carrying out the activity. However, simple mixing does not include chemical reaction. Chemical reaction means a process (including a biochemical process) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

⁴ "Simple assembly" generally describes an activity which does not need special skills, machines, apparatus or equipment especially produced or installed for carrying out the activity.

- (k) husking, partial or total bleaching, polishing and glazing of cereals and rice; and
- (l) mere dilution with water or another substance that does not materially alter the characteristics of the goods.

Article 4.8: Accumulation

1. An originating good of a Party which is used in the processing or production in the territory of the other Party as material for finished goods shall be deemed as a material originating in the territory of the latter Party where the working or processing of the finished goods has taken place.
2. The Parties shall endeavour to establish provisions regarding accumulation with non-Parties and its implementation under the Sub-Committee of Rules of Origin, as set out in Article 4.15.

Article 4.9: *De Minimis*

A good that does not undergo a change in tariff classification requirement as set out in Annex 4-A shall be considered as originating if:

- (a) for a good, other than that provided for in Chapters 50 to 63 of the HS Code, the value of all non-originating materials used in the production of the good that did not undergo the required change in tariff classification does not exceed 10 per cent of the FOB value of the good;
- (b) for a good provided for in Chapters 50 to 63 of the HS Code, the weight of all non-originating materials used in its production that did not undergo the required change in tariff classification does not exceed 10 per cent of the total weight of the good,

2. The method of inventory management chosen by the exporter must be maintained for at least one year.

Article 4.11: Accessories, Spare Parts, Tools and Instructional or Information Materials

1. Accessories, spare parts, tools, instructional or other information materials delivered with a good that form part of the good's standard accessories, spare parts, or tools, shall be regarded as a part of the good, and shall be disregarded in determining whether or not all the non-originating materials used in the production of the originating goods undergo the applicable change in tariff classification provided that:

- (a) the accessories, spare parts, tools, instructional or other information materials are classified with and not invoiced separately from the good; and
- (b) the quantities and value of the accessories, spare parts, tools, instructional or other information materials are customary for the good.

Article 4.12: Treatment of Packages, Packing Materials and Containers

1. If a good is subject to the qualifying value content requirement, the value of the packages and packing materials for retail sale, shall be taken into account in determining the origin of such good as originating or non-originating, as the case may be, provided that the packages and packing materials are considered to be forming a whole with the good.

2. If a good is subject to the change in tariff classification criterion, packages and packing materials for retail sale classified together with the packaged good, shall not be taken into account in determining the origin of such good.

3. Packing materials and containers used exclusively for the transportation of a good shall not be taken into account in determining the origin of such good.

1. A good shall be deemed as directly consigned from the exporting Party to the importing Party if:

- (a) the good is transported without passing through the territory of any non-Party; or

- (iii) The Customs Authority of the importing Party shall make a written

determination of whether or not the good qualifies as an originating good of the exporting Party including findings of fact and the legal basis for the determination as expeditiously as possible and no later than 45 days after it receives the information necessary to make the determination.

- (iv) Notwithstanding paragraph (iii), the Customs Authority of the importing Party shall provide that the verification process, including a written determination, shall be concluded no later than 365 days after the first request for information.
- (v) The Competent Authority of the exporting Party shall, when it cancels the decision to issue the Certificate of Origin, promptly notify the cancellation to the exporter to whom the Certificate of Origin has been issued, and to the Customs Authority of the importing Party except where the Certificate of Origin has been returned to the Competent Authority of the exporting Party. - (iii) When the exporter repeatedly provided false information or documents, the Competent Authority may temporarily suspend the issuance of a new Certificate of Origin.

4. When the arbitral panel considers that it cannot submit the draft report within the timeframe provided for under paragraph 2, it may extend that timeframe with the consent of the Parties.

5. After considering any written comments on the draft report, the arbitral panel may reconsider the draft report and make any further assessment it considers appropriate.

6. The arbitral panel shall submit the final report to the Parties no later than 30 days after the date of submission of the draft report. Opinions expressed in the reports by the panellists shall be anonymous. Subject to the agreement between the Parties, the reports shall include any separate opinions on matters not unanimously agreed, not disclosing which panellists are associated with majority or minority opinions.

7. The findings, determinations and, if applicable, any recommendations of the arbitral panel cannot add to or diminish the rights and obligations of the Parties provided in this Agreement.

8. The final report shall be available to the public within 30 days of the date of issuance, subject to the requirement to protect confidential information.

9. The final report shall be final and binding on the Parties.

Article 12.14: Implementation of the Report

1. Unless the Parties agree otherwise, the Responding Party shall eliminate the non-conformity with this Agreement, as determined in the final report, immediately, or if this is not practicable, within a reasonable period of time.

2. If a reasonable period of time is required, it shall, whenever possible, be agreed between the Parties. If the Parties are unable to agree on the reasonable period of time within 45 days of the date of issuance of the final

report to the Parties, either Party may request an arbitral panel as provided for in Article 12.16.7 to determine the reasonable period of time. Unless the Parties agree otherwise, such request shall be made no later than 120 days after the date of the issuance of the final report.

3. Any other detailed provision on this Article shall be provided for under the Rules of Procedure referred to in Article 12.17.

Article 12.15: Compliance Review

If there is disagreement between the Parties as to whether the Responding Party eliminated the non-conformity with this Agreement as determined in the final report, within the reasonable period of time pursuant to Article 12.14, either Party may refer the matter to an arbitral panel⁸ as provided for in Article 12.16.7. Any detailed provisions related to the compliance review arbitral panel shall be provided under the Rules of Procedure referred to in Article 12.17.

Article 12.16: Non-Implementation – Compensation and Suspension of Concessions or other Obligations

1. If the Responding Party notifies the Complaining Party that it is impracticable, or the arbitral panel to which the matter is referred pursuant to Article 12.15 confirms that the Responding Party failed to eliminate the non-conformity with this Agreement as determined in the final report within the reasonable period of time as determined pursuant to Article 12.14.2, the Responding Party shall, if so requested, enter into negotiations with the Complaining Party with a view to reach a mutually acceptable compensation.

2. If there is no agreement on acceptable compensation within 30 days of the date of receipt of the request mentioned in paragraph 1, the Complaining Party may suspend the application of concessions or other obligations under this Agreement to the Responding Party, after giving notification of such suspension 30 days in advance. Such notification may only be given 20 days after the date of receipt of the request mentioned in paragraph 1.

3. The compensation referred to in paragraph 1 and the suspension referred to in paragraph 2 shall be temporary measures. Neither compensation nor suspension is preferred to full elimination of the non-conformity with this Agreement as determined in the final report. The suspension shall only be applied until such time as the non-conformity is fully eliminated, or a mutually satisfactory solution is reached.

⁸ Consultations under Article 12.5 are not required for these procedures.

4. In considering what concessions or other obligations to suspend pursuant to paragraph 2:

- (a) the Complaining Party should first seek to suspend concessions or other obligations with respect to the same sector(s) as that in which the final report referred to in Article 12.13 has found a failure to comply with the obligations under this Agreement; and
- (b) if the Complaining Party considers that it is not practicable or effective to suspend concessions or other obligations with respect to the same sector(s), it may suspend concessions or other obligations with respect to other sectors. The notification of such suspension pursuant to paragraph 2 shall indicate the reasons on which it is based.

5. The level of suspension referred to in paragraph 2 shall be equivalent to the level of the nullification or impairment.

6. If the Responding Party considers that the requirements for the suspension of concessions or other obligations by the Complaining Party set out in paragraphs 2, 3, 4 or 5 have not been met, it may refer the matter to an arbitral panel.

7. The arbitral panel that is established for the purposes of this Article or Article 12.14 shall have, wherever possible, as its panellists, the panellists of the original arbitral panel. If this is not possible, then the panellists to the arbitral panel that is established for the purposes of this Article or Article 12.14 shall be appointed pursuant to Article 12.9. The arbitral panel established under this Article or Article 12.14 shall issue its report within 60 days of the date when the matter is referred to it. When the arbitral panel considers that it cannot issue its report within the aforementioned 60 days period, it may extend that period for a maximum of 30 days with the consent of the Parties. The report shall be available to the public within 15 days of the date of issuance, subject to the requirement to protect confidential information. The report shall be final and binding on the Parties.

Article 12.17: Rules of Procedure

The Commission shall adopt the Rules of Procedure which provide for the details of the rules and procedures of the arbitral panels established under this Chapter, upon the entry into force of this Agreement. Unless the Parties agree otherwise, the arbitral panel shall follow the Rules of Procedure adopted by the Commission and may, after consulting the Parties, adopt additional rules of procedure not inconsistent with the Rules of Procedure adopted by the Commission.

Article 12.18: Application and Modification of Rules and Procedures

Any timeframe or other rules and procedures for the arbitral panels in accordance with this Chapter, including the Rules of Procedure referred to in Article 12.17, may be modified by mutual consent of the Parties. The Parties may also agree at any time not to apply any provision of this Chapter.

Article 8A.5: National Treatment

1. In the sectors inscribed in its Schedule as set out in Annex 8A-A, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.¹¹

2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of the other Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Party compared to like services or service suppliers of the other Party.

Article 8A.6: Additional Commitments

A Party may undertake specific commitments on measures affecting trade in services not subject to scheduling under Article 8A.4 and 8A.5. Such commitments are inscribed as additional commitments in its Schedule as set out in Annex 8A-A.

Article 8A.7: Schedules of Specific Commitments

1. The Schedules of Specific Commitments undertaken by each Party under Article 8A.4, 8A.5 and 8A.6 are set out in Annex 8A-A. With respect to sectors where such commitments are undertaken, each Schedule of Specific Commitment shall specify:

¹¹ Specific commitments assumed under this Article shall not be construed to require any Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

- (a) terms, limitations and conditions on market access;
- (b) conditions and qualifications on national treatment;
- (c) undertakings relating to additional commitments; and
- (d) where appropriate, the time-frame for implementation of such commitments and the date of entry into force of such commitments.

2. Measures inconsistent with both Articles 8A.4 and 8A.5 are inscribed in the column relating to Article 8A.4. In this case, the inscription will be considered to provide a condition or qualification to Article 8A.5 as well.

Article 8A.8: Modification of Schedules of Specific Commitments

1. Notwithstanding Article 8A.7, if a Party requests a consultation to discuss the possibility of modifying or withdrawing a commitment, and to reach any necessary compensatory adjustment, the other Party shall enter into consultation with the requesting Party. The requesting Party may not modify or withdraw its commitment until the Parties reach an agreement on the compensatory adjustment.

2. In achieving a compensatory adjustment, the Parties shall ensure that the general level of mutually advantageous commitment is not less favourable to trade than provided for in the Schedules prior to such negotiations.

3. If the Parties concerned are unable to reach an agreement on the compensatory adjustment, the matter shall be resolved in accordance with Chapter 12 (Dispute Settlement). The modifying Party may not modify or withdraw its commitment until it has made compensatory adjustments in conformity with the findings of the arbitral panel.

4. If the modifying Party implements its proposed modification or withdrawal and does not comply with the findings of the arbitral panel, the other Party may modify or withdraw substantially equivalent benefits in conformity with those findings.

Article 8A.9: Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.

2. Each Party shall maintain or institute, as soon as practicable, judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier, for the prompt review of and, where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not

independent of the agency entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

3. The provisions of paragraph 2 shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

4. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services while recognising the right to regulate and to introduce new regulations on the supply of services in order to meet its policy objectives, each Party shall ensure that any such measures that it adopts or maintains are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service; and
- (b) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5. In determining whether a Party is in conformity with its obligations under paragraph 4, account shall be taken of international standards of relevant international organisations by that Party¹².

6. If a Party requires authorisation for the supply of a service, it shall ensure that its competent authorities:

- (a) within a reasonable period of time after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application;
- (b) to the extent practicable, establish an indicative timeframe for the processing of an application;
- (c) if an application is rejected, to the extent practicable, inform the applicant of the reasons for the rejection, either directly or on request, as appropriate;
- (d) on request of the applicant, provide, without undue delay, information concerning the status of the application;
- (e) to the extent practicable, provide the applicant with the opportunity to correct minor errors and omissions in the application and endeavour to provide guidance on the additional information required;

¹² "Relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of at least both Parties to the Agreement.

- (f) if they deem appropriate, accept copies of documents that are authenticated in accordance with the Party's laws in place of original documents;
- (g) to the extent permissible under its domestic laws and regulations, do not require physical presence in the territory of a Party for the submission of an application for a license or qualification; and
- (h) endeavour to accept applications in electronic format under the equivalent conditions of authenticity as paper submissions in accordance with domestic laws and regulations.

7. Each Party shall ensure that any authorisation fee charged by any of its competent authorities is reasonable, transparent and does not, in itself, restrict the supply of the relevant service.¹³

8. If licensing or qualification requirements include the completion of an examination, each Party shall ensure that:

- (a) the examination is scheduled at reasonable intervals; and
- (b) a reasonable period of time is provided to enable interested persons to submit an application.

9. Where a Party permits a service supplier of the other Party to provide a professional service, each Party shall ensure that there are procedures in place domestically to assess the competency of professionals of another Party.

10. If the results of the negotiations related to paragraph 4 of Article VI of GATS, or the results of any similar negotiations undertaken in other multilateral fora in which the Parties participate, enter into effect, the Parties shall jointly review these results with a view to bringing them into effect, as appropriate, under this Agreement.

Article 8A.10: Recognition

1. For the purposes of the fulfilment, in whole or in part, of its standards or criteria for the authorization, licensing or certification of service suppliers, and subject to the requirements of paragraph 4, a Party may recognise the education or experience obtained, requirements met, or licences or certifications granted in a particular country. Such recognition, which may be achieved through harmonization or otherwise, may be based upon an agreement or arrangement with the country concerned, or may be accorded autonomously.

¹³ For the purposes of this paragraph, authorisation fees do not include fees for the use of natural resources, payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

2. Where a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in this Chapter shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.

3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, upon request, to negotiate their accession to such an agreement or arrangement or to negotiate comparable ones with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licences, or certifications obtained or requirements met in that other Party's territory should be recognised.

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between countries in the application of its standards or criteria for the authorisation, licensing, or certification of services suppliers, or a disguised restriction on trade in services.

5. Where appropriate, recognition should be based on multilaterally agreed criteria. In appropriate cases, Parties shall work in cooperation with relevant intergovernmental and non-governmental organisations towards the establishment and adoption of common international standards and criteria for recognition and common international standards for the practice of relevant services trades and professions.

6. As set out in Annex 8A.10 (Professional Services), each Party shall endeavour to facilitate trade in professional services, including through encouraging competent bodies in its territory to enter into negotiations for agreements or arrangements on recognition.

Article 8A.11: Denial of Benefits

1. Subject to prior notification, a Party may deny the benefits of this Chapter to:
 - (a) service suppliers of the other Party where the service is being supplied by a juridical person that is owned or controlled by persons of a non-Party and the juridical person has no substantial business activities in the territory of the other Party; or
 - (b) service suppliers of the other Party where the service is being supplied by a juridical person that is owned or controlled by persons of the denying Party and the juridical person has no substantial business activities in the territory of the other Party.

2. A Party may deny the benefits of this Chapter in the case of the supply of a maritime transport service, if it establishes that the service is supplied:

- (a) by a vessel registered under the laws of a non-Party; and
- (b) by a person of a non-Party which operates or uses the vessel in whole or in part.

Article 8A.12: Committee on Trade in Services

1. The Parties hereby establish a Committee on Trade in Services (Committee).

2. The functions of the Committee shall be:

- (a) reviewing the implementation and operation of this Chapter;
- (b) exchanging information on domestic laws and regulations;
- (c) discussing any issues related to this Chapter as may be agreed upon;
- (d) reporting their findings to the Commission; and
- (e) carrying out other responsibilities which may be delegated by the Commission pursuant to Article 11.1.4(b) (IC-CEPA Joint Commission).

Article 8A.13: Monopolies and Exclusive Services Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's commitments under this Chapter.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:

- (a) authorises or establishes a small number of service suppliers; and
- (b) substantially prevents competition among those suppliers in its territory.

Article 8A.14: Cooperation

The Parties shall strengthen cooperation efforts in services sectors, including sectors which are not covered by existing cooperation arrangements. The Parties shall discuss and mutually agree on the sectors for cooperation, trade promotion and develop cooperation programs in these sectors in order to improve their domestic capacities, efficiencies and competitiveness.”

PART III

PROFESSIONAL SERVICES

The following Annex 8A.10 (Professional Services) shall be incorporated into the Agreement and immediately placed after Chapter 8A (Trade in Services):

“ANNEX 8A.10

PROFESSIONAL SERVICES

General Provisions

1. Each Party shall consult with relevant bodies in its territory to seek to identify professional services where both Parties are mutually interested in establishing dialogue on issues that relate to the recognition of professional qualifications, licensing, or registration procedures.
2. Each Party shall encourage its relevant bodies to establish dialogues with the relevant bodies of the other Party, with a view to recognising professional qualifications facilitating licensing or registration procedures.
3. Each Party shall encourage its relevant bodies to negotiate with the relevant bodies of the other Party on any form of arrangement for the mutual recognition of professional qualifications, licensing or registration procedures in professional services sectors of mutual interest.
4. Each Party shall encourage its relevant bodies to take into account agreements that relate to professional services in the development of agreements on the recognition of professional qualifications, licensing or registration procedures.
5. A Party may consider, if feasible, taking steps to implement a temporary or project specific licensing or registration procedures regime based on a foreign supplier’s home license or recognised professional body membership, without the need for further written

examination. Such temporary or limited license regime should not operate to prevent a foreign supplier from gaining a local license once that supplier satisfies the applicable local licensing requirements.

Development of Standards and Criteria for the Supply of Professional Services

6. To facilitate the activities referred to in paragraphs 1 through 3, each Party shall encourage its relevant bodies to work towards the development of mutually acceptable professional standards and criteria in mutually accepted areas, which may include:

- (a) education: accreditation of educational institutions or academic programmes;
- (b) examinations: qualifying examinations for licensing, including alternative methods of assessment, such as oral examinations and interviews;
- (c) experience: length and nature of the experience required for licensing;
- (d) conduct and ethics: standards of professional conduct and the nature of disciplinary action in the event that professional service suppliers contravene them;
- (e) professional development and re-certification: continuing education and the requirements for maintaining professional certification;
- (f) scope of practice: extent of, or limitations on, authorised activities;
- (g) local knowledge: requirements for knowledge of such matters as regulations, language, geography or climate; and
- (h) consumer protection: requirements other than residence, such as professional liability insurance and client restitution funds to ensure consumer protection.

7. Each Party shall encourage its relevant bodies to refer to international frameworks, where applicable, in developing common standards and criteria for the relevant professions.

Cooperation

8. On request of the other Party, a Party shall, where practicable, provide information concerning standards and criteria for the licensing and certification of professional service suppliers, or otherwise provide information relating to the appropriate regulatory or other body to consult regarding these standards and criteria.

Review

9. The Parties may periodically review the implementation of this Annex through the Committee on Trade in Services.”

PART IV

MOVEMENT OF NATURAL PERSONS

The following Chapter 8B (Movement of Natural Persons) shall be incorporated into the Agreement and immediately placed after Annex 8A.10 (Professional Services):

“CHAPTER 8B

MOVEMENT OF NATURAL PERSONS

Article 8B.1: Scope

1. This Chapter shall apply to measures affecting the entry or temporary stay of natural persons of a Party into the territory of the other Party covered by its Schedule of Specific Commitments as set out in Annex 8A-A.
2. This Chapter shall not apply to measures affecting natural persons seeking access to the employment market of the other Party, nor shall it apply to measures regarding citizenship, nationality, residence or employment on a permanent basis.
3. Nothing in this Agreement shall prevent a Party from applying measures to regulate the entry of natural persons of the other Party into, or their temporary stay in, its territory, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that those measures are not applied in such a manner as to nullify or impair the benefits accruing to either Party under this Chapter.¹⁴

Article 8B.2: Grant of Entry and Temporary Stay

1. The Parties shall ensure that their requirements and procedures relating to entry and temporary stay are pre-established and clearly specified.

¹⁴ The sole fact of requiring a visa for natural persons of certain countries and not for those of others shall not be regarded as nullifying or impairing benefits under each Party's Schedule of Specific Commitments.

2. In accordance with this Chapter and subject to each Party's Schedule of Specific Commitments as set out in Annex 8A-A, a Party shall grant temporary entry or extension of temporary stay to natural persons of the other Party to the extent provided for in those commitments made pursuant to paragraph 1, provided that those natural persons:

- (a) follow the granting Party's prescribed application procedures for the relevant immigration formality; and
- (b) meet all relevant eligibility requirements for temporary entry or extension of temporary stay.

3. The sole fact that a Party grants temporary entry to a natural person of the other Party pursuant to this Chapter shall not be construed to exempt that natural person from meeting any applicable licensing or other requirements, including any mandatory codes of conduct, to practice a profession or otherwise engage in business activities.

Article 8B.3: Provision of Information

1. Each Party shall make publicly available information necessary for an effective application for the grant of entry, temporary stay and work in its territory.

2. Information referred to in paragraph 1 may include a description of, in particular:

- (a) all categories of visas and work permits relevant to the entry, temporary stay and work of natural persons covered by this Chapter;
- (b) requirements and procedures for application for, and issuance of, first-time entry, temporary stay and work permits, including information on documentation required, conditions to be met and method of filing; and
- (c) requirements and procedures for application for, and issuance of, renewed temporary stay and work permits.

3. Each Party shall provide the other Party with details of relevant publications or websites where information referred to in paragraph 2 is made available.

Article 8B.4: Expeditious Application Procedures

1. The competent authorities of each Party shall process expeditiously complete applications for granting entry, temporary stay or work permits¹⁵ submitted by service suppliers of the other Party, including applications for extensions thereof.
2. If the competent authority of a Party requires additional information from the applicant in order to process its application, they shall notify the applicant without undue delay.
3. Upon request by an applicant, the competent authorities of a Party shall provide, without undue delay, information concerning the status of its application.
4. The competent authorities of each Party shall notify the applicant for entry, temporary stay or work permit of the outcome of its application promptly after a decision has been taken. The notification shall include, if applicable, the period of stay and any other terms and conditions.
5. If an application is terminated or denied, each Party shall, if applicable, inform the applicant in writing and without undue delay the reasons for such action. The applicant may submit a new application at its discretion unless otherwise prohibited by each Party's laws and regulations.
6. Any fees imposed in respect of the processing of an application for grant of entry and temporary stay, including those in respect of visa or work permit or other authorisations, shall be reasonable, and shall reflect no more than the approximate administrative costs incurred.¹⁶

Article 8B.5: Dispute Settlement

1. Neither Party shall have recourse to dispute settlement under Chapter 12 (Dispute Settlement) regarding a refusal to grant temporary entry, unless:
 - (a) the matter involves a pattern of practice; and
 - (b) the natural persons affected have exhausted all available domestic remedies regarding the particular matter.

¹⁵ With respect to working permits, a Party may, in accordance with its domestic laws and regulations, limit the scope of this paragraph to applications submitted by the employer.

¹⁶ This paragraph shall be without prejudice to fees related to mode 4 that are inscribed in the Schedule of Commitments of a Party. The approximate administrative costs incurred will be determined in accordance with its applicable laws and regulations. In case of application procedures at regional or local level, the fees required may not necessarily be identical since the incurred costs may differ across regional administrations or local administrations.

2. For the purposes of subparagraph 1(b), the domestic remedies shall be deemed to be exhausted if a final determination in the matter has not been issued by the other Party within a reasonable period of time after the date of institution of the proceedings for the remedy, including any proceedings for review or appeal, and the failure to issue such a determination is not attributable to delays caused by the natural persons concerned.

Article 8B.6: Cooperation

The Parties agree to discuss mutually agreed areas of cooperation to further facilitate the temporary entry and temporary stay of natural persons of the other Party, which shall take into consideration areas proposed by the Parties during the course of negotiations or other areas as may be identified by the Parties.”

PART V

EXCEPTIONS

1. Article 13.1 (General Exceptions) shall be amended by replacing it with the following Article 13.1 (General Exceptions):

“Article 13.1: General Exceptions

1. For the purposes of Chapter 3 (Trade in Goods), Chapter 4 (Rules of Origin), Chapter 5 (Customs Procedures and Cooperation), Chapter 6 (Sanitary and Phytosanitary Measures) and Chapter 7 (Technical Barriers to Trade), Article XX of GATT 1994 and its interpretative notes are incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XX(b) of GATT 1994 include environmental measures necessary to protect human, animal, or plant life or health, and that Article XX(g) of GATT 1994 applies to measures relating to the conservation of living and non-living exhaustible natural resources.

2. For the purposes of Chapter 8A (Trade in Services) and Chapter 8B (Movement of Natural Persons), Article XIV of GATS (including its footnotes) is incorporated into and made part of this Agreement, *mutatis mutandis*. The Parties understand that the measures referred to in Article XIV (b) of GATS include environmental measures necessary to protect human, animal or plant life or health.

3. Nothing in this Agreement shall be construed to prevent a Party from taking action authorised by the WTO Dispute Settlement Body. A Party taking such action shall inform the Commission to the fullest extent possible of measures taken and of their termination.”

2. Article 13.2 (Security Exceptions) shall be amended by inserting footnote 17 to the *chapeau* of subparagraph 1(b) to read as follows:

“Article 13.2: Security Exceptions

1. Nothing in this Agreement shall be construed:

(b) to prevent a Party from taking any action which it considers necessary for the protection of its essential security interests¹⁷:

¹⁷ For greater certainty, protection of essential security interests includes any action taken so as to protect critical public infrastructures including communications, power, and water infrastructures whether publicly or privately owned.”

3. Article 13.4 (Balance-of-Payments Measures on Trade in Goods) shall be amended by changing the title and inserting a reference to Article XII GATS to read as follows:

“Article 13.4: Balance-of-Payments Measures

1. The Parties shall endeavour to avoid the imposition of restrictive measures for balance-of-payments purposes.

2. Any measure taken for balance-of-payments purposes shall be in accordance with that Party’s rights and obligations under GATT 1994, including the *Understanding on the Balance-of-Payments Provisions of GATT 1994*, and Article XII of GATS, including on payments, transfers or capital movements, as applicable. A Party shall publish or notify to the other Party of any restrictive measures adopted or maintained, or any changes therein, to the extent that it does not duplicate the process under the WTO and the International Monetary Fund.

3. Nothing in this Chapter shall be regarded as altering the rights enjoyed and obligations undertaken by a Party as a party to the *Articles of the Agreement of the International Monetary Fund*, as may be amended.”
