Section B: Reduction or Elimination of Customs Duties

Article 2.4: Reduction or Elimination of Customs Duties

1. Except as otherwise provided in this Agreement, neither Party may increase any existing customs duty, or adopt any new customs duty, on an originating good of the other party.

2. Except as otherwise provided in the Agreement, upon the entry into force of this Agreement, each Party shall reduce or eliminate its customs duties on originating goods of the other Party in accordance with its Schedule to Annex 2B or 2C.

3. If at any moment, after the entry into force of this Agreement, a Party reduces its applied most-favoured-nation (hereinafter referred to as "MFN") customs duty, that duty rate shall apply to originating goods of the other Party if, and for as long as, it is lower than the customs duty rate calculated in accordance with its Schedule included in Annex 2B or 2C.

4. Upon the request of either Party, the Parties shall consult to consider accelerating or broadening the scope of the reduction or elimination of customs duties set out in their

Schedules included in Annexes 2B and 2C. Following such consultations, a decision by the Joint Committee on the acceleration or broadening of the scope of the reduction or elimination of a customs duty on a good shall supersede any duty rate or staging category determined pursuant to the respective Party's Schedule included in Annex 2B or 2C for that good, in accordance with Article ***17.2***.2 (c) (Functions of the Joint Committee).

5. For greater certainty:

   (a) nothing in this Agreement shall prohibit a Party from unilaterally accelerating, or broadening the scope of the elimination of customs duties set out in its Schedule in Annex 2B or 2C on originating goods;

   (b) a Party may raise a customs duty up to the level established in its Schedule to Annex 2B or 2C following any unilateral reduction referred to in subparagraph (a); or

3. If the Parties decide that revisions are necessary in accordance with paragraph 2, the transposition of the schedules of tariff commitments shall be carried out in accordance with the methodologies and procedures adopted by the Subcommittee on Trade in Goods established under Article 2.18.

4. Each Party shall ensure that the transposition of its schedule of tariff commitments under paragraph 3 does not afford less favourable treatment to an originating good of the other Party than that set out in its Schedule in Annex 2B or 2C.

5. A Party may introduce new tariff splits, provided that the preferential conditions applied in the new tariff splits are not less preferential than those applied originally.

3. Neither Party may condition the temporary admission of a good referred to in paragraph 1, other than to require that the good:

   (a) not be sold or leased while in its territory;

   (b) be accompanied by a security in an amount no greater than the custom duties and any other tax imposed on imports that would otherwise be owed on entry or final importation, releasable on exportation of the good;

   (c) be capable of identification when exported;

   (d) be exported in accordance with the time period granted for temporary admission in accordance with its domestic law related to the purpose of the temporary admission;

   (e) not be admitted in a quantity greater than is reasonable for its intended use; or

   (f) be otherwise admissible into the importing Party’s territory under its law.

4. If any condition that a Party imposes under paragraph 3 has not been fulfilled, that Party may apply the customs duty and any other charge that would normally be owed on the importation of the good and any other charges or penalties provided for under its law.

5. Each Party through its Customs Authority shall adopt and maintain procedures providing for the expeditious release of goods admitted under this Article. To the extent possible, such procedures shall provide that when such a good accompanies a national or resident of the other Party who is seeking temporary entry, the good shall be released simultaneously with the entry of that national or resident.

6. Each Party shall permit a good temporarily admitted under this Article to be exported through a customs port other than that through which it was admitted in accordance with its customs procedures.

7. Each Party shall provide that the importer of a good admitted under this Article shall not be liable for failure to export the good on presentation of satisfactory proof to the importing Party that the good has been destroyed within the original period fixed for temporary admission or any lawful extension. A Party may condition relief of liability under this paragraph by requiring the importer to receive prior approval from the Customs Authority of the importing Party before the good can be so destroyed.

Article 2.8: Goods Re-Entered After Repair or Alteration

1. Neither Party shall apply a customs duty to a good, regardless of its origin, that re-enters its territory in accordance with its laws and procedures after that good has been temporarily exported from its territory to the territory of the other Party for repair or alteration, regardless of whether such repair or alteration could be performed in the territory from which the good was exported, except that a customs duty or other taxes may be applied to the addition resulting from the repair or alteration that was performed in the territory of the other Party.

2. Neither Party shall apply a customs duty to a good, regardless of its origin, imported temporarily from the territory of the other Party for repair or alteration.

3. For purposes of this Article, “repair” or “alteration” does not include an operation or process that:

   (a) destroys a good’s essential characteristics or creates a new or commercially different good;

   (b) transforms an unfinished good into a finished good; or

   (c) results in a change of the classification at a six-digit level of the Harmonized System (HS).

Article 2.9: Duty-Free Entry of Commercial Samples of Negligible Value and Printed Advertising Materials

Each Party, in accordance with its respective domestic law, shall grant duty-free entry to commercial samples of negligible value, and to printed advertising materials, imported from the territory of the other Party, regardless of their origin, but may require that:

(a) such samples be imported solely for the solicitation of orders for goods or services provided from the territory of the other Party or a non-Party; or

(b) such advertising materials be imported in packets, that each contain no more than one copy of each such material, and that neither the materials nor the packets form part of a larger consignment.

Section D: Non-Tariff measures

Article 2.10: Non-Tariff Measures

1. The Parties shall ensure that non-tariff measures are not prepared, adopted or applied with a view to creating unnecessary obstacles to trade with the other Party.

2. If a Party considers that a non-tariff measure of the other Party is an unnecessary obstacle to trade, that Party may present such a non-tariff measure for review by the Subcommittee on Trade in Goods. The Subcommittee on Trade in Goods shall review the measure with a view to securing a mutually agreed solution to the matter.

Article 2.11: Import and Export Restrictions

1. Except as otherwise provided in this Agreement, neither Party may adopt or maintain any prohibition or restriction on the importation of any good of the other Party or on the exportation or sale for export of any good destined for the territory of the other Party, except in accordance with Article XI of GATT 1994 and its interpretative notes. To this end, Article XI of GATT 1994 and its interpretative notes are incorporated into and made a part of this Agreement, *mutatis mutandis*.

2. In the event that a Party introduces a measure that imposes a prohibition or restriction otherwise justified under the relevant provisions of the WTO Agreement with respect to the exportation of goods to the other Party, the Party imposing the measure, shall publish the measure in a timely manner. Upon the request of the other Party, it shall enter into consultation with the aim of resolving any problem that may arise due to that measure.

3. Paragraphs 1 and 2 do not apply to the measures set out in Annex 2A.

Article 2.12: Import Licensing

1. Neither Party may adopt or maintain a measure that is inconsistent with the Import Licensing Agreement.[1]

   (a) Promptly after the entry into force of this Agreement, each Party shall notify the other Party of its existing import licenses, if any. The notification shall:

      (i) include the information specified in Article 5 of the Import Licensing Agreement; and

      (ii) be without prejudice as to whether the import license is consistent with this Agreement.

   (b) Before applying any new or modified import license, a Party shall publish it, to the extent required by its law, on an official government internet site. To the extent practicable, the Party shall do so at least 21 days before it takes effect.

2. Neither Party may apply an import license to a good of the other Party unless the Party has complied with the requirements of paragraph 2 with respect to that import license. Where exceptional and critical circumstances as provided in Article XX of GATT 1994 require immediate action that makes prior notification impossible, the Party may apply it forthwith, as necessary to deal with the situation and shall inform the other Party immediately thereof.

Article 2.13: Export Subsidies

1. Neither Party shall adopt or maintain any export subsidy on any good destined for the territory of the other Party in accordance with the SCM Agreement and the Agreement on Agriculture.

2. Notwithstanding paragraph 1, the Parties reaffirm that a Party may maintain an export subsidy on an agricultural good only in accordance with its commitments made in the WTO Ministerial Conference Decision on Export Competition adopted in Nairobi on 19 December 2015, including the elimination of scheduled export subsidy entitlements for agricultural goods.

Article 2.14: Administrative Fees and Formalities

1. Each Party shall ensure that all fees and charges imposed in connection with importation and exportation shall be consistent with their obligations under Article VIII:1 of GATT 1994 and its interpretive notes, which are hereby incorporated into and made a part of this Agreement, *mutatis mutandis*.

[1] For the purposes of paragraph 1 and for greater certainty, in determining whether a measure is inconsistent with the Import Licensing Agreement, the Parties shall apply the definition of "import licensing" contained in that Agreement.

2. Each Party shall make available and maintain through the internet a current list of the fees and charges it imposes in connection with importation or exportation.

Article 2.15: Export Duties, Taxes, or Other Charges

Except as otherwise provided in this Agreement, neither Party shall adopt or maintain any duty, tax, or other charge on the export of any good destined to the territory of the other Party.

Article 3.6: *De Minimis*

Notwithstanding Article 3.4:

A good shall be considered to have undergone a change in tariff classification if the value of all non-originating materials that are used in the production of the good and that do not undergo the applicable change in tariff classification does not exceed 15 percent of the Ex-Works price of the good.

A good provided for in Chapters 50 to 63 of the HS Code shall be considered to have undergone a change in tariff classification if the weight of all non-originating materials that are used in the production of the good and that do not undergo the applicable change in tariff classification does not exceed 15 percent of the weight of the good.

(b) plants, equipment and their spare parts;

(c) tools, dyes, and molds;

Article 3.9: Insufficient Operations or Processing

1. The following operations shall be considered as insufficient working or processing to confer the status of originating goods, whether or not the requirements of Article 3.4 are satisfied:

   (a) preserving operations to ensure that the goods remain in good condition during transport and storage;

   (b) simple[2] changing of packaging or breaking-up and assembly of packages;

   (c) washing, cleaning, removal of dust, oxide, oil, paint or other coverings;

[3] The terms "Simple mixing" generally describe activities which need neither special skills nor machines, apparatus or equipment especially produced or installed for carrying out the activity. However, simple mixing does not include chemical reaction. Chemical reaction means a process (including a biochemical process)

(p) slaughter of animals; or

Article 3.10: Accessories, Spare Parts, and Tools

Each Party shall provide that accessories, spare parts, and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

1. The unit of qualification for the application of the provisions of this Chapter shall be the particular good which is considered as the basic unit when determining classification using the nomenclature of the Harmonized System (HS). It follows that:

   (a) when a good composed of a group or assembly of articles is classified under the terms of the Harmonized System (HS) in a single heading, the whole constitutes the unit of qualification;

2. Where, under General Rule 5 of the Harmonized System (HS), packaging is included with the good for classification purposes, it shall be included for the purposes of determining origin.

Article 3.12: Sets

Sets, as defined in General Rule 3 of the Harmonized System (HS), shall be regarded as originating when all component goods are originating. which results in a molecule with a new structure by breaking an intramolecular bond and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule.

Article 3.13: Accounting Segregation of Materials

1. For the purpose of determining if goods are originating where identical and interchangeable originating and non-originating materials are used in the manufacture of goods, those materials shall be physically segregated, according to their origin, during storage. Identical and interchangeable materials means materials being of the same kind and commercial quality, and which once they are incorporated into the finished goods cannot be distinguished from one another for origin purposes.

2. Where considerable cost or material difficulties arise in keeping separate stocks of originating and non-originating materials which are identical and interchangeable, a producer may use the so-called "accounting segregation" method to be used for managing such stocks.

3. The accounting method shall be recorded, applied, and maintained in accordance with generally accepted accounting principles applicable and recognised in the Party in which the goods are manufactured and must be able to ensure that for a specific reference period no more goods receive originating status than would be the case if the materials had been physically segregated.

4. A producer using accounting segregation pursuant to paragraphs 2 and 3 shall keep all documentary evidence of origin of the materials. At the request of the Competent Authority, the producer shall provide satisfactory information on how the stocks have been managed.

Article 3.14: Principle of Territoriality

1. The conditions for acquiring originating status set out in Article 3.2 must be fulfilled without interruption in either of the Parties.

2. Where originating goods exported from a Party to a non-Party return to the exporting Party, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the Customs Authority that:

   (a) the returning goods are the same as those exported; and

   (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that non-Party or while being exported.

Article 3.15: Outward Processing

Notwithstanding Article 3.14, the acquisition of originating status in accordance with the conditions set out in this Chapter shall not be affected by working or processing done outside a Party on materials exported from a Party and subsequently re-imported there, provided that:

(a) the said materials shall be wholly obtained in a Party or have undergone working or processing beyond the operations referred to in Article 3.9 prior to being exported;

(b) it shall be demonstrated to the satisfaction of the Customs Authority that:

(i) the re-imported goods have been obtained by working or processing the exported materials;

(ii) such working or processing have not resulted in a change of the classification at a four-digit level of the Harmonized System (HS) of the said re-imported goods; and

(iii) the total added value acquired outside a Party by applying the provisions of this Article does not exceed 15 percent of the ex-works price of the end good for which originating status is claimed.

4. The Parties shall exchange information on proposed or actual sanitary and phytosanitary measures which affect or are likely to affect trade between them and relating to each Party's SPS regulatory system and to the extent that any Party desires to provide written comments on a proposed sanitary and phytosanitary measure by the other Party, the Party shall provide those comments in a timely manner.

5. A Party that proposes to adopt a sanitary or phytosanitary measure shall discuss with the other Party, on request and if appropriate and feasible, any scientific or trade concerns that the other Party may raise regarding the proposed measure and the availability of alternative, less trade-restrictive approaches for achieving the objective of the measure.

6. Each Party shall notify the other Party of final sanitary or phytosanitary measures through the WTO SPS notification submission system. Each Party shall ensure that the text or the notice of a final sanitary or phytosanitary measure specifies the date on which the measure takes effect and the legal basis for the measure. Each Party shall publish, preferably by electronic means, notices of final sanitary or phytosanitary measures.

7. An exporting Party shall notify the importing Party through the Contact Points established under Article 5.5 in a timely and appropriate manner if it has knowledge of:

   (a) a significant or urgent situation of a sanitary or phytosanitary risk in its territory that may affect current trade between the Parties; or

with relation to Articles 2, 5 and Annex 3 of the Agreement", adopted on 13 November 2000 by the WTO Committee on Technical Barriers to Trade (Annex 2 to PART 1 of G/TBT/1/Rev13), and any subsequent version thereof.

The Parties shall use international standards as a basis for preparing their technical regulations, unless those international standards are ineffective or inappropriate for achieving the legitimate objective pursued. Each Party shall, upon request of the other Party, provide its reasons for not having used international standards as a basis for preparing its technical regulations.

2. Each Party shall give positive consideration to a request by the other Party to negotiate arrangements for achieving the equivalence of technical regulations.

Where a Party does not accept the results of a conformity assessment procedure conducted in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.

3. In order to enhance confidence in the consistent reliability of conformity assessment results, the Parties may consult on matters such as the technical competence of the conformity assessment bodies involved.

4. Each Party shall give positive consideration to a request by the other Party to negotiate agreements or arrangements for the mutual recognition of the results of their respective conformity assessment procedures. The Parties shall consider the possibility of negotiating agreements or arrangements for mutual recognition of the results of their respective conformity assessment procedures in areas mutually agreed upon.

5. The Parties shall endeavour to intensify their exchange of information on acceptance mechanisms with a view to facilitating the acceptance of conformity assessment results.

2. In order to achieve the objectives set out in paragraph 1, the Parties shall, as mutually agreed and to the extent possible, co-operate on regulatory issues, which may include the:

(a) promotion of good regulatory practices based on risk management principles;

2. Neither Party may apply, with respect to the same good, at the same time:

(b) a measure under Article XIX of GATT 1994 and the Safeguards Agreement.

3. Where, as a result of a global safeguard measure, a safeguard duty is imposed, the margin of preference, in accordance with Schedules of Concessions of the Parties under Chapter 2 (Trade in Goods), shall be maintained.

Article 7.3: Bilateral Safeguard Measures

Definitions

1. For the purposes of Bilateral Safeguard Measures:

(a) **domestic industry** means the producers, as a whole, of the like or directly competitive goods of a Party, or whose collective output of the like or directly competitive goods constitutes a major proportion of the total production of such goods; and

(b) **transition period** means the two-year period beginning on the entry into force of this Agreement, except when tariff elimination for the good against which the action is taken occurs over a longer period of time, in which case the transition period is the period of the staged tariff elimination for that good;

2. Subject to Article7.2.2, a Party may adopt a bilateral safeguard measure:

(a) only during the transition period; and

(b) if, as a result of the reduction or elimination of a customs duty under this Agreement, an originating good of the other Party is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to domestic production, and under such conditions that the imports of such originating good from the other Party alone constitute a substantial cause of serious injury, or threat thereof, to a domestic industry.

3. If the conditions set out in paragraph 2 are met, a Party may, to the minimum extent necessary to prevent or remedy serious injury or threat thereof:

(a) suspend the further reduction of any rate of customs duty on the good provided for under this Agreement; or

(b) increase the rate of customs duty on the good to a level not to exceed the lesser of:

(i) the most-favoured-nation (hereinafter "MFN") applied rate of duty on the good in effect at the time the measure is applied; or

(ii) the MFN applied rate of duty on the good in effect on the day immediately preceding the date this Agreement enters into force.

4. A Party that applies a bilateral safeguard measure may establish an import tariff quota for the product concerned under the agreed preference established in this Agreement. The import under tariff quota shall not be less than the level of a recent period which shall be the average of imports in the last three representative years for which statistics are available.

5. For the purposes of this Chapter, import tariff quota means the quantity of goods that is allowed to be imported under the preferential customs duty rate, provided for under this Agreement. The amount of goods beyond the tariff quota may be imported under the rate of duty established in paragraph 3(b) of this Article.

Notification and Consultation

6. A Party shall promptly notify the other Party, in writing, upon:

(a) initiating a bilateral safeguard proceeding under this Chapter;

(b) making a finding of serious injury, or threat thereof, caused by increased imports under Article 7.3; and

8. If a Party whose good is subject to a bilateral safeguard proceeding under this Chapter, requests within 10 days from receipt of a notification as specified in paragraph 5 to hold consultations, the Party conducting that proceeding shall enter into consultations with a view to finding an appropriate and mutually acceptable solution. If the Parties fail to find a mutually acceptable solution within 30 days of the notification being made, the Party may apply the appropriate provisional or final measures.

Article 7.4: Limitations for Applying a Bilateral Safeguard Measure

1. Bilateral safeguard measures may not be applied in the first year after the entry into force of this Agreement.

2. A bilateral safeguard measure shall not be applied except to the extent and for such time as may be necessary to prevent or remedy serious injury and to facilitate adjustment and, it shall not be applied for a period exceeding two years. However, this period may be extended to up to one additional year if the competent investigating authorities of the importing Party determine, in conformity with the procedures specified in paragraphs 7 and 8, that the measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment, and that there is evidence that the industry is adjusting, provided that the total period of application of a safeguard measure, including the period of initial application and any extension thereof, shall not exceed four years. The Party maintaining the measure beyond a two year period shall progressively liberalize it at annual intervals during the period of application.

3. Neither Party shall apply a bilateral safeguard measure more than once against the same good.

4. For seasonal goods, no measure may be taken more than four times within the initial two years, or for a cumulative period exceeding four years as provided in paragraph 2 above.

5. Upon termination of the bilateral safeguard measure, the rate of duty, or quota if applied as a safeguard measure, shall be at the level which would have been in effect had the measure not been imposed.

6. Bilateral safeguard measures may not be applied or maintained after the end of the transition period. Following the conclusion of the transition period upon request of one of the Parties the Joint Committee shall evaluate whether to continue the bilateral safeguard measures mechanism included in this Chapter.

Investigation Procedures

7. A Party shall apply a safeguard measure only following an investigation by the Party's competent investigating authorities in accordance with the same procedures as those provided for in Articles 3 and 4.2(c) of the Safeguards Agreement. To this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, mutatis mutandis.

8. In the investigation described in paragraph 7, the Party shall comply with the requirements of Articles 4.2(a) and 4.2(b) of the Safeguards Agreement. To this end, Articles 4.2(a) and 4.2(b) of the Safeguards Agreement are incorporated into and made a part of this Agreement, mutatis mutandis.

9. Each Party shall ensure that its competent investigating authorities complete any such investigation within one year of its date of initiation.

Provisional Safeguard Measures

10. In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination by its competent investigating authorities that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and that such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry.

11. Before a Party applies a provisional bilateral safeguard measure it shall notify the other Party. This notification shall contain all relevant information, including preliminary evidence of serious injury or threat thereof caused by increased imports, a precise description of the product involved and the proposed measure, as well as the proposed date of introduction and expected duration. A Party shall not apply a provisional measure until at least 45 days after the date on which its competent investigating authorities initiate an investigation, in order to allow interested parties to submit evidence and views regarding the imposition of a provisional measure.

12. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of paragraphs 7 and 8.

Compensation

13. No later than 30 days after it applies a bilateral safeguard measure, a Party shall provide an opportunity for the other Party to consult with it regarding appropriate trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. The applying Party shall provide such compensation as the Parties mutually agree.

14. If the Parties are unable to agree on compensation within 30 days after consultations begin, the Party against whose originating good the measure is applied may suspend the

application of concessions with respect to originating goods of the applying Party that have trade effects substantially equivalent to the bilateral safeguard measure.

15. The applying Party's obligation to provide compensation under paragraph 13 and the other Party's right to suspend concessions under paragraph 14 shall terminate on the date the bilateral safeguard measure terminates.

16. Any compensation shall be based on the total period of application of the provisional bilateral safeguard measure and of the bilateral safeguard measure.

Article 7.5: Anti-Dumping and Countervailing Measures

1. The Parties agree that anti-dumping and countervailing measures should be used in full compliance with Article VI of GATT 1994, the Anti-Dumping Agreement, and the SCM Agreement.

2. Due regard shall be paid to the requirement for the protection of confidential information, as provided for in Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement.

3. The proceedings shall be based on a fair and transparent system. In furtherance of this, as soon as possible and before the final decision is taken, the Parties shall ensure full and meaningful disclosure of all essential facts and considerations which form the basis for the decision to apply definitive measures without prejudice to Article 6.5 of the Anti-Dumping Agreement or Article 12.4 of the SCM Agreement, as relevant. Disclosures shall be made in writing and allow interested parties at least 10 days to respond with comments.

Hearings

4. Each Party shall hold a hearing, during which interested parties shall be granted the opportunity to be heard in order to express their views during the anti-dumping or countervailing duty proceedings.

Notifications and Consultations

5. A Party initiating an anti-dumping or countervailing duty investigation shall notify the other Party of such initiation by sending a notification to the other Party promptly after the initiation of the investigation.

6. Prior to the imposition of definitive anti-dumping or countervailing measures, the exporting Party, within 10 days of its receipt of the disclosure as specified in paragraph 7.7.5(3), may request consultations with a view to seeking a mutually acceptable solution to the Parties. If the Parties are unable to reach a mutually acceptable solution within 20 days of the disclosure being sent, the importing Party may apply the appropriate definitive measures.

7. The Party whose goods are subject to anti-dumping or countervailing measures imposed by the other Party has the right to request consultations in order to discuss the impact of

these measures on bilateral trade. Consultations shall be held upon the agreement of both Parties.

Article 7.6: Other Provisions

1. The Parties agree, when imposing measures covered by this Chapter, to give priority, to the extent possible, to measures that cause minimal economic injury and do not create serious obstacles to the implementation of this Agreement.

2. Within three years of the entry into force of this Agreement, the Parties shall review all or parts of this Chapter in light of the Parties' practices and developments on trade remedy measures. This review shall take place within the framework of the Trade in Goods Committee.

4. If, after the entry into force of this Agreement, a Party enters into an agreement notified under Article V or Article V *bis* of the GATS, it shall upon request from the other Party afford adequate opportunity to that Party to negotiate the benefits granted therein.

Article 8.5: Market Access

1. With respect to market access through the modes of supply identified in the definition of "trade in services" contained in Article 8.1, each party shall accord services and service suppliers of the other Party treatment no less favourable than that provided for under the terms, limitations and conditions agreed and specified in its Schedule of Specific Commitments.[15]

2. In sectors where market access commitments are undertaken, the measures which a Party shall not maintain or adopt, either on the basis of a regional subdivision or on the basis of its entire territory, unless otherwise specified in its Schedule of Specific Commitments, are defined as:

   (a) limitations on the number of service suppliers whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirements of an economic needs test;

   (b) limitations on the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;

   (c) limitations on the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;[16]

   (d) limitations on the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test;

   (e) measures which restrict or require specific types of legal entity or joint venture through which a service supplier may supply a service; and

   (f) limitations on the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment.

[15] If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in the definition of "trade in services" paragraph (a) contained in Article 8.1 and if the cross-border movement of capital is an essential part of the service itself, that Party is thereby committed to allow such movement of capital. If a Party undertakes a market-access commitment in relation to the supply of a service through the mode of supply referred to in in the definition of "trade in services" paragraph (c) contained in Article 8.1, it is thereby committed to allow related transfers of capital into its territory.

[16] Subparagraph 2(c) does not cover measures of a Party which limit inputs for the supply of services.

Article 8.6: National Treatment

1. With respect to the services sectors inscribed in its Schedule of Specific Commitments, and subject to any conditions and qualifications set out therein, each Party shall accord to services and service suppliers of the other Party, in respect of all measures affecting the supply of services, treatment no less favourable than that it accords to its own like services and service suppliers.[17]

2. A Party may meet the requirement in paragraph 1 by according to services and service suppliers of the other Party either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.

3. Formally identical or formally different treatment by a Party shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of that Party compared to the like service or service suppliers of the other Party.

Article 8.7: Additional Commitments

The Parties may negotiate commitments with respect to measures affecting trade in services not subject to scheduling under Articles 8.5 and 8.6, including those regarding qualification, standards or licensing matters. Such commitments shall be inscribed in a Party's Schedule of Specific Commitments.

Article 8.8: Modification of Schedules

Upon written request by a Party to the Joint Committee established under Article 17.1 (Establishment of the Joint Committee), the Joint Committee shall consider any modification of a specific commitment, including withdrawals, in the requesting Party's Schedule of Specific Commitments. Discussions regarding such modifications shall be held within three months after the requesting Party makes its request. The Joint Committee shall aim to ensure that a general level of mutually advantageous commitments, no less favourable to trade than that provided for in the Schedule of Specific Commitments prior to such consultations, is maintained.

Article 8.9: Domestic Regulation

1. In sectors where specific commitments are undertaken, each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective, and impartial manner.

2. (a) Each Party shall maintain or institute as soon as practicable judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected service supplier of the other Party, for the prompt review of, and where justified, appropriate remedies for, administrative decisions affecting trade in services. Where such procedures are not independent of the agency entrusted with the administrative decision concerned,

[17] Specific commitments assumed under this Article shall not be construed to require either Party to compensate for any inherent competitive disadvantages which result from the foreign character of the relevant services or service suppliers.

the Party shall ensure that the procedures in fact provide for an objective and impartial review.

(b) The provisions of subparagraph (a) shall not be construed to require a Party to institute such tribunals or procedures where this would be inconsistent with its constitutional structure or the nature of its legal system.

3. Where authorisation is required by a party for the supply of a service for which a specific commitment under this Agreement has been made, the competent authorities of that Party shall:

(a) within a reasonable period of time after the submission of an application considered complete under that Party's domestic laws and regulations, inform the applicant of the decision concerning the application;

(b) in the case of an incomplete application, at the request of the applicant to the extent practicable, identify the additional information that is required to complete the application and provide the opportunity to remedy deficiencies within a reasonable timeframe;

(c) at the request of the applicant, provide without undue delay information concerning the status of the application; and

(d) to the extent possible, if an application is rejected, inform the applicant in writing the reasons for such rejection within a reasonable period of time. An applicant should not be prevented from submitting another application solely on the basis on a previously rejected application.

4. In sectors where specific commitments are undertaken, each Party shall aim to ensure that measures relating to qualification requirements and procedures, technical standards and licensing requirements do not constitute unnecessary barriers to trade in services. The Parties shall aim to ensure that such requirements are, *inter alia*:

(a) based on objective and transparent criteria, such as competence and the ability to supply the service;

(b) not more burdensome than necessary to ensure the quality of the service; and

(c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

5. In determining whether a Party is in conformity with the obligation under paragraph 4, account shall be taken of international standards of relevant international organisations[18] applied by that Party.

[18] The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of the Parties to this Agreement.

6. In sectors where specific commitments are undertaken, each Party shall provide for adequate procedures to verify the competence of professionals of the other Party.

7. The Parties shall jointly review the results of the negotiations on disciplines on domestic regulation, pursuant to Article VI.4 of the GATS, with a view of incorporating them into this Chapter.

Article 8.10: Recognition

1. For the purposes of the fulfilment in whole or in part, of its standards or criteria for the authorisation, licensing or certification of service suppliers, each party shall give due consideration, as appropriate, to any request by the other Party to recognise, the education or experience obtained, requirements met, or licences or certifications granted in that other Party. Such recognition which may be achieved through harmonisation or otherwise, may be based upon an agreement or arrangement with that other Party, or otherwise be accorded autonomously.

2. Where a Party recognises, by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-party, that Party shall afford the other Party adequate opportunity to negotiate its accession to such an agreement or arrangement, whether existing or future, or to negotiate a comparable agreement or arrangement with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that the education, or experience obtained, requirements met, or licences or certifications granted in the territory of that other Party should also be recognised.

3. The Parties or their relevant professional bodies, as appropriate, may negotiate agreements for mutual recognition of education, or experience obtained, requirements met or licenses or certifications granted. Upon a request being made in writing by a Party to the other Party, the receiving Party shall transmit the request to its relevant professional body, as appropriate. The Parties shall report periodically to the Joint Committee on progress and on impediments experienced. Any delay or failure by the Parties or their professional bodies to negotiate or to reach and conclude an agreement on the details of such arrangements shall not be regarded as a breach of a Party's obligations under this paragraph and shall not be subject to Chapter 15 (Dispute Settlement).

4. A Party shall not accord recognition in a manner which would constitute a means of discrimination between the countries in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

5. The Parties agree to encourage, where possible, the relevant bodies in their respective territories responsible for issuance and recognition of professional and vocational qualifications to:

    (a) strengthen cooperation and to explore possibilities for mutual recognition of respective professional and vocational qualifications; and

(b) pursue mutually acceptable standards and criteria for licensing and certification with respect to service sectors of mutual importance to the Parties.

Article 8.11: Payments and Transfers

1. Except under the circumstances envisaged in Article 8.14, a Party shall not apply restrictions on international transfers and payments for current transactions with the other Party, relating to its specific commitments.

2. Nothing in this Chapter shall affect the rights and obligations of the Parties under the International Monetary Fund Agreement, including the use of exchange actions which are in conformity with the Articles of Agreement, provided that a Party shall not impose restrictions on capital transactions inconsistently with its specific commitments regarding such transactions, except under Article 8.14 or at the request of the International Monetary Fund.

Article 8.12: Monopolies and Exclusive Service Suppliers

1. Each Party shall ensure that any monopoly supplier of a service in its territory does not, in the supply of the monopoly service in the relevant market, act in a manner inconsistent with that Party's obligations under Article 8.4 and its specific commitments.

2. Where a Party's monopoly supplier competes, either directly or through an affiliated company, in the supply of a service outside the scope of its monopoly rights and which is subject to that Party's specific commitments, the Party shall ensure that such a supplier does not abuse its monopoly position to act in its territory in a manner inconsistent with such commitments.

3. The provisions of this Article shall also apply to cases of exclusive service suppliers, where a Party, formally or in effect:

   (a) authorizes or establishes a small number of service suppliers; and

   (b) substantially prevents competition among those suppliers in its territory.

Article 8.13: Business Practices

1. Parties recognize that certain business practices of service suppliers, other than those falling under Article 8.12, may restrain competition and thereby restrict trade in services.

2. Each Party shall, at the request of the other Party, enter into consultations with a view to eliminating practices referred to in paragraph 1. The Party addressed shall accord full and sympathetic consideration to such a request and shall cooperate through the supply of publicly available non-confidential information of relevance to the matter in question. The Party addressed shall also provide other information available to the requesting Party, subject to its domestic law and to the conclusion of a satisfactory agreement concerning the safeguarding of its confidentiality by the requesting Party.

Article 8.14: Restrictions to Safeguard the Balance-of-Payments

1. The Parties shall endeavour to avoid the imposition of restrictions to safeguard the balance of payments.

2. In the event of serious balance-of-payments and external financial difficulties or threat thereof, a Party may adopt or maintain restrictions on trade in services on which it has undertaken specific commitments, including on payments or transfers for transactions related to such commitments. It is recognized that particular pressures on the balance of payments of a Party in the process of economic development or economic transition may necessitate the use of restrictions to ensure, *inter alia*, the maintenance of a level of financial reserves adequate for the implementation of its programme of economic development or economic transition.

3. The restrictions referred to in paragraph 2:

   (a) shall not discriminate against the other Party;

   (b) shall be consistent with the Articles of Agreement of the International Monetary Fund;

   (c) shall avoid unnecessary damage to the commercial, economic, and financial interests of the other Party;

   (d) shall not exceed those necessary to deal with the circumstances described in paragraph 2;

   (e) shall be temporary and be phased out progressively as the situation specified in paragraph 2 improves.

4. In determining the incidence of such restrictions, Parties may give priority to the supply of services which are more essential to their economic or development programmes. However, such restrictions shall not be adopted or maintained for the purpose of protecting a particular service sector.

5. Any restrictions adopted or maintained under paragraph 2, or any changes therein, shall be promptly notified to the Joint Committee.

Article 8.15: Denial of Benefits

A Party may deny the benefits of this Agreement to a service supplier that is a juridical person, if persons of a non-Party own or control that juridical person and the denying Party:

   (a) does not maintain diplomatic relations with the non-Party and that non-Party is not a Member of the WTO; or

   (b) adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or

circumvented if the benefits of this Agreement were accorded to the enterprise or to its investments.

Article 8.16: Review

With the objective of further liberalising trade in services between them, the Parties agree to jointly review their Schedules of Specific Commitments and Lists of MFN Exemptions within the framework of the Joint Committee, taking into account any autonomous liberalization and services liberalization developments as a result of on-going work under the auspices of the WTO.

Article 8.17: Annexes

The following Annexes are attached to this Chapter:

Annex 8A (Lists of MFN Exemptions);

Annex 8B (Telecommunications Services); and

Annex 8C (Schedules of Specific Commitments).

ANNEX 8B
TELECOMMUNICATIONS SERVICES

Article 1: Definitions

For the purposes of this Annex:

a regulatory authority means the body or bodies entrusted with any of the regulatory tasks assigned in relation to the issues mentioned in this Annex;

essential facilities means facilities of a public telecommunications transport network or service that:

(a) are exclusively or predominantly provided by a single or limited number of suppliers; and

(b) cannot feasibly be economically or technically substituted in order to supply a service;

major supplier means a supplier which has the ability to materially affect the terms of participation (having regard to price and supply) in the relevant market for basic telecommunications services as a result of:

(a) control over essential facilities; or

(b) the use of its position in the market.

public telecommunications transport network means the public telecommunications infrastructure which permits telecommunications between and among defined network termination points;

public telecommunications transport service means any telecommunications transport service required, explicitly or in effect, by a Party to be offered to the public generally. Such services may include, *inter alia*, telegraph, telephone, telex, and data transmission typically involving the real-time transmission of customer-supplied information between two or more points without any end-to-end change in the form of the customer's information;

reference interconnection offer means an interconnection offer extended by a major supplier that is sufficiently detailed to enable a supplier of a public telecommunications service to know the rates and conditions to obtain interconnection;

telecommunications means the transport of electromagnetic signals such as sound, data image and any combination thereof. The sector of telecommunications services does not cover the economic activity consisting of content provision which requires telecommunications services for its transport;

Article 2: Scope

1. This Annex applies to measures by Parties affecting trade in telecommunications services.[19] It shall not apply to measures relating to broadcasting or to cable distribution of radio or television programming.[20]

2. Nothing in this Annex shall be construed to:

   (a) require a Party to compel any enterprise to establish, construct, acquire, lease, operate, or provide telecommunications transport networks or services where such networks or services are not offered to the public generally;

   (b) require a Party to compel any enterprise exclusively engaged in the broadcast or cable distribution of radio or television programming to make available its broadcast or cable facilities as a public telecommunications transport network; or

   (c) prevent a Party from prohibiting persons operating private networks from using their networks to supply public telecommunications transport networks or services to third parties.

Article 3: Competitive Safeguards

1. Each Party shall maintain appropriate measures for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

2. The anti-competitive practices referred to in paragraph 1 shall include, in particular:

   (a) engaging in anti-competitive cross-subsidization;

   (b) using information obtained from competitors with anti-competitive results; and

   (c) not making available to other service suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to supply services.

Article 4: Interconnection

1. This Article applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services supplied by another supplier.

---

[19] "Trade in telecommunications services" shall be understood in accordance with the definitions contained in Article 8.1 (Definitions), and also include measures in respect of the access to and use of public telecommunications networks and services.

[20] "Broadcasting" shall be defined as provided for in the relevant domestic law of each Party.

2. Any supplier licensed to provide telecommunications services shall have rights of interconnection with other providers of publicly available telecommunications networks and services. Interconnection rates should in principle be based on cost or be based on otherwise regulated rates for the suppliers concerned.

3. An interconnection point in the network shall be subject to negotiations between service suppliers and to technical feasibility. In the event that the service suppliers encounter difficulties with said negotiations, the competent authority shall be able to intervene and rule, in accordance with the Parties' relevant regulations. Such negotiations shall ensure that interconnection agreements are concluded:

   (a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favorable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates; and

   (b) in a timely fashion, on terms, conditions (including technical standards and specifications) and at cost-oriented rates that are transparent reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the services to be supplied.

4. Each Party shall ensure that suppliers of public telecommunications transport networks or services in its territory take appropriate steps to protect, *inter alia*:

   (a) the privacy of individuals in relation to the processing and dissemination of personal data;

   (b) the confidentiality of individual records; and

   (c) the confidentiality of commercially sensitive information of, or relating to, suppliers and end-users of telecommunications services. Data and information obtained by a telecommunications service supplier shall only be used for the purpose of providing those services.

5. Nothing in this Annex restricts the right of a Party to protect personal data, personal privacy and the confidentiality of individual records and accounts, and other information protected under law.

Article 5: Universal Service

1. Each Party has the right to define the kind of universal service obligation it wishes to have.

2. Measures by Parties governing universal service shall be transparent, objective and non-discriminatory. They shall also be neutral with respect to competition and not be more burdensome than necessary for the kind of universal service defined by the Party.

Article 6: Licensing Procedure

1. Where a license or a concession is required for the supply of a telecommunications service, the competent authority of a Party shall make the following publicly available:

   (a) the terms and conditions for such a license or a concession; and

   (b) the period of time normally required to reach a decision concerning an application for a license or a concession.

2. Where a license or a concession is required for the supply of a telecommunications service, and if the applicable conditions are fulfilled, the competent authority of a Party shall grant the applicant a license or a concession within a reasonable period of time after the submission of its application is considered complete under that Party's law.

3. The competent authority of a Party shall notify the applicant of the outcome of its application promptly after a decision has been taken. In case a decision is taken to deny an application for a license or a concession, the competent authority of a Party shall make known to the applicant, upon request, the reason for the denial.

Article 7: Independent Regulatory Authority

1. Each Party's regulatory authority for telecommunications services shall be separate from, and not accountable to, any supplier of basic telecommunications services.

2. Each Party shall ensure that the decisions of, and the procedures used by, its regulatory authority are impartial with respect to all market participants.

Article 8: Scarce Resources

1. Each Party shall ensure that its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers and rights of way, are carried out in an objective, timely, transparent, and non-discriminatory manner. Each Party shall make publicly available the current state of allocated frequency bands, but detailed identification of frequencies allocated for specific government uses shall not be required.

2. When assigning a spectrum for non-government radio-electric telecommunications services, each Party shall endeavor to rely as a rule on market-based approaches, taking full account of public interests.

Article 9: Resolutions of Telecommunications Disputes

Each Party shall ensure that:

   (a) suppliers may have recourse to its regulatory authority or other relevant body to resolve disputes regarding major suppliers;

(b) a supplier that has requested interconnection with a major supplier, has recourse to its regulatory authority to resolve disputes regarding appropriate terms, conditions, and rates for interconnection with that major supplier within a reasonable timeframe; and

(c) suppliers affected by the decisions of its regulatory authority have recourse to appeal to an independent administrative body and/or a court in accordance with the Party's law.

Article 10: Transparency

In the application of Article 8.2(Scope and Coverage), each Party shall ensure that relevant information on conditions affecting access to and use of public telecommunications transport networks and services is publicly available, including:

(a) tariffs and other terms and conditions of service;

(b) specifications of technical interfaces with such networks and services;

(c) information on bodies responsible for the preparation and adoption of standards affecting such access and use;

(d) conditions applying to attachment of terminal or other equipment to the public telecommunications network; and

(e) notifications, permits, registration or licensing requirements, if any.

Article 11: Flexibility in the Choice of Technologies

1. Neither Party may prevent suppliers of public telecommunications transport services from having the flexibility to choose the technologies that they use to supply their services, including commercial mobile wireless services, subject to requirements necessary to satisfy legitimate public policy interests, provided that any measure restricting such choice is not prepared, adopted, or applied in a manner that creates unnecessary obstacles to trade.

2. For greater certainty, nothing in this Annex shall be construed to prevent a telecommunications regulatory body from requiring the proper license or other authorization to supply each public telecommunications transport service.

Article 9.4: Customs Duties

1. No Party shall impose customs duties on digital or electronic transmissions, including content transmitted electronically, between a person of one Party and a person of the other Party.

2. For greater certainty, paragraph 1 shall not preclude a Party from imposing internal taxes, fees, or other charges on content transmitted digitally or electronically, provided that such taxes, fees, or charges are imposed in a manner consistent with this Agreement.

Article 9.5: Non-Discriminatory Treatment of Digital Products

No Party shall accord less favourable treatment to digital products created, produced, published, contracted for, commissioned, or first made available on commercial terms in the territory of the other Party, or to digital products of which the author, performer, producer, developer, or owner is a person of the other Party, than it accords to other like digital products.

2. This Article does not apply to broadcasting.

4. The Parties shall encourage the use of interoperable means of authentication.

Article 9.8: Paperless Trading

Each Party shall endeavour to:

   (a) make trade administration documents available to the public in digital or electronic form; and

   (a) the total maximum value of the procurement over its entire duration;

2. With respect to any measure regarding covered procurement, a Party, including its procuring entities, shall not:

   (a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation to or ownership by a person of the other Party; or

Use of Electronic Means

3. The Parties recognize the importance of providing opportunities for covered procurement to be undertaken through electronic means, including for the publication of procurement information, notices, and tender documentation, for the receipt of tenders, and, generally, for the full cycle of procure to pay.

For the purposes of covered procurement, each Party shall not apply rules of origin to goods or services imported from or supplied from the other Party that are different from the rules of origin that the Party applies at the same time, in the normal course of trade, to imports or supplies of the same goods or services from the other Party.

Conduct of Procurement

8. A procuring entity shall conduct covered procurement in a transparent and impartial manner that:

   (a) is consistent with this Chapter, using methods such as open tendering, selective tendering, and limited tendering;

   (b) avoids conflicts of interest; and

   (c) prevents corrupt practices.

Article 10.6: Information on the Procurement System and Publication of Procurement Information

3. Except as otherwise provided in this Chapter, each notice of intended procurement shall include:

   (a) the name and address of the procuring entity and other information necessary to contact the procuring entity and obtain all relevant documents relating to the procurement, and the cost and terms of payment, if any;

   (e) where applicable, the address and any final date for the submission of requests for participation in the procurement;

   (f) the address and the final date for the submission of tenders;

   (g) a list and brief description of any conditions for participation of suppliers, that may include any requirements for specific documents or certifications that suppliers must provide in connection therewith, unless such requirements are included in tender documentation that is made available to all interested suppliers at the same time as the notice of intended procurement;

   (h) where, pursuant to Article 10.11, a procuring entity intends to select a limited number of qualified suppliers to be invited to tender, the criteria that will be used to select them and, where applicable, any limitation on the number of suppliers that will be permitted to tender;

   (i) the language or languages in which tenders or requests for participation may be submitted, in case they may be submitted in a language other than an official language of the Party of the procuring entity; and

   (j) an indication that the procurement is covered by this Chapter.

Notice of Planned Procurement

4. Each Party shall encourage its procuring entities to publish prior to each fiscal year or as early as possible in each fiscal year, a notice regarding their procurement plans for that fiscal year. The notice of planned procurement should include the subject-matter of the procurement and the planned date of the publication of the notice of the intended procurement.

Article 10.8: Conditions for Participation

1. A procuring entity shall limit any conditions for participation in a procurement to those that are essential to ensure that a supplier has the legal, commercial, technical, and financial abilities to undertake the relevant procurement.

2. In assessing whether a supplier satisfies the conditions for participation, a procuring entity:

   (a) shall evaluate the financial, commercial and technical abilities of a supplier on the basis of that supplier's business activities both inside and outside the territory of the Party of the procuring entity;

   (b) shall base its evaluation solely on the conditions that a procuring entity has specified in advance in notices or tender documentation;

   (c) shall not impose the condition that, in order for a supplier to participate in a procurement or be awarded a contract, the supplier has previously been awarded one or more contracts by a procuring entity of that Party or that the supplier has prior work experience in the territory of that Party; and

   (d) may require prior experience where essential to meet the requirements of the procurement.

3. Where there is supporting evidence, a Party, including its procuring entities, may exclude a supplier on grounds such as:

   (a) bankruptcy or insolvency;

   (b) false declarations;

   (c) significant or persistent deficiencies in performance of any substantive requirement or obligation under a prior contract or contracts;

   (d) final judgments in respect of serious crimes or other serious offences;

   (e) professional misconduct or acts or omissions that adversely reflect on the commercial integrity of the supplier; or

   (f) failure to pay taxes.

Article 10.9: Registration and Qualification of Suppliers

Registration Systems and Qualification Procedures

1. A Party, including its procuring entities, may maintain a supplier registration system under which interested suppliers are required to register and provide certain information and documentation.

2. Each Party shall ensure that:

   (a) its procuring entities make efforts to minimize differences in their qualification procedures; and

   (b) where its procuring entities maintain registration systems, the entities make efforts to minimize differences in their registration systems.

3. A Party, including its procuring entities, shall not adopt or apply any registration system or qualification procedure with the purpose or effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement.

Selective Tendering

4. Where a Party's law allows the use of selective tendering procedures, a procuring entity shall, for each intended procurement:

   (a) include in the notice of intended procurement at least the information specified in Article 10.7.3 subparagraphs (a), (b), (d), (e), (g), (h), (i) and (j) and invite suppliers to submit a request for participation; and

   (b) provide, no later than the commencement of the time-period for tendering, at least the information in Article 10.7.3 subparagraphs (c) and (f) regarding qualified suppliers.

5. A procuring entity shall allow all qualified suppliers to participate in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.

6. Where the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 4, a procuring entity shall ensure that the tender documentation is made available at the same time to all the qualified suppliers selected in accordance with paragraph 5.

Multi-Use Lists

7. A procuring entity may establish a multi-use list, provided that the entity annually publishes or otherwise makes available, continuously, in electronic means, a notice inviting interested suppliers to apply for inclusion on the list. The notice shall include:

(a) a description of the goods and services, or categories thereof, for which the list may be used;

(b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity will use to verify a supplier's satisfaction of the conditions;

(c) the name and address of the procuring entity and other information necessary to contact the procuring entity and to obtain all relevant documents relating to the list;

(d) the period of validity of the list and the means for its renewal or termination, or where the period of validity is not provided, an indication of the method by which notice will be given of the termination of the use of the list; and

(e) an indication that the list may be used for procurement covered by this Chapter.

8. A procuring entity shall allow suppliers to apply for inclusion on a multi-use list and shall include all qualified suppliers on the list within a reasonably short period of time.

9. Notwithstanding paragraph 7, where a multi-use list will be valid for three years or less, a procuring entity may publish the notice referred to in paragraph 7 only once, at the beginning of the period of validity of the list, provided that the notice:

(a) states the period of validity and that further notices will not be published; and

(b) is published by electronic means and is made available continuously during the period of its validity.

10. Where a supplier that is not included on a multi-use list submits a request for participation in a procurement based on a multi-use list and all required documents, within the time-period provided for in Article 10.10, a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases due to the complexity of the procurement, the entity is not able to complete the examination of the request within the time period allowed for the submission of tenders.

Information on Procuring Entity Decisions

11. A procuring entity shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the decision with respect to the request or application.

12. If a procuring entity rejects a supplier's request for participation or application for inclusion on a multi-use list, ceases to recognize a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and on request of the supplier, promptly provide the supplier with a written explanation of the reason for its decision.

Article 10.10: Time Periods

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account such factors as:

   (a) the nature and complexity of the procurement;

   (b) the extent of subcontracting anticipated; and

   (c) whether tenders can be received by electronic means.

2. The time periods for procurement in each Party shall be in accordance with Section H of Annex 10A.

Article 10.11: Intended Procurements and Tender Documentation

Tender Documentation

1. A procuring entity shall promptly make available to any supplier interested in participating in a procurement tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders.

2. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:

   (a) the procurement, including the nature and the quantity of the goods or services to be procured or, where the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certifications, plans, drawings, or instructional materials;

   (b) any conditions for participation of suppliers, including any financial guarantees, information, and documents that suppliers are required to submit;

   (c) all evaluation criteria to be considered in the awarding of the contract, and the relative importance of such criteria;

(h) any dates for the delivery of goods or the supply of services.

3. A procuring entity shall promptly reply to any reasonable request for relevant information by any interested or participating supplier, provided that such information does not give that supplier an advantage over other suppliers.

4. If, in tendering procedures, an entity allows tenders to be submitted in several languages, one of those languages shall be English.

5. To the extent possible and subject to any applicable fees, an entity should endeavour to make relevant tender documentation publicly available through electronic means or a computer-based telecommunications network openly accessible to all suppliers.

6. In establishing any date for the delivery of a good or the supply of a service being procured, a procuring entity may consider factors such as the complexity of the procurement.

Technical Specifications

7. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or effect of creating unnecessary obstacles to international trade between the Parties.

8. In prescribing the technical specifications for the goods or services being procured, a procuring entity shall, where appropriate:

(a) specify the technical specification in terms of performance and functional requirements, rather than design or descriptive characteristics; and

(b) base the technical specification on international standards where they exist; otherwise, on national technical regulations, recognized national standards, or building codes.

9. Where design or descriptive characteristics are used in the technical specifications, a procuring entity shall indicate, where appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.

10. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, the entity includes words such as "or equivalent" in the tender documentation.

11. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any

technical specification for a specific procurement from a person that may have a commercial interest in the procurement.

12. For greater certainty, a procuring entity may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.

13. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entities, from preparing, adopting, or applying technical specifications required to protect sensitive government information, including specifications that may affect or limit the storage, hosting, or processing of such information outside the territory of the Party.

Modifications

14. where, prior to the award of a contract, a procuring entity modifies the criteria or technical requirements set out in a notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, it shall publish or provide in writing all such modifications or amended or re-issued notices or tender documentation:

    (a) to all participating suppliers, if the identities of such suppliers are known, and, in all other cases, in the same manner that the original information was made available; and

    (b) in adequate time to allow participating suppliers to modify and resubmit amended tenders, as appropriate.

Article 10.12: Negotiation

1. A Party may provide for its procuring entities to conduct negotiations where:

    (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement as set forth in Article 10.7.1 through 10.7.3;

    (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation;

    (c) there is a need to clarify the terms and conditions; or

    (d) all bids exceed the allocated prices provided for in the procuring entity's budget.

2. A procuring entity shall:

    (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and

(b) where negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 10.13: Limited Tendering

1. Provided that it does not use this provision for the purposes of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 10.7, 10.8, 10.9, 10.10, Articles 10.11.1 through 10.11.6, 10.11.11, and Articles 10.12, 10.14, 10.15 to such tenders**.**

2. A procuring entity may use limited tendering only under any of the following circumstances:

(a) provided that the requirements of the tender documentation are not substantially modified, where:

(i) no tenders were submitted or no suppliers requested participation;

(ii) no tenders that conform to the essential requirements of the tender documentation were submitted;

(iii) no suppliers satisfied the conditions for participation; or

(iv) the tenders submitted were collusive.

(b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist for any of the following reasons:

(i) the requirement is for a work of art;

(ii) the protection of patents, copyrights or other exclusive rights; or

(iii) due to an absence of competition for technical reasons.

(c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement, where:

(i) a change of supplier for such additional goods or services cannot be made for economic or technical reasons, such as requirements of interchangeability or interoperability with existing equipment, software, services, or installations procured under the initial procurement; and

(ii) such separation would cause significant inconvenience or substantial duplication of costs for the procuring entity;

(d) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time using open tendering or selective tendering;

(e) for goods purchased on a commodity market;

(f) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs;

(g) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, receivership, or bankruptcy, but not for routine purchases from regular suppliers;

(h) where a contract is awarded to a winner of a design contest provided that:

(i) the contest has been organized in a manner that is consistent with the principles of this Chapter, in particular relating to the publication of a notice of intended procurement; and

(ii) the participants are judged by an independent jury with a view to a design contract being awarded to a winner; and

(i) where additional construction services, which were not included in the initial contract but which were within the objectives of the original tender documentation have, through unforeseen circumstances, become necessary to complete the construction services described therein. In such cases, the total value of contracts awarded for additional construction services may not exceed 50 percent of the amount of the initial contract.

3. For each contract awarded under paragraph 1, a procuring entity shall prepare a written report that includes:

(a) the name of the procuring entity;

(b) the value and kind of goods or services procured; and

(c) a statement indicating the circumstances and conditions described in paragraph 1 that justify the use of limited tendering.

Article 10.14: Electronic Auctions

Where a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

(a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;

(b) the results of any initial evaluation of the elements of its tender where the contract is to be awarded on the basis of the most advantageous tender; and

(c) any other relevant information relating to the conduct of the auction.

Article 10.15: Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

1. A procuring entity shall receive, open, and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process and shall treat all tenders in confidence until at least the opening of the tenders.

2. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.

3. Where a procuring entity provides suppliers with opportunities to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunities to all participating suppliers.

Awarding of Contracts

4. A procuring entity shall require that in order to be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be from a supplier that satisfies the conditions for participation.

5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that it has determined to be capable of fulfilling the term of the contract and based solely on the evaluation criteria specified in the notices and tender documentation, and that has submitted:

   (a) the most advantageous tender; or

   (b) where price is the sole criterion, the lowest price.

6. Where a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.

7. A procuring entity shall not use options, cancel a covered procurement, or terminate or modify awarded contracts in a manner that circumvents this Chapter.

Article 10.16: Disclosure of Information

Provision of Information to Parties

1. On request of the other Party, a Party shall promptly provide any information necessary to determine whether a procurement was conducted fairly, impartially, and in accordance with this Chapter, including information on the characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders or confidential information, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of, the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a procuring entity shall not provide information to particular suppliers that might prejudice fair competition between suppliers, except with the written authorization of the supplier that provided the information and as permitted by the Party's laws and procedures.

3. Nothing in this Agreement shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information where disclosure:

   (a) would impede law enforcement;

   (b) might prejudice fair competition between suppliers;

   (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or

   (d) would otherwise be contrary to the public interest.

Article 10.17: Transparency and Post-Award Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform suppliers that have submitted tenders of its contract award decision. Subject to Article 10.16.2 and 10.16.3, a procuring entity shall, upon request, provide an unsuccessful supplier with the reasons that the procuring entity did not select that supplier's tender and the relative advantages of the successful supplier's tender.

2. Not later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice regarding that award according to the regulations and procedures of that Party.

Maintenance of Records

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:

   (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 10.13 and

   (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

Article 10.18: Domestic Review Procedures

1. Each Party shall provide a timely, effective, transparent, and non-discriminatory administrative or judicial review procedure through which a supplier may challenge:

   (a) a breach of this Chapter; or

   (b) when the supplier does not have a right to directly challenge a breach of this Chapter under the law of a Party, a failure to comply with a Party's measures implementing this Chapter.

2. The procedural rules for all challenges shall be in writing and made generally available.

3. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the procuring entity and the supplier to seek resolution of the complaint through consultations. The procuring entity shall accord impartial and timely consideration to any such complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or its right to seek corrective measures under the administrative or judicial review procedure.

4. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.

5. Each Party shall maintain at least one impartial administrative or judicial authority (hereinafter referred to as "review body") that is independent of its procuring entities to receive and review, in a non-discriminatory, timely, transparent and effective manner, complaints that a supplier of a Party submits, in accordance with the Party's law, relating to a covered procurement.

6. Where a review body other than an authority referred to in paragraph 5 initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity whose procurement is the subject of the challenge.

7. Each Party shall ensure that a review body, that is not a court, shall have its decision subject to judicial review or have procedures that provide that:

   (a) the procuring entity shall respond in writing to the challenge and disclose all relevant documents to the review body;

   (b) the participants to the proceedings (hereinafter referred to as "participants") shall have the right to be heard prior to a decision of the review body being made on the challenge;

   (c) the participants shall have the right to be represented and accompanied;

   (d) the participants shall have access to all proceedings;

   (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and

   (f) decisions or recommendations relating to supplier challenges shall be provided, in a timely manner, in writing, with an explanation of the basis for each decision or recommendation.

8. Each Party shall adopt or maintain procedures that provide for:

   (a) rapid interim measures to preserve the supplier's opportunity to participate in the procurement. Such interim measures may result in suspension of the procurement process. The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether such measures should be applied. Just cause for not acting shall be provided in writing; and

   (b) where a review body has determined that there has been a breach of this Chapter or a failure, corrective action, or compensation for the loss or damages suffered, which may be limited to either the costs for the preparation of the tender or the costs relating to the challenge, or both.

Article 10.19: Rectifications and Modifications to Coverage

1. A Party may make rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedule, included in Annex 10A and Annex 10B, provided that it notifies the other Party in writing and the other Party does not object in writing within 45 days from notification. A Party that makes such a rectification or minor amendment need not provide compensatory adjustments to the other Party.

2. A Party may otherwise modify its coverage under this Chapter provided that:

   (a) it notifies the other Party in writing and simultaneously offers acceptable compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing prior to the modification, where necessary; and

   (b) no objection in writing was submitted by the other Party within 30 days of notification.

3. A Party need not provide compensatory adjustments when proposing a modification on the grounds that government control or influence over the entity's covered procurement has been effectively eliminated. Where a Party objects to the assertion that such government control or influence has been effectively eliminated, the objecting Party may request further information or consultations with a view to clarifying the nature of any government control or influence and of reaching agreement on the procuring entity's continued coverage under this Chapter.

Article 10.20: SMEs' Participation

1. The Parties recognize the importance of the participation of SMEs in government procurement.

2. The Parties also recognize the importance of business alliances between suppliers of each Party, and in particular of SMEs, including through joint participation in tendering procedures.

3. The Parties shall work jointly towards exchanging information and facilitating SME access to government procurement procedures, methods, and contracting requirements, focused on SMEs' special needs.

4. The Parties reserve the right to apply a preferential procurement policy for their SMEs in accordance with their respective domestic laws and regulations as specified in Section G of their Schedules, included in Annex 10A and Annex 10B.

5. If a Party maintains a measure that provides preferential treatment for SMEs, the Party shall ensure that the measure, including the criteria for eligibility, is transparent. A Party maintaining a measure that provides preferential treatment for SMEs will notify the other Party of any changes in its preferential treatment to SMEs.

Article 10.21: Cooperation

1. The Parties recognize the importance of cooperation with a view to achieving a better understanding of their respective government procurement systems, as well as better access to their respective markets, in particular for SMEs.

2. The Parties shall cooperate in matters such as:

(a) the exchange of experiences and information, such as regulatory frameworks, government procurement systems, best practices, and statistics;

(b) the use of electronic communications in government procurement systems; or

(c) capacity assistance to suppliers with respect to access to the government procurement market.

Article 10.22: Further Negotiations

Upon request of a Party, 3 years after the date of entry into force of this Agreement, or, in the event that a Party offers additional advantages with regard to its respective government procurement market access coverage agreed under this Chapter in the future to a non-Party, the Parties shall enter into negotiations with a view to extending coverage under this Chapter on a reciprocal basis.

Article 10.23: Ensuring Integrity in Procurement Practices

Each Party shall ensure that criminal or administrative measures exist to address corruption in its government procurement. These measures may include procedures to render ineligible for participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in fraudulent or other illegal actions in relation to government procurement in the Party's territory. Each Party shall also ensure that it has policies and procedures in place to eliminate, to the extent possible, or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.

Article 10.24: Financial Obligations

1. This Chapter does not entail any financial obligations for the Parties.

2. Each Party is responsible for any financial expenses it incurs to fulfil its role in this Chapter.

Article 10.25: Language

To improve market access to each Party's procurement market, each Party shall, where possible, use English in its publication of materials or information pursuant to Article 10.6, including in the publications listed in Section E of each Party's Schedule, included in Annex 10A and Annex 10B.

CHAPTER 11
INTELLECTUAL PROPERTY

Section A: General Provisions

Article 11.1: Definitions

For the purposes of this Chapter:

intellectual property rights refers to copyright and related rights, rights in trademarks, geographical indications, industrial designs, patents and layout-design (topographies) of integrated circuits, and rights in undisclosed information, as defined and described in the TRIPS Agreement and rights in plant varieties protected under the International Convention for the Protection of New Variety of Plants[36];

national of a Party includes, in respect of the relevant right, a natural or legal person of that Party that would meet the criteria for eligibility for protection provided for in the agreements listed in Article 1.3 of the TRIPS Agreement;

TRIPS Agreement means the Agreement on Trade Related Aspects of Intellectual Property Rights, contained in Annex 1C to the WTO Agreement; and

WIPO means the World Intellectual Property Organization.

Article 11.2: Objectives

1. The purpose of this Chapter is to increase the benefits from trade and investment through the protection and enforcement of intellectual property rights.

2. The protection and enforcement of intellectual property rights should contribute to the promotion of technological innovation and to the transfer and dissemination of technology, to the mutual advantage of producers and users of technological knowledge in a manner conducive to social and economic welfare, and to a balance of rights and obligations.

Article 11.3: Principles

1. A Party may, in formulating or amending its laws and regulations, adopt measures necessary to protect public health and nutrition, and to promote the public interest in sectors of vital importance to their socio-economic and technological development, provided that such measures are consistent with the TRIPS Agreement.

2. Appropriate measures, provided that they are consistent with the provisions of the TRIPS Agreement and this Chapter, may be needed to prevent the abuse of intellectual property rights by right holders or the resort to practices which unreasonably restrain trade, are anticompetitive, or adversely affect the international transfer of technology.

[36] Article 11.1 (a) will apply with respect to plant varieties only upon the ratification of the International Convention for the Protection of New Varieties of Plants by both Parties.

Article 11.4: Understandings in Respect of this Chapter

Having regard to the underlying public policy objectives of their national systems, the Parties recognise the need to:

(a) promote innovation and creativity;

(b) facilitate the diffusion of information, knowledge, technology, culture and the arts; and

(c) foster competition and open and efficient markets,

through their respective intellectual property systems, while respecting the principles of transparency and due process, including appropriate limitations and exceptions, taking into account the legitimate interests of right holders, users and the public interest.

Article 11.5: Nature and Scope of Obligations

Each Party shall, at a minimum, give effect to the provisions of this Chapter. A Party may, but shall not be obliged to, provide more extensive protection for, or enforcement of, intellectual property rights under its law than is required by this Chapter, provided that such protection or enforcement does not contravene the provisions of this Chapter. Each Party shall be free to determine the appropriate method of implementing the provisions of this Chapter within its own legal system and practice.

Article 11.6: International Agreements

The Parties affirm their rights and obligations under the TRIPS Agreement and any other multilateral agreements relating to intellectual property to which both Parties are a party.

Article 11.7: Intellectual Property and Public Health

The Parties recognise the principles established in the Declaration on The TRIPS Agreement and Public Health adopted on 14 November 2001 (hereinafter referred to as the "Doha Declaration") by the Ministerial Conference of the WTO and confirm that the provisions of this Chapter are without prejudice to the Doha Declaration.

Article 11.8: National Treatment

1. In respect of all categories of intellectual property covered in this Chapter, each Party shall accord to nationals of another Party treatment no less favourable than it accords to its own nationals with regard to the protection[37] of intellectual property rights without derogating from Articles 3 and 5 of the TRIPS Agreement.

2. With respect to secondary uses of phonograms, a Party may limit the rights of the performers and producers of another Party to the rights its persons are accorded within the jurisdiction of that other Party.

[37] For the purposes of this paragraph, "protection" shall include matters affecting the availability, acquisition, scope, maintenance, and enforcement of intellectual property rights, as well as matters affecting the use of intellectual property rights specifically covered by this Chapter.

3. A Party may avail itself of the exceptions permitted under paragraph 1 in relation to its judicial and administrative procedures, including requiring a national of another Party to designate an address for service of process in its territory or to appoint an agent in its territory, provided that such derogation is:

   (a) necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter; and

   (b) not applied in a manner that would constitute a disguised restriction on trade.

Article 11.9: Transparency

1. Each Party shall endeavor, subject to its law, to make available on the internet information that it makes public concerning applications for trademarks, geographical indications, designs, patents, and plant variety rights.[38]

2. Each Party shall, subject to its law, make available on the internet or otherwise make publicly available information that it makes public concerning registered or granted trademarks, geographical indications, designs, patents, and plant variety rights, sufficient to enable the public to become acquainted with those registered or granted rights.[39]

Article 11.10: Application of Chapter to Existing Subject Matter and Prior Acts

1. Unless otherwise provided in this Chapter, this Chapter gives rise to obligations in respect of all subject matter existing at the date of entry into force of this Agreement for a Party and that is protected on that date in the territory of a Party where protection is claimed, or that meets or comes subsequently to meet the criteria for protection under this Chapter.[40]

2. Unless provided in this Chapter, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement for that Party has fallen into the public domain in its territory.

3. This Chapter does not give rise to obligations in respect of acts that occurred before the date of entry into force of this Agreement for a Party.

Article 11.11: Exhaustion of Intellectual Property Rights

Nothing in this Chapter prevents a Party from determining whether or under what conditions the exhaustion of intellectual property rights applies under its legal system.[41]

---

[38] For greater certainty, paragraph 1 does not require a Party to make available on the internet the entire dossier for the relevant application.

[39] For greater certainty, paragraph 2 does not require a Party to make available on the internet the entire dossier for the relevant registered or granted intellectual property right.

[40] It is understood that this Article does not derogate from the provision of Article 70 of the TRIPS Agreement.

[41] For greater certainty, this Article is without prejudice to any provisions addressing the exhaustion of intellectual property rights in international agreements to which a Party is a party.

Article 11.12: Procedural Aspects of Examination, Opposition and Cancellation of Certain Registered Industrial Property Rights

Each Party shall provide a system for the examination and registration of trademarks, patents, and industrial designs which includes, among other things:

(a) communicating to the applicant in writing, which may be by electronic means, the reasons for any refusal to register a trademark, patent, or industrial design;

(b) providing the applicant with an opportunity to respond to communications from the competent authorities, to contest any initial refusal, and to make a judicial appeal of any final refusal to register a trademark;

(c) providing an opportunity for interested parties to seek revocation, cancellation, or invalidation of a registered trademark, patent, or industrial design, and, in addition, may provide an opportunity for interested parties to oppose the registration of a trademark, patent, or industrial design; and

(d) requiring decisions in opposition and cancellation proceedings to be reasoned and in writing, which may be provided by electronic means.

Section B: Cooperation

Article 11.13: Cooperation Activities and Initiatives

The Parties shall endeavour to cooperate on the subject matter covered by this Chapter, such as through appropriate coordination, training, and exchange of information between the respective intellectual property offices of the Parties or other institutions as determined by each Party. Cooperation may cover areas such as:

(a) developments in domestic and international intellectual property policy;

(b) education and awareness relating to intellectual property;

(c) implementation of multilateral intellectual property agreements, such as those concluded or administered under the auspices of WIPO;

(d) enforcement of intellectual property rights;

(e) cooperation between the national patent offices including possible work sharing; and

(f) any other area related to intellectual property to which both Parties will agree.

Article 11.14: Cooperation on Request

1. Each Party, on request of the other Party, shall favorably consider assisting with inquiries and questions regarding intellectual property rights.

2. Cooperation activities and initiatives undertaken under this Chapter shall be subject to the availability of resources, and on request and on terms and conditions mutually agreed upon between the Parties.

Section C: Trademarks

Article 11.15: Trademark Protection

Each Party shall ensure that any signs or any combination of signs capable of distinguishing the goods and services of one undertaking from those of other undertakings shall be capable of constituting a trademark. Such signs, in particular, words including personal names, letters, numerals, figurative elements, three-dimensional shapes, and combinations of colours, as well as any combination of such signs, shall be eligible for registration as trademarks. Where signs are not inherently capable of distinguishing the relevant goods or services, the Parties may make registrability depend on distinctiveness acquired through use. Neither Party shall deny registration of a trademark solely on the grounds that the sign of which it is composed is a sound.[42]

Article 11.16: Use of Identical or Similar Signs

Each Party shall provide that the owner of a registered trademark has the exclusive right to prevent third parties that do not have the owner's consent from using, in the course of trade, identical or similar signs[43] for goods or services identical or similar to those goods or services in respect of which the owner's trademark is registered where such use would result in a likelihood of confusion. In the case of the use of an identical sign for identical goods or services, a likelihood of confusion shall be presumed. The rights described above shall not prejudice any existing prior rights, nor shall they affect the possibility of Parties making rights available on the basis of use.

Article 11.17: Well-Known Trademarks

1. No Party shall require as a condition for determining that a trademark is well-known that the trademark has been registered in the Party or in another jurisdiction, included on a list of well-known trademarks, or given prior recognition as a well-known trademark.

2. Article 6bis of the Paris Convention shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those in respect of which a trademark is registered, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the registered trademark and provided that the interests of the owner of the registered trademark are likely to be damaged by such use.

3. The Parties recall the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks as adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO from 20-29 September 1999.

4. Each Party shall provide for appropriate measures to refuse the application or cancel the registration and prohibit the use of a trademark that is identical or similar to a well-

[42] A Party may require an adequate description, which may include a graphical representation, of the trademark.

[43] For greater certainty, the Parties understand that this Article should not be interpreted to affect their rights and obligations under Articles 22, 23, and 24 (3)-(9) of the TRIPS Agreement.

known trademark for identical or similar goods or services if the use of that trademark is likely to cause confusion with the prior well-known trademark. A Party may also provide such measures including in cases in which the subsequent trademark is likely to deceive.

Article 11.18: Classification of Goods and Services

Each Party shall adopt or maintain a trademark classification system that is consistent with the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks, done at Nice on 15 June 1957 (Geneva Act 1977, as amended 1979).

Article 11.19: Term of Protection for Trademarks

Each Party shall provide that initial registration and each renewal of registration of a trademark is for a term of no less than 10 years.

Article 11.20: Exceptions

A Party may provide limited exceptions to the rights conferred by a trademark, such as fair use of descriptive terms, provided that those exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

Section D: Geographical Indications

Article 11.21: Geographical Indications

1. For the purposes of this Chapter, a geographical indication means an indication that identifies a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin.

2. The Parties recognise that geographical indications may be protected through a trademark or *sui generis* system or other legal means that is consistent with the TRIPS Agreement.

Section E: Patents and Industrial Designs

Subsection A: Patents

Article 11.22: Grace Period

Each Party, subject to its laws and regulations, may disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step if the public disclosure:

(a) was made by the inventor, patent applicant, or a person that obtained the information from the inventor or patent applicant; and

(b) occurred within twelve months prior to the date of filing of the application.

Article 11.23: Patentable Subject Matter

1. Each Party shall make patents available for any invention, whether a product or process, in all fields of technology, provided that the invention is new, involves an inventive step and is capable of industrial application.[44] In addition, each Party may provide that a patent shall be available for any new use or method of using a known product.

2. Each Party may exclude from patentability[45]:

   (a) inventions, the prevention within its territory of the commercial exploitation of which is necessary to protect *ordre public* or morality, including to protect human, animal, or plant life or health or to avoid serious prejudice to the environment, provided that such exclusion is not made merely because the exploitation is prohibited by its law; and

   (b) diagnostic, therapeutic, and surgical methods for the treatment of humans or animals.

Article 11.24: Exceptions

A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

Subsection B: Industrial Designs

Article 11.25: Design Protection

1. The Parties shall ensure in their national law adequate and effective protection of industrial designs.

2. The Parties shall ensure that requirements for securing or enforcing registered design protection do not unreasonably impair the opportunity to obtain or enforce such protection.

3. The duration of protection available for registered industrial designs shall amount to a period of at least 20 years.[46]

[44] For purposes of this Article, the terms "inventive step" and "capable of industrial application" may be deemed by a Party to be synonymous with the terms "non-obvious" and "useful" respectively.

[45] For greater certainty, it is understood that this paragraph does not prevent a Party from legislating exceptions to patentability that are consistent with Article 27 of the TRIPS Agreement.

[46] It is understood that with regard to registered designs that the duration of protection may be based upon renewable incremental periods of protection totaling at least 20 years measured from the date on which an application for such protection was submitted. It is further understood that where a Party requires examination of such application as a condition of grant of the right, that enforcement of such right may begin as of the date such right is granted. It is further understood that the Parties are not obligated under this Chapter to accord national treatment with respect to unregistered design rights arising in the territory of the other Party.

Section F: Copyright and Related Rights

Article 11.26: Right of Reproduction

Each Party shall provide[47]to authors and producers of phonograms[48] the exclusive right to authorise or prohibit all reproduction of their works or phonograms in any manner or form, including in electronic form.

Article 11.27: Right of Communication to the Public

Without prejudice to Article 11(1)(ii), Article 11bis(1)(i) and (ii), Article 11ter(1)(ii), Article 14(1)(ii), and Article 14bis(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorise or prohibit the communication to the public of their works,[49] by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them. [50]

Article 11.28: Related Rights

1. In accordance with their rights and obligations under the Rome Convention, 1961, and the TRIPS Agreement, each Party shall provide that the protection provided for performers shall at least include the possibility of preventing:

   (a) the broadcasting and communication to the public, without their consent, of their live performance, except where the performance used in the broadcasting or public communication is itself already a broadcast performance or is made; and

   (b) the fixation, without their consent, of their unfixed performance.

2. A Party may provide to performers the exclusive right to authorise or prohibit the broadcasting or any communication to the public of their performances, by wire or wireless means, and the making available to the public of those performances in such a way that members of the public may access them from a place and at a time individually chosen by them.

3. A Party may provide to producers of phonograms the exclusive right to authorise or prohibit the broadcasting or any communication to the public of their phonograms, by wire or wireless means. Each Party shall provide phonogram producers with the exclusive right of authorizing the making available to the public of their phonograms,

---

[47] For greater certainty, the Parties understand that it is a matter for each Party's law to prescribe that works, performances, or phonograms, in general, or any specified categories of works, performances, and phonograms are not protected by copyright or related rights unless the work, performance, or phonogram has been fixed in some material form.

[48] References to "authors and producers of phonograms" refer also to any of their successors in interest.

[49] For Israel, it is understood that "communication to the public" may be satisfied by granting to authors the exclusive right to authorize or prohibit the public performance of their works, the broadcast, by wire or wireless means, of their works, and the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

[50] The Parties understand that the mere provision of physical facilities for enabling or making a communication does not in itself amount to communication within the meaning of this Chapter or the Berne Convention. The Parties further understand that nothing in this Article precludes a Party from applying Article 11bis(2) of the Berne Convention.

by wire or wireless means, in such a way that members of the public may access them from a place and at a time individually chosen by them.

Article 11.29: Limitations and Exceptions

1. With respect to this Section, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.

2. This Article does not reduce or extend the scope of applicability of the limitations and exceptions permitted by the TRIPS Agreement, the Berne Convention, the Rome Convention, the WIPO Copyright Treaty (WCT) (1996) or the WIPO Performances and Phonograms Treaty (WPPT) (1996).

Section G: Enforcement

Article 11.30: General Obligation in Enforcement

Each Party shall ensure that enforcement procedures as specified in this Section are available under its law so as to permit effective action against any act of infringement of intellectual property rights covered by this Chapter, including expeditious remedies to prevent infringements and remedies that constitute a deterrent to future infringements. These procedures shall be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

Article 11.31: Border Measures

10. Disclosures made pursuant to this Code of Conduct do not determine whether or under what circumstances the Parties will disqualify:

(a) a candidate or panelist from being appointed to or serving as a member of a panel; or

(b) an expert or assistant from participating in panel proceedings.

Performance of Duties

11. A panelist shall be available to perform, and shall perform, his or her duties thoroughly and expeditiously throughout the course of the proceeding.

If the Responding Party asserts that a measure is subject to an exception or exemption under this Agreement, it shall have the burden of establishing that the exception or exemption applies.

Ex Parte Contacts

30. The panel shall not meet with or contact a Party in the absence of the other Party. Subject to Article 15.11.7, a panelist shall not discuss any aspect of the subject matter of the proceeding with the Parties in the absence of the other panelists.
